

ERRATA

R. KATO, A. TAKAHASHI T. OSHIMA, Characteristics of nitro reduction of the carcinogenic agent, 4-nitroquinoline *N*-oxide. *Biochem. Pharmac.* **19**, 45 (1970).
The authors regret that the word 4-nitroquinoline was mis-spelled in the original paper.

RAY W. FULLER and HAROLD D. SNODDY, Induction of tyrosine aminotransferase in rat liver by epinephrine and theophylline. *Biochem. Pharmac.* **19**, 1518 (1970).
On p. 1518, the first sentence should have read: Tyrosine aminotransferase (EC 2.6.1.5) is induced in liver of rats and in isolated, perfused rat liver by glucagon and by other hormones.¹⁻⁴

HEATHER G. SMITH, W. R. D. SMITH, J. P. JEPSON and K. SORESENSEN, The metabolism and excretion of indolylacrylic acid in the rat. *Biochem. Pharmac.* **19**, 1689 (1970).
It is regretted that Mr Sorensen's name was mis-spelled in the original paper.
