INVITATION FOR MEMBERSHIP

International Interest Group for Biorecognition Technology

An International Society is being established to support both regional and international scientific exchange in the general area of biorecognition, the application of biorecognition concepts and methods, including affinity methods in biology and biotechnology. The interest group will provide a structural continuity and assist in the organization, scheduling support and promotion of scientific meetings, and assist in publications relevant to the general area of biorecognition technology.

The interest group will be affiliated with the International Union of Biochemists (IUB).

If you wish to participate in scientific exchange in this exciting and growing area, we invite you to join as a Charter Member. Please complete the attached form and send in with your membership fee to: The Secretariat, International Interest Group for Biorecognition Technology, FASEB, 9650 Rockville Pike, Bethesda, MD 20814 USA.

MEMBERSHIP FORM FOR THE

International Interest group for Biorecognition Technology

Name: _____

Affiliation: _____

Address: _____

Telephone No.: _____

Student, Annual: \$ 5.00*

Individual, Annual: 25.00

Individual, Lifetime: 100.00

Corporate, Annual: 100.00

Corporate, Lifetime: 1000.00**

Amount enclosed: \$ _____

*Introductory membership is for 1985–1987.

**Corporate sponsors are welcome to contribute larger amounts to help defray the initial unavoidable costs of founding an international organization.

1987 UCLA SYMPOSIA ON MOLECULAR AND CELLULAR BIOLOGY

February 21–April 10, 1987
UCLA, Los Angeles, California 90024

These symposia will include the following topics: molecular biology of intracellular protein sorting and organelle assembly; pharmacology and toxicology of proteins; protein purification: micro-to-macro; and protein structure and design. For further information, contact: UCLA Symposia, Molecular Biology Institute, University of California, Los Angeles, CA 90024. Telephone: (213) 206-6292; Telex: UCLA Symposia 9103427597

XII MEETING OF THE SOCIETY FOR LOW- TEMPERATURE BIOLOGY

March 25–27, 1987
Groningen, The Netherlands

This meeting, organized by the Red Cross Blood Bank of Groningen-Drenthe, features posters, free communications, and a symposium on low-temperature preservation of blood and solid organs. For further information, abstract forms, and registration contact: Secretariat 12th SLTB Meeting, Red Cross Blood Bank, Groningen-Drenthe, PO Box 1191, 9701 BD Groningen, The Netherlands. Telephone: 50-137777; Telex: 53942 AZGN

PROTEIN SEPARATIONS Principles and Processes

March 27–28, 1987
Hyatt Regency O'Hare
Chicago, Illinois

An intensive short course that will be of interest to readers of Applied Biochemistry and Biochemistry. The course fee is \$675.00, and enrollment is limited. For further information, contact: James E. Bailey, BRE Systems, 806 S. Lake Ave., Pasadena, CA 91106. Telephone: (818) 356-4116

NINTH SYMPOSIUM ON BIOTECHNOLOGY FOR FUELS AND CHEMICALS

*May 5-8, 1987
Hilton Harvest House Hotel
Boulder, Colorado*

Announcement and call for papers. Sponsored by: US Department of Energy, Biomass Energy Technology Division, Energy Conversion and Utilization Technologies Program, Oak Ridge National Laboratory, Solar Energy Research Institute. For further information, contact: Charles D. Scott, Oak Ridge National Laboratory, PO Box X, Oak Ridge, TN 37381.

THIRD INTERNATIONAL SYMPOSIUM ON BLOOD SUBSTITUTES

*May 26-28, 1987
Montreal, Quebec, Canada*

This international symposium will include the following topics: Polyhemoglobin, fluorocarbons, microencapsulated hemoglobin, conjugated hemoglobin, and other oxygen carriers. The format includes status papers, original research papers, workshops, discussions, and submitted abstracts. For further information, contact: Office of the Symposium Chairman, Professor T. M. S. Chang, Director, Artificial Cells and Organs Research Centre, Faculty of Medicine, McGill University, 3655 Drummond Street, Montreal, PQ, Canada, H3G 1Y6.

FIFTH INTERNATIONAL CONFERENCE ON PARTIONING IN AQUEOUS TWO-PHASE SYSTEMS

*August 16-21, 1987
Christ Church
Oxford, England*

This international conference will cover advances in separations using aqueous-phase systems in cell biology and biotechnology. For further information, contact: Dr. Derek Fisher, Department of Biochemistry and Chemistry, Royal Free Hospital School of Medicine, University of London, Rowland Hill Street, London, NW3 2PF, UK.

SEVENTH INTERNATIONAL BIODETERIORATION SYMPOSIUM

September 6–11, 1987
Emmanuel College
Cambridge, UK

This International Symposium on Biodeterioration will cover all aspects of the ways in which organisms damage materials and structures, and will include methods of prevention. For further information, contact: The Secretary, Mrs. C. C. Garlarde, Local Organizing Committee, Department of Biological Sciences, City of London Polytechnic, Old Castle Street, London E1 7NT, UK.

DIAGNOSTIC IMMUNOLOGY

October 18–23, 1987
Longboat Key Hilton Inn
Sarasota, FL

A call for papers is in progress for this meeting, which will include the following: Applications of monoclonal antibodies; automated immunoassay; nonradio immunoassay; and nucleic acid probes as diagnostic reagents.

Short papers and posters will be considered for presentation. For further information and a tentative agenda, contact: Harold Comerer, Engineering Foundation Conferences, 345 East 47th Street, New York, NY 10017. Telephone: (212) 705-7835.

APPLIED BIOCHEMISTRY AND BIOTECHNOLOGY

US Postal Service Statement of ownership, management, and circulation required by 39 USC 3685. One, title of publication, Applied Biochemistry and Biotechnology, ISSN 0273-2289; two, date of filing, September 25, 1986; three, frequency of issue, nine per year; four, complete mailing address of known office of publication, The Humana Press, PO Box 2148, Clifton NJ 07015; five, complete mailing address of the headquarters or general business office of the publishers, eighty-eight Crescent Ave., Passaic, NJ 07055; six, full names and complete mailing address of publisher and editor, publisher, Humana Press, PO Box 2148, Clifton, NJ 07015; editor, Howard H. Wostell, Corning Biomedical Research, 1 Kendall Square, Bldg. 250, Cambridge, MA 02139; seven, owner, Humana Press Inc., PO Box 2148, Clifton, NJ 07015; known bondholders, mortgagees, and other security holders owning or holding one percent or more of total amount of bonds, mortgages, or other securities, Thomas Lanigan and Julia Lanigan, c/o Humana Press, PO Box 2148, Clifton, NJ 07015; ten, extent and nature of circulation: A. average no. copies each issue during preceding twelve months and actual no. copies of single issue nearest to filing date: six hundred fifty three and six hundred fifty; B. paid circulation through dealers and carriers, street vendors, and counter sales: zero and zero; mail subscriptions: two hundred fifty four and two hundred fifty four; C. total paid circulation: same and same; D. free distribution by mail, carrier or other means of samples, complimentary and other free copies: forty three and forty three; E. total distribution: two hundred ninety seven and two hundred ninety seven; F. copies not distributed, 1. office use, left over, unaccounted, spoiled after printing: three hundred fifty six and three hundred fifty six; 2. returns from news agents: zero and zero; G. total: six hundred fifty three and six hundred fifty. I certify that the statements made by me are correct and complete, (signed) J. Barke, Vice President.
