

ERRATUM

BioMetals 1993, 6, 85-91

Zinc affects siderophore-mediated high affinity iron uptake systems in the rhizosphere *Pseudomonas aeruginosa* 7NSK2

Monica Höfte, Saskia Buysens, Nico Koedam & Pierre Cornelis

On page 88, Figure 3B was printed in black and white rather than colour, concealing the pink/orange dots that indicate siderophore activity.
