

SUBJECT INDEX FOR VOLUME 23

A

Acetaldehyde,	
metabolism in rats during pregnancy	1157
oxidation in perfused rat liver, effect of 2,4-dinitrophenol	2193
stimulated catecholamine release from perfused cow adrenal	223
Acetaldehyde dehydrogenase,	
in rat liver, effect of inducers of drug metabolism	1457
Acetanilide,	
effect of ACTH and pregnanolone-16 α -carbonitrile on response and distribution in rats	2083
hydroxylation in liver microsomes from riboflavin deficient rats	1467
Acetohexamide,	
effect on ATPase activity in liver mitochondria	251
Acetone,	
effect on hepatic microsomal drug metabolism <i>in vivo</i>	1015
Acetonitrile,	
effect on hydrolysis of steroid hormone esters by pig liver esterase	2867
2-Acetylaminofluorene,	
effect on lysosomes in rat liver parenchymal cells	3323
metabolism in liver microsomes	1745
Acetylcholine,	
in brain, effect of amphetamine, relationship to circling behaviour	3223
effect on choline and triethylcholine uptake by synaptosomes	523
in corneal epithelium, drug-induced depletion	3449
induced release of adrenal medullary catecholamines, effects of theophylline and propranolol	2225
purified and intact cell from <i>Electrophorus electricus</i> , effect of calcium	3459
release from slices of superior cervical ganglia, effect of collagenase pretreatment	911
in spleen and cerebellum, effect of oxotremorine and physostigmine	1187
Acetylcholinesterase,	
in brain,	
inhibition by acryloylcholine	577
inhibition by ketamine	1647
inactivation by tetramonoisopropyl pyrophosphorotetramide <i>in vivo</i>	175
inhibition by diethyl <i>S</i> - <i>n</i> -propyl phosphorothiolate, errors due to an inactive impurity	751
inhibition by phencyclidine and derivatives	1263
inhibitory potency of phosphonylated aldoximes	1255
effects of procaine and <i>d</i> -tubocurarine on activity of	725
effect of quaternary nitrogen compounds on the rate of aging of the phosphonylated enzyme	460
soluble and membrane-bound from <i>Electrophorus electricus</i> , effects of Mg ²⁺ and Ca ²⁺	2476
N-Acetylcysteine,	
reaction with electrophiles after enzyme-catalysed deacetylation	1133
Acetylphenylhydrazine,	
effect on monoamine oxidase in brain and liver <i>in vitro</i> and <i>in vivo</i>	2045
Acetylsalicylic acid,	
inhibition of human leucocyte collagenase	2077
inhibition of platelet aggregation	3273
inhibition of <i>in vitro</i> plasminogen activation by saline extracts of rat tissues	2339
effect on phenothiazine-albumin interaction	957
Acid phosphatase,	
effect of anti-inflammatory steroids on enzyme release by phospholipase C and 2,4,6-trinitrobenzene sulphonic acid	467
hydrolysis of <i>p</i> -hydroxyaniline mustard <i>O</i> -phosphate	3173
in liver, effects of aminonucleoside	2199

Acid phosphatase—contd.

- in lysosomes from regenerating liver, effect of metabolic regulators 752
- release from liver lysosomes, effect of Δ^9 -tetrahydrocannabinol 1342
- in urine, effect of nephrotoxic compounds 65

Acrolein,

- effect on yeast alcohol dehydrogenase 2328

Acryloylcholine,

- biochemical and pharmacological properties of 577

Actinomycin D,

- effect on cyclic AMP in liver of rats treated with glucagon 1777
- effect on incorporation of thymidine and hypoxanthine into rat hepatoma cell cultures 395
- effect on induction of tyrosine aminotransferase in liver 2455
- effect on α -naphthylisothiocyanate induced hyperbilirubinemia 2845
- effect on purine transport in cultured rat hepatoma cells 3045
- effect on uptake and incorporation of amino acids, hypoxanthine and thymidine in cultures of human epithelial cells 705

Adenine,

- transport by cultured rat hepatoma cells, effect of actinomycin D 3045

Adenine nucleotides,

- synthesis in Ehrlich ascites tumor cells, effect of diazetyl-glycine amide 289

Adenosine,

- metabolism in *Schistosoma mansoni*, effects of purine analogs 649
- N^6 -substituted,
 - metabolic conversion in their 5'-triphosphates in human blood 2473
 - metabolic effects in rats 2283
- protective effect against audiogenic seizure 2807

Adenosine triphosphate,

- induced platelet aggregation, effect of 2-(*p*-chlorophenyl)-4-thiazoleacrylic acid and acetylsalicylic acid 3273
- in rat heart, effect of fluoroacetate poisoning 3179

Adenosine kinase,

- in Rhesus monkey tissues 170

Adenosine monophosphate,

- in rat heart, effect of fluoroacetate poisoning 3179

Adenosine-3',5'-monophosphate,

- in adipocytes, effect of estradiol 2337
- in brain, effect of Δ^9 -tetrahydrocannabinol 1817
- dependent protein kinase, effect of cyclic nucleotide analogs 2011
- effect of glycylrrhetic acid on enzymic hydrolysis by rat stomach 3085
- in islets of Langerhans, regulation of 1387
- in liver,
 - effect of ethanol treatment 3239
 - effect of glucagon and phosphodiesterase inhibitors 2139
 - of rats treated with glucagon, effect of actinomycin D, cycloheximide and puromycin 1777
- involvement in noradrenaline release during nerve stimulation 1793
- effect on lysosomal enzyme activity in regenerating liver 752
- modulation of effector systems of inflammation 763
- effect of papaverine on enzymatic hydrolysis in heart 3071
- effect on phosphorylation of erythrocyte membranes 2464
- prostaglandin E_1 -stimulated production in human platelets, effect of lithium 845
- relationship with glycerol and free fatty acid release in brown fat of cold-adapted rats 2877
- effect on the response of testicular capsules to prostaglandins 2969
- in retina, apomorphine-induced accumulation 3079
- in synaptosomes, absence of an effect of histamine, noradrenaline and depolarizing agents 835
- synthesis by *Hartmannella culbertsoni*, effect of amines 57
- in tracheal muscle, effect of trimetoquinol 3213

Adenosine triphosphatase,

- in brain, effect of EGTA on catecholamine stimulation of 3505
- in brain microsomes, effect of divalent metals 3441
- in brain microsomes and nerve ending particles, ascorbic acid-like effect of the soluble fraction of brain 2257

from dog heart, effect of isoproterenol	2887
in liver mitochondria, effect of hypoglycemic sulfonylureas	251
Adenosine triphosphate,	
in brain, effect of adenosine and nicotinamide	2807
and magnesium, effect on adrenaline efflux from adrenal medullary storage vesicles	2190
in rat heart, effect of fluoroacetate poisoning	3179
in spermatozoa, effect of Δ^9 -tetrahydrocannabinol	1341
S-Adenosylmethionine,	
in vivo formation and turnover in liver, effects of dimethylnitrosamine and partial hepatectomy	2452
Adenylate cyclase,	
β -adrenergic receptor coupling	2069
in human platelets, effect of lithium on stimulation by prostaglandin E_1	845
interaction with α -methylfluorene-2-acetic acid	2411
modulation of activity in cell membranes by hormones	2353
Adipocytes,	
effect of estradiol on lipolysis and cyclic AMP in	2337
Adipose tissue,	
fatty acid mobilization, inhibitor from calf midbrain	989
metabolic effects of N^6 -substituted adenosines	2283
Adrenal,	
cortex,	
effect of methadone on steroid biosynthesis	2449
effect of morphine on secretory activity of	2111
medulla,	
acetylcholine-induced release of catecholamines, effects of theophylline and propranolol	2225
adrenaline efflux from storage vesicles, effect of adenine nucleotides and magnesium	2190
release of catecholamines by acetaldehyde perfusion	223
Adrenaline,	
acetylcholine-induced release from adrenal medulla, effects of theophylline and propranolol	2225
activation of muscle phosphorylase <i>in vivo</i>	1945
effect on ascorbic acid in lung	2705
in brain, effect of 6-hydroxydopamine or guanethidine administration	1041
effect on chloride transport by parietal cells	3283
effect on cyclic AMP in islets of Langerhans	1387
effect on dextran edema and histamine release	1211
efflux from adrenal medullary storage vesicles, effect of adenine nucleotides and magnesium	2190
in heart, effect of 6-hydroxydopamine or guanethidine administration	1041
effect of imipramine on urinary excretion	1503
induced aggregation of blood platelets, inhibition of	37
induction of aryl hydrocarbon hydroxylase in rat liver cell cultures, role of adrenochrome	1910
induction of axenic encystation of <i>Hartmannella culbertsoni</i>	57
effect on the metabolism of foreign compounds by liver	3377
effect on rabbit testicular capsular contractions	2969
α-Adrenergic blocking agents,	
effect on naloxone binding in brain	2349
Adrenergic receptors,	
in islets of Langerhans	1387
molecular pharmacology	2069
Adrenochrome,	
role in aryl hydrocarbon hydroxylase induction by adrenaline in rat liver cell cultures	1910
Adrenocorticotropic hormone,	
effect on activity of lysosomal enzymes in regenerating liver	752
effect on drug response and distribution in rats	2083
stimulated steroid biosynthesis in rat adrenocortical cells, effect of methadone	2449
Adriamycin,	
enhancement of hepatic uridine kinase activity	1087
Alanine,	
in brain, effect of 3-mercaptopropionic acid	3053

Alanine—contd.	
uptake by human epithelial cells, effects of chlorpromazine and actinomycin D	705
Albumin,	
bovine serum,	
interaction with ochratoxins	1105
interaction with phenothiazine, ultraviolet difference spectrophotometry	957
reversible binding of antineoplastic 2,4-dinitrophenylaziridines	2833
human serum,	
binding of benzothiadiazines	553
phenothiazine interaction, ultraviolet difference spectrophotometry	957
thermodynamics of salicylate binding	1767
effect of uricosuric agents on urate binding	1653
rat plasma, effect of acute ethanol administration on synthesis of	389
and sulfisoxazole, effect on bilirubin conjugation	1432
Alcohols,	
effect on hashish inhibition of glucose transport by human erythrocytes	2005
Alcohol dehydrogenase,	
in brain, reduction of succinic semialdehyde to γ -hydroxybutyrate	1219
in liver,	
mouse, developmental changes	519
pregnant rats	1157
yeast, allyl alcohol-induced irreversible inhibition	2328
Alcuronium,	
effect on aging of phosphonylated acetylcholinesterase	460
Aldehyde reductase,	
in brain, effect of amines	1707
Aldomet,	
inhibition of human placental diamine oxidase	2983
Aldose reductase,	
in lens and retina of diabetic rats, effect of 3,3'-tetramethylene glutaric acid	2991
Aldosterone,	
production by rat adrenocortical cells, effects of methadone	2449
Aldosterone receptors,	
in rat kidney, affinity of spironolactones	1493
Aldoximes,	
inhibition of acetylcholinesterase	1255
Aldrin,	
epoxidation by rat liver and armyworm gut, effect of 1-alkylimidazoles	2377
Alkaline phosphatase,	
hydrolysis of <i>p</i> -hydroxyaniline mustard <i>O</i> -phosphate	3173
in lysosomes from regenerating liver, effect of metabolic regulators	752
in urine, detection of renal damage by nephrotoxic compounds	65
Alkylated pyrimidines,	
relationship between structure and fungistatic activity	1231
Alkylating agents,	
monofunctional, alkylation of DNA	3
Alkyldimethylbenzylammonium chlorides,	
displacement of sulfaethidole from bovine serum albumin	3139
1-Alkylimidazoles,	
effects on microsomal oxidation <i>in vitro</i> and <i>in vivo</i> , structure-activity relationships	2377
Allopurinol,	
effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
inhibition of cell growth and purine biosynthesis	3199
Allopurinol oxidizing enzyme,	
in mouse liver supernatant during maturation, sex differences	1144
Allyl alcohol,	
induced irreversible inhibition of alcohol dehydrogenase	2328
Allylestrenol,	
effect on drug metabolism in rat liver microsomes	2037
Allylglycine,	
inhibition of L-leucine and L-proline uptake in rat brain slices	821

Alphazalone, effect on oxidative phosphorylation in rabbit brain mitochondria	3299
Alveolar macrophages, inhibition of 2-deoxy-D-glucose transport by theophylline, caffeine and papaverine	1781
Amethopterin, transport into L1210 cells, effect of sulfhydryl inhibitors	2057
Amfenolic acid, effect on α -methyl- <i>m</i> -tyramine content of rat striatum	867
Amidopyrine, oxidative <i>N</i> -demethylation in man, effect of inhaled carbon disulphide	607
Amiloride, effect on a model phospholipid membrane	2939
Amines, release from neoplastic mast cells	2235
Amine oxidases, irreversible inhibition by propargyl amine	463
Amino acids, uptake by human epithelial cells, effects of chlorpromazine and actinomycin D	705
Aminoacyl-tRNA, binding to brain ribosomes, effect of mescaline	1687
Aminoantipyrine, and derivatives, hydroxylation in liver endoplasmic reticulum	1053
Aminoazobenzene compounds, reduction by human hepatocellular carcinoma and normal liver	2341
γ-Aminobutyric acid, in brain, effect of 3-mercaptopropionic acid	3053
effect of 2-methyl 2-ethyl caproic acid and 2-2-dimethyl valeric acid protection against audiogenic seizures	2363
metabolism in brain, effects of acute and chronic pentobarbitone administration	1801
and nervous system function	2637
uptake by synaptosomes, effect of lithium	2491
effect of 3-mercaptopropionic acid	3053
γ-Aminobutyric acid aminotransferase, in brain, effects of acute and chronic pentobarbitone administration	1801
inhibition by dipropylacetic and tripropylacetic acids, structure-activity relationships	3363
4-Aminocatechol, detection of renal damage by measurement of urinary enzymes	65
1-Amino guanosine, inhibition of inosine dehydrogenase in Ehrlich ascites tumour cells	2727
<i>p</i>-Aminohippurate, transport by kidney slices during development, relationship with oxygen consumption	2323
transport by newborn dog kidney and choroid plexus, substrate stimulation	754
α-Aminoisobutyric acid, uptake by human epithelial cells, effects of chlorpromazine and actinomycin D	705
δ-Aminolevulinic acid, incorporation into bilirubin, effect of α -naphthylisothiocyanate	2845
passage across the blood-brain barrier of the rat, effect of ethanol	472
δ-Aminolevulinic acid synthetase, in chick embryo liver cell culture, effect of 3,5-diethoxycarbonyl-2,4,6-trimethylpyridine and 3,5-diethoxycarbonyl-2,6-dimethylpyridine	215
Aminonucleoside, very early effects on some rat liver enzymes	2199
4-Aminopyrazolo(3,4-<i>d</i>)pyrimidine, inhibition of cell growth and purine biosynthesis	3199
Aminopyrine, demethylation in liver endoplasmic reticulum of irradiated rats, effect of testosterone	793
<i>N</i> -demethylation by liver microsomes, effect of acetone <i>in vivo</i>	1015
from perfused tissue	599
riboflavin-deficient rats	1467

Aminopyrine N-demethylase,	
in liver microsomes,	
effect of ascorbic acid deficiency	3121
during development, induction with hydrocortisone	345
effect of liver soluble fraction	2485
effect of propyl gallate	3129
3-Amino-1,2,4-triazole,	
prevention of halothane induced changes in rat liver enzymes	403
Amiodarone,	
effects on overflow of transmitter and uptake of noradrenaline in cat spleen	3501
Amoeba (<i>Hartmannella culbertsoni</i>),	
effect of bioamines on cellular differentiation	57
Amphetamine,	
hydroxylation by rat liver microsomes	1065, 3191
induced elevation of caudate homovanillic acid, effect of γ -hydroxybutyric acid	879
effect on noradrenaline uptake and release by synaptosomes	3413
metabolism by brain tissue	1146
effect on α -methyl- <i>m</i> -tyramine content of rat striatum	867
effect on oxygen consumption by mouse brain and heart homogenates	947
effect on striatal dopamine and acetylcholine, relationship to circling behaviour	3223
as substrates for caeruloplasmin	47
effect on tyrosine and tryptophan hydroxylases in brain	1393
uptake into leukocytes	2951
Androgens,	
effect on stoichiometric ratio for ethylmorphine metabolism in liver microsomes	2325
Androstenedione,	
hydroxylation by liver microsomes, effect of clofibrate	13
Angiotensin II,	
effect on free fatty acids in plasma	2625
in plasma, effects of pepstatin	2776
2,2'-Anhydro-1-β-D-arabinofuranosylecytosine,	
inhibition of DNA synthesis	2657
Aniline,	
effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
and derivatives, hydroxylation in liver endoplasmic reticulum	1053
hydroxylation by liver microsomes,	
effect of acetone <i>in vivo</i>	1015
from perfused tissue	599
effect of progestagens	2037
effect of reserpine	2461
riboflavin deficient rats	1467
selective stimulation by urethane	1148
metabolism by perfused liver, liver slices and liver microsomes, effect of catecholamines	3377
Aniline hydroxylase,	
in liver microsomes,	
effect of dietary protein and 3-methylcholanthrene induction	1721
during development, induction with hydrocortisone	345
effect of freezing and storage	2332, 2391
effect of hexachlorobenzene	2387
effect of lipids	1245
effect of pregnenolone-16 α -carbonitrile	1221
Anti-inflammatory drugs,	
anti-complement effects of	3107
effect on human leucocyte collagenase	2077
effect on lytic action of phospholipase C and 2,4,6-trinitrobenzene sulfonic acid on lysosomes	467
rebound of carrageenin granuloma following cessation of therapy	381
Antimonials,	
effect on RNA, DNA and protein synthesis in <i>E. coli</i>	1451
Antimycin A,	
effect on thrombin-induced increase in respiration in platelet mitochondria	1859

Antipyretic, components in the Japanese earthworm	1583
Antipyrine, in biological fluids, gas chromatographic estimation	197
correlation between plasma half-life and urinary 4-hydroxy antipyrine half-life	197
relationship between half-life and urinary glutaric acid excretion in man	2480
Apomorphine, induced accumulation of cyclic AMP in isolated retina	3079
effect on α -methyl- <i>m</i> -tyramine content of rat retina	867
9-β-D-Arabinofuranosyladenine, biotransformation by rat and human erythrocytes	2761
1-β-D-Arabinofuranosyl cytosine, comparison with effects of cyclocytidine	1235
sensitivity of human leukemic cells in culture	503
1-β-D-Arabinofuranosyl 5-fluorocytidine, mechanism of action, implications for cancer therapy	2533
Arabinosyl-6-mercaptopurine, effect on adenosine metabolism by <i>Schistosoma mansoni</i>	649
Arachidonic acid, from the Japanese earthworm	1583
Arginine esterase, in plasma, effect of cobalt	1095
Aroclor 1248 and 1254, effect on oxidative phosphorylation in rat liver mitochondria	1577
Arylhydrocarbon hydroxylase, induction by adrenaline in rat liver cell culture, role of adrenochrome	1910
in liver microsomes from Gunn rats	3405
Ascorbic acid, effect on detoxification of histamine in rats and guinea-pigs under drug treated conditions	637
effect on detoxification of histamine in rats and guinea-pigs under stress conditions	643
effect on 6-hydroxydopamine induced reduction of noradrenaline uptake in iris and heart slices	2585
-like effect of the soluble fraction of rat brain on ATPases	2257
in mouse lung, effect of catecholamines	2705
stimulation of drug metabolism in weanling guinea-pigs	3121
Aspartate, accumulation by synaptosomes, effect of lithium	2491
in brain, effect of 3-mercaptopropionic acid	3053
Aspartate transcarbamylase, in human granulocytes, effect of gold salts	153
Aspirin-like drugs, inhibition of prostaglandin biosynthesis	1439
Atropine, antagonism of oxotremorine and physostigmine induced increases in cerebellar choline	1187
Audiogenic seizures, GABA levels in brain after 2-methyl 2-ethyl caproic acid and 2-2-dimethyl valeric acid treatment	2363
protective effect of adenosine and nicotinamide	2807
Aurothioglucose, effect on purine phosphoribosyltransferases of human blood cells	163
Avertin, inhibition of human placental diamine oxidase	2983
5-Azacytidine, enhancement of hepatic uridine kinase activity	1087
Azathioprine, thioimidazoles in urine after oral and intravenous administration	1891
6-Azaauridine, sensitivity of human leukemic cells in culture	503
Azidocodeine, <i>N</i> -demethylation by rat liver	745

Azidomorphine, <i>N</i> -demethylation by rat liver	745
Aziridines, inhibition of enzymatic hydrolysis of <i>cis</i> -stilbene oxide	1845
Azotomycin, toxicology in mice	3467
A23817, effect on cardiac contractility	1609
B	
Barbital, effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
effect on cerebral cortical respiration of barbital-tolerant rats	1545
induced sleep, effect of pregnenolone	1629
effect on noradrenaline metabolism in brain <i>in vitro</i>	1877
Benzamidine, derivatives, effect on activity of serum kallikrein	2247
Benz[a]anthracene, metabolism by rat lung	323
Benz[a]anthracene epoxides, metabolism by rat liver	2547
Benzo-2,1,5-oxadiazoles, inhibition of monoamine oxidase	1963
Benzothiadiazines, binding to human albumin	553
Benzo[a]pyrene, effect on demethylation of dimethylnitrosamine by liver microsomes from fed, fasted and protein depleted rats	1173
<i>K</i> -region epoxide formation and metabolism by rat lung	333
metabolism by rat lung	323
Benzoylhydrazine, effect on UDP glucuronyltransferase in liver microsomes	1283
Benzphetamine demethylase, in liver microsomes, effect of propyl gallate	3129
3,4-Benzpyrene, inhibition of ascorbate and NADPH-promoted microsomal lipid peroxidation	2467
Benzpyrene hydroxylase, in liver microsomes, effect of propyl gallate	3129
Benzylamine, derivatives, effect on activity of serum kallikrein	2247
Benzyl chloride, reaction with <i>N</i> -acetylcysteine, effect of hepatic cytosol	1133
Benzylhydrazine, effect on UDP glucuronyltransferase in liver microsomes	1283
Benzylideneacetone, reaction with <i>N</i> -acetylcysteine, effect of hepatic cytosol	1133
Benzyl penicillin, inhibition of human placental diamine oxidase	2983
Bilirubin, conjugation by MH ₁ C ₁ cells, effect of sulfisioazole and albumin	1432
glucuronidation in liver of Gunn rats	3405
hepatic clearance and plasma turnover in man, effect of glutethimide and phenobarbital	2795
metabolism in rats, effect of inhibitors of protein and RNA synthesis after α -naphthylisothiocyanate administration	2845
production in the rat, effect of phenobarbital	2895
Biogenic aldehyde, metabolism in brain, relation to pentose shunt activity	1707
Biphenyl 2-hydroxylase, in liver microsomes, effect of hexachlorobenzene	2387

Biphenyl 4-hydroxylase,	
in liver microsomes,	
effect of ethoxyquin, reversibility	1871
effect of hexachlorobenzene	2387
1,5-Bis(4-allyldimethylammonium phenyl)pentan-3-one dibromide,	
inhibition of cat acetylcholinesterase	175
Bistriethylamine oxalate,	
effect on ovarian cholesterol esterification	1123
Bleomycin,	
damage of rat liver DNA <i>in vivo</i>	3147
Blood-brain barrier,	
passage of δ -aminolevulinic acid, effect of ethanol	472
BOL 148,	
inhibition of adrenaline induced aggregation of blood platelets	37
Bone marrow cells,	
cholinesterase biosynthesis in	2155
Bradykininase,	
in plasma, effect of cobalt	1095
Bradykininogen,	
in plasma, effect of cobalt	1095
Brain,	
acetylcholine and choline in, effect of oxotremorine and physostigmine	1187
monoamine oxidase in, inhibition by imipramine and desipramine	1138
RNA metabolism, effect of lithium <i>in vivo</i> and <i>in vitro</i>	369
standardized excision of small areas	2447
Bromobenzene,	
biliary excretion of metabolites	451
p-Bromobenzylisothiocyanate,	
effect on polypeptide synthesis in cell-free systems from <i>E. coli</i>	2751
N-(2-Bromoethyl)-N-ethyl-1-naphthylmethylamine,	
blockade in guinea-pig vas deferens, effect of tryptophan	2769
subcellular distribution in guinea-pig vas deferens	1853
D-2-Bromolysergic acid diethylamide,	
metabolism by rat liver <i>in vitro</i>	3063
4-Bromopyrazole,	
effect on liver mitochondrial function	203
Bromotrichloromethane,	
hepatotoxicity, bond dissociation energy and lipoperoxidation	2907
Bromsulphthalein,	
and its glutathione conjugate, effect of diethyl maleate on biliary excretion of	2617
Brown fat,	
of cold-adapted rats, relationship between cyclic AMP synthesis and free fatty acid release	2877
Burimamide,	
effect on histidine decarboxylase in rat gastric mucosa	2963
n-Butyl-3,5-diiodo-4-hydroxybenzoate,	
effect on oxidative phosphorylation in mitochondria from rat liver and adrenal cortex	411
Butyrophenone,	
derivative U-32,802A, effect on brain biogenic amines	1701
Butyrylcholinesterase,	
inhibition by phencyclidine and derivatives	1263
C	
Caffeine,	
effect on calcium uptake and release by mitochondria and sarcoplasmic reticulum from frog skeletal muscle	89
inhibition of 2-deoxy-D-glucose transport by alveolar macrophages	1781
Calcium,	
interaction with purified and intact cell acetylcholinesterase of <i>Electrophorus electricus</i>	3459
involvement in catecholamine stimulation of ATPase in brain	3505

Calcium—contd.

effect on soluble and membrane bound acetylcholinesterase from <i>Electrophorus electricus</i>	2476
uptake and binding by cardiac microsomes, effects of ethanol	2369
uptake by liver mitochondria, effect of pyrazole and its derivatives	203
uptake and release by mitochondria and sarcoplasmic reticulum from frog skeletal muscle, effect of drugs	89

Calcium ionophores,

effect on cardiac contractility	1609
---------------------------------	------

Camptothecin,

effect on electrophoretic mobility of chick embryo fibroblasts transformed by Rous sarcoma virus	1921
--	------

Candida albicans,

biochemical effects of miconazole	887
-----------------------------------	-----

Cannabidiol,

inhibition of glucose efflux from human erythrocytes	2005
potentiating effect on Δ^9 -tetrahydrocannabinol-induced changes in liver enzymes	758

Cannabinoids,

brain levels and potency in mice	3017
effect on pentobarbital metabolism <i>in vivo</i> and <i>in vitro</i>	477

Cannabinol,

biliary excretion	1163
-------------------	------

Carbachol,

effect on chloride transport by parietal cells	3283
--	------

N-Carbamoylarsanilic acid,

effect on ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
--	------

Carbaryl,

oxidation demethylation <i>in vitro</i>	1979
toxicity to houseflies, synergistic action of 1-alkylimidazoles	2377

Carbodiimide,

water-soluble, effects on the osmotic fragility and ion permeability of erythrocytes	2773
--	------

Carbon disulphide,

inhibition of oxidative N-demethylation in man	607
--	-----

Carbonic anhydrase,

in rat tissues, catalytic activity and inhibition of	3153
--	------

Carbon monoxide,

production in man, effect of glutethimide and phenobarbital	2795
---	------

Carbon tetrachloride hepatotoxicity,

mechanism of dibenamine protection	1479
effect of phenobarbital or pregnenolone-16 α -carbonitrile pretreatment	513
effect of pretreatment with N,N'-diphenyl-p-phenylenediamine	421
prevention by inhibitors of drug metabolism	295
restoration of damaged hepatic mitochondria	3227

Carbonyl reduction,

of diethylpropion and related amino-ketones in man, stereochemistry	3347
---	------

1-(2-Carboxy-3-chlorophenyl)pyrrole,

effect on carbohydrate metabolism in rat and mouse	3218
--	------

Carboxylesterase,

from pig liver microsomes, hydrolysis of steroid hormone esters	2867
---	------

Carbutamide,

effect on ATPase activity in liver mitochondria	251
effect on oxidative phosphorylation by liver mitochondria	239

Cardiac glycosides,

subcellular distribution of K-strophanthoside in isolated guinea-pig heart	2817
--	------

Carisoprodol,

effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
--	------

Carnitine,

effect on ovarian cholesterol esterification	1123
--	------

Carrageenan,

interaction with chloroquine	1669
------------------------------	------

Carrageenan granuloma,	
effect of Fe^{2+} chelating agents on collagen synthesis in	2165
rebound following cessation of anti-inflammatory steroid therapy	381
Castration,	
effect on allopurinol oxidizing enzyme in liver supernatant	1144
Catalase,	
in liver and kidney, effect of pyrazole	1293
Catecholamines,	
acetaldehyde stimulated release from perfused adrenal	223
acetylcholine-induced release from adrenal medulla, effects of theophylline and pro-	
pranolol	2225
in ganglia, heart and spleen of developing pigs	3423
induced loss of pulmonary ascorbic acid	2705
effect on metabolism of foreign compounds in liver	3377
presynaptic regulation of release of	1793
stimulation of rat brain ATPase, effect of EGTA	3505
Catechol-O-methyltransferase,	
5,6-dihydroxytryptamine as substrate for	2208
in superior cervical ganglion of swine during development	3423
Cerebellum,	
acetylcholine and choline in, effect of oxotremorine and physostigmine	1187
effect of <i>p</i> -chlorophenylalanine and L-phenylalanine on DNA and protein synthesis	
during development	2920
effect of morphine on protein and phosphatidylcholine synthesis	1753
Cerebrospinal fluid,	
effect of pentylenetetrazol on monoamines in	1223
Cerium,	
in liver, blood, urine and faeces, effect of treatment with phenobarbital and spironolac-	
tone	1509
Ceruloplasmin,	
human,	
interaction with phenothiazines	1045
phenylalkylamine substrates	47
Cetyltrimethylammonium bromide,	
effect on yeast cells	1413
Chick embryo fibroblasts,	
transformed by Rous sarcoma virus, effect of camptothecin on electrophoretic mobility	1921
Chloral hydrate,	
reduction to trichloroethanol in brain extracts	455
Chlorambucil,	
sensitivity of human leukemic cells in culture	503
Chloramphenicol,	
and its glucuronide, biliary excretion in the rat	2315
pharmacologic implications of alterations in the metabolism of	139
effect of phenobarbital on glucuronidation of	1181
Chlorocyclizine,	
effect on serum and liver lipid composition	685
Chlorhexidine,	
interaction with yeast cells	1413
Chloride,	
transport by isolated parietal cells in response to pharmacological stimuli	3283
Chlorinated bisphenols,	
hemolytic properties of	1835
4-Chloroamphetamine,	
oxime and hydroxylamine derivatives, as depletors of brain 5-hydroxyindoles	3267
1,3-Bis(2-Chloroethyl)-1-nitrosourea,	
effect on DNA synthesis in normal and tumour cells	3097
<i>p</i>-Chloromercuribenzoate,	
apparent conversion of placental cytochrome P-420 to P-450	2195
effect on transport of folate compounds into L1210 cells	2057
<i>p</i>-Chlorophenoxyisobutyrate,	
effect on respiration and oxidative phosphorylation in liver mitochondria	3331

p-Chlorophenylalanine,	
effect on DNA and protein in developing rat cerebellum	2920
effect on hepatic metabolism in relation to endotoxiosis	2577
2-(p-Chlorophenyl)-4-thiazoleacrylic acid,	
inhibition of platelet aggregation	3273
Chloroquine,	
interaction with carrageenan	1669
effect on morphine glucuronidation and biliary excretion in the rat	1331
Chlorothiazide,	
inhibition of human placental diamine oxidase	2983
Chlorpromazine,	
albumin binding, ultraviolet difference spectrophotometry	957
effect on calcium uptake and release by mitochondria and sarcoplasmic reticulum from frog skeletal muscle	89
effect on enzymatic dealkylation of LSD	1073
effect on hepatocytes	2187
induced elevation of caudate homovanillic acid, effect of γ -hydroxybutyric acid	879
inhibition of human placental diamine oxidase	2983
effect on insulin release	1693
interaction with human ceruloplasmin	1045
effect on platelets	2629
solubilization of synaptic membrane protein	103
effect on uptake and incorporation of amino acids, hypoxanthine and thymidine in cultures of human epithelial cells	705
Chlorpropamide,	
effect on ATPase activity in liver mitochondria	251
effect on energy metabolism and ketogenesis in the isolated perfused rat liver	75
effect on oxidative phosphorylation by liver mitochondria	239
Cholelithiasis,	
prevention on 16 α -cyanopregnenolone	9
Cholesterol,	
esterification in ovarian tissue, inhibition by SKF 525-A and other ionic amphipathic amines	1123
hydroxylation by liver microsomes, effect of clofibrate	13
metabolism in rats, effect of eritadenine	433
effect of organophosphates on esterification in human plasma	1641
in serum, effects of Triton WR-1339 and vincristine	3317
Choline,	
accumulation by segmental ganglia of the leech	2595
kinetics of uptake in neuroblastoma clones	2857
metabolism in rat liver <i>in vitro</i> , effect of acute ethanol ingestion	3289
neuronal uptake mechanisms	1927
release from slices of superior cervical ganglia, effect of collagenase pretreatment	911
uptake into synaptosomes, effect of triethylcholine	523
in whole brain, spleen and cerebellum, effect of oxotremorine and physostigmine	1187
Choline acetyltransferase,	
in brain, inhibition by acryloylcholine	577
in swine superior cervical ganglion during development	3423
Choline kinase,	
inhibition by purinyl-6-histamine	1227
Cholinergic synapses,	
evolutionary pharmacology	2211
Cholinesterase,	
biosynthesis in rabbit bone marrow cells in culture	2155
inhibition by pancuronium bromide	166
Cholinoreceptors,	
in cultured skeletal muscle, effect of disulphide bond reduction	3093
Choroid plexus,	
newborn dog, substrate stimulation of organic anion transport	754
Chromatin,	
drug-induced alterations in DNA in, protective effect of histones	1519
mouse skin, effect of β -propiolactone <i>in vitro</i>	937

Cigarette smoking,	
effect on UDP glucuronyltransferase in human placenta	2203
Clofibrate,	
effect on liver microsomal hydroxylation of cholesterol and androstenedione	13
effect on mitochondrial function	1985, 3331
effect on serum and liver lipid composition	685
Clorgyline,	
inhibition of monoamine oxidase	629
<i>Clostridium welchii</i>,	
mode of action of metronidazole	1421
Cobalt,	
effect on kynurenine metabolism in liver	2557
effect on plasma kinin system in rats	1095
Codeine,	
effect on naloxone binding in brain	2349
uptake into leukocytes	2951
Cold-adapted rats,	
relationship between cyclic AMP synthesis and free fatty acid release in brown fat	2877
Collagen,	
hydroxylation in rat tissues, effect of 1,10-phenanthroline and Desferrioxamine <i>in vivo</i>	2165
induced platelet aggregation, effect of 2-(<i>p</i> -chlorophenyl)-4-thiazoleacrylic acid and acetylsalicylic acid	3273
synthesis in granulomatous tissue, effect of withdrawal of corticoid treatment	381
Collagenase,	
effect on choline and acetylcholine release from slices of bovine superior cervical ganglia	911
in human leucocytes, effect on anti-inflammatory drugs	2077
Complement activity,	
effects of niflumic and flufenamic acids	3107
Compound 48/80,	
effect on dextran edema and histamine release	1211
Copper,	
effect on the daunomycin-DNA complex	2147
inhibition of ATPase in brain microsomes	3441
effect on kynurenine metabolism in liver	2557
Corneal epithelium,	
drug-induced depletion of acetylcholine in	3449
Corpora lutea,	
cholesterol esterification in, effect of SKF 525-A and other ionic amphipathic amines	1123
Corticosterone,	
inhibition of drug metabolism	1629
in plasma, effect of morphine	2111
production by rat adrenocortical cells, effects of methadone	2449
Corticosterone acetate,	
hydrolysis by pig liver esterase	2867
Corticotropin,	
effect on cyclic AMP in islets of Langerhans	1387
Cortisol,	
effect on enzyme release from phospholipase C treated lysosomes	467
Cortisone,	
distribution in liver of mice pretreated with mercurials	2577
effect on enzyme release from phospholipase C treated lysosomes	467
Creatine phosphate,	
in brain, effect of adenosine and nicotinamide	2807
Creatine phosphokinase,	
in platelets, effects of imipramine and chlorpromazine	2629
<i>Crithidia fasciculata</i>,	
effect of pteridine diuretics on growth of	773
16α-Cyanopregnenolone,	
effect on the hydroxylation of lithocholic acid by rat liver microsomes	9
Cyclic imines,	
induced release of amines from neoplastic mast cells	2235

Cyclic nucleotides,	
modulation of effector systems of inflammation	763
Cyclic nucleotide analogs,	
effect on cyclic AMP and cyclic GMP dependent protein kinases	2011
Cyclic nucleotide phosphodiesterase,	
in heart, inhibition by papaverine	3071
in human lymphocytes, inhibition by <i>N</i> -methylisatin- β -thiosemicarbazone	1663
inhibition by disodium cromoglycate	917
in liver, effect of glucagon, dibutyryl cyclic AMP and inhibitors	2139
in rat stomach, effect of glycyrrhetic acid	3085
in synaptosomes, effect of depolarizing agents	835
Cyclobarbitol,	
effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
O²,2-Cyclocytidine,	
effect on macromolecule synthesis in leukemic cells	1235
Cyclohexane oxide,	
effect on metabolism of hydrocarbons by female rat liver	735
Cycloheximide,	
effect on cyclic AMP in liver of glucagon treated rats	1777
enhancement of hepatic uridine kinase activity	1087
inhibition of encystation of amoeba mediated by amines	57
inhibition of ornithine decarboxylase in rat ovary	2697
effect on α -naphthylisothiocyanate induced hyperbilirubinemia	2845
Cyclophosphamide,	
activation by liver microsomes	115, 131
inhibition of human placental diamine oxidase	2983
and metabolites, a simple small scale cytotoxicity test	131
Cystathionine,	
in rat liver after treatment with L-dopa	1135
Cytochromes,	
in liver from control and carbon tetrachloride intoxicated rats	3227
Cytochrome b₅,	
in liver microsomes,	
effect of ethoxyquin, reversibility	1871
effect of freezing and storage	2332
effect of hexachlorobenzene	2387
effect of hexachlorophene	1997
riboflavin-deficient rats	1467
Cytochrome c,	
NADPH-dependent reduction, mediation by morphine	3163
Cytochrome c reductase,	
in liver microsomes,	
effect of dietary protein and 3-methylcholanthrene induction	1721
Gunn rats	3405
effect of phenobarbital	2825
effects of phenobarbital and pregnenolone-16 α -carbonitrile	513
riboflavin-deficient rats	1467
effect of storage	2391
nitroreduction of 5-nitrofur derivatives	3395
Cytochrome P-420,	
haem reductase activity in liver microsomes	475
placental, apparent conversion to P-450 with <i>p</i> -chloromercuribenzoate	2195
Cytochrome P-450,	
in liver microsomes,	
effect of ascorbic acid deficiency	3121
effect of bromotrichloromethane	2901
effect of ethoxyquin, reversibility	1871
effect of freezing and storage	2332, 2391
Gunn rats	3405
effect of hexachlorobenzene	2175, 2387
effect of hexachlorophene	1997

hydrocarbon-induced spectral changes	3075
effect of inhibitors and carbon tetrachloride induced necrosis	295
effect of low protein diet	1173
effect of α -naphthylisothiocyanate	2431
from perfused tissue	599
effects of phenobarbital and pregnenolone-16 α -carbonitrile	513
effect of pregnenolone-16 α -carbonitrile	1221
effect of propyl gallate	3129
effect of protein deficiency and 3-methylcholanthrene	1721
relationship to absorption at 440 nm formed during mixed function substrate oxidation	2603
riboflavin-deficient rats	1467
effect of sulphur binding	1733
effect of synthetic estrogens and estrogen-progestin combinations	2651
metazapone binding, effect of phenobarbital and 3-methylcholanthrene pretreatment	2305
pyridine binding	1319
spectral changes induced by pyrazole and aniline	1293
structure-activity relationships of 1-alkylimidazole binding	2377
Cytochrome P-450 reductase,	
in liver microsomes,	
effect of aniline and aminoantipyrine derivatives	1053
effect of ascorbic acid deficiency	3121
Cytosine,	
fluorine substituted analogs, mechanism of action, implications for cancer therapy	2533
Cytosine arabinoside triphosphate,	
effect on DNA synthesis in permeabilised cells from Ehrlich ascites tumour	1619
Cytotoxicity,	
a simple small scale test	131
D	
Daunomycin,	
DNA complex, effect of divalent cations	2147
Daunorubicin,	
enhancement of hepatic uridine kinase activity	1087
O-Dealkylation,	
by small intestine, effect of phenobarbital	2127
7-Deazanebularine,	
effect on enzymes of purine metabolism in Ehrlich ascites tumour cells	2023
N-Demethylation,	
in liver microsomes,	
effect of ascorbic acid deficiency	3121
effect of propyl gallate	3129
in man, inhibition by inhaled carbon disulphide	607
O-Demethylation,	
in liver microsomes,	
effect of ascorbic acid deficiency	3121
effect of hexachlorophene	1997
11-Deoxycorticosterone acetate,	
hydrolysis by pig liver esterase	2867
2-Deoxy-D-glucose,	
effect on thrombin-induced increase in respiration in platelet mitochondria	1859
transport in alveolar macrophages, inhibition by theophylline, caffeine and papaverine	1781
7- and 9-[6'-Deoxy-L-lyxo-hexosyl-2' (and -4')-ulose]purines,	
effect on growth of KB cells	2095
Deoxyribonuclease,	
subcellular distribution in liver, effect of 2-acetylaminofluorene	3323
Deoxyribonucleic acid,	
daunomycin complex, effect of divalent cations	2147
in developing cerebellum, effect of <i>p</i> -chlorophenylalanine and L-alanine	2920
in granulomatous tissue, effect of withdrawal of corticoid treatment	381
in histones, protective effects of histones against drug-induced alterations	1519

Deoxyribonucleic acid—contd.

inhibition of synthesis by 2,2'-anhydro-1- β -D-arabinofuranosylcytosine	2657
interstrand cross-linking and cytotoxic properties of platinum(II) compounds	1345
interstrand cross-linking and cytotoxic properties of platinum(IV) compounds	1359
in liver, damage by bleomycin <i>in vivo</i>	3147
monofunctional alkylating agents and apurinic sites in	3
effect of platinum ethylenediamine dichloride on the template activity of	1659
synthesis in human lymphocytes, effect of fluorine substituted cytosine analogs	2533
synthesis in L1210 tumour, effect of 1,3-bis(2-chloroethyl)-1-nitrosourea	3097
synthesis in permeabilised cells, effect of cytosine arabinoside triphosphate	1619
synthesis in regenerating liver, effect of diethylenetriaminepentaacetate	901
synthesis in thymocytes, effect of high oxygen tension	3216

Deoxyribonucleic acid polymerases,

from RNA tumor viruses, inhibition by tilorone and congeners	3259
--	------

Deoxythymidine,

<i>in vivo</i> antiherpetic activity	1153
--------------------------------------	------

Desferrioxamine,

effect on collagen synthesis in rats <i>in vivo</i>	2165
---	------

Desipramine,

effect on 5-hydroxytryptamine uptake into synaptosomes	3413
inhibition of drug transport in leukocytes	2591
inhibition of monoamine oxidase in lung, liver and brain	1138
effect on UDP glucuronyltransferase in liver microsomes	1283

Desmethylchlorpromazine,

effect on insulin release	1693
---------------------------	------

Development,

alcohol dehydrogenase in mouse liver	519
effect of <i>p</i> -chlorophenylalanine and L-phenylalanine on DNA and protein in cerebellum	2920
enzymes in swine superior cervical ganglion	3423

Dexamethasone,

effect on enzyme release from phospholipase C treated lysosomes	467
induction of tryptophan oxygenase and tyrosine aminotransferase in liver, effect of chronic ethanol treatment	21

Dextran edema,

effect of drugs on histamine release	1211
--------------------------------------	------

Diabetes,

effect of 3,3'-tetramethylene glutaric acid on sorbitol accumulation in lens and retina	2991
---	------

Diallyl disulfide,

effect on oxidative phosphorylation in mouse liver mitochondria	931
---	-----

Diamine oxidase,

from human placenta and pig kidney, inhibition by monoamine oxidase inhibitors and other drugs	2983
irreversible inhibition by propargylamine	463

Diamorphine,

inhibition of human placental diamine oxidase	2983
---	------

Diaphragm,

effects of lithium and insulin on carbohydrate metabolism	1675
effect of 2-piperazine-4(3 <i>H</i>)-quinazolinone monoacetate on respiration, glucose uptake and lactic acid production	3066

Diazepam,

inhibition of human placental diamine oxidase	2983
---	------

Diazoacetyl-glycine amide,

effect on purine nucleotide metabolism in Ehrlich ascites tumour cells	289
--	-----

Diazoxide,

binding to human albumin	553
--------------------------	-----

Dibenamine,

inhibition of adrenaline induced aggregation of blood platelets	37
mechanism of protection against carbon tetrachloride hepatotoxicity	1479

1,2-Dibromoethane,

effect on the metabolism and ultrastructure of <i>E. coli</i>	2345
---	------

Dibucaine,

effect on a model phospholipid membrane	2939
---	------

Dibutyl cyclic AMP,	
effect on chloride transport by parietal cells	3283
effect on cholinesterase biosynthesis in bone marrow cells	2155
effect on cultured human melanoma cells	2917
effect on dextran edema and histamine release	1211
effect on phosphorylation of erythrocyte membranes	2464
effect on rabbit testicular capsular contractions	2969
2,4-Dichloro-6-phenyl phenoxyethylamine,	
effect on carbon tetrachloride induced liver necrosis	295
2,4-Dichloro-6-phenyl phenoxyethyl diethylamine,	
effect on carbon tetrachloride induced liver necrosis	295
2,3-Dicyano-1,4-dithiaanthraquinone,	
effect on polypeptide synthesis in cell-free systems from <i>E. coli</i>	2751
3,5-Diethoxycarbonyl-1,4-dihydrocollidine,	
biochemical effects in mouse liver	2713
3,5-Diethoxycarbonyl-2,6-dimethylpyridine,	
metabolism by chick embryo liver cell cultures and induction of δ -aminolevulinic acid synthetase	215
3,5-Diethoxycarbonyl-2,4,6-trimethylpyridine,	
metabolism by chick embryo liver cell cultures and induction of δ -aminolevulinic acid synthetase	215
2-Diethoxyphosphinylthioethyl dimethylamine acid oxalate,	
inactivation of cat pseudocholinesterase and acetylcholinesterase	175
2,7-bis[2-(Diethyl-amino)ethoxy]-fluoren-9-one,	
inhibition of DNA polymerases from RNA tumour viruses	3259
2-Diethylaminoethyl 2-phenyl(2-propene) 4-penten-1-oate,	
effect on carbon tetrachloride induced liver necrosis	295
10-(α-Diethylaminopropionyl)phenothiazine hydrochloride,	
inhibition of cat pseudocholinesterase	175
Diethylenetriaminopentaacetate,	
effect on the synthesis of DNA, RNA and proteins in regenerating liver	901
Diethyl fumarate,	
reaction with <i>N</i> -acetylcysteine, effect of hepatic cytosol	1133
Diethyl maleate,	
effect on biliary excretion of bromsulphthalein and its glutathione conjugate	2617
reaction with <i>N</i> -acetylcysteine, effect of hepatic cytosol	1133
Diethylmercury,	
distribution of mercury in subcellular fractions of developing rat brain	2999
Diethylpropion,	
and related amino-ketones, stereochemistry of carbonyl reduction in man	3347
Diethyl 5-<i>n</i>-propyl phosphorothiolate,	
anticholinesterase activity, errors due to an active impurity	751
Diflumidone,	
effect on urate binding to human serum albumin	1653
Digitoxigenin,	
metabolism by rabbit liver homogenates	921
Digitoxin,	
metabolism and excretion in the rat	2567
Dihydroergotamine,	
inhibition of adrenaline induced aggregation of blood platelets	37
Dihydrohomofolate	
reduction in spleen of tumour-bearing mice	1827
2,3-Dihydro-1-<i>H</i>-imidazo[1,2-<i>b</i>]pyrazole,	
synchronization of HeLa cells	1115
Dihydroorotase,	
in human granulocytes, effect of gold salts	153
Dihydroorotate dehydrogenase,	
in human granulocytes, effect of gold salts	153
Dihydroxy mandelic acid,	
effect of imipramine on urinary excretion of	1503
3,4-Dihydroxyphenylglycolaldehyde,	
metabolism in brain, effect of barbiturates	1877

5,6-Dihydroxytryptamine, substrate for catechol- <i>O</i> -methyltransferase	2208
3,5-Diiodo-L-tyrosyl 3,5-diiodo-L-tyrosine, effect on respiration and swelling of rat liver mitochondria	1195
1,2-Dimethylheptyl-Δ^1-tetrahydrocannabinol, brain levels and potency in mice	3017
7,12-Dimethylbenz[a]anthracene, and its hydroxymethyl derivatives, metabolism by female rat liver, effect of estradiol	735
Dimethyldichlorovinylphosphate, effect on lecithin-cholesterol acyltransferase in human plasma	1641
2,3-Dimethyl-4-(2-methylenebutyryl)-phenoxycetic acid, reaction with <i>N</i> -acetylcysteine, effect of hepatic cytosol	1133
Dimethylnitrosamine, effect on <i>S</i> -adenosylmethionine formation and turnover in liver <i>in vivo</i>	2452
metabolism by liver, effect of diet, starvation and inducers	1173
<i>N,N</i>-Dimethyl-<i>N'</i>-phenyl(<i>N'</i>-fluorodichloromethylthio)sulfamide, effect on polypeptide synthesis in cell-free systems from <i>E. coli</i>	2751
Dimethylsulfoxide, effect on red cell membrane	3247
2-2-Dimethyl valeric acid, effect on audiogenic seizures and GABA in brain	2363
2,4-Dinitrophenol, activation of ethanol metabolism in perfused rat liver	2193, 2334
2,4-Dinitrophenylaziridines, structure-activity relationships, reversible binding to protein	2833
Dioxathion, effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
<i>N,N'</i>-Diphenyl-<i>p</i>-phenylenediamine, effect on carbon tetrachloride hepatotoxicity	421
5,5'-Diphenyl-2-thiohydantoin, effect on serum and liver lipid composition	685
Dipropylacetic acid, and derivatives, relationship between crystalline structure and biological activity	3363
Disodium cromoglycate, inhibition of cyclic AMP phosphodiesterase	917
Disulphide bond reduction, effect on cholinoreceptors in cultured skeletal muscle	3093
Dithiothreitol, effect on cholinoreceptors in cultured skeletal muscle	3093
L-Dopa, effect on hepatic metabolism in relation to endotoxiosis	2577
metabolism in man, effect of imipramine	1503
effect on trans-sulfuration in rat brain	1135
Dopamine in brain, effect of amphetamine, relationship to circling behaviour	3223
effects of butyrophenone derivative U-32,802A	1701
fluorometric micromethod for the determination of	2437
effect of 6-hydroxydopamine or guanethedine administration	1041
effect of pentazocine and naloxone	3029
in heart, effect of 6-hydroxydopamine and guanethedine administration	1041
induced accumulation of cyclic AMP in isolated retina	3079
induction of axenic encystation of <i>Hartmannella culbertsoni</i>	57
metabolism by mouse caudate nucleus, effect of γ -hydroxybutyric acid	879
neuronal uptake mechanisms	1927
stimulation of rat brain ATPase, effect of EGTA	3505
Dopamine β-hydroxylase, inhibition by fusaric acid	2770
in serum of pregnant women before and after delivery	2185
<i>Drupa concatenata</i> Lam, <i>N</i> -urocanylhistamine in soft tissues of	1431

E

EDTA,

- effect of lipid peroxidation and ethylmorphine *N*-demethylase activity in liver microsomes from various species 1915

EGTA,

- effect on catecholamine stimulation of rat brain ATPase 3505

Ehrlich ascites tumour cells,

- effects of diazoacetyl-glycine amide on purine nucleotide metabolism in 289
effects of free and DNA bound ethidium bromide 1549
inhibition of inosinate dehydrogenase in 2727
effect of nebularine and 7-deazanebularine on purine metabolism in 2023

Electrical stimulation,

- effect on synaptosomal levels of cyclic AMP 835

***Electrophorus electricus*,**

- effect of calcium on purified and intact cell acetylcholinesterase 3459
effects of calcium and magnesium on soluble and membrane-bound acetylcholinesterase 2476

Elongation factor EF-G,

- in *E. coli*, effect of thiol-combining agents 2751

Endoplasmic reticulum,

- liver, effect of halothane anaesthesia in saline and phenobarbital pretreated rats 189

Endotoxiosis,

- effect of neurotropic agents on liver metabolism 2577

***Entamoeba histolytica*,**

- mode of action of metronidazole 1421

Epidermal growth factor,

- in submandibular salivary glands of male and female mice, radioimmunoassay 3305

Epoxidase,

- in liver microsomes, role of lipid peroxidation 1079

Epoxide hydrolase,

- in human liver biopsy specimens 1307
in liver microsomes,
inhibition by aziridines 1845
photometric assay with safole oxide as substrate 2839
in lung microsomes 333

Epoxides,

- of benz[a]anthracene, metabolism by rat liver 2547

2,3-Epoxypropylphenyl ether,

- reaction with *N*-acetylcysteine, effect of hepatic cytosol 1133

Ergotamine,

- effect on rabbit testicular capsular contractions 2969

Eritadenine,

- effect on cholesterol metabolism in the rat 433

Eruric acid,

- effect on activity of the reticuloendothelial system and drug metabolism 1245

Erythrocytes,

- biotransformation of 9- β -D-arabinofuranosyladenine 2761
catalytic activity and inhibition of carbonic anhydrase in 3153
effect of dimethylsulfoxide on cell membrane 3247
glucose efflux from, inhibition by hashish components 2005
effect of gold salts on purine phosphoribosyltransferases in 163
6-methylmercaptopurine ribonucleoside metabolism in 2737
passage of pyridinium oximes into 2663
effect of a water soluble carbodiimide on osmotic fragility and ion permeability 2773

Erythrocyte membrane,

- hormone and cyclic AMP stimulated phosphorylation 2464

Erythromycin estolate,

- effect on hepatocytes 2187

***Escherichia coli*,**

- in blood and urine, action of sulfonamides and trimethoprim 2977
effect of 1,2-dibromoethane on the metabolism and ultrastructure of 2345
effect of piperazine diantimony tartrate on DNA, RNA and protein synthesis in 1451

Esterase,	
in liver microsomes, effect of hexachlorobenzene	2387
17β-Estradiol,	
action on kynurenine metabolism in liver, effect of pyridoxal phosphate	999
binding to rat uterine receptor, effects of DDT analogs and polychlorinated biphenyl mixtures	447
effect on lipolysis and cyclic AMP accumulation in isolated rat adipocytes	2337
effect on metabolism of 7,12-dimethylbenz[a]anthracene and its hydroxymethyl derivatives by female rat liver	735
Estrogens,	
effect on liver microsomal drug metabolism	2651
Estrogen esters,	
hydrolysis by pig liver esterase	2867
Ethanol,	
acute administration,	
effect on hepatic phospholipid metabolism	3289
effect on rat plasma protein synthesis	389
effect on δ -aminolevulinic acid passage across the blood-brain barrier	472
effect on calcium binding and uptake by cardiac microsomes	2369
chronic treatment, effect on protein synthesis in intact and perfused rat liver	21
effect on dextran edema and histamine release	1211
effect on glucagon induction of tyrosine aminotransferase in perfused liver	3239
effect on hashish inhibition of glucose transport by human erythrocytes	2005
induction of fatty liver, effect of 4-methylpyrazole and pyrazole	3037
inhibition of triglyceride release from liver	2063
metabolism in perfused rat liver, effect of 2,4-dinitrophenol	2193, 2334
metabolism in rats during pregnancy	1157
effect on tryptophan hydroxylase from striate synaptosomes	1955
Ethanolamine,	
metabolism in rat liver <i>in vitro</i> , effect of acute ethanol ingestion	3289
Ethidium bromide,	
free and DNA bound, effect on normal and cancer cells	1549
Ethinylestradiol,	
action on kynurenine metabolism in liver, effect of pyridoxal phosphate	999
Ethionine,	
effect on α -naphthylisothiocyanate induced hyperbilirubinemia	2845
7-Ethoxycoumarin,	
O-dealkylation by small intestine, effect of phenobarbital	2127, 3309
3-Ethoxy-2-oxobutylaldehyde bis(thiosemicarbazonato)zinc(II),	
and related chelates, antitumour activity of	567
Ethoxyquin,	
reversibility of hepatic changes	1871
Ethyl 2-diethylaminoethyl 2-ethyl-2-butyl malonate,	
effect on carbon tetrachloride induced liver necrosis	295
Ethyl 2-diethylaminoethyl-2-phenyl-2-ethyl malonate,	
effect on carbon tetrachloride induced liver necrosis	295
Ethyl N-(2-diethylaminoethyl)2-phenyl-2-ethyl malonate,	
effect on carbon tetrachloride induced liver necrosis	295
1-Ethyl-3-(3-dimethylaminopropyl)carbodiimide,	
effect on osmotic fragility and ionic permeability of erythrocytes	2773
Ethyl erucate,	
effect on activity of the reticuloendothelial system and drug metabolism	1245
1-Ethyl-4-(isopropylidenehydrazine)-1H-pyrazole-(3,4-b)-pyridine-5-carboxylic acid, ethyl ester HCl,	
effect on rat liver phosphorylase, phosphodiesterase and cyclic AMP, effect of glucagon	2139
Ethylmorphine,	
effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
N-demethylation in liver microsomes,	
effect of inhibitors and carbon tetrachloride induced necrosis	295
maturing rats, stoichiometric ratio	2325
effects on phenobarbital and pregnenolone-16 α -carbonitrile	513

riboflavin-deficient rats	1467
induced 440 nm absorption in liver microsomes	2603
Ethylmorphine N-demethylase,	
in liver microsomes,	
effect of dietary protein and 3-methylcholanthrene induction	1721
effect of ethoxyquin, reversibility	1871
effect of freezing and storage	2332, 2391
effect of liver soluble fraction	2485
effect of propyl gallate	3129
species differences, effects of lipid peroxidation	1915
Ethyl oleate,	
effect on activity of the reticuloendothelial system and drug metabolism	1245
Ethynyl estradiol,	
effect on liver microsomal drug metabolism	2651
Evolutionary pharmacology,	
of synaptic transmission	2211
F	
Fasting,	
effect on the glucuronide conjugation of chloramphenicol	139
Fatty acids,	
inhibitor of mobilization isolated from calf midbrain	989
in liver, effect of phenobarbital on precursor incorporation	2825
in plasma, effect of angiotensin II	2625
release in brown fat of cold-adapted rats, relationship with cyclic AMP synthesis	2877
in serum, effects of Triton WR-1339 and vincristine	3317
Fatty liver,	
ethanol induced,	
effect of 4-methylpyrazole and pyrazole	3037
phospholipid metabolism in	3289
Fibrinogen,	
effect of acute ethanol administration on synthesis of	389
Fibroblasts,	
chick embryo, effects of free and DNA bound ethidium bromide	1549
FLA-63,	
effect on tyrosine and tryptophan hydroxylases in brain	1393
Flavin,	
in liver microsomes from riboflavin-deficient rats	1467
Flavoprotein mixed-function oxidase,	
from pig liver microsomes, S-oxidation of thioureylenes	3431
Flufenamic acid,	
anti-complement effects of	3107
inhibition of human leucocyte collagenase	2077
inhibition of prostaglandin biosynthesis	1439
Fluorine substituted cytosine analogs,	
mechanism of action, implications for cancer therapy	2533
Fluoroacetate,	
effect on myocardial ATP and phosphofructokinase	3179
5-Fluoro-2'-deoxyuridine,	
sensitivity of human leukemic cells in culture	503
5-Fluorouracil,	
early growth inhibition of <i>Bacillus cereus</i> , effects on DNA and ribosome synthesis	2689
Fluphenazine,	
albumin binding, ultraviolet difference spectrophotometry	957
effect on insulin release	1693
metabolism in man, rat and dog	313
metabolism in rats <i>in vitro</i> and urinary metabolites	303
Folate,	
effect on inhibition of the growth of <i>Crithidia fasciculata</i> by triamterene	773
Folate compounds,	
transport into L1210 cells, effect of sulfhydryl inhibitors	2057

Formycin A and B,	
effect on adenosine metabolism by <i>Schistosoma mansoni</i>	649
Friend leukemia virus,	
effect of tilorone and congeners on DNA polymerase activity	3259
Frog,	
effect of drugs on calcium uptake by mitochondria and sarcoplasmic reticulum from skeletal muscle	89
Fructose-1,6-diphosphatase,	
in liver, effects of morphine <i>in vivo</i>	829
Furosemide,	
inhibition of human placental diamine oxidase	2983
Fungistatic activity,	
of alkyl substituted uracil derivatives	1231
Furoxanobenzofuroxan,	
selective inhibition of monoamine oxidase <i>in vitro</i> and <i>in vivo</i>	1963, 1969
Fusaric acid,	
effect on tryptophan metabolism in blood and brain	2770
G	
Galactose,	
metabolism in regenerating liver, effect of menadione	1021
Gallamine,	
effect on aging of phosphonylated acetylcholinesterase	460
Ganglia,	
leech, choline uptake by	2595
superior cervical, pig, adrenergic ontogenesis	3423
Garlic oil,	
effect on oxidative phosphorylation in mouse liver mitochondria	931
Gastric function,	
chloride transport by parietal cells as a model for	3283
Gilbert's syndrome,	
effect of glutethimide and phenobarbital on bilirubin metabolism	2795
Glibenclamide,	
effect on oxidative phosphorylation by liver mitochondria	239
Glucagon,	
effect on activity of lysosomal enzymes in regenerating liver	752
effect on cyclic AMP in islets of Langerhans	1387
induction of tyrosine aminotransferase in perfused liver after ethanol treatment	3239
and phosphodiesterase inhibitors, effect on phosphorylase activity and cyclic AMP levels in liver	2139
stimulated lipolysis in rats, effect of L8027	2119
treated rats, effect of antibiotics on hepatic cyclic AMP	1777
D-Glucaric acid,	
changes in excretion in relation to alterations in the rate of antipyrine metabolism in man	2480
Glucocorticoids,	
rebound of carrageenin granuloma following cessation of therapy	381
Glucose,	
effect on dextran edema and histamine release	1211
efflux from human erythrocytes, inhibition by hashish components	2005
metabolism in brain, effect of methamphetamine treatment and withdrawal	1205
metabolism in diaphragm, effects of lithium and insulin	1675
metabolism by heart, effect of halothane	539
in plasma, effect of phenothiazines	1693
in spermatozoa, effect of Δ^9 -tetrahydrocannabinol	1341
uptake by hemidiaphragm, effect of 2-piperazino-4(3H)-quinazolinone monoacetate	3066
uptake by skeletal muscle, effect of opoid narcotic drugs	489
utilization in mice and rats, effect of 1-(2-carboxy-3-chlorophenyl)pyrrole	3218
Glucose 6-phosphatase,	
in liver,	
effects of aminonucleoside	2199

effect of ethoxyquin, reversibility	1871
effects of morphine <i>in vivo</i>	829
Glucose 6-phosphate,	
metabolism by brain, effect of biogenic amines and aldehydes	1707
Glucose 6-phosphate dehydrogenase,	
in hypothalamus, effect of morphine dependence	983
β-Glucuronidase,	
effect of anti-inflammatory steroids on enzyme release by phospholipase C and 2,4,6-trinitrobenzene sulphonic acid	467
hydrolysis of <i>p</i> -hydroxyaniline mustard <i>O</i> -glucuronide	3173
in lysosomes from regenerating liver, effect of metabolic inhibitors	752
subcellular distribution in liver, effect of 2-acetylaminofluorene	3323
Glucuronidation,	
of harmol and harmalol in rats <i>in vivo</i>	2101
of 3-trifluoromethyl-4-nitrophenol in rainbow trout	2403
in tumour-bearing rats	1809
D-Glucuronolactone dehydrogenase,	
in rat liver, effect of inducers of drug metabolism	1457
Glutamate,	
accumulation by synaptosomes, effect of lithium	2491
in brain,	
effect of 3-mercaptopropionic acid	3053
effect of methamphetamine treatment and withdrawal	1205
Glutamate decarboxylase,	
in brain,	
effects of acute and chronic pentobarbitone	1801
effects of 3-mercaptopropionic acid	3053
Glutamate dehydrogenase,	
in urine, effect of nephrotoxic compounds	65
Glutamine,	
in brain, effect of 3-mercaptopropionic acid	3053
Glutathione S-epoxide transferase,	
in rat liver soluble fraction	2547
in rat lung microsomes	333
Glutathione-imidazole adduct,	
ability to generate mercaptoimidazole <i>in vivo</i> and <i>in vitro</i>	1891
Glutethimide,	
effect on bilirubin metabolism in man	2795
Glycerol-3-phosphate oxidase,	
in liver, effect of 3-amino-1,2,4-triazole on halothane induced changes in	403
Glycine,	
accumulation in synaptosomes, effect of lithium	2491
in brain, effect of 3-mercaptopropionic acid	3053
Glycogen,	
in brain, effect of methamphetamine treatment and withdrawal	1205
in liver, effect of neuroleptic agents in relation to endotoxiosis	2577
in muscle,	
effect of adrenaline	1945
effect of opoid narcotic drugs	489, 1559
in platelets from normal and streptozotocin diabetic rats, effect of <i>O</i> -(β -hydroxyethyl)-rutoside	1591
turnover in heart, effect of halothane	539
Glycogen synthase,	
in diaphragm, effects of lithium and insulin	1675
in skeletal muscle, effect of methadone	489
Glycyrrhetic acid,	
effect on the cyclic nucleotide system of rat stomach	3085
Glypentine,	
a new hypoglycemic agent	2922
Gold salts,	
effect on the biosynthesis of uridine nucleotides in human granulocytes	153
effect on the purine:pyrophosphate phosphoribosyltransferases in human blood cells	163

Gougerotin, enhancement of hepatic uridine kinase activity	1087
Granulocytes, human, effect of gold salts on purine phosphoribosyltransferases in effect of gold salts on uridine nucleotide biosynthesis in	163 153
Guanethidine, effect on adrenaline, noradrenaline and dopamine levels in brain and heart inhibition of human placental diamine oxidase	1041 2983
bis-Guanidinium compounds, inhibition of diamine oxidase from human placenta and pig kidney	2983
Guanine, transport in cultured rat hepatoma cells, effect of actinomycin D	3045
Guanosine 3',5'-monophosphate, dependent protein kinase, effect of cyclic nucleotide analogs effect of glycyrrhetic acid on enzymic hydrolysis by rat stomach effect of papaverine on enzymic hydrolysis in heart	2011 3085 3071
Guanosine triphosphate, effect on cyclic AMP in islets of Langerhans	1387
Guanylate synthetase, in Ehrlich ascites tumour cells, inhibition of	2727
Gunn rats, drug metabolism in	3405
H	
Haem, catabolism in man, effect of glutethimide and phenobarbital synthesis in mouse liver, effect of 3,5-diethoxycarbonyl-1,4-dihydrocollidine	2795 2713
Haem reductase, activity in liver microsomes	475
2-Halogenoalkylamine, subcellular distribution in guinea-pig vas deferens tryptophan inhibition of the blockade of	1853 2769
Haloperidol inhibition of human placental diamine oxidase effect on α -methyl- <i>m</i> -tyramine content of rat striatum	2983 867
Halothane, effect on cardiac metabolism hepatotoxicity in phenobarbital-pretreated rats induced changes in rat liver enzymes, prevention by 3-amino-1,2,4-triazole	539 189 403
Harmalol, glucuronidation and sulfation in rats <i>in vivo</i> and <i>in vitro</i> effect on UDP glucuronyltransferase in liver microsomes	2101 1283
Harmine, inhibition of diamine oxidase from human placenta and pig kidney	2983
Harmol, glucuronidation and sulfation in rats <i>in vivo</i> and <i>in vitro</i> effect on UDP glucuronyltransferase in liver microsomes	2101 1283
Hartmannella culbertsoni, effect of bioamines on cellular differentiation	57
Hashish components, inhibition of glucose efflux from human erythrocytes	2005
Heart, effect of calcium ionophores on contractility calcium uptake and binding by microsomes, effect of ethanol from control and scorbutic guinea-pigs, effect of 6-hydroxydopamine on noradrenaline uptake by slices effect of halothane on metabolism of inhibition of phosphodiesterases by papaverine effect of isoproterenol on Na^+ , K^+ -ATPase in kinetics of noradrenaline metabolism <i>in vivo</i>	1609 2369 2585 539 3071 2887 697

HeLa cells,	
effect of platinum(II)diammine dichloride on survival of	1345
effect of platinum(IV)diammine dichloride on colony formation	1359
synchronization with 2,3-dihydro-1- <i>H</i> -imidazo[1,2- <i>b</i>]pyrazole	1115
Hemicholinium-3,	
effect on acetylcholine in corneal epithelium	3449
Hemolysis,	
induced by chlorinated bisphenols	1835
Hepatocellular carcinoma,	
reduction of aminoazobenzene compounds by	2341
Hepatocyte suspensions,	
as a model for demonstration of drug hepatotoxicity	2187
Hepatoma cells,	
HTC, inhibition of growth and purine biosynthesis by allopurinol and 4-aminopyrazolo(3,4- <i>d</i>)pyrimidine	3199
MH ₁ C ₁ ,	
effect of actinomycin D on hypoxanthine, adenine and guanine uptake	3045
effect of actinomycin D on thymidine and hypoxanthine uptake	395
effect of sulfisoxazole and albumin on bilirubin conjugation	1432
Hepatomegaly,	
relationship to serum triglyceride lowering	685
Heptchlor,	
inhibition of microsomal epoxidation by trans-stilbenimine	1845
Herpes keratitis,	
effect of deoxythymidine <i>in vivo</i>	1153
Hexachlorobenzene,	
effect on microsomal enzyme systems <i>in vivo</i>	2175, 2387
Hexachlorophene,	
hemolytic properties of	1835
effect on hepatic drug-metabolizing enzymes	1997
Hexobarbital,	
effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
induced 440 nm absorption in liver microsomes	2603
metabolism by liver microsomes,	
effects of phenobarbital and pregnenolone-16 α -carbonitrile	513
effect of reserpine	2461
sleeping time,	
effect of hexachlorophene	1997
effect of pregnanolone	1629
Hexobarbitone,	
metabolism by liver microsomes, effect of hexachlorophene	2175
metabolism by perfused liver, liver slices and liver microsomes, effect of catecholamines	3377
sleeping time, effect of hexachlorophene	2175
Hexose phosphates,	
in heart, effect of fluoroacetate poisoning	3179
Hexosemonophosphate shunt,	
in liver, effect of menadione	1021
Hippocampus,	
tyrosine hydroxylase in, effect of <i>locus coeruleus</i> stimulation	2779
Histamine,	
effect on amino acid release from synaptosomes	835
in brain, effect of neonatal sympathectomy with 6-hydroxydopamine	2395
effect on chloride transport by parietal cells	3283
effect on cyclic AMP levels in synaptosomes	835
detoxification in rats and guinea-pigs under drug treated conditions, effect of ascorbic acid	637
detoxification in rats and guinea-pigs under stress conditions, effect of ascorbic acid	643
formation <i>in vitro</i> , two isotopic methods	2671
in gastric mucosa, effect of food, pentagastrin or burimamide	2963
release by dextran, effect of drugs	1211
Histidine decarboxylase,	
in rat gastric mucosa, effect of H ₂ receptor antagonists	2963

Histones,	
protection against drug-induced alterations of DNA in thymus chromatin	1519
Homofolates,	
possible basis for antitumour activity	1827
Homovanillic acid,	
in caudate nucleus, effect of γ -hydroxybutyric acid	879
in CSF, effect of pentylenetetrazol	1223
in striatum, effect of a butyrophenone derivative U-32,802A	1701
Hormone receptors,	
cell membranes	2353
H₂ receptor antagonists,	
effect on histidine decarboxylase in rat gastric mucosa	2963
Human chorionic gonadotropin,	
induction of ornithine decarboxylase in rat ovary	2697
Human skin epithelial cells,	
effects of chlorpromazine and actinomycin D on uptake and incorporation of amino acids, hypoxanthine and thymidine	705
Hydralazine,	
inhibition of human placental diamine oxidase	2983
Hydrocortisone,	
induction of drug metabolizing enzymes during development	345
Hydrocortisone acetate,	
rebound of carrageenin granuloma following cessation of therapy	381
Hydromorphone,	
glycogenolytic activity in skeletal muscle	489
p-Hydroxyaniline mustard conjugates,	
enzymatic hydrolysis <i>in vitro</i>	3173
4-Hydroxy antipyrine,	
in biological fluids, gas chromatographic estimation	197
2-Hydroxybenzoic acid,	
analogs and iodinated derivatives, effect on liver mitochondrial respiration	1367, 1379
γ-Hydroxybutyric acid,	
biochemical mechanisms of central effects	879
formation from succinic semialdehyde by rat brain alcohol dehydrogenase	1219
4-Hydroxycoumarine,	
and its sulphur and selenium analogs, inhibition of mitochondrial swelling	3491
6-Hydroxydopamine,	
effect on adrenaline, noradrenaline and dopamine levels in brain and heart	1041
effect on adrenergic enzymes in swine superior cervical ganglion during development	3423
effect on excretion of noradrenaline and dopamine alcoholic metabolites	533
induced degeneration of noradrenergic neurons in the scorbutic guinea-pig	2585
effect on raphe neurone metabolism	1913
treatment of neonatal rats, effect on 5-hydroxytryptamine and histamine in brain	2395
6β-Hydroxy-3-epidigitoxigenin,	
the major metabolite of digitoxigenin by rabbit liver homogenates	921
O-(β-Hydroxyethyl)-rutoside,	
effect on platelet intermediary metabolism in normal and streptozotocin diabetic rats	1591
5-Hydroxy-2-formylpyridine thiosemicarbazone,	
and its analogs, antineoplastic activity	2421
5-Hydroxyindoleacetaldehyde,	
effect on pentose shunt activity in brain	1707
5-Hydroxyindoleacetic acid,	
in brain,	
effect of 4-chloroamphetamine and its oxime and hydroxylamine derivatives	3267
effect of fusaric acid	2770
effect of LSD	231
effect on neonatal sympathectomy with 6-hydroxydopamine	2395
effect of quipazine	3211
in CSF, effect of pentylenetetrazol	1223
4-Hydroxy-3-methoxyphenylethanol,	
excretion of sulphate and glucuronide conjugates after 6-hydroxydopamine	533

4-Hydroxy-3-methoxyphenylglycol,	
excretion of sulphate and glucuronide conjugates after 6-hydroxydopamine	533
7-Hydroxymethyl-12-methylbenz[a]anthracene,	
metabolism by female rat liver, effect of estradiol	735
12-Hydroxymethyl-7-methylbenz[a]anthracene,	
metabolism by female rat liver, effect of estradiol	735
7-Hydroxy-Δ^1-tetrahydrocannabinol,	
effect on blood and brain levels of Δ^1 -tetrahydrocannabinol	1140
5-Hydroxytryptamine,	
effect on aggregation of rabbit blood platelets	37
in brain,	
effect of a butyrophenone derivative U-32,802A	1701
effect of 4-chloroamphetamine and its oxime and hydroxylamine derivatives	3267
fluorometric micromethod for the determination of	2437
effect of fusaric acid	2770
effect of LSD	231
effect of neonatal sympathectomy with 6-hydroxydopamine	2395
effect of pentazocine and naloxone	3029
deamination by monoamine oxidase from brain and lung, inhibition by imipramine	2537
effect on enzymatic dealkylation of LSD	1073
induction of axenic encystation of <i>Hartmannella culbertsoni</i>	57
inhibition of raphe neurone metabolism	1913
neuronal uptake mechanisms	1927
effect on pentose shunt activity in brain	1707
pyrrolidine induced release from neoplastic mast cells	2235
subcellular distribution in blood platelets, effect of reserpine treatment <i>in vitro</i> and	
<i>in vivo</i>	351
synthesis in striate synaptosomes, effect of ethanol	1955
turnover in brain, effect of quipazine	3211
uptake and release by synaptosomes, effect of nomifensine	3413
urinary excretion, effect of L-dopa and imipramine	1503
Hypoglycemia,	
induced by 1-(2-carboxy-3-chlorophenyl)pyrrole	3218
Hypothalamus,	
effect of 6-hydroxydopamine sympathectomy in neonatal rats on 5-hydroxytryptamine	
and histamine in	2395
effect of morphine dependence on enzyme activity in	983
effect of morphine on protein and phosphatidylcholine synthesis	1753
Hypoxanthine,	
metabolism in Ehrlich ascites tumour cells, inhibition of	2727
transport by cultured rat hepatoma cells, effect of actinomycin D	395, 3045
uptake by human epithelial cells, effects of chlorpromazine and actinomycin D	705
Hypoxanthine phosphoribosyltransferase,	
in Ehrlich ascites tumour cells, effects of diazoacetyl-glycine amide	289
in human granulocytes, effect of gold salts	163

I

Ibuprofen,	
inhibition of prostaglandin biosynthesis	1439
Imidazolehistamines,	
in soft tissues of <i>Drupa concatenata</i> Lam	1431
4-Imidazolyl-3-amino-2-butanone,	
effect on histidine decarboxylase stimulated by H_2 receptor agonists	2963
Imipramine,	
cytotoxic effects on platelets	2629
effect on L-dopa metabolism in man	1503
inhibition of monoamine oxidase in lung, liver and brain	1138, 2537
effect on UDP glucuronyltransferase in liver microsomes	1283
Indoleacetaldehyde,	
effect on pentose shunt activity in brain	1707

Indomethacin,	
inhibition of human leucocyte collagenase	2077
inhibition of prostaglandin biosynthesis	1439
Inflammation,	
cyclic nucleotides and modulation of effector systems	763
Inosinate dehydrogenase,	
in Ehrlich ascites tumour cells, inhibitors of	2727
Inosine monophosphate,	
synthesis in Ehrlich ascites tumour cells, effects of diazoacetyl-glycine amide	289
Insulin,	
effect on dextran edema and histamine release	1211
and lithium, effects on carbohydrate metabolism in rat diaphragm	1675
effect of phenothiazines on release of	1693
Insulin receptors,	
cell membranes	2353
Intestine,	
phenobarbital induction of drug monooxygenase in	2127
4-Iodosalicylic acid,	
effect on oxidative phosphorylation in rat liver mitochondria	1367, 1379
Iproniazid,	
inhibition of diamine oxidase from human placenta and pig kidney	2983
effect on UDP glucuronyltransferase in liver microsomes	1283
Iris,	
from control and scorbutic guinea-pigs, effect of 6-hydroxydopamine on noradrenaline uptake by slices	2585
Iron,	
inhibition of Na,K-ATPase in brain microsomes	3441
effect on lipid peroxidation and ethylmorphine <i>N</i> -demethylase activity in liver microsomes from various species	1915
Iron chelating agents,	
effect on collagen synthesis in rat tissues <i>in vivo</i>	2165
Irradiation,	
effect on oxidative demethylation in liver, role of testosterone	793
Islets of Langerhans,	
regulation of cyclic AMP synthesis in	1387
Isocarboxazid,	
inhibition of diamine oxidase from human placenta and pig kidney	2983
Isoniazid,	
inhibition of diamine oxidase from human placenta and pig kidney	2983
effect on UDP glucuronyltransferase in liver microsomes	1283
N⁶-(Δ²-Isopentenyl)adenosine,	
metabolic conversion of the 5'-triphosphate in human blood	2473
metabolism in rat liver	2469
Isophosphamide,	
metabolism by rat liver microsomes	115
Isoprenaline,	
inhibition of adrenaline induced aggregation of blood platelets	37
Isoproterenol,	
effect on Na ⁺ .K ⁺ -ATPase from dog heart	2887
effect on cyclic AMP in islets of Langerhans	1387
effect on dextran edema and histamine release	1211
effect on rabbit testicular capsular contractions	2969
stimulated adenylate cyclase activity, effect of α-methylfluorene-2-acetic acid	2411
2-Isothiocyano-3-methylbutanoic acid ethyl ester,	
effect on polypeptide synthesis in cell-free systems from <i>E. coli</i>	2751
Isosuprine,	
inhibition of diamine oxidase from human placenta	2983
J	
Japanese earthworm,	
antipyretic components in	1583

K

Kallikrein,	
in plasma, effect of cobalt serum,	1095
interaction with kininogens from human plasma	2291
synthetic low molecular weight inhibitors of	2247
KB cells,	
effect of 9- and 7-keto-nucleosides on the growth of	2095
Ketamine,	
inhibition of acetylcholinesterase in brain	1647
Ketogenesis,	
in perfused rat liver, effect of chlorpropamine	75
7- and 9-Keto-nucleosides,	
inhibition of the growth of KB cells	2095
Kidney,	
p-aminohippurate transport and oxygen consumption during development	2323
catalytic activity and inhibition of carbonic anhydrase	3153
inhibition of diamine oxidase by monoamine oxidase inhibitors	2983
newborn dog, substrate stimulation of organic anion transport	754
Kininase,	
in plasma, effect of cobalt	1095
Kininogenase,	
in dog plasma, activation with glass	3009
Kininogens,	
in human plasma,	
enzymatic digestion and modification	781
isolation	2291
K₀ 592,	
effect on cyclic AMP in islets of Langerhans	1387
K-region epoxide,	
of benz[a]anthracene, metabolism by rat liver	2547
of polycyclic hydrocarbons, metabolism by rat lung	333
Kynurenine,	
metabolism in liver, effect of pyridoxal phosphate on the action of estrogens	999
Kynurenine aminotransferase,	
in mouse liver, effect of metal ions	2557
Kynurenine hydrolase,	
in mouse liver, effect of metal ions	2557

L

Lactate,	
in brain, effect of methamphetamine treatment and withdrawal	1205
Lactate dehydrogenase,	
in human platelets, effects of imipramine and chlorpromazine	2629
in hypothalamus, effect of morphine dependence	983
in liver, effect of 3-amino-1,2,4-triazole on halothane induced changes in	403
in urine, detection of renal damage caused by nephrotoxic compounds	65
Lead,	
inhibition of Na ⁺ .K ⁺ -ATPase in brain microsomes	3441
Lecithin-cholesterol acyltransferase,	
in human plasma, effect of organophosphate pesticides	1641
Leech (<i>Hirudo medicinalis</i>),	
choline uptake by the segmental ganglia	2595
Lens,	
from diabetic rats, effect of 3,3'-tetramethylene glutaric acid on sorbitol accumulation	
in	2991
L-Leucine,	
uptake in rat brain slices, inhibition by allylglycine	821
Leukemia cells,	
human,	
effect of cyclocytidine on macromolecule synthesis	1235

Leukemia cells—<i>contd.</i>	
sensitivity to anti-cancer agents in culture	503
L1210,	
antitumour activity of homofolates	1827
effect of 1,3-bis(2-chloroethyl)-1-nitrosurea on DNA synthesis	3097
effect of cyclocytidine on macromolecule synthesis	1235
growth inhibition by 1-amino guanosine	2727
inhibition of DNA synthesis by 2,2'-anhydro-1- β -D-arabinofuranosylcytosine	2657
phosphatidylcholine synthesis in. effect of triethylcholine	523
effect of sulfhydryl inhibitors on transport of folate compounds into	2057
RPMI 6410, effects of nebularine and 7-deazanebularine	2023
Leukocytes,	
effect of anti-inflammatory drugs on collagenase in	2077
6-methylmercaptapurine ribonucleoside metabolism in	2737
transport and interaction of drugs	2951
Levomepromazine,	
interaction with human ceruloplasmin	1045
Lipid,	
in liver and serum, effect of microsomal enzyme inducers and hypolipidemic agents	685
metabolism in mice, effects of Triton WR-1339 and vincristine	3317
Lipid peroxidation,	
in liver microsomes,	
effect of bromotrichloromethane	2907
effect on epoxidase and epoxide hydrase activities	1079
effect of liver soluble fraction	2485
relationship with drug hydroxylation	2467
species differences, effects on ethylmorphine <i>N</i> -demethylase activity	1915
Lipolysis,	
cyclic AMP synthesis in brown fat of cold-adapted rats	2877
inhibitor from calf midbrain	989
in rat adipocytes, effect of estradiol	2337
in rat adipose tissue, effect of L8027	2119
effects of <i>N</i> ⁶ -substituted adenosines	2283
Liposomes,	
yeast, effect of chlorhexidine, paludrine and cetyltrimethylammonium bromide	1413
Lithium,	
and insulin, effects on carbohydrate metabolism in rat diaphragm	1675
effect on prostaglandin E ₁ -stimulated adenylate cyclase in human platelets	845
selective effects on synaptosomal amino acid transport systems	2491
<i>in vitro</i> and <i>in vivo</i> effect on RNA metabolism in brain	369
Lithocholic acid,	
hydroxylation by rat liver microsomes, effect of 16 α -cyanopregnenolone	9
Locus coeruleus,	
effect of stimulation on hippocampal tyrosine hydroxylase	2779
Lung,	
ascorbic acid loss induced by catecholamines	2705
formation and metabolism of K-region epoxides on polycyclic hydrocarbons	333
immunologic release of chemical mediators of inflammation	763
inhibition of cyclic AMP phosphodiesterase by disodium cromoglycate	917
monoamine oxidase in,	
inhibition by imipramine	2537
inhibition by imipramine and desipramine	1138
polycyclic hydrocarbon metabolism by	323
Luteinizing hormone,	
induction of ornithine decarboxylase in rat ovary	2697
Lymphocytes,	
inhibition of phosphodiesterase by <i>N</i> -methylisatin- β -thiosemicarbazone	1663
Lynestrenol,	
effect on drug metabolism in rat liver microsomes	2037
D-Lysergic acid diethylamide,	
comparison of chronic and acute treatment on rat brain 5-hydroxytryptamine and noradrenaline	231

enzymatic dealkylation of	1073
effect on hepatic metabolism in relation to endotoxiosis	2577
Lysergic acid diethylamide related compounds,	
metabolism by rat liver <i>in vitro</i>	3063
Lysosomes,	
liver,	
effect of anti-inflammatory steroids on the lytic action of phospholipase C and 2,4,6-trinitrobenzene sulphonic acid	467
lysis by Δ^9 -tetrahydrocannabinol	1342
effect of selenium compounds <i>in vitro</i>	3491
in liver parenchymal cells, effect of 2-acetylaminofluorene	3323
in regenerating liver, effect of metabolic regulators on enzymes in	752
Lysosomotropic agents,	
a review	2495
L8027,	
effect on the metabolism and response to glucagon of rat adipose tissue	2119
M	
Macromolecules,	
covalent binding of reactive metabolites, correlation with toxicity	2785, 2927
Magnesium,	
and adenine nucleotides, effect on adrenaline efflux from adrenal medullary storage vesicles	2190
effect on the daunomycin-DNA complex	2147
effect on soluble and membrane-bound acetylcholinesterase from <i>Electrophorus electricus</i>	2476
Malic dehydrogenase,	
in hypothalamus, effect of morphine dependence	983
in liver, effects of aminonucleoside	2199
Malic enzyme,	
in liver, effect of 3-amino-1,2,4-triazole on halothane induced changes in	403
Man,	
metabolism of phenothiazines <i>in vivo</i>	313
monoamine oxidase in brain	1937
UDP glucuronosyltransferase in placenta	2203
Manganese,	
effect on kynurenine metabolism in liver	2557
D-Mannose,	
metabolism by heart, effect of halothane	539
Marrow cells,	
6-methylmercaptopurine ribonucleoside metabolism in	2737
Mebanazine,	
inhibition of diamine oxidase from human placenta and pig kidney	2983
Mefenamic acid,	
inhibition of prostaglandin biosynthesis	1439
Melanoma cells,	
human cultured, effect of papaverine	2917
Melatonin,	
inhibition of raphe neurone metabolism	1913
Melcofenamic acid,	
inhibition of prostaglandin biosynthesis	1439
Memory,	
bioassays for biochemical changes	1553
Menadione,	
effect on galactose metabolism in regenerating rat liver	1021
interaction with rat liver mitochondrial NADH dehydrogenase	1569
Meperidine,	
glycogenolytic activity in skeletal muscle	489
Mephenesin,	
effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083

Meprobamate, effect on enzymatic dealkylation of LSD	1073
2-Mercaptoethanol, effect on purine phosphoribosyltransferases of human blood cells	163
5-Mercapto-1-methyl-4-nitroimidazole, mechanism of formation <i>in vivo</i> and <i>in vitro</i>	1891
3-Mercaptopropionic acid, effect on amino acids and glutamate decarboxylase in brain regions	3053
Mercurials, distribution in subcellular fractions of developing rat brain	2999
effect on hepatic functions sensitive to cortisone in mice	2577
Mescaline, effect on the binding of aminoacyl-tRNA to brain ribosomes	1687
metabolism in brain <i>in vivo</i>	273
side chain degradation and formation of 3,4,5-trimethoxy-benzoic acid in CNS <i>in vivo</i>	259
Mestranol, action on kynurenine metabolism in liver, effect of pyridoxal phosphate	999
effect on liver microsomal drug metabolism	1629, 2651
Methadone, chronic treatment, effect on bile flow and on metabolism and excretion of methadone	1405
glycogenolytic activity in skeletal muscle	489, 1559
inhibition of drug transport in leukocytes	2951
effect on naloxone binding in brain	2349
effects on steroid biosynthesis in rat adrenocortical cells	2449
uptake into leukocytes	2951
Methamphetamine, chronic treatment and withdrawal, effect on brain carbohydrate metabolism	1205
Methergine, metabolism by rat liver <i>in vitro</i>	3063
Methimazole, S-oxidation catalysed by a microsomal flavoprotein mixed-function oxidase	3431
Methionine, S-adenosylmethionine formation and turnover in liver, effect of partial hepatectomy and dimethylnitrosamine	2452
Methotrexate, device for controlled drug release in mice	2457
sensitivity of human leukemic cells in culture	503
8-Methoxykynurinic acid, enzymic demethylation	1918
N-Methylaniline, effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
N-demethylation in liver microsomes from riboflavin-deficient rats	1467
7-Methylbenz[a]anthracene, K-region epoxide formation and metabolism by rat lung	333
metabolism by rat lung	323
3-Methylcholanthrene, enhancement of D-glucuronolactone and acetaldehyde dehydrogenase activities in rat liver	1457
induction of drug metabolism, effect of dietary protein	1721
effect on the inhibition of hepatic mixed function oxidase activity by propyl gallate	3129
effect on metyrapone binding to reduced cytochrome P-450	1319, 2305
effect on oxidative drug metabolism in liver of irradiated rats	793
effect on sulphur binding to microsomal membranes	1733
2-Methyl 2-ethyl caproic acid, effect on audiogenic seizures and GABA in brain	2363
α-Methylfluorene-2-acetic acid, interaction with adenylate cyclase	2411
Methyliodide, reaction with N-acetylcysteine, effect of hepatic cytosol	1133
N-Methyl-isatin-β-thiosemicarbazone, effect on cyclic AMP phosphodiesterase in human lymphocytes	1663

6-Methylmercaptapurine ribonucleoside,	
formation of 5'-nucleotides in human tissues <i>in vitro</i>	2737
sensitivity of human leukemic cells in culture	503
Methylmercuric chloride,	
distribution of mercury in subcellular fractions of developing rat brain	2999
Methylmercury complex,	
in rat bile, chemical form of	1903
2-Methyl-3-oxo-2-azabicyclo(2.2.2)octan-6-exo-yl 5-(4-biphenyl)-3-methylvalerate,	
effect on mitochondrial respiration and oxidative phosphorylation	1531
Methylparathion,	
effect on lecithin-cholesterol acyltransferase in human placenta	1641
1-Methyl-4-piperidyl bis(p-chlorophenoxy)acetate,	
effect on serum and liver lipid composition	685
16-Methyl-prednisolone-21-diethylaminoacetate,	
hydrolysis by pig liver esterase	2867
4-Methylpyrazole,	
effect on the induction of fatty liver by ethanol	3037
effect on liver mitochondrial function	203
Methylsergide,	
metabolism by rat liver <i>in vitro</i>	3063
5-Methyl tetrahydrofolate,	
transport in L1210 cells, effect of sulfhydryl inhibitors	2057
2-Methyl-2-[p-(1,2,3,4-tetrahydro-1-naphthyl)-phenoxy]propionic acid,	
effect on serum and liver lipid composition	685
N-Methyltransferase,	
in rat brain using 5-methyltetrahydrofolic acid as the methyl donor	1599
α-Methyl-m-tyramine,	
interaction with apomorphine, neuroleptics and stimulants	867
Methylvinyl sulphone,	
reaction with N-acetylcysteine, effect of hepatic cytosol	1133
Methpyrion,	
effect on ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
Metiamide,	
effect on histidine decarboxylase in rat gastric mucosa	2963
Metronidazole,	
uptake and metabolism by <i>Trichomonas vaginalis</i> and other micro-organisms	1421
Metyrapone,	
binding to reduced cytochrome P-450, effect of phenobarbital and 3-methylcholanthrene pretreatment	1319, 2305
Miconazole,	
effect on uptake and utilization of purines, pyrimidines, nucleosides, amino acids and glucose by <i>Candida albicans</i>	887
Microsomal drug metabolism,	
relationship with the reticuloendothelial system	1245
Microsomes,	
stability of frozen, stored suspensions	2332, 2391
Mitochondria,	
brain, effect of alphaxalone on oxidative phosphorylation	3299
liver,	
effects of clofibrate on function of	1985, 3331
effect of 3,5-diiodo-L-tyrosyl 3,5-diiodo-L-tyrosine on respiration	1195
effect of 2-hydroxybenzoic acid derivatives on respiration	1367
effect on hypoglycemic sulphonylureas on ATPase activity	251
effect of hypoglycemic sulphonylureas on oxidative phosphorylation	239
effect of 4-iodosalicylic acid on respiration	1379
effect of a new hypolipidemic agent SC-26096 on oxidative phosphorylation	1531
effect of nitrofurantoin on protein synthesis	470
effect of polychlorinated biphenyls on oxidative phosphorylation and respiration	1577
effect of pyrazole and its derivatives on function of	203
restoration during recovery from carbon tetrachloride intoxication	3227

Mitochondria—contd.	
effect of selenium compounds <i>in vitro</i>	3491
effects of sporidesmin on swelling and respiration	801, 811
platelets, respiration and the thrombin-induced release reaction of	1859
skeletal muscle, effect on drugs on calcium uptake and release	89
Mixed function oxidase system,	
in liver microsomes,	
of maturing male rats, stoichiometry of	2325
effect of propyl gallate	3129
effect of storage	2391
Mixed function substrate oxidation,	
spectral intermediate at 440 nm	2603
MJ 1999,	
effect on cyclic AMP in islets of Langerhans	1387
Monoamine oxidase,	
in brain,	
effect of acetylphenylhydrazine and phenylhydrazine <i>in vitro</i> and <i>in vivo</i>	2045
human, mixed substrate experiments	1937
inhibition by imipramine	2537
inhibition by imipramine and desipramine	1138
inhibition by benzo-2,1,5-oxadiazoles	1963
irreversible inhibition by propargylamine	463
in liver,	
effect of acetylphenylhydrazine and phenylhydrazine <i>in vitro</i> and <i>in vivo</i>	2045
inhibition by imipramine and desipramine	1138
in lung,	
inhibition by imipramine	2537
inhibition by imipramine and desipramine	1138
in pituitary cells in culture, inhibition by propargylamine	2205
selective inhibition by furoxanobenzofuroxan	1963, 1969
specificity of substrates and inhibitors	615
in superior cervical ganglion of swine during development	3423
time-dependent inhibition by propargylamines	629
Monoamine oxidase inhibition,	
effect on tryptophan and tyrosine transport across synaptosomal membranes	587
Monoamine oxidase inhibitors,	
inhibition of diamine oxidase from human placenta and pig kidney	2983
effect on UDP glucuronyltransferase in liver microsomes	1283
Mono-oxygenase,	
in small intestine,	
a direct test using surface reflectance fluorimetry	3309
induction by phenobarbital	2127
Morphine,	
azido derivatives, <i>N</i> -demethylation by rat liver	745
effect on brain protein and phosphatidylcholine synthesis and turnover	1753
effect on enzyme activity in the hypothalamus	983
effect on the gluconeogenic enzymes in rat liver <i>in vivo</i>	829
effect on glucose uptake and glycogen content of skeletal muscle	489
glucuronidation and biliary excretion in the rat, effect of chloroquine and phenobarbital	1331
effect on NADPH-dependent reduction of cytochrome <i>c</i>	3163
effect on naloxone binding in brain	2349
effect on the secretory activity of the adrenal cortex	2111
uptake into leukocytes	2951
Muscle, skeletal,	
activation of phosphorylase by adrenaline <i>in vivo</i>	1945
effect of disulphide bond reduction on cholinoreceptors in	3093
effect of drugs on calcium uptake and release by mitochondria and sarcoplasmic reticulum	89
glycogenolytic action of methadone	1559
effect of opioid narcotic drugs on glucose uptake and glycogen content	489
Mycophenolic acid,	
inhibition of inosinate dehydrogenase in Ehrlich ascites tumour cells	2727

N

NAD-glycohydrolase,	
cellular localization in brain	2060
NADH dehydrogenase,	
in rat liver mitochondria, interaction with 2-phenylisatogen and menadione	1569
NADPH,	
morphine mediation of electron transfer to cytochrome c	3163
NADPH-dependent lipid peroxidation	
relationship with drug hydroxylation in rat liver microsomes	2467
NADPH-oxidase,	
in liver, effect of 3-amino-1,2,4-triazole on halothane induced changes in	403
Naloxone,	
binding in brain, effect of α -adrenergic blockers	2349
and pentazocine, effect on the monoamine content of brain regions	3029
uptake into leukocytes	2951
2-Naphthylhydroxylamine,	
enzymatic reduction by rat and mouse liver fractions	661
α-Naphthylisothiocyanate,	
induced hyperbilirubinemia, effect of inhibitors of protein and RNA synthesis	2845
effect on liver microsomal cytochrome P-450, protein and phospholipid content	2431
1-Naphthyl N-methylcarbamate,	
oxidative demethylation <i>in vitro</i>	1979
trans-4-(1-Naphthylvinyl)pyridine hydrochloride,	
effect on acetylcholine in corneal epithelium	3449
Naproxen,	
inhibition of prostaglandin biosynthesis	1439
Nebularine,	
effect on the enzymes of purine metabolism in Ehrlich ascites tumour cells	2023
Neoplastic mast cells,	
amine release from	2235
Nephrotoxic compounds,	
use of urinary enzyme measurements to detect renal damage	65
Nerve,	
stimulation, noradrenaline release	1793
Neuroblastoma clones,	
kinetics of choline uptake	2857
Neurotransmitters,	
evolutionary pharmacology	2211
turnover in brain, effect of modifying drugs on tyrosine and tryptophan hydroxylase	1393
Neurotransmitter amines,	
uptake mechanisms for	1927
Nialamide,	
inhibition of diamine oxidase from human placenta and pig kidney	2983
effect on tryptophan and tyrosine transport across synaptosomal membranes	587
Nicotinamide,	
effect on dextran edema and histamine release	1211
protective effect against audiogenic seizures	2807
Nicotine,	
induced release of amines from neoplastic mast cells	2235
Nicotinic acid,	
effect on microsomal enzyme activity in perfused rat liver	599
Niflumic acid,	
anti-complement effects of	3107
inhibition of prostaglandin biosynthesis	1439
Nikethamide,	
effect on ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
Nitrazepam,	
effect on enzymatic dealkylation of LSD	1073
p-Nitroanisole,	
O-demethylation by liver microsomes,	
from perfused tissue	599

<i>p</i>-Nitroanisole—contd.	
effect of pregnanolone and related steroids	1629
effect of progestagens	2037
<i>p</i>-Nitroanisole <i>O</i>-demethylase,	
in liver microsomes,	
effect of ascorbic acid deficiency	3121
of Gunn rats	3405
effect of hexachlorobenzene	2387
effect of lipids	1245
<i>p</i>-Nitrobenzaldehyde,	
effect on pentose shunt activity in brain	1707
4-Nitrocatechol,	
detection of renal damage by measurement of urinary enzymes	65
5-Nitrofuran derivatives,	
nitroreduction by rat liver xanthine oxidase and NADPH-cytochrome <i>c</i> reductase	3395
Nitrofurantoin,	
inhibition of mitochondrial protein synthesis in rat and goat liver	470
2-Nitronaphthalene,	
enzymatic reduction by rat and mouse liver fractions	661
<i>p</i>-Nitrophenol,	
glucuronidation and sulfation in tumour-bearing rats	1809
4-Nitrophenylarsonic acid,	
detection of renal damage by measurement of urinary enzymes	65
Nitroreductase,	
in liver microsomes, effect of hexachlorophene	1997
in rat and mouse liver fractions	661
Nomifensine,	
effect on synaptosomal uptake and release of noradrenaline and 5-hydroxytryptamine	3413
Noradrenaline,	
acetylcholine-induced release from adrenal medulla, effects of theophylline and pro-	
pranolol	2225
effect on amino acid release from synaptosomes	835
effect on ascorbic acid in lung	2705
in brain,	
effect of amphetamine, relationship to circling behaviour	3223
effects of butyrophenone derivative U-32,802A	1701
fluorometric micromethod for the determination of	2437
effect of fusaric acid	2770
effect of guanethedine administration	1041
effect of 6-hydroxydopamine administration	533, 1041
effect of LSD	231
effect of pentazocine and naloxone	3029
effect on chloride transport by parietal cells	3283
effect on cyclic AMP levels in synaptosomes	835
effect on cyclic AMP and lipolysis in brown fat of cold-adapted rats	2877
effect on dextran edema and histamine release	1211
effect on enzymatic dealkylation of LSD	1073
in heart,	
effect of guanethedine administration	1041
effect of 6-hydroxydopamine administration	533, 1041
effect of imipramine on urinary excretion	1503
induced aggregation of blood platelets, inhibition of	37
induced lipolysis, effect of an inhibitor isolated from calf brain	989
kinetics of metabolism in rat heart <i>in vivo</i>	697
metabolism in brain, effect of barbiturates	1877
effect on metabolism of foreign compounds by liver	3377
neuronal and extraneuronal uptake mechanisms	1927
effect on pentose shunt activity in brain	1707
effect on phosphorylation of erythrocyte membranes	2464
presynaptic regulation of release	1793
stimulation of rat brain ATPase, effect of EGTA	3505
uptake and release from mouse heart, effect of a butyrophenone derivative U-32,802A	1707

uptake and release by synaptosomes, effect of nomifensine	3413
uptake by spleen, effect of amiodarone	3501
Noradrenergic neurons,	
effect of impulse flow on tyrosine hydroxylase	2779
in scorbutic guinea-pigs, effect of 6-hydroxydopamine	2585
Norethindrone,	
effect on drug metabolism	1629, 2651
Norethisterone acetate,	
effect on drug metabolism	2037
Norethynodrel,	
effect on drug metabolism	1629, 2651
d-Norgestrel,	
effect on drug metabolism	2037
Nortriptyline,	
effect on amine uptake and release by synaptosomes	3413
NSD 1015,	
effect on tyrosine and tryptophan hydroxylases in brain	1393
Nucleoside diphosphate kinase,	
in human granulocytes, effect of gold salts	153
Nucleoside monophosphate kinase,	
in human granulocytes, effect of gold salts	153
O	
Ochratoxins,	
interaction with bovine serum albumin	1105
Octopamine,	
effect on pentose shunt activity in brain	1707
Oleic acid,	
effect on the activity of the reticuloendothelial system and drug metabolism	1245
Opioid narcotic drugs,	
glycogenolytic action of	489, 1559
Organophosphate pesticides,	
effect on lecithin-cholesterol acyltransferase in human plasma	1641
Ornithine decarboxylase,	
in rat ovary, induction by luteinizing hormone or human chorionic gonadotropin	2697
Orotate phosphoribosyltransferase,	
in human granulocytes, effect of gold salts	153
Orotidine-5'-phosphate decarboxylase,	
in human granulocytes, effect of gold salts	153
effects of thiouracil	2273
Orotidine-5'-phosphate pyrophosphorylase,	
effects of thiouracil	2273
Ovary,	
cholesterol esterification, inhibition by SKF 525-A and other ionic amphipathic amines	1123
induction of ornithine decarboxylase by luteinizing hormone and human chorionic gonadotropin	2697
Oxazoles,	
inhibition of monoamine oxidase	1963
Oxidative demethylation	
in liver or irradiated rats, effect of testosterone	793
Oxidative phosphorylation,	
in adrenal cortex mitochondria, effect of <i>n</i> -butyl-3,5-diiodo-4-hydroxybenzoate	411
in brain mitochondria, effect of alphaxalone	3299
in liver mitochondria,	
effect of clofibrate	3331
effect of <i>n</i> -butyl-3,5-diiodo-4-hydroxybenzoate	411
effect of 3,5-diiodo-L-tyrosyl 3,5-diiodo-L-tyrosine	1195
effect of garlic oil	931
effect of 2-hydroxybenzoic acids and their iodinated derivatives	1367
effect of hypoglycemic sulfonylureas	239
effect of 4-iodosalicylic acid	1367, 1379

Oxidative phosphorylation—contd.	
effect of a new hypolipidemic agent SC-26096	1531
from polychlorinated biphenyl-intoxicated rats	1577
effect of pyrazole and its derivatives	203
Oxotremorine,	
effect on acetylcholine and choline levels in mouse whole brain, spleen and cerebellum	1187
Oxygen,	
consumption by mouse brain and heart homogenate, effects of 1- Δ^9 -tetrahydrocannabinol, amphetamine and pentobarbital	945
high tension, effect on deoxycytidine uptake into thymocyte DNA	3216
P	
Pactamycin,	
enhancement of hepatic uridine kinase activity	1087
Palmitoyl carnitine,	
effect on ovarian cholesterol esterification	1123
Paludrine,	
interaction with yeast cells	1413
Pancreas,	
effect of phenothiazines on insulin release	1693
regulation of cyclic AMP levels in islets of Langerhans	1387
Pancuronium bromide,	
effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
anticholinesterase activity of	166
Papaverine,	
effect on cultured human melanoma cells	2917
inhibition of 2-deoxy-D-glucose transport by alveolar macrophages	1781
effect on phosphodiesterases from rat heart	3071
effect on phosphodiesterases from stomach	3085
effect on rat liver phosphorylase, phosphodiesterase and cyclic AMP, effect of glucagon	2139
Paracetamol,	
inhibition of prostaglandin biosynthesis	1439
metabolism in dogs, effect of phenobarbital or SKF 525-A	713
Paraoxon,	
degradation <i>in vitro</i> , methodology	3068
Parathion,	
metabolism to paraoxon by liver microsomes, sulphur binding to microsomal membrane	1733
Parenchymal cells,	
effect of 2-acetylaminofluorene on lysosomes	3323
Pargyline,	
inhibition of diamine oxidase from human placenta and pig kidney	2983
effect on mescaline and 2,3,4-trimethoxy- β -phenylethylamine metabolism in brain	273
Parietal cells,	
chloride transport in response to pharmacological stimuli	3283
Penicillin,	
effect on organic anion transport in newborn dog kidney and choroid plexus	754
Pentagastrin,	
effect on histidine decarboxylase in gastric mucosa	2963
stimulation of chloride transport by parietal cells	3283
Pentazocine,	
and naloxone, effect on the monoamine content of brain regions	3029
uptake into leukocytes	2951
Pentobarbital,	
induced 440 nm absorption in liver microsomes	2603
metabolism by liver microsomes,	
effect of cannabinoids	477
effect of synthetic estrogens and estrogen-progestin combinations	2651
effect on noradrenaline metabolism in brain <i>in vitro</i>	1877
effect on oxygen consumption by mouse brain and heart homogenates	945

sleeping time,	
effect of cannabinoids	477
effect of lipids	1245
effect on the stimulation of glucose-6-phosphate metabolism by aldehydes and amines	
in brain	1707
Pentobarbitone,	
effect on the GABA system in rat brain	1801
Pentolinium,	
inhibition of human placental diamine oxidase	2983
Pentose shunt,	
in brain, effect of biogenic amines and aldehydes	1707
Pentylentetrazol,	
effect on brain monoamine metabolism	1223
Pepstatin,	
inhibition of human kidney and plasma renin	671
effect on plasma angiotensin II concentration	2776
Peptides,	
role in memory	1553
Peptidyltransferase,	
in ribosomes from <i>E. coli</i> , effect of thiol-combining agents	2751
Perazine,	
metabolism in man, rat and dog	313
Perfused liver,	
microsomal enzyme activity in	599
Permealysed cells,	
effect of cytosine arabinoside triphosphate on DNA synthesis in	1619
Perphenazine,	
albumin binding, ultraviolet difference spectrophotometry	957
inhibition of human placental diamine oxidase	2983
metabolism in rats <i>in vitro</i>	303
urinary metabolites in rat	303, 313
Phenacetin,	
metabolism in dogs, effect of phenobarbital or SKF 525-A	713
1,10-Phenanthroline,	
effect on collagen synthesis in rats <i>in vivo</i>	2165
Phenazone,	
metabolism in dogs, effect of phenobarbital or SKF 525-A	713
Phencyclidine,	
and derivatives, anticholinesterase activity	1263
Phenelzine,	
inhibition of diamine oxidase from human placenta and pig kidney	2983
effect on tryptophan and tyrosine transport across synaptosomal membranes	587
effect on UDP glucuronyltransferase in liver microsomes	1283
Phenobarbital,	
effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in	
rats	2083
effect on biliary excretion of bromobenzene metabolites and on bile flow	451
effect on bilirubin metabolism in man	2795
effect on bilirubin production in the rat	2895
effect on carbon tetrachloride hepatotoxicity	513
effect on cerium concentration in liver, blood, urine and faeces	1509
effect on chloramphenicol glucuronidation	1181
effect on drug metabolism in Gunn rats	3405
effect on drug metabolizing activity of liver from riboflavin-deficient rats	1467
enhancement of D-glucuronolactone and acetaldehyde dehydrogenase activities in rat	
liver	1457
enzyme induction by, effect of thioacetamide	1221
effect on halothane hepatotoxicity	189
induction of drug monooxygenase activity in isolated small intestine	2127, 3309
effect on incorporation of precursors into fatty acids	2825
effect on the metabolic rate of phenacetin and paracetamol in dogs	713
effect on metyrapone binding to reduced cytochrome P-450	1319, 2305

Phenobarbital—contd.	
effect on microsomal enzyme activity in perfused rat liver	599
effect on morphine glucuronidation and biliary excretion in the rat	1331
effect on noradrenaline metabolism in brain <i>in vitro</i>	1877
effect on oxidative demethylation in liver of irradiated rats	793
effect on serum and liver lipid composition	685
effect on sulphur binding to microsomal membranes	1733
Phenobarbitone,	
effect on dimethyl nitrosamine metabolism in rat liver	1173
induction of microsomal enzymes, comparison with hexachlorobenzene	2175
Phenolsulfotransferase,	
in liver microsomes, harmol and harmalol as substrates for	2101
Phenothiazines,	
blockade of insulin release	1693
interaction with human ceruloplasmin	1045
metabolism in rats <i>in vitro</i>	303
piperazine- and dimethylamino-substituted, formation of identical metabolites in man, rat and dog	313
Phenothiazine-albumin interaction	
ultraviolet difference spectrophotometry	957
Phenoxybenzamine,	
effect on cyclic AMP in brown fat of cold-adapted rats	2877
effect on dextran edema and histamine release	1211
effect on naloxone binding in brain	2349
Phentolamine,	
inhibition of adrenaline induced aggregation of blood platelets	37
effect on naloxone binding in brain	2349
effect on the subcellular distribution of <i>N</i> -(2-bromoethyl)- <i>N</i> -ethyl- <i>N</i> -1-naphthylmethylamine in vas deferens	1853
L-Phenylalanine,	
effect on DNA and protein synthesis in developing rat cerebellum	2920
uptake by human epithelial cells, effects of chlorpromazine and actinomycin D	705
Phenylalkylamines,	
as substrates for caeruloplasmin	47
Phenylbutazone,	
inhibition of human leucocyte collagenase	2077
inhibition of prostaglandin biosynthesis	1439
effect on urate binding to human serum albumin	1653
Phenylenetetrazol,	
effect on brain monoamine metabolism	1223
Phenylephrine,	
effect on ascorbic acid in lung	2705
Phenylethylamine,	
deamination by monoamine oxidase from brain and lung, inhibition by imipramine	2537
Phenylguanidine,	
derivatives, effect on activity of serum kallikrein	2247
Phenylhydrazine,	
effect on monoamine oxidase in brain and liver <i>in vitro</i> and <i>in vivo</i>	2045
2-Phenylisatogen,	
interaction with rat liver mitochondrial NADH dehydrogenase	1569
Phenylpiperidines,	
inhibition of monoamine oxidase	615, 629
1-Phenyl-3-(2-thiazolyl)-2-thiourea,	
effect on tryptophan metabolism in brain and blood	2770
Phlorizin,	
effect on guinea-pig complement activity	3107
Phosphatidylcholine,	
in liver microsomes, effect of dietary protein and 3-methylcholanthrene	1721
synthesis in brain, effect of morphine	1753
synthesis in synaptosomes and L1210 cells, effect of triethylcholine	523
Phosphoenolpyruvate carboxykinase,	
in liver, effects of morphine <i>in vivo</i>	829

Phosphofructokinase,	
in rat heart, regulation during fluoroacetate poisoning	3179
Phosphoglucosmutase,	
in skeletal muscle, effect of methadone	489
Phospholipase C,	
effect on steroid treated lysosomes	467
Phospholipids,	
in liver, effect of hypolipidemic agents	685
in liver microsomes, effect of α -naphthylisothiocyanate	2431
metabolism in rat liver, effect of acute ethanol ingestion	3289
Phospholipid membranes,	
effects of amiloride and dibucaine	2939
Phosphorylase,	
in liver, effect of glucagon, dibutyryl cyclic AMP and phosphodiesterase inhibitors	2139
in muscle,	
activation by adrenaline <i>in vivo</i>	1945
effect of methadone	489
Phosphorylase b kinase,	
in muscle, activation by adrenaline <i>in vivo</i>	1945
Phosphorylation,	
of erythrocyte membranes, effect of hormones and cyclic AMP	2464
Physostigmine,	
effect on acetylcholine and choline levels in mouse whole brain, spleen and cerebellum	1187
Picrotoxin,	
effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
Pig,	
adrenergic ontogenesis	3423
subcellular distribution of reserpine and 5-hydroxytryptamine in blood platelets after treatment with reserpine <i>in vitro</i> and <i>in vivo</i>	351
Piperazine dantimony tartrate,	
effect on DNA, RNA and protein synthesis in <i>E. coli</i>	1451
2-Piperazino-4(3H)-quinazolinone monoacetate,	
effect on respiration, glucose uptake and lactic acid production by rat hemidiaphragm	3066
Pituitary cells,	
inhibition of monoamine oxidase by propargylamine	2205
Placenta,	
apparent conversion of cytochrome P-420 to P-450 with <i>p</i> -chloromercuribenzoate	2195
inhibition of diamine oxidase by monoamine oxidase inhibitors and drugs used in pregnancy	2983
UDP glucuronosyltransferase in	2203
Plasma,	
protein synthesis, effect of acute ethanol administration	389
Plasma kinin system,	
in rat, effect of cobalt	1095
Plasminogen,	
salicylate inhibition of <i>in vitro</i> activation by saline extracts of rat tissues	2339
Platelets,	
aggregation by biogenic amines,	
inhibition by antiadrenergic and antiserotonergic agents	37
inhibition by 2-(<i>p</i> -chlorophenyl)-4-thiazole-acrylic acid, comparison with acetylsalicylic acid	3273
cytotoxic effects of imipramine and chlorpromazine	2629
intermediary metabolism in normal and streptozotocin diabetic rats, effect of <i>O</i> -(β -hydroxyethyl)rutoside	1591
mitochondrial respiration and the thrombin-induced release reaction	1859
prostaglandin E ₁ -stimulated adenylate kinase in, effect of lithium	845
subcellular distribution of reserpine and 5-hydroxytryptamine after treatment with reserpine <i>in vitro</i> and <i>in vivo</i>	351
Platinum(II)diammine dichloride,	
cytotoxic properties and DNA interstrand cross-linking	1345
Platinum(IV)diammine tetrachloride,	
interstrand cross-linking of isolated and cellular DNA	1359

Platinum ethylenediamine dichloride, effect on template activity of DNA	1659
Polychlorinated biphenyl-intoxicated rats, oxidative phosphorylation and respiration by liver mitochondria	1577
Polychlorinated biphenyl mixtures, effect on 17 β -estradiol binding to rat uterine receptor	447
Polycyclic hydrocarbons, K-regions epoxides, formation and metabolism by rat lung	333
metabolism by rat lung	323
Polypeptides, synthesis in cell-free systems from <i>E. coli</i> , effect of thiol-combining agents	2751
Polyribosomes, in liver, effect of sparsomycin	857
Porphyrin-inducing drugs, importance of steric factors from activity	215
Pralidoxime chloride, passage into human red cells	2663
Prednisolone, effect on enzyme release from phospholipase C treated lysosomes	467
Prednisone, effect on enzyme release from phospholipase C treated lysosomes	467
sensitivity of human leukemic cells in culture	503
Pregnancy, metabolism of ethanol and acetaldehyde	1157
Pregnanolone, inhibition of drug metabolism	1629
Pregnenolone-16α-carbonitrile, effect on carbon tetrachloride hepatotoxicity	513
effect on drug responses and distribution in rats	2083
enzyme induction by, effect of thioacetamide	1221
Probenecid, effect on mescaline and 2,3,4-trimethoxy- β -phenylethylamine metabolism in brain	273
Procaine, effect on acetylcholinesterase activity	725
Prochlorperazine, inhibition of human placental diamine oxidase	2983
metabolism in rats <i>in vitro</i>	303
urinary metabolites in rat	303, 313
Progestagens, effect on drug metabolism in rat liver microsomes	2037
Progesterone, action on kynurenine metabolism in liver, effect of pyridoxal phosphate	999
and metabolites, inhibition of drug metabolism	1629
Progestin-estrogen combinations, effect on liver microsomal drug metabolism	2651
Proline, accumulation by synaptosomes, effect of lithium	2491
uptake by rat brain slices, inhibition by allylglycine	821
Prolyl hydroxylase, in rat tissues, effect of 1,10-phenanthroline and Desferrioxamine <i>in vivo</i>	2165
Promazine, albumin binding, ultraviolet difference spectrophotometry	957
inhibition of human placental diamine oxidase	2983
interaction with bovine serum albumin and hexadecyltrimethylammonium bromide	2679
interaction with human ceruloplasmin	1045
Promethazine, albumin binding, ultraviolet difference spectrophotometry	957
inhibition of human placental diamine oxidase	2983
Propargylamine, induced irreversible inhibition of non-flavin-linked amine oxidases	463
inhibition of monoamine oxidase in pituitary cells in culture	2205
time-dependent inhibition of monoamine oxidase	629

β-Propiolactone,	
effect on whole mouse skin chromatin <i>in vitro</i>	937
Propranolol,	
effect on acetylcholine induced release of adrenal medullary catecholamines	2225
effect on cyclic AMP in brown fat of cold-adapted rats	2877
effect on cyclic AMP in islets of Langerhans	1387
effect on glycogenolytic action of methadone	489
inhibition of adrenaline induced aggregation of blood platelets	37
inhibition of human placental diamine oxidase	2983
Propyl gallate,	
inhibition of hepatic mixed function oxidase activity	3129
Prostaglandin,	
inhibitor of biosynthesis L8027, effect on rat adipose tissue lipolysis	2119
Prostaglandins D, E and F	
inhibition of biosynthesis by aspirin-like drugs	1439
Prostaglandin E₁,	
effect on chloride transport by parietal cells	3283
stimulated adenylate kinase in human platelets, effect of lithium	845
Prostaglandins E₁ and E₂,	
involvement in noradrenaline release during nerve stimulation	1793
effect on phosphorylation of erythrocyte membranes	2464
Prostaglandins E₁, E₂, A₁ and F_{1α},	
effect on cyclic AMP in islets of Langerhans	1387
Prostaglandins E₁, E₂, F_{1α} and F_{2α},	
effect on rabbit testicular capsules	2969
Proteases,	
from human kidney, purification of, inhibition by pepstatin	671
in plasma, effect of cobalt	1095
Protein,	
in developing cerebellum, effect of <i>p</i> -chlorophenylalanine and L-phenylalanine	2920
dietary content, effect on cytochrome P-450 in liver and metabolism of dimethyl nitrosamine	1173
in liver, relationship to serum triglyceride lowering	685
phosphorylation in amoeba, effect of amines or cyclic AMP	57
in plasma, effect of cobalt	1095
reversible binding of antineoplastic 2,4-dinitrophenylaziridines	2833
synaptic membrane, solubilization by chlorpromazine and sodium dodecylsulfate	103
synthesis in brain, effect of morphine	1753
synthesis in liver,	
effect of chronic ethanol treatment	21
effect of 3,5-diethoxycarbonyl-1,4-dihydrocollidine	2713
effect of nitrofurantoin	470
during regeneration, effect of diethylenetriaminepentaacetate	901
effect of sparsomycin	857
synthesis in plasma, effect of acute ethanol administration	389
Protein deficiency,	
effect on 3-methylcholanthrene induction of drug metabolism	1721
Protein kinases,	
cyclic AMP and cyclic GMP dependent, effect of cyclic nucleotide analogs	2011
Prothrombin,	
formation in warfarin-resistant rats	1033, 3353
Protoveratrine,	
inhibition of human placental diamine oxidase	2983
Protriptyline,	
effect on amine uptake and release by synaptosomes	3413
Pseudocholinesterase,	
inactivation by tetramonoisopropyl pyrophosphorotetramide <i>in vivo</i>	175
Pteridine diuretics,	
as biopterin antagonists	773
Pulmonary edema,	
catecholamine induced, ascorbic acid in lung tissue	2705

Purine,	
biosynthesis in rat hepatoma cells, effect of allopurinol and 4-aminopyrazolo(3,4- <i>d</i>)pyrimidine	3199
metabolism in Ehrlich ascites tumour cells,	
effect of diazoacetyl-glycine amide	289
effect of nebularine and 7-deazanebularine	2023
transport in rat hepatoma cells, effect of actinomycin D	3045
Purine phosphoribosyltransferases,	
in human blood cells, effect of gold salts	163
Purinyl-6-histamine,	
inhibition of choline kinase	1227
Puromycin,	
effect on cyclic AMP in liver of rats treated with glucagon	1777
Putrescine,	
formation during proestrus	2697
Pyrazole,	
effect on ethanol induction of fatty liver	3037
effect on liver catalase	1293
effect on liver mitochondrial function	203
Pyridine,	
binding to reduced microsomes	1319
Pyridinium oximes,	
passage into human red cells,	2663
Pyridoxal phosphate,	
relationship with estrogens and effect on kynurenine metabolism in liver	999
3-(3-Pyridyl)propanol,	
binding to reduced microsomes	1319
Pyrimidine nucleotides,	
inhibitory effects of 2-thiouracil and its metabolites on enzymes involved in the biosynthesis of	2273
Pyrrolidines,	
induced release of amines from neoplastic mast cells	2235
Pyruvate carboxylase,	
in liver, effects of morphine <i>in vivo</i>	829
P571,	
effect on oxidative phosphorylation by liver mitochondria	239
P594,	
effect on ATPase activity in liver mitochondria	251
effect on oxidative phosphorylation in liver mitochondria	239
P1458,	
effect on ATPase activity in liver mitochondria	251
effect on oxidative phosphorylation in liver mitochondria	239
Q	
Quajazulene,	
effect on polypeptide synthesis in cell-free systems from <i>E. coli</i>	2751
Quinacrine,	
inhibition of drug transport in leukocytes	2951
Quinidine,	
effect on calcium uptake and release by mitochondria and sarcoplasmic reticulum from frog skeletal muscle	89
Quipazine,	
effect on turnover of brain 5-hydroxytryptamine	3211
R	
Raphe neurones,	
inhibition of metabolism by CSF containing 5-hydroxytryptamine and melatonin	1913
α-Receptor blocking agents,	
effect on aggregation of blood platelets induced by biogenic amines	37

Regenerating liver,	
S-adenosylmethionine formation and turnover in	2452
effect of diethylenetriaminepentaacetate on synthesis of DNA, RNA and protein	901
effects of menadione on galactose metabolism in	1021
effect of metabolic regulators on activity of lysosomal enzymes	752
Renin,	
effects of pepstatin,	
<i>in vitro</i>	671
<i>in vivo</i>	2776
Reserpine,	
effect on hepatic microsomal drug metabolism	2461
effect on tryptophan and tyrosine transport across synaptosomal membranes	587
effect on tyrosine and tryptophan hydroxylases in brain	1393
<i>in vitro</i> and <i>in vivo</i> , effect on subcellular distribution of 5-hydroxytryptamine and reserpine in blood platelets	351
Reticuloendothelial system,	
relationship with microsomal drug metabolism	1245
Retina,	
apomorphine-induced accumulation of cyclic AMP	3079
from diabetic rats, effect of 3,3'-tetramethylene glutamic acid on sorbitol accumulation in	2991
Reuber H-35 hepatoma bearing rats,	
glucuronidation and sulfation in	1809
Rhesus monkey,	
nucleoside and nucleotide kinases in tissues of	170
Rheumatic diseases,	
effect of therapeutic drugs on leucocyte collagenase	2077
Riboflavin-deficient rats,	
drug metabolism by liver	1467
Ribofuranosyl pyrrolopyrimidines,	
effect on purine metabolism in Ehrlich ascites tumour cells	2023
Ribonucleic acid,	
metabolism in brain, effect of lithium <i>in vivo</i> and <i>in vitro</i>	369
synthesis in regenerating liver, effect of diethylenetriaminepentaacetate	901
rRibonucleic acid,	
synthesized in liver in the presence of actinomycin D, electrophoretic profile	2455
rRibonucleic acid,	
aminoacyl, binding to brain ribosomes, effect of mescaline	1687
Ribonucleic acid tumour viruses,	
inhibition of DNA polymerases by tilorone and congeners	3259
Ribosomes,	
<i>Bacillus cereus</i> , effect of 5-fluorouracil on formation of	2689
brain, effect of mescaline on aminoacyl tRNA binding	1687
<i>Escherichia coli</i> , effect on thiol-combining agents	2751
Rous sarcoma virus,	
transformed chick embryo fibroblasts, effect of camptothecin on electrophoretic mobility	1921
S	
Safrole oxide,	
as substrate for a photometric assay of hepatic epoxide hydrolase	2839
Salicylamide,	
effect on acute toxicity, conjugation and excretion of 3-trifluoromethyl-4-nitrophenol	2403
Salicylate,	
binding by human serum albumin, thermodynamics of	1767
inhibition of <i>in vitro</i> plasminogen activation by saline extracts of rat tissues	2339
and its iodinated derivatives, effect on liver mitochondrial respiration	1367
effect on urate binding to human serum albumin	1653
Sanocrisin,	
inhibition of human leucocyte collagenase	2077

Saponin induced hemolysis, mechanism of	973
Sarcoma 180 ascites cells, antineoplastic activity of 5-hydroxy-2-formylpyridine thiosemicarbazone and its analogs	2421
Sarcoplasmic reticulum, skeletal muscle, effect of drugs on calcium uptake and release	89
Sarin, inhibited acetylcholinesterase, effect of quaternary nitrogen compounds on rate of aging	460
inhibition of butyrylcholinesterase, effect of phencyclidine and derivatives	1263
Schistosoma mansoni, adenosine cleavage enzyme in and effects of purine analogs on adenosine metabolism in	649
Scorbutic guinea-pigs, 6-hydroxydopamine induced degeneration of noradrenaline neurons	2585
Secretin, effect on cyclic AMP in islets of Langerhans	1387
Selenium compounds, effect on lysosomes and mitochondria <i>in vitro</i>	3491
Serine, in brain, effect of 3-mercaptopropionic acid	3053
Sex difference, in allopurinol oxidizing enzyme activity in mouse liver supernatant fraction	1144
SKF 525-A, effect on biliary excretion of bromobenzene metabolites and on bile flow	451
effect on carbon tetrachloride induced liver necrosis	295
effect on enzymatic dealkylation of LSD	1073
inhibition of ovarian cholesterol esterification	1123
effect on metabolism of phenacetin and paracetamol in dogs	713
effect on vitamin K ₁ metabolism in control and warfarin-treated rats	3353
Skin, effect of Fe ²⁺ chelating agents on collagen synthesis in	2165
effect of β -propiolactone on chromatin in	937
Small intestine, mono-oxygenase activity in, a direct test using surface reflectance fluorimetry	3309
Sodium, permeability of phospholipid membranes, effect of amiloride and dibucaine	2939
Sodium aurothiomalate, effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
effect on biosynthesis of uridine nucleotides in human granulocytes	153
effect on purine phosphoribosyltransferases of human blood cells	163
Sodium butyrate, effect on cultured human melanoma cells	2917
Sodium chloroaurate, effect on purine phosphoribosyltransferases of human blood cells	163
Sodium dodecylsulphate, solubilization of synaptic membrane protein	103
Sodium urate, bound to human serum albumin, displacement by uricosuric agents	1653
Soluble fraction, brain, ascorbic acid-like effect on ATPases	2257
liver, effect on lipid peroxidation and microsomal drug oxidations	2485
Soman, inhibition of acetylcholinesterase	1255
Sorbitol, accumulation in lens and retina of diabetic rats, effect of 3,3'-tetramethylene glutaric acid	2991
Sparsomycin, effect on hepatic polyribosomes and protein synthesis	857
Spermatozoa, effect of Δ^9 -tetrahydrocannabinol <i>in vitro</i>	1341

Spironolactone,	
affinity for aldosterone receptors in kidney cytoplasm	1493
effect on cerium concentration in liver, blood, urine and faeces	1509
effect on D-glucuronolactone and acetaldehyde dehydrogenase activities in rat liver	1457
Spleen,	
effects of amiodarone on transmitter overflow and uptake of noradrenaline	3501
choline and acetylcholine in, effect of oxotremorine and physostigmine	1187
Sporidesmin,	
effect on swelling and respiration of liver mitochondria	801
involvement of the disulphide group of	811
Steroid hormone esters,	
hydrolysis by an unspecific carboxylesterase from pig liver microsomes	2867
cis-Stilbene,	
microsomal epoxidation,	
inhibition by <i>trans</i> -stilbenimine	1845
role of lipid peroxidation	1079
trans-Stilbenimine,	
inhibition of epoxide hydrolase in liver	1845
Stilbestrol,	
inhibition of drug metabolism	1629
Stoichiometry,	
of drug metabolism in maturing male rats	2325
Stomach,	
catalytic activity and inhibition of carbonic anhydrase	3153
effect of glycyrrhetic acid on the cyclic nucleotide system	3085
histidine decarboxylase in, effect of H ₂ receptor antagonists	2963
Streptovitacin A,	
enhancement of hepatic uridine kinase activity	1087
Streptozotocin diabetic rats,	
effect of <i>O</i> -(β -hydroxyethyl)rutoside on platelet intermediary metabolism	1591
Stress,	
induced changes in histamine detoxification, effect of ascorbic acid	643
Striatum,	
effect of ethanol on tryptophan hydroxylase activity in synaptosomes	1955
K-Strophanthoside,	
subcellular distribution in isolated guinea-pig hearts	2817
Strychnine,	
effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
Submandibular salivary gland,	
testosterone-induced accumulation of epidermal growth factor	3305
Succinate,	
oxidation by rat liver mitochondria, effect of hypoglycemic sulfonylureas	239
Succinic semialdehyde,	
metabolism to γ -hydroxybutyrate by rat brain alcohol dehydrogenase	1219
Succinylcholine,	
effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats	2083
Sulfaethidole,	
displacement from bovine serum albumin by some alkyl dimethylbenzylammonium chlorides	3139
effect on urate binding to human serum albumin	1653
Sulfation,	
of harmol and harmalol in rats <i>in vivo</i> and <i>in vitro</i>	2101
in tumour-bearing rats	1809
Sulfisoxazole,	
effect on bilirubin conjugation at different bilirubin/albumin ratios	1432
Sulfonamides,	
bactericidal effect in blood and urine	2977
effect on carbonic anhydrase in rat tissues	3153
Sulfonylureas,	
effect on ATPase activity in liver mitochondria	251
effect on oxidative phosphorylation by liver mitochondria	239

Sulfur,	
derived from parathion metabolism, binding to microsomal membrane	1733
Sumithion,	
effect on lecithin-cholesterol acyltransferase in human plasma	1641
Superior cervical ganglion,	
effect of collagen on choline and acetylcholine release from slices of pig, adrenergic ontogenesis	911 3423
Synaptic membranes,	
protein solubilization by chlorpromazine and sodium dodecylsulfate	103
Synaptic transmission,	
evolutionary pharmacology	2211
Synaptosomes,	
cyclic AMP in, absence of an effect of histamine, noradrenaline and depolarizing agents	835
effect of lithium on amino acid transport systems	2491
NAD-glycohydrolase and serotonin binding sites in subfractions of	2060
effect of nomifensine on amine uptake and release	3413
phosphatidylcholine synthesis in, effect of triethylcholine	523
striate cortex, effects of ethanol on 5-hydroxytryptamine synthesis	1955
tryptophan and tyrosine transport, effect of reserpine and monoamine oxidase inhibition	587
T	
Tacrine,	
effect on the action of phencyclidines	1263
Tartar emetic,	
effect on DNA, RNA and protein synthesis in <i>E. coli</i>	1451
Taurine,	
in brain, effect of 3-mercaptopropionic acid	3053
Testicular capsules,	
effect of prostaglandins, cyclic AMP and adrenaline on motility of	2969
Testosterone,	
induced accumulation of epidermal growth factor in the submandibular salivary gland	3305
role in the regulation of oxidative drug metabolism in normal and irradiated rats	793
Testosterone esters,	
hydrolysis by pig liver esterase	2867
Testosterone propionate,	
effect on allopurinol oxidizing enzyme in liver	1144
Tetrabenamine methane sulfonate,	
induced elevation of caudate homovanillic acid, effect of γ -hydroxybutyric acid	879
Tetraethyl pyrophosphate,	
impurity in diethyl <i>S</i> - <i>n</i> -propyl phosphorothiolate preparations, effect on acetylcholinesterase activity	751
Δ^1-Tetrahydrocannabinol,	
in blood and brain, effect of 7-hydroxy- Δ^1 -tetrahydrocannabinol	1140
inhibition of glucose efflux from human erythrocytes	2005
and metabolites, biliary excretion	1163
effect on pentobarbital metabolism <i>in vivo</i> and <i>in vitro</i>	477
relative pharmacological potency of optical isomers in mice	439
Δ^1-Tetrahydrocannabinol 1,2-dimethylheptyl analogue,	
brain levels and potency in mice	3017
Δ^9-Tetrahydrocannabinol,	
in brain, subcellular distribution	873
effect on bull sperm <i>in vitro</i>	1341
effect on cyclic AMP in mouse brain	1817
effect on liver enzymes, potentiating effect of cannabidiol	758
lysis of rat liver lysosomes <i>in vitro</i>	1342
effect on oxygen consumption by mouse brain and heart homogenates	947
Tetrahydrohomofolate,	
regeneration in cells from tumour-bearing mice	1827
<i>Tetrahymena pyriformis</i>,	
mode of action of metronidazole	1421

3,3'-Tetramethylene glutaric acid,	
effect on sorbitol accumulation in lens and retina of diabetic rats	2991
Tetramonoisopropyl pyrophosphortetramide,	
inactivation of peripheral cholinesterase in cats	175
Theophylline,	
effect on acetylcholine-induced release of adrenal medullary catecholamines	2225
effect on cyclic AMP and lipolysis in brown fat of cold-adapted rats	2877
effect on dextran edema and histamine release	1211
inhibition of 2-deoxy-D-glucose transport by alveolar macrophages	1781
effect on phosphodiesterase from stomach	3085
effect on rabbit testicular contractions	2969
effect on rat liver phosphorylase, phosphodiesterase and cyclic AMP, effect of glucagon	2139
stimulated lipolysis, inhibitor from calf midbrain	989
Thiamphenicol,	
and its glucuronide, biliary excretion in the rat	2315
Thioacetamide,	
enhancement of hepatic uridine kinase activity	1087
effect on induction of tyrosine aminotransferase in liver	2455
effect on pregnenolone-16 α -carbonitrile enzyme induction	1221
6-Thioguanine,	
sensitivity of human leukemic cells in culture	503
6-Thioguanosine,	
effect on adenosine metabolism by <i>Schistosoma mansoni</i>	649
Thioimidazoles,	
urinary excretion after azathiopurine administration	1891
Thiol-combining agents,	
effect on polypeptide synthesis in cell-free systems from <i>E. coli</i>	2751
Thiotepa,	
behaviour in acid solution	168
Thioureylenes,	
S-oxidation catalysed by a microsomal flavoprotein mixed-function oxidase	3431
2-Thiouracil,	
effect on enzymes involved in pyrimidine nucleotide biosynthesis	2273
Thrombin,	
stimulation of platelet mitochondrial respiration	1859
Thymidine,	
uptake by human epithelial cells, effects of chlorpromazine and actinomycin D	705
uptake by MH ₁ C ₁ cell cultures, effect of actinomycin D	395
Thymidine kinase,	
in Rhesus monkey tissues	170
Thymocytes,	
effect of high oxygen tension on nucleic acid metabolism	3216
Thyroid-stimulating hormone,	
effect on cyclic AMP in islets of Langerhans	1387
Thyroxine,	
induced mitochondrial swelling, prevention by 3,5-diiodo-L-tyrosyl 3,5-diiodo-L-tyrosine	1195
Tilorone,	
and congeners, inhibition of DNA polymerases from RNA tumour viruses	3259
Tolbutamide,	
effect on ATPase activity in liver mitochondria	251
effect on cyclic AMP in islets of Langerhans	1387
o- and p-Toluic acids,	
effect on the glucuronide conjugation of chloramphenicol	139
Toxicity,	
reactivity of drug metabolites	2785, 2927
Toxogonin,	
passage into human red cells	2663
Tracheal muscle,	
effect of trimetoquinol on cyclic AMP in	3213
Tranylcypamine,	
inhibition of diamine oxidase from human placenta and pig kidney	2983

Triamcinolone,	
effect on enzyme release from phospholipase C treated lysosomes	467
1,1,1-Trichloro-2,2-bis(p-chlorophenyl)ethane,	
analogs, effects on 17 β -estradiol binding to rat uterine receptor	447
enhancement of D-glucuronolactone and acetaldehyde dehydrogenase activities in rat liver	1457
N-Trichloromethylthiotetrahydrophthalimide,	
effect on polypeptide synthesis in cell-free systems from <i>E. coli</i>	2751
Trichomonas vaginalis,	
mode of action of metronidazole	1421
Trierucin,	
effect on the activity of the reticuloendothelial system and drug metabolism	1245
Triethylcholine,	
effect on acetylcholine in corneal epithelium	3449
inhibition of phosphatidylcholine synthesis in synaptosomes and mouse leukemic cells	523
Trifluoperazine,	
albumin binding, ultraviolet difference spectrophotometry	957
inhibition of human placental diamine oxidase	2983
metabolism in rats <i>in vitro</i>	303
metabolism in rats <i>in vivo</i>	303, 313
effect on α -methyl-m-tyramine content of rat striatum	867
Trifluoroacetate,	
induced changes in rat liver enzymes	403
5-Trifluoromethyl-2'-deoxyuridine,	
effect on cultured human melanoma cells	2917
3-Trifluoromethyl-4-nitrophenol,	
effect of salicylamide on acute toxicity, conjugation and excretion of	2403
Trifluopromazine,	
albumin binding, ultraviolet difference spectrophotometry	957
interaction with human ceruloplasmin	1045
Triglycerides,	
lowering of serum levels and hepatomegaly	685
release from liver, effect of ethanol	2063
Trimeprazine,	
albumin binding, ultraviolet difference spectrophotometry	957
Trimethoprim,	
bactericidal effect in blood and urine	2977
2,3,4-Trimethoxy-β-phenylethylamine,	
metabolism in brain <i>in vivo</i>	273
N,N'-Trimethylenebis(pyridinium-4-aldoxime)dibromide,	
passage into human red cells	2663
Trimetoquinol,	
effect on cyclic AMP in tracheal muscle	3213
2,4,6-Trinitrobenzene sulphonic acid,	
effect on steroid treated lysosomes	467
Triolein,	
effect on the activity of the reticuloendothelial system and drug metabolism	1245
Tripropylacetic acid,	
and derivatives, relationship between crystalline structure and biological activity	3363
Tris(1-aziridinyl)phosphine sulphide,	
behaviour in acid solution	168
Triton WR-1339,	
induced hyperlipidemia in mice, effect of vincristine	3317
Trout,	
effect of salicylamide on the acute toxicity, conjugation and excretion of 3-trifluoro-methyl-4-nitrophenol	2403
Tryptophan,	
in brain, effect of LSD	231
effect on the irreversible blocking activity of the 2-halogenoalkylamine SY28	2769
metabolism in blood and brain, effect of fusaric acid	2770
effect of metal ions on metabolic pathways	2557
transport across synaptosomal membranes, effect of reserpine or monoamine oxidase inhibitor	587

Tryptophan hydroxylase,	
in brain,	
effect of drugs which modify neurotransmitter turnover	1393
effect of LSD	231
effect of neonatal sympathectomy with 6-hydroxydopamine	2395
in striate synaptosomes, effect of ethanol	1955
Tryptophan oxygenase,	
in rat liver, effect of chronic ethanol treatment	21
Tryptophan pyrrolase,	
in liver,	
effect of neuroleptic agents in relation to endotoxycosis	2577
effect of Δ^9 -tetrahydrocannabinol and cannabidiol	758
Tubocurarine,	
effect on acetylcholinesterase activity	725
effect on aging of phosphonylated acetylcholinesterase	460
Tumor-bearing mice,	
dihydrohomofolate reduction in tissues of	1827
Tumor-bearing rats,	
glucuronidation and sulfation in	1809
Tyramine,	
breakdown in brain, computer reconstruction of	1906
deamination by monoamine oxidase from brain and lung, inhibition by imipramine	2537
induction of axenic encystation of <i>Hartmannella culbertsoni</i>	57
Tyrosine,	
in brain, effect of LSD	231
transport across synaptosomal membranes, effect of reserpine or monoamine oxidase inhibitor	587
Tyrosine aminotransferase,	
in liver,	
effect of actinomycin D and thioacetamide on induction of	2455
effect of chronic ethanol treatment	21
during development	345
glucagon induction after ethanol treatment	3239
effect of neuroleptic agents in relation to endotoxycosis	2577
effect of Δ^9 -tetrahydrocannabinol and cannabidiol	758
Tyrosine hydroxylase,	
in brain,	
effect of drugs which modify neurotransmitter turnover	1393
effect of LSD	231
in hippocampus, allosteric activation by stimulation of <i>locus coeruleus</i>	2779
in superior cervical ganglion of swine during development	3423
T7 coliphage,	
inactivation by monofunctional alkylating agents	3
U	
Udenfriend chemical hydroxylation system,	
<i>N</i> -alkyl oxidative dealkylation by	1979
Uracil,	
alkyl substituted derivatives, relationship between structure and fungistatic activity	1231
Uranyl nitrate,	
detection of renal damage by measurement of urinary enzymes	65
Urate oxidase,	
in liver, effects of aminonucleoside	2199
Urethane,	
selective stimulation of hepatic microsomal aniline hydroxylation	1148
Uricosuric agents,	
displacement of sodium urate bound to human serum albumin	1653
Uridine diphosphate glucuronyltransferase,	
in human placenta	2203
in liver of Gunn rats	3405

Uridine diphosphate glucuronyltransferase—contd.

in liver microsomes,	
harmol and harmalol as substrates for	2101
effect of hexachlorophene	1997
non-specific inhibition of	1283

Uridine kinase,

in human granulocytes, effect of gold salts	153
in liver,	
enhancement by metabolic inhibitors	1087
effect of 2-thiouracil and its metabolites	2273
in Rhesus monkey tissues	170

Uridine monophosphate pyrophosphorylase,

effects of thiouracil	2273
-----------------------	------

Uridine nucleotides,

biosynthesis in human granulocytes, effect of gold salts	153
--	-----

Uridine phosphorylase,

in liver, effect of 2-thiouracil and its metabolites	2273
--	------

Urine,

measurement of enzymes in to detect renal damage caused by nephrotoxic compounds	65
--	----

N-Urocanylhistamine,

in soft tissues of <i>Drupa concatenata</i> Lam	1431
---	------

V**Vaccines,**

induced changes in histamine detoxification, effect of ascorbic acid	643
--	-----

Valine,

incorporation into protein in liver mitochondria, effect of nitrofurantoin	470
--	-----

Vanillyl mandelic acid,

urinary excretion in pregnant subjects before and after delivery	2185
effect of imipramine on urinary excretion	1503

Vas deferens,

subcellular distribution of <i>N</i> -(2-bromoethyl)- <i>N</i> -ethyl- <i>N</i> -1-naphthylmethylamine	1853
--	------

Vincristine,

sensitivity of human leukemic cells in culture	503
effect on Triton WR-1339 induced hyperlipidemia in mice	3317

Virazole,

inhibition of inosinate dehydrogenase in Ehrlich ascites tumour cells	2727
---	------

Vitamin K,

metabolism in rats, effect of warfarin	1033, 3353
--	------------

W**Walker 256 carcinoma,**

antitumor activity of homofolates	1827
bearing rats, glucuronidation and sulfation in	1809

Walker tumor cells,

cytotoxicity of cyclophosphamide metabolites	115, 131
--	----------

Warfarin,

biochemical basis of hereditary resistance in the rat	1033
effect on vitamin K ₁ metabolism in rats	3353

X**Xanthine oxidase,**

nitroreduction of 5-nitrofur derivatives	3395
--	------

X-537A,

effect on cardiac contractility	1609
---------------------------------	------

Y**Yeast,**

effect of chlorhexidine, paludrine and cetyltrimethylammonium bromide 1413

Yohimbine,

inhibition of adrenaline induced aggregation of blood platelets 37

Z**Zinc,**

inhibition of ATPase in brain microsomes 3441

effect on kynurenine metabolism in liver 2557

role in the antitumour activity of 3-ethoxy-2-oxobutylaldehyde bis(thiosemicarbazonato) zinc(II) 567

Zoxazolamine,

effect of ACTH and pregnenolone-16 α -carbonitrile on response and distribution in rats 2083

metabolism by liver microsomes, effect of hexachlorobenzene 2175

metabolism *in vivo*, effect of hexachlorobenzene 2175

440 nm intermediate,

formed during mixed function substrate oxidation 2603
