### **3rd International Symposium on Iron Transport, Storage and Metabolism**

**30 August to 2 September 1992, Strasbourg, France**

The *3rd International Symposium on Iron Transport, Storage and Metabolism* will be held in Strasbourg, France from 30 August to 2 September 1992. For the first time, it will be a Parallel Meeting to the 18th International IUPAC Symposium on the Chemistry of Natural Products. *Topics* will cover transport mechanisms in cells of different origins (mammalian, plant, fungal and bacterial, with emphasis on chemical, physicochemical, spectroscopic and genetic methods). Different sessions,

e.g. on siderophores, transferrin, hemoglobin, ferritin, non-heme iron will ensure that various biological systems are dealt with.

### **ISTERH Third International Conference NTES Fourth Nordic Conference**

**May 25–29, 1992, Stockholm, Sweden**

#### **MAIN TOPICS OF THE CONFERENCE:**

1. Analytical methods and quality control
2. Trace element speciation
3. Bioavailability of trace elements in various foods and drinking water
4. Hepatobiliary metabolism of trace elements
5. Nutrition and trace elements
6. Clinical effects of trace elements on health
7. Trace elements and physical activity
8. Nutritional toxicology of trace elements
9. Environmental acidification – changes in trace elements and effects on human health

10. Mechanism of trace element toxicity
11. Biological monitoring of trace elements

Besides plenary lectures and oral presentation in the different topics there will be poster presentations and exhibitions.

Workshops and panel discussions will be organized on related topics.
