

ANNOUNCEMENT

FOURTH COLLOQUIUM ON HORMONES AND CELL REGULATION

Bischenberg (near Strasbourg), France. 1–4 October 1980.

Sponsored by: “Institut National des Sciences et de la Recherche Médicale” and the “Direction Générale à la Recherche Scientifique et Technique”, and organized by: J. E. Dumont, J. Nunez, B. Jeanrenaud, R. M. Denton, F. Morel, H. J. Vandermolen, G. Schultz and B. Hamprecht.

MAIN TOPICS

- Mechanism of steroid and thyroid hormone action
- Insulin action and neural control of its secretion
- Control of ovulation
- Regulation in cell culture and gene expression
- Peptide neurotransmitters
- Gut hormones
- Internalization of peptide hormone

As an International Cyclic Nucleotide Conference is to be held in Brussels in 1980, cyclic nucleotide and calcium regulation will not be treated at this meeting.

Details from: Professor B. Jeanrenaud,
Laboratoire de Recherches Médicales,
Université de Genève,
Avenue de la Roseraie, 64,
1205 Genève,
Switzerland.

Abstracts before 1 June 1980. General attendance will be limited to 100.
