

ERRATUM

W. ANNABLE and C. COOPER: Inhibition of release of hepatic triglyceride by ethanol—A reappraisal. *Biochem. Pharmac.* **23**, 2063–2068 (1974).

The authors regret that the ordinate of Fig. 3 should read as follows:

Rate of triglyceride increase (mg/min/100 g body wt)

instead of:

(mg %/min/100 g body wt)

The ordinate scale should also read:

0.075 and 0.15

and not:

0.5 and 1.0
