THOMAS W. TRAUT and MARY ELLEN JONES: Inhibitors of orotate phosphoribosyltransferase and orotidine-5'-phosphate decarboxylase from mouse Ehrlich ascites cells: a procedure for analyzing the inhibition of a multienzyme complex. *Biochem. Pharmac.* **26**, 2291 (1977).

The author regrets that the specific activity listed for [7-¹⁴C]OMP under Assay 1 on p. 2292 is incorrect. The specific activity that appears in the manuscript is "0.125 Ci/mole" (p. 2292, column 1, line 11 under "Assay 1 [¹⁴CO₂ assay]"), and the correct value is "12.5 Ci/mole."
