

Subject index

Volume 67 (2005)

Acyclovir; Herpes simplex viruses; Herbal medicine; Famciclovir; Acyclovir-resistance; Antiviral; Anti-HSV; Chakma Talika Chikitsa; Structure–activity relationship; Ethnomedicine; Traditional medicine **67**, 107

Acyclovir-resistance; Herpes simplex viruses; Herbal medicine; Acyclovir; Famciclovir; Antiviral; Anti-HSV; Chakma Talika Chikitsa; Structure–activity relationship; Ethnomedicine; Traditional medicine **67**, 107

Alkaline phosphatase; Hepatitis C virus; Antiviral activity **67**, 76

Anti-HSV activity; *P. urinaria*; Plant; Early stage of infection; Virus infectivity **67**, 24

Anti-HSV; Herpes simplex viruses; Herbal medicine; Acyclovir; Famciclovir; Acyclovir-resistance; Antiviral; Chakma Talika Chikitsa; Structure–activity relationship; Ethnomedicine; Traditional medicine **67**, 107

Antisense RNA; Virus resistance; Transgenic shrimp; Taura syndrome virus; TSV coat-protein; Transfection **67**, 141

Antiviral activity; Hepatitis C virus; Alkaline phosphatase **67**, 76

Antiviral activity; Vaccinia virus; Cowpox virus; Pro-nucleotides; Polyanionic compounds **67**, 147

Antiviral screen; HIV; Novel inhibitors; Drug discovery **67**, 121

Antiviral; Herpes simplex viruses; Herbal medicine; Acyclovir; Famciclovir; Acyclovir-resistance; Anti-HSV; Chakma Talika Chikitsa; Structure–activity relationship; Ethnomedicine; Traditional medicine **67**, 107

Antiviral; West Nile virus; Error catastrophe; Ribavirin; Mutagenesis **67**, 38

Antivirals; HIV (AIDS); HBV (Hepatitis B); HSVC (Herpes Simplex); VZV (Herpes Zoster); DNA viruses **67**, 56

Binding; Envelope; gp120; CCR5; Chemokine; Receptor; HIV-1; Entry; Treatments **67**, 83

CCR5; Envelope; gp120; Binding; Chemokine; Receptor; HIV-1; Entry; Treatments **67**, 83

Chakma Talika Chikitsa; Herpes simplex viruses; Herbal medicine; Acyclovir; Famciclovir; Acyclovir-resistance; Antiviral; Anti-HSV; Structure–activity relationship; Ethnomedicine; Traditional medicine **67**, 107

Chemokine; Envelope; gp120; Binding; CCR5; Receptor; HIV-1; Entry; Treatments **67**, 83

Combination therapy; Hepatitis C virus; IFN- α ; IFN- γ ; Polymorphism; Ribavirin **67**, 93

Cowpox virus; Vaccinia virus; Antiviral activity; Pro-nucleotides; Polyanionic compounds **67**, 147

DNA viruses; Antivirals; HIV (AIDS); HBV (Hepatitis B); HSVC (Herpes Simplex); VZV (Herpes Zoster) **67**, 56

Drug discovery; HIV; Antiviral screen; Novel inhibitors **67**, 121

Drug screening; Severe Acute Respiratory Syndrome coronavirus (SARS-CoV); Natural products; Lycorine; *Lycoris radiata* herb **67**, 18

Early stage of infection; Anti-HSV activity; *P. urinaria*; Plant; Virus infectivity **67**, 24

Enterovirus; Lactoferrin **67**, 31

Entry; Envelope; gp120; Binding; CCR5; Chemokine; Receptor; HIV-1; Treatments **67**, 83

Envelope; gp120; Binding; CCR5; Chemokine; Receptor; HIV-1; Entry; Treatments **67**, 83

Error catastrophe; West Nile virus; Ribavirin; Antiviral; Mutagenesis **67**, 38

Ethnomedicine; Herpes simplex viruses; Herbal medicine; Acyclovir; Famciclovir; Acyclovir-resistance; Antiviral; Anti-HSV; Chakma Talika Chikitsa; Structure–activity relationship; Traditional medicine **67**, 107

Famciclovir; Herpes simplex viruses; Herbal medicine; Acyclovir; Acyclovir-resistance; Antiviral; Anti-HSV; Chakma Talika Chikitsa; Structure–activity relationship; Ethnomedicine; Traditional medicine **67**, 107

gp120; Envelope; Binding; CCR5; Chemokine; Receptor; HIV-1; Entry; Treatments **67**, 83

HBeAg secretion; Hepatitis B virus-e antigen; *Phyllanthus urinaria*; NMR spectrometer 67, 163

HBV (Hepatitis B); Antivirals; HIV (AIDS); HSV (Herpes Simplex); VZV (Herpes Zoster); DNA viruses 67, 56

Hepatitis B virus-e antigen; *Phyllanthus urinaria*; NMR spectrometer; HBeAg secretion 67, 163

Hepatitis C virus (HCV); Interferon- α (IFN- α); Ribavirin (RIB); Interferon- γ (IFN- γ); Interleukin-4 (IL-4) 67, 46

Hepatitis C virus; Antiviral activity; Alkaline phosphatase 67, 76

Hepatitis C virus; Combination therapy; IFN- α ; IFN- γ ; Polymorphism; Ribavirin 67, 93

Herbal medicine; Herpes simplex viruses; Acyclovir; Famciclovir; Acyclovir-resistance; Antiviral; Anti-HSV; Chakma Talika Chikitsa; Structure-activity relationship; Ethnomedicine; Traditional medicine 67, 107

Herpes simplex virus; Resveratrol; Mouse 67, 155

Herpes simplex viruses; Herbal medicine; Acyclovir; Famciclovir; Acyclovir-resistance; Antiviral; Anti-HSV; Chakma Talika Chikitsa; Structure-activity relationship; Ethnomedicine; Traditional medicine 67, 107

HIV (AIDS); Antivirals; HBV (Hepatitis B); HSV (Herpes Simplex); VZV (Herpes Zoster); DNA viruses 67, 56

HIV; Antiviral screen; Novel inhibitors; Drug discovery 67, 121

HIV; Mutagenesis; Novel nucleoside analog 67, 1

HIV-1; Envelope; gp120; Binding; CCR5; Chemokine; Receptor; Entry; Treatments 67, 83

HIV-1; KP-1212; Mutagen; Reverse transcriptase; Nucleoside analog 67, 10

HSV (Herpes Simplex); Antivirals; HIV (AIDS); HBV (Hepatitis B); VZV (Herpes Zoster); DNA viruses 67, 56

IFN- α ; Combination therapy; Hepatitis C virus; IFN- γ ; Polymorphism; Ribavirin 67, 93

IFN- γ ; Combination therapy; Hepatitis C virus; IFN- α ; Polymorphism; Ribavirin 67, 93

Interferon- α (IFN- α); Ribavirin (RIB); Hepatitis C virus (HCV); Interferon- γ (IFN- γ); Interleukin-4 (IL-4) 67, 46

Interferon- γ (IFN- γ); Interferon- α (IFN- α); Ribavirin (RIB); Hepatitis C virus (HCV); Interleukin-4 (IL-4) 67, 46

Interleukin-4 (IL-4); Interferon- α (IFN- α); Ribavirin (RIB); Hepatitis C virus (HCV); Interferon- γ (IFN- γ) 67, 46

Ion transport blockers; Rhinovirus 67, 98

KP-1212; Mutagen; HIV-1; Reverse transcriptase; Nucleoside analog 67, 10

Lactoferrin; Enterovirus 67, 31

Lycorine; Severe Acute Respiratory Syndrome coronavirus (SARS-CoV); Drug screening; Natural products; *Lycoris radiata* herb 67, 18

***Lycoris radiata* herb**; Severe Acute Respiratory Syndrome coronavirus (SARS-CoV); Drug screening; Natural products; Lycorine 67, 18

Mouse; Resveratrol; Herpes simplex virus 67, 155

Mutagen; KP-1212; HIV-1; Reverse transcriptase; Nucleoside analog 67, 10

Mutagenesis; HIV; Novel nucleoside analog 67, 1

Mutagenesis; West Nile virus; Error catastrophe; Ribavirin; Antiviral 67, 38

Natural products; Severe Acute Respiratory Syndrome coronavirus (SARS-CoV); Drug screening; Lycorine; *Lycoris radiata* herb 67, 18

NMR spectrometer; Hepatitis B virus-e antigen; *Phyllanthus urinaria*; HBeAg secretion 67, 163

Novel inhibitors; HIV; Antiviral screen; Drug discovery 67, 121

Novel nucleoside analog; HIV; Mutagenesis 67, 1

Nucleoside analog; KP-1212; Mutagen; HIV-1; Reverse transcriptase 67, 10

P. urinaria; Anti-HSV activity; Plant; Early stage of infection; Virus infectivity 67, 24

Phyllanthus urinaria; Hepatitis B virus-e antigen; NMR spectrometer; HBeAg secretion 67, 163

Plant; Anti-HSV activity; *P. urinaria*; Early stage of infection; Virus infectivity 67, 24

Polyanionic compounds; Vaccinia virus; Cowpox virus; Antiviral activity; Pro-nucleotides 67, 147

Polymorphism; Combination therapy; Hepatitis C virus; IFN- α ; IFN- γ ; Ribavirin 67, 93

Pro-nucleotides; Vaccinia virus; Cowpox virus; Antiviral activity; Polyanionic compounds 67, 147

Receptor; Envelope; gp120; Binding; CCR5; Chemokine; HIV-1; Entry; Treatments 67, 83

Resveratrol; Herpes simplex virus; Mouse 67, 155

Reverse transcriptase; KP-1212; Mutagen; HIV-1; Nucleoside analog 67, 10

Rhinovirus; Ion transport blockers 67, 98

Ribavirin (RIB); Interferon- α (IFN- α); Hepatitis C virus (HCV); Interferon- γ (IFN- γ); Interleukin-4 (IL-4) 67, 46

Ribavirin; Combination therapy; Hepatitis C virus; IFN- α ; IFN- γ ; Polymorphism 67, 93

Ribavirin; West Nile virus; Error catastrophe; Antiviral; Mutagenesis 67, 38

Severe Acute Respiratory Syndrome coronavirus (SARS-CoV); Drug screening; Natural products; Lycorine; *Lycoris radiata* herb 67, 18

Structure–activity relationship; Herpes simplex viruses; Herbal medicine; Acyclovir; Famciclovir; Acyclovir-resistance; Antiviral; Anti-HSV; Chakma Talika Chikitsa; Ethnomedicine; Traditional medicine 67, 107

Taura syndrome virus; Virus resistance; Transgenic shrimp; Antisense RNA; TSV coat-protein; Transfection 67, 141

Traditional medicine; Herpes simplex viruses; Herbal medicine; Acyclovir; Famciclovir; Acyclovir-resistance; Antiviral; Anti-HSV; Chakma Talika Chikitsa; Structure–activity relationship; Ethnomedicine 67, 107

Transfection; Virus resistance; Transgenic shrimp; Taura syndrome virus; Antisense RNA; TSV coat-protein 67, 141

Transgenic shrimp; Virus resistance; Taura syndrome virus; Antisense RNA; TSV coat-protein; Transfection 67, 141

Treatments; Envelope; gp120; Binding; CCR5; Chemokine; Receptor; HIV-1; Entry 67, 83

TSV coat-protein; Virus resistance; Transgenic shrimp; Taura syndrome virus; Antisense RNA; Transfection 67, 141

Vaccinia virus; Cowpox virus; Antiviral activity; Pro-nucleotides; Polyanionic compounds 67, 147

Virus infectivity; Anti-HSV activity; *P. urinaria*; Plant; Early stage of infection 67, 24

Virus resistance; Transgenic shrimp; Taura syndrome virus; Antisense RNA; TSV coat-protein; Transfection 67, 141

VZV (Herpes Zoster); Antivirals; HIV (AIDS); HBV (Hepatitis B); HSV (Herpes Simplex); DNA viruses 67, 56

West Nile virus; Error catastrophe; Ribavirin; Antiviral; Mutagenesis 67, 38
