

ERRATUM

Biochemical Pharmacology **30**, 1856–1858 (1981).

FRANCO ZUNINO, ANNA MARIA CASAZZA, GRAZIELLA PRATESI, FRANCA FORMELLI and AURELIO DI MARCO.
Effect of the methylation of aglycone hydroxyl groups on the biological and biochemical properties of daunorubicin.

An error was introduced in the last sentence of the article. It should read:

“The results suggest that the alteration in the strength of binding to DNA plays a relatively major role in the antitumor activity and selectivity of anthracyclines, thus confirming our previous observations [4, 6].”
