
ANNOUNCEMENT

A conference on Diagnostic Immunology will be held from July 31 to August 5, 1977 at New England College, Henniker, New Hampshire. The conference, which is sponsored by the Engineering Foundation, will focus on two major themes:

1. The application of immunological techniques to the diagnosis of disease;
2. Progress in new immunological techniques.

Sessions will be divided into eight major topics of interest including: hormones, infectious diseases, immunologically mediated diseases and cancer immunology. The symposium is primarily reserved for invited principal contributors. However, sessions have been set aside for unsolicited papers. English will be the language used for all presentations. The symposium will be limited to 150 participants. Selection of participants will be based on their participation in the conference and on maintenance of a balance for both industry and the academic community. For further information contact any of the following members of the organizing committee.

Alec Sehon
Department of Immunology
Faculty of Medicine
University of Manitoba
Winnipeg, Manitoba, R3E 0W3 Canada

Theodore Goodfriend
Associate Professor of Medicine and
Pharmacology
University of Wisconsin School of Medicine
Madison, Wisconsin 53706

William Odell
Harbor General Hospital
Torrance, California 90509

Herman Friedman
Department of Microbiology
Albert Einstein Medical Center
Philadelphia, Pennsylvania 19141

Paul Maurer
Professor
Department of Biochemistry
Thomas Jefferson Medical College
Philadelphia, Pennsylvania 19170

Thomas Gill
Department of Pathology
University of Pittsburgh School of Medicine
Pittsburgh, Pennsylvania 15261

Howard H. Weetall
Senior Research Associate
Corning Glass Works
Sullivan Science Park
Corning, New York 14830

Gerald Odstrchel
Research Supervisor
Corning Glass Works
Sullivan Science Park
Corning, New York 14830
