

ANNOUNCEMENT

INTERNATIONAL DOPAMINE SYMPOSIUM

An International Symposium on Dopamine will be held in Okayama, Japan, on 26–28 July 1981 as a satellite to the 8th International Congress of Pharmacology. The programme includes presentations (given by invited speakers) on: dopamine pathways in the brain, clinical aspects of dopamine, classification of dopamine receptors, pre and postsynaptic dopamine receptors in CNS and periphery, the role of dopamine in the kidney, electrophysiological studies on dopamine, endocrinological aspects of dopamine, the uptake and release of dopamine, chemistry of dopamine agonists, dopamine receptor binding, neuroleptics, interactions between dopamine and other transmitters, and behavioural actions of dopaminergic drugs.

Further details from Dr. G. N. Woodruff, Department of Physiology and Pharmacology, University of Southampton, Southampton, SO9 3TU, U.K.
