

INTERNATIONAL CONFERENCE ON PROSTAGLANDINS AND CANCER 1981

Georgetown, Washington D.C.

31 August–2 September 1981

Chairman: Trevor J. Powles

Organising Committee: Richard Bockman, Ken Honn, Peter Ramwell

This Meeting will cover the areas of carcinogenesis, cell replication, differentiation and host tumour interaction, and evaluate the therapeutic implications of P.G. manipulation on tumour growth and development in animals and humans.

INTERNATIONAL SYMPOSIUM ON NEPHROTOXICITY

To be held at the University of Surrey, Guildford, England from 7–11 September 1981.

Under the auspices of the Robens Institute of Industrial and Environmental Health and Safety and Department of Biochemistry, to discuss the following subjects.

The assessment of renal function by *in vivo* and *in vitro* techniques.

The pathogenesis of a wide range of chemically-induced nephropathies (including heavy metals, therapeutic agents, natural toxins, environmental and industrial chemicals).

The value of experimental models in relation to human toxicity.

Nephrotoxicity Symposium
Department of Biochemistry
University of Surrey
Guildford, GU2 5XH
Surrey, England.
Tel. Guildford 71281 Ext. 854

Vth EUROPEAN SYMPOSIUM ON HORMONES AND CELL REGULATION

To be held at Le Bischenberg, Bischoffsheim (near Strasbourg), France from 5–8 October 1981.

The sessions will cover the following subjects:

Neuroendocrine controls;

Calcium- and cyclin nucleotide-regulated systems;

Adrenergic, nicotinic and muscarinic cholinergic and insulin receptors and actions;

The cytoskeleton and hormone action;

The control of gene expression.
