Victorian Romance Revival

June 2013

A large, textured tree trunk with deep grooves in its bark stands on the left side of the frame. The background is a dense forest of green trees, with sunlight filtering through the leaves, creating a dappled light effect. The ground is a mix of dirt and fallen leaves.

A woman with blonde hair styled in a messy, voluminous updo is the central figure. She wears a large, dark, feathery hat adorned with a small gold-colored bird ornament. Her face is decorated with dark, dramatic eye makeup and a small, ornate gold-colored accessory near her left eye. She has a small, circular gold-colored necklace. Her costume consists of a light-colored, long-sleeved jacket with intricate, swirling patterns and gold-colored trim. The jacket is open, revealing a dark, lace-up corset underneath. She is sitting on a wooden railroad track, holding a small, dark, rectangular object in her right hand. The background shows a blurred view of railroad tracks and a white fence in the distance.

Ask Cynthia

www.cynthiaangelina.blogspot.com

Have you seen the new movie *Great Gatsby* yet? Even if you haven't-I haven't, but did read the amazing book-you know that it's out in theatres and is definitely making a statement. The makeup & hair that are featured in the film are amazing and will be an inspiration for summer looks.

Accessories for your hair should include scarves, cute headbands, and head slides (think super cute bobby pins). These are fun and easy to use accessories whether you have long or short hair. You can create the looks by curling your luscious locks or maybe putting your hair up in a loosely-formed bun. If your hair is short, all you need to do is straighten it and apply an accessory of your choice.

Makeup may be minimal, but a red lip always makes a statement to match the sizzling nights of summer. To create the look, black liquid liner should be applied to the eyes. You can make your eyes dramatic by wearing a smoky eye or for a "Day" wear, simply use a nude or barely there eye shadow. To match those crimson lips, opt for a pink or berry color blush and voila! You are now a Gatsby girl!

From the Publisher

WHAT IS STEAMPUNK?

Yes, this is me wearing a “Fabulous” Kevin James Design. *wink,*wink.

So, what is STEAMPUNK you ask, well... this so happens to be one of my favorite subjects to talk about in fashion. There are no set guidelines! and the theme of our June issue of Avant Garde Magazine.

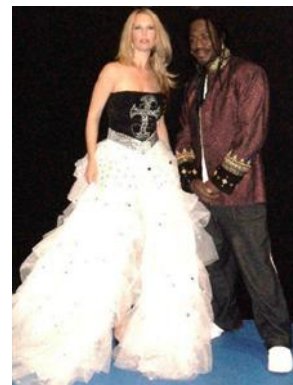

My other company Victorian Romance Revival is based on the Victorian, Romantic Goth, Steampunk fashion. Steampunk fashion has no set guidelines, but tends to synthesize modern styles influenced by the Victorian era. This may include gowns, corsets, petticoats and bustles; suits with vests, coats and spats; or military-inspired garments. Steampunk-influenced outfits will often be accented with a mixture of technological and period accessories: timepieces, parasols, goggles, and ray guns. Modern accessories like cell phones or music players can be found in steampunk-

outfits, after being modified to give them the appearance of Victorian-made objects. Aspects of steampunk fashion have been anticipated by mainstream high fashion, the Lolita fashion and aristocrat styles, neo-Victorianism, and the romantic goth subculture.

It's about having fun and being creative, I never did limit myself with restrictions, so I tend to naturally gravitate to the fashionably bizarre and eccentric with a touch of beauty. Beauty is in the eye of the beholder. I hope you enjoy our Steampunk edition of Avant Garde Magazine.

Amber Goldhammer

Like a child at play, artist Amber Goldhammer paints with joyful vision, transferring her innermost feelings onto the canvas. As a Fusionartist, Amber's art takes a spiritual path free from inhibition and filled with love. You can't help but smile as you enter the colorful and often tranquil world she creates.

Amber began painting with pigments, powders and waxes and using the human face as her subject. This form of art led her to Los Angeles where she continued working with various artists and celebrities. Needing a larger surface, her hands met the canvas and instantly she was in Love. She was free to roam on a never ending surface which allows her spirit to guide her hands in creating enchanting abstract forms.

With a focus of acrylic on canvas, Amber's artwork begins in a place of total surrender and pure freedom. Painting predominately with her hands, when they touch the canvas there is no thought, no photo to look at, no figure to draw. Pure bliss ensues as what has been created is truly unknown. The vision and emotion is left to the eyes of the beholder.

Pose it, Light it, Love it! Outtakes day one and two with photographer Michael Jordan.

Michael Jordan is the official Southwest Section PGA (SWSPGA) Junior Golf photographer. Michael has been a photo enthusiast for over 30 years. He picked up his first camera at the age of seven. He studied photography at the New York Institute of Photography. He now has a family with three young boys. His boys started golf lessons at an early age and quickly became very proficient at this sport. Being a proud father, Michael took many pictures of his children during practice and tournaments. When his boys are not playing golf, they join their father in photographing golfers. Michael and his boys specialize in taking great pictures on courses like Tuscany Falls and Blackstone Country Club. Knowing the layout of the golf courses is the key to getting great shots of the golfers.

A shot is over in only a matter of seconds, and being in the right spot at the right time (along with his eye for composition) sets Michael's photos apart from others.

Besides golf, Michael has captured portraits of Russell Crow, Denzel Washington, Ed Norton, Josh Groban, along with numerous other local celebrities.
