

Subject index

Volume 68 (2005)

- Acyclic nucleoside phosphonates**; Tenofovir; HTLV-1; Reverse transcriptase; Reverse transcriptase inhibitors **68**, 154
- Aerosol delivery**; RSV; Antiviral; Cotton rats; Respiratory syncytial virus; VP14637 **68**, 18
- Anti-adhesion**; Influenza virus; Sialylglycopolymer; Antivirals; Mice **68**, 116
- Antiviral activity**; Arenavirus; Hemorrhagic fever virus; Brassinosteroid **68**, 88
- Antiviral activity**; Dendrimer SPL7013; Herpes simplex viruses; Microbicide **68**, 139
- Antiviral activity**; *Schefflera heptaphylla*; Dicafeoylquinic acids; RSV **68**, 1
- Antiviral**; Baicalein; Genistein; Cytomegalovirus; Entry; Immediate-early function **68**, 124
- Antiviral**; Pleconaril; Picornavirus; Common cold; Natural phenotypic resistance **68**, 135
- Antiviral**; RSV; Cotton rats; Respiratory syncytial virus; VP14637; Aerosol delivery **68**, 18
- Antiviral therapy**; HBV infection; Foscarnet **68**, 147
- Antivirals**; Flavivirus; West Nile virus; Hepatitis C virus; Nucleoside analog; Broad-spectrum inhibitor **68**, 49
- Antivirals**; Influenza virus; Sialylglycopolymer; Mice; Anti-adhesion **68**, 116
- Antivirals**; Inhibitors; Respiratory syncytial virus; Natural product; Ethnobotanicals **68**, 163
- Arenavirus**; Hemorrhagic fever virus; Brassinosteroid; Antiviral activity **68**, 88
- Artemisinin**; Artesunate; Curcumin; Traditional Chinese medicine; Hepatitis B **68**, 75
- Artesunate**; Artemisinin; Curcumin; Traditional Chinese medicine; Hepatitis B **68**, 75
- Baicalein**; Genistein; Antiviral; Cytomegalovirus; Entry; Immediate-early function **68**, 124
- BIAcore**; Naïve antibody library; Single-chain variable region fragments; Pre-S1 protein **68**, 109
- Brassinosteroid**; Arenavirus; Hemorrhagic fever virus; Antiviral activity **68**, 88
- Broad-spectrum inhibitor**; Antivirals; Flavivirus; West Nile virus; Hepatitis C virus; Nucleoside analog **68**, 49
- 3C-like protease**; SARS-coronavirus; *Isatis indigotica* root; Phenolic compounds **68**, 36
- Catechins**; Influenza virus; Green tea; EGCG; ECG; Hemagglutination **68**, 66
- CCR5**; HIV coreceptors; HAART; Coreceptor inhibitor **68**, 96
- Common cold**; Pleconaril; Picornavirus; Antiviral; Natural phenotypic resistance **68**, 135
- Coreceptor inhibitor**; HIV coreceptors; HAART; CCR5 **68**, 96
- Cotton rats**; RSV; Antiviral; Respiratory syncytial virus; VP14637; Aerosol delivery **68**, 18
- Curcumin**; Artemisinin; Artesunate; Traditional Chinese medicine; Hepatitis B **68**, 75
- Cytomegalovirus**; Baicalein; Genistein; Antiviral; Entry; Immediate-early function **68**, 124
- Dendrimer SPL7013**; Herpes simplex viruses; Antiviral activity; Microbicide **68**, 139
- Dicafeoylquinic acids**; *Schefflera heptaphylla*; Antiviral activity; RSV **68**, 1
- ECG**; Influenza virus; Catechins; Green tea; EGCG; Hemagglutination **68**, 66
- EGCG**; Influenza virus; Catechins; Green tea; ECG; Hemagglutination **68**, 66
- Entry**; Baicalein; Genistein; Antiviral; Cytomegalovirus; Immediate-early function **68**, 124
- Ethnobotanicals**; Inhibitors; Antivirals; Respiratory syncytial virus; Natural product **68**, 163
- Fibroblast**; Varicella-zoster virus; Gene transcription **68**, 56
- Flavivirus**; Antivirals; West Nile virus; Hepatitis C virus; Nucleoside analog; Broad-spectrum inhibitor **68**, 49
- Foscarnet**; HBV infection; Antiviral therapy **68**, 147
- Gene transcription**; Varicella-zoster virus; Fibroblast **68**, 56

- Genistein**; Baicalein; Antiviral; Cytomegalovirus; Entry; Immediate-early function **68, 124**
- Green tea**; Influenza virus; Catechins; EGCG; ECG; Hemagglutination **68, 66**
- HAART**; HIV coreceptors; CCR5; Coreceptor inhibitor **68, 96**
- HBV infection**; Foscarnet; Antiviral therapy **68, 147**
- Hemagglutination**; Influenza virus; Catechins; Green tea; EGCG; ECG **68, 66**
- Hemorrhagic fever virus**; Arenavirus; Brassinosteroid; Antiviral activity **68, 88**
- Hepatitis B**; Artemisinin; Artesunate; Curcumin; Traditional Chinese medicine **68, 75**
- Hepatitis C virus**; Antivirals; Flavivirus; West Nile virus; Nucleoside analog; Broad-spectrum inhibitor **68, 49**
- Herpes simplex viruses**; Dendrimer SPL7013; Antiviral activity; Microbicide **68, 139**
- HIV coreceptors**; HAART; CCR5; Coreceptor inhibitor **68, 96**
- HIV**; Tipranavir; Resistance **68, 27**
- HTLV-1**; Acyclic nucleoside phosphonates; Tenofovir; Reverse transcriptase; Reverse transcriptase inhibitors **68, 154**
- Immediate-early function**; Baicalein; Genistein; Antiviral; Cytomegalovirus; Entry **68, 124**
- Influenza**; Neuraminidase inhibitors; Resistance **68, 43**
- Influenza**; Viramidine; Ribavirin **68, 10**
- Influenza virus**; Catechins; Green tea; EGCG; ECG; Hemagglutination **68, 66**
- Influenza virus**; Sialylglycopolymer; Antivirals; Mice; Anti-adhesion **68, 116**
- Inhibitors**; Antivirals; Respiratory syncytial virus; Natural product; Ethnobotanicals **68, 163**
- Isatis indigotica* root**; SARS-coronavirus; 3C-like protease; Phenolic compounds **68, 36**
- Methylene blue**; West Nile virus **68, 84**
- Mice**; Influenza virus; Sialylglycopolymer; Antivirals; Anti-adhesion **68, 116**
- Microbicide**; Dendrimer SPL7013; Herpes simplex viruses; Antiviral activity **68, 139**
- Natural phenotypic resistance**; Pleconaril; Picornavirus; Common cold; Antiviral **68, 135**
- Naïve antibody library**; Single-chain variable region fragments; Pre-S1 protein; BIAcore **68, 109**
- Natural product**; Inhibitors; Antivirals; Respiratory syncytial virus; Ethnobotanicals **68, 163**
- Neuraminidase inhibitors**; Influenza; Resistance **68, 43**
- Nucleoside analog**; Antivirals; Flavivirus; West Nile virus; Hepatitis C virus; Broad-spectrum inhibitor **68, 49**
- Phenolic compounds**; SARS-coronavirus; 3C-like protease; *Isatis indigotica* root **68, 36**
- Picornavirus**; Pleconaril; Common cold; Antiviral; Natural phenotypic resistance **68, 135**
- Pleconaril**; Picornavirus; Common cold; Antiviral; Natural phenotypic resistance **68, 135**
- Pre-S1 protein**; Naïve antibody library; Single-chain variable region fragments; BIAcore **68, 109**
- Resistance**; Influenza; Neuraminidase inhibitors **68, 43**
- Resistance**; Tipranavir; HIV **68, 27**
- Respiratory syncytial virus**; Inhibitors; Antivirals; Natural product; Ethnobotanicals **68, 163**
- Respiratory syncytial virus**; RSV; Antiviral; Cotton rats; VP14637; Aerosol delivery **68, 18**
- Reverse transcriptase**; Acyclic nucleoside phosphonates; Tenofovir; HTLV-1; Reverse transcriptase inhibitors **68, 154**
- Reverse transcriptase inhibitors**; Acyclic nucleoside phosphonates; Tenofovir; HTLV-1; Reverse transcriptase **68, 154**
- Ribavirin**; Viramidine; Influenza **68, 10**
- RSV**; Antiviral; Cotton rats; Respiratory syncytial virus; VP14637; Aerosol delivery **68, 18**
- RSV**; *Schefflera heptaphylla*; Dicafeoylquinic acids; Antiviral activity **68, 1**
- SARS-coronavirus**; 3C-like protease; *Isatis indigotica* root; Phenolic compounds **68, 36**
- Schefflera heptaphylla***; Dicafeoylquinic acids; Antiviral activity; RSV **68, 1**
- Sialylglycopolymer**; Influenza virus; Antivirals; Mice; Anti-adhesion **68, 116**
- Single-chain variable region fragments**; Naïve antibody library; Pre-S1 protein; BIAcore **68, 109**
- Tenofovir**; Acyclic nucleoside phosphonates; HTLV-1; Reverse transcriptase; Reverse transcriptase inhibitors **68, 154**
- Tipranavir**; HIV; Resistance **68, 27**
- Traditional Chinese medicine**; Artemisinin; Artesunate; Curcumin; Hepatitis B **68, 75**
- Varicella-zoster virus**; Fibroblast; Gene transcription **68, 56**
- Viramidine**; Ribavirin; Influenza **68, 10**
- VP14637**; RSV; Antiviral; Cotton rats; Respiratory syncytial virus; Aerosol delivery **68, 18**
- West Nile virus**; Antivirals; Flavivirus; Hepatitis C virus; Nucleoside analog; Broad-spectrum inhibitor **68, 49**
- West Nile virus**; Methylene blue **68, 84**
