

BIOCHEMICAL PHARMACOLOGY

CONTENTS

VOLS. 1-6

REGIONAL EDITORS

DR. PETER ALEXANDER
(Executive Editor)

SIR RUDOLPH PETERS

PROF. ARNOLD D. WELCH

PROF. M. WELSCH

VOLUME 1

Vol. 1. No. 1

	<i>Page</i>
ALEXANDER HADDOW: Foreword	1
R. D. O'BRIEN and R. A. PETERS: The biochemistry of 2-deoxy-2-fluoro-DL-glyceraldehyde with a note on the toxicity of 2-deoxy-2-fluoroglycerol	3
P. HEBBORN and J. F. DANIELLI: The increased tumour-inhibitory effect of enzyme-activated nitrogen mustards	19
P. ALEXANDER and SHEILA F. COUSENS: The reactivity of radiomimetic compounds—II. Sites of reaction of nitrogen mustards, epoxides, methane sulphonic acid esters and an ethyleneimine with bovine serum albumin	25
L. A. ELSON: The effects of Myleran (1:4-dimethanesulphonyloxybutane) and homologous compounds on the blood	39
R. F. HUDSON, G. M. TIMMIS and R. D. MARSHALL: A physico-chemical investigation into the biological action of Myleran and related sulphonic acid esters	48
J. J. ROBERTS and G. P. WARWICK: Studies on the mode of action of tumour-growth-inhibiting alkylating agents—I. The fate of ethyl methanesulphonate ("half Myleran") in the rat	60
JACK R. COOPER and PAUL J. FRIEDMAN: The enzymic oxidation of chloral hydrate to trichloroacetic acid	76
F. BRÜCKE, O. KRAUPP, H. OBENAU, B. PILLAT und H. STORMANN: Der Einfluss möglicher Adrenalinvorstufen auf die Ausscheidung von Adrenalin im Harn von Ratten	83
T. A. CONNORS and W. C. J. ROSS: Some sulphur-containing amino-acids of biological interest	93
Short Communications:	
H. BLASCHKO, G. FERRO-LUZZI and R. HAWES: Enzymic oxidation of mescaline by mammalian plasma	101
R. A. PETERS: Note upon the block produced in the tricarboxylic acid cycle by fluorocitric acid	101

Vol. 1. No. 2

	Page
P. EMMELOT and C. J. BOS: Investigations on growth-inhibitory styrylquinoline compounds and analogues—I. Respiratory inhibition and glycolytic stimulation in normal and neoplastic tissues by the anti-tumour agent 4-(4'-dimethylaminostyryl)quinoline	105
P. EMMELOT, C. J. BOS, B. J. VISSER and C. T. BAHNER: Investigations on growth-inhibitory styrylquinoline compounds and analogues—II. The relative activity in a series of styrylquinoline and analogous compounds to interfere with intermediary metabolism and tumour growth	111
A. L. GREEN: The kinetic basis of organophosphate poisoning and its treatment	115
A. NECCO: The effect of pyrimidine nucleosides thymidine, cytidine and uridine on morphological characteristics on cells grown <i>in vitro</i>	129
RICHARD SCHINDLER and ARNOLD D. WELCH: Comparative utilization by sarcoma-180 cells in culture of ¹⁴ C-labelled uracil, 6-azauracil, and their ribosides	132
HANS LETTRÉ, HUBERT BALLWEG, HIDEYA ENDO, ANNELIES SCHLEICH and WILHELMINE SIEBS: Some studies with analogues of kinetin	137
WILLIAM F. PERSKE, DONALD C. KVAM and R. E. PARKS, JR.: Hepatic phosphorylase and epinephrine hyperglycaemia	141
GERTRUDE P. QUINN, JULIUS AXELROD and BERNARD B. BRODIE: Species, strain and sex differences in metabolism of hexobarbitone, amidopyrine, antipyrine and aniline	152
SIDNEY UDENFRIEND, BERNARD WITKOP, BETTY G. REDFIELD and HERBERT WEISSBACH: Studies with reversible inhibitors of monoamine oxidase: Harmaline and related compounds	160

Vol. 1. No. 3

HENRY G. MAUTNER: A comparative study of 6-selenopurine and 6-mercaptopurine in the <i>Lactobacillus casei</i> and the Ehrlich ascites tumour systems	169
L. MOLHO, C. MOLHO, et C. MENTZER: Influence de l'acide méthyl-3 pentène-3 oïque sur la biosynthèse de l'ergostérol par la levure (<i>Saccharomyces cerevisiae</i>)	174
A. DI MARCO, A. NECCO and E. CASTEGNARO: Antimitotic activity of substances showing a heparin-like behavior	179
W. KALOW and R. O. DAVIES: The activity of various esterase inhibitors towards atypical human serum cholinesterase	183
J. M. VAN ROSSUM, E. J. ARIËNS and G. H. LINNSEN: Basic types of curariform drugs	193
IRWIN B. WILSON and SARA GINSBERG: Reactivation of alkyl phosphate inhibited acetylcholinesterase by bis-quaternary derivatives of 2-PAM and 4-PAM	200
E. KUN, D. R. GRASSETTI, D. W. FANSHIER and R. M. FEATHERSTONE: The reaction of malic dehydrogenase with α -keto- β -fluoro-succinic (β -fluoro-oxaloacetic) acid	207
CATHERINE M. CLARK, G. A. J. GOODLAD and H. N. MUNRO: The action of nitrogen mustard on amino acid incorporation into rat liver protein	213
F. BRÜCKE, G. HERTTING, H. D. MOED and J. VAN DIJK: Über eine neue Adrenalincarbonsäure und einige rer iherivate	221
Short Communications:	
S. M. KIRPEKAR, G. A. J. GOODLAD and J. J. LEWIS: Reserpine depletion of adenosine triphosphate from the rat suprarenal medulla	232
H. CHANTRENNE: La 8-azaguanine provoque-t-elle la formation de protéines anormales?	233
N. J. GIARMAN and MARGARET DAY: Presence of biogenic amines in the bovine pineal body	235
E. C. DE RENZO, K. W. MCKERNS, H. H. BIRD, W. P. CEKLENIK, B. COULOMB and E. KELEITA: Some biochemical effects of hypoglycin	236
E. MASCITELLI-CORIANDOLI, R. BOLDRINI and C. CITTERIO: Differents effects exerted by iproniazid upon the coenzyme A and pyridoxine contents of the host's tumour and tissues	238
T. A. CONNORS, L. A. ELSON, and W. C. J. ROSS: The tumour growth inhibitory activity of 1-amino-cyclopentane-1-carboxylic acid and related peptides	239

Vol. 1. No. 4

A. J. THERKELSEN: Combined treatment of a transplantable mouse tumour with cysteamine (β -mercaptoethylamin) and nitrogen mustard (HN2)	245
A. J. THERKELSEN: Studies of the mechanism of the protective action of sulphhydryl compounds and amines against nitrogen mustard (HN2) and Roentgen irradiation in mice	258

	<i>Page</i>
G. H. DELTOUR, J. M. GHUYSEN et A. CLAUS: Effet de la mescaline, du LSD25 et de dérivés de l'adrénochrome sur la decarboxylase glutamique du cerveau	267
A. S. FAIRHURST, R. E. SMITH and E. M. GAL: The effects of fluorocompounds on oxidative phosphorylation—I. Effects on P/O ratios with fumarate and with reduced diphosphopyridine nucleotide	273
A. S. FAIRHURST, R. E. SMITH and E. M. GAL: The effects of fluorocompounds on oxidative phosphorylation—II. Effects on the breakdown of nucleotides by liver mitochondria	280
O. A. TROWELL: The cytotoxic action of barbiturates on lymphocytes <i>in vitro</i>	288
MONIQUE REGINSTER: A propos de l'effet Delaporte	296
N. J. GIARMAN and S. SCHANBERG: The intracellular distribution of 5-hydroxytryptamine (HT; Serotonin) in the rat's brain	301
W. L. NASTUK and B. O. ALVING: Further study of 3-hydroxyphenyl dimethylammonium (Edrophonium) and its closely related analogues with respect to activity at the neuromuscular junction	307
R. SCHINDLER: The conversion of ¹⁴ C-labelled tryptophan to 5-hydroxytryptamine by neoplastic mast cells	323
N. K. CHAUDHURI, K. L. MUKHERJEE and CHARLES HEIDELBERGER: Studies on fluorinated pyrimidines. VII—The degradative pathway	328
V. P. WHITTAKER: Acetylcholine: A new naturally occurring pharmacologically active choline ester from <i>Buccinum undatum</i>	342
Short Communications:	
R. L. NOBLE, C. T. BEER and J. H. CUTTS: Further biological activities of vincalcalcin, an alkaloid isolated from <i>Vinca rosea</i> (L.)	347
JEAN M. HAGEN: Inhibition of an action of adrenaline by D-tartrate	349
V. P. WHITTAKER: A comparison of the distribution of lysosome enzymes and 5-hydroxytryptamine with that of acetylcholine in subcellular fractions of guinea pig brain.	351
W. R. JONDORF, R. P. MAICKEL and B. B. BRODIE: Inability of newborn mice and guinea pigs to metabolize drugs	352
R. A. PETERS: The comparison of the effect of an even and an odd unsaturated fluorofatty acid on kidney particles	354

VOLUME 2

Vol. 2. No. 1

	Page
TH. J. DE MAN and J. R. ROBORGH: The hypercalcemic activity of dihydrotachysterol ₂ and dihydrotachysterol ₃ and of the vitamins D ₂ and D ₃ . Comparative experiments on rats	1
E. G. TRAMS, M. V. NADKARNI, V. DEQUATTRO, G. D. MAENGWYN-DAVIES and P. K. SMITH: Dimethanesulphonoxybutane (Myleran). Preliminary studies on distribution and metabolic fate in the rat	7
LOUIS SHUSTER and ABRAHAM GOLDIN: Some biochemical effects of 2-ethylamino-1 : 3 : 4-thiadiazole.	17
R. A. PETERS and R. J. HALL: Further observations upon the toxic principle of <i>Dichapetalum toxicarium</i>	25
A. D. BONEY, E. D. S. CORNER and B. W. P. SPARROW: The effects of various poisons on the growth and viability of sporelings of the red alga <i>Plumaria elegans</i> (Bonnem.) Schm.	37
K. WALTNER JR., M. CSERNOVSKY and E. KELEMEN: On differences between some effects of salicylate and 2:4-dinitrophenol.	50
V. BONAVITA and V. SCARDI: Studies on glutamic-oxaloacetic transaminase. The coenzymic role of the isonicotinoylhydrazone of pyridoxal-5-phosphate	58
T. FREDRIKSSON and G. TIBBLING: Reversal of effects on the rat nerve-diaphragm preparation produced by methylfluorophosphorylcholine	63
ADAMO VERGINE: Une méthode pour l'étude des lipides hematiques—I. Rapports entre acides gras insaturés, acides gras totaux et cholestérol	68
Symposium and Conference Reports	
Monoamine oxidase inhibitors	73
Short Communications:	
R. W. BROCKMAN, CAROLYN SPARKS, MARGUERITE S. SIMPSON and H. E. SKIPPER: Decreased ribonucleotide pyrophosphorylase activity of <i>Streptococcus faecalis</i> and L1210 leukaemia resistant to purine antagonists	77
E. MASCITELLI-CORIANDOLI: Effects of actinomycin-C upon the pyridoxal phosphate content of the liver	79

Vol. 2. No. 2

BRENDA M. BOLLARD and H. MCILWAIN: The effect of cocaine and procaine on the electrically stimulated metabolism of cerebral tissues	81
L. E. GAUDETTE and B. B. BRODIE: Relationship between the lipid solubility of drugs and their oxidation by liver microsomes	89
E. G. ERDÖS, F. F. FOLDES, N. BAART, E. K. ZSIGMOND and J. ZWARTZ: The accelerating effect of narcotic analgesics on the hydrolysis of aromatic substrates by human plasma cholinesterase	97
C. E. CARTER: Reaction of 6-mercaptapurine with inosine- and guanosine-5'-phosphate pyrophosphorylase purified from <i>E. coli</i>	105
M. J. R. DAWKINS, J. D. JUDAH and K. R. REES: Action of some phenothiazine derivatives on the respiratory chain	112
E. D. S. CORNER: The poisoning of <i>Maia squinado</i> (Herbst) by certain compounds of mercury	121
P. ALEXANDER, A. SWARCBORE and K. A. STACEY: The reactivity of radiomimetic compounds—III. Cross-linking of nucleoprotein	133
J. C. MARSH and MARY E. KING: Purification of <i>trans</i> -N-glycosidase of <i>Thermobacter acidophilus</i> : Inhibition of enzyme by 6-azathymidine	146

Vol. 2. No. 3

B. R. BAKER: Potential anti-cancer agents—II. A proposed mechanism for the anti-cancer action of L-azaserine and 6-diazo-5-oxo-L-norleucine	161
I. BERENBLUM, D. BEN-ISHAI, N. HARAN-GHERA, A. LAPIDOT, E. SIMON and N. TRAININ: Skin initiating action and lung carcinogenesis by derivatives of urethane (ethyl carbamate) and related compounds	168

	<i>Page</i>
P. VAN DUJN, R. G. J. WILLIGHAGEN and A. E. F. H. MEIJER: Increase of acid phosphatase activity in mouse liver after dextran storage	177
E. SPECTOR and F. E. SHIDEMAN: Metabolism of thiopyrimidine derivatives: Thiamylal, thiopental and thiouracil	182
I. BERENBLUM, B. BLUM and N. TRAININ: Failure of the urethane antagonist lysergic acid-diethylamide (LSD25) to inhibit lung carcinogenesis or the initiating phase of skin carcinogenesis in mice	197
B. H. MARKS, R. SORGEN and H. GINSBURG: Histamine-liberator 48/80 and basophilic leukocytes	200
JEAN M. HAGEN: Stimulation of secretion and metabolism in mouse parotid glands <i>in vitro</i>	206
W. C. J. ROSS: The tumour growth inhibitory activity of some sulphur mustard gas derivatives	215
W. H. PRUSOFF: Further studies on the inhibition of nucleic acid biosynthesis by azathymidine and by deoxyadenosine	221
F. J. LIONETTI, W. L. McLELLAN and F. COMUNALE: Inhibition of oxygen consumption in human erythrocytes by hexetidine	226

Vol. 2. No. 4

C. J. CAVALLITO and PATRICIA SANDY: Anticholinesterase activities of some bis-quaternary ammonium salts	233
I. GRUNDLAND: Structure moléculaire et activité oestrogène	243
B. H. SELLS: Influence of 6-azauracil on the metabolism of <i>Bacillus cerius</i>	255
A. MCCOUBREY: Inhibition of monoamine oxidase by 1-phenylethylamines	264
V. ERSPAMER: Isolation of bufoviridine from the skin of <i>Bufo viridis</i> and its identification as dihydrobufothionine	270
E. D. WILLS: The effect of some organic peroxides on sulphhydryl enzymes	276
T. FREDRIKSSON and G. TIBBLING: Demonstration of direct cholinergic receptor effects of methylfluorophosphorylcholines	286
A. W. LESSIN: The pharmacological evaluation of monoamine oxidase inhibitors	290
VIRGINIA MCGLOHON and O. D. BIRD: Inhibition of <i>Streptococcus pyogenes</i> by 1:2-dihydro-s-triazines and sulphonamides <i>in vitro</i> : Mechanism of reversal	299
S. M. GREENBERG, T. MASURAT, E. G. RICE, J. H. HERNDON and E. J. VAN LOON: The effect of chlorpromazine hydrochloride on glutamic acid decarboxylase and pyridoxal kinase in rat brain homogenates	308
Short Communications:	
J. R. COOPER and V. T. MARCHESI: The possible biochemical lesion in blindness due to methanol poisoning	313
A. SEKERA and Č. VRBA: Statistical evaluation of the relations between physico-chemical properties and local anaesthetic activity	315
M. J. H. SMITH: Salicylate and intestinal absorption of glucose in the rat	317

VOLUME 3

Vol. 3. No. 1

	Page
A. H. ANTON and C. A. NICHOL: Studies on the nature of resistance of <i>Streptococcus faecalis</i> to folic acid antagonists	1
M. W. FISHER and L. DOUB: A 1:2-dihydro-s-triazine with marked activity against certain pathogenic bacteria and synergistic with a sulphonamide in experimental bacterial infections	10
G. E. FOLEY, E. J. MODEST, J. R. CATALDO and H. D. RILEY: Chemical and biological studies on 1:2-dihydro-s-triazines—XIII. Inhibition of response to <i>p</i> -aminobenzoic acid and mechanism of action in <i>Lactobacillus arabinosus</i> bioassay systems	18
G. E. FOLEY, E. J. MODEST, J. R. CATALDO and H. D. RILEY: Chemical and biological studies on 1:2-dihydro-s-triazines—XIV. Inhibition of <i>Diplococcus pneumoniae</i> , type II, <i>in vitro</i> and <i>in vivo</i> . Synergism with sulphadiazine	31
H. V. APOSHIAN and L. S. BRADHAM: Metabolism <i>in vitro</i> of the sulphhydryl amino acids, L- and D-penicillamine	38
A. W. CRAIG, B. W. FOX and H. JACKSON: Metabolic studies of ³² P-labelled triethylenethio-phosphoramidate	42
D. W. WOOLLEY: Highly potent antimetabolites of serotonin with little serotonin-like action	51
K.-B. AUGUSTINSSON and J. E. CASIDA: Enzymic hydrolysis of N:N-dimethylcarbamoyl fluoride	60
K.-B. AUGUSTINSSON, T. FREDRIKSSON, A. SUNDWALL and G. JONSSON: Biochemical and pharmacological studies on N-methylated carbamoylcholines	68
Short Communications:	
R. A. PETERS: The effect of chlorpromazine on the acetonitase in kidney particle preparations	77
V. NAIR: The fate of ¹⁴ C-labelled iproniazid on the rat	78

Vol. 3. No. 2

R. A. DEITRICH and D. L. SMITH: Effect of the thyroid on butyrate oxidation in the rat heart	85
K. F. NAKKEN, L. ELDJARN and A. PIHL: The mechanism of inactivation of penicillin by cysteine and other mercaptoamines	89
P. BARBIERI, A. DI MARCO, L. FUOCO and A. RUSCONI: Investigations on the mode of action of cyclo serine upon protein synthesis in <i>Escherichia coli</i>	101
W. H. PRUSOFF, J. J. JAFFE and H. GÜNTHER: Studies in the mouse of the pharmacology of 5-iododeoxycytidine, an analogue of thymidine	110
W. WELLING, J. A. COHEN and W. BERENDS: Disturbance of oxidative phosphorylation by an antibioticum produced by <i>Pseudomonas cocovenenans</i>	122
K. VAN ASPEREN: Toxic action of organophosphorus compounds and esterase inhibition in houseflies	136
R. L. IRWIN and H. J. SMITH III: Cholinesterase inhibition by galanthamine and lycoramine	147
A. V. MARTON and W. KALOW: Inhibitors of aromatic esterase of human serum	149
B. HOLMSTEDT, L. LARSSON and A. SUNDWELL: Synthesis and pharmacology of nicotinylcholine and three bisquaternary related derivatives	155
Short Communications:	
J. S. LOWE: Metabolism of compounds related to ethyl mercaptan	163
I. I. A. TABACHNICK: The metabolism of γ -aminobutyrylcholine	166
S. GRISOLIA and B. K. JOYCE: Possible interpretation and extrapolation of heating experiments with enzymes in the presence of substrates or cofactors	167
H. BLASCHKO and W. G. LEVINE: Enzymic oxidation of psilocine and other hydroxy-indoles	168
ULLA HAMBERG: Cerebrospinal fluid and bradykinin release	169

Vol. 3. No. 3

VIRGINIA C. DEWEY, M. R. HEINRICH, D. G. MARKEES and G. W. KIDDER: Multiple inhibition by 6-methylpurine	173
L. MIKKONEN, T. TUOMINEN and E. KULONEN: Collagen fractions in lathyrus rats	181

	Page
T. FREDRIKSSON and G. TIBBLING: Inhibition of cholinesterase with methylfluorophosphorylcholine and carbocholine: Spontaneous return of activity	184
J. P. GREEN and MARGARET DAY: Heparin, 5-hydroxytryptamine, and histamine in neoplastic mast cells	190
A. HORITA and W. R. McGRATH: The interaction between reversible and irreversible monoamine oxidase inhibitors	206
P. ROSENBERG: <i>In vivo</i> reactivation by PAM of brain cholinesterase inhibited by paraoxon	212
C. H. GALLAGHER: The effect of pyrrolizidine alkaloids on liver enzyme systems	220
J. H. KOCH and C. H. GALLAGHER: The effects of neuromuscular blocking agents on mitochondria—I. Effects of <i>d</i> -tubocurarine and of complex ions on mitochondrial enzyme systems	231
Short Communications:	
P. EMMELOT and C. J. BOS: On the Mg^{2+} -dependency of the mitochondrial ATPase activation by two azocarcinogens and a related cytotoxic styrylquinoline	244
C. C. KRATZING: Variations in toxicity of some halogen derivatives of acetic acid in rats	245
G. M. TIMMIS and S. S. BROWN: Dimethanesulphonic acid esters of sugar alcohols	247

Vol. 3. No. 4

W. P. BURKARD, K. F. GEY and A. PLETSCHER: Inhibition of diamine oxidase <i>in vivo</i> by hydrazine derivatives	249
R. G. WIEGAND and J. D. TAYLOR: Kinetics of plasma drug levels after sustained release dosage	256
P. BARBIERI, A. DI MARCO, L. FUOCO, P. JULITA, A. MIGLIACCI and A. RUSCONI: Investigation on the mode of action of cycloserine upon protein synthesis of <i>E. coli</i> and animal cells—II. Action of L-cycloserine on protein metabolism of alanine and on enzymic preparations	264
C. C. KRATZING, J. R. DUNSTONE, N. P. MADSEN, PATRICA MACDONALD and HELEN BELL: Variations in rat liver calcium and magnesium	272
J. R. ROBORGH and TH. J. DE MAN: The hypercalcemic activity of dihydrotachysterol ₂ and dihydrotachysterol ₃ and of the vitamins D ₂ and D ₃ after intravenous injection of the aqueous preparation—II. Comparative experiments on rats	277
J. F. THOMSON and FLORENCE J. KLIPFEL: Some effects of D ₂ O <i>in vivo</i> and <i>in vitro</i> on certain enzymes of rat tissues	283
A. L. TAPPELL: Inhibition of electron transport by antimycin A, alkyl hydroxy naphthoquinones and metal co-ordination compounds	289
B. HOLMSTEDT and F. SJÖQVIST: Pharmacological properties of γ -aminobutyrylcholine, a supposedly inhibitory neurotransmitter	297
K. W. MCKERNS, H. H. BIRD, E. KALEITA, B. S. COULOMB and E. C. DE RENZO: Effects of hypoglycin on certain aspects of glucose and fatty acid metabolism in the rat	305
G. P. WHEELER and MARGARET G. GRAMMER: Prevention of the inhibitory effects of urethan, formamide and N-methylformamide on the growth of <i>Escherichia coli</i>	316
A. BURKHALTER, V. H. COHN, JR. and P. A. SHORE: Effects of reserpine, serotonin and 5-hydroxytryptophan on rabbit platelet histamine <i>in vivo</i> and <i>in vitro</i>	328
Short Communications:	
E. MASCITELLI-CORIANDOLI and C. CITTERIO: Notes on the reduction of biological acetylation with amethopterin	332
A. A. SMITH and S. B. WORTIS: The effect of disulphiram on the metabolism of normethanephine-1- ¹⁴ C in the guinea pig	333

VOLUME 4

NUMBERS 1-4

Papers presented at the Symposium on Metabolism and Synthesis of Deoxyribonucleic Acids,
27-30 September, 1959, Liège, Belgium

	Page

L. A. ELSON: Haematological effect of homologous series of dichloroethylarylamines (aromatic nitrogen mustards)	192
A. WINKLER, J. ŠKODA, V. UJHÁZY, V. ČERNÝ, Ľ. ŠÁNDOR and F. ŠORM: Excretion of 6-azauracil riboside in cancer patients	202
C. E. PURDOM: Mutagenic effects of nitrogen mustard derivatives of azo-benzene compounds in <i>Drosophila melanogaster</i>	206
F. J. LIONETTI, N. C. TELLES and N. C. AVERY: Inhibition of dehydrogenases of human leukocytes by hexetidine	219
A. SUNDWALL: Plasma concentration curves of N-methylpyridinium-2-aldoxime methane sulphonate (P2S) after intravenous, intramuscular and oral administration in man	225

	<i>Page</i>
ALLEN W. DAHL, T. LLOYD FLETCHER, HARLOW H. SKINNER, JR. and K. ALVIN MERENDINO: Fibrosing properties, in the rat, of compounds related to dicetyl di- <i>n</i> -hexadecyl phosphate—I	231
A. C. SARTORELLI, J. R. AKERS and BARBARA A. BOOTH: Inhibition of the biosynthesis of purines <i>de novo</i> by 6-chloropurine and azaserine in sensitive and naturally resistant ascites cells	238
A. C. SARTORELLI and BARBARA A. BOOTH: Utilization of preformed purines by sarcoma 180 or hepatoma 134 cells treated with 6-chloropurine or a combination of 6-chloropurine and azaserine	245
P. PREZIOSI, B. LOSCALZO, E. MARMO and E. MIELE: Effects of single or repeated treatment with several anticholesterolemic compounds on biliary excretion of cholesterol	251
Short Communication:	
D. M. SERRONE and J. M. FUJIMOTO: Inhibition of the metabolism of hexobarbital <i>in vitro</i>	263

Vol. 5. No. 4

P. ALEXANDER and Z. B. MIKULSKI: Differences in the response of leukaemia cells in tissue culture to nitrogen mustard and to dimethyl myleran	275
J. D. GABOUREL: Anticonvulsant properties of diacetylmonoxime (DAM)	283
T. ZSOLNAI: Versuche zur Entdeckung neuer Fungistatika—II. Nitroverbindungen	287
J. LECOMTE et E. SCHOFFENIELS: Action du 2-PAM et des inhibiteurs de l'acétylcholinestérase sur le choc anaphalactique du lapin	305
E. BUEDING, E. KMETEC, C. SWARTZWELDER, S. ABADIE and H. J. SAZ: Biochemical effects of dithiazanine on the canine whipworm, <i>Trichuris vulpis</i>	311
D. P. WALLACH: Studies on the GABA pathway—I. The inhibition of γ -aminobutyric acid- α -ketoglutaric acid transaminase <i>in vivo</i> by U-7524 (amino-oxyacetic acid)	323
J. E. CASIDA: Specificity of substituted phenyl phosphorus compounds for esterase inhibition in mice	332
Short Communication:	
H. G. MAUTNER and J. J. JAFFE: 6-Selenoguanine (2-amino-6-selenopurine): Synthesis and biological studies	343

Selected papers from the Second Scandinavian Summer Meeting of Biochemistry, Pharmacology and Physiology

O. LINDBERG: Role of structure in regulation of cellular enzymic activities	347
P. Å. ALBERTSSON: Fractionation of particles and macromolecules in aqueous two-phase systems	351
T. HULTIN: On the functions of the endoplasmic reticulum	359
H. BALTSCHIEFSKY: On subcellular electron transport phosphorylation systems	369
J. JÄRNEFELT: Lipoproteins and electron transport	381
M. K. PAASONEN: The role of noradrenaline and 5-hydroxytryptamine in the central action of Rauwolfia alkaloids and benzoquinolizine derivatives	389
V. P. WHITTAKER: The subcellular localization of transmitter substances in the central nervous system	392
(Further papers from this Meeting appear in Vol. 6, No. 1)	

VOLUME 6

Vol. 6. No. 1-2

E. PAROLI and P. MELCHIORRI: Urinary excretion of hydroxysteroids, 17-ketosteroids and aldosterone in rats during a cycle of treatment with morphine	1
E. PAROLI and P. MELCHIORRI: Inhibitory effect of morphine on metabolism of adrenal and testicular steroids	18
T. H. MAREN, BETTIE ROBINSON, R. F. PALMER and MARY E. GRIFFITH: The binding of aromatic sulfonamides to erythrocytes	21
Short Communications:	
J. RICHARD CROUT: Inhibition of catechol-O-methyl transferase by pyrogallol in the rat	47
PAULINE K. CHANG and ARNOLD D. WELCH: Improved preparation of 5-bromo-2'-deoxycytidine	50
J. A. R. MEAD and K. F. FINGER: A single extraction method for the determination of both norepinephrine and serotonin in brain	52
S. LIAO and H. G. WILLIAMS-ASHMAN: Inhibition of the enzymic oxidation of some dihydropyridines by polycyclic aromatic hydrocarbons	53
Selected papers from the Second Scandinavian Summer Meeting of Biochemistry, Pharmacology and Physiology (continued)	
E. KULONEN, K. JUVA, L. MIKKONEN, T. NIKKARI, A. SALMI and T. TUOMINEN: Biochemistry of experimental lathyrism	56
E. BOYLAND: Biochemical conjugation processes	61
G. J. DUTTON: The mechanism of glucuronide formation	65
H. BOSTRÖM and A. VESTERMARK: Some aspects of sulphate conjugation	72
K. HARTIALA: Experimental studies of gastrointestinal conjugation functions	82
S. GARDELL: Preparation and fractionation of mucopolysaccharides	91
H. BOSTRÖM and L. RODÉN: On the metabolism of mucopolysaccharides	100
(This completes the selection of papers from this Meeting)	

Vol. 6. No. 3

R. C. WOOD, R. FERONE and G. H. HITCHINGS: The relationship of cellular permeability to the degree of inhibition by amethopterin and pyrimethamine in several species of bacteria	113
K. E. MOORE and T. M. BRODY: The effect of triethyltin on oxidative phosphorylation and mitochondrial adenosine triphosphatase activation	125
K. E. MOORE and T. M. BRODY: The effect of triethyltin on mitochondrial swelling	134
K. A. SCHELLENBERG and G. R. COATNEY: The influence of antimalarial drugs on nucleic acid synthesis in <i>Plasmodium gallinaceum</i> and <i>Plasmodium berghei</i>	143
JILL E. CREMER: A comparison of the action of triethyltin with other drugs on creatine phosphate levels in rat brain and diaphragm preparations	153
PAUL BIJVOET and HARRIS BUSCH: Effect of 5-bis(2-chloroethyl)aminouracil on incorporation of uracil-2- ¹⁴ C into RNA of tumour-bearing rats	161
A. CHARI-BITRON: A study on the toxicity and the biochemical effects of monofluoromalonate	169
W. N. ALDRIDGE and J. M. BARNES: Neurotoxic and biochemical properties of some triaryl phosphates	177
JULIUS BELFORD and MARCIA R. FEINLEIB: Phosphorylase activity in heart and brain after reserpine, iproniazid and other drugs affecting the central nervous system	189

Vol. 6. No. 4

HENRIK WALLGREN: Effects of acetylcholine analogues and ethanol on the respiration of brain cortex tissue <i>in vitro</i>	195
J. J. ROBERTS and G. P. WARWICK: The mode of action of alkylating agents—II. Studies of the metabolism of Myleran. The reaction of Myleran with some naturally occurring thiols <i>in vitro</i>	205

J. J. ROBERTS and G. P. WARWICK: The mode of action of alkylating agents—III. The formation of 3-hydroxytetrahydrothiophene-1:1-dioxide from 1:4-dimethanesulphonyloxybutane (Myleran), S- β -L-alanyltetrahydrothiophenium mesylate, tetrahydrothiophene and tetrahydrothiophene-1:1-dioxide in the rat, rabbit and mouse	217
M. WOLLEMAN and P. ELÖDI: Die Hemmung der kristallisierten D-Glyceraldehyd-3-Phosphat Dehydrogenase Aktivität durch Phenothiazine und Aminoketone	228
G. R. HONIG, J. R. DAVIS and H. BUSCH: Suppression of uptake of L-arginine-U- ^{14}C into chromatographically separated cationic nuclear proteins of tissues of tumour-bearing rats by 5-bis(2-chloroethyl)aminouracil	233
W. D. WOSILAIT: The reduction of coenzyme Q_{10} by an anticoagulant sensitive enzyme from dog liver	241
D. F. HEATH: The toxic action of some phosphorus anticholinesterases with cationic groups	244
K. J. CHILD, PATRICIA SUTHERLAND and E. G. TOMICH: Some effects of reserpine on barbitone anaesthesia in mice	252
A. H. CONNEY and LEONARD GARREN: Contrasting effects of thyroxine on zoxazolamine and hexobarbital metabolism	257
N. E. JONGEJANS-SICKLER, A. KEMP and J. VAN NOORDWIJK: Evaluation of some uncoupling agents in the chemotherapy of experimental cancer: A study of their distribution in tumour-bearing rats	263
Short Communications:	
R. L. YOUNG and M. W. GORDEN: The influence of epinephrine and norepinephrine on the accumulation of amphetamine-1- ^{14}C by rat brain	273
A. BRUNI and A. R. CONTESSA: Inhibition of oxidative phosphorylation by an antipyretic drug	275
