

Notes to Authors

For a full and complete Instructions to Authors, please refer to *Antiviral Research*, Vol. 69, No. 1, pp. v–vii.
The instructions can also be found on the World Wide Web: access under <http://www.elsevier.com>

Electronic Submission

Authors should submit their articles electronically via the Elsevier Editorial System (EES) page of this journal <http://ees.elsevier.com/AVR>. The system automatically converts source files to a single Adobe Acrobat PDF version of the article, which is used in the peer-review process. Please note that even though manuscript source files are converted to PDF at submission for the review process, these source files are needed for further processing after acceptance. All correspondence, including notification of the Editor's decision and requests for revision, takes place by e-mail and via the Author's homepage, removing the need for a hard-copy paper trail.

English language help service: Upon request, Elsevier will direct authors to an agent who can check and improve the English of their paper (*before submission*). Please contact authorsupport@elsevier.com for further information.

Author enquiries

Authors can keep a track on the progress of their accepted article, and set up e-mail alerts informing them of changes to their manuscript's status, by using the "Track a Paper" feature of Elsevier's Author Gateway (<http://www.authors.elsevier.com>)

Full details for the electronic submission of artwork can be obtained from <http://www.elsevier.com/locate/authorartwork/>

Contact details for questions arising after acceptance of an article, especially those relating to proofs, are provided after registration of an article for publication.

Antiviral Research has no page charges
