

## NOTICE

### **“Symposium on Non-Steroidal Anti-Inflammatory Drugs”**

THE Istituto di Richerche Farmacologiche ‘Mario Negri’, in collaboration with the European Society of Biochemical Pharmacology, will organize on 8, 9 and 10 September 1964, a symposium with the above title in which the following topics will be considered:

1. Metabolic modifications and chemical mediators during inflammatory processes
2. Pharmacological methods in evaluation of anti-inflammatory drugs
3. Methodology and results in clinical trials of anti-inflammatory drugs

The symposium will be international, with a maximum limit of 200 participants who should apply before May 31st.

Twenty minute lectures, ten minute short communications and discussions are planned.

The official languages are English and Italian.

For further information and applications, write to:
