

This volume contains those papers on "Bradykinin and vasodilating polypeptides" presented at **The First International Pharmacological Meeting**, Stockholm, August 22-25, 1961.

CONTENTS

	<i>Page</i>
U. S. VON EULER: Introductory remarks	1
M. ROCHA E SILVA: Definition of bradykinin and other kinins	3
D. F. ELLIOTT: Structure of bradykinin	25
G. P. LEWIS: Pharmacological actions and functions of bradykinin	29
R. A. BOISSONNAS: The synthesis of bradykinin	35
H. KONZETT: Some properties of synthetic bradykinin and bradykinin-like polypeptides	39
H. O. J. COLLIER: Antagonists of bradykinin	47
R. ČAPEK: Some effects of bradykinin on the central nervous system	61
A. L. COPLEY and V. TSULUCA: The antibradykinin action of fibrinolysin and other studies on capillary permeability employing different mediators and synthetic bradykinin	67
M. SCHACHTER: Bradykinin and other capillary active factors	87
