

ANNOUNCEMENTS

International Interest Group for Biorecognition Technology

An International Society is being established to support both regional and international scientific exchange in the general area of biorecognition, the application of biorecognition concepts and methods, including affinity methods in biology and biotechnology. The interest group will provide a structural continuity and assist in the organization, scheduling support, and promotion of scientific meetings, and assist in publications relevant to the general area of biorecognition technology.

The interest group will be affiliated with the International Union of Biochemists (IUB).

If you wish to participate in scientific exchange in this exciting and growing area, we invite you to join as a Charter Member. Please complete the attached form and send in with your membership fee to:

The Secretariat
International Interest Group for Biorecognition Technology
FASEB
