BORIS TABAKOFF, CEDOMIL VUGRINCIC, ROBERT ANDERSON and SPYRIDON G. A. ALIVASTOS: Reduction of chloral hydrate to trichloroethanol in brain extracts. *Biochem. Pharmac.* **23**, 455 (1974).

The authors regret that on page 457, Table 2, right-hand column, three 'zeros' were omitted. The lower portion of the Table (NADH as cofactor) should read:
