

# BIOCHEMICAL PHARMACOLOGY

## SUBJECT INDEX FOR VOLUME 31, 1982

- Abbott 21855  
inhibition of monoamine oxidase in liver 1251
- Acenocoumarol  
binding to  $\alpha_1$ -acid glycoprotein 3687
- Acetamidophenol  
inhibition of cyclooxygenase, effect of peroxide 3307
- Acetanilid N-deacetylase  
in liver, kidney and brain, effect of oral tobacco and nicotine 3683
- Acetanilide 4-hydroxylase  
in liver microsomes  
effect of isoniazid 4031  
induction by octachlorostyrene in inbred strains of mice 2523
- Acetate  
binding in Walker and Yoshida tumour cells, correlation with alkylating agent resistance 3991
- Acetazolamide  
effect on cerebral respiration 1333  
inhibition of renal  $\delta$ -glutamyl transpeptidase 3347
- Acetone  
enhanced aniline hydroxylation, reversal by p-nitroanisole 311
- 6-[(Acetylaminoethyl)-1-naphthylamine-5-sulfonyl]thioinosine dicarboxaldehyde  
binding to RNA polymerase II 2583
- Acetylaminofluorene  
induced hepatoma, aldehyde metabolizing enzymes in 1153
- Acetylcholine  
in brain, effect of dimethylamino-2-ethoxyimino-2-adamantane 1693  
effect of dithiothreitol on spasmogenic action on ileum 1946  
kinetics of metabolism in brain regions following i.c.v. injection of choline 1599  
release from brain slices, effect of low oxygen tension 111  
release from brain slices and synaptosomes, effect of (D-ala<sup>2</sup>)met. enkephalinamide 455  
release from sensorimotor cortex, effects of morphine and naloxone 1019  
turnover in brain, effect of dose size of precursor choline 2867
- Acetylcholine muscarinic receptors  
in brain, solubilization 1806, 2145
- Acetylcholine nicotinic receptor  
Torpedo ocellata electric organ, binding of depolarizing drugs to ionic channel sites 1819
- Acetylcholinesterase  
in brain  
inhibition by sulpiram, alteration of muscarinic receptor 3407  
effect of lithium 449  
effect of B-nitropropionic acid 4067
- Electrophorus electricus, noncompetitive inhibition by aluminium, scandium and yttrium 1437  
effect of HI-6 on organophosphate-inhibited enzyme 1283  
inhibition by NSC-176319 301  
in platelets, aryl acylamidase activity associated with 2319  
reversible inhibition by eseroline 1233  
secretion from Nippostrongylus brasiliensis, inhibition by benzimidazoles 3035
- Acetyl-CoA  
in heart of alloxan-diabetic rats, effect of antilipolytic agents 63
- N-Acetylcysteine  
metabolism by isolated lung cells 3549
- $\gamma$ -Acetylenic GABA  
anticonvulsant and biochemical effects in mice 837
- N-Acetyl- $\alpha$ -glucaminidase  
release from kidney lysosomes, effect of aminoglycosides 3447
- N-Acetylglucosamine  
incorporation into gastric mucosal glycoproteins, effect of practolol 2263
- N-Acetyl- $\beta$ -D-glucosaminidase  
in cotton pellet granuloma 1213
- Acetylhydrazine  
covalent binding to hepatic microsomes, effect of isoniazid 4031
- L- $\alpha$ -Acetylmethadol  
effect on hepatic glutathione 1829
- 1-(4-Acetylphenyl)-3,3-dimethyltriazene  
metabolism in mice 1887
- Acetylsalicylic acid  
effect on  $\alpha$ -aminoisobutyric acid transport in lymphocytes 337

- Acetylsalicylic acid(contd.)  
 effect on phorbol stimulation of oxygen consumption and superoxide production by pulmonary macrophages 775
- Acetylsalicylic esterase  
 in liver, kidney and brain, effect of oral tobacco and nicotine 3683
- N-Acetyltransferase  
 in pineal gland, effect of benserazide 2251
- $\alpha_1$ -Acid glycoprotein  
 in human serum  
 adrenergic  $\beta$ -receptor antagonist binding 359  
 binding of acidic drugs 3687  
 binding of thienopyridinic derivatives 831  
 in rat plasma, effect of phenobarbital on desmethylinipramine binding 1749
- Acid phosphatase  
 release from kidney lysosomes, effect of cephaloridine 1843  
 release from liver lysosomes induced by ischaemia, prevention by chlorpromazine 1167  
 in testes, prostate and epididymus, effect of  $\Delta^9$ -tetrahydrocannabinol 415
- Acid ribonuclease  
 in liver, in vivo effects of chloramphenicol and thiamphenicol 55
- Acivicin  
 effects on hepatoma cells 3469  
in vivo inactivation of carbamoyl-phosphate synthetase II in rat hepatoma 927
- Aclacinomycin  
 generation of hydroxyl radical in the presence of NADPH cytochrome P-450 reductase 3651
- 4'-(9-Acridinylamino)-methanesulfon-m-anisidide  
 cooperative sequestration in L1210 cells 3269
- N-[4-(9-Acridinylamino)-3-methoxy-phenyl]-methanesulfonamide  
 resistance of leukemia P388 cells 3008
- Acrolein  
 binding to microsomes and erythrocytes 3535  
 in cardiovascular tissues incubated with allylamine 509  
 cytotoxicity of 3-substituted propylamines 2983
- Acute myeloblastic leukemia  
 sensitivity of leucocytes in culture to L-methioninase 2553
- Acute renal failure  
 effect on pharmacokinetics of indocyanine green 2531
- Acyclovir diphosphate  
 phosphorylation by cellular enzymes 3879
- Acyl-CoA  
 in liver, effects of tiadenol, nicotinic acid and niadenate 3930
- Acyl-CoA  
 in liver, effect of clofibrate 1650
- Acyl-CoA reductase  
 in brain, effect of anticonvulsants 2307
- Adenosine  
 anti-hypoxia effects 1197  
 binding to brain membranes, effect of adenosine analogues 3279  
 effects on thyroid gland 3763
- Adenosine deaminase  
 in erythrocytes  
 inhibition by chiral isomers of erythro-9-(2-hydroxy-3-nonyl)adenine 879  
 C(2')-substituted purine nucleoside analogues as substrates for 1723  
 in intestine, inhibition by chiral isomers of erythro-9-(2-hydroxy-3-nonyl)adenine 879  
 pharmacokinetics of inhibition by erythro-9-(2-hydroxy-3-nonyl)-adenine in CBA mice 535
- Adenosine deaminase deficiency  
 dATP accumulation in erythrocytes of deoxycoformycin-treated mice 1545  
 relationship between erythrocyte ATP and dATP levels 947
- Adenosine deaminase inhibitors  
 effect on purine metabolism in Sarcoma 180 cells 3955
- Adenosine-3',5'-monophosphate  
 action in adrenal glomerulosa cells, effects of verapamil and trifluoperazine 1267  
 accumulation in splenocytes in the presence of dipyridamole 1381  
 accumulation in thyroid, effect of adenosine 3763  
 adenosine stimulated formation in brain vesicles, inhibition by etazolate and cartazolate 1441  
 in brain, effects of chlordiazepoxide and ethanol 85  
 cytotoxin-induced peak in granulocytes, relationship to crawling movements, chemotaxis and chemokinesis 1573  
 dependent phosphorylation in brain, effect of organophosphorus neurotoxicants 2065  
 dependent protein kinase, isoenzymes in spontaneously hypertensive rats 1873  
 in human erythrocytes, effect of isoproterenol 99  
 induced production of aldosterone by adrenal glomerulosa cells, effect of calmodulin inhibitors 3705  
 in lymphocytes, effect of 5'-methylthioadenosine on response to activators of adenylate cyclase 2201  
 in mucosal cells from guinea pig stomach, effect of LSD 2676  
 in PMN after phagocytosis of urate crystals, effects of indomethacin and Tropesin 460  
 in renal glomeruli, effect of histamine 367  
 role in activity of tryptophan hydroxylase in brain 2203

- Adenosine-3',5'-monophosphate(contd.)  
 role in effect of clofibrate on platelet activation 2125  
 role in inhibition of platelet aggregation by quercetin 3597  
 role in prolactin production and regulation 2845  
 in synchronized mastocytoma P-815 cells 173
- Adenosine-3',5'-monophosphate active drugs  
 effect on cytotoxic histamine release from mast cells 2247
- Adenosine-3',5'-monophosphate analogues  
 potentiation of growth inhibition effects by homocysteine 979
- Adenosine-3',5'-monophosphate multienzyme sequence  
 effects of theophylline 3441
- Adenosine 3'-phosphate 5'-sulphatophosphate  
 synthesis *in vitro* by lung, intestine liver and kidney 59
- Ca<sup>2+</sup>-Adenosine triphosphatase  
 in lobster nerve, role of phospholipids in inhibitory action of DDT and permethrin 1483
- ecto-Adenosine triphosphatase  
 in platelets, effect of  $\beta$ -adrenergic blocking drugs 3122
- Mg<sup>2+</sup>-Adenosine triphosphatase  
 in brain, effect of ethacrynic acid 877, 4077  
 in heart, effect of mono-unsaturated C18 fatty acids 867  
 in liver  
 effects of mono-unsaturated C18 fatty acids 867  
 effect of zinc 1289  
 in synaptosomes, effects of dopamine agonists and antagonists 1531
- Na-Ca-Adenosine triphosphatase  
 in brain, inhibition by catecholamines 1454
- Na<sup>+</sup>,K<sup>+</sup>-Adenosine triphosphatase  
 in brain  
 biphasic interaction with erythrosin B 2185  
 effect of lithium 449  
 effect of mono-unsaturated C18 fatty acids 867  
 spontaneously hypertensive rats 1156  
 stimulatory effect of noradrenaline role of lipid peroxidation 2231  
 in heart, effect of vanadium in +5, +4 and +3 oxidation states 3853  
 in kidney  
 effect of lead ingestion 2913  
 effect of mono-unsaturated C18 fatty acids 867  
 effect of potassium canrenoate 4068  
 in liver mitochondria, effect of DDT analogues 397  
 in lobster nerve, role of phospholipids in inhibitory action of DDT and permethrin 1483  
 natriuretic hormone and hypertension 3159  
 in PC6A cell membranes, effect of nitrogen mustard 1773
- Na<sup>+</sup>,K<sup>+</sup>-Adenosine triphosphatase(contd.)  
 in synaptosomes, effect of dopamine agonists and antagonists 1531
- Adenosine triphosphate  
 in liver, effect of zinc 1289  
 prostaglandin generation in kidney 2453
- Adenosine triphosphate : deoxyadenosine triphosphate  
 in erythrocytes in inherited adenosine deaminase deficiency 947
- S-Adenosyl-L-homocysteine  
 cyclic nucleotide + homocysteine induced accumulation 979
- S-Adenosylmethionine decarboxylase  
 in liver, activation by  $\alpha$ -fluoromethyl derivatives of putrescine 3871
- Adenylate cyclase  
 in brain  
 adenosine activated, inhibition by etazolate and cartazolate 1441  
 inhibition by adenosine analogues 3279  
 in synaptosomes, effect of lithium 449  
 in cultured muscle cells, effect of 20,25-diazacholesterol 91  
 in erythrocytes  
 guanine nucleotide dependent 2783  
 stimulation by vanadate and fluoride 843  
 in heart  
 effect of isoproterenol 347  
 effect of thyroid status 2463  
 effect of vanadium in +5, +4 and +3 oxidation states 3853  
 linked H<sub>2</sub> receptors in renal glomeruli 367  
 in platelets, effect of forskolin and analogues 4071  
 in striatum, effects of ethanol 3101  
 in synchronized mastocytoma P-815 cells 173  
 in thyroid, effect of adenosine 3763
- Adenylosuccinate lyase  
 from *Trypanosoma cruzi* 225
- Adenylosuccinate synthetase  
 from *Trypanosoma cruzi* 225
- Adipocytes  
 hydrogen peroxide production with nerve growth factor 3163  
 kinetics of catecholamine induced lipolysis 711, 721, 737
- Adrenalectomy  
 effect on phenylalanine hydroxylase in regenerating liver 1521
- Adrenal gland  
 benzo(a)pyrene metabolism by microsomes 639  
 effect of calmodulin inhibitors on response of glomerulosa cells to angiotensin II and cyclic AMP 3705  
 cultured medulla explants  
 tetrahydroisoquinoline carboxylic acids and catecholamine metabolism 3251  
 tetrahydroisoquinoline carboxylic acids and regulation of phenylethanolamine N-methyltransferase 3257

- Adrenal gland(contd.)  
 inactivation of angiotensin II  
 receptors in cortex by dithio-  
 threitol 1903  
 inhibition of prostaglandin synthesis  
 969  
 effect of lead on function of 2913  
 lead inhibition of phenylethanolamine  
 N-methyltransferase 1985  
 role of steroids in essential  
 hypertension 893  
 tyrosine hydroxylase in, effect of  
 $\text{Ca}^{2+}$  1729
- Adrenal glomerulosa cells  
 effects of verapamil and trifluo-  
 perazine 1267
- Adrenaline  
 inhibition of Na-Ca-ATPase in brain  
 1454  
 inhibition of protein synthesis in  
 isolated hepatocytes 1656  
in vitro desensitization of human  
 lymphocytes 117  
 sulphate conjugation in humans 3017  
 uptake and displacement in perfused  
 lung 1039  
 in urine, tyrosine-induced increase  
 3577
- Adrenergic agonists  
 effect on  $\text{Na}^+$ ,  $\text{K}^+$ -ATPase and lipid  
 peroxidation in brain 2231  $^{2+}$   
 effect on gluconeogenesis and  $\text{Ca}^{2+}$   
 efflux in kidney tubules 2331
- $\beta$ -Adrenergic blocking drugs  
 binding to human serum proteins 359  
 effect on ecto-ATPase activity of  
 platelets 3122  
 effect on gastrointestinal mucosal  
 glycoprotein synthesis 2263  
 effect on phenylalanine hydroxylase  
 in regenerating liver 1521
- $\beta$ -Adrenergic catecholamines  
in vitro desensitization of lympho-  
 cytes by adrenaline 117
- Adrenergic ligands  
 receptor binding sites on human  
 erythrocytes 99  
 uptake and displacement in perfused  
 lung 1039
- Adrenergic neurones  
 regulation of catecholamine  
 synthesis in 653
- $\alpha$ -Adrenergic receptors  
 adrenaline inhibition of protein  
 synthesis in isolated hepatocytes  
 1656  
 in brain, guanfacine binding 899  
 in parotid gland 567, 2197  
 in platelets 2591  
 post-junctional, classification 467
- $\alpha_1$ -Adrenergic receptors  
 in brain, effects of perinatal  
 methadone on response of 1899  
 involvement in stimulation of  
 phosphatidylinositol metabolism  
 by catecholamines in mouse thyroid  
 2237  
 in liver, subunit structure 2817  
 mediation of clonidine effect on  
 hepatic cyclic GMP 3684
- $\alpha_2$ -Adrenergic receptors  
 localization in guinea pig kidney  
 583
- $\beta$ -Adrenergic receptors  
 alprenolol-dextran mapping 2071  
 in brain, effect of alprazolam on  
 reserpine-induced increases in  
 3155  
 C6 glioma cells, photoaffinity  
 labelling 2879  
 different numbers in human lympho-  
 cyte subpopulations 133  
 in erythrocytes, effect of N-ethyl-  
 maleimide on agonist-mediated  
 conformational changes 3657  
 in heart  
 effects of Ro03-7894 and  
 propranolol 1325  
 effect of thyroid status 2463  
 in kidney, identification by  
 (+)-125iodocyanopindolol  
 binding 1743  
 in pineal gland, effect of steroids  
 1369
- Adrenocorticotrophic hormonr  
 action on adrenal glomerulosa cells,  
 effects of verapamil and  
 trifluoperazine 1267  
 role in hypertension 893
- Adrenotropic substances  
 effect on catecholamine synthesis in  
 adrenergic neurones 653
- Adriamycin  
 chromatin interaction 973, 1057,  
 3379  
 cytotoxicity in P388 leukemia cells,  
 enhancement by verapamil 3138  
 generation of hydroxyl radical in  
 the presence of NADPH cytochrome  
 P-450 reductase 3651  
 generation of reactive oxygen  
 species and cardiotoxic effects  
 575  
 inhibition of uridine transport  
 through Sarcoma 180 cell  
 membranes 1811  
 mediated inhibition of creatine  
 phosphokinase binding to heart  
 mitochondrial membrane 109  
 membrane alterations associated  
 with resistance 2691  
 repair of DNA lesions caused by 1931  
 selective toxicity 3335  
 stimulation of microsomal alkane  
 formation 3147
- Aflatoxin B1  
 differential toxicity in male and  
 female rats 3057  
 metabolism by guinea pig liver,  
 effect of vitamin C intake 2327
- Aflatoxin G1  
 metabolism by guinea pig liver,  
 effect of vitamin C intake 2327
- Aging  
 effect on hepatic monooxygenase  
 induction 2339
- AGN 1133, 1135, 1278, 1142  
 inhibition of monoamine oxidase in  
 liver 1251
- Albumin  
 bovine serum, chain length dependency  
 of fatty acid and carbamate  
 binding 4019  
 human serum  
 adrenergic  $\beta$ -receptor antagonist  
 binding 359

- Albumin  
 human serum(contd.)  
   carbamoylation, involvement in  
   drug binding defect in uraemia  
   2791  
   characteristics of N-B transition  
   and drug binding behaviour 3781  
   diazepam binding 1455  
   GP53,633 binding 3737  
   effect of indoxyl sulphate on  
   binding of drugs and dyes 319  
   physico-chemical properties of  
   isoionic solutions 3775  
   prednisolone binding in the  
   presence of cortisol 289  
   thienopyridinic derivative  
   binding 831  
   rodent serum, diazepam binding 1455
- Alclofenac  
 destruction of cytochrome P-450 195
- Alcohol  
 3- and 4-carbon, induced increase in  
 cytochrome P-450 in hepatocytes  
 2811  
 effect of chronic consumption on  
 liver plasma membrane enzymes 377  
 effect on tumour folate supply 1461
- Alcohol dehydrogenase  
 in liver, effect of di-(2-ethylhexyl)-  
 phthalate 3419
- Alcoholic rat heart  
 response to dobutamine 129
- Alcoholism  
 liquid diet model 2447
- Aldehyde  
 metabolism in brain and liver, effect  
 of aldehyde dehydrogenase  
 inhibitors 3899  
 metabolizing enzymes in chemically-  
 induced rat hepatomas 1153
- Aldehyde dehydrogenase  
 in brain, effect of disulfiram,  
 coprine and cyanamide 3899  
 in liver  
 effect of di-(2-ethylhexyl)-  
 phthalate 3419  
 effect of disulfiram, coprine and  
 cyanamide 3899  
 inhibition by dimethylcyanamide  
 1999
- Aldehyde reductase  
 in brain  
 effect of aldehyde dehydrogenase  
 inhibitors 3899  
 effects of anticonvulsants, role  
 in glycerolipid synthesis 2307  
 multifunctional potential 2705
- Aldose reductases  
 and the complications of diabetes  
 2705  
 in lens, effect of flavonoids 3807
- Aldosterism  
 low renin hypertension 893
- Aldosterone  
 action on calcium concentration in  
 incubated renal slices 2571  
 excretion, effect of lead ingestion  
 2913  
 production by adrenal glomerulosa  
 cells, effects of verapamil and  
 trifluoperazine 1267
- Aldrin  
 epoxidation kinetics in small samples
- Aldrin(contd.)  
 of human liver 3701
- Aliesterase  
 in plasma, a possible depot for  
 soman 4085
- Alkaline phosphatase  
 in liver, spleen and bone marrow  
 from female mice, effect of  
 n-octane and n-nonane 201  
 in serum and liver, effect of  
 chronic alcohol consumption 377
- Alkane  
 formation during liver microsomal  
 lipid peroxidation 597  
 formation by microsomes, effect of  
 adriamycin 3147
- Alkylating agents  
 effect on melphalan accumulation by  
 Ll210 cells 2727  
 resistance in Walker and Yoshida  
 tumour cells, correlation with  
 acetate binding 3991
- 2-n-Alkylbenzimidazoles  
 relationship between binding to  
 liver cytochrome P-450 and  
 inhibition of monooxygenation  
 1315
- n-Alkyl carbamates  
 binding to cytochrome P-450 in  
 isolated hepatocytes, relationship  
 with metabolism 1309
- Allopurinol  
 interaction with human blood 1937  
 effect on renal clearance of  
 nitroimidazoles 3041
- Allopurinol nucleotide  
 inhibition of GMP reductase from  
Leishmania donovani 3891
- Alloxan  
 non-enzymatic reduction by reduced  
 nicotinamide nucleotide 921  
 selective toxicity 3335  
 toxicity in isolated hepatocytes,  
 protection by sugars 3731  
 toxicity to pancreatic  $\beta$ -cell 3527
- Alloxan diabetes  
 effect of antilipolytic agents 63
- Allylamine  
 metabolism to acrolein by cardio-  
 vascular tissues 509
- Allylglycine  
 effect on  $\gamma$ -hydroxybutyrate and  
 GABA in brain 3917
- Alprazolam  
 biochemical model of depression 3155
- Alprenolol  
 effect on ecto-ATPase activity of  
 platelets 3122
- Alprenolol macromolecular derivatives  
 mapping of  $\beta$ -adrenoreceptors 2071
- Aluminium  
 inhibition of acetylcholinesterase  
 from Electrophorus 1437
- Amantadine  
 induced phospholipid storage in  
 MDCK cells 3795
- Amezinium  
 fate in synpathetically innervated  
 rabbit tissues 1075  
 effect on release and catabolism of  
 monoamines in brain slices 2395
- Amikacin  
 induced phospholipidosis 3861

- Amikacin(contd.)  
interaction with Ca binding 3769
- Amine oxidase  
clorgyline-resistant, comparison of heart and aorta 27  
in hepatocyte nuclear envelope 69  
increased sensitivity of fluorometric assay method 2207
- Amines  
 $\alpha$ -methyl- and N-propargyl derivatives, inhibition of liver monoamine oxidase 1251
- Amino acids  
uptake by synaptosomes, effect of scorpion venom 1875
- $\gamma$ -Aminobutyric acid  
binding to synaptosomal membranes, effect of barbiturates 2891  
in brain, effect of GABA transaminase inhibitors 837  
effect on flunitrazepam interaction with benzodiazepine receptor 2761  
metabolism in brain of ethanol-O-sulphate pretreated rats and mice, effect of sodium valproate 2257  
relation to  $\gamma$ -hydroxybutyrate in brain 3917  
synthesis in brain slices, effect of  $\text{Ca}^{2+}$  882  
transport in nerve endings, effects of fatty acids, ethanol and development 4039  
uptake by astrocytes, kinetics of inhibition by barbiturates 2694
- $\gamma$ -Aminobutyric acid dehydrogenase  
in rat brain 3219
- $\gamma$ -Aminobutyric acid receptor  
on corticostriatal terminals, interaction of agonists and antagonists 2684
- $\gamma$ -Aminobutyric acid transaminase  
in brain  
ethanol-O-sulphate pretreated rats and mice, effects of sodium valproate 2257  
effect of  $\alpha$ -fluoromethyl derivatives of putrescine 3871  
inactivation by 3,5-dioxocyclohexanecarboxylic acid 4081
- $\gamma$ -Aminobutyric acid transaminase inhibitors  
anticonvulsant and biochemical effects in mice 837
- [[[(4-Aminocarbonyl)pyridino]methoxy]methyl]-2-[(hydroxyimino)methyl]-pyridinium dichloride  
reactivation of organophosphate-inhibited acetylcholinesterase 1283
- L-[ $\alpha$ S, $\gamma$ S]- $\alpha$ -Amino-3-chloro-4,5-dihydro-5-isopazoleacetic acid  
effect on 5-phosphoribosyl 1-pyrophosphate in tumour cells 1509
- 3'-Amino-3'-deoxythymidine  
effect on L1210 and P388 leukemias in mice 125
- 2-Amino-5,6-dihydroxytetrahydronaphthylene  
effect on ATPases in synaptosomes 1531
- 2-Amino,6,7-dihydroxy-1,2,3,4-tetrahydronaphthylene  
binding to rat striatal membranes 1629
- Aminoglycoside antibiotics  
induced phospholipidosis in kidney 3861  
interaction with Ca binding to lipid monolayers and to biomembranes 3769  
effect on kidney lysosomes 3447
- 8-Aminoguanine  
inhibition of purine nucleoside phosphorylase 163
- p-Aminohippurate  
uptake into renal tubules, effect of L-proline 257
- 1-(2-Aminoimidazol-1-yl)-3-methoxypropan-2-ol  
formation by anaerobic bacteria and hypoxic lung fibroblasts 411
- $\alpha$ -Aminoisobutyric acid  
transport by lymphocytes, effect of inhibitors of arachidonic acid metabolism 337  
transport into PC6A cells, effect of nitrogen mustard 1773
- $\delta$ -Aminolevulinic acid  
incorporation into testicular heme  
effect of estradiol benzoate 3667  
effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin 3663
- $\delta$ -Aminolevulinic acid synthase  
in chick embryo liver cells, effect of propranolol 485
- $\delta$ -Aminolevulinic acid synthetase  
in heart, regulation of heme synthesis 761  
in hepatocytes  
induction by metyrapone and nicotinamide 1735  
relationship with formation of cobalt protoporphyrin 993  
in liver  
effect of ascorbic acid 1591  
tumour bearing rats 1535
- Aminoxyacetic acid  
anticonvulsant and biochemical effects in mice 837  
effect on  $\gamma$ -hydroxybutyrate and GABA in brain 3917
- p-Aminophenol  
inhibition of DNA synthesis and alteration to DNA structure 1425
- 3-Aminopicolinate  
stimulation of glutamine metabolism by renal cortex in vitro 3689
- N-Aminopiperidine  
inhibition of metabolism-mediated toxicity of cyclophosphamide 2921
- 3-Aminopropane sulphonic acid  
response of GABA receptor on corticostriatal terminals 2684
- Aminopropyl transferases  
rat prostate, inhibition by 5'-S-isobutyl-5'-deoxyadenosine T649
- 3-Amino-2-pyrazoline derivatives  
effect on cyclooxygenase and lipooxygenase activities 1955
- Aminopyrine  
N-demethylation by liver microsomes  
effect of benzoxazole derivatives 1795  
effect of chronic ethanol feeding 695  
diabetic rats 3329  
effect of disulfiram 3613

- Aminopyrine  
 N-demethylation by liver microsomes (contd.)  
   effect of Habu snake venom fractions 2039  
   metabolism by hepatocyte layers, filter trapping of  $^{14}\text{CO}_2$  1803  
   uptake by mucosal cells, effect of LSD 2676
- Aminopyrine demethylase  
   in liver microsomes  
     Gunn rats 1792  
     inhibition by mitochondria 661  
     effect of nitrogen heterocycles 3002  
     effect of portocaval anastomosis 499  
     effect of tranlylcypromine 2679  
   in lung microsomes, effect of cadmium 3425
- 2-Aminothiazole  
   effect on mixed-function oxidase activity 3002
- 3-Amino-1-(3-trifluoromethylphenyl)-2-pyrazoline  
   effect on prostaglandin synthesis in rat stomach 1652
- Amitriptyline  
   binding to calmodulin 419  
   inhibition of FAD formation in heart 3495  
   interaction with phospholipids 2977  
   plasma levels, inhibition of 5-hydroxytryptamine binding to platelets 1661
- Ammonium chloride  
   effect on secretion of lysosomal enzymes from mononuclear phagocytes 2657
- Ammonium m-vanadate  
   action on hepatic drug-metabolizing enzymes 1458
- Amphetamine  
   induced release of dopamine from corpus striatum 983, 1969  
   inhibition of benzylamine deamination in heart and aorta 27
- Anaerobic bacteria  
   misonidazole metabolism by 411
- Anaesthetics, local  
   interaction with synthetic phospholipid bilayers 2625  
   effect on osmotic fragility of liposomes 2999  
   promotion of membrane resealing by 1784
- Androgen receptor  
   in prostate, effect of histamine H2 receptor antagonists on dihydrotestosterone binding 677
- Androgens  
   effect on glutathione S-transferases in liver 2381  
   role in hypertrichosis produced by diazoxide, phenytoin and minoxidil 1948  
   uptake by rat prostate, use as site directing agents 3231
- 1,4,6-Androstatriene-3,17-dione  
   effect on 7,12-dimethylbenz(a)anthracene induced mammary tumours 2017
- Angiotensin I  
   conversion to angiotensin II in
- Angiotensin I(contd.)  
   isolated perfused lung, effect of hypoxia 1375  
   effect of MK421 on response to 3063
- Angiotensin I converting enzyme  
   resistance to hydrolysis by serine proteases 1443
- Angiotensin II  
   induced production of aldosterone by adrenal glomerulosa cells, effect of calmodulin inhibitors 3705  
   prostaglandin generation in kidney 2453
- Angiotensin II receptors  
   in adrenal cortex, inactivation by dithiothreitol 1903
- Aniline  
   effect on lipid peroxidase in liver microsomes 1823  
   hydroxylation by liver microsomes  
     effect of benzoxazole derivatives 1795  
     diabetic rats 3329  
     p-nitroanisole reversal of acetone enhancement of 311  
     effect of oral tobacco consumption 1595  
     effect of RJ 1991
- Aniline hydroxylase  
   in hepatocyte nuclear envelope 69  
   in liver microsomes  
     effect of aging on induction of 2339  
     effect of disulfiram 3613  
     inhibition by mitochondria 661  
     effect of maternally-administered methadone 2941  
     effect of nitrogen heterocycles 3002  
     effect of portocaval anastomosis 449  
     effect of tranlylcypromine 2679
- Anion exchange resin  
   correction of drug binding defects in uremia 3483
- Anions  
   effect on ethacrynic acid sensitive Mg-ATPase in brain 877
- p-Anisaldehyde  
   interaction with liver mitochondria 2025
- Anisic ester  
   O-demethylation by liver microsomes, effect of ammonium m-vanadate 1458
- Anthelmintic benzimidazoles  
   inhibition of acetylcholinesterase secretion from Nippostrongylus brasiliensis 3035
- Anthracyclines  
   cardiotoxic effects and generation of reactive oxygen species 575  
   chromatin interaction 3379  
   inhibition of uridine transport through Sarcoma 180 cell membrane 1811
- Anthraquinone glycoside P-1894B  
   inhibition of prolyl hydroxylase activity and collagen biosynthesis 915
- Anti-cytochrome P-450 immunoglobulin  
   effect on reductive dehalogenation of halothane 383

- Antidiuretic hormone  
involvement in renal kallikrein regulation 3941
- Anti-inflammatory drugs  
mode of action of methane sulfon-anilides 3591  
modification of effectiveness by peroxides 3307  
effect on prostaglandin synthesis and breakdown 969  
protein modification by 2047
- Antimalarial drugs  
effect on formation of coat structure from clathrin 793
- Antipyrine  
clearance in humans, effect of troleandomycin 1699  
N-demethylation by liver microsomes, effect of chronic ethanol feeding 695
- Aorta  
conversion of allylamine to acrolein in 509  
clorgyline-resistant amine oxidases in 27, 1417  
prostacyclin synthesis in, stimulation by human serum 1163, 3047  
spontaneously hypertensive rats, cyclic AMP-dependent protein kinase isoenzymes in 1837
- Aplastic anaemia  
chloramphenicol induced 2291
- Apomorphine  
effect on ATPases in synaptosomes 1531  
binding in brain regions 3085  
binding to striatal dopamine receptors effects of (-)N-(chloroethyl)-norapomorphine 3693  
effect on catecholamine metabolism in brain slices 3297  
effect on dopamine synthesis and release from striatal slices 2851  
induced stereotyped behaviour, effect of sulpiride 325  
inhibition of striatal synaptosomal tyrosine hydroxylase 2643
- Aprobarbital  
inhibition of GABA uptake by astrocytes 2694
- 9- $\beta$ -D-Arabinofuranosyladenine 5'-triphosphate  
inhibition of DNA synthesis, effect of 2'-deoxycoformycin 2103
- 1- $\beta$ -D-Arabinofuranosyladenosine  
binding to brain membranes, effect of adenosine analogues 3279
- 1- $\beta$ -D-Arabinofuranosylcytosine  
effect of incorporation on DNA synthesis in L1210 cells 2937  
kinases for activation in leukemia cells P815, P815/TG and P815/ara-C 3831  
metabolism in normal and herpes simplex type 1 virus-infected cells 767
- 1- $\beta$ -D-Arabinofuranosyl cytosine DNA  
instability in alkaline conditions 861
- 9- $\beta$ -D-Arabinofuranosyl-2-fluoroadenine  
identification of metabolites 1975
- 9- $\beta$ -D-Arabinofuranosyl-6-mercaptapurine  
binding to RNA polymerase II 2575
- Arachidonic acid  
effect of 3-amino-2-pyrazoline derivatives on enzymic oxidation in vitro 1955  
consumption during lipid peroxidation, relationship with malondialdehyde production 1393  
incorporation into prostaglandins and phospholipids in synchronized mastocytoma cells 173  
induced platelet aggregation, effect of clofibrate 2125  
metabolism in brain, effect of tranlylcypromine 1783  
metabolism in inflammatory tissue 2993  
metabolism in leukocytes and platelets, effect of hydroxy-eicosanoids 3463  
metabolism in seminal vesicle homogenate, effect of methane sulfonanilides 3591  
prostaglandin generation in kidney 2453  
release and metabolism in neutrophils and platelets, effects of timegadin 2619
- Arachidonic acid metabolism inhibitors  
effect on  $\alpha$ -aminoisobutyric acid transport in lymphocytes 337
- Arginyl-tRNA transferase  
modified chromatin, effects of hydrocortisone and aspirin 2047
- Arochlor 1254  
induced metabolism in intestinal mucosal cells and microsomes 3701  
effect on metyrapone-cytochrome P-450 binding 3489  
effect on reductive dehalogenation of halothane 383  
effect on UDP-glucuronyltransferase in liver 907
- Aromatase  
in ovary, inhibition by 1,4,6-androstatriene-3,17-dione 2017
- Aromatic aldehydes  
interaction with rat liver mitochondria 2025
- Aromatic hydrocarbon hydroxylase  
in liver microsomes  
effect of oral tobacco administration 1595  
effect of TCDD 1607
- Arteries  
cerebral and femoral, effect of pentobarbital on noradrenaline release 1567  
enhancement of thromboformation by uric acid 3011
- Arthritis  
adjuvant-induced, effect of honey-bee venom 1139
- Arylacylamidase  
associated with platelet acetylcholinesterase 2319
- Arylamine  
induced carcinogenesis involving peroxides, a free radical mechanism for 607  
oxidative N-demethylation of N-dimethyl derivatives 3621
- Arylamine sulfotransferase  
in liver 2675

- Arylformamidines  
oxidative N-demethylation of  
N-dimethyl derivatives 3621
- Arylhydrocarbon hydroxylase  
in cultured cells, induction by benz-  
(a)anthracene in the presence of  
ornithine decarboxylase inhibitors 189  
in liver microsomes  
genetic differences in induction 2077  
effect of 2,3,4,4',5'-pentachloro-  
biphenyl in inbred strains of mice 2830  
effect of pyrazole 1245  
effect of 2,3,7,8-tetrachloro-  
dibenzo-p-dioxin 3363  
in lung microsomes, genetic differen-  
ces in induction 2077
- Aryltriazines  
oxidative N-demethylation of  
N-dimethyl derivatives 3621
- Arylureas  
oxidative demethylation of  
N-dimethyl derivatives 3621
- Ascorbate-iron  
induced lipid peroxidation, effect  
of glutathione 601
- Ascorbic acid  
effect on aflatoxin B1 and G1  
metabolism by liver *in vitro* 2327  
impairment of absorption following  
ingestion of aspirin in guinea  
pig 4035  
effect on mixed function oxidase  
system in guinea pig liver 1591  
effect on radioligand binding to  
dopamine receptors in brain 3085
- Asialo-glycoproteins  
uptake into hepatocytes, effects of  
benzyl alcohol 593
- Aspartate  
release from brain following  
application of verruculogen 2807
- Aspartate carbamoyltransferase  
in biopsy specimens from patients  
treated with N-(phosphonacetyl)-  
L-aspartate 3317  
in Novikoff tumour, inhibition by  
N-(phosphonacetyl)-L-aspartate 3313
- Aspirin  
effect on ADP-induced platelet  
aggregation and reactivity towards  
prostaglandins 1147  
impairment of ascorbic acid absorption  
in guinea pigs 4035  
inhibition of  $\Delta^1$ -tetrahydrocannabinol  
induced hypotension 591  
effect on protein modification in  
cultured cells 2047
- Aspirin-like drugs  
effect on prostaglandin synthesis  
and breakdown 969
- Asthma deaths  
role of isoprenaline 59
- Astrocytes  
GABA uptake, kinetics of inhibition  
by barbiturates 2694
- Astrocytoma cells  
toxicity of carrier-bound methotrexate 3513
- Atenolol  
effect on ecto-ATPase activity of  
platelets 3122
- Atrium  
regulation of catecholamine  
synthesis 653
- Atropine  
effect on malathion-induced changes  
in blood glucose and brain  
glycogen levels 1801
- Auranofin  
effect on leucocyte function 671
- Autoreceptor  
mediated inhibition of transmitter  
synthesis in dopaminergic nerve  
terminals 2851
- Axillarin  
inhibition of lens aldose  
reductases 3807
- 8-Azaadenosine  
effects on human colon carcinoma  
cells 3207  
pharmacology and toxicity alone and  
in combination with 2'-deoxy-  
coformycin 2415
- 8-Azaguanine  
inhibition of initiation of  
translation in L1210 cells 2505
- Azaserine  
effect on 5-phosphoribosyl  
1-pyrophosphate in tumour cells  
*in vivo* 1509
- 6-Azaauridine triacetate  
decrease of serum pyridoxal  
phosphate levels and homocystin-  
aemia after administration 4089
- Azide  
effect on methanol oxidation by  
microsomes 329
- Barbiturates  
effect on GABA binding to synaptos-  
omal membranes 2891  
inhibition of GABA uptake by  
astrocytes 2694
- Basophils  
antigen-induced histamine release,  
effect of flavonoids and  
transitional metal cations 1449
- BAYe 4609, BAYg 5421 and BAYn 5595  
inhibition of honeybee hemolymph  
 $\alpha$ -glucosidase 2769
- Bee venom  
effect on adjuvant-induced arthritis  
and depression of drug metabolism  
in the rat 1139
- Benorylate  
inhibition of prostaglandin  
synthesis and breakdown 969
- Benserazide  
catechol-O-methyltransferase  
substrate 433  
inhibition of benzylamine oxidase  
and monoamine oxidase 825  
inhibition of clorgyline-resistant  
amine oxidases in cardiovascular  
tissues 1417  
effect on pineal biochemistry 2251
- Benzylaldehyde  
interaction with liver mitochondria 2025
- Benzanthrane

- Benzanthracene  
induction of cytochrome P-450 in  
cultured hepatocytes 1175  
induction of ornithine decarboxylase  
and arylhydrocarbon hydroxylase  
in cultured cells 189
- Benzene  
metabolism by liver, dietary  
modification 1005
- Benzimidazoles  
C1-C4 substituted, binding to  
cytochrome P-450 in liver  
microsomes 1315  
inhibition of acetylcholinesterase  
secretion from *Nippostrongylus*  
*brasiliensis* 3035
- Benzodiazepines  
binding sites in heart and kidney  
589  
possible role of hydrogen bonding in  
receptor interactions 889  
receptor in brain, flunitrazepam  
interaction 2761
- 5,6-Benzoflavone  
induction of deethylation in skin  
microsomes 4011  
effect on metabolism of 7-ethoxy-  
coumarin and 7-hydroxycoumarin  
in skin strips 4005
- Benzoic acid  
novel metabolites in horse urine  
3225
- Benzo(a)pyrene  
hydroxylation by mammary gland 239  
metabolism by adrenal microsomes 639  
metabolism by liver microsomes 639  
fetal stump-tailed monkey 1150  
effect of oral tobacco consumption  
1595  
trout, effects of polychlorinated  
biphenyls and environmental  
temperature 561  
effect on reductive dehalogenation of  
halothane 383
- Benzo(a)pyrene hydroxylase  
in hepatocyte nuclear envelope 69  
in liver microsomes  
effect of adjuvant and bee venom  
1139  
effect of isiniazid 4031  
in lung microsomes, effect of  
cadmium 3425
- 5(6)-Benzoylbenzimidazoles  
effect on mixed function oxidase  
activity 3002
- Benzoxazole derivatives  
inhibition of aminopyrine N-demethyl-  
ation and enhancement of aniline  
hydroxylation 1795
- Benzphetamine demethylase  
in hepatocytes  
effect of C3-C4 alcohols 2811  
effect of culture conditions 2141  
in liver microsomes, effect of aging  
on induction of 2339
- Benzpyrene monooxygenase  
in liver microsomes of Northern pike  
1491
- Benztropine  
effect on efflux of dopamine  
produced by various drugs 2479
- Benzylacyclouridines  
inhibition of uridine phosphorylase
- Benzylacyclouridines(contd.)  
1857
- Benzyl alcohol  
inhibition of fusion between  
enocytic vesicles and lysosomes  
593
- Benzylamine  
deamination in heart and aorta 27
- Benzylamine oxidase  
allylamine oxidation 509  
inhibition by phenelzine and  
benserazide 825
- 1-Benzylimidazole  
effect on  $\alpha$ -aminoisobutyric acid  
transport in lymphocytes 337
- Benzylpenicillin  
transport and subcellular distribut-  
ion in macrophages 423
- Bezafibrate  
effect on UDP-glucuronyltransferase  
in liver 907
- Bicuculline methiodide  
modification of response of GABA  
receptor to 3-aminopropane  
sulphonic acid 2684
- Bilayer membranes  
effect of miconazole on electrical  
conductivity of 3120
- Bile  
excretion of green pigments  
produced by norethindrone 1337
- Bile acids  
hepatic secretion in rats 205  
uptake by isolated hepatocytes 211
- Bile flow  
effect of spironolactone 1469
- Biliary muscle  
cyclic AMP dependent protein kinase  
induced calcium uptake 3077
- Bilirubin  
binding in manganese-bilirubin  
induced cholestasis 3698  
metabolism in liver and small  
intestinal mucosa, effect of  
spironolactone 1469
- Bilirubin glucuronyl transferase  
in liver microsomes from Gunn rats  
1792
- Biphenyl  
cytochrome P-450 mediated  
metabolism in liver 1849  
4-hydroxylation by liver microsomes  
effect of ammonium m-vanadate  
1458  
effect of ascorbic acid 1591
- 2,2'-Biquinoline  
effect on mixed function oxidase  
activity 3002
- 1,3-Bis(2-chloroethyl)-1-nitrosourea  
effect on melphalan accumulation by  
L1210 cells 2727  
toxicity, role of isocyanates 2795
- 2,2-Bis(p-chlorophenyl)acetic acid  
effect on kidney mitochondria 149
- Bis(6-mercaptopurine-9- $\beta$ -D-ribofuran-  
oside)-5',5'''-phosphate  
and its butyryl derivative, effect  
on L1210 cells 2903
- Bis(methylmercuric)selenide  
formation and role in rats treated  
with methylmercury and selenite  
75
- Bisquaternary 6-aminoquinoline salt

- Bisquaternary 6-aminoquinoline salt  
NSD-176319  
anticholinesterase activity 301
- Black widow spider venom gland extract  
hydrolysis of substance P and  
bradykinin 3323
- Bleomycin  
mediated DNA damage, selective  
toxicity 3335
- Bleomycin +  $\alpha$ -difluoromethylornithine  
therapy of trypanosomiasis, reversal  
by polyamines 2833
- Blood-brain barrier  
effect of early inorganic lead  
exposure in rats 1881
- Blood pressure  
elevation by des-tyr<sup>1</sup>-D-ala<sup>2</sup>-leucine-  
enkephalinamide 2699
- Bone marrow  
nitrosourea toxicity, correlation  
with DNA alkylation and chromatin  
binding sites 1671  
effect of *n*-octane and *n*-nonane on  
alkaline phosphatase in 201  
toxicity of carrier-bound methotrexate  
3513  
toxicity of platinum drugs 2273
- Bradykinin  
hydrolysis by black widow spider  
gland extract 3323  
hydrolysis by rat liver kininase 799  
prostaglandin generation in kidney  
2453
- Brain  
histamine in 305
- Breast cancer cells MCF<sub>7</sub>  
effects of LN 1643 3187
- Brodifacoum  
vitamin K antagonism 3635
- Bromobenzene  
hepatotoxicity, protection by  
diethyldithiocarbamate and carbon  
disulphide 2713  
role of lipid peroxidation in  
toxicity 19
- Bromocriptine  
antagonism of  $\gamma$ -butyrolactone-induced  
increase in brain dopamine, effect  
of haloperidol 2199  
effect on estradiol binding in uterus,  
pituitary, hypothalamus and  
mammary tumours 707
- Bromotrichloromethane  
hepatotoxicity, protection by  
diethyldithiocarbamate and carbon  
disulphide 2713
- Brown adipose tissue  
monoamine oxidase activities in 2177
- Brush border membranes  
kidney, retention of phosphate  
transport function after freezing  
251
- 1,4-Butanediol  
effect on  $\gamma$ -hydroxybutyrate in brain  
3917
- n*-Butanol  
induced increase in cytochrome P-450  
in hepatocytes 2811
- Butenolide derivatives  
selective inhibition of heart cyclic  
nucleotide phosphodiesterases  
3353
- Butesin  
interaction with lipid bilayers 2625
- Butylated hydroxyanisole  
effect on conjugation capacity in  
isolated hepatocytes 1907
- Butylated hydroxytoluene  
collagen production in damaged lung  
2053
- t*-Butyl hydroperoxide  
effect on cyclic GMP metabolism in  
lung 3847
- Butylmalonate  
effect on transhydrogenase in liver  
3645
- Cadaverine  
accumulation in lung slices 3029
- Cadmium  
action on lung monooxygenases 3425  
metabolism in neonatal rat 1761
- Cadmium-binding proteins  
in lung 2969
- Caffeine  
inhibition of cyclic nucleotide  
phosphodiesterase and relaxation  
of canine tracheal smooth muscle  
3403  
*in vivo* N-demethylation in rats,  
effect of chronic ethanol  
feeding 695
- Calcium  
effect of aminoglycoside antibiotics  
on binding to lipid monolayers  
and to biomembranes 3769  
bound to synaptosomal membrane  
sialoglycoconjugates, displacement  
by 5-hydroxytryptamine and  
serotonergic drugs 1787  
distribution in liver cells, effect  
of carbon tetrachloride  
administration 1069  
efflux in kidney tubules, effect of  
 $\alpha$ -adrenergic agonists 2331  
entry into adrenergic nerve endings,  
effect of barbiturates 1567  
entry into parotid cells, role of  
 $\alpha$ -adrenergic receptors 2197  
in heart, effect of ouabain on  
exchange 2471  
in liver, effect of diethyldithio-  
carbamate and carbon disulphide  
2713  
modulation of inhibition of cyclic  
AMP and cyclic GMP phosphodiester-  
ases in cardiac nuclear  
fraction 665  
pump function in liver endoplasmic  
reticulum  
carbon disulphide hepatotoxicity  
and inhibition of 1465  
effect of 1,1-dichloroethylene  
1463  
role in adrenaline inhibition of  
protein synthesis in hepatocytes  
1656  
role in depolarization-induced  
activation of tryptophan  
hydrolase 2495  
role in regulation of adrenal  
tyrosine hydroxylase 1729  
role in regulation of GABA  
biosynthesis in brain GABAergic

- Calcium(contd.)  
 neurones 882  
 role of uptake in adrenal glomerulosa cells, effects of verapamil and trifluoperazine 1267  
 synaptosomal binding, effects of ethanol and pentobarbital 1790  
 in ventricular strips, effect of taurine 3181  
 uptake by sarcoplasmic reticulum fraction of bile ducts relaxed by cholecystokinin-C terminal peptide effect of cyclic AMP dependent protein kinase 3077  
 uptake by synaptosomes, effect of morphine 2697
- Calcium antagonists  
 displacement of phencyclidine in crayfish muscle 2549  
 effect on sodium excretion in acutely saline loaded rats 3015
- Calmodulin  
 association with cyclic GMP phosphodiesterase in cardiac nuclear fraction 665  
 drug interaction 2217  
 multiple binding sites for tricyclic drugs 419  
 role in adrenal glomerulosa cells, effects of verapamil and trifluoperazine 1267
- Calmodulin inhibitors  
 effect on response of adrenal glomerulosa cells to angiotensin II and cyclic AMP 3705
- Cancer chemotherapy  
 radiosensitizers as potential adjuvants 2439  
 selective cell and organ toxicity due to free radicals 3335
- Cannabidiol  
 effect on 5-hydroxytryptamine uptake by platelets 439  
 stimulation of PGE<sub>2</sub> synthesis in lung fibroblasts 2361
- Cannabinol  
 stimulation of PGE<sub>2</sub> synthesis in lung fibroblasts 2361
- Captopril  
 inhibition of converting enzyme, comparison with MK421 3063  
 covalent binding to plasma proteins 1755
- Carbachol  
 stimulated phosphatidylinositol effect in heart 3130
- Carbamates  
 n-alkyl, binding to cytochrome P-450 and metabolism in isolated hepatocytes 1309  
 binding to serum albumin, chain length dependency 4019  
 FAD-dependent sulfoxidation 745
- Carbamoylation of albumin  
 involvement in drug binding defect in uraemic plasma 2791
- Carbamoyl phosphate synthetase  
 effects of N-(phosphonacetyl)-L-aspartate 3313  
 in rat hepatoma, in vivo inactivation by acivicin 927
- Carbamoylcholine  
 effect on gastric secretion, motility
- Carbamoylcholine(contd.)  
 and emptying 3475  
 effect on H<sub>12</sub>-HTX binding to channel sites of acetylcholine receptor in Torpedo membranes 1819
- Carbazilquinone  
 generation of hydroxyl radical in the presence of NADPH cytochrome P-450 reductase 3651
- Carbenoxalone  
 inhibition of prostaglandin synthesis and breakdown 969
- Carbohydrate  
 dietary, effect on liver mixed-function oxidase activity 1005
- Carbon disulphide  
 hepatotoxicity and inhibition of liver microsome calcium pump 1465  
 hepatotoxicity prevention by 2713
- Carbon tetrachloride  
 effect on distribution of liver cell calcium 1069  
 hepatotoxicity  
 effect of dietary carbohydrate 1005  
 effect of hypoxia 3787  
 protection by diethyldithiocarbamate and carbon disulphide 2713  
 role of lipid peroxidation 19  
 induced alkane formation in liver microsomes, effect of ferrous ions 597  
 induced damage in hepatocyte monolayers measured by <sup>14</sup>CO<sub>2</sub> 1803  
 induced lipid peroxidation in mouse liver 405  
 induced soluble protein, effect on liver microsomal NADH oxidase activity 2837  
in vivo covalent binding of <sup>14</sup>CCl<sub>3</sub> to cholesterol in liver 3509  
 metabolism in liver microsomes cytochrome P-450 specificity 615  
 dietary modification 1005  
 selective loss of polypeptides in liver microsomes, relationship to cytochrome P-450 content 609
- 1-p-Carboxamidophenyl-3,3-dimethyl-1,2,4-triazene  
 and metabolites, mechanism of antileukemic effects 3629
- p-Carboxybenzaldehyde  
 interaction with liver mitochondria 2025
- Carboxylesterases  
 in liver, chloramphenicol hydrolysis 781
- S-Carboxymethyl-L-cysteine  
 polymorphic sulfoxidation in man 3151
- Carcinogenesis  
 arylamine induced, a free radical mechanism for 607
- Carrageenin-induced inflammatory tissue  
 inhibition by systemic treatment with prostaglandins of the E series 3126  
 phospholipase A<sub>2</sub> activity in 2993
- Cartazolate  
 inhibition of adenosine stimulated

- Cartazolate(contd.)  
     cyclic AMP formation in brain vesicle preparations 1441
- Casein kinase, G type  
     inhibition by quercetin and related polyphenols 1357
- Castration  
     effect on glutathione S-transferase in brain and liver 3927
- Catalase  
     effect on 6-hydroxydopamine toxicity to neuroblastoma cells 181  
     role in oxidation of methanol by liver microsomes 329
- (+)Catechin  
     effect on paracetamol toxicity in hepatocytes 3745
- Catecholaminergic function  
     effects of lead 3717
- Catecholamines  
     effect on gastric secretion, motility and emptying 3475  
     metabolism in adrenal medulla explants  
         effect of tetrahydroisoquinoline-carboxylic acids 3251, 3257  
     metabolism in brain slices 3289  
     effects of haloperidol and apomorphine 3297  
     effect on renal kallikrein regulation 3941  
     sulphate conjugation in man 3017  
     synthesis in adrenergic neurons, reverse trans-synaptic regulation 653  
     in urine, effect of tyrosine 3577
- Catechol-O-methyltransferase  
     in liver, substrate specificity 433  
     in red blood cells, effect of U-0521 3415
- Catechols  
     conjugation of dopa with cysteine 2887
- Cephaloridine  
     *in vivo* effect on stability of rat kidney lysosomes 1843
- Cephalosporin antibiotics  
     interaction with renal cortex 2267
- Chemotaxis  
     role of cyclic AMP in transduction 1573
- Chemotherapy  
     treatment of cancer, radiosensitizers as potential adjuvants 2439
- Chenodeoxycholic acid  
     hepatic extraction in rats 205  
     uptake by isolated hepatocytes 211
- Chick embryo liver cells  
     effect of propranolol on heme in and  $\delta$ -aminolevulinate synthase activity in 485
- Chinese hamster lung fibroblasts  
     misonidazole metabolism by 411
- Chinese hamster ovary cells  
     effect of 2'-deoxycoformycin on inhibition of DNA synthesis by ara-ATP 2103  
     relationship between ribo- and deoxyribonucleotide concentrations and biological parameters 1109
- Chinese hamster V79-379A cells  
     inhibition of glycolysis by misonidazole 2345
- Chlorambucil  
     effect on acetylation in alkylating agent resistant and sensitive Walker 256 cells 3991
- Chloramphenicol  
     identification of hydrolysing enzyme in guinea pig liver 781  
     induced aplastic anaemia, degradation of DNA mediated by nitroso-chloramphenicol 2291  
     *in vivo* effect on mouse liver enzymes 55
- Chlordiazepoxide/ethanol  
     effect on brain cyclic nucleotide levels 85
- Chlorisondamine  
     toxic effect in neonatal rat liver 1798
- p-Chloroamphetamine  
     microsomal metabolism of enantiomers 5
- p-Chlorobenzaldehyde  
     interaction with liver mitochondria 2025
- 4-Chlorobiphenyl  
     cytochrome P-450 mediated metabolism in liver 1849
- Chloroethylenes  
     structure-mutagenicity relationships model based on stability of metabolically derived epoxides 3710
- 1-(2-Chloroethyl)-3-( $\beta$ -D-glucopyranosyl)-1-nitroso-urea  
     correlation of bone marrow toxicity with DNA alkylation and chromatin binding sites 1671
- 1-(2-Chloroethyl)-3-cycloheptyl-1-nitroso-urea  
     correlation of bone marrow toxicity with DNA alkylation and chromatin binding sites 1671
- 1-(2-Chloroethyl)-3-cyclohexyl-1-nitroso-urea  
     enhancement of cytotoxicity using hydrocortisone 1179  
     toxicity, role of isocyanates 2795
- Chloroethylisocyanates  
     cytotoxicity 2795
- 2-[3-(2-Chloroethyl)-3-nitroso-ureido]-D-glucopyranose  
     enhancement of cytotoxicity using hydrocortisone 1179
- (-)-N-(Chloroethyl)-norapomorphine  
     effect on apomorphine binding to striatal dopamine receptors 3693
- Chloroform  
     hepatotoxicity, protection by diethyldithiocarbamate and carbon disulphide 2713  
     inhibition of hepatic  $\gamma$ -glutamyl-cysteine synthetase 3510  
     metabolism by liver, dietary modification 1005
- 2,2-bis(2-Chlorophenyl-4-chlorophenyl)-1,1-dichloroethane  
     stimulation of liver 3-hydroxy-3-methyl-glutamyl-coenzyme A reductase 857
- Chloroquine  
     binding to synthetic DOPA-melanin 3359  
     effect on formation of coat

- Chloroquine(contd.)  
 structure from clathrin 793  
 induced phospholipid storage in MDCK cells 3795
- Chlorozotocin  
 correlation of bone marrow toxicity with DNA alkylation and chromatin binding sites 1671
- Chlorpromazine  
 calmodulin interaction 419, 2217  
 effect on catecholamine metabolism in brain slices 3297  
 effect on formation of coat structure from clathrin 793  
 inhibition of FAD formation in heart 3495  
 inhibition of phosphodiesterase from cardiac nuclear fraction 665  
 interaction with phospholipids 2977  
 effect on isolated hepatocytes 491  
 effect on kynurenine metabolism in liver 2227  
 prevention of lysosomal enzyme release caused by transitory ischaemia, effect of hypothermia 1167  
 promotion of membrane resealing 1784  
 pulmonary metabolism in rat and rabbit 157  
 stimulation of erythrocyte sugar transfer 463
- Chlorpropamide  
 receptors in brain and  $\beta$ -cell tumour 1171
- Chlorprothixene  
 interaction with phospholipids 2977
- Cholecystokinin-C-terminal peptides  
 relaxed biliary muscles, cyclic AMP-dependent protein kinase induced calcium uptake 3077
- Cholestasis  
 manganese-bilirubin induced, liver cell plasma membrane lipids in 3698
- Cholesterol  
 in liver  
 binding of  $\cdot\text{CCl}_3$  derived from carbon tetrachloride 3509  
 manganese-bilirubin induced cholestasis 3698  
 in serum  
 drug oxidation deficient rats 1665  
 mechanism of elevation by  $\alpha,\beta$ -DDD 857
- Cholesterol 7 $\alpha$ -hydroxylase  
 role in hypobetalipoproteinaemic activity of SKF 525A in rats 2423
- Cholic acid  
 hepatic extraction in rats 205  
 uptake by isolated hepatocytes 211
- Choline  
 brain capillary transport in lead-intoxicated rats 1881  
 effect of dose size on turnover rate of acetylcholine in mouse brain 2867  
 intracerebroventricular injection, kinetics of choline and acetylcholine metabolism in brain regions 1599  
 uptake by brain, effect of dimethyl-amino-2-ethoxyimino-2-adamantine 1693  
 uptake by RBL-2H3 cells, inhibition
- Choline(contd.)  
 by 5'-deoxy-5'-isobutylthio-3-deazaadenosine 2111
- Chromaffin granules  
 tyramine, metaraminol and isoproterenol uptake 815
- Chromatin  
 alteration of structure induced by binding of adriamycin, daunorubicin and ethidium bromide 3379  
 arginyl-tRNA directed modification, effects of hydrocortisone and aspirin 2047  
 in heart and skeletal muscle, effect of adriamycin 973  
 lung, adriamycin-induced compaction 1057  
 nitrosourea binding 1671
- Chymotrypsin  
 inhibition by steroids 2989
- Cimetidine  
 antiandrogenic activity 677  
 binding in renal glomeruli 367
- Cinanserin  
 effect on  $\text{K}^+$ -evoked 5-hydroxytryptamine release from cortex slices 49
- Cinnarizine  
 inhibition of phencyclidine binding in crayfish muscle 2549
- Cis-dichlorodiammine platinum II  
 mechanism of renal clearance 2243
- Cisplatin  
 antitumour selectivity and DNA interaction 2273  
 lymphotoxic activity 933
- Citrate  
 in heart of alloxan-diabetic rats, effect of antilipolytic agents 63
- Citrovorum factor  
 reversal of methotrexate-induced immunosuppression 1387
- Clathrin  
 effect of antimalarials and phenothiazines on formation of coat structure from 793
- Clofibrate  
 effect of chronic feeding on enzymes involved in glycerolipid synthesis and in peroxisomal metabolism in liver 1650  
 effect on contribution of omega-oxidation to fatty acid oxidation 2119  
 effect on prostaglandin-dependent and independent pathways of human platelet activation 2125
- Clofibric acid  
 effect on UDP-glucuronyltransferase in liver 907
- Clofibril glucuronide  
 $\beta$ -glucuronidase resistance 953
- Clomipramine  
 plasma levels, inhibition of 5-hydroxytryptamine binding to platelets 1661
- Clonidine  
 binding to brain  $\alpha$ -adrenoceptors 899  
 effect on cyclic GMP in liver, mediation by  $\alpha_1$ -adrenoceptors 3684

- Clonidine(contd.)  
 localization of binding to membranes  
 from guinea pig renal tubules 583  
 uptake and displacement in perfused  
 lung 1039
- Clorgyline  
 inhibition of monoamine oxidase in  
 brain using mixed substrates 1515  
 inhibition of monoamine oxidase in  
 liver 3555  
 inhibition of synaptosomal accumu-  
 lation of dopamine 2195  
 effect on metabolism of dopamine  
 released from striatal slices 2961
- Clorgyline-resistant amine oxidases  
 in brain soluble fraction 3925  
 in cardiovascular tissue, inhibition  
 by benserazide 1417  
 comparison of heart and aorta 27
- Clotting factor synthesis  
 vitamin K antagonism by warfarin,  
 difenacoum and brodifacoum 3635
- $^{14}\text{C}$ O<sub>2</sub>  
 measurement of drug metabolism in  
 hepatocyte monolayers 1803
- CoASH  
 in liver, effects of tiadenol,  
 nicotinic acid and niadenate 3930
- Coat structure  
 formation from clathrin, effect of  
 antimalarials and phenothiazines  
 793
- Cobalt  
 inhibition of methemoglobin and  
 metmyoglobin reduction 1779  
 in liver, effect of disulfiram 3613
- Cobalt protoporphyrin  
 formation by chicken hepatocytes in  
 culture 993
- Cobalt-salt  
 solubilization of bovine brain  
 muscarinic receptors 1806
- Collagen  
 biosynthesis in uterus, effect of  
 P-1894B 915  
 effect of (+)-cyanidanol-3 on  
 properties of 3581  
 production by lung damaged by  
 butylated hydroxytoluene 2053  
 synthesis by dermal fibroblasts,  
 effect of glucocorticoids 1711
- Colon  
 inhibition of prostaglandin  
 breakdown 969
- Colon adenocarcinomas  
 effects of 8-azaadenosine and  
 formycin 3207  
 enzymes of pyridine synthesis in  
 2485  
 effect of glutamine antagonists on  
 5-phosphoribosyl 1-pyrophosphate  
 levels *in vivo* 1509  
 phosphoribosyl pyrophosphate pool  
 size as a determinant of 5-fluoro-  
 uracil response 1989
- 7-Con-O-methyl nogarol  
 inhibition of uridine transport  
 through sarcoma 180 cell membranes  
 1811
- Complement-dependent and -independent  
 cellular toxicity  
 methotrexate suppression, effect of  
 citrovorum factor 1387
- Conjugation  
 capacity in isolated hepatocytes  
 from butylated hydroxyanisole-  
 treated mice 1907  
 of harmol in rats *in vivo*, effect of  
 fasting 1941
- Converting enzyme inhibitor MK 421  
 activation of 3063
- Co-operativity  
 analysis in catecholamine-stimulated  
 lipolysis in adipose tissue 737
- Copper  
 effect on antigen-induced histamine  
 release from basophils in the  
 presence of quercetin 1449  
 effect on binding of gold(I) to  
 metallothioneins in liver and  
 kidney 2153  
 effect on cimetidine binding in  
 renal glomeruli 367  
 in liver  
 effect on cadmium uptake 1761  
 effect of disulfiram 3613  
 thionein synthesis during  
 development 137
- Copper-phenanthroline complex  
 DNA degradation by 2801
- Coprine  
 effect on biogenic aldehyde  
 metabolism in liver and brain  
 3899
- Corticosterone  
 effect on collagen synthesis by  
 dermal fibroblasts 1711  
 in plasma, effect of o,p'-DDD 857
- Corticotropin-glucocorticoid system  
 involvement in renal kallikrein  
 regulation 3941
- Cortisol  
 inhibition of serine proteases 2989  
 effect on protein binding of  
 prednisolone 289
- Cotton pellet granuloma  
 effects of dexamethadone and  
 indomethacin on development of  
 1213
- Coumarins  
 inhibition of lens aldose reductases  
 3807
- Crayfish  
 phencyclidine binding to muscle 2549
- Creatine phosphokinase  
 adriamycin-mediated inhibition of  
 binding to heart mitochondrial  
 membrane 109
- Crigler-Najjar syndrome  
 microsomal enzyme deficiencies in  
 Gunn rats 1792
- Crypto-OH<sup>•</sup> radical  
 production by nitrofurantoin 603
- C-S lyase  
 in intestinal microorganisms 2137
- Cyanamide  
 effect on biogenic aldehyde  
 metabolism in liver and brain  
 3899  
 ethanol interaction 1999
- Cyanide poisoning  
 effects of cobalt 1779
- (+)-Cyanidanol-3  
 interaction with collagen 3581
- Cyanobenzenoids  
 inhibition of monoamine oxidase in

- Cyanobenzenoids(contd.)  
 in liver 2639
- <sup>125</sup>I-Cyanopindolol  
 binding sites in human lymphocyte subpopulations 133
- Cyclic nucleotide phosphodiesterase (cyclic AMP)  
 in brain, calmodulin- and phospholipid stimulated, effect of psychotropic drugs 2977
- in heart  
 calmodulin activation 419  
 selective inhibition 665,2777,3353
- in liver, regulation of 43
- in lymphocytes, inhibition by 5'-methylthioadenosine 2201
- in synchronized mastocytoma P-815 cells 173
- in tracheal smooth muscle, correlation between enzyme inhibition and muscle relaxation 3403
- Cyclic nucleotide phosphodiesterase (cyclic CMP)  
 in liver, regulation of 43
- Cyclic nucleotide phosphodiesterase (cyclic GMP)  
 in cultured muscle cells, effect of 20,25-diazacholesterol 91
- in heart, selective inhibition 665, 2777, 3353
- in liver, regulation of 43
- Cyclic nucleotide phosphodiesterase-nucleotidase-deaminase  
 in adrenal, effect of theophylline 3441
- Cyclic polyamines  
 effect on lipid peroxidation in liver microsomes 1658
- Cycloheximide  
 effect on glucosamine incorporation into glycoproteins in chicken liver 2123
- effect on prostaglandin production in inflammatory tissue 2993
- effect on protein synthesis in hepatocytes 1219
- Cyclohexylisocyanate  
 cytotoxicity 2795
- Cycloleucine  
 transport into PC6A cells, effect of nitrogen mustard 1773
- Cyclooxygenase  
 metabolite biosynthesis in sensitized lungs 2381
- in platelets, effect of timegadine 2619
- in seminal vesicle microsomes, effect of 3-amino-2-pyrazoline derivatives 1955
- Cyclooxygenase inhibitors  
 effect of peroxides on potency of 3307
- effect on phorbol stimulation of oxygen consumption and superoxide production by pulmonary macrophages 775
- Cyclophosphamide  
 inhibition of metabolism-mediated cytotoxicity by hydrazines 2921
- Cyclophosphamide metabolites  
 interaction with membrane proteins 3535
- Cysteine  
 conjugation of DOPA and cysteinyl-dopa 2887
- Cysteine conjugated  
 a C-S bond cleavage enzyme of in intestinal microorganisms 2137
- 5-S-Cysteinyl-dopa  
 conjugation with cysteine 2887
- Cytembena  
 binding to liver microsomes in vitro 3201
- Cytidine monophosphate  
 hydrolysing enzyme in liver 43
- Cytidine triphosphate synthetase  
 in hepatoma cells, effects of acivicin 3469
- Cytochrome b<sub>5</sub>  
 in liver microsomes  
 effect of ascorbic acid 1591  
 lactating rats 239
- in mammary gland of lactating rats 239
- Cytochrome c oxidase  
 in liver, effect of zinc 1289
- Cytochrome c reductase  
 in liver microsomes  
 effect of aging 2339  
 effect of Habu snake venom fractions 2039
- human, effect of troleandomycin 1699
- lactating rats 239
- effect of portocaval anastomosis 499
- in mammary gland of lactating rats 239
- Cytochrome oxidase proteoliposomes  
 effect of dibucaine 527
- Cytochrome P-448  
 immunopurification from microsomal fractions of rabbit liver 1815
- in mammary gland of lactating rats 239
- mediated drug metabolism in rat, effect of chronic ethanol feeding 695
- Cytochrome P-450  
 dependent deethylase activity in rat and hairless mouse skin microsomes 4011
- in hepatocytes  
 n-alkyl carbamate binding 1309
- effect of culture conditions on linked drug metabolizing enzymes 2141
- effect of 1,1-disubstituted hydrazines 2921
- increases mediated by 3- and 4-carbon alcohols 2811
- long-term maintenance and induction 1175, 2211
- effects of metyrapone and nicotinamide 1735
- in liver microsomes  
 effect of adjuvant and bee venom 1139
- effect of aging 2339
- 2-n-alkylbenzimidazole binding 1315
- effect of ascorbic acid 1591
- binding and metabolism of 1,2-dichloroethylenes 2093
- binding and metabolism of

- Cytochrome P-450  
 in liver microsomes(contd.)  
   of vinylidene chloride 2083  
   carbon tetrachloride metabolism and specificity of 609, 615  
   destruction by alclofenac 195  
   effect of diabetes 3329  
   effect of diethyldithiocarbamate and carbon disulfide 2713  
   effect of disulfiram 3613  
   genetic differences in effect of 3-methylcholanthrene 2077  
   effect of Habu snake venom fractions 2039  
   human, effect of troleandomycin 1699  
   induction by octachlorostyrene in inbred strains of mice 2523  
   induction by trans-stilbene oxide 3907  
   lactating rats 239  
   male and female rats following aflatoxin B1 administration 3057  
   metrapone binding following xenobiotic treatment 3489  
   effect of neonatal administration of o,p'-DDT and methoxychlor 647  
   normal and hydroxylation deficient rat strains, spectral binding of polymorphically metabolized drugs 3193  
   Northern pike 1491  
   orphenadrine interaction 2745  
   effect of 2,3,4,4',5'-pentachlorobiphenyl in inbred strains of mice 2830  
   effect of portocaval anastomosis 499  
   effect of pyrazole 1245  
   reversal of effects of isoniazid by potassium ferricyanide 249  
   effect of tranlycypromine 2679  
   trout, effects of estradiol and testosterone 3979  
   tumour-bearing rats 1535  
 in lung microsomes  
   effect of cadmium 3425  
   genetic differences in effect of 3-methylcholanthrene 2077  
 in mammary gland of lactating rats 239  
 mechanism of reductive dehalogenation of halothane 383  
 mediated drug metabolism in rat, effect of chronic ethanol feeding 695  
 multiple forms, molecular biology and evolution 2311  
 reductive metabolism of halogenated alkanes 391  
 in testicular microsomes  
   effect of estradiol benzoate 3667  
   effect of 2,3,7,8-tetrachloro-dibenzo-p-dioxin 3663  
 Cytochrome P-450 complexing drugs  
   effects on hepatic glutathione 1829  
 Cytochrome P-450 reductase  
   interaction with anticancer quinone drugs, generation of hydroxyl radical 3651  
 Cytochrome P-450 substrate analogue  
   interaction with mixed function oxidases 1993
- Cytotaxin  
   induced cyclic AMP peak in granulocytes, relationship with crawling movements, chemokinesis and chemotaxis 1573
- D3 binding sites  
   canine brain 1183  
 +D600 and -D600  
   inhibition of phencyclidine binding in crayfish muscle 2549
- Dantrolene  
   binding to skeletal muscle sarcoplasmic reticulum 965
- Daunomycin  
   compaction of isolated chromatin 1057
- Daunorubicin  
   accumulation and efflux in adriamycin resistant tumour cells 2691  
   generation of reactive oxygen species and cardiotoxic effects 575
- Daunorubicin-chromatin interaction 3379
- Debrisoquine  
   spectral binding by cytochrome P-450 of normal and hydroxylation deficient rat strains 3193
- Decamethonium  
   effect on H12-HTX binding to channel sites of acetylcholine receptor in Torpedo membranes 1819
- Dental pulp  
   monoamine deamination 2739
- 2'-Deoxyadenosine  
   C(2')-substituted, as substrates for erythrocytic adenosine deaminase 1723
- Deoxyadenosine triphosphate  
   accumulation in erythrocytes of deoxycoformycin-treated mice 1545
- Deoxycholic acid  
   hepatic extraction in rats 205  
   uptake by isolated hepatocytes 211
- 2'-Deoxycoformycin  
   effect on action of 8-azaadenosine and formycin on colon carcinoma cells 3207  
   dATP accumulation in erythrocytes of treated mice 1545  
   erythrocyte ATP levels in adenosine deaminase deficiency 947

5-substituted, role of thymidine  
kinase in inhibitory action on  
tumour cell lines 1089, 3673
- Deoxyuridylate synthesis inhibitors  
+ fluorinated pyrimidines, therapeutic  
response of leukemic mice 2929
- Deprenyl  
inhibition of monoamine oxidase in  
brain using mixed substrates 1515  
inhibition of monoamine oxidase in  
liver 3555  
inhibition of synaptosomal accumu-  
lation of dopamine 2195  
insensitive monoamine oxidase in  
brain soluble fraction 3925  
effect on metabolism of dopamine  
released from striatal slices  
2961
- Depression  
alprazolam in a biochemical model of  
3155
- Desipramine  
Desipramine  
interaction with phospholipids 2977  
plasma levels, inhibition of  
5-hydroxytryptamine binding to  
platelets 1661  
N-Desmethyl-chlordiazepoxide  
and ethanol, effect on cyclic  
nucleotide levels in brain 85
- Desmethylimipramine  
increased binding in plasma of  
phenobarbital-treated rats 1749
- Desmethylmisonidazole  
effect of allopurinol on pharmaco-  
kinetics of 3041  
inhibition of glycolysis in  
mammalian cells 2345
- Desoxyfructo-serotonin  
increase in 5-hydroxytryptamine  
level in brain by carotid  
injection 2121
- Deuterium isotope effect  
enzymatic oxidation of dopamine and  
5-hydroxytryptamine 3697
- Development  
cadmium metabolism in rat 1761  
glutathione S-transferase and  
reductase in mouse tissues 2113  
metallothionein synthesis 137  
phenol sulfotransferase in rat  
tissues 849  
thermodynamics of GABA and glutamate  
transport in nerve endings 4039  
toxic effect of chlorisondamine in  
rat liver 1798
- Dexamethasone  
effect on collagen synthesis by  
dermal fibroblasts 1711  
effect on development of cotton  
pellet granuloma 1213  
inhibition of serine proteases 2989  
effect on phenol sulfotransferase  
in rat tissues 849  
effect on pineal  $\beta$ -adrenoceptors in  
sheep 1369  
effect on prostaglandin production  
in inflammatory tissue 2993
- Dextran-alrenolol derivatives  
mapping of  $\beta$ -adrenoreceptors 2071
- Dextran derivatives  
induction of metallothionein in  
liver 3051
- Diabetes  
aldose reductase and the complications  
of 2705  
effect on liver cytochrome P-450  
3329  
streptozotocin induced, effect of  
activators of glucuronyltransferase  
in liver 1944
- Diacetylmonoxime  
effect on malathion-induced changes  
in blood glucose and brain  
glycogen levels 1801
- Diamine oxidase  
increased sensitivity of fluorometric  
assay method 2207
- Diamines  
accumulation in lung slices 3029
- 1,3-Diamino-2-propanol  
effect on benz(a)anthracene induced  
ornithine decarboxylase and aryl-  
hydrocarbon hydroxylase in  
cultured cells 189

- 20,25-Diazacholesterol  
effect on cultured muscle cells 91
- Diazepam  
albumin binding 3781  
anti-hypoxia effects 1197  
binding sites in rat heart and kidney 589  
interaction with human, rat and mouse plasma proteins and erythrocytes 1455
- Diazinon  
separation of impurities in preparations of, effects on porphyrin biosynthesis in tissue culture 1033
- Diazoxide  
induced hair growth, role of androgens 1948  
effect on pancreatic cells 1407
- 6-Diazo-5-oxo-L-norleucine  
effect on 5-phosphoribosyl 1-pyrophosphate in tumour cells in vivo 1509
- Dibekacin  
interaction with Ca binding 3769
- Dibromosulphophthalein  
subcellular distribution in liver and transport rate in isolated hepatocytes, effect of phenobarbital 2539  
transport in hepatocytes, isolated perfused liver and liver in vivo 1553
- Dibucaine  
effect on cytochrome oxidase proteoliposomes 527  
effect on osmotic fragility of liposomes 2999  
promotion of membrane resealing 1784
- Dibutyl adenosine-3',5'-monophosphate  
induced increase in brain stem tryptophan hydroxylase, effect of haloperidol 2203  
potentiation of growth inhibitory effects by homocysteine 979
- 2',5'-Dideoxyadenosine  
binding to brain membranes 3279  
effect on inhibition of platelet aggregation by forskolin plus PGE<sub>1</sub> or 2-fluoroadenosine 3713
- Dichloroacetate  
prolonged hypolactatemia and increased pyruvate dehydrogenase activity 1295, 3124
- Dichlorodiphenyltrichloroethane  
and its analogues, effects on rat liver mitochondria 397  
induction of UDP-glucuronosyltransferase in liver 907  
inhibition of ATPase in lobster nerve role of phospholipids 1483
- 1,2-Dichloroethane  
metabolism by liver, dietary modification 1005
- 1,1-Dichloroethylene  
inhibition of liver endoplasmic reticulum calcium pump function 1463  
metabolism by hepatic microsomal cytochrome P-450 in vitro 2083  
metabolism by liver, dietary modification 1005
- 1,2-Dichloroethylenes  
1,2-Dichloroethylenes  
metabolism by hepatic cytochrome P-450 in vitro 2093  
reactive metabolites and carcinogenicity 1
- Dichloroisoproterenol  
induced lipolytic dose-response curves 721
- 2,6-Dichloro-4-nitrophenol  
effect on harmol glucuronidation 3023  
inhibition of phenolsulphotransferases in human tissues 1893  
pharmacokinetics and characterization of inhibitory effect in sulphate conjugation in the rat 1919
- 2,4-Dichlorophenoxyacetic acid  
effect on kidney mitochondria 149
- Diet  
modification of metabolism and toxicity of chemical substances 1005
- Diethylcarbamazine  
inhibition of leukotriene biosynthesis in mastocytoma cells 2129
- Diethyldithiocarbamate  
hepatotoxicity prevention by H2O2 production, modification of glutathione status and methaemoglobin formation in red blood cells exposed to in vitro 521  
effect on mixed function oxidase system and trace elements in liver 3613
- O,O-Diethyl S-(2-(ethylthio)-ethyl)-phosphorodithioate  
alteration of muscarinic receptors during tolerance 3407
- Di-(2-ethylhexyl)phthalate  
interaction with pharmacological response and metabolism of ethanol in mice 3419
- Diethyl maleate  
effect on biliary excretion rate of infused sulphobromophthalein-glutathione 2669  
effect on distribution and metabolism of 4-ipomeanol in rats 1585
- Diethylstilbestrol  
effect on glutathione S-transferase in brain and liver 3927  
effect on proline transport in mammary carcinomas 37  
selective toxicity 3335
- Difenacoum  
vitamin K antagonism 3635
- DL- $\alpha$ -Difluoromethyl ornithine  
effect on benz(a)anthracene induced ornithine decarboxylase and aryl hydrocarbon hydroxylase in cultured cells 189  
uptake by mouse fibroblasts 2820
- $\alpha$ -Difluoromethylornithine + bleomycin  
therapy of trypanosomiasis, reversal by polyamines 2833
- 5,5-Difluoropentane-1,4-diamine  
inhibition of ornithine decarboxylase 3871
- Digitalis-like factor  
in guinea pig heart, water versus acetone-HCl extraction 267
- Digitoxigenin-3- $\beta$ -glucoside

- Digitoxigenin-3- $\beta$ -glucoside  
3- $\alpha$ -substituted, binding to ouabain  
receptors in heart 2489
- Digitoxigenin monodigitoxoside  
glucuronyltransferase  
in liver 2285
- Digitoxin  
metabolism in hepatocytes, effect  
of spironolactone pretreatment  
2191
- Dihydroalprenolol  
binding in brain, effects of  
reserpine, alprazolam and diazepam  
3155
- binding in erythrocytes 99  
effect of N-ethylmaleimide on  
agonist-mediated conformational  
changes 3657
- binding in heart  
effects of propranolol and  
Ro 03-7894 1325  
effect of thyroid status 2463
- binding in sheep pineal gland, effect  
of steroids 1369
- uptake and displacement in perfused  
lung 1039
- Dihydroergocryptine  
binding to  $\alpha$ -adrenergic receptors of  
human platelets 2591
- binding to parotid membranes 567
- Dihydrofolate reductase  
in human cells, effect of 11-oxo-  
homofolate and its reduced  
derivatives 255
- Dihydrophthalazin-1-ylacetic acid  
diuretic action, inhibition of  
Na<sup>+</sup>K<sup>+</sup>Cl cotransport 2827
- Dihydrotestosterone  
binding to prostate androgen receptor  
effect of histamine H<sub>2</sub> receptor  
antagonists 677
- Dihydroxyacetone phosphate acyltrans-  
ferase  
in liver, effect of clofibrate 1650
- 1,3,4-Dihydroxybenzyl-4-(2-pyrimidyl)-  
piperazine  
effect on ATPases in synaptosomes  
1531
- 1,4-Dihydroxyl-5,8 bis [[2-[(2-hydroxy-  
ethyl)amino]ethyl] amino]-9,10-  
anthracenedione  
compaction of isolated chromatin 1057
- 3',4'-Dihydroxy-2-methyl-propiono-  
phenone  
effects in red blood cells and  
corpus striatum 3415
- 3,4-Dihydroxyphenylacetic acid  
formation by striatal slices, effect  
of monoamine oxidase inhibitors  
2961
- 3',5'-Diiodothyronine  
5'-deiodination in liver 1705
- Diisopropyl phosphorofluoridate  
delayed neurotoxicity, role of  
microtubule-associated precesses  
2065
- Diltiazem  
inhibition of phencyclidine binding  
to crayfish muscle 2549
- (+)-4-Dimethylamino-2- $\alpha$ -dimethylphen-  
ethylamine  
inhibition of monoamine oxidase  
type A in brain 1401
- Dimethylamino-2-ethoxyimino-2-adamantane  
effect on brain cholinergic  
parameters 1693
- N,N-Dimethylaniline  
metabolism by hepatocyte nuclear  
envelope 69
- N,N-Dimethylaniline N-demethylase  
in liver microsomes, effect of  
tranylcypromine 2679
- 7,12-Dimethylbenz(a)anthracene  
induced mammary tumours, effect of  
1,4,6-androstatriene-3,17-dione  
2017
- metabolic activation and inactivation  
2542
- Dimethylcyanamide  
inhibition of aldehyde dehydrogenase  
in vivo 1999
- Dimethylnitrosamine  
hepatotoxicity, protection by  
diethyldithiocarbamate and  
carbon disulphide 2713
- Dimethylnitrosamine demethylase  
in liver microsomes, induction by  
pyrazole 1245
- Dimethylsulfoxide  
effect on 6-hydroxydopamine toxicity  
to neuroblastoma cells 181
- microsomal oxidation 2031
- N,N-Dimethyltryptamine  
and  $\alpha$ , $\alpha$ , $\beta$ , $\beta$ -tetrahydrocannabinol,  
brain levels following intra-  
peritoneal injection 2513
- Dinitranyl  
inhibition of monoamine oxidase A  
2305
- 3,5-Dioxocyclohexanecarboxylic acid  
inactivation of GABA transaminase  
4081
- Dioxygen  
effect on dehalogenation of  
hexachloroethane 391
- Diphenhydramine  
effect on gastric response to  
histamine 3475
- Diphenylhydantoin  
anti-hypoxia effects 1197  
binding to rat liver microsomal  
proteins 1501
- 2,5-Diphenyloxazone  
effect on mixed function oxidase  
activity 3002
- Diphloretin phosphate  
inhibition of prostaglandin  
synthesis and breakdown 969
- Dipyridamole  
effect on ADP-induced platelet  
aggregation and reactivity  
towards prostaglandins 1147
- inhibition of lymphoproliferation  
1381
- 2,2'-Dipyridyl  
effect on mixed function oxidase  
activity 3002
- Disodium chromoglycate  
effect on cytotoxic histamine  
release from mast cells 2247
- Disulfiram  
effect on biogenic aldehyde  
metabolism in brain and liver  
3899
- effect on mixed function oxidase  
system and trace elements in

- Disulfiram(contd.)  
liver 3613
- Disulfoton  
oxidation by FAD-dependent monooxygenase from liver microsomes 745
- Disulphide  
formation in lung following paraquat administration 3243  
in liver, effect of paraquat 1637
- Disulphide bonds  
angiotensin II receptors in adrenal cortex 1903
- Dithiothreitol  
effect on activation of lung guanylate cyclase 1239  
inactivation of angiotensin II receptors in bovine adrenal cortex 1903  
inhibition of cyclooxygenase, effect of peroxide 3307  
effect on spasmogen action on guinea pig ileum 1946
- Diuretics  
inhibition of Na+K+Cl cotransport 2827
- Doberol  
effect on ecto-ATPase in platelets 3122
- Dobutamine  
response of alcoholic rat hearts after cervical fracture or pentobarbital anaesthesia 129
- DOPA  
accumulation in red blood cells and corpus striatum, effect of U-0521 3415  
conjugation with cysteine 2887  
formation in adrenal slices, HPLC-ED methods 1729  
in neuroblastoma N1E-115 cells, effect of  $\alpha$ -methyl-p-tyrosine, apomorphine dopamine or lisuride 1279  
sulphate conjugation of dopamine formed from 3017
- DOPA derivatives  
methylation by catechol-O-methyltransferase 433
- DOPA-melanin  
chloroquine binding 3359
- Dopamine  
in adrenal medulla explants, effect of tetrahydroisoquinolinecarboxylic acids 3251  
effect on ATPases in synaptosomes 1531  
 $\gamma$ -butyrolactone induced increase in brain, effect of haloperidol on action of pergolide and bromocriptine 2199  
carrier-mediated efflux from corpus striatum 2479  
cerebral receptor supersensitivity after repeated administration of sulpiride 325  
deuterium isotope effect on enzymatic oxidation 3697  
inhibition of Na-Ca-ATPase in brain 1454  
inhibition of striatal synaptosomal tyrosine hydroxylase 2643  
metabolism in brain slices, effects of haloperidol and apomorphine 3297
- Dopamine(contd.)  
metabolism in spinal cord, effect of morphine 3141  
effect on prolactin production and regulation 2845  
regulation of synthesis in adrenergic neurones 653  
release by d-amphetamine from striatal synaptosomes of reserpinized rats 1969  
release and catabolism in brain slices, effect of amezinium 2395  
released from striatal slices, role of A and B monoamine oxidases in deamination 2961  
release from striatum induced by amphetamine, fenfluramine and dopamine 983  
solubilized D3 receptors from canine brain 1183  
sulphate conjugation 3017  
synaptosomal accumulation, effect of monoamine oxidase inhibitors 2195  
synthesis in brain slices, effect of precursor pool and K<sup>+</sup> 3289  
synthesis and release from striatal slices, effect of apomorphine 2851  
in urine, tyrosine induced increase 3577
- Dopamine agonists  
action on tyrosine hydroxylase in neuroblastoma N1E-115 cells 1279
- Dopamine antagonists  
tetrahydroisoquinolines 1205
- Dopamine receptor ligand  
2-amino-6,7-dihydroxy-1,2,3,4-tetrahydronaphthalene 1629
- Dopamine receptors  
in brain  
regions 3085  
solubilization 2145  
nomenclature 2563, 2568  
striatal synaptosomal tyrosine hydroxylase activity as model system for 2643  
in striatum  
effect of (-)-N-(chloroethyl)-norapomorphine on apomorphine binding 3693  
protease-sensitive and -insensitive stereospecific binding sites 1343
- Dopaminergic agents  
effect on oxotremorine action on glycine in spinal cord synaptosomes 1013
- Dopaminergic nerve terminals  
autoreceptor-mediated inhibition of transmitter synthesis 2851
- Dopamine O-sulphates  
synthesis and characterization 2279
- Dose-response data  
catecholamine-induced lipolysis, procedure for assaying and manipulating 711, 721, 737
- Drug-oxidation deficient rats  
elevated serum cholesterol 1665
- EDTA-iron chelated  
stimulated reduction of indicine N-oxide 293
- Ehrlich ascites tumour cells

- Ehrlich ascites tumour cells  
inhibition of glycolysis by  
misonidazole 2345  
properties of thymidylate synthetase  
from 217
- 5,8,11,14-Eicosatetraynoic acid  
effect on  $\alpha$ -aminoisobutyric acid  
transport in lymphocytes 337
- Ellipticine  
and derivatives, mutagenicity in  
yeast 2161  
DNA scission in L1210 cells 3261  
enzymatic sequential metabolism to  
radical intermediates 3335  
repair of DNA lesions caused by 1931
- Embryo culture  
effects of ethanol on development  
3641
- $\beta$ -Endorphin  
-like immunoreactivity in sperm and  
accessory sex glands 3519  
secretion from pituitary, effect of  
tetrahydroisoquinolines 1205
- Endotoxin  
effect on tryptophan-induced  
hypoglycaemia 3571
- Energy transduction  
in mitochondria, effects of nitroso-  
chloramphenicol 3823
- Enkephalin  
-like immunoreactivity of sperm and  
accessory sex glands 3519

 in serum of male rats, effect of  
 portocaval anastomosis 499
- Estrogen receptors  
 interaction with drugs that affect  
 prolactin secretion 707  
 mode of action of LN 1643 3187
- Etazolate  
 inhibition of adenosine stimulated  
 cyclic AMP formation in brain  
 vesicle preparations 1441
- Ethacrynic acid  
 inhibition of polymorphonuclear  
 leukocyte functions 443  
 sensitive Mg-ATPase in brain 4077  
 effect of anions 877
- Ethane  
 carbon tetrachloride induced  
 formation in liver microsomes,  
 effect of  $\text{Fe}^{2+}$  597  
 formation by liver microsomes, effect  
 of adriamycin 3147
- Ethanol  
 effect on adenylate cyclase in  
 striatum 3101  
 effect on calcium binding to  
 synaptosomes 1790  
 effect of chronic administration on  
 cytochrome P-448 and P-450-  
 mediated drug metabolism 695  
 effect of chronic administration on  
 $\gamma$ -glutamyltransferase in liver,  
 role of carbohydrates 3751  
 effect of chronic administration on  
 liver plasma membrane enzymes 377  
 effect of chronic administration on  
 membrane lipids in mice 3431  
 effect of chronic administration on  
 protein synthesis on membrane-  
 bound polysomes 2059  
 correlation between oxidation and  
 hydroxyl radical generation by  
 liver, lung and kidney microsomes  
 2031  
 cyanamide interaction 1999  
 effect on dobutamine response of  
 rat heart 129  
 effect on fatty acid composition of  
 muscle phospholipids 2447  
 effect on hepatic mixed function  
 oxidases 1621  
 effect on initial fatty acid  
 oxidation 2119  
 involvement of hydrogen shuttle  
 capacity in hepatic oxidation 2733  
 liquid diet animal models of  
 alcoholism 2447  
 metabolic tolerance as related to  
 initial rates of metabolism 3140  
 metabolism in mice, effect of  
 di-(2-ethylhexyl)phthalate 3419  
 metabolism in rats, effect of
- Ethanol(contd.)  
 propylthiouracil 2403  
 effect on phospholipid methylation  
 in synaptosomal membranes 3936  
 effect on rat embryos developing  
in vitro 3641  
 effect on thermodynamics of GABA and  
 glutamate transport in nerve  
 endings 4039  
 effect on tumour folate supply 1461
- Ethanol/chlordiazepoxide  
 effect on brain cyclic nucleotide  
 levels 85
- Ethanolamine O-sulphate  
 anticonvulsant and biochemical  
 effects in mice 837
- Ethidium bromide-chromatin interaction  
 3379
- Ethosuximide  
 effect on  $\gamma$ -hydroxybutyrate and  
 GABA in brain 3917
- 7-Ethoxycoumarin  
O-deethylation by isolated lung  
 cells 3549  
O-deethylation by liver microsomes,  
 effect of ammonium m-vanadate  
 1458
- 7-Ethoxycoumarin O-deethylase  
 in hepatocytes, effect of culture  
 conditions 2141  
 in intestinal cells, induction by  
 3-methylcholanthrene and  
 arochlor 1254 3707  
 in rat and hairless mouse skin  
 microsomes 4011  
 in rat and hairless mouse skin strips  
 4005

 effect of adjuvant and bee venom  
 1139  
 induction by octachlorostyrene in  
 inbred strains of mice 2523  
 effect of portocaval anastomosis  
 499
- O-Ethyl O-4-nitrophenyl phenyl-  
 phosphonothioate  
 metabolism by rat and chicken liver  
 microsomes 1961
- Exocytosis  
 in polymorphonuclear leukocytes,  
 effect of ethacrynic acid 443
- Fasting  
 effect on sulfation and glucuronidat-  
 ion in rat in vivo 1941
- Fat

- Fat**  
 dietary, effect on liver mixed function oxidase activity 1005
- Fat cells**  
 effect of  $N^6$ -methyladenosine on glucose metabolism 3961  
 effect of tolbutamide on insulin binding 1227
- Fatty acids**  
 binding to serum albumin, chain length dependency 4019  
 effects of clofibrate and ethanol on pathways of initial oxidation 2119  
 consumption in relation to malondialdehyde production during lipid peroxidation 1393  
 mono-unsaturated C18, effect on ATPases 867  
 in plasma of alloxan-diabetic rats, effect of antilipolytic agents 63  
 in plasma membranes, effect of chronic ethanol administration 3431  
 synthesis in vivo, effect of Rowachol 2897  
 effect on thermodynamics of GABA and glutamate transport in nerve endings 4039
- Fenfluramine**  
 induced release of dopamine from corpus striatum 983
- Ferredoxin-NADP<sup>+</sup> oxidoreductase**  
 reduction of nitrofurantoin 3723
- Ferrochelatase**  
 formation of cobalt protoporphyrin 993
- Fetal Alcohol Syndrome**  
 effect of ethanol on rat embryos developing in vitro 3641
- Fetus**  
 human, drug metabolizing enzymes in cultured hepatocytes 2427  
 stump-tailed monkey, hydroxylation of hexobarbital and benzo(a)pyrene by liver microsomes 1150
- Fibrinolysis**  
 repression in scalded rats by Serratia protease 2861
- Fibroblasts**  
 effect of (+)-cyanidanol-3 on collagen synthesis 3681  
 effect of glucocorticoids on collagen synthesis 1711  
 effects of hydrocortisone and aspirin on protein synthesis and modification 2047  
 lung, stimulation of PGE<sub>2</sub> synthesis by  $\Delta^1$ -tetrahydrocannabinol 2361  
 SV-3T3,  $\alpha$ -difluoromethylornithine uptake 2820
- Flavine adenosine dinucleotide**  
 formation in heart, inhibition by chlorpromazine, imipramine and amitriptyline 3495
- Falavine adenine dinucleotide-dependent monooxygenase**  
 in liver microsomes, sulfoxidation of thioether-containing pesticides 745
- Flavones**  
 effect on paracetamol toxicity in hepatocytes 3745
- Flavonoids**
- Flavonoids**  
 effect on antigen-induced histamine release from human basophils 1449  
 inhibition of lens aldose reductases 3807  
 inhibition of protein kinases 1357
- Flufenamic acid**  
 inhibition of prostaglandin synthesis and breakdown 969
- Flunitrazepam**  
 interaction with benzodiazepine receptor in brain 2761
- N-2-Fluorenylacetamide**  
 hydroxylation by mammary gland 239
- Fluoride**  
 stimulation of adenylate cyclase in erythrocytes 843
- Fluorinated pyrimidines + inhibitors of deoxyuridylate synthesis**  
 response of leukemic mice 2929
- 2-Fluoroadenosine**  
 plus forskolin, synergistic inhibition of platelet aggregation 3713
- 1- $\beta$ -D-2'-Fluoroarabino-5-iodocytosine**  
 metabolism in normal and herpes simplex type 1 virus-infected cells 767  
 metabolite incorporation into DNA of neoplastic and normal tissues 1103
- 5-Fluorodeoxyuridine**  
 effect on deoxynucleotide pools in human lymphocytes 3107
- $\alpha$ -Fluoromethylhistidine**  
 effect on histamine levels in mouse tissues 2367
- 5-Fluoropentane-1,4-diamine**  
 inhibition of ornithine decarboxylase 3871
- 5-Fluorouracil**  
 activation in Novikoff hepatoma cells 2841  
 antitumour activity in murine colonic adenocarcinomas, phosphoribosyl pyrophosphate pool size as a determinant of 1989  
 formation from ftorafur 3006  
 inhibition of galactosyltransferase from ovarian tumour tissues and serum 459  
 + guanazole, therapeutic response of leukemic mice 2929
- Fluorouracil phosphoribosyltransferase**  
 in human colorectal adenocarcinomas 2485
- Fluotetine**  
 displacement of Ca<sup>2+</sup> bound to synaptosomal membranes 1787
- Fluphenazine**  
 effect on catecholamine metabolism in brain slices 3297  
 effect on depolarization induced activation of tryptophan hydroxylase 2495  
 interaction with phospholipids 2979
- Flurbiprofen**  
 inhibition of cyclooxygenase, effect of peroxide 3307  
 inhibition of prostaglandin synthesis and breakdown 969
- Folate**  
 in fibrosarcoma, effect of alcohol 1461

- Formycin  
   effect on human colon carcinoma cells 3207
- N-Formyl-methionyl-leucyl-phenylalanine  
   chemokinetic activity on human neutrophils, modulation by phenylbutazone 3071
- Forskolin  
   effect on platelet aggregation and on adenylate cyclase in platelets 4071  
   plus PGE<sub>1</sub> or 2-fluoroadenosine, synergistic inhibition of platelet aggregation 3713
- Framycetin  
   interaction with Ca binding 3769
- Free radicals  
   role in drug action and toxicity 3335
- Fructose  
   protection against alloxan cytotoxicity in hepatocytes 3731
- Fructose 6-phosphatase  
   in testes, prostate and epididymus, effect of  $\Delta^9$ -tetrahydrocannabinol 415
- Fructose 6-phosphate  
   in heart of alloxan-diabetic rats, effect of antilipolytic agents 63
- Ftorafur  
   metabolic activation 3006
- Furosemide  
   hepatotoxicity, protection by diethyl-dithiocarbamate and carbon disulphide 2713  
   modification of renal clearance of cisplatin 2243
- $\beta$ -Galactosidase  
   release from liver lysosomes induced by ischaemia, prevention by chlorpromazine 1167
- Galactosyltransferase  
   in ovarian tumour tissues and serum, inhibition by 5-fluorouracil 459
- Gallamine  
   competitive interaction with multiple muscarinic receptors 873
- Gastric secretion  
   effects of pentagastrin, histamine, carbamylcholine and catecholamines 3475
- Gastrointestinal mucosa  
   effect of practolol on glycoprotein synthesis 2263
- Gentamicin  
   induced phospholipidosis 3861  
   interaction with Ca binding 3769  
   effect on kidney lysosomes 3447
- Giardia lamblia  
   effect of oxygen tension and reducing agents on sensitivity to metronidazole 3694
- Glibenclamide  
   receptors in brain and  $\beta$ -cell tumour 1171
- Glioma cells C6  
   photoaffinity labelling of  $\beta$ -adrenergic receptors 2879
- Gliquidone  
   receptors in brain and  $\beta$ -cell tumour 1171
- Glucocorticoid-corticotropin system  
   involvement in renal kallikrein regulation 3941
- Glucocorticoids  
   effect on collagen synthesis by mouse dermal fibroblasts 1711  
   effect on pineal  $\beta$ -adrenoceptors in sheep 1369  
   regulation of phenol sulfotransferases in rat tissues 849  
   role in hypertension 893
- Gluconeogenesis  
   in hepatocytes, tryptophan sensitivity 3563, 3571  
   in kidney tubules, effect of  $\alpha$ -adrenergic agonists 2331
- Glucosamine  
   incorporation into glycoproteins in liver, effect of cycloheximide 2123
- Glucose  
   in blood, effect of diacetyl-monoxime and atropine on malathion induced changes in 1801  
   competitive inhibition of transport in human erythrocytes 1925  
   exit from erythrocytes, effects of chlorpromazine 463  
   metabolism in fat cells, effect of N<sup>6</sup>-methyladenosine 3961  
   metabolism in rats, effect of lithium 1025  
   protection against alloxan cytotoxicity in hepatocytes 3731  
   oxidation in adipocytes, effects of insulin, proinsulin and nerve growth factor 3163  
   utilization by mammalian cells, effect of misonidazole 2345
- Glucose-1,6-diphosphate  
   in muscle, brain and liver, effect of lithium 1025
- Glucose 6-phosphate  
   in heart of alloxan-diabetic rats, effect of antilipolytic agents 63
- Glucose 6-phosphate dehydrogenase  
   in liver, effect of trans-stilbene oxide 1717
- $\alpha$ -Glucosidase  
   in honeybee haemolymph, inhibition by BAYe 4609, BAYg 5421 and BAYn 5595 2769  
   in testes, prostate and epididymus, effect of  $\Delta^9$ -tetrahydrocannabinol 415
- $\beta$ -Glucuronidase  
   in liver, in vivo effects of chloramphenicol and thiamphenicol 55  
   release from PMN after phagocytosis of urate crystals, effect of indomethacin and Tropesin 460  
   in testes, prostate and epididymus, effect of  $\Delta^9$ -tetrahydrocannabinol 415
- $\beta$ -Glucuronidase-resistant glucuronides  
   formation by intramolecular rearrangement of glucuronic acid conjugates at mild alkaline pH 953
- Glucuronidation  
   of digitoxigenin monodigitoxoside in liver 2285

- Glucuronidation(contd.)  
 of harmol in rat  
   effect of fasting 1941  
   effect of inhibition of sulfation 3023  
 in hepatocytes from butylated hydroxyanisole-treated mice 1907  
 by intestinal microsomes 2701
- Glucuronides  
 intramolecular rearrangement 953
- Glutamate  
 release from brain following application of verruculogen 2807  
 role in seizures 3144  
 transport in nerve endings, effects of fatty acids, ethanol and development 4039
- Glutamate decarboxylase  
 in brain  
   Ca<sup>2+</sup>-stimulation 882  
   ethanolamine-O-sulphate pretreated rats and mice, effect of sodium valproate 2257  
   effect of GABA transaminase inhibitors 837
- Glutamate dehydrogenase  
 in brain, effect of haloperidol in vivo 1446  
 in liver, effect of zinc 1289
- Glutamate diethyl ester  
 effect in delaying onset of convulsions induced by pentylenetetrazol and strychnine 3144
- Glutamate pyruvic transaminase  
 in serum  
   effect of glutathione depleting drugs 1829  
   effect of hypoxia on carbon tetrachloride hepatotoxicity 3787
- Glutamine  
 metabolism by kidney cortex tubules, effect of 3-aminopicolinate 3689
- Glutamine antagonists  
 effect on 5-phosphoribosyl 1-pyrophosphate levels in P388 leukemia and murine colon adenocarcinomas in vivo 1509
- γ-L-Glutaminyl-4-hydroxybenzene  
 selective toxicity 3335
- γ-Glutamylcysteine synthetase  
 in kidney, effect of mercuric chloride 3093  
 in liver, inhibition by chloroform 3510
- γ-Glutamyltransferase  
 in serum and liver, effect of chronic alcohol consumption 377, 3751
- γ-Glutamyl transpeptidase  
 in kidney  
   inhibition by acetazolamide 3347  
   effect of mercuric chloride 3093
- Glutathione  
 activation of methotrexate uptake by hepatocytes 1911  
 in adipocytes, effects of insulin, proinsulin and nerve growth factor 3163  
 conjugation of 7-hydroxymethyl-12-methylbenz(a)anthracene via a sulphate ester in hepatic cytosol 2542  
 dependent reductase dehalogenation of 2,2',4'-trichloroacetophenone 3885
- Glutathione(contd.)  
 in kidney after intravenous administration of free and liposomally entrapped glutathione 3607  
 in liver  
   after intravenous administration of free and liposomally entrapped glutathione 3607  
   butylated hydroxyanisole-treated mice 1907  
   effect of cytochrome P-450 complexing drugs 1829  
 in lung following paraquat administration 3243  
 protection against lipid peroxidation induced by ascorbate and iron in rat liver microsomes 601  
 protection against paracetamol-induced liver necrosis 3601  
 reduction in content of L-phenylalanine mustard resistant L1210 cells confers sensitivity 121  
 role in 3-methylindole pneumotoxicity 1765  
 role in organ distribution and cellular uptake of methylmercury in rats 685  
 role in pulmonary toxicity of 4-ipomeanol 1579, 1585  
 effect on sensitivity of *Giardia lamblia* to metronidazole 3694  
 in spleen after intravenous administration of free and liposomally entrapped glutathione 3607  
 status in perfused liver, effect of paraquat 1637  
 status in red blood cells exposed to diethyldithiocarbamate 521  
 synthesis in liver, effect of chloroform 3510
- Glutathione disulphide  
 in liver, effect of paraquat 1637
- Glutathione disulphide reductase  
 in kidney, effect of mercuric chloride 3093
- Glutathione peroxidase  
 effect on inhibitory effectiveness of anti-cyclooxygenase agents 3307  
 in kidney, effect of mercuric chloride 3093  
 in liver, selenium and non-selenium dependent 2873  
 in neuroblastoma SY5Y, A1B1 glial cells and CHO fibroblasts 181
- Glutathione reductase  
 in mouse tissues as a function of age 2113
- Glutathione-sulfobromophthalein  
 biliary excretion rate, effect of diethyl maleate 2669
- Glutathione S-transferase  
 in brain, regulation by sex hormones 3927  
 in liver  
   effect of neonatal administration of o,p'-DDT and methoxychlor 647  
   Northern pike 1491  
   regulation by sex hormones 2389, 3927  
   relationship with aflatoxin B1 toxicity in male and female rats 3057  
 in mouse tissues with age 2113

- Glutathione S-transferase(contd.)  
in neuroblastoma SY5Y, A1B1 glial  
cells and CHO fibroblasts 181
- Glycerides  
synthesis in retina, effect of  
propranolol and phentolamine 1049
- Glycerolipids  
synthesis in brain, role of aldehyde  
reductase 2307  
synthesis in liver, effect of  
clofibrate on enzymes involved in  
1650
- Glycerol phosphate acyltransferase  
in liver, effect of clofibrate 1650
- Glycine  
incorporation into cardiac heme 761  
in spinal cord, effect of oxotremorine  
on subcellular distribution 1013
- Glycocholic acid  
hepatic extraction in rats 205  
uptake by isolated hepatocytes 211
- Glycogen  
in brain, effect of diacetylmonoxime  
and atropine on malathion-induced  
changes 1801
- Glycolysis  
inhibition by misonidazole 2345
- Glycoproteins  
in liver, effect of cycloheximide on  
glucosamine incorporation 2123  
synthesis in gastrointestinal mucosa,  
effect of practolol 2263
- Gold thiomalate  
binding to metallothioneins in liver  
and kidney, effect of zinc and  
copper pretreatment 2153  
effect on human neutrophil function  
671
- GP53,633  
protein binding 3737
- Granulocytes  
cytotaxin-induced cyclic AMP peak in  
relationship to crawling movements,  
chemokinesis and chemotaxis 1573
- Granuloma  
cotton pellet, effect of dexamethasone  
and indomethacin on development  
1213
- Green pigments  
produced by norethindrone, biliary  
excretion 1337
- Guanazole + 5-fluorouracil  
therapeutic response of leukemic mice 2929
- Guanfacine  
binding to brain  $\alpha$ -adrenoceptors 899  
metabolism by cultured human fetal  
hepatocytes 2427
- Guanine nucleotides  
dependent adenylate cyclase in  
erythrocytes 2783  
in P388 leukemia cells, effect of  
2- $\beta$ -D-ribofuranosylthiazole-4-  
carboxamide 3839
- Guanosine diphosphate  
phosphorylating enzymes in Vero cells  
phosphorylation of acyclovir 3879
- Guanosine-3',5'-monophosphate  
in brain, effect of chlordiazepoxide  
and ethanol 85  
in liver, action of clonidine and  
adrenergic agonists and antagonists  
3684
- Guanosine-3',5'-monophosphate(contd.)  
metabolism in lung, effects of  
nitric oxide, noradrenaline,  
pyruvate and t-butylhydroxy-  
peroxide 3847  
in PMN after phagocytosis of urate  
crystals, effects of indomethacin  
and Tropesin 460
- Guanosine monophosphate reductase  
from *Leishmania donovani*, possible  
therapeutic target 3891
- Guanosine monophosphate synthetase  
in hepatoma cells, effect of acivicin  
3469
- Guanosine triphosphate  
depletion in inherited purine  
nucleoside phosphorylase  
deficiency 941
- Guanylate cyclase  
in cultured muscle cells, effect of  
20,25-diazacholesterol 91  
in intestine, inhibition of *E.coli*  
enterotoxin effects by quinacrine  
2005  
in lung, oxidative modulation by  
nitric acid and N-methyl-N'-  
nitro-N-nitrosoguanidine 1239
- Gunn rats  
microsomal enzyme deficiencies in  
1792
- Gut microflora  
role in reduction of sulphinpyrazone  
in the rat 2649
- Habu snake venom  
inhibition of hepatic microsomal  
drug-metabolizing enzymes 2039
- Hair growth  
mechanism for effects of diazoxide,  
phenytoin and minoxidil 1948
- 4-Halobiphenyls  
cytochrome P-450 mediated metabolism  
in liver 1849
- 3-(2-Haloethyl)aryltriazenes  
action on DNA 1257
- Haloethylenes  
reactive metabolites and carcino-  
genicity 1
- Halogenated alkanes  
reductive metabolism by liver  
microsomal cytochrome P-450 391
- $\alpha$ -Haloketones  
reduction 3885
- Haloperidol  
effect on ability of pergolide and  
bromocriptine to antagonize the  
 $\gamma$ -butyrolactone induced increase  
in brain dopamine 2199  
effect on ATPases in synaptosomes  
1531  
binding to striatal membranes,  
effect of proteolytic enzymes and  
monovalent cations 1343  
effect on brain choline and acetyl-  
choline metabolism following  
icv injection of choline 1599  
effect on catecholamine metabolism  
in brain slices 3297  
cerebral dopamine receptor sensitivity  
after repeated administration 325  
effect on depolarization induced  
activation of tryptophan

- Haloperidol(contd.)  
 hydroxylase 2495  
 effect on dibutyryl cyclic AMP  
 induced increase in tryptophan  
 hydroxylase in brain stem 2203  
in vivo effect on glutamate dehydrogenase 1446  
 effect on tyrosine hydroxylase in brain 2599
- Halothane  
 effect on 5-hydroxytryptamine uptake by lung 353  
 mechanism of reductive dehalogenation 383
- Harmol  
 conjugation in hepatocytes, effect of butylated hydroxyanisole 1907  
 conjugation in rats in vivo  
 effect of 2,6-dichloro-4-nitrophenol 1919  
 effect of fasting 1941  
 dependence of rate of sulphation on plasma concentration of inorganic sulphate 3997  
 kinetics of sulfation and glucuronidation 3023  
 sulphate conjugation in liver and extrahepatic tissues 4001
- Heart  
 effect of adriamycin on chromatin 973  
 adriamycin-mediated inhibition of creatine phosphokinase binding to mitochondrial membranes 109  
 alcoholic rats, response to dobutamine 129  
 alprenolol-dextran mapping of  $\alpha$ -adrenoreceptors 2071  
 anthracycline toxicity 575  
 effect of antilipolytic agents in alloxan-diabetic rats 63  
 binding of a 3- $\alpha$ -methylated digitoxigenin-glucoside to ouabain receptors 2489  
 carbachol stimulated phosphatidyl-inositol effect 3130  
 clorgyline-resistant amine oxidases in 27  
 inhibition by benserazide 1417  
 comparison of effects of Ro03-7894 and propranolol 1325  
 conversion of allylamine to acrolein 509  
 diazepam binding sites 589  
 extraction of digitalis-like factor 267  
 fate of anazinium 1075  
 heme synthesis in 761  
 inhibition of phosphodiesterases in nuclear fraction 665  
 isolation and separation of heme a and heme b by thin layer chromatography 884  
 effect of isoproterenol on adenylate cyclase activity 347  
 effects of niridazole and 5-nitroimidazoles on mitochondrial respiration 3703  
 effect of oxaprotiline on noradrenaline uptake 2169  
 effect of ouabain on rapidly-exchangeable calcium 2471  
 selective inhibition of cyclic
- Heart(contd.)  
 nucleotide phosphodiesterases by butenolide derivatives 3353  
 effect of taurine on calcium levels and contractility in ventricular strips 3181  
 effect of tricyclic antidepressants on riboflavin metabolism 3495  
 effect of vanadium on force of contraction, adenylate cyclase and ATPase 3853
- H-4-II-E cells  
 ornithine decarboxylase and aryl hydrocarbon hydroxylase induction in 189
- HeLa cells  
 enhancement of nitrosourea cytotoxicity using hydrocortisone 1179  
 ornithine decarboxylase and aryl-hydrocarbon hydroxylase induction in 189
- Heme  
 in chick embryo liver cells, effect of propranolol 485  
 isolation of a and b from cardiac tissue 884  
 metabolism in liver of adjuvant treated rats, effect of bee venom 1139  
 synthesis in heart 761  
 synthesis in testes  
 effect of estradiol 3667  
 effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin 3663
- Heme oxygenase  
 in liver microsomes  
 effect of ascorbic acid 1591  
 tumour bearing rats 1535
- Heme proteins  
 in liver microsomes  
 effect of ascorbic acid 1591  
 tumour bearing rats 1535
- Hepatectomy  
 effect on phenylalanine, tyrosine and tryptophan hydroxylases in liver 1521
- Hepatocyte/mastocytoma system  
 inhibition of metabolism-mediated toxicity of cyclophosphamide by hydrazines 2921
- Hepatocyte monolayers  
<sup>14</sup>CO<sub>2</sub> trapping method for studying drug metabolism 1803
- Hepatocyte plasma membrane  
 transport of quaternary ammonium compounds 1431
- Hepatocytes  
 adrenaline inhibition of protein synthesis 1656  
 alloxan toxicity and protection by sugars 3731  
 chick embryo, cobalt protoporphyrin formation 993  
 effects of chlorpromazine 491  
 effect of culture conditions on cytochrome P-450linked drug metabolizing enzymes 2141  
 decrease of phenylalanine hydroxylase during proliferation 1521  
 drug transport in 1553  
 elevation of conjugation capacity in butylated hydroxyanisole-treated

- Hepatocytes(contd.)  
 mice 1907  
 human fetus, presence of phase I and II drug metabolizing enzymes 2427  
 increases in cytochrome P-450 mediated by 3- and 4-carbon alcohols 2811  
 long term maintenance and induction of cytochrome P-450 1175, 2211  
 measurement of lipid peroxidation in 19  
 membrane damage in porphyria cutanea tarda 11  
 methotrexate uptake, effect of glutathione 1941  
 effect of metryapone and nicotinamide on cytochrome P-450 concentration and function 1735  
 mixed function amine oxidase in nuclear envelope 69  
 paracetamol metabolism and toxicity 3745  
 phosphatidic acid formation in 2663  
 effect of spironolactone on digitoxin metabolism 2191  
 tamoxifen metabolism 2823  
 uptake of bile acids 211
- Hepatomas  
 effects of acivicin 927, 3469  
 activity of aldehyde-metabolizing enzymes in 1153
- Herpes simplex type 1 infected cells  
 1- $\beta$ -D-2'-fluoroarabino-5-iodocytosine metabolism in 767
- Herpes simplex virus infected Vero cells  
 acyclovir phosphorylation 3879
- Hexachlorobenzene  
 induction of hepatic cytochrome P-450 in inbred strains of mice 2523  
 membrane damage in porphyria 11  
 sex differences in metabolism by rats, development of porphyria in females 3543
- Hexachloroethane  
 reductive metabolism by microsomal cytochrome P-450 391
- Hexamethylmelamine  
 metabolism in mice 625
- Hexobarbital  
 effect on GABA binding to synaptosomal membranes 2891  
 hydroxylation by liver microsomes from fetal stump-tailed monkey 1150  
 sleeping time, effect of RJ 1991
- Hexobarbitone  
 effect on lipid peroxidase in liver microsomes 1823
- Hexosaminidase  
 secretion by mononuclear phagocytes, effect of weak bases 2657
- Hexose-6-phosphate dehydrogenase  
 in liver microsomes, NADPH generation and utilization in monooxygenase reactions 1131
- Histamine  
 antigen-induced release from human basophils, effect of flavonoids and transitional metal ions 1449  
 binding to mucosal cells from guinea pig stomach, effect of LSD 2676  
 in brain, effect of pargyline 4074  
 effect of dithiothreitol on spasmogenic action in ileum 1946
- Histamine(contd.)  
 effect on gastric secretion, motility and emptying 3475  
 in mouse tissues, effect of  $\alpha$ -fluoromethylhistidine 2367  
 in mouse tissues following lipopolysaccharide injection 1643  
 release from mast cells induced by surfactants, effect of disodium chromoglycate and cyclic AMP active drugs 2247  
 release by RBL-2H3 cells, inhibition by 5'-deoxy-5'-isobutylthio-3-deazaadenosine 2111  
 synthesis in intact and disrupted mast cells 1189  
 tissue distribution in mutant mice deficient in mast cells 305  
 in synchronized mastocytoma P-815 cells 173
- Histamine analogues  
 as substrates for histamine N-methyltransferase 2297
- Histamine H2 receptor  
 in renal glomeruli 367
- Histamine H2 receptor antagonists  
 antiandrogenic activity 677
- Histamine N-methyltransferase  
 in brain, side-chain modified histamine analogues as substrates 2297
- Histidine  
 decarboxylation in intact and disrupted mast cells 1189
- Histidine decarboxylase  
 induction in mice by injection of *E.coli* lipopolysaccharide 1643  
 in mouse tissues, effects of  $\alpha$ -fluoromethylhistidine 2367  
 in synchronized mastocytoma P-815 cells 173
- Homocysteine  
 potentiation of growth inhibitory effects of cyclic AMP analogues 979
- Homocystinaemia  
 after 6-azauridine triacetate administration 4089
- Homofolate  
 effect on dihydrofolate reductase in human cells 255
- Homohistamine  
 as substrate for histamine N-methyltransferase 2297
- Homovanillic acid  
 formation by striatal slices, effect of monoamine oxidase inhibitors 2961  
 in prefrontal cortex and striatum, effect of LSD 4093
- Honeybee  
 inhibition of haemolymph  $\alpha$ -glucosidase 2769
- Honeybee venom  
 effect on adjuvant-induced arthritis and depression of drug metabolism in the rat 1139
- Horse  
 novel metabolites of benzoic acid in urine 3225
- Human embryo cells  
 ornithine decarboxylase and aryl hydrocarbon hydroxylase in 189

- Hydrazines  
inhibition of benzylamine oxidase and monoamine oxidase 825  
inhibition of metabolism-mediated cytotoxicity 2921
- Hydrocortisone  
enhancement of nitrosourea toxicity 1179  
effect on protein modification in cultured cells 2047
- Hydrogen bonding  
possible role in benzodiazepine-receptor interactions 889
- Hydrogen peroxide  
production and metabolism in adipocytes, effects of nerve growth factor and proinsulin 3163  
production in red blood cells exposed to diethyldithiocarbamate 521  
role in methanol oxidation by microsomes 329  
toxic effects on cultured cells 181
- N-Hydroxyamphetamine  
conversion to phenylacetone oxime by rat liver microsomes 105
- 4-Hydroxyandrostene-3,17-dione  
synthesis and metabolism in the rat 701
- 2-(4'-Hydroxybenzeneazo)benzoic acid  
effect of uraemic metabolites on binding with HSA 319
- $\gamma$ -Hydroxybutyric acid  
relation to GABA in brain 3917
- 7-Hydroxycoumarin  
metabolism by rat and hairless mouse skin strips 4005
- 7-Hydroxycoumarin-UDP-glucuronyltransferase  
in intestinal and hepatic microsomes 2701
- 6-Hydroxydopamine  
effect on clonidine binding in kidney 583  
selective toxicity 3335  
toxicity to neuroblastoma line SY5Y, participation of active oxygen species 181
- Hydroxyeicosatetraenoic acids  
effect on lipoxygenases in leukocytes and platelets 3463
- 1-(2-Hydroxyethyl)-2-methyl-5-aminoimidazole  
synthesis 2689
- 5-Hydroxyindoleacetic acid  
in prefrontal cortex and striatum, effect of LSD 4093
- Hydroxyindole-O-methyltransferase  
in pineal gland, effect of benserazide 2251
- Hydroxyl radicals  
correlation between generation and ethanol oxidation by liver, lung and kidney microsomes 2031  
generation by anticancer quinone drugs in the presence of NADPH cytochrome P-450 reductase 3651
- Hydroxymalonatodiammine platinum II  
antitumour selectivity and DNA interaction 2273
- N-Hydroxymethyl compounds  
formation and metabolism 3621
- S-3-Hydroxy-3-methylglutaryl-CoA reductase  
S-3-Hydroxy-3-methylglutaryl-CoA reductase  
in liver, inhibition by cyclic monoterpenes 2897  
in liver, stimulation by o,p'-DDD 857
- 7-Hydroxymethyl-12-methylbenz(a)-anthracene  
conjugation with glutathione via a sulphate ester in hepatic cytosol 2542
- 6-Hydroxy-1-methyl-1,2,3,4-tetrahydro-carboline  
measurement by gas chromatography-mass spectrometry 2517
- 3-Hydroxy-3-phenylpropionic acid methyl ester  
in horse urine 3225
- 5-Hydroxytryptamine  
binding to rat platelets as a system to evaluate tricyclic antidepressants in plasma 1661  
in brain  
increase after carotid injection of desoxyfructo-serotonin in mice 2121  
effect of thyroliberin analogue CG 3703 2430  
deamination by monoamine oxidase type A 4061  
deamination by a semicarbazide sensitive amine oxidase in dental pulp 2739  
deuterium isotope effect on enzymatic oxidation 3697  
displacement of Ca<sup>2+</sup> bound to synaptosomal membranes 1787  
induced shape change in platelets, effect of ketanserin 3000  
K<sup>+</sup>-evoked release from rat cortex slices, effect of agonists and antagonists 49  
in pineal gland, effect of benserazide 2251  
release and catabolism in brain slices, effect of amezinium 2395  
sensitive aryl acylamidase activity of platelet acetylcholinesterase 2319  
uptake by brain, effect of oxaprotiline 2169  
uptake by chromaffin granules 815  
uptake by perfused lung  
effect of trichloroethylene and halothane 353  
effect of zimelidine 3116  
uptake by platelets  
effect of cannabinoids 439  
effect of ketanserin 3000  
uptake by synaptosomes, effect of tramadol 1654
- 5-Hydroxytryptamine autoreceptor  
in frontal cortex 49
- 5-Hydroxytryptamine receptors  
in brain, solubilization 2145
- Hydroxyurea  
effect on deoxynucleotide pools in human lymphocytes 3107
- Hyperactivity  
interaction between lead and catecholaminergic function 3717
- Hypertension  
Na<sup>+</sup>,K<sup>+</sup>-ATPase in brain 1156

- Hypertension(contd.)  
 natriuretic hormone 3159  
 role of steroids 893
- Hypertrichosis  
 produced by diazoxide, phenytoin and minoxidil, importance of androgens 1948
- Hypoglycaemia  
 tryptophan induced 3563, 3571
- Hypothermia  
 mechanism for drug-induced resistance to hypoxia 1197  
 prevention by chlorpromazine of lysosomal enzyme release 1167
- Hypoxanthine  
 metabolism in erythrocytes from PNP deficient child 941  
 metabolism in Leishmania donovani 231
- Hypoxia  
 acetylcholine release from brain slices 111  
 effect on carbon tetrachloride hepatotoxicity 3787  
 effect on conversion of angiotensin I to II in isolated perfused lung 1375  
 drug-induced resistance, hypothermia as a mechanism for 1197
- Hypoxic cell radiosensitizers  
 in cancer chemotherapy 2439
- Hypoxic lung fibroblasts  
 misonidazole metabolism by 411
- Ibuprofen  
 inhibition of cyclooxygenase, effect of peroxide 3307  
 inhibition of prostaglandin synthesis and breakdown 969  
 effect on phorbol stimulation of oxygen consumption and superoxide production by pulmonary macrophages 775
- Ileum  
 effect of 1,4-dithiothreitol on spasmogen action 1946
- Imidazolidinone analogues  
 effect on phosphodiesterases in cardiac nuclear fraction 665
- Imipramine  
 binding to calmodulin 419  
 inhibition of FAD formation in heart 3495  
 plasma levels, inhibition of 5-hydroxytryptamine binding to platelets 1661
- 1H-Imiazolo(4,5-b(c))pyridine  
 effect on mixed function oxidase activity 3002
- Immunodeficiency  
 adenosine deaminase deficiency 947
- Immunosuppression  
 methotrexate-induced, reversal by citrovorum factor 1387
- Indicine N-oxide  
 iron-EDTA stimulated reduction 293
- Indocyanine green  
 effect of acute renal failure on pharmacokinetics of 2531
- Indomethacin  
 effect on  $\alpha$ -aminoisobutyric acid transport in lymphocytes 337  
 effect on collagen induced platelet aggregation and thromboxane B2
- Indomethacin(contd.)  
 production 1158  
 effect on cyclooxygenase metabolite production in sensitized lung 2381  
 effect on development of cotton pellet granuloma 1213  
 inhibition of cyclooxygenase, effect of peroxide 3307  
 inhibition of prostaglandin synthesis and breakdown 969  
 effect on lysosomal enzyme release from PMN and level of cyclic AMP and cyclic GMP after phagocytosis of urate crystals 460
- Indoxyl sulphate  
 effect on binding of drugs and dyes to human albumin 319
- Inflammation  
 phospholipase A2 activity in 2993  
 effect of systemic prostaglandin treatment 3126
- Inosine  
 metabolism in erythrocytes from PNP deficient child 941
- Inosine monophosphate analogues  
 inhibition of GMP reductase from Leishmania donovani 3891
- Inosine monophosphate dehydrogenase  
 inhibition by thiazole carboxamide analogue of NAD 2133  
 in leukemia P388 cells, inhibition by thiazole riboside 2371,3839
- Insulin  
 binding to isolated fat cells, effect of tolbutamide 1227  
 effect on diabetic cytochrome P-450 3329  
 effect on glucose oxidation and lipid synthesis in adipocytes 3163
- Intestinal first-pass effect  
 phenacetin 2545
- Intestinal microorganisms  
 C-S bond cleavage enzyme of cysteine conjugates in 2137
- Intestinal mucous  
 quinuclidinyl benzilate binding 515
- Intestine  
 glutathione S-transferase and reductase in mice as a function of age 2113  
 inhibition of E.coli enterotoxin effects on guanylate cyclase and fluid secretion by quinacrine 2005  
 effect of practolol on glycoprotein synthesis 2263  
 effect of spironolactone on bilirubin metabolism 1469  
 sulphate conjugation in 4001  
 sulphate conjugation of isoprenaline 59  
 time and dose dependence of 3-methyl-cholanthrene induced metabolism in mucosal cells and microsomes 3707  
 UDP-glucuronyl transferase in 2701
- 125Iodocyanopindolol  
 characterization of  $\beta$ -adrenergic receptors in kidney 1743
- 4-(3-Iodo-2-oxopropylodene)-2,2,3,5,5-pentamethylimidazolydene-1-oxyl

- 4-(3-Iodo-2-oxopropylidene)-2,2,3,5,5,-pentamethylimidazolidene-1-oxyl interaction with mixed function oxidases 1991
- Iodothyronine deiodinase 5'-deiodination of 3,3',5'-triiodothyronine and 3',5'-diiodothyronine 1705
- Ionophore A23187 effect on phosphatidic acid formation in hepatocytes 2663
- 4-Ipomeanol distribution and metabolism in control and diethylmaleate-treated rats 1585 inducer effects on distribution, metabolism and binding in rat 3973 protective role of pulmonary glutathione 1579
- Iron effect on adriamycin stimulation of lipid peroxidation 3147 effect on carbon tetrachloride induced alkane formation in liver microsomes 597
- Iron-ascorbate induced lipid peroxidation, effect of glutathione 601
- Iron-EDTA effect on microsomal oxidation of methanol 329 stimulated reduction of indicine N-oxide 293
- Ischaemia induced lysosomal enzyme release, prevention by chlorpromazine 1167
- Isobutanol induced increase in cytochrome P-450 in hepatocytes 2811
- 5'-S-Isobutyl-5'-deoxyadenosine inhibition of aminopropyltransferases 1649
- Isocyanates role in toxicity of antitumour haloalkylnitrosoureas 2795
- Isoguvacine response of GABA receptor on corticostriatal terminals 2684
- Isoniazid effect on hepatic mixed function oxidases and on acetylhydrazine derived covalent binding 4031 reversal of effect on hepatic cytochrome P-450 by potassium ferricyanide 249
- Isonicotinic hydrazide effect on  $\gamma$ -hydroxybutyrate and GABA in brain 3917
- Isoprenaline sulphate conjugation in liver and extrahepatic tissues 59, 4001
- Isopropanol induced increase in cytochrome P-450 in hepatocytes 2811
- Isopropylnoradrenaline effect on catecholamine synthesis in adrenergic neurones 653
- Isoproterenol effect on dihydroalprenolol binding to human erythrocytes 99 effect on gastric secretion, motility and emptying 3475
- Isoproterenol(contd.) in vitro desensitization of human lymphocytes by adrenaline 117 uptake by chromaffin granules and ghosts 815
- Isosafrole induced cytochrome P-450 2311
- Kallikrein renal, multihormonal regulation 3941
- Kanamycin interaction with Ca binding 3769
- KBP cells effect of 11-oxohomofolate and its reduced derivatives 255
- Ketanserine effect on 5-hydroxytryptamine effects in platelets 3000
- Ketoconazole interaction with lipids 2609
- Ketotifen metabolism by cultured human fetal hepatocytes 2427
- 3-Keto-3-phenylpropionic acid in horse urine 3225
- Ketoprofen inhibition of prostaglandin synthesis and breakdown 969
- 2-Keto-4-thiomethylbutyric acid microsomal oxidation 2031
- Kidney action of aldosterone and ouabain on cation concentration in slices 2571 effect of  $\alpha$ -adrenergic agonists on gluconeogenesis and  $\text{Ca}^{2+}$  efflux in tubules 2331 effect of allopurinol on function 3041 effect of aminoglycosides on lysosomes 3447 effect of 3-aminopicolinate on glutamine metabolism 3689 effect of anionic xenobiotics on mitochondria 149  $\text{Na}^+$ ,  $\text{K}^+$ -ATPase, effect of potassium canrenoate 4068 cephaloridine-induced stabilization of lysosomes in vivo 1843 clearance of cisplatin 2243 correlation between hydroxyl radical generation and ethanol oxidation by microsomes 2031 covalently bound acetaminophen metabolites 115 2'-deoxytubercidin transport 3387 effect of dextran derivatives on metal levels in 3051 diazepam binding sites 589  $\gamma$ -glutamyl transpeptidase, inhibition by acetazolamide 3347 histamine H2 receptors in glomeruli 367 identification of  $\beta$ -adrenergic receptors by  $^{125}\text{I}$ -iodocyanopindolol binding 1743 interaction of cephalosporin antibiotics with cortex 2267 lipolysis and prostaglandin generation in 2453 localization of  $\alpha_2$ -adrenoceptors 583

- Kidney(contd.)  
 mechanism of aminoglycoside-induced phospholipidosis 3861  
 effect of mercury on glutathione metabolism 3093  
 methylmercury uptake, effect of glutathione 685  
 multihormonal regulation of kallikrein 3941  
 effect of nitrendipine on sodium excretion 3015  
 perfused, PGE2 metabolism 2955  
 pharmacokinetics of indocyanine green in acute renal failure 2531  
 phenol sulphotransferases in 849  
 prostaglandin synthetase catalysed activation of paracetamol 1363  
 retention of phosphate transport function in brush border membranes isolated from frozen cortex 251  
 stimulation of proximal tubular transport by L-proline 257  
 sulphate conjugation in 4001  
 sulphate conjugation of isoprenaline 59  
 effect of zinc and copper pretreatment on binding of gold(I) to metallo-thioneins 2153
- Kinases  
 for ara-C activation in leukemia cells P815, P815/TG and P815/ara-C 3831

 blood glucose and brain glycogen levels in treated rats, effect of

- Malathion(contd.)  
     diacetylmonoxime and atropine 1801
- Malondialdehyde  
     formation in liver  
     effect of carbon tetrachloride 405  
     relationship with arachidonate consumption 1393
- Maltose  
     inhibition of glucose transport in erythrocytes 1925
- Mammary gland  
     mixed function oxidase in 239
- Mammary tumours  
     7,12-dimethylbenz(a)anthracene induced, effect of 1,4,6-androstatriene-3,17-dione 2017  
     estrogen reduction of proline transport 37
- Manganese-bilirubin  
     induced cholestasis, liver cell plasma membrane lipids in 3698
- Mast cells  
     deficient mutant mice, histamine distribution in tissues of 305  
     effect of disodium chromoglycate and cyclic AMP-active drugs on cytotoxic histamine release 2247  
     histamine synthesis in intact and disrupted cells 1189
- Mastocytoma P-815 cells  
     cyclic AMP in and prostaglandin binding in synchronized cells 173  
     inhibition of leukotriene biosynthesis by diethylcarbamazine 2129  
     inhibition of metabolism-mediated cytotoxicity of cyclophosphamide by hydrazines 2921
- MDBK cells  
     cytotoxicity of 3-substituted propylamine 2983
- Mebendazole  
     inhibition of acetylcholinesterase secretion by *Nippostrongylus* 3035
- Meclofenamic acid  
     inhibition of cyclooxygenase, effect of peroxide 3307
- Mefenamic acid  
     inhibition of cyclooxygenase, effect of peroxide 3307  
     inhibition of prostaglandin synthesis and breakdown 969
- Melamine derivatives  
     metabolizing enzymes in liver 625
- Melanin  
     chloroquine binding 3359
- Melanoma B16  
     toxicity of platinum drugs 2273
- Melatonin  
     in serum, effect of benserazide 2251
- Melatonin synthesizing enzymes  
     in pineal gland, effect of benserazide 2251
- Melittin  
     induced histamine release 2247
- Melphalan  
     macromolecular interactions in blood 1615  
     transport in L1210 cells  
     effect of drugs 2727  
     temperature dependence and effect of membrane lipid alteration 2116
- Membrane damage  
     role in porphyria cutanea tarda 11
- Membrane fluidity  
     brain, adaptive modulations in drug addiction and denervation supersensitivity 2435  
     erythrocyte transformation to stomatocytes 3173
- Membrane lipids  
     effect of ethanol on composition 3431
- Membrane resealing  
     promotion by local anaesthetics 1784
- 3-Mercaptopropionic acid  
     effect on  $\gamma$ -hydroxybutyrate and GABA in brain 3917
- 6-Mercaptopurine  
     resistant L1210 cells, increased sensitivity to methotrexate 3133
- bis(6-Mercaptopurine-9- $\beta$ -D-ribofuranoside)-5',5'''-phosphate  
     and derivatives, effect on L1210 cells 2903
- Mercuric chloride  
     inhibition of enzymes of glutathione metabolism in kidney 3093
- Mercury  
     in rat tissues, interaction of selenium and methylmercury 75
- Metallothioneins  
     functions of 137  
     induction in liver by dextran derivatives 3051  
     in kidney, effect of zinc and copper pretreatment on binding of gold(I) 2153  
     in liver  
     effect on cadmium uptake 1761  
     effect of zinc and copper pretreatment on binding of gold(I) 2153
- Metaraminol  
     uptake by chromaffin granules and ghosts 815
- Methadone  
     effect of maternal administration on brain development 1899  
     effect of maternal administration on perinatal hepatic function 2941
- Methaemoglobin  
     formation in red blood cells exposed to diethyldithiocarbamate 521
- Methaemoglobin reductase  
     inhibition by cobalt 1779
- Methane sulfonanilides  
     mode of action 3591
- Methanol  
     oxidation by liver microsomes, role of catalase and hydroxy radicals 319
- L-Methioninase  
     sensitivity of AML leucocytes in culture 2553
- Methionine  
     incorporation into nonpolar lipids in rat leukemia cells, retina and parotid gland 753
- Methiothepin  
     effect on K<sup>+</sup>-evoked 5-hydroxytryptamine release from cortex 49

- Methotrexate  
 carrier-bound, differential toxicity against tumour/bone marrow cells *in vivo* 3513  
 evidence that transport barrier is unlikely to be an important mechanism in drug resistance 263  
 glutathione activation of transport into liver cells 1911  
 increased sensitivity in L1210 cells resistant to 6-mercaptopurine and 6-thioguanine 3133  
 induced immunosuppression, reversal by citrovorum factor 1387  
 liposome encapsulation and sensitivity in a transport resistant human leukemic cell line 541  
 transport in L1210 cells, diastereoisomers of 5-methyltetrahydrofolate as competitive inhibitors of 1527
- Methoxamine  
 stimulation of phosphatidylinositol metabolism in mouse thyroid 2237
- Methoxybiphenyl  
 O-demethylation by liver microsomes, effect of ammonium *m*-vanadate 1458
- Methoxychlor  
 altered imprinting of liver monoamine oxidase 647
- 6-Methoxy-2-methylbenzothiazole  
 effect on mixed function oxidase activity 3002
- N*<sup>6</sup>-Methyladenosine  
 effect on fat cell glucose metabolism 3961
- N*-Methyl-4-aminoazobenzene  
 covalent binding of metabolites to exogenous DNA or microsomal protein 607
- Methylayapanine  
 O-demethylation by liver microsomes, effect of ammonium *m*-vanadate 1458
- 3-O-Methyl(+)catechin  
 effect on paracetamol toxicity in hepatocytes 3745
- 3-Methylcholanthrene  
 action on regulation of transcription 1063  
 effect on alclofenac metabolism by liver microsomes 195  
 effect on amine oxidase in hepatocyte nuclear envelope 69  
 effect on biphenyl and 4-halobiphenyl metabolism in liver 1849  
 effect on cytochrome content of mammary gland and liver 239  
 induced metabolism in intestinal mucosal cells and microsomes 3707  
 induction of arylhydrocarbon hydroxylase in liver and lung of four guinea pig strains 2077  
 induction of deethylation in skin microsomes 4011  
 induction of UDP-glucuronyltransferases in liver of C57BL/6 and DBA/2 mice 1273  
 effect on 4-ipomeanol distribution, metabolism and binding in rat 3973  
 effect on metabolism of 7-ethoxy-
- 3-Methylcholanthrene(contd.)  
 coumarin and 7-hydroxycoumarin by skin strips 4005  
 effect on metyrapone-cytochrome P-450 binding 3489  
 effect on reductive dehalogenation of halothane 383  
 effect on reductive metabolism of halogenated alkanes 391
- 20-Methylcholanthrene  
 effect on 2-*n*-alkylbenzimidazole binding to cytochrome P-450 in liver microsomes 1315
- Methyldepropine  
 uptake by hepatocyte plasma membrane vesicles 1431
- 3- $\alpha$ -Methyl-digitoxigenin-3- $\beta$ -glucoside  
 binding in heart 2489
- 3'-Methyl-4-dimethylaminoazobenzene  
 inhibition of monoamine oxidase type B in liver 1301
- ( $\pm$ )- $\alpha$ - and  $\beta$ -Methylhistamines  
 as substrates for histamine *N*-methyl transferase 2297
- tele-Methylhistamine  
 in brain, effect of pargyline 4074
- 2-Methyl-9-hydroxyellipticinium  
 DNA scission in L1210 cells 3261
- 3-Methylindole  
 pharmacological modulation of pneumotoxicity 1765
- Methylisobutylxanthine  
 inhibition of phosphodiesterases from cardiac nuclear fraction 665
- 5-Methylisoxazole  
 effect on mixed function oxidase activity 3002
- 1-Methyl-2-mercaptoimidazole  
 inactivation of thyroid peroxidase 3801
- Methylmercury  
 interaction with selenium in rats 75  
 organ distribution and cellular uptake in rat, role of glutathione 685
- N*-Methyl-*N'*-nitro-*N*-nitrosoguanidine  
 activation of lung guanylate cyclase 1239
- $\alpha$ -Methylnoradrenaline  
 in brain, methylation of 3128
- Methyl orange  
 effect of uraemic metabolites on binding with HSA 319
- 6-Methyl-5-oxo-thiomorpholinyl-3-carbonyl-histidyl-prolinamide  
 effect on noradrenergic and serotonergic transmission in rodents 2430
- 5-Methylpyrazole-3-carboxylate  
 effect on alloxan diabetic rat muscle 63
- Methyl red  
 effect of uraemic metabolites on binding with HSA 319
- 5-Methyltetrahydrofolates  
 diastereoisomers as competitive inhibitors of methotrexate transport in L1210 cells 1527  
 transport in human erythrocytes, effect of pH 2300
- 5'-Methylthioadenosine

- 5'-Methylthioadenosine  
inhibition of lymphocyte cyclic AMP phosphodiesterase and lymphocyte function 2201  
effect on inhibition of platelet aggregation by forskolin plus PGE<sub>1</sub> or 2-fluoroadenosine 3713
- 5'-Methylthioadenosine analogues  
as substrates and inhibitors of 5'-deoxy-5'-methylthioadenosine phosphorylase and inhibitors of lymphocyte transformation 503
- 2-(Methylthio)-benzothiazole  
formation by basophilic leukemia cells 753
- 6-Methylthioinosinedicarboxaldehyde  
binding to RNA polymerase II 2583
- 5-Methylthioribose-1-phosphate 277
- Methylxanthines  
inhibition of phosphodiesterases and relaxation of canine tracheal smooth muscle 3403
- Metiamide  
antiandrogenic activity 677  
effect on gastric response to histamine 3475
- Metipranolol  
effect on ecto-ATPase in platelets 3122
- Metmyoglobin reductase  
inhibition by cobalt 1779
- Metronidazole  
effect of oxygen tension and reducing agents on sensitivity of *Giardia lamblia* 3694  
synthesis of a reduction product 2689
- Metirapone  
binding to dithionite-reduced cytochrome P-450 from rats treated with xenobiotics 3489  
effect on cytochrome P-450 concentration and function in cultured hepatocytes 1735  
induction of cytochrome P-450 linked enzymes in hepatocytes 2141
- Mexiletine  
inhibition of benzylamine deamination in heart and aorta 27
- Mianserin  
effect on K<sup>+</sup>-evoked 5-hydroxytryptamine release from cortex slices 49
- Miconazole  
effect on electrical conductivity of bilayer membranes 3120  
interaction with lipids 2609
- Microsomes-mitochondria  
cooperation in regulation of drug metabolism 661
- Microtubules  
role in organophosphorus-ester induced delayed neurotoxicity 2065
- Mineralocorticoids  
role in hypertension 893
- Minoxidil  
induced hair growth, role of androgens 1948
- Minoxilil  
sulphation by liver sulphotransferases 2949
- Misonidazole  
activation by microsomes and purified Misonidazole(contd.)  
NADPH-cytochrome c reductase 547  
effect of allopurinol on pharmacokinetics of 3041  
anaerobic nitroreduction by xanthine oxidase 3237  
inhibition of glycolysis in mammalian cells 2345  
metabolism in anaerobic bacteria and hypoxic Chinese hamster lung fibroblasts 411
- Mitochondria  
brain, effect of valproic acid on pyruvate uptake 1633  
heart, effect of niridazole and 5-nitroimidazoles on respiration 3703  
liver  
effect of DDT analogues 397  
defective nicotinamide nucleotide transhydrogenase reaction in N-(phosphonomethyl)-glycine treated rats 2191  
inhibition of microsomal drug metabolism 661  
interaction with aromatic aldehydes 2025  
effect of nitroso-chloramphenicol on proton translocation 3823  
effect of polyamines on bioenergetic functions 4045  
effect of zinc 1289  
yeast, mutagenicity of ellipticine and derivatives 2161
- Mitomycin C  
generation of hydroxyl radical in the presence of NADPH cytochrome P-450 reductase 3651  
metabolic activation by liver microsomes and nuclei 2011  
effect on reactive oxygen-dependent lipid peroxidation in pulmonary microsomes 805
- MK 421  
activation of 3063
- Moniliformin  
enzyme inhibition and toxic action 79
- Monkey(*Macaca arctoides*)  
hydroxylation of hexobarbital and benzo(a)pyrene by fetal hepatic microsomes 1150
- Monoamine oxidase  
in aorta, clorgyline resistant 27  
in brain  
binding and deamination of various substrates by types A and B 1515  
clorgyline and deprenyl insensitive enzyme in soluble fraction 3925  
inhibitory effect of amezinium 2395  
effect of lithium 449  
selective inhibition of type A by FLA 336(+) and FLA 788(+) 1401  
in brown adipose tissue 2177  
in dental pulp 2739  
in heart  
effect of allylamine 509  
clorgyline resistant 27  
increased sensitivity of fluorometric assay method 2207

## Monoamine oxidase(contd.)

## in liver

- effect of aldehyde dehydrogenase inhibitors 3899
- altered imprinting by *o,p'*-DDT and methoxychlor 647
- inhibition by acetylenic inhibitors 3555
- inhibition by  $\alpha$ -methyl- and N-propargyl-amine derivatives 1251
- inhibition by nitro aromatic compounds 2639
- inhibition by polyamines 4045
- effects of 3'-methyl-4-dimethyl-aminoazobenzene in diet 1301
- time-dependent inhibition by  $\beta$ -phenylethylamine 959

## in lung, effect of phenelzine and benserazide 825

## role of types A and B in metabolism of dopamine released from striatal slices 2961

## in skull, effect of phenelzine and benserazide 825

## Monoamine oxidase type A

- selectivity towards 1-noradrenaline compared to 5-hydroxytryptamine 4061
- specific inhibition by dinitranil 2305

## Monoamine oxidase inhibitors

effect on *t*-methylhistamine in brain 4074

## effect on synaptosomal accumulation of dopamine, reflection of antidepressant potency 2195

*N*<sup>6</sup>-Monobutyl adenosine 3',5'-monophosphate

## potentiation of growth inhibitory effects by homocysteine 979

## Monoterpenes

## inhibition of hepatic S-3-hydroxy-3-methylglutaryl-CoA reductase 2897

## Monuron

## oxidative demethylation 3621

## Morphine

## effect on brain lipid microviscosity 2435

lack of effect on K<sup>+</sup>-stimulated calcium uptake by synaptosomes 2697

## effect on noradrenaline turnover in regions of spinal cord 3141

suppression of neurotransmitter release evoked by sensory stimulation *in vivo* 1019

## Multiple drug metabolism 311

## Muramidase

## release from kidney lysosomes, effect of cephaloridine 1843

## Muscarinic receptors

## in brain

- alteration in organophosphorus insecticide tolerance 3407
- interaction with gallamine 873
- solubilization 1806, 2145

## epithelial cells, an artifact in identification 515

## Muscle

## crayfish, phencyclidine binding 2549

## skeletal

## effect of adriamycin on chromatin 973

## Muscle

## skeletal(contd.)

- conversion of allylamine to acrolein 509
- dantrolene binding to sarcoplasmic reticulum 965
- effects of ethanol on fatty acid composition of phospholipids 2447
- effect of lithium on phosphofructokinase, phosphoglucosmutase and glucose 1,6-diphosphate 1025

## smooth

- $\alpha$ -adrenoceptors on 467
- trachea, inhibition of phosphodiesterase and muscle relaxation 3403

## Muscle cells

## embryonic skeletal cultured, effect of 20,25-diazacholesterol 91

## Myeloperoxidase-halide system

## in leukocytes, gold suppression 671

*Mycobacterium butyricum*-induced

## arthritis

## effect of bee venom 1139

## Mycophenolic acid

## relationship between nucleotide concentrations and biological parameters in CHO cells 1109

## Myochrysine

## effect on leukocyte function 671

## NADH

## oxidation via the reconstituted malate-aspartate shuttle 2733

## NADPH

## generation in liver, role of hexose-6-phosphate dehydrogenase 1131

## NAD(P)H

## reaction with alloxan 921

## NADPH/GSH

## oxidation by paraquat in lung 3243

## NADPH oxidase

## in liver microsomes, effect of carbon tetrachloride induced soluble protein 2837

## Nafcillin

## binding in uraemic serum, effect of anion exchange resin treatment 3483

## Naloxone

## binding in pituitary and hypothalamus effect of tetrahydroisoquinolines 1205

## effect on neurotransmitter release from sensorimotor cortex 1019

 $\beta$ -Naphthoflavone

## effect on cytochrome content of mammary gland and liver 239

## effect on 1,2-dichloroethylenes binding and metabolism by cytochrome P-450 2093

## induced cytochrome P-450 2311

## induction of hepatic microsomal monooxygenase, effect of aging 2339

## induction of UDP-glucuronyltransferase in liver 907

## effect on vinylidene chloride binding to hepatic cytochrome P-450 2083

 $\alpha$ -Naphthyl thiourea

## induced pulmonary edema 3395

- Naproxen  
inhibition of prostaglandin synthesis and breakdown 969
- Natriuretic hormone  
renin hypertension 3159
- Neomycin  
interaction with Ca binding 3769  
effect on kidney lysosomes 3447
- Nerve  
lobster, role of phospholipids in inhibitory action of DDT and permethrin on ATPases 1483
- Nerve growth factor  
hydrogen peroxide production and metabolism in adipocytes 3163
- Netimycin  
interaction with Ca binding 3769
- Neuraminidase  
in synaptosomes, effect of 5-hydroxy-tryptamine and serotonergic drugs 1787
- Neuroblastoma cells M1  
interaction with phencyclidine 1475
- Neuroblastoma cells N1E-115  
action of dopamine agonists on tyrosine hydroxylase activity 1279
- Neuroblastoma cells SY5Y  
active oxygen and 6-hydroxydopamine toxicity 181
- Neurotoxic esterase  
in neural and lymphatic tissues of adult hen 1117
- Neurotransmitters  
release from sensorimotor cortex, effect of morphine 1019
- Neutral protease  
release from PMN after phagocytosis of urate crystals, effect of indomethacin and Tropesin 460
- Neutrophils  
phenylbutazone modulation of locomotion 3071
- Niadenate  
effect on lipid metabolizing enzymes, CoASH and long chain acyl-CoA in liver 3930
- Nialamide  
inhibition of synaptosomal accumulation of dopamine 2195
- Nicotinamide  
effect on cytochrome P-450 concentration and function in cultured hepatocytes 1735
- Nicotinamide nucleotide transhydrogenase  
in liver mitochondria of N-(phosphonomethyl)-glycine treated rats 2191
- Nicotine  
effect on xenobiotic metabolism by prolonged oral consumption 1595, 3683
- Nicotinic acetylcholine receptor  
*Torpedo ocellata* electric organ 1819
- Nicotinic acid  
effect on alloxan diabetic rat muscle 63  
effect on lipid metabolizing enzymes, CoASH and long chain acyl-CoA in liver 3930
- Nippostrongylus brasiliensis*  
inhibition of acetylcholinesterase secretion by benzimidazoles 3035
- Niridazole  
effect on heart mitochondria 3703
- Niridazole(contd.)  
inhibition of glycolysis in mammalian cells 2345
- Nitrendipine  
effect on sodium excretion in acutely saline-loaded rats 3015
- Nitric acid  
activation of lung guanylate cyclase 1239
- Nitric oxide  
effect on cyclic GMP metabolism in lung 3847
- p-Nitroanisole  
O-demethylation in perfused liver, effects of sorbitol and ethanol 1621  
reversal of acetone enhanced aniline hydroxylation 311
- Nitroanisole O-demethylase  
in liver microsomes  
effect of aging on induction 2339  
induction by octachlorostyrene in inbred strains of mice 2523  
effect of maternally-administered methadone 2941  
effect of tranlylcypromine 2679
- p-Nitrobenzaldehyde  
interaction with liver mitochondria 2025
- Nitrobenzoid compounds  
inhibition of monoamine oxidase in liver 2639
- Nitrobenzylthioinosine 5'-monophosphate  
effect on tubercidin toxicity and tissue distribution in mice 1863
- Nitrofurantoin  
crypto-OH $\cdot$  radical production by 603  
oxygen activation and toxicity 3723  
effect on reactive oxygen dependent lipid peroxidation in pulmonary microsomes 805
- Nitrogen heterocycles  
effect on mixed function oxidases 3002
- Nitrogen mustard  
effects on membrane activity of PC6A mouse plasma cytoma cells 1773
- Nitroheterocyclics  
hypoxic cell radiosensitizers in cancer chemotherapy 2439
- Nitroimidazoles  
as anaerobic electron acceptors for xanthine oxidase 3237  
effect on heart mitochondria 3703  
renal clearance, effect of allopurinol 3041
- 5-Nitroindazole  
effect on mixed function oxidase 3002
- p-Nitrophenol  
extrahepatic conjugative metabolism 787  
( $\pm$ )-1-[1-(p-Nitrophenoxy),2-methyl,2-propylamino],3-( $\alpha$ -naphthylloxy),2-propanol  
photoaffinity labelling of  $\beta$ -adrenergic receptor of C6 glioma cells 2879
- B-Nitropropionic acid  
effect on acetylcholinesterase in brain 4067
- Nitroso-chloramphenicol

- Nitroso-chloramphenicol  
 degradation of DNA mediated by 2291  
 inhibition of proton translocation  
 in mitochondria 3823
- Nitrosourea  
 binding to murine chromatin and DNA  
 1671  
 cytotoxicity to HeLa cells, enhance-  
 ment using hydrocortisone 1179  
 role of isocyanates in toxicity 2795
- Nogalamycin  
 inhibition of uridine transport  
 through sarcoma 180 cell membranes  
 1811
- n-Nonane  
 effect on alkaline phosphatase in  
 tissues of female mice 201
- Noradrenaline  
 in adrenal medulla explants, effect  
 of tetrahydroisoquinoline carbox-  
 ylic acids 3251  
 in brain  
 methylation of 3128  
 effects of thyroliberin analogue  
 CG3703 on synthesis and turnover  
 2430  
 effect on cyclic GMP metabolism in  
 lung 3847  
 deamination by monoamine oxidases  
 4061  
 effect on decrease of phenylalanine  
 hydroxylase during hepatocyte  
 proliferation 1521  
 effect on gastric secretion, motility  
 and emptying 3475  
 effect on gluconeogenesis and  $\text{Ca}^{2+}$   
 efflux in kidney tubules 2331  
 inhibition of Na-Ca-ATPase in brain  
 1454  
 kinetics of lipolysis in isolated  
 adipocytes 711, 721, 737  
 metabolism in brain slices, effect  
 of haloperidol and apomorphine  
 3297  
 regulation of synthesis in adrenergic  
 neurones 653  
 release and catabolism in brain  
 slices, effect of amezinium 2395  
 release from brain slices and  
 synaptosomes, effect of (D-ala<sup>2</sup>)-  
 met.enkephalinamide 455  
 release from cerebral and femoral  
 arteries, effect of pentobarbital  
 1567  
 role of  $\alpha$ -adrenoceptors in action of  
 467  
 stimulation of  $\text{Na}^+$ ,  $\text{K}^+$ -ATPase in  
 brain, role of lipid peroxidation  
 2231  
 stimulation of phosphatidylinositol  
 metabolism in mouse thyroid 2237  
 stimulation of Pi incorporation into  
 phospholipids, effect of perinatal  
 methadone 1899  
 sulphate conjugation in man 3017  
 turnover in regions of spinal cord,  
 effect of morphine 3141  
 uptake by brain in vivo and in vitro,  
 effect of oxaprotiline 2169  
 uptake by synaptosomes, inhibition  
 by tramadol 1654  
 in urine, tyrosine-induced increase  
 3577
- 19-Nor-deoxycorticosterone  
 role in hypertension 893
- Nordihydroguairetic acid  
 effect on  $\alpha$ -aminoisobutyric acid  
 transport in lymphocytes 337
- Norethindrone  
 biliary excretion of green pigments  
 produced by 1337
- Norlaudanolinecarboxylic acids  
 effect on catecholamine metabolism  
 in adrenal medulla explants 3251  
 regulation of phenylethanolamine  
 N-methyltransferase in adrenal  
 medulla explants 3257
- Northern pike  
 characterization of liver subcellular  
 fractions 1491
- Nortriptyline  
 plasma levels, inhibition of  
 5-hydroxytryptamine binding to  
 platelets 1661
- Novikoff hepatoma cells  
 5'-deoxy-5'-fluorouridine and  
 5-fluoropuracil activation 2841
- NSC-176319  
 anticholinesterase activity 301
- 5'-Nucleotidase  
 in adrenal, effect of theophylline  
 3441  
 in serum and liver, effect of  
 chronic ethanol consumption 377
- Nucleotides  
 in CHO cells, relationship with  
 growth rate and viability 1109
- Nucleus  
 hepatocytes, amine oxidase in 69
- Octachlorostyrene  
 induction of liver cytochrome P-450  
 in inbred strains of mice 2523
- n-Octane  
 effect on alkaline phosphatase in  
 tissues of female mice 201
- Opioid peptides  
 correlation of hydrophobic  
 character with biological  
 activity 3757
- Opoids  
 effect on monoamine inactivation  
 1654
- Orchidectomy  
 effect on glutathione S-transferases  
 in liver 2381
- Organophosphorus ester  
 induced delayed neurotoxicity, role  
 of microtubules and associated  
 proteases 2065
- Organophosphorus insecticides  
 alterations to muscarinic receptors  
 during tolerance 3407  
 FAD-dependent sulfoxidation 745
- Ornithine decarboxylase  
 in cultured cells, induction by  
 benz(a)anthracene 189  
 induction in mice by E.coli  
 lipopolysaccharide 1643  
 in liver  
 effect of chlorisondamine 1798  
 inhibition by  $\alpha$ -monofluoromethyl  
 and  $\alpha$ -difluoromethyl-putrescine  
 3871  
 inhibition by tetrachlorodibenzo-

- Ornithine decarboxylase  
in liver(contd.)  
p-dioxin 3367
- Ornithine decarboxylase-putrescine  
conjugate  
regulation of RNA polymerase I 3373
- Orotate phosphoribosyl transferase  
as a determinant of 5-fluorouracil  
response in murine colonic  
adenocarcinomas 1989
- Orotic acid  
incorporation into pyrimidine  
nucleotides in Leishmania  
donovani 231
- Orotidine 5'-monophosphate decarboxyl-  
ase  
in human colorectal adenocarcinomas  
2485
- Orphandrine  
and metabolites, interaction with  
cytochrome P-450 2745
- Ouabain  
action on cation concentrations in  
kidney slices 2571  
effect on drug-induced release of  
dopamine from striatum 2479  
effect on rapidly-exchangeable  
calcium in heart 2471  
transport in hepatocytes, isolated  
perfused liver and liver in vivo  
1553
- Ouabain receptors  
in heart, binding of a 3- $\alpha$ -methylated  
digitoxigenin-glucoside 2489
- Ovary  
inhibition of aromatase by 1,4,6-  
androstatriene-3,17-dione 2017
- Oxaprotiline  
noradrenaline uptake inhibitor 2169
- Oxazoles  
effect on mixed function oxidase  
activity 3002
- Oxfendazole  
inhibition of acetylcholinesterase  
secretion by Nippostrongylus 3035
- N-Oxide sulphotransferase  
in liver, activity with heterocyclic  
N-oxides 2949
- 11-Oxohomofolate  
effect on human cells having  
different amounts of dihydrofolate  
reductase 255
- Oxoprenolol  
effect on ecto-ATPase in platelets  
3122
- Oxotremorine  
binding in brain, effect of disulfoton  
3407  
effect on subcellular distribution of  
glycine in rat spinal cord 1013
- Oxygen  
effect on acetylcholine release  
from brain slices 111  
activation by nitrofurantoin 3723  
effect on carbon tetrachloride  
hepatotoxicity 3787  
consumption by pulmonary macrophages  
effect of cyclooxygenase and  
protease inhibitors 775  
participation in 6-hydroxydopamine  
toxicity to neuroblastoma cells  
181  
uptake by brain cells, effects of
- Oxygen(contd.)  
sodium valproate and acetazol-  
amide 1333
- Oxymetazoline  
effect on gluconeogenesis and  $\text{Ca}^{2+}$   
efflux from kidney tubules 2331
- Palmitic acid oxidation  
effects of clofibrate and ethanol  
on omega-oxidation 2119
- Palmitoyl-CoA hydrolase  
in liver, effects of tiadenol,  
nicotinic acid and niadenate  
3930
- Pancreatic B-cell  
alloxan toxicity 3527  
effects of tolbutamide and  
diazoxide 1407
- Pancreatic B-cell tumour  
sulphonylurea receptors 1171
- Papaverine  
O-demethylation by liver microsomes  
effect of ammonium m-vanadate  
1458  
inhibition of phosphodiesterases  
from cardiac nuclear fraction  
665  
effect on pituitary function  
in vivo and in vitro 1205
- Paracetamol  
effect of butylated hydroxyanisole  
on conjugation in hepatocytes  
1907  
hepatotoxicity, protection by  
diethyldithiocarbamate and  
carbon disulphide 2713  
in situ formation of metabolite  
covalently bound in kidney and  
lung 115  
metabolism and toxicity in  
hepatocytes 3745  
prostaglandin synthetase catalysed  
activation 1363  
protection against liver necrosis  
by intravenous liposomally  
entrapped glutathione 3601
- Paraquat  
increase in hepatic mixed disulphide  
and glutathione disulphide  
levels by 1637  
NADPH/GSH oxidation by in lung  
3243  
selective toxicity 3335  
stimulation of reactive oxygen-  
dependent lipid peroxidation in  
pulmonary microsomes 805
- Pargyline  
inhibition of monoamine oxidase in  
liver 3555  
inhibition of synaptosomal  
accumulation of dopamine 2195  
effects of tele-methylhistamine  
and histamine in brain 4074
- Parkinsonism  
oxotremorine induced, role of  
glycine: 1013
- Parkinson's disease  
inhibition of clorglyine-resistant  
amine oxidases by benserazide  
1417
- Paromomycin  
interaction with Ca binding 3769

- Parotid cells  
potassium release by  $\alpha$ 2-adrenergic  
receptor stimulation of 2197
- Parotid gland  
K<sup>+</sup> release from,  $\alpha$ 1-adrenergic  
mediated event 567  
nonpolar lipid methylation 753
- PCR 2362  
human serum binding 831
- Penfluridol  
effect on response of adrenal  
glomerulosa cells to angiotensin  
II and cyclic AMP 3705
- Penicillin G  
binding in uremic serum, effect of  
anion exchange resin treatment  
3483
- 2,3,4,4',5'-Pentachlorobiphenyl  
differential effects on C57BL/6J and  
DBA/2J inbred mice 2830
- Pentachloroethane  
reductive metabolism by microsomal  
cytochrome P-450 391
- Pentagastrin  
effect on gastric secretion, motility  
and emptying 3475
- Pentane  
carbon tetrachloride induced formation  
in liver microsomes, effect of Fe<sup>2+</sup> 597  
formation by liver microsomes, effect  
of adriamycin 3147
- Pentobarbital  
anti-hypoxia effects 1197  
effect on dobutamine response of  
alcoholic rat heart 129  
effect on GABA binding to synaptosomal  
membranes 2891  
inhibition of GABA uptake by astro-  
cytes 2694  
effect on noradrenaline release from  
cerebral and femoral arteries 1567  
promotion of membrane resealing 1784  
sleeping time in tumour-bearing rats  
1535  
effect on synaptosomal calcium  
binding 1790
- Pentose phosphate pathway  
effect of trans-stilbene oxide on  
enzymes in liver 1717
- Pentylentetrazol  
induced convulsions, effect of  
glutamate and antagonists 3144
- Pepstatin  
tissue distribution following oral  
and i.v. administration to rats,  
whole body autoradiography 2302
- Perchloroethylene  
reactive metabolites and carcinogen-  
icity 1
- Pergolide  
antagonism of  $\gamma$ -butyrolactone-induced  
increase in brain dopamine, effect  
of haloperidol 2199
- Perhydrohistrionicotoxin  
binding to channel sites of acetyl-  
choline receptor in Torpedo  
membranes 1819
- Permethrin  
inhibition of ATPase in lobster nerve  
role of phospholipids 1483
- Peroxidase  
in thyroid, inactivation by thiourel-
- Peroxidase(contd.)  
thioureyline drugs 3801
- Peroxides  
involvement in arylamine induced  
carcinogenesis 607  
modification of anti-inflammatory  
drug effectiveness 3307  
production by nitrofurantoin 603
- Peroxisomal enzymes  
in liver, effects of tiadenol,  
nicotinic acid and niadenate 3930
- Peroxisomes  
effect of clofibrate on metabolism  
in 1650
- Phagocytes  
effect of weak bases on lysosomal  
enzyme secretion 2657
- Phagocytosis  
in PMN, effect of ethacrynic acid  
443
- Phenacetin  
O-dealkylation in rats, effect of  
chronic ethanol feeding 695  
metabolism by liver microsomes,  
effect of oral tobacco 1595  
prediction of intestinal first-pass  
effect from enzyme kinetic data,  
2545
- 1,10-Phenanthroline  
effect on mixed function oxidase  
activity 3002
- Phencyclidine  
high affinity binding to crayfish  
muscle, displacement by calcium  
antagonists 2549  
interaction with mouse neuroblastoma  
cells 1475
- Phenelzine  
inhibition of benzylamine deamination  
in heart and aorta 27  
inhibition of benzylamine oxidase  
and monoamine oxidase 825
- Phenformin  
spectral binding by cytochrome P-450  
of normal and hydroxylation  
deficient rat strains 3193
- Phenobarbital  
effect on amine oxidase in hepatocyte  
nuclear envelope 69  
effect on aminopyrine N-demethylation  
in hepatocyte monolayers measured  
by <sup>14</sup>C0<sub>2</sub> trapping 1803  
effect on desmethylinipramine binding  
in plasma 1749  
effect on dibromosulfophthalein  
distribution in liver and  
transport rate in isolated  
hepatocytes 2539  
effect on 1,2-dichloroethylene  
binding and metabolism by  
cytochrome P-450 2093  
effect on GABA binding to synaptosomal  
membranes 2891  
induction of cytochrome P-450  
in hepatocytes 1175, 2211  
multiple forms 2311  
specificity for metabolism of  
carbon tetrachloride 615  
induction of hepatic microsomal  
monooxygenase, effect of aging  
2339  
inhibition of GABA uptake by  
astrocytes 2694

- Phenobarbital(contd.)  
 effect on 4-ipomeanol distribution, metabolism and binding in rats 3973  
 effect on vinylidene chloride binding to hepatic cytochrome P-450 2083
- Phenobarbitone  
 effect on alclofenac metabolism by liver microsomes 195  
 effect on aldehyde reductases and glycerolipid synthesis in brain 2307  
 effect on 2-n-alkylbenzimidazole binding to liver cytochrome P-450 1315  
 effect on lipid peroxidase in liver microsomes 1823  
 effect on metabolism of biphenyl and 4-halobiphenyls in liver 1849  
 effect on metyrapone-cytochrome P-450 binding 3489  
 effect on reductive dehalogenation of halothane 383  
 effect on reductive metabolism of halogenated alkanes 391
- Phenol sulphotransferase  
 contribution to catecholamine metabolism in man 3017  
 multiple forms in human tissues 1893  
 in rat tissues 849
- Phenothiazines  
 effect on formation of coat structure from clathrin 793  
 interaction with calmodulin 2217  
 effect on kynurenine metabolism in liver 2227
- (-)-3-Phenoxy-N-methylmorphinan  
 pharmacodynamic studies in rat 553
- Phentolamine  
 effect on catecholamine synthesis in adrenergic neurones 653  
 effect on metabolism of phospholipids and glycerides in retina 1049
- Phenoxybenzamine  
 effect on adrenaline inhibition of protein synthesis in hepatocytes 1656  
 subunit structure of rat liver  $\alpha$ 1-adrenergic receptor 2817
- Phenylacetone oxime  
 formation from N-hydroxyamphetamine by rat liver microsomes 105
- Phenylalanine hydroxylase  
 decrease during hepatocyte proliferation 1521
- L-Phenylalanine mustard  
 molecular interactions in blood 1615  
 resistant L1210 cells, reduction in glutathione content confers sensitivity 121
- Phenylbutazone  
 binding to  $\alpha$ 1-acid glycoprotein 3687  
 inhibition of cyclooxygenase, effect of peroxide 3307  
 inhibition of prostaglandin synthesis and breakdown 969  
 modulation of neutrophil locomotion 3071
- Phenylephrine  
 effect on action of clonidine on cyclic GMP in liver 3684  
 effect on catecholamine synthesis in adrenergic neurones 653
- Phenylephrine(contd.)  
 effect on gluconeogenesis and  $\text{Ca}^{2+}$  efflux in kidney tubules 2331  
 induced lipolytic dose-response curves 721  
 stimulation of phosphatidylinositol metabolism in mouse thyroid 2237
- Phenylethanolamine-N-methyltransferase  
 in adrenal, inhibition by lead 1985  
 in adrenal medulla explants, effect of tetrahydroisoquinoline-carboxylic acids 3257  
 in brain, noradrenaline and -methylnoradrenaline as substrates 3128
- $\beta$ -Phenylethylamine  
 inhibition of monoamine oxidase in liver 959
- Phenylpyruvate  
 effect on transhydrogenase in liver 3645
- Phenyl saligenin cyclic phosphate  
 delayed neurotoxicity, role of microtubule-associated processes 2065
- Phenyl valerate esterase  
 in neural and lymphatic tissues of adult hen 1117
- Phenytol  
 induced hair growth, role of androgens 1948  
 effect of uraemic metabolites on binding with HSA 319
- Phorate  
 oxidation by FAD-dependent mono-oxygenase from liver microsomes 745
- Phorbol myristate acetate  
 stimulation of oxygen consumption and superoxide production by pulmonary macrophages 775
- $\text{K}^+$ -Phosphatase  
 in kidney, effect of lead 2913
- Phosphate transport function  
 in renal brush border membranes isolated from frozen cortex 251
- Phosphatidic acid  
 formation in hepatocytes, effect of vasopressin and ionophore A23187 2663
- Phosphatidylcholine  
 metabolism by RBL-2H3 cells, inhibition by 5'-deoxy-5'-isobutylthio-3-deazaadenosine 2111
- Phosphatidylinositol  
 in heart, effect of carbachol on  $^{32}\text{P}$  incorporation 3130  
 metabolism in thyroid gland, involvement of  $\alpha$ 1-adrenergic receptors in stimulation by catecholamines 2237
- Phosphatidylserine monolayers  
 effect of aminoglycoside antibiotics on Ca binding 3769
- Phosphoenolpyruvate carboxykinase  
 in liver, inhibition by streptonigrin 1123
- Phosphofructokinase  
 in muscles, brain and liver, effect of lithium 1025
- Phosphoglucosylase  
 in muscles, brain and liver, effect of lithium 1025

- 6-Phosphogluconate dehydrogenase  
in liver, effect of trans-stilbene  
oxide 1717
- Phospholipase A  
in carrageenin-induced inflammatory  
tissue 2993  
in MDCK cells, effect of amantadine  
and chloroquine 3795
- Phospholipase C  
in MDCK cells, effect of amantadine  
and chloroquine 3795  
mediated platelet aggregation,  
inhibition by trimetoquinol isomers  
886
- Phospholipases  
in kidney, effect of aminoglycosides  
3861
- Phospholipids  
in brain, interaction with psycho-  
trophic drugs 2977  
in liver plasma membranes in manganese  
bilirubin induced cholestasis 3698  
methylation in synaptosomal membranes,  
effect of ethanol 3936  
in muscle, effect of ethanol on fatty  
acid composition 2447  
32P incorporation in heart, effect  
of carbachol 3130  
in plasma membranes, effect of chronic  
ethanol administration 3431  
role in inhibitory action of DDT and  
permethrin on lobster nerve ATPase  
1483  
storage in MDCK cells 3795  
synthesis in retina, effect of  
propranolol and phentolamine 1049
- N-(Phosphonacetyl)-L-aspartate  
effect on aspartate carbamoyltrans-  
ferase in biopsy specimens 3317  
inhibition of pyrimidine biosynthesis  
enzyme complex 3313  
relationship between nucleotide  
concentrations and biological  
parameters in CHO cells 1109
- N-(Phosphonomethyl)-glycine  
defective nicotinamide nucleotide  
transhydrogenase reaction in liver  
mitochondria of treated rats 2191
- Phosphoribosyl pyrophosphate  
pool size and tissue levels as a  
determinant of 5-fluorouracil  
response in murine colonic adeno-  
carcinomas 1989  
in tumour cells, effect of glutamine  
antagonists 1509
- Phosphoribosyl pyrophosphate synthetase  
regulation by purines and pyrimidines  
in leukemic cells 1687
- Photoaffinity labelling  
 $\beta$ -adrenergic receptors of C6 glioma  
cells 2879
- Physostigmine  
anti-hypoxia effects 1197
- Picrotoxin  
modification of response of GABA  
receptor to 3-amino propane  
sulphonic acid 2684
- Pike  
characterization of liver subcellular  
fractions 1491
- Pimozide  
effect on response of adrenal  
glomerulosa cells to angiotensin II
- Pimozide(contd.)  
and cyclic AMP 3705
- Pindolol  
binding to human serum proteins 359
- Pineal gland  
effect of benserazide on 5-hydroxy-  
tryptamine and melatonin  
synthesizing enzymes 2251  
effect of steroids on  $\beta$ -adrenergic  
binding sites in 1369
- Piperonyl butoxide  
effect on depletion of **pulmonary**  
glutathione by 4-ipomeanol 1579  
effect on hepatic glutathione 1829
- Pituitary  
effect of tetrahydroisoquinolines  
in vitro and in vivo 1205
- Plasmacytoma cells  
effect of nitrogen mustard on  
membrane activity 1773
- Platelets  
 $\alpha$ -adrenergic receptors in 2591  
effect of  $\beta$ -adrenergic blocking  
drugs on ecto-ATPase activity  
3122  
aggregation induced by prostaglandin  
endoperoxides in the absence of  
thromboxane A2 production 1158  
aryl acylamidase and acetylcholin-  
esterase 2319  
effect of cannabinoids on 5-hydroxy-  
tryptamine uptake 439  
effect of clofibrate on prostaglandin  
dependent and independent  
pathways of activation 2125  
degradation of thymidine and its  
inhibition 2755  
effect of forskolin and analogues on  
aggregation and on adenylate  
cyclase activity 4071  
5-hydroxytryptamine binding,  
evaluation of tricyclic anti-  
depressants in plasma 1661  
inhibition of aggregation by  
quercetin 3597  
inhibition of aggregation by  
trimetoquinol isomers 886  
effect of ketanserin on 5-hydroxy-  
tryptamine induced shape change  
3000  
lithium accumulation in dense  
bodies 3215  
modulation of inhibitory action of  
PGE1 on aggregation 1147  
phenol sulphotransferases in 3017  
regulation of lipoxigenases by  
hydroxyeicosanoids 3463  
stimulation of 12-lipoxigenase by  
17 $\beta$ -estradiol 2633  
synergistic inhibition of aggregation  
by forskolin plus PGE1 or  
2-fluoroadenosine 3713  
effect of timegadine on arachidonic  
acid release and metabolism 2619
- Platinum  
mechanisms of renal clearance 2243  
cis-Platinum(II)amines  
Lymphoid suppression by 933
- Platinum drugs  
antitumour selectivity and DNA  
interaction 2273
- Polyamine-derived polycations  
inhibition of lymphocyte DNA

- Polyamine-derived polycations(contd.)  
synthetic responses 2353
- Polyamines  
accumulation in lung slices 3029  
inhibition of bioenergetic functions  
of liver mitochondria 4045  
macrocyclic, effect on lipid perox-  
idation in liver microsomes 1658  
reversal of  $\alpha$ -difluoromethylornithine/  
bleomycin cures of trypanosomiasis  
2833
- Polychlorinated biphenyls  
effect on benzo(a)pyrene metabolism by  
trout liver 561
- Polycyclic aromatic inducible P-450  
multiple forms 2311
- Polyglutamyl folate  
in liver and tumours, effect of  
alcohol 1461
- Polymorphic hydroxylation 3193
- Polymorphism  
sulfoxidation of S-carboxymethyl-L-  
cysteine in man 3151
- Polymorphonuclear leucocytes  
increase of xanthine oxidase activity  
in infected mice 3115  
effects of indomethacin and Tropesin  
on lysosomal enzyme release and  
levels of cyclic AMP and cyclic  
GMP 460  
inhibition of function by ethacrynic  
acid 443  
phenylbutazone modulation of loco-  
motion 3071  
effect of timegadine on arachidonic  
acid release and metabolism 2619
- Polynucleotides  
as antitemplates of DNA polymerases  
4055
- Polysomes  
effect of chronic ethanol administrat-  
ion on protein synthesis 2059  
in hepatocytes, effect of cycloheximide  
1219
- Porphyria  
development in female rats dosed with  
hexachlorobenzene 3543  
induction by 2,3,7,8-tetrachlorodi-  
benzo-p-dioxin 1607  
effect of propranolol 485
- Porphyria cutanea tarda  
membrane damage in 11
- Porphyrin  
biosynthesis in chick embryo liver  
cells, effect of impurities in  
diazinon preparations 1033
- Portocaval anastomosis  
sex differences in effects on  
hepatic monooxygenases 499
- Potassium  
effects on catecholamine synthesis  
in brain slices 3289, 3297  
influx into cells, effect of  
diuretic BTS 39542 2827  
in kidney slices, effects of  
aldosterone and ouabain 2571  
permeability of pancreatic B cells,  
effects of tolbutamide and  
diazoxide 1407  
release by  $\alpha$ 2-adrenergic receptor  
stimulation of rat parotid acinar  
cells 567, 2197  
in serum and urine, effect of lead
- Potassium(contd.)  
ingestion 2913
- Potassium canrenoate  
effect on renal Na<sup>+</sup>,K<sup>+</sup>-ATPase 4068
- Potassium ferricyanide  
reversal of effects of isoniazid  
on hepatic cytochrome P-450 249
- Practolol  
effect on ecto-ATPase in platelets  
3122  
inhibition of gastrointestinal  
mucosal glycoprotein synthesis  
2263
- Prazosin  
binding to human platelets 2591  
binding to parotid membranes 567
- Prednisolone  
binding to albumin and transcortin  
in the presence of cortisol 289  
mediated alterations in ribosomal  
RNA turnover in rat liver 1160
- Pregnenolone 16 $\alpha$ -carbonitrile  
induced cytochrome P-450 2311  
effect on metyrapone-cytochrome  
P-450 binding 3489
- Prenylamine  
inhibition of calmodulin 2217
- Pricoron  
effect on ecto-ATPase in platelets  
3122
- Primaquine  
free and liposomally encapsulated,  
disposition in mice 3501  
mediated oxidative metabolism in  
human red cells 2409
- Probenecid  
modification of renal clearance of  
cisplatin 2243
- Procaine  
effect on osmotic fragility of  
liposomes 2999
- Proinsulin  
hydrogen peroxide production in  
adipocytes 3163
- Prolactin  
interaction of estrogen receptors  
with drugs that affect secretion  
707  
processing routes and regulation  
2845  
secretion by pituitary, effect of  
tetrahydroisoquinolines 1205
- Proline  
estrogen reduction of transport in  
mammary carcinomas 37  
stimulation of renal proximal  
tubular transport processes 257  
uptake by synaptosomes, effect of  
scorpion venom 1875
- Prolyl hydroxylase  
chick embryo, inhibition by P-1894B  
915
- Promazine  
effect on kynurenine metabolism in  
liver 2227
- Promethazine  
effect on kynurenine metabolism in  
liver 2227
- Pronethalol  
effect on ecto-ATPase in platelets  
3122
- Propane  
carbon tetrachloride induced

- Propane(contd.)  
 formation in liver microsomes,  
 effect of  $\text{Fe}^{2+}$  597
- Propanetricarboxylate  
 effect on transhydrogenase in liver  
 3645
- n-Propanol  
 induced increase in cytochrome P-450  
 in hepatocytes 2811
- N-Propargyl-amine derivatives  
 inhibition of liver monoamine oxidase  
 1251
- Propranolol  
 and analogues, effect on sodium  
 channels 1681  
 effect on adrenaline inhibition of  
 protein synthesis in hepatocytes  
 1656  
 effect on ecto-ATPase in platelets  
 3122  
 effect on catecholamine synthesis in  
 adrenergic neurones 653  
 comparison with Ro03-7894 in cardiac  
 ventricular muscle 1325  
 effect on dihydroalprenolol binding  
 to human erythrocytes 99  
 effect on heme concentration and  
 $\delta$ -aminolevulinate synthase activity  
 in chick embryo liver cells 485  
 induced structural changes in human  
 erythrocyte ghost membranes 691  
 effect on metabolism of phospholipids  
 and glycerides in retina 1049
- Propylamine  
 3-substituted, cell toxicity 2983
- N,n-Propyl-norapomorphine  
 binding to striatal membranes, effect  
 of proteolytic enzymes and  
 monovalent cations 1343
- Propylthiouracil  
 effect on adenylate cyclase in heart  
 membranes 2463  
 effect on ethanol metabolism 2403  
 inactivation of thyroid peroxidase  
 3801
- Prostacyclin  
 inhibition of platelet aggregation,  
 effect of quercetin 3597  
 production by rat aortic rings  
 incubated in human plasma 1163  
 stimulation of vascular production  
 by human serum 3047  
 synthesis in stomach, effect of  
 BW755C 1652
- Prostaglandins  
 action of aspirin- and sulphasalazine-  
 like drugs against synthesis and  
 breakdown 969  
 effect on amino acid release from  
 synaptosomes 1001  
 dependent and independent platelet  
 activation, effect of clofibrate  
 2125  
 generation in rabbit kidney, role of  
 lipolysis 2453  
 generation by seminal vesicle  
 microsomes, effect of 3-amino-2-  
 pyrazoline derivatives 1955  
 inactivation in perfused lung 633  
 independent platelet aggregation 886  
 involvement in renal kallikrein  
 regulation 3941  
 production in inflammatory tissue 2993
- Prostaglandins(contd.)  
 role in action of  $\Delta^1$ -THC 591  
 synthesis by brain synaptosomes  
 1001  
 synthesis in seminal vesicles,  
 effect of methane sulfonanilides  
 3591
- Prostaglandin D2  
 in brain, effect of tranlylcypromine  
 1783  
 synthesis in ovalbumin-sensitized  
 and control lung 2381
- Prostaglandin E1  
 binding in synchronized mastocytoma  
 P-815 cells 173  
 effect on carrageenin-induced  
 edema 3126  
 effect on histamine release induced  
 by surfactants 2247  
 modulation of inhibitory action on  
 platelet aggregation 1147  
 plus forskolin, synergistic  
 inhibition of platelet aggregat-  
 ion 3713
- Prostaglandin E1, 15-S-15-methyl  
 effect on carrageenin-induced  
 edema 3126
- Prostaglandin E2  
 effect on carrageenin-induced  
 edema 3126  
 inactivation in lung edema 3395  
 metabolism in isolated perfused  
 kidney 2955  
 synthesis in human lung fibroblasts  
 stimulation by  $\Delta^1$ -THC 2361
- Prostaglandin E-9-ketoreductase  
 in kidney 2955
- Prostaglandin F2  
 effect on carrageenin-induced  
 edema 3126
- Prostaglandin endoperoxides  
 induction of platelet aggregation  
 in absence of thromboxane A2  
 production 1158
- Prostaglandin synthetase  
 catalysed activation of paracetamol  
 1363
- Prostate  
 androgen uptake, use as site  
 directing agents 3231  
 emkephalin- and substance P-like  
 immunoreactivities in 3519  
 effect of histamine H2 receptor  
 antagonists on dihydrotestoster-  
 one binding to androgen receptor  
 677  
 effect of  $\Delta^9$ -THC on enzymes in 415
- Proteases  
 inhibition by steroids 2989  
 microtubule-associated protein,  
 role in organophosphorus delayed  
 neurotoxicity 2065
- Protein  
 dietary, effect on liver mixed-  
 function oxidases 1005  
 post-translational modification in  
 cultured cells, effects of  
 hydrocortisone and aspirin 2047  
 synthesis in hepatocytes, effect of  
 adrenaline 1656  
 synthesis in hepatocytes, effect of  
 cycloheximide 1219  
 synthesis in L1210 cells, inhibition

- Protein(contd.)  
 by 8-azaguanine 2505  
 synthesis in liver membrane-bound polysomes, effect of chronic ethanol administration 2059
- Protein binding  
 adrenergic  $\beta$ -receptor antagonists 359
- Protein kinases  
 cyclic AMP dependent  
 induced calcium uptake by biliary muscles relaxed by cholecystokinin-C-terminal peptides 3077  
 isoenzymes in spontaneously hypertensive rat aorta 1837  
 effect of quercetin and related polyphenols 1357  
 in liver, nucleolar and nucleoplasmic effect of 3-methylcholanthrene 1063
- Proteoliposomes  
 interaction of dibucaine 527
- Prothrombin complex activity  
 vitamin K antagonism by warfarin, defenacoum and brodifacoum 3635
- Proton translocation  
 in mitochondria, inhibition by nitroso-chloramphenicol 3823
- Pseudouridinedicarboxaldehyde  
 effect on tubulin metabolism 273
- P-site  
 inhibition of adenylate cyclase 3279
- Psychotropic drugs  
 interaction with phospholipids 2977
- Pulmonary edema  
 $\alpha$ -naphthyl thiourea induced, PGE2 inactivation 3395
- Purigenic receptors  
 in kidney, prostaglandin generation 2453
- Purine  
 salvage and biosynthesis in sarcoma 180 cells, effect of erythro- and threo-9-(2-hydroxy-3-nonyl)adenine 3955  
 salvage in Leishmania donovani 231
- Purine nucleoside phosphorylase  
 in erythrocytes, interaction with C(2')-substituted purine nucleoside analogues 1723  
 inhibitors of, C(8) and C(5') substitutions 163
- Purine nucleoside phosphorylase deficiency  
 GTP depletion and other erythrocyte abnormalities 941
- Putrescine  
 accumulation by lung 3029  
 effect of  $\alpha$ -fluoromethyl derivatives on ornithine decarboxylase 3871  
 inhibition of bioenergetic functions of liver mitochondria 4045  
 in mouse tissues following lipopolysaccharide injection 1643  
 reversal of DFMO/bleomycin cures of trypanosomiasis 2833
- Putrescine-ornithine decarboxylase conjugate  
 regulation of RNA polymerase I 3373
- Pyrazofurin  
 relationship between nucleotide concentrations and biological parameters in CHO cells 1109
- Pyrazole  
 induction of dimethylnitrosamine demethylase in liver microsomes 1245
- Pyridoxal phosphate  
 in serum, effect of 6-azauridine triacetate 4089
- Pyridoxal phosphokinase  
 in liver, effects of chloramphenicol and thiamphenicol 55
- 4-[p-(p-[[Pyridylamino]] phenylcarbamoyl) anilino]-quinoline dibromide  
 anticholinesterase activity 301
- Pyrimidine  
 biosynthesis in Novikoff tumour, effect of N-(phosphonacetyl)-L-aspartate 3313
- Pyrimidine nucleotides  
 enzymes of salvage and synthesis in human colorectal adenocarcinomas 2485  
 in human tumours, effect of aspartate carbamoyltransferase inhibition by N-(phosphonacetyl)-L-aspartate 3317
- Pyrimidine ribonucleoside phosphorylase  
 phosphorolysis of 5- and/or 6-substituted uridine analogues 1097
- Pyrimidine salvage  
 in Leishmania donovani 231
- Pyrrolopyrimidine  
 lethality in relation to RNA synthesis in sarcoma 180 cells 2686
- Pyruvate  
 effect on cyclic GMP metabolism in lung 3847  
 uptake by brain mitochondria, inhibition by valproic acid 1633
- Pyruvate dehydrogenase  
 in alloxan-diabetic rat muscle, effect of antilipolytic agents 63  
 in brain, effect of moniliformin 79  
 in liver, activation by dichloroacetate 3124  
 in rats given dichloroacetate 1295
- Quaternary ammonium compounds  
 uptake into liver plasma membrane vesicles 1431
- Quercetin  
 effect on antigen-induced histamine release from human basophils 1449  
 inhibition of cyclic nucleotide independent protein kinase 1357  
 inhibition of human platelet aggregation, role of cyclic AMP 3597
- Quercetin analogues  
 selective inhibition of cyclic nucleotide phosphodiesterases 2777
- Quinacrine  
 effect on formation of coat structure from clathrin 793  
 inhibition of *E.coli* enterotoxin effects on intestinal guanylate cyclase and fluid secretion 2005

- Quinidine  
binding in uraemic serum, effect of anion exchange resin treatment 3483  
inhibition of phosphodiesterase from cardiac nuclear tissues 665
- Quinine  
effect on formation of coat structure from clathrin 793
- Quinones  
generation of hydroxyl radical in the presence of NADPH cytochrome P-450 reductase 3651
- Quinuclidinyl benzilate  
binding in brain  
effect of gallamine 873  
effect of organophosphorus tolerance 3407  
solubilization of sites by cobalt-salt 1806  
binding to intestinal mucous 515
- Quipazine  
displacement of  $\text{Ca}^{2+}$  bound to synaptosomal membranes 1787
- R28935  
displaceable binding in brain 3933
- Radical intermediates  
activation of pharmacological agents to 3335
- Radiosensitizing drugs  
inhibition of glycolysis in mammalian cells 2345  
as potential adjuvants to chemotherapy for treatment of cancer 2439
- Rauwolscine  
binding to human platelets 2591
- $^{86}\text{Rb}$   
fluxes in pancreatic B cells, effects of tolbutamide and diazoxide 1407  
influx into cells, effect of diuretic BTS 39542 2827  
transport into PC6A mouse plasmacytoma cells, effects of nitrogen mustard 1773
- Renin-angiotensin-aldosterone system  
involvement in renal kallikrein regulation 3941
- Reserpine  
effect on catecholamine metabolism in brain slices 3297  
effect on dopamine release by d-amphetamine from striatal synaptosomes 1969  
induced increases in  $\beta$ -adrenergic receptors in brain, effect of alprazolam 3155
- Retina  
nonpolar lipid methylation 753  
effects of propranolol and phentolamine on biosynthesis of phospholipids and glycerides 1049
- Reverse trans-synaptic regulation of catecholamine synthesis in adrenergic neurones 653
- Riboflavin  
metabolism in heart, effect of chlorpromazine, imipramine and amitriptyline 3495
- 2- $\beta$ -D-Ribofuranosylthiazole-4-carboxamide  
conversion to an analogue of NAD
- 2- $\beta$ -D-Ribofuranosylthiazole-4-carboxamide(contd.)  
with inosine monophosphate dehydrogenase inhibitory properties 2133  
mechanism of action on P388 cells 2371, 3839  
mechanism of resistance to 2557
- Ribonucleic acid  
in colon carcinoma cells, effects of formycin and 8-azaadenosine 3207  
in sarcoma 180 cells, sangivamycin incorporation 259  
synthesis in CHO cells, effect of changes in nucleotide levels 1109  
synthesis in sarcoma 180 cells, pyrrolopyrimidine lethality in relation to 2686  
turnover in rat liver. effect of prednisolone 1160
- Ribonucleic acid polymerases  
in liver, nucleolar and nucleoplasmic, effect of 3-methylcholanthrene 1063  
in liver and thymus, effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin 2459, 3363
- Ribonucleic acid polymerase I  
in liver, regulation by post-translationally modified ornithine decarboxylase 3373
- Ribonucleic acid polymerase II  
9- $\beta$ -D-arabinofuranosyl-6-mercaptapurine binding 2575  
covalent binding of two purine dialdehydes to the initiation subsite 2583
- Ribonucleoprotein complexes  
in hepatocytes, effect of cycloheximide 1219
- Ribonucleotides  
in hepatoma cells, effect of acivicin 3469
- Ribostamycin  
interaction with Ca binding 3769
- Ro 03-7894  
apparent irreversible  $\beta$ -adrenoceptor antagonism and binding 1325
- Ro 07-0913  
effect of allopurinol on pharmacokinetics of 3041
- Ro 20-1724 and 7-2956  
inhibition of phosphodiesterase from cardiac nuclear fraction 665
- Ro 22-3581 and 22-3582  
effect on  $\alpha$ -aminoisobutyric acid transport in lymphocytes 337
- Rowachol  
inhibition of hepatic S-3-hydroxy-3-methylglutaryl-CoA reductase 2897
- Rubidazone  
compaction of isolated chromatin 1057
- Salicylate  
binding in uraemic serum, effect of anion exchange resin treatment 3483
- Salsolinol  
effect on pituitary function 1205
- Sangivamycin

- Sangivamycin  
incorporation into RNA in sarcoma 180 cells 259  
lethality in relation to RNA synthesis in sarcoma 180 cells 2686
- Sarcoma 180 cells  
effects of erythro- and threo-9-(2-hydroxy-3-nonyl)adenine on purine metabolism 3955  
inhibition of uridine transport through membrane by anthracycline antibiotics 1811  
pyrrolopyrimidine lethality in relation to RNA synthesis 2686  
sangivamycin incorporation into RNA 259
- Sarcoplasmic reticulum  
biliary muscle, cyclic AMP dependent protein kinase induced calcium uptake 3077  
skeletal muscle, dantrolene binding 965
- Sarin  
inhibited acetylcholinesterase, reactivation by HI-6 1283
- Scalding  
repression of fibrinolysis by Serratia protease 2861
- Scandium  
inhibition of acetylcholinesterase from Electrophorus 1437
- Scorpion venom  
effect on uptake of amino acids by synaptosomes 1875
- Secobarbital  
effect on GABA binding to synaptosomal membranes 2891
- Seizures  
role of glutamate 3144
- Selenium  
interaction with methylmercury in rats 75  
effect on mercuric chloride inhibition of glutathione metabolism in kidney 3093
- Selenium-dependent glutathione peroxidase in mouse liver 2873
- Semicarbazide  
sensitive amine oxidase in dental pulp 2739
- Seminal vesicles  
enkephalin- and substance P-like immunoreactivities in 3519  
effect of histamine H2 receptor antagonists on weight of 677
- Sensitization index  
lipolytic dose-response relationships 721, 737
- Serine peptidase  
rat liver kininase 799
- Serine proteases  
inhibition by steroids 2989
- Serotonergic receptors  
in brain, solubilization 2145
- Serratia protease  
repression of fibrinolysis in scalded rats 2861
- Severe combined immunodeficiency  
adenosine deaminase deficiency 947
- Sex differences  
aflatoxin B1 toxicity 3057  
in conjugation of tiaramide by CR/CD and JCL/SD rats 2433
- Sex differences(contd.)  
o,p'-DDT and methoxychlor imprinting of liver monoamine oxidase 647  
in metabolism of hexachlorobenzene by rats and the development of porphyria in females 3543  
in effects of portocaval anastomosis on hepatic monooxygenases in rats 499
- Sex hormones  
regulation of glutathione S-transferase in brain and liver 3927
- Sheep  
effect of steroids on  $\beta$ -adrenergic binding sites in pineal gland 1369
- Sialidase  
in synaptosome membranes, effect of 5-hydroxytryptamine 1787
- Sialoglycoconjugates  
in synaptosome membranes, displacement of  $Ca^{2+}$  by 5-hydroxytryptamine and serotonergic drugs 1787
- Sisomicin  
interaction with Ca binding 3769
- SKF 525-A  
effect on hepatic glutathione 1829  
effect on lipid peroxidase in liver 1823  
role of cholesterol  $7\alpha$ -hydroxylase in hypobetalipoproteinaemia activity of 2423
- SKF 91488  
inhibition of methylation of histamine analogues 2297
- SKF 92456, 92994, 92629, 93479  
antiandrogenic activity 677
- Skin  
cytochrome P-450 dependent deethylase in microsomes 4011  
7-ethoxycoumarin and 7-hydroxycoumarin metabolism by strips 4005
- Sodium  
dependent uptake of amino acids by synaptosomes, effect of scorpion venom 1875  
excretion by acutely saline-loaded rats, effect of nitrendipine 3015  
in kidney slices, effects of aldosterone and ouabain 2571  
in serum and urine, effect of lead 2913
- Sodium channels  
effect of propranolol and its analogues 1681
- Sodium + potassium + chloride cotransport  
effect of diuretic BTS 39542 2827
- Sodium valproate  
effect on aldehyde reductases and glycerolipid synthesis in brain 2307  
effect on cerebral respiration 1333  
effect on GABA metabolism and behaviour in naive and ethanolamine Q-sulphate pretreated rats and mice 2257
- Soman  
inhibited acetylcholinesterase, reactivation by HI-6 1283  
plasma aliesterase as a depot for 4085

- Sorbitol  
effect on hepatic mixed function  
oxidases 1621
- Sorbose  
entry into erythrocytes, effect of  
chlorpromazine 463
- Sparteine  
spectral binding by cytochrome P-450  
of normal and hydroxylation  
deficient rat strains 3193
- Spasmogens  
effect of dithiothreitol on actions  
in ileum 1946
- Sperm  
enkephalin- and substance P-like  
immunoreactivities in 3519
- Spermidine  
accumulation in lung slices 3029  
cytotoxic effects in MDBK cells 2983  
inhibition of bioenergetic functions  
of liver mitochondria 4045  
reversal of DFMO/bleomycin cures of  
trypanosomiasis 2833
- Spermidine synthase  
in prostate, inhibition by 5'-S-iso-  
butyl-5'-deoxyadenosine 1649
- Spermine  
accumulation in lung slices 3029  
cytotoxic effects on MDBK cells 2983  
inhibition of bioenergetic functions  
of liver mitochondria 4045  
effect on lipid peroxidation in liver  
microsomes 1658  
reversal of DFMO/bleomycin cures of  
trypanosomiasis 2833
- Spermine-derived polycations  
inhibition of lymphocyte DNA-synthetic  
responses 2353
- Spermine synthase  
in prostate, inhibition by 5'-S-iso-  
butyl-5'-deoxyadenosine 1649
- Spinal cord  
effects of morphine on noradrenaline  
turnover in functional regions  
3141  
effect of oxotremorine on subcellular  
distribution of glycine 1013
- Spin labelled membrane proteins  
propranolol-induced changes in  
erythrocyte membranes 691
- Spirolactone  
effect on bilirubin metabolism in  
rat liver and small intestinal  
mucosa 1469  
effect on digitoxin metabolism in  
hepatocytes 2192  
effect of potassium canrenoate on  
renal ATPase 4068
- Spiroperidol  
binding in brain regions 3085  
binding in pituitary, effect of  
tetrahydroisoquinolines 1205
- Spiroperone  
binding to striatal membranes, effect  
of sulpiride and haloperidol 325
- Spleen  
effect of dextran derivatives on  
metal levels in 3051  
effect of *n*-octane and *n*-nonane on  
alkaline phosphatase in 201
- Splenocytes  
effect of dipyrindamole on proliferat-  
ion 1381
- Spontaneously hypertensive rats  
cyclic AMP dependent protein  
kinase isoenzymes in aorta 1837  
ATPase in brain 1156  
effect of nitrendipine on sodium  
excretion 3015
- SQ 20,009  
inhibition of phosphodiesterase  
from cardiac nuclear fraction  
665  
inhibition of phosphodiesterase and  
relaxation of canine tracheal  
smooth muscle 3403
- Statine  
tissue distribution following oral  
and i.v. administration to rats,  
whole body autoradiography 2302
- Steroid protein binding in serum 289
- Steroids  
effect on  $\beta$ -adrenergic receptors in  
sheep pineal gland 1369  
inhibition of serine proteases 2989  
role in human essential hyper-  
tension 893
- Sterol  
synthesis *in vivo*, effect of  
Rowachol 2897
- Stilbene analogues  
effect on enzymes of carbohydrate  
metabolism in liver 1717
- trans-Stilbene oxide  
effect on enzymes of carbohydrate  
metabolism in liver 1717  
induction of cytochrome P-450 in  
liver microsomes 3907  
spectrophotometric assay for  
cytosolic epoxide hydrolase 1979  
effect on UDP-glucuronyltransferase  
in liver 907
- Stomach  
effect of BW755C on prostaglandin  
synthesis 1652  
direct action of LSD on mucosal  
cells 2676  
histamine in 305  
effects of pentagastrin, histamine,  
carbamylcholine and catecholamines  
on gastric secretion, motility  
and emptying 3475
- Stomatocyte membrane fluidization  
3173
- Streptomyces albobogriseolus  
inhibition of propyl hydroxylase  
activity and collagen biosynthesis  
by P-1894B 915
- Streptomycins  
interaction with Ca binding 3769  
effect on kidney lysosomes 3447
- Streptonigrin  
inhibition of phosphoenolpyruvate  
carboxykinase 1123
- Streptozotocin-induced diabetes  
effect of activators of glucuronyl-  
transferase in liver 1944
- Striatum  
carrier-mediated dopamine efflux  
2479  
effects of (-)N-(chloroethyl)-  
norapomorphine on apomorphine  
binding to dopamine receptors  
3693  
DOPA accumulation, effect of U-0521  
3415

- Striatum(contd.)  
 dopamine release by amphetamine and fenfluramine 983  
 dopamine release, role of A and B monoamine oxidases in metabolism of 2961  
 protease-sensitive and -insensitive binding sites on dopaminergic receptors 1343
- Strychnine  
 induced convulsions, effect of glutamate antagonists 3144
- Styrene  
 metabolism by liver, dietary modification 1005
- Substance P  
 effect of dithiothreitol on spasmogenic action in ileum 1946  
 hydrolysis by black widow spider venom gland extract 3323  
 like immunoreactivity of mammalian sperm and accessory glands 3519
- Succinate dehydrogenase  
 in liver, effect of zinc 1289
- Succinate semialdehyde dehydrogenase  
 in brain, effect of aldehyde dehydrogenase inhibitors 3899
- Succinylcholine  
 effect on H<sub>12</sub>-HTX binding to channel sites of acetylcholine receptor in Torpedo membranes 1819
- Sugars  
 protection against alloxan cytotoxicity in hepatocytes 3731
- Sulfamethoxazole  
 binding in uraemic serum, effect of anion exchange resin treatment 3483
- Sulphasalazine-like drugs  
 effect on prostaglandin synthesis and breakdown 969
- Sulphate conjugation  
 of catecholamines in man 3017  
 characterization of inhibitory effect of 2,6-dichloro-4-nitrophenol 1919  
 in extrahepatic tissues 4001  
 of harmol, effect of plasma concentration of inorganic sulphate 3997  
 of harmol in rats, effect of fasting 1941  
 in hepatocytes from butylated hydroxy-anisole treated rats 1907
- Sulphinpyrazone  
 effect on ADP-induced platelet aggregation and reactivity towards prostaglandins 1147  
 role of gut flora in the reduction of in the rat 2649
- Sulphobromophthalein-glutathione  
 biliary excretion rate, effect of diethylmaleate 2669
- Sulphonylureas  
 specific receptors in brain and in a  $\beta$ -cell tumour 1171
- Sulphotransferase  
 in liver, sulphation of minoxidil 2949  
 in lung, isoprenaline conjugation 59
- Sulphoxidation  
 of S-carboxymethyl-L-cysteine in man 3151
- Sulphydryl groups  
 involvement in modulation of cyclic
- Sulphydryl groups(contd.)  
 GMP metabolism in lung 3847  
 involvement in oxidative modulation of lung guanylate cyclase 1239
- Sulphydryl reagents  
 effect on ethacrynic acid sensitive Mg-ATPase in brain 877
- Sulpiride  
 cerebral dopamine supersensitivity after repeated administration 325  
 effect on kynurenine metabolism in liver 2227
- Superoxide  
 release by polymorphonuclear leucocytes, effect of ethacrynic acid 443
- Superoxide anion  
 production by pulmonary macrophages, effect of cyclooxygenase and protease inhibitors 775
- Superoxide dismutase  
 effect on 6-hydroxydopamine toxicity to neuroblastoma cells 181  
 in red blood cells, inhibition by diethyldithiocarbamate 521
- Superoxide radicals  
 mediation of conjugation of dopa and 5-S-cysteinyl dopa with cysteine 2887  
 role in degradation of DNA by copper-phenanthroline complex 2801
- Synaptosomal membranes  
 effect of barbiturates on GABA binding 2891  
 effect of ethanol on phospholipid methylation 3936
- Synaptosomes  
 calcium binding, effect of ethanol 1790  
 calcium uptake, effect of morphine 2697  
 displacement of calcium bound to membranes by 5-hydroxytryptamine and serotonergic drugs 1787  
 dopamine accumulation, effect of monoamine oxidase inhibitors 2195  
 dopamine release by amphetamine, reserpinized rats 1969  
 effect of (D-ala<sup>2</sup>)met.enkephalinamide on acetylcholine and noradrenaline release 455  
 effect of lithium on enzymes in prostaglandin synthesis 1001  
 effect of scorpion venom on amino acid uptake 1875
- Tabun  
 inhibited acetylcholinesterase, reactivation by HI-6 1283
- Tamoxifen  
 metabolism by hepatocytes 2823  
 effect on proline transport in mammary carcinomas 37
- Tamoxifen N-oxide  
 anti-estrogenic activity 2823
- Taurine  
 effect on calcium levels and contractility in guinea pig ventricular strips 3181
- Taurocholic acid

- Taurocholic acid  
 hepatic extraction in rats 205  
 uptake by isolated hepatocytes 211
- Temperature  
 effect on benzo(a)pyrene metabolism  
 by trout liver 561
- Testes  
 effect of estradiol benzoate on heme  
 synthesis and cytochrome P-450  
 3667  
 effect of 2,3,7,8-tetrachlorodibenzo-  
 p-dioxin on heme synthesis and  
 cytochrome P-450 3663  
 effect of  $\Delta^9$ THC on enzymes in 415
- Testosterone  
 effect on cytochrome P-450 and  
 monooxygenases in trout liver 3797  
 effect on glutathione S-transferase  
 in brain and liver 2381, 3927  
 effect of histamine H2 receptor  
 antagonists on action of 677  
 inhibition of serine proteases 2989  
 in serum, effect of portocaval  
 anastomosis 499  
 specific prostatic accumulation 3231
- Testosterone  $\alpha$ - and 16 $\alpha$ -hydroxylases  
 in liver microsomes, effect of  
 isoniazid 4031
- Tetracaine  
 effect on depolarization-induced  
 activation of tryptophan hydroxyl-  
 ase 2495  
 interaction with lipid bilayers 2625  
 effect on osmotic fragility of  
 liposomes 2999  
 promotion of membrane resealing 1784
- 2,3,7,8-Tetrachlorodibenzo-p-dioxin  
 effect on aldehyde-metabolizing  
 enzymes in rat liver 1153  
 induced porphyria in rats 1607  
 inhibition of ornithine decarboxylase  
 3363  
 mediated depression of testicular  
 heme synthesis and microsomal  
 cytochrome P-450 3663  
 effect on nuclear RNA polymerase in  
 rat liver and thymus 2459
- $\Delta^1$ -Tetrahydrocannabinol  
 effect on 5-hydroxytryptamine uptake  
 by platelets 439  
 induced hypotension, inhibition by  
 aspirin 591  
 stimulation of PGE2 synthesis in  
 human lung fibroblasts 2361
- $\Delta^9$ -Tetrahydrocannabinol  
 effect on enzymes in male reproductive  
 organs 415
- Tetrahydrofolates  
 stereospecificity at carbon 6 for  
 membrane transport 1527
- Tetrahydroisoquinolines  
 catecholamine metabolism in adrenal  
 medulla explants 3251  
 effect on pituitary function 1205  
 regulation of phenylethanolamine  
 N-methyltransferase in adrenal  
 medulla explants 3257
- Tetrahydropapaveroline  
 as dopamine antagonist in pituitary  
 1205
- Theophylline  
 effect on cyclic AMP degrading  
 multienzyme sequence 3441
- Theophylline(contd.)  
 effect on histamine release induced  
 by surfactants 2247  
 inhibition of cyclic nucleotide  
 phosphodiesterase and relaxation  
 of canine tracheal smooth muscle  
 3403
- Thiamphenicol  
in vivo effect on mouse liver  
 enzymes 55
- Thiazole riboside  
 mechanism of action on leukemia  
 P388 cells 2371
- Thiazoles  
 effect on mixed function oxidase  
 activity 3002
- Thienopyridinic derivatives  
 human serum binding 831
- Thioacetamide  
 hepatotoxicity, protection by  
 diethyldithiocarbamate and carbon  
 disulphide 2713
- Thioether-containing pesticides  
 FAD-dependent sulfoxidation 745
- 6-Thioguanine  
 resistant L1210 cells, increased  
 sensitivity to methotrexate 3133
- S-Thiolmethyltransferase  
 nonpolar lipid methylation in  
 leukemia, retina and parotid cells  
 753
- Thiols  
 effect on interaction of cyclo-  
 phosphamide metabolites with  
 membrane proteins 3535  
 role in misonidazole-induced  
 inhibition of glycolysis 2345
- Thionein  
 functions of 137
- Thiopurinol nucleotide  
 inhibition of GMP reductase from  
Leishmania donovani 3891
- 4-Thiopyrazolo(3,4-d)pyrimidine  
 antileishmanial action 143
- Thiosangivamycin  
 lethality in relation to RNA  
 synthesis in sarcoma 180 cells  
 2686
- Thioureylene drugs  
 inactivation of thyroid peroxidase  
 3801
- Threo-9-(2-hydroxy-3-nonyl)adenine  
 effect of chirality on adenosine  
 deaminase inhibition 879  
 effect on purine metabolism in  
 sarcoma 180 cells 3955
- Thromboformation  
 in mesenteric artery, enhancement by  
 uric acid 3011
- Thromboxane B2  
 production and platelet aggregation  
 in response to collagen 1158  
 production by platelets, effect of  
 timegadin 2619  
 synthesis in ovalbumin-sensitized  
 and control lung 2381
- Thromboxane synthetase inhibitors  
 effect on amino acid transport in  
 lymphocytes 337
- Thymidine  
 degradation by platelets 2755  
 metabolism in Leishmania donovani 231  
 relationship between nucleotide

- Thymidine(contd.)  
 concentrations and biological parameters in CHO cells 1109
- Thymidine kinase  
 in tumour cells, effect of 5-substituted-2'-deoxyuridines 1089, 3673
- Thymidylate synthetase  
 Ehrlich ascites carcinoma cells, properties 217  
 in L1210 cells, effect of 5-substituted 2'-deoxyuridines 3673
- Thymocytes  
 effect of cis-platinum(II)amines on 933
- Thymus  
 effect of 2,3,7,8-tetrachlorodibenzo-p-dioxin on RNA synthesis 2459
- Thyroid gland  
 effects of adenosine 3763  
 inactivation of peroxidase by thioureylenes 3801  
 phosphatidyl inositol metabolism in, 2237
- Thyroid hormone  
 effect on  $\beta$ -receptor coupled adenylate cyclase in heart and erythrocyte membranes 2463
- Thyroid stimulating hormone  
 effect on phosphatidylinositol metabolism in mouse thyroid 2237
- Thyroliberin analogue CG 3703  
 effect on noradrenergic and serotonergic transmission in rodents 2430
- Thyrotropin releasing hormone  
 effect on prolactin production and regulation 2845
- Tiadenol  
 effect on lipid metabolizing enzymes, CoASH and long chain acyl-CoA in liver 3930
- Tiaramide  
 sex differences in conjugation by CR/CD and JCL/SD rats 2433
- Ticlopidine  
 effect on ADP-induced platelet aggregation and reactivity towards prostaglandins 1147  
 human serum binding 831  
 interaction with erythrocyte membrane 3949
- Timegadine  
 effect on arachidonic acid release and metabolism in neutrophils and platelets 2619
- Tityus venom  
 effect on synaptosomal amino acid uptake 1875
- Tobacco  
 oral consumption, effect on metabolism of xenobiotics 1595, 3683
- Tobramycin  
 effect on kidney lysosomes 3447  
 interaction with Ca binding 3769
- d- $\alpha$ -Tocopherol  
 specific binding to erythrocyte membrane 3455
- Tolbutamide  
 effect on insulin binding to isolated fat cells 1227  
 effect on pancreatic B cells 1407  
 receptors in brain and  $\beta$ -cell tumour 1171
- p-Tolualdehyde  
 interaction with liver mitochondria 2025
- Toluene  
 metabolism by liver, dietary modification 1005
- Torpedo ocellata  
 binding of depolarizing drugs to ionic channel sites of nicotinic acetylcholine receptor 1819
- L-1-Tosylamido-2-phenylethylchloromethyl ketone  
 effect on phorbol stimulation of oxygen consumption and superoxide production by pulmonary macrophages 775
- N- $\alpha$ -p-Tosyl-L-lysine chloromethyl ketone  
 effect on phorbol stimulation of oxygen consumption and superoxide production by pulmonary macrophages 775
- Toxicity  
 cell and organ selective, role of free radicals 3335
- Trace elements  
 in liver, effect of disulfiram 3613
- Tracheal smooth muscle  
 inhibition of phosphodiesterase and muscle relaxation 3403
- Tramadol  
 effect on inactivation of noradrenaline and 5-hydroxytryptamine 1654
- Transcortin  
 prednisolone binding 289
- Transhydrogenase  
 in liver, effect of mitochondrial translocase inhibitors 3645
- Transketolase  
 in brain, effect of moniliformin 79
- Translocase inhibitors  
 effect on liver transhydrogenase 3645
- Transmembrane pH gradient and potential  
 effect on uptake of sympathomimetic amines by chromaffin granules 815
- Transport protein  
 for glucose in human erythrocytes 1925
- Tranlycypromine  
 inhibition of hepatic drug metabolism in rat 2679  
 inhibition of synaptosomal accumulation of dopamine 2195  
 effect on prostaglandin D2 in brain 1783
- Tremorgenic mycotoxin  
 effect on amino acid transmitter release in vivo 2807
- Triamcinolone  
 inhibition of serine proteases 2989
- Triazenes  
 metabolism of 1-(4-acetylphenyl)-3,3-dimethyltriazene in mice 1887
- 2,2',4'-Trichloroacetophenone  
 glutathione-dependent reductive dehalogenation 3885
- 1,1,1-Trichloro-2-(o-chlorophenyl)-2-(p-chlorophenyl)ethane  
 altered imprinting of liver monoamine oxidase 647
- Trichloroethylene  
 hepatotoxicity, protection by

- Trichloroethylene(contd.)  
 diethyldithiocarbamate and carbon disulphide 2713  
 effect on 5-hydroxytryptamine uptake by lung 353  
 metabolism by liver, dietary modification 1005  
 reactive metabolites and carcinogenicity 1  
 2,4,5-Trichlorophenoxyacetic acid  
 effect on kidney mitochondria 149  
 Trichloropropane oxide  
 effect on benzo(a)pyrene metabolism by adrenal and hepatic microsomes 639  
 Tricyclic antidepressants  
 assay in plasma, inhibition of 5-hydroxytryptamine binding to platelets 1661  
 effect of phenobarbital on plasma binding 1749  
 Trifluoperazine  
 effect on adrenal glomerulosa cells 1267, 3705  
 binding to calmodulin 419  
 effect on formation of coat structure from clathrin 793  
 inhibition of phosphodiesterases from cardiac nuclear fraction 665  
 interaction with phospholipids 2977  
 6,3',4'-Trihydroxy-5,7,8-trimethoxy-flavone  
 inhibition of lens aldose reductases 3807  
 Triiodothyronine  
 effect on adenylate cyclase in heart membranes 2463  
 5'-deiodination in liver 1705  
 Trimethoprim  
 binding in uraemic serum, effect of anion exchange resin treatment 3483  
 Trimetoquinol isomers  
 antiplatelet action 886  
 Triphenylbromoethylene antiestrogen  
 LN 1643, mode of action 3187  
 Triton X-100  
 induced histamine release 2247  
 Troleandomycin  
 effect on human hepatic drug metabolizing enzymes 1699  
 Tropesin  
 effect on lysosomal enzyme release from PMN and level of cyclic AMP and cyclic GMP after phagocytosis of urate crystals 460  
 Trout  
 effect of polychlorinated biphenyls and environmental temperature on benzo(a)pyrene metabolism by liver 561  
 effect of steroids on cytochrome P-450 in liver 3979  
Trypanosoma cruzi  
 adenylosuccinate synthetase and lyase from 225  
 Trypanosomiasis  
 combination therapy using bleomycin and  $\alpha$ -difluoromethylornithine 2833  
 Trypsin  
 inhibition by steroids 2989  
 Tryptophan  
 induced hypoglycaemia 3563, 3571  
 Tryptophan(contd.)  
 effect of uraemic metabolites on binding with HSA 319  
 Tryptophan ethyl ester  
 inhibition of glucose transport in erythrocytes 1925  
 Tryptophan hydroxylase  
 in brain, role of calcium in depolarization induced activation 2495  
 in brain stem, effect of haloperidol on dibutyryl cyclic AMP induced increase in activity 2203  
 Tryptophan methyl ester  
 inhibition of glucose transport in erythrocytes 1925  
 Tubercidin  
 toxicity and tissue distribution in mice, effect of nitrobenzylthioinosine 5'-monophosphate 1863  
d-Tubocurarine  
 transport in hepatocytes, isolated perfused liver and liver *in vivo* 1553  
 Tubulin  
 in L1210 cells, inhibition of metabolism by pseudouridine-dicarboxaldehyde 273  
 effect of organophosphorus neurotoxicants on cyclic AMP dependent phosphorylation 2065  
 Tumour-bearing rats  
 hepatic microsomal hemeptoteins 1535  
 Tumour cells  
 toxicity of carrier-bound methotrexate 3513  
 Tween 20  
 induced histamine release 2247  
 Tyramine  
 uptake by chromaffin granules and ghosts 815  
 Tyrosine  
 brain capillary transport in lead-intoxicated rats 1881  
 catecholamine synthesis in brain slices 3289  
 effect of haloperidol and apomorphine 3297  
 raised urinary catecholamines 3577  
 uptake and metabolism by adrenal medulla explants, effect of tetrahydroisoquinoline carboxylic acids 3251  
 Tyrosine hydroxylase  
 in adrenal  
 effect of  $\text{Ca}^{2+}$  1729  
 HPLC-ED method for measuring activity 1729  
 in neuroblastoma N1E-115 cells, action of dopamine agonists 1279  
 in striatum  
 effect of haloperidol 2599  
 model system for study of presynaptic dopamine receptors 2643  
 Ubiquinone-9  
 formation in basophilic leukemia cells 753  
 UK 34787  
 effect on collagen induced platelet aggregation 1158

- Uraemia  
   drug binding 319, 2791, 3483  
 Urate oxidase  
   in liver, effect of clofibrate 1650  
 Uric acid  
   enhancement of arterial thrombo-  
   formation 3011  
 Uridine  
   inhibition of transport through  
   sarcoma 180 cell membrane by  
   anthracycline antibiotics 1811  
 Uridine analogues  
   5- and/or 6-substituted, substrates  
   for pyrimidine ribonucleoside  
   phosphorylase 1097  
 Uridine-cytidine kinase  
   in human colorectal adenocarcinomas  
   2485  
 Uridine diphosphate glucuronyltrans-  
   ferase  
   in intestine microsomes 2701  
   effect of spironolactone 1469  
   in liver microsomes 2701  
   conjugation of digitoxigenin  
   monodigitoxide 2285  
   functional heterogeneity in C57BL/6  
   and DBA/2 mice 1273  
   Gunn rats 1792  
   induction of 907  
   effect of maternally administered  
   methadone 2941  
   effect of neonatal administration  
   of o,p'-DDT and methoxychlor 647  
   relationship with aflatoxin B1  
   toxicity in male and female rats  
   3057  
   streptozotocin-diabetic rats,  
   effect of activators 1944  
 Uridine phosphorylase  
   inhibition by 5-benzylacetylouridines  
   1857  
 Uterus  
   effect of drugs that affect prolactin  
   secretion on estradiol binding 707  
   mode of action of LN 1643 3187  
   effect of P-1894B on collagen  
   synthesis 915  
 Valproic acid  
   anticonvulsant and biochemical  
   effects in mice 837  
   effect on  $\gamma$ -hydroxybutyrate and GABA  
   in brain 3917  
   inhibition of pyruvate uptake by  
   brain mitochondria 1633  
 Vanadate  
   stimulation of adenylate cyclase in  
   erythrocytes 843  
 Vanadium +5,+4,+3  
   effect on cardiac force of contraction  
   adenylate cyclase and ATPase 3853  
 Vascular permeability  
   effect of systemic prostaglandin  
   treatment 3126  
 Vas deferens  
   regulation of catecholamine  
   synthesis 653  
 Vasopressin  
   effect on phosphatidic acid formation  
   in hepatocytes 2663  
 Verapamil  
   effect on adrenal glomerulosa cells  
   Verapamil(contd.)  
   1267  
   effect on dantrolene binding to  
   sarcoplasmic reticulum 965  
   enhancement of vincristine- and  
   adriamycin-induced cytotoxicity  
   in P388 leukemia and its  
   sublines 3138  
   inhibition of phencyclidine binding  
   to crayfish muscle 2549  
   effect on tyrtpropan hydroxylase  
   activation in brain 2495  
 Vero cells  
   HSV-1 infected, 1- $\beta$ -D-2'-fluoro-  
   arabino-5-iodocytosine metabolism  
   in 767  
   phosphorylation of acyclovir 3879  
 Verruculogen  
   effect on amino acid transmitter  
   release *in vivo* 2807  
 Vincristine  
   cytotoxicity in P388 cells, enhance-  
   ment by verapamil 3138  
 Vinyl bromide  
   reactive metabolites and  
   carcinogenicity 1  
 Vinyl chloride  
   reactive metabolites and  
   carcinogenicity 1  
 Vinyl fluoride  
   reactive metabolites and  
   carcinogenicity 1  
 $\gamma$ -Vinyl GABA  
   anticonvulsant and biochemical  
   effects in mice 837  
   effect on  $\gamma$ -hydroxybutyrate and  
   GABA in brain 3917  
 Vinylidene chloride  
   metabolism by hepatic microsomal  
   cytochrome P-450 2083  
   reactive metabolites and  
   carcinogenicity 1  
 Vinylidene fluoride  
   reactive metabolites and  
   carcinogenicity 1  
 Vinylous  $\alpha$ -ketoacids  
   enzyme inhibition and toxic action  
   79  
 Vitamin C  
   effect on aflatoxin B1 and G1  
   metabolism in guinea pig liver  
   2327  
 Vitamin K  
   antagonism by warfarin, difenacoum  
   and brodifacoum in rabbit 3635  
 Walker 256 carcinoma cells  
   correlation of acetate binding and  
   alkylating agent resistance 3991  
   potentiation of growth inhibitory  
   effects of cyclic AMP analogues  
   by homocysteine 979  
 Walker 256 tumour-bearing rats  
   hepatic microsomal hemeproteins  
   1535  
 Warfarin  
   albumin binding 3781  
   binding to  $\alpha$ 1-acid glycoprotein  
   3687  
   vitamin K antagonism 3635  
 Wool growth  
   pineal  $\beta$ -adrenoceptors in sheep 1369

- Xanthine
  - metabolism in Leishmania donovani 231
- Xanthine oxidase
  - activation of nitrofurantoin 3723
  - increase in activity in infected mice 3115
  - nitroimidazoles as anaerobic electron acceptors for 3237
- Xanthosine monophosphate analogues
  - inhibition of GMP reductase from Leishmania donovani 3891
- Yeast
  - mutagenicity of ellipticine and its derivatives 2161
- Yohimbine
  - binding to human platelets 2591
  - effect on potassium release from parotid cells 2197
- Yoshida sarcoma cells
  - correlation of acetate binding and alkylating agent resistance 3991
- Yttrium
  - inhibition of acetylcholinesterase from Electrophorus 1437
- Zimelidene
  - uptake by perfused lung and inhibition of 5-hydroxytryptamine uptake 3116
- Zinc
  - effect on binding of gold(I) to metallothioneins in liver and kidney 2153
  - in liver
    - effect on cadmium metabolism 1761
    - effect of disulfiram 3613
  - role in mitochondrial function 1289
- Zinc-metallothionein synthesis 137
- Zinc-thion
  - in liver, induction by dextran derivatives 3051
