Call for papers – Special Issue Environmental Chemistry

Dear Colleagues and Friends:

It is my pleasure to invite you and members of your research group to submit an article for a special issue of the *Arabian Journal of Chemistry*, on the subject of *Environmental Chemistry* for which I will serve as the Guest Editor.

There is no limitation on the topics as long as they fall in the regime of Environmental Chemistry. Examples include but are not limited to the chemistry associated with:

1. The climate
2. The atmosphere
3. Aquatic
4. Hazardous waste remediation.
5. Decolorization
6. Photocatalytic applications.

The objective in compiling the Special Issue on Environmental Chemistry is to offer chemists from different disciplines some exposure to the breadth and depth of this multifaceted field.

Submitted manuscripts must not have been previously published or be under review for possible publication. All papers will be reviewed following the regular reviewing procedure of the *Arabian Journal of Chemistry*.

Submission to the *Arabian Journal of Chemistry* will proceed totally online. Please use the following guidelines to prepare your article. Via the homepage of this journal (<http://ees.elsevier.com/arabjc>) you will be guided stepwise through the creation and uploading of the various files. The system automatically converts source files to a single Adobe Acrobat PDF version of the article, which is used in the peer-review process. Please note that even though the manuscript source files are converted to PDF at the time of submission for the review process, these source files are needed

for further processing after acceptance. All correspondence, including notification of the Editor's decision and requests for revision, takes place by e-mail and via the author's homepage, removing the need for a hard-copy paper trail. Please submit your article via <http://ees.elsevier.com/arabjc>. For more information see URL: <http://www.elsevier.com/locate/arabjc>.

The *Arabian Journal of Chemistry* is an English language, peer-reviewed scholarly publication in the area of chemistry. The Journal publishes original papers, reviews and short reports. The *Arabian Journal of Chemistry* is issued by the Arab Union of Chemists and is published by King Saud University together with the Saudi Chemical Society in collaboration with Elsevier and is edited by an international group of eminent researchers.

In order to avoid delays in publication of the special issue, only papers requiring no or minor revision will be accepted for this special issue. Those papers requiring major revision can be considered for later regular issues. The scientific quality of papers clearly falling within the scope of the Issue will be the only criteria for manuscript acceptance.

If you are interested in contributing your selected paper to this special issue, please send an e-mail to the guest editor including the tentative title of your contribution and the article type (review article or research paper).

The deadline for manuscript submission is the **12th of July 2013**, with an intended publication date of **27th of December 2013** as Issue 7/1. Your earlier and positive response will be highly appreciated.

Guest Editor in Chief of the Special Issue
