

ERRATA

Biochemical Pharmacology, **32**, 714–717 (1983).

JOHAN VELEMA, GERT R. BOLT and JOHAN ZAAGSMA. Cyclic AMP induced stimulation and inhibition of Ca^{2+} -uptake in rat cardiac sarcolemma vesicles.

The authors regret that an error occurred in the first sentence of the legend for Fig. 3.

The sentence should have read:

Phosphorylation of SL protein in dependence of the PK/SL ratio.

Biochemical Pharmacology, **32**, 1454–1456 (1983).

GERALD FRENKEL and LISA HARRINGTON. Inhibition of mitochondrial nucleic acid synthesis by methyl mercury.

The publishers regret that, as the result of an error by the typesetters, the last two lines on p. 1454 were missing. The last sentence of p. 1454 should have read:

To further examine the specificity of this phenomenon, it was of interest to examine the effects of MeHg on nucleic acid synthesis *in vitro* in isolated mitochondria.
