

Biochemical Pharmacology

(FOUNDED BY SIR RUDOLPH A. PETERS*)

SUBJECT INDEX FOR VOLUME 34, 1985

PREPARED BY W. COCKS

Pergamon Press

Oxford • New York • Frankfurt

BIOCHEMICAL PHARMACOLOGY

SUBJECT INDEX FOR VOLUME 34, 1985

- Acebutolol
 effect on cyclic nucleotide metabolism in heart 1659
- Acetaldehyde
 in blood, effects of ethanol, pyrazole, cyanamide and disulfiram 3979
 blood-testis barrier 685
 embryotoxicity 529
 in kidney, effects of γ -glutamyltranspeptidase inhibitor and glutathione 3781
 inhibition of cholecystokinin-induced amylase secretion from acini 2859
 in liver, effect on ethanol elimination rate in rats 3577
 oxidation in liver, effect of disulfiram 1529
- 2-Acetamido-p-benzoquinone 2871
- Acetaminophen
 effect of copper(II)(3,5-diisopropylsalicylate)₂ on hepatotoxicity of glucuronidation and sulfation rates in hepatocytes 2573
 metabolism by liver microsomes, effect of ethanol consumption 3427
 metabolism by perfused liver 12hr after overdose 3729
- Acetaminophen + allyl alcohol
 potentiated hepatotoxicity 727
- Acetanilide
 effect on 2-acetylaminofluorene-mediated loss of liver N-hydroxy-2-acetylaminofluorene sulfotransferase activity 3380
- Acetanilide 4-hydroxylase
 in human MCF-7 and mouse Hepa-1 cell lines, induction by polycyclic aromatic compounds 2721
- Acetazolamide
 effect on indole metabolism in pineal gland 3198
- Acetonemia
 haloethylene-induced, interaction of reactive metabolites with coenzyme A 1981
- 4-Acetoxyandrostene-3,17-dione
 aromatase inhibition 3213
- 4-Acetylaminobiphenyl
 glucuronidation of metabolites by liver microsomes 837
- 2-Acetylaminofluorene
 effect on epoxide hydrolase in cultured hepatocytes and hepatoma cells 1537
 effect on epoxide hydrolase in liver microsomes 1795
 glucuronidation of metabolites by liver microsomes 837
- 2-Acetylaminofluorene(contd.)
 effect on hepatic monooxygenase activities in chick embryo 2669
 mediated lowering of liver N-hydroxy-2-acetylaminofluorene sulfotransferase, effect of sulfotransferase inhibitors 3380
 teratogenicity and biotransformation 2953
- Acetylcholine
 effect on catecholamine secretion in adrenal medulla 1497
 inhibition of striatal adenylate cyclase, effect of ethanol 4329
 effect on oxygen consumption in adrenal medulla 211
 release from brain, effect of thyroliberin 1341
- Acetylcholine receptor
 photoaffinity labelling 2821
- Acetylcholine receptor, muscarinic
 in brain
 effect of atropine, aprophen and benactyzine 1577
 effect of dihydropyridine drugs 175
 ellipticine interaction 1701
 gallamine interaction 2214
 HI-6 and 2-PAM binding 2815
 in intact cells 4299
 in cultured muscle cells, effect of phencyclidine and analogue drugs 949
 in gastric fundic mucosal cells 2269
 in heart, effect of atropine, aprophen and benactyzine 1577
 in ileum, effect of atropine, aprophen and benactyzine 1577
 in pancreas, caerulein modulation 1057
 presynaptic heteroreceptors 467
 triethylphenidyl and subclassification 588
- Acetylcholine receptor, nicotinic
 in frog skeletal muscle, effect of bisulphite ion 637
 Torpedo electroplax, histrionicotoxin interaction 3037
- Acetylcholinesterase
 acceleration of decarbamylation by bispyridinium oximes 4337
 in brain
 effect of aprophen 1577
 inhibition by soman isomers 1945
 in caudate nucleus, interaction with trivalent cations 533
- eel
 ethyl methylphosphonylated, reactivation 3606

- Acetylcholinesterase
 eel(contd.)
 inhibition by meptazinol 1579
 erythrocytes, inhibition by meptazinol 1579
 inhibition by neurotoxic aminonitriles 3185
 peptidase activity 1347
 platelets, solubilization by phosphatidyl-inositol specific phospholipase C 4109
 soman-inhibited, aging and stereospecific reactivation 142
 in synaptosomes and erythrocyte membranes, effect of tetracaine 2599
- γ -Acetylenic GABA
 effect on hole-board exploration and temperature 3789
- N-Acetylserotonin
 formation in pineal gland, effect of anticonvulsant drugs 3198
- Acholeplasma laidlawii
 effect of positively charged local anaesthetics on membrane-bound phosphatase in 1917
- α_1 -Acid glycoprotein
 antiarrhythmic drug binding 4279
 auramine O as a probe for basic drug binding 821
 propranolol binding
 HPLC 4331
 modification by serum albumin 1591
- Acid phosphatase
 in MDBK cells, effect of vanadium 2465
- Acivicin
 inactivation of hepatoma formylglycin-amidine ribonucleotide synthetase 243
 inactivation of human colon carcinoma carbamoyl-phosphate synthetase II 97
- Aclacinomycin A
 ethylene production from methional 977
- Acquired immunodeficiency syndrome
 inhibition of HTLV-III/LAV replication by foscarnet 4075
- 4'-(9-Acridinylamino)methanesulfon-m-aniside
 fluorescence labelling of human red cell membrane ghosts 3265
- Acrolein
 hematopoietic stem cell sensitivity to 3465
 inactivation of pulmonary NAD⁺-dependent 15-hydroxyprostaglandin dehydrogenase 4275
- Acrylamide
 mixed-function oxidase modifiers and neurotoxicity of 1099
- Actin
 effect of NCO-700 on ischaemia-induced degradation 3875
- α -Actinin
 effect of NCO-700 on ischaemia-induced degradation 3875
- Actinomycin D
 binding to liver DNA, isotherms for 1854
 effect on cytochrome P-450 in liver microsomes of fasted rats 3661
 DNA interactions in cultured fibroblasts 2741
- Actinomycin D analogues
 effect on nucleolar phosphoprotein B23 4049
- Actomyosin
 superprecipitation, effects of ADP and Actomyosin(contd.)
 ethanol 203
- Acute phase response
 turpentine-induced, effect of ethanol 525
- Acute renal failure
 effect on hepatic uptake and metabolism of propranolol 2679
- Acyclovir
 metabolism in herpes simplex virus infected cells 1049
- Acyl CoA:cholesterol acyltransferase
 in glioblastoma cells, effect of U18666A 1305
- Acyl-CoA dehydrogenase
 in kidney, effect of diabetes 4305
- Acyl-CoA hydrolases
 in liver, long-term effects of clofibrilic acid 325
- Acyl glucuronides
 fate in the rat 451
- Adenocarcinoma cells HCT-8
 tiazofurin and selenazofurin activity 1109
- Adenosine
 effect on antiplatelet drug effects in blood 3965
 bone resorption 937
 5'-halogenated analogues, substrates for 5'-deoxy-5'-methylthioadenosine phosphorylase 361
^{N6} substitution, regulation of tyrosine hydroxylase in adrenal 2621
 effect on synaptosomal calcium uptake 713
 uptake by adipocytes, effect of methyl-xanthines and non-xanthine phosphodiesterase inhibitors 2891
 uptake and release from synaptosomes, effect of barbiturates 1619
- Adenosine deaminase deficiency
 dATP accumulation by lymphocytes and thymocytes 3561
- Adenosine diphosphate
 action on muscle proteins *in vitro* 203
- Adenosine diphosphate - Fe
 induced lipid peroxidation in hepatocytes, effect of Pz51 1185
- Adenosine-diphosphoribosyl transferase
 in T. brucei, role in antigenic variation 4151
- Adenosine-homocysteine
 control of cyclic AMP in brain 1435
- Adenosine-3',5'-monophosphate
 accumulation in erythrocytes, effect of plasma 3767
 accumulation in thyroid cells, effect of tetradecanoyl phorbol-13-acetate 3795
 effect on arachidonic acid metabolism in aortic endothelial cells 119
 in arterial smooth muscle, effect of prostaglandins 295
 in brain, effects of adenosine and homocysteine 1435
 in colliculus inferior of audiogenic seizure-prone rats 2043
 in fat cells, effects of isoproterenol and forskolin 843
 formation in developing chick heart, inhibition by muscarinic agonists 1321
 formation in NIE-115 cells, ethanol inhibition of forskolin stimulation 3655
 effect on heme oxygenase induction in chick embryo hepatocytes 2937
 involvement in striatal tyrosine hydroxylase regulation 2637

- Adenosine-3',5'-monophosphate (contd.)
 in liver fluke, effect of forskolin 1683
 in lung, butylated hydroxytoluene damaged, effect of aminophylline 4269
 metabolism in heart, effect of β -adrenoceptor antagonists 1659
 production in NG108-15 cells, effect of tunicamycin and cycloheximide on etorphine inhibition of 9
 in renal papillary collecting tubule cells, effect of phosphodiesterase inhibitors 1565
 in thyroid, regulation by carbamylcholine 1429
- Ca^{2+} -Adenosine triphosphatase
 in caudate nucleus 3591
 in coronary artery 2417
 effect of nitroglycerin 1857
 in synaptosomes, effect of nicotine 3445
- $\text{Ca}^{2+}, \text{K}^{+}$ -Adenosine triphosphatase
 in heart, effect of adriamycin 4033
- $\text{Ca}^{2+}, \text{Mg}^{2+}$ -Adenosine triphosphatase
 in heart, effect of calcium antagonists 195, 3837
 in sarcoplasmic reticulum, effect of phenothiazines 4245
- $\text{H}^{+} + \text{K}^{+}$ -Adenosine triphosphatase
 gastric fundic mucosa microsomes
 inhibition by fenothiazine 2331
 effect of omeprazole 2967
- Mg^{2+} -Adenosine triphosphatase
 in brain microsomes, ethacrynic acid sensitive 1705
 in caudate nucleus 3591
 in coronary artery and aorta microsomes 2417
 in heart mitochondria, inhibition by propranolol 911
 in kidney basolateral plasma membranes 2275
- Na^{+} -Adenosine triphosphatase
 in kidney basolateral plasma membranes 2275
- $\text{Na}^{+}, \text{K}^{+}$ -Adenosine triphosphatase
 in adrenal, contribution to acetylcholine-enhanced oxygen consumption 211
 ascorbic acid, endogenous inhibitor 2525
 in heart
 relationship with ouabain binding 3701
 effect of semisynthetic cardenolides and natural glycosides 2541
 species differences in temperature dependence 2343
 in kidney basolateral plasma membranes 2275
 in kidney proximal tubular cells, young and old rats 4197
 in L1210 leukemia cells, effect of adriamycin 1501
 in liver plasma membranes, effect of ethanol 2685
 in synaptic membrane, inhibition by melittin 2335
- $\text{Na}^{+}, \text{K}^{+}, \text{Mg}^{2+}$ -Adenosine triphosphatase
 in synaptosomes, effect of nicotine 3445
- Adenosine triphosphate
 in brain in posthypoglycaemic recovery, effect of aging 1477
 effect on endocytosis of asialo-glycoproteins in hepatocytes 1639
 in erythrocytes, effect of nitrofurantoin 1963
 requirement for leukotriene production by leukocytes 3095
- Adenosine triphosphate γ S
 effects on synaptosomes 1247
- S-Adenosylethionine
S-Adenosylethionine
 in rat tissues, effect of ethionine 373
- S-Adenosylmethionine
 in rat tissues, effect of ethionine 373
- Adenylate cyclase
 in aorta, diabetes and hormone sensitivity 2013
 in erythrocytes, effect of plasma 3767
 in heart
 effect of β -adrenoceptor antagonists 1659
 diabetes and hormone sensitivity 2013
 effect of vanadate 1543
 in liver
 diabetes and hormone sensitivity 2013
 sucrose-induced inhibition of β -receptor coupling 623
 in liver fluke, forskolin activation 1683
 in NG108-15 cells, effect of tunicamycin and cycloheximide on etorphine inhibition of 9
 in NEI-115 cells, ethanol inhibition of forskolin stimulation 3655
 in platelets, effect of lipoproteins 2451
 in striatum
 effects of clopazine and haloperidol 2755
 effect of ethanol on inhibition by morphine, Leu-enkephalin and acetylcholine 4329
- Adipocytes
 effect of anaesthetic alcohols on 2-deoxyglucose transport 1079
 dual effect of isoprenaline on glucose transport and response to insulin 649
 effect of methylxanthines and non-xanthine phosphodiesterase inhibitors on low K_m cyclic AMP phosphodiesterase 2891
 tolerance to antilipolytics 275
 uptake of lipophilic model compounds 3683
- Adrenal gland
 effect of acetylcholine on catecholamine secretion 1497
 effect of angiotensin II on arachidonate metabolism in glomerulosa cells 3439
 anti-steroidogenic effect of cyproterone acetate 2091
 characterization of solubilized benzodiazepine binding sites 167
 effects of α -difluoromethylornithine on polyamine biosynthesis and tyrosine hydroxylase induction 1315
 endogenous inhibitors of isolated $\text{Na}^{+}, \text{K}^{+}$ -ATPase 2525
 effect of Mg^{2+} -methyladenosine on tyrosine hydroxylase 2621
 oxygen consumption in medulla, effect of acetylcholine 211
 effect of spironolactones on steroidogenesis 189
- Adrenaline
 induced hyperglycaemia in rats and effect of methyl palmoxirate 2217
 effect on insulin secretion 985
 secretion by adrenal, effect of acetylcholine 1497
- β -Adrenergic agonist
 BRL 26830, anti-hyperglycaemic action 1279
 effect on protein synthesis in salivary gland 4229
- α 2-Adrenergic antagonists
 effect on monoamine synthesis in brain 1093
- β -Adrenergic antagonist

- β -Adrenergic antagonists
 effect on cyclic nucleotide metabolism in heart 1659
 inhibition of lysosomal phospholipase A₁ 521
 stereoselectivity and polymorphic oxidation in vivo and in vitro 399
- Adrenergic-cholinergic agonists
 regulation of cerebrovascular γ -glutamyl-transpeptidase 4177
- Adrenergic ligands
 binding in human serum 2812
- α -Adrenergic receptor
 brain, effect of dihydropyridine drugs 175
- α_1 -Adrenergic receptor-phosphoinositide coupling in brain during development 2705
- α_2 -Adrenergic receptors
 in ileal mucosa 3867
 in platelets, arylazide photoaffinity probe for 3667
- β -Adrenergic receptors
 in brain
 effects of desmethylinipramine and electroconvulsive shock 679
 effect of stimulation on 5-HT₂ receptor density 1585
 in erythrocytes
 agonist/N-ethylmaleimide mediated inactivation 1611
 guanabenz affinity for 491
 effect of plasma 3767
 in heart
 affinity and selectivity 2883
 masking by noradrenaline 2917
 in kidney, characterization of subtypes 3951
 in liver, sucrose inhibition of coupling to adenylate cyclase 623
 in lung, agonist/N-ethylmaleimide mediated inactivation 1611
 in mammary gland 2034
- Adrenocortical cells
 prevention of loss of 11 β -hydroxylase by phenols 865
- Adrenocorticotropin
 stimulated cortisol production by adrenal cells, effect of cyproterone acetate 2091
- Adrenocorticotropin 1-17
 effect on DNA synthesis in murine metaphyseal bone 1191
- Adrenocorticotropin 1-24
 inhibition of myelin basic protein peptide 43-88 degradation 1231
- Adriamycin
 cardiomyopathy 4033
 ethylene production from methional 977
 free radical damage to deoxyribose 4099
 effect on free radical production from cardiac sarcosomes 669
 inhibition of Ca²⁺-cardiolipin-containing liposomes interaction 4291
 effect on mitochondrial membrane lipid peroxidation 847
 model membrane interaction 4025
 regulation of resistance to 1471
 resistant Chinese hamster lung cells, phosphorylation of membrane proteins 4180
 toxicity in human ovarian carcinoma cells, effect of glutathione depletion 2583
 transport by passive diffusion 593
 effect on tumour cell membrane function 1501
- Aflatoxin B₁
 binding in liver, phenobarbital imprinting 1007
 effect on epoxide hydrolase in liver microsomes 1795
 effect on liver drug metabolizing enzymes 425
 metabolism by human liver 3193
 effect on translocation in isolated hepatocytes 4184
- Aflatoxin B₁ - aflatoxicol interconversion erythrocytes 2566
- Aging
 ATPases in kidney 2275, 4197
 cerebral energy metabolism in posthypoglycaemic recovery 1477
 cholesterol and phospholipid levels in brain and membrane lipid microviscosity 1120
 cytochrome P-450 species in rat liver microsomes 1861
 hepatic glutathione S-transferases 3891
 hepatic mixed function oxidase system in Macaca nemestrina 2983
 prostanoid metabolism in rat kidney 223
 sex difference in liver drug metabolism 579
- Aglycones
 UDP glucuronyltransferase activities for 2235
- Ah locus
 benzo(a)pyrene metabolism correlated with 1821
- Ah receptor
 lack in human MCF-7 cells 2721
- Alanine
 release from skeletal muscle, effect of 3-aminopicolinate 2032
- Albumin
 bovine serum, binding of dyes 2439
 effects on drug-cell interaction 747
 human serum
 aurothiosulphate binding 4319
 diclofenac binding 1695
 fatty acid-induced heterogeneity 3299
 ligand binding 1999
 modification of propranolol binding to α_1 -acid glycoprotein 1591
 oxazepam binding 2115
- Albumin-dinitrophenyl conjugates
 metabolic fate in rats 1763
- Alcohol dehydrogenase
 in liver
 effect of castration on turnover 369
 human, high molecular weight aldehyde reductase 107
 nitrobenzyl alcohol metabolism 4163
 effect of propylthiouracil 2377
 effect of redox state and acetaldehyde concentration 3577
 sex and species differences 2385
 effect of triiodothyronine 2291
 role in swift increase in alcohol metabolism in deermice 3523
- Alcohols
 effect on deoxyglucose transport in adipocytes 1079
 effect on folate metabolism and enterohepatic circulation 1
 microsomal pathways of oxidation 2929
- Aldehyde dehydrogenase
 base for sensitivity of murine hematopoietic stem cells to oxazaphosphorines 3465

- Aldehyde dehydrogenase(contd.)
 in liver
 clofibrate-induced 471
 cyanamide inactivation 1197
 effect of disulfiram 1529
 effect of triiodothyronine 2291
- Aldehyde oxidase
 in liver, inhibition by hydralazine 4251
- Aldehyde reductases
 human liver, purification, substrate specificity 107
- Aldose reductase
 chicken muscle, inhibition of 2961
- Aldosterone
 biosynthesis in adrenal, effect of mineralocorticoid antagonists 189
- Aldrin epoxidase
 in liver microsomes
 effect of 1,4-bis(2-(3,5-dichloro-pyridyloxy))benzene and analogues 3485
 dog 3137
- Alkaline phosphatase
 in calvariae
 effect of chlorpromazine 2389
 effect of phenothiazine derivatives 3885
 in osteoblastic cells, effect of chlorpromazine 2389
- Alkaline protease
 in kidney, degradation of myelin basic protein peptide 43-88 1231
- N-Alkylamines
 iminium ion generation from 2055
- N-n-Alkylhydroxybenzylamine derivatives
 inhibition of GABA and 5-HT uptake systems in rat brain 4173
- N-n-Alkyl phenylethylamine derivatives
 inhibition of GABA and 5-HT uptake systems in rat brain 4173
- Allopurinol
 effect on neutrophil superoxide production, chemotaxis or degranulation 3673
- Alloxan-induced diabetes
 mice, inhibition by butylated hydroxy-anisole 3601
- Allyl alcohol + acetaminophen
 potentiated hepatotoxicity 727
- Allylamines
 effect on growth and sterol synthesis of Leishmania mexicana mexicana promastigotes 3785
- Allylisopropylacetamide
 effect on monooxygenase activities in chick embryo liver 2669
- Almitrine
 effect on cerebral energy metabolism in posthypoglycaemic recovery 1477
- Alprenolol
 inhibition of propranolol binding in human serum 2812
- Alrestatin
 inhibition of chicken muscle aldose reductase 2961
- Amaranth
 biliary elimination, germ-free rats 857
- Amastatin 1347
 inhibition of enkephalin-degrading enzymes 3179
- Ametantrone
 interaction with DNA 4203
- Amfonelic acid
 interaction with neuroleptics 39
 effect on nigral substance P-like immunoreactivity 3161
- D-Amino acid oxidase
 in liver, effect of valproic acid 1357
- Amino acids
 in chick embryo, effect of diazinon 1937
- 2-Aminoanthracene
 binding to mouse lung DNA, effect of arylhydrocarbon hydroxylase induction 545
- 3-Aminobenzamide
 effect on antigenic variation of Trypanosoma brucei 4151
- γ -Aminobutyric acid
 benzodiazepine interaction 3399, 3633
 release from nigral slices, effects of dopamine and dopamine agonists 2655
 in synaptosomes in discrete brain areas, effects of drugs 1747
 uptake in brain, effect of N-n-alkylbenzylamine and N-n-alkylphenylethylamine derivatives 4173
- γ -Aminobutyric acid receptor
 calf brain synaptic membranes, muscimol binding 3553
 photolabelling 2821
- γ -Aminobutyric acid receptor channel drugs
 binding to Cl⁻ channel in Torpedo electric organ 2579
- γ -Aminobutyric acid transaminase inhibitors
 effect on hole-board exploration and on temperature 3789
- 2-Amino-6,7-dihydrotetralin
 effect on GABA release from striatal slices 2655
- Aminoglutethimide
 aromatase inhibition 3213
- Aminoglycoside
 interaction with lipid layers 1035
 subcellular distribution in kidney 1779
- 5-Aminomitonafide
 induced DNA damage in L1210 cells 3845
- 2-Aminonaphthalene
 glucuronidation of metabolites by liver microsomes 837
- 6-Aminonicotinamide
 effects on cell growth and nucleotide metabolism 3999
 effects on ornithine decarboxylase in developing brain 3281
- Aminonitriles
 inhibition of acetylcholinesterases 3185
- Amino-oxyacetic acid
 effect on hole-board exploration and temperature 3789
 effect on synaptosomal GABA levels in discrete brain areas 1747
- Aminopeptidases 1347
 intestine, separation and inhibition by arphamenine A 3179
- Aminopeptidase M
 vascular plasma membrane, metabolism of vasoactive peptides 2309
- Aminophylline
 attenuation of pulmonary fibrosis 4269
- 3-Aminopicolinate
 effect on amino acid release by rat muscle in vitro 2032
- Aminopyrine
 accumulation by gastric fundic mucosal cells 2269
 biliary efflux of glutathione due to metabolism of 955
- Aminopyrine N-demethylase
 in liver microsomes

- Aminopyrine N-demethylase
in liver microsomes
age and sex differences 579, 1861
effect of calcium antagonists 2549
effects of mefloquine and primaquine 567
effect of oral mycotoxicosis 425
effect of primaquine isomers and metabolites 311
effect of pyrazole 1507
- 8-Aminoquinoline WR 6026.2HCl
metabolism in rat liver microsomes 181
- Aminoquinones
free radical damage to deoxyribose 4099
- 6-Amino-thymine
effect on (E)-5-(2-bromovinyl)-2'-deoxy-
uridine degradation 405
- 3-Amino-1,2,4-triazole
catalase inactivation 3386
- Amitriptyline
inhibition of desmethylinipramine
hydroxylation in human liver microsomes
2501
inhibition of dihydrofolate reductase in
liver 2212
inhibition of K⁺-stimulation of Ca²⁺
uptake by synaptosomes 902
- AMO 1618
effect on 2,3-oxidosqualene-sterol cyclase
2765
- Amobarbital
ethyl side chain β -oxidation 423
- Amperozide
effect on tempocholine entrapping in
erythrocytes 31
- Amphetamine
binding sites in brain 3000
enantiomers, inhibition of monoamine oxidase
isoenzymes 4105
- Amylase
cholecystokinin-induced secretion from
acini, inhibition by acetaldehyde 2859
- Amylobarbitone
effect on desmethylinipramine hydroxylation
in human liver microsomes 2501
- Anaerobiosis
activation of tyrosine hydroxylase in
synaptosomes 2975
- Anaesthetic alcohols
effect on deoxyglucose transport in
adipocytes 1079
- Anaesthetics
effect on glyceraldehyde-phosphate
dehydrogenase and pectin methylesterase
2839
effect on non binding to liposome surfaces
708
local
interaction with cytochrome oxidase
663, 3187
positively charged, effect on membrane-
bound phosphatase in Acholeplasma
laidlawii 1917
- 1,4,6-Androstatriene-3,17-dione
aromatase inhibition 3213
- Angiogenesis
regulation by heparin 905
- Angiotensin I
metabolism by vascular aminopeptidase M
2309
- Angiotensin II
effect on arachidonate metabolism in
adrenal glomerulosa cells 3439
effect on renal renin release 1523
- Angiotensin III
metabolism by vascular aminopeptidase M
2309
- Angiotensin converting enzyme 1347
in lung, captopril removal in vivo 2371
- 5,6-Anhydrodemeclocycline
effect on calmodulin activity 3391
- 2,2'-Anhydrouridines, 5-substituted
inhibition of uridine phosphorylase 1737
- Aniline hydroxylase
in liver microsomes
age and sex differences 579, 1861
effect of dietary fat 3747
effect of ethanol consumption 3427
effect of ethanol withdrawal 1211
effects of glucagon and insulin 449
gonadal hormone modulation of thyroid
hormone action 582
hamster, effect of ethanol 3881, 4263
effect of oral mycotoxicosis 425
effect of pyrazole 1507
effect of 2',2''-pyridylisatogen tosylate
2847
- 1-Anilino-8-naphthalene sulfonate
detection of drug-binding protein in
muscle 2555
serum protein binding in pregnant rats 2733
effect of tetracaine on induced membrane
fluorescence 2599
- Anthracyclines
free radical damage to deoxyribose 4099
superoxide radical reactions with 481
transport by passive diffusion 593
- Anthracycline-DNA complex
dissociation kinetics 733
- Anthrquinone-DNA complex
dissociation kinetics 733
- Anthrpyrazoles
DNA strand scission and inhibition of
nucleic acid synthesis in L1210 cells
3499
- Antiarrhythmic drugs
binding to human α_1 -acid glycoprotein 4279
- Anticonvulsant drugs
effect on nitrendipine binding in brain
2187
effect on pineal indole metabolism 3198
- Antiestrogens
binding sites in liver, ligand affinity
2807
mechanisms for action 2787, 2795
effect on protein kinase C 3649
- Antigenic variation
Trypanosoma brucei, effect of 3-amino-
benzamide 4151
- Anti-inflammatory drugs
effect on calcium in peritoneal neutrophils
3123
inhibition of cystine and glutamate
transport in fibroblasts 1852
effect on prostaglandin biosynthesis in
dental pulp, modification by lipid
peroxidation 933
effect on soybean lipoxygenase 148
- Antilipolytic agents
tolerance in rat 269
tolerance by rat adipocytes 275
- Antimicrotubule agents
effect on phospholipid metabolism in
liver membranes 3153
- Anti-morphine anti-idiotypic antibodies
opiate receptor binding 2853
- Antimycin A

- Antimycin A
effect on leukotriene production in leukocytes 3095
- Antioxidant
activity of α -tocopherol in liver microsomes 437
effect on carbon tetrachloride stimulated lipid peroxidation *in vivo* 397
- Antipyrine
effect on desmethyylimipramine hydroxylation in human liver microsomes 2501
half-life in lung tumour-bearing rats 3190
hepatic clearance, effect of primaquine isomers 311
- Antitumour antibiotics
free radical damage to deoxyribose 4099
- Antrafenine
1-aryl piperazine metabolite 393
- Anxiety
involvement in prefrontal dopamine system 1595
- Aorta
calcium accumulation 2417
diabetes and hormone sensitivity of adenylate cyclase 2013
endothelium-dependent relaxation 1867
plasma membrane aminopeptidase M 2309
thromboxane A_2 blocking activity of prostanoid acid analogues 641
- Aortic endothelial cells
arachidonic acid metabolism in 119
- Apomorphine
effects of α -difluoromethylornithine on ornithine decarboxylase and tyrosine hydroxylase induction in adrenal 1315
effect on DOPA production in clonal cell lines 941
effect on GABA and 5-HT release from nigral slices 2655
induced stereotypy, effect of haloperidol and clopazine 2755
- Aprophen
effect on cholinergic receptors in brain, ileum and heart 1577
hydrolysis 2063
- Aprotinin
mechanism of protection against reperfusion injury 1757
- APUD cells 155
- 1- β -D-Arabinosylcytosine
model membrane interactions 4025
- 1- β -D-Arabinosylcytosine + hydroxyurea
effect on repair of X-ray-induced DNA single-strand breaks 2557
- Arachidonic acid
effect of anti-inflammatory drugs on soybean lipoxygenase 148
effect on calcium transport by masseter muscle 961
contribution of hypolipidaemic-induced cytochrome P-452 to metabolism of 3221
effect on energy metabolism of cardiac cells in oxygen deprived cultures 145
ethanol effects on prostanoid synthesis in platelets 1343
involvement in vasodilation 1867
metabolism in adrenal glomerulosa cells, effect of angiotensin II 3439
metabolism in cultured aortic endothelial cells 119
metabolism in iris, effect of (1,6-di(O-carbamoyl)cyclohexane oxime)hexane 539
metabolism in PMNs 3943
- Arachidonic acid(contd.)
platelet activation
effect of prostanoid acid analogues 641
effect of thromboxane synthase inhibition 1151
- Aristolochic acid
mutagenicity and *in vitro* metabolism 455
- Aroclor 1254
effect on binding of aromatic hydrocarbons to mouse lung DNA 545
effect on cyclosporin nephrotoxicity 573
effect on glutathione transferase and peroxidase in liver 3735
induction of O-dealkylation of ethoxy-phenoxazine homologues 3337
- Aromatase
inhibition, implications 3213
- Aromatic L-amino acids
in brain, effect of organic solvents on decarboxylation of 1381, 3774
- Aromatic L-amino acid metabolites
protein binding inhibitors in uremic plasma 2431
- Arphamenine A
inhibition of enkephalin-degrading enzymes from intestinal muscle 3179
- Artery
effects of BAY-K-8644 on contraction 3131
calcium accumulation 2417
effect of damage on platelet function 2097
endothelium-dependent relaxation 1867
nitroglycerin stimulation of sarcolemmal Ca^{2+} -ATPase 1857
plasma membrane aminopeptidase M 2309
prostaglandins and cholesterol metabolism 295
- Arteriosclerosis
prostaglandins and cholesterol metabolism 295
- Aryl acylamidase
platelets, solubilization by phosphatidyl-inositol specific phospholipase C 4109
- Arylamine metabolites
glucuronidation by liver microsomes 837
- Arylazide
photoaffinity probe for α_2 -adrenoceptors 3667
- Arylhydrocarbon hydroxylase
activity of cytochrome P-450 purified by monoclonal antibodies 2051
in brain microsomes 435
in hepatocyte culture from male and female rats 3029
in human hair follicles 433
in human MCF-7 and mouse Hepa-1 cell lines, induction by polycyclic aromatic compounds 2721
effect of induction on binding of aromatic hydrocarbons to mouse lung DNA 545
in liver microsomes
correlation with Ah locus 1821
effect of dietary fat 3747
effect of hymenoxon 3383
lung tumour-bearing rats 3190
- 1-Aryl piperazine
active metabolites of drugs with side chain 393
- Ascorbic acid
effect on diaziquone free radical generated by erythrocytes and L1210 cells 2394
endogenous inhibitor of Na^+, K^+ -ATPase 2525
- Asialo glycoproteins

- Asialo glycoproteins
biliary excretion of FITC metabolites 1399
endocytosis in hepatocytes, effect of
ATP 1639
- Asparaginase
encapsulated in erythrocytes, therapeutic
efficacy 257
sensitive or resistant lymphoma cells,
glycine metabolism in 559
- Aspartic acid
in chick embryo, effect of diazinon 1937
release from striatal slices 1217
- Aspartic acid aminotransferase
release from hepatocytes, effect of
hypolipidemic compounds 379
- Aspirin
effect on human neutrophil degranulation
1485
inhibition of cystine and glutamate transport
in fibroblasts 1852
inhibition of hypercalcaemia 1901
inhibition of platelet thromboxane
generation 1839
- ASTA Z 7557
hematopoietic stem cell sensitivity to
3465
lymphocyte sensitivity 3459
- Atenolol
inhibition of phospholipase A1 521
- Atrial natriuretic factor 1867
- Atropine
effect on cholinergic receptors in brain, ileum
and heart 1577
- Audiogenic seizure-prone rats
reduced cyclic AMP responsiveness in
colliculus inferior 2042
- Auramine O
determination of α -1-acid glycoprotein in
human serum 821
- Auranofin
effect on DNA replication 3243
- Aureolic acid
free radical damage to deoxyribose 4099
- Aurothiosulphate
binding to HSA, effect of ionic strength
4319
- Axoplasmic transport
of receptor sites in peripheral nerve 467
- 2-Azaadenosine
metabolism and metabolic effects 1293
- 2-Aza-2,3-dihydrosqualene and derivatives
inhibition of 2,3-oxidosqualene-sterol
cyclase 2765
- 2-Azahypoxanthine
metabolism and metabolic effects 1293
- Azaperone
1-aryl piperazine metabolite 393
- 13-Azaprostanoic acid analogues
thromboxane A2 blocking activity 641
- Azelaic acid
effect on lymphoma- and leukemic cell lines,
lymphocytes and fibroblasts 1653
- Aziridinyl putrescine
cytotoxic activity enhanced by polyamine
depletion with α -difluoromethylornithine
2409
- Azoreductase
in liver microsomes, purification and
reconstruction 337
- Azoreduction
liver microsomes 3259
- Azothioprone
effect on biliary secretion of mercury 301
- Bacitracin
inhibition of enkephalin-degrading enzymes
3179
- Bamethan
intestinal glucuronidation 421
- Barbital
induction of epoxide hydrolase in liver
microsomes 1795
- Barbitone
effect on erythrocyte morphology 3329
- Barbiturates
effect on adenosine uptake and release from
synaptosomes 1619
effect on liver blood flow 3776
- BAY-K-8644
effect on arterial contraction 3131
- Beagle
effect of phenobarbitone and β -naphtho-
flavone on hepatic microsomal drug
metabolizing enzymes 3137
- Beclamide
effect on indole metabolism in pineal
gland 3198
- Benactyzine
effect on cholinergic receptors in brain, ileum
and heart 1577
- Benperidol
interaction with amfenolic acid 39
- Benzaldehyde
oxidation in liver, effect of disulfiram
1529
- Benzene
effect on brain decarboxylase activity 1381
effect on striatal tryptamine and 5-HT 3774
- Benzimidazole carbamates
activity against L1210 cells, correlation
with *in vitro* tubulin polymerization
assay 3603
as inhibitors of mammalian tubulin 1073
- Benziodarone
effect on biliary excretion of methyl-
mercury 301
- Benznidazole
damage to *Trypanosoma cruzi* DNA 1457
effect on macromolecule synthesis and
degradation on *Trypanosoma cruzi* 1331
- Benzo(a)anthracene
induction of aryl hydrocarbon hydroxylase
and acetanilide 4-hydroxylase in human
and mouse cell lines 2721
- Benzocaine
effect on ion binding to liposome surfaces
708
- Benzodiazepine binding sites
adrenal, solubilization and characterization
167
brain, effect of aprofen 1577
endogenous ligands 3399
modulation of prefrontal dopamine system
1595
photolabeling 2821
- Benzoic acids
inhibition of glutamate decarboxylase in
brain 4145
- Benzo(a)pyrene
effect on binding of aromatic hydrocarbons
to mouse lung DNA 545
binding of metabolites to DNA in liver
nuclei 385
DNA adduct formation mediated by English
sole liver enzymes 263
DNA binding
effect of aryl hydrocarbon hydroxylase

- Benzo(a)pyrene
 DNA binding(contd.)
 induction 545
 phenobarbital imprinting 1007
 effect on DNA synthesis and DNA polymerase activity in rat liver nuclei 755
 epoxidation and diol metabolism correlated with Ah locus 1821
 formation of ultimate carcinogen during non-enzymic lipid peroxidation 4066
 induced lung tumours, influence on hepatic drug-metabolizing enzymes 3190
 metabolism by hair follicles 433
- Benzo(a)pyrene hydroxylase
 in liver microsomes
 chick embryo, effect of 2-acetylaminofluorene 2669
 effect of dietary fat 3747
 English sole 263
 gonadal hormone modulation of thyroid hormone action 582
 hamster, effect of ethanol 3881
Macaca nemestrina during aging 2983
 effect of neonatal 3-methylcholanthrene 2569
 nutritional influences 383
- Benzo(a)pyrene 4,5-oxide
 hydration in mouse tissues, effect of dietary clofibrate 1827
- Benzo(a)pyrene 4,5-oxide hydrolase
 in hepatocytes and hepatoma cells, induction 1537
- Benzo(a)pyrene-3,6-quinone
 rate of reduction and formation of glucuronides in liver microsomes 895
- Benzoquinone dimustard
 cytotoxicity 2629
- Benzoyl-Phe-Ala-Pro
 pulmonary metabolism, effect of captopril 2371
- Benzphetamine demethylase
 in hepatocyte culture from male and female rats 3029
 in liver microsomes
 effect of ethanol consumption 3427, 3881
 ethanol withdrawal 1211
 effects of glucagon and insulin 449
 hamster, effect of ethanol 3881
- 5-Benzylacetyluridine
 inhibition of uridine phosphorylase 1121
- Benzyl imidazole
 effect on thromboxane formation in carbon tetrachloride stimulated leucocytes 1515
- Bepridil
 effect on cardiac calcium pumping ATPase and brain cyclic AMP phosphodiesterase 3837
- Bestatin 1347
- Bezafibrate
 induction of cytochrome P-452
- Bilayer membranes
 effect of Ara C and other agents 4025
- Bile
 excretion of 1-nitropyrene metabolites 2325
 glutathione in due to aminopyrine metabolism 955
 effect of vasoactive intestinal polypeptide on secretion and acid output 3765
 xenobiotic elimination in germ-free rats 857
- Bile duct ligation
 modification of pulmonary metabolism of noradrenaline 3049
 effect on renal cytochrome P-450 311
- Bile secretion
 bromobenzene necrosis 507
 methylmercury 301
 effect of pentobarbital anaesthesia 1731
- Biliary cirrhosis
 effect on renal cytochrome P-450 311
- Bilirubin
 effect of glycodeoxycholate on hepatic depletion 507
- Bilirubin-manganese cholestasis
 hepatic subcellular distribution of manganese 3857
- Bilitranslocase
 bromosulfonphthalein binding 2439
- Biphenyl
 hydroxylation by Mucor hiemalis 401
- Bisantrene
 inhibition of platelet aggregation and PGE₂ production in vitro 3609
- 1,3-Bis(2-chloroethyl)-1-nitrosourea
 cytotoxicity in 9L cells, 6-thioguanine potentiation of 515
 role of fluoroacetate in toxicity of 3323
- 1,4-Bis(2-(3,5-dichloropyridiloxy))benzene and analogues, induction of hepatic monooxygenases 3489
- Bis(dimethylamino)benzoquinone
 cytotoxicity 2629
- N,N'-Bis(2-fluoroethyl)-N-cyclohexyl-N-nitrosourea
 role of fluoroacetate in toxicity of 3323
- Bisulphite
 compound effects on frog skeletal muscle 637
 microsomal reduction 3005
- Bladder cancer cells
 modulation of 5-iodo-2'-deoxyuridine metabolism by fluoropyrimidines 3925
- Bleeding time
 effect of low molecular weight heparin fraction 3305
- Bleomycin
 induced pulmonary fibrosis, effects of dimethylsulfoxide 2386
 inhibition of transplasma membrane redox in HeLa cells 617
- Bleomycin-iron(III) complex
 oxy radical formation during redox cycling by NADPH cytochrome P-450 reductase 3091
- Blood-brain barrier
 nomifensine 417
- Blood flow
 liver, effect of barbiturates 3776
- Blood-testis barrier
 acetaldehyde 685
- Bombesin-like immunoreactivity
 lung tumours 155
- Bone
 effect of ACTH 1-17 on DNA synthesis 1191
 chlorpromazine effects on formation in vivo and in vitro 2389
 effect of phenothiazine derivatives 3885
- Bone marrow
 role of uridine phosphorylase in 5-fluorouracil anabolism 3585
 uroporphyrin in, effect of lead 4345
- Bone resorption
 effect of aspirin 1901
 effect of 2-chloroadenosine and PGE₂ 937

- Bradykinin
mediated PGE₂ and cyclic AMP synthesis in
renal papillary collecting tubule cells
1565
- Brain
6-aminonicotinamide effect on ornithine
decarboxylase 3281
aryl hydrocarbon hydroxylase activity 435
effect of caerulein-related peptides on
cholecystokinin receptor binding 1103
effect of desmethylinipramine and electro-
convulsive shock on neurotransmitter
recognition sites 679
effect of guanethidine on mitochondria
2507
membrane peptidases 1347
monoamine oxidase inhibition by lead 2563
muscarinic receptors 588, 4299
opiate receptor binding profile 925
- Brain tumour cells 9L
6-thioguanine potentiation of BCNU
cytotoxicity 515
- Breast cancer
aromatase inhibition 3213
- Breast cancer cells BT-475
n-butyrate enhancement of PGD₂ effects 3771
- Breast cancer cells MCF-7
antagonism of melphalan by tamoxifen 763
induction of aryl hydrocarbon hydroxylase
and acetanilide 4-hydroxylase by poly-
cyclic aromatic compounds 2721
effect of leucovorin on methotrexate
poly- γ -glutamate synthesis 2897
methotrexate poly- γ -glutamate synthesis and
cell proliferation 3087
- Breast cancer cells MDA-MB-436
methotrexate poly- γ -glutamate synthesis and
cell proliferation 3087
- BRL 26830
anti-hyperglycaemic action in mice and
rats 1279
effects on glucose tolerance, insulin
sensitivity and glucose turnover in
Zucker(fa/fa) rats 2425
- Bromobenzene
effect on glutathione S-transferases in
liver and serum 4239
heterogeneity of hepatocytes for bile
secretion after acinar zone 3 damage 507
- Bromosulfonphthalein
association with binding proteins 2439
- (E)-5-(2-Bromovinyl)-2'-deoxyuridine
inhibition and reversal of degradation
in vivo 405
- (E)-5-(2-Bromovinyl)uracil
effect on pyrimidine degradation in vivo
403
- Bronchial carcinoid tumour 155
- Brush border membrane
small intestine, cefadroxil transport 81
- Bufetolol
effect on cyclic nucleotide metabolism
in heart 1659
- Befuralol
hydroxylation by human liver, effect of
debrisoquine 65
polymorphic oxidation in vivo and in vitro
399
- Bumetanide
inhibition of glutathione S-transferase
isoenzymes 2157
- Bunitrolol
effect on cyclic nucleotide metabolism in
- Bunitrolol (contd.)
heart 1659
- Bupivacaine
human serum binding, effect of acidifiers
3779
interaction with cytochrome oxidase
663, 3187
- Butacaine
model membrane interaction 4025
- 1,4-Butanediol
in brain and liver, identification and
quantitation 1849
embryotoxicity 529
- Buthionine sulfoximine
effects of glutathione depletion on
cytotoxicity of nitroaromatic compounds
2175
effect on hepatocyte susceptibility to
paracetamol injury 4341
mediated glutathione depletion in ovarian
carcinoma cells, augmentation of
adriamycin, melphalan and cisplatin
cytotoxicity 2583
- Butriptyline
inhibition of dihydrofolate reductase in
liver 2212
- Butylated hydroxyanisole
protection against alloxan-induced
diabetes in mice 3601
- Butylated hydroxyanisole analogues
induction of cancer protective enzymes
3909
prevention of loss of 11 β -hydroxylase in
adrenocortical cells 865
- Butylated hydroxytoluene
attenuation of pulmonary fibrosis by
aminophylline 4269
glutathione conjugation by rat liver
microsomes 2109
effect on glutathione transferases and
peroxidase in liver 3735
- (3S)-t-Butylbicyclophosphorothionate
binding in brain, radiation inactivation
3633
identification of Cl⁻ channel in Torpedo
electric organ 2579
- t-Butylbicyclophosphorothionate/picrotoxin
receptor
 γ -butyrolactone binding 4187
- 4-t-Butylcatechol
stimulation of pheomelanogenesis in
cultured B16 melanoma cells 3517
- n-Butyrate
enhancement of PGD₂ antitumour efficacy
3771
- γ -Butyrolactones
binding at picrotoxin/t-butylbicyclo-
phosphorothionate receptor 4187
- Butyrylcholinesterase
aprophen as substrate and inhibitor 2063
- BW 755C
effect on human neutrophil degranulation
1485
- Cadmium
inhibition of protein secretion from liver
4171
manganese-induced tolerance 1371
effect on striatal D2 dopamine receptors
3405
uptake by interstitial cells 2513
- Caecum

- Caecum
 effect of flavonoids on prostacyclin release 2477
 glucuronidation capacity 3527
- Caerulein
 modulation of muscarinic pancreatic receptors 1057
- Caerulein-related peptides
 effect on cholecystokinin receptor bindings in brain and pancreas 1103
- Caffeine
 phosphodiesterase inhibition and tracheal smooth muscle relaxation 1875
 effect on protein synthesis in salivary gland 4229
- Calcitonin
 salmon, identification of major binding protein in rat serum 3543
 in serum of lung cancer patients 155
- Calcium
 accumulation by coronary artery and aorta microsomes 2417
 binding to liposomes, effect of anaesthetics 708
 binding to muscle proteins, effects of ADP and ethanol 203
 2-chloroadenosine-induced release from calvarial bones, effect of PGE₂ 937
 depolarization induced uptake by synaptosomes, inhibition by tricyclic antidepressants 902
 endothelium-dependent vasodilation 1867
 fluxes in brain, effect of dihydropyridines 2187
 flux in pancreatic islets, effect of carbamylcholine 3451
 in heart, effect of adriamycin 4033
 influx into smooth muscle, effect of BAY-K-8644 3131
 interaction with cardiolipin-containing liposomes and its inhibition by adriamycin 4291
 ionophoresis by prostaglandins 3831
 in peritoneal neutrophils, effects of NSAIDs 3123
 related systems, effects of DDT and pyrethroids 1689
 role in agonist induced inositol lipid hydrolysis in intestine 2297
 role in aspartate release from striatal slices 1217
 role in renin release in kidney 1523
 sequestration by liver microsomes, role of thiol groups in inhibition of 3717
 in serum
 effects of aspirin on action of parathyroid hormone and 1 α -hydroxyvitamin D₃ 1901
 effect of phenothiazines 3885
- synaptosomal uptake
 effect of adenosine and 2-chloroadenosine 713
 effect of verapamil 1953
- transport in embryonic chick duodenum, effects of verapamil, dexamethasone and 1,25-dihydroxyvitamin D₃ 1971
- transport by masseter muscle sarcoplasmic reticulum, effects of acidosis and prostaglandins 961
- transport in sarcoplasmic reticulum, effect of phenothiazines 4245
- uptake by myocardial cells, effects of doxorubicin and verapamil 1115
- Calcium(contd.)
 uptake in retinal membranes, taurine effect on transition temperature 3741
- Calcium antagonists
 effect on brain muscarinic and α -adrenergic receptors 175
 effect on calmodulin activity *in vitro* 3391
 effect on cardiac sarcolemmal calcium pumping ATPase 3837
 inhibition of hepatic microsomal drug metabolism 2549
 inhibition of tumour cell-platelet-endothelial cell interactions *in vitro* and metastasis *in vivo* 235
 specificity of verapamil 1953
 stimulation of calcium uptake by canine cardiac sarcoplasmic reticulum 195
 effect on tempocholine entrapping in erythrocytes 31
- Calcium-binding protein
 organ-cultured embryonic chick duodenum 1971
- Calcium-EDTA
 protection against paracetamol injury to isolated hepatocytes 19
- Calcium ionophore A23187
 effect on calcium in neutrophils 3123
- Calcium-sodium exchange
 in cardiac sarcolemma, effect of nicardipine 2303
- Calmodulin
 calcium antagonist action 3837
 effect of calcium antagonists on calcium uptake by cardiac sarcoplasmic reticulum 195
 DDT and pyrethroid inhibition of 1689
 involvement in striatal tyrosine hydroxylase regulation 2637
 L1210 cells, inhibition by phenothiazines 3973
 role in resealing of erythrocyte membrane 31
 effect of tetracycline and calcium antagonists on activity of 3391
- Calmodulin inhibitor
 effect on adriamycin resistance 1471
- Calvaria
 effect of chlorpromazine 2389
 effects of PGE₂ and 2-chloroadenosine on resorption 937
 effect of phenothiazine derivatives 3885
- Camptothecin
 and derivatives, action on DNA 1225
- Cancer
 DNA topoisomerases as therapeutic targets 4191
 lung 155
- Cancer cells
 attachment to normal cells 2123
- Cannabis sativa L.
 cannflavin isolation 2019
- Cannflavin
 isolation from Cannabis sativa L. 2019
- Capillary blood vessels
 heparin and proliferation of 905
- Captopril
 inhibition of rat and human prolidases 1287
 peptidase inhibition 1347
 effect of probenecid on disposition in rat 3347
 removal by rabbit lung *in vivo* 2371
- Captopril-protein conjugates
 immunogenicity 4005

- Carbachol
 effect on cerebrovascular γ -glutamyltranspeptidase 4177
 induced aminopyrine accumulation in gastric mucosal cells 2269
 effect on phosphoinositide hydrolysis in developing chick heart 1321
- Carbamazepine
 disposition in isolated perfused rat brain 171
 effect on indole metabolism in pineal gland 3198
 phenytoin interaction in epileptic patients 447
- Carbamoyl-phosphate synthetase II
 human colon carcinoma, inactivation by acivicin 97
- Carbamylated acetylcholine
 acceleration of decarbamylation by bispyridinium oximes 4337
- Carbamylcholine
 inositol lipid hydrolysis and contractility in visceral longitudinal smooth muscle 2297
 regulation of cyclic AMP in thyroid 1429
 stimulation of ion fluxes in pancreatic islets 3451
- Carbaryl
 induced changes in striatal catecholamines, effect of pentylenetetrazol 553
- Carbaziloquinone
 ethylene production from methional 977
- Carbidopa
 metabolism in rats 3623
- Carbinolamine-iminium ion equilibrium 2055
- β -Carboline FG 7142
 effect on dopamine metabolism in prefrontal cortex 1595
- ¹⁴Carbon dioxide
 measurement of mixed function oxidase capacity in vivo 461
- Carbon monoxide
 effect on alcohol oxidation by liver microsomes 2929
- Carbon tetrachloride
 effect on brain decarboxylase activity 1381
 effect of copper(II)(3,5-diisopropylsalicylate)₂ on hepatotoxicity of 3915
 eicosanoid synthesis and enzyme release from rat leucocytes 1515
 ESR changes in microsomal membranes 57
 effect on glutathione S -transferases in liver and serum 4239
 induced fibrosis, histamine in liver 2007
 induced lipid peroxidation in liver microsomes, effects of α -tocopherol and water-soluble analogues 437
- induced liver injury
 attenuation in vivo 397
 effect of cimetidine 415
 irreversibly bound heme-derived adduct of cytochrome P-450 following treatment 3203
 liver regeneration after intoxication 586
 stimulation of ethylene production from 2-keto-4-methylthiobutyrates 3231
- Carbonyl compounds
 reductases for in human liver 107
- Carbonylcyanide-4-trifluoromethoxyphenylhydrazine
 effect on leukotriene production in leukocytes 3095
- Carboplatin
 renal fractional clearance 1423
- Carboxylesterases
 aprophen as substrate and inhibitor 2063
 in liver, hydrolysis of hydrocortisone esters 1881
 radiochemical assay 2779
- Carboxyester hydrolase
 liver, reactivation following inhibition by 4-nitrophenyl organophosphinates 1789
- Carboxypeptidase
 intestine, separation and inhibition by arphamenine A 3179
- Carcinogens
 effect on epoxide hydrolase in liver microsomes 1795
- Cardenolides, semisynthetic
 activity compared with natural glycosides 2541
- Cardiac glycosides
 action compared with semisynthetic cardenolides 2541
- Cardiolipin-containing liposomes
 calcium interaction, effect of adriamycin 4291
- Cardiotoxin
 inhibition of Na⁺,K⁺-ATPase in synaptic membrane 2335
- Carminic acid
 free radical damage to deoxyribose 4099
- Carnitine acetyltransferase
 in liver, effect of valproic acid 1357
- Carnitine palmitoyltransferase
 in liver, effect of valproic acid 1357
- Carotid artery
 effect of damage on platelet function 2097
- Carrageenan-induced pleurisy
 leukotriene B₄ metabolism 3495
- Carticaine
 interaction with cytochrome oxidase 663, 3187
- Casein
 release from chondrocytes and synovial cells
 effect of bisphosphonates 4043
- Castration
 effect on alcohol dehydrogenase turnover in rat liver 369
- Catalase
 effect on DOPA toxicity in human and tumour cells 1801
 interaction with 3-amino-1,2,4-triazole 3386
 in kidney, effect of gentamicin 3895
 in liver, effect of valproic acid 1357
- Catecholamines
 in brain of long sleep and short sleep mice, effect of α -methyl p -tyrosine 3811
 ceruloplasmin catalysed oxidation, effect of phenothiazines 2605
 effect on glucose transport in adipocytes 649
 secretion in adrenal medulla
 effect of acetylcholine 1497
 correlation with oxygen consumption 211
 urinary excretion of metabolites, effect of debrisoquin 2911
- Catechol- O -methyltransferase
 involvement in 3-PPP metabolism 3599
- Caudate nucleus
 ATPase in 3591
- Cefadroxil
 transport across small intestinal brush border membrane 81

- Cerebellum
6-aminonicotinamide effects on ornithine decarboxylase 3281
opiate receptor binding profile 925
- Cerebrospinal fluid
nomifensine passage into 417
- Ceruloplasmin
phenothiazine interaction 2605
- Cervix
diethylstilbestrol metabolites in 710
- Chelidamic acid
inhibition of glutamate decarboxylase in brain 4145
- Chelidonic acid
inhibition of glutamate decarboxylase in brain 4145
- Chemokinesis
effect of diclofenac sodium on neutrophils 3433
- Chick embryo
calcium transport in duodenum 1971
effect of diazinon on nucleotide and amino acid contents 1937
- Chick embryo heart
muscarinic stimulation of phosphoinositide turnover 1321
- Chick embryo hepatocytes
hormonal regulation of heme oxygenase induction 2937
- Chick embryo liver
effect of 2-acetylaminofluorene on monooxygenase activities 2669
- Chicken
inhibition of muscle aldose reductase 2961
- Chinese hamster lung cells
adriamycin resistant, phosphorylation of membrane proteins 4180
chlorambucil toxicity and extracellular pH 2531
effect of glutathione depletion on toxicity of nitroaromatic compounds 2175
regulation of adriamycin resistance 1471
- Chinese hamster ovary cells
action of 6-mercaptopurine and 6-thioguanine 3677
neplanocin A metabolism and action 2749
- Chlorambucil
extracellular pH and cytotoxicity 2531
lymphocyte sensitivity 3459
- Chloramphenicol
metabolic routes in liver 3755
- Chloride channel
Torpedo electric organ, binding of GABA receptor channel drugs 2579
- Chloride gating
radiation inactivation of t-butylbicyclo-phosphorothionate binding in brain 3633
- Chloride salts
protective effect on cisplatin nephrotoxicity 2363
- Chlorimipramine
inhibition of K^+ -stimulation of Ca^{2+} uptake by synaptosomes 902
- 2-Chloroadenosine
+ PGE₂, stimulation of bone resorption 937
effect on synaptosomal calcium uptake 713
transport in erythrocytes 3237
- 4-(4'-Chlorobenzyloxy)benzyl nicotinate
effect on cholesterol metabolism in rats 3361
- 4-(2'-Chlorobiphenyl)-4-oxo-2-methylene butyric acid analogues
effect on enzyme release from hepatocytes 379
- 1-Chloro-2,4-dinitrobenzene
effect on liver mitochondria 1588
mutagenic activity in Salmonella 2151
- N,N'-bis(N(2-Chloroethyl)-N-carbamoyl)cystamine
dinitroated isomers 1015
- Chloroform
alteration of hepatic glutathione S-transferase 249
effect on brain decarboxylase activity 1381
- p-Chloromercuribenzoate
effect on Ca^{2+} sequestration by liver microsomes 3717
- 1,1-bis-(p-Chlorophenyl)-2,2-dichloroethane
uptake by adipose tissue 3683
- 2(5(4-Chlorophenyl)pentyl)oxirane-2-carboxylate
effect on fatty acid synthesis and oxidation in hepatocytes 2651
- (Chloro-4-phenyl)thiomethylene bisphosphonic acid
effect on proteinase release 4043
- Chloroquine
inhibition of phosphatidylinositol phosphodiesterase in skeletal muscle 2471
interaction with porphyrins 141
uptake in malaria-infected erythrocytes 3019
- Chlorpromazine
affinity for antiestrogen binding sites 2807
antiproliferative and anticalmodulin effects in L1210 cells 3973
effect on bone 2389, 3885
effect on calcium transport by sarcoplasmic reticulum 4245
ceruloplasmin interaction 2605
effect on erythrocyte morphology 3329
inhibition of auramine O binding to α 1-acid glycoprotein 821
inhibition of desmethylinipramine hydroxylation in human liver microsomes 2501
inhibition of propranolol binding in human serum 2812
inhibition of thyroxine modulation of flavin metabolism in liver and brain 93
interaction with amfenolic acid 39
effect on tempocholine entrapping in erythrocytes 31
uptake by adipose tissue 3683
- Chlorpromazine-methiodise
ceruloplasmin interaction 2605
- Chlortetracycline
effect of NSAIDs on calcium in neutrophils 3123
- Cholecystokinin
induced amylase secretion, inhibition by acetaldehyde 2859
- Cholecystokinin octapeptide
effect on striatal spiperone binding 2675
sulfation in brain, inhibition by dichloronitrophenol 45
- Cholecystokinin receptors
brain and pancreas, affinity of caerulein-related peptides 1103
- Cholephytic organic ions
association with binding proteins 2439
- Cholestasis
manganese-bilirubin induced 3857
effect on renal cytochrome P-450 311
- Cholesterol
in brain, effect of age and a plant oil mixture 1120
in liver microsomes of Macaca nemestrina during aging 2983

- Cholesterol (contd.)
 metabolism in arterial smooth muscle, effect of prostaglandins 295
 metabolism in rats, effects of KCD-232 3361
 U18666A inhibition of esterification in glioblastoma cells 1305
- Choline
 incorporation into phospholipids in Krebs II ascites cells, effect of hemicholinium-3 3987
 metabolism in mice, effect of choline dehydrogenase inhibition 3117
 release from brain, effect of thyroliberin 1341
- Choline dehydrogenase
 effect of inhibition on choline metabolism in mice 3117
- Choline transport inhibitors
 antiplasmodial activity 4068
- Cholinergic agents
 regulation of cerebrovascular γ -glutamyl-transpeptidase 4177
 stimulation of ion fluxes in pancreatic cells 3451
- Cholinergic receptor, muscarinic
 brain, HI-6 and 2-PAM binding 2185
 brain, ileum and heart, effects of aprophen atropine and bebactazine 1577
- Cholinesterase
 effect of cadmium 4171
 effect of meptazinol 1579
- Chondrocytes
 effect of bisphosphonates on proteinase release 4043
- Chromatofocusing
 UDP glucuronosyltransferase in liver microsomes 737
- Chromomycin A3
 free radical damage to deoxyribose 4099
- CI-937 and CI-942
 biochemical effects in L1210 cells 3499
- Cimetidine
 effect on carbon tetrachloride-induced liver injury and survival in rats 415
 interaction with P450 monooxygenase in pig liver microsomes 2398
 interaction with liver microsomes in vivo and in vitro 2142
 effect on paracetamol conjugation in hepatocytes 1407
 effect of species and drug pretreatment on metabolic oxidation 2028
- Circular dichroism
 copper and nickel binding to penicillamine 675
- Cisplatin
 induced alteration of copper and zinc content of kidney 2575
 nephrotoxicity, protective effect of chloride salts 2363
 renal fractional clearance 1423
 toxicity in human ovarian carcinoma cells, effect of glutathione depletion 2583
- Citral
 glutathione depletion in erythrocytes 4117
- Clobazart
 induction of cytochrome P-452 3221
- Clofibrate
 effect on aldehyde dehydrogenase in liver subcellular fractions 471
 effect on branched-chain amino acid metabolism 2169
 epoxide hydrolase induction in mouse
- Clofibrate (contd.)
 tissues 1827
 induction of cytochrome P-452
 effect of long-term treatment in liver 325
 effect on valproic acid metabolism in male rats 133
- Clomiphene
 effect on protein kinase C 3649
- Clonazepam
 effect on indole metabolism in pineal gland 3198
- Clonidine
 binding in ileal mucosa 3867
 effect on tryptophan hydroxylase in brain stem 1549
- Clopazine
 effect on striatal D-2 function 2755
- Clophen A50
 effect on trout liver 1407, 3309
- Clorgyline
 induced increase in pineal melatonin, effect of ganglionectomy 3393
 measurement of MAO in brain using positron emission tomography 3207
- Clotrimazole
 inhibition of steroid aromatase 1087
- Coal gas condensate
 effect on binding of aromatic hydrocarbons to mouse lung DNA 545
- Cobalt
 effect on acrylamide neurotoxicity 1099
 induced hepatic microsomal protein patterns 85
 induction of heme oxygenase in chick embryo hepatocytes 2937
 effect on striatal D2 dopamine receptors 3405
- Cobalt protoporphyrin decarboxylase
 effect on alcohol oxidation by liver microsomes 2929
- Codeine
 metabolism in liver 3143
- Codeinone
 formation and toxicity 3143
- Coenzyme A
 role in haloethylene-induced acetoneemia 1981
- Coenzyme A esters
 inhibition of hydroxymethylglutaryl-CoA reductase in liver 3293
- Colchicine
 binding to tubulin, effect of rifampicin 3415
 effect on phospholipid metabolism in liver membranes 3153
- Collagen
 metabolism in damaged lung tissue following steroids 2519
 production by pulmonary fibroblasts, effect of aminophylline 4269
 synthesis in osteoblastic cells 2389
 effect of phenothiazine derivatives 3885
- Collagenase
 release from chondrocytes and synovial cells, effect of bisphosphonates 4043
- Colliculus inferior
 audiogenic seizure-prone rats, cyclic AMP responsiveness 2043
- Colon
 fatty acid stimulation of N-demethylation of 1,2-dimethylhydrazine and tetra-methylhydrazine 3101
 glucuronidation capacity 3527

- Colon(contd.)
 muscarinic receptor subclassification 588
 l-naphthol conjugation in isolated cells 697
- Colon carcinoma
 inactivation by acivicin of carbamoyl-phosphate synthetase II 97
 cyclopentyl cytidine analogue action 2535
 role of uridine phosphorylase in 5-fluoro-uracil anabolism 3585
- Combination therapy
Schistosoma japonicum 3921
- Compound 48/80
 inhibition of prostaglandin biosynthesis 2391
- Conformationally restricted substrate analogues
 inhibition of glutamate decarboxylase 4145
- Conjugation
 in hepatocyte primary cultures 463
- Convallatoxin derivatives 2541
- Copper
 excretion from liver parenchymal cells 1713
 inhibition of phosphatidylinositol phosphodiesterase in skeletal muscle 2471
 in kidney, effect of cisplatin 2575
 penicillamine binding 675
 preloaded liver nuclei, DNA methylation by methylnitrosourea 4071
 effect on striatal D2 dopamine receptors 3405
- Copper - bis-(diethyldithiocarbamate) complex 2989
- Copper - bleomycin
 effect on transplasma membrane redox in HeLa cells 617
- Copper(II)(3,5-diisopropylsalicylate)2
 alteration of chemically induced hepatotoxicity 3915
- Coproporphyrin
 interaction with chloroquine 141
- Coronary artery
 calcium accumulation 2417
- Corticosterone
 effect on renal kallikrein activity and urinary kallikrein excretion 4013
 in serum, effects of fructose and fenfluramine 1265
- β 1-24 Corticotropin
 effect on renal kallikrein activity and urinary kallikrein excretion 4013
- Cortisol
 production by adrenal cells, effect of cyproterone acetate 2091
- Coumarin 7-hydroxylase
 in liver, kidney and lung of DBA/2J and C57 BL/6J mice 1987
- Coumarins
 inhibition of cyclic AMP phosphodiesterase and platelet aggregation 2137
 UDP glucuronosyltransferase activity for 2235
- Creatine
 effect on energy metabolism of cardiac cells in oxygen deprived cultures 145
- Crithidia fasciculata
 iron-superoxide dismutase inhibitors 3147
- Cryopreservation
 cytochrome P-450 in hepatocytes 3389
- C6SL and C6SLMeI
 effect on phosphatase in Acholeplasma laidlawii 1917
- CV-3988
 inhibition of platelet activating factor CV-3988(contd.)
 binding to platelets 1491
- Cyanamide
 effect on acetaldehyde in blood 3979
 inhibition of liver aldehyde dehydrogenase 1197
 potentiation of oxazaphosphorine cytotoxicity 3465
- Cyamemazine
 ceruloplasmin interaction 2605
- Cyanide
 effect on 7-ethoxycoumarin O-deethylation catalysed by two forms of cytochrome P-450 1133
- Cyclic nucleotide phosphodiesterase
 in adipocytes, low K_m , effects of methyl-xanthines and non-xanthine inhibitors 2891
 in brain
 effect of calcium channel blockers 3837
 selective inhibition by rolipram 2997
 in heart, effect of β -adrenoceptor antagonists 1659
 effect of tetracyclines and calcium blockers on calmodulin activation 3391
 in tracheal smooth muscle, role in relaxation 1875
- Cyclic nucleotide phosphodiesterase - calmodulin
 effect of DDT and pyrethroids 1689
- Cyclic nucleotide phosphodiesterase inhibitors
 inhibition of platelet aggregation 2137
 effect on protein synthesis in salivary gland 4229
- Cycloheximide
 effect on opiate receptor function 9
- 5-(2-Cyclohexylideneethyl)-5-ethyl barbituric acid
 effect on adenosine uptake and release from synaptosomes 1619
- Cyclooxygenase
 in phenazine methosulfate treated renomedullary interstitial cells 4137
- Cyclooxygenase inhibitors
 inhibition of effect of acidosis on calcium transport in masseter muscle 961
- Cyclopentyl cytidine analogue
 inhibition of cytidine triphosphate synthesis in human colon carcinoma cells 2535
- Cyclophosphamide
 lymphocyte sensitivity 3459
 effect on post-heparin plasma lipoprotein lipase activity in rabbit 3597
- Cyclopropane
 effect on glyceraldehyde-phosphate dehydrogenase and pectin methyltransferase 2839
- Cyclosporin A
 amelioration of nephrotoxicity in rats 573
- Cypermethrin
 calmodulin inhibition 1689
- Cyproterone acetate
 anti-steroidogenic effect 2091
- Cystamine
 inhibition of calcium sequestration by liver microsomes 3717
- Cysteamine
 interaction with dipalmitoylphosphatidylcholine liposomes 3071
- Cysteine
 effect on free radical production induced by 3-methylindole 1117

- Cysteine(contd.)
 effect on mercury distribution in rats 2030
 mutagenicity, enantiomeric selectivity 3725
- 5-((L)-S-Cysteinyl)-L-dopa
 in melanoma cells, effect of 4-tertiary-butylcatechol 3517
- Cystine
 depletion by WR-1065 in cystinotic cells 2179
 transport in fibroblasts, effect of anti-inflammatory drugs 1852
- Cystinotic cells
 cystine depletion by WR-1065 2179
- Cytidine
 metabolism in L1210 cells, effect of N-hydroxy-N'-aminoguanidine derivatives 2645
- Cytidine-5'-diphosphocholine
 double-labelled, transport and metabolism in mammalian tissues 4121
- Cytidine triphosphate
 synthesis in human colon carcinoma cells, inhibition by cyclopentylcytidine analogue 2535
- Cytochrome b_5
 involvement in NADH-dependent dealkylating systems in liver 4215, 4263
 in liver microsomes of lung tumour-bearing rats 3190
 role in microsomal metabolism of methoxyflurane 1907
- Cytochrome oxidase
 interaction with local anaesthetics 663, 3187
- Cytochrome P-488
 N-methyl-4-aminobenzene metabolism by H and L forms 3375
 rat liver, monoclonal antibody to 1671
- Cytochrome P-450
 Ah receptor and induction of 2721
 benzo(a)pyrene:DNA adduct formation in liver nuclei 385
 catalysed alcohol oxidation 2929
 coumarin 7-hydroxylation, interorgan and inter strain differences 1987
 dependent metabolic activation of 1-naphthol to naphthoquinones 2261
 dependent monooxygenases in lung 545
 dependent monooxygenase in trout liver 3309
 dependent nicotinic oxidation by liver microsomes 2281
 distribution in elutriated hepatocytes 1463
 7-ethoxycoumarin O-deethylation by two forms of, effect of cyanide 1133
 in hepatocyte culture
 human 2405, 2991
 male and female rat 3029
 in hepatocytes following cryopreservation and monolayer culture 3389
 immunocytochemical localization 2225
 in intestine, effect of dietary iron and selenium 599
 involvement in butylated hydroxytoluene-glutathione formation 2109
 involvement in cimetidine metabolism 2141
 isoenzyme substrate selectivity and induction 3337
 in kidney, effect of liver disease 311
 in liver microsomes
 age-associated changes in male and female rats 579
 effect of 1,4-bis(2-(3,5-dichloro-pyridoxyl))benzene and analogues 3489
- Cytochrome P-450
 in liver microsomes(contd.)
 chick embryo, effect of 2-acetylaminofluorene 2669
 conversion to P-420
 debrisoquine 4-hydroxylation 2593
 effect of dietary fat 3747
 differences in affinities for NADPH-cytochrome P-450 reductase 1846
 diltiazem and verapamil interaction 2549
 dog 3137
 effect of ethanol consumption 3427
 effect of ethanol withdrawal 1211
 effect of fasting, sex differences 3661
 effects of glucagon and insulin 449
 gonadal hormone modulation of thyroid hormone action 582
 hamster, effect of ethanol 3881, 4263
 effect of hepatectomy, cholestasis and cirrhosis 311
 HPLC separation of species 1861
 human, monoclonal antibodies against 3547
 effect of hymenoxon 3383
 inactivation by phenylhydrazones 431
 induction during organotin treatment 997
 induction by phenobarbital 2489
 induction by warfarin 85
 irreversible bound heme-derived adduct following carbon tetrachloride treatment 3203
 lung tumour-bearing rats 3190
 Macaca nemestrina during aging 2983
 monoclonal antibody to cytochrome P-488 1671
 effect of neonatal 3-methylcholanthrene 2569
 nutritional influence 383
 effect of oral mycotoxicosis 425
 phenobarbital imprinting 1007
 effect of pyrazole 1507
 effect of RNA and protein synthesis inhibitors 3661
 separation on Octyl-Sepharose-CL-4B 85
 monoclonal antibodies 1671, 2051, 2225 3547
 NADH-supported dealkylating systems 4215
 nasal microsomes, effect of methylenedioxy-phenyl compounds 631
 placental microsomes, miconazole interaction 1087
 reconstruction of azo reductase activity 337
 relationship between species and N-nitrosamine metabolism 919
 role in acrylamide neurotoxicity 1099
 role in cyclosporin metabolism 573
 role of cytochrome b_5 in hydroxylations by 1907
 role in bioactivation of thioamides 395
 sparteine metabolism 439
 substrate interaction in isolated trout liver cells 1407
 sulfur dioxide anion free radical formation 3005
- Cytochrome P-450 LM₃
 liver microsomes, induction by triacetyl-oleandomycin 2445
- Cytochrome P-452
 hypolipidaemic drug-induced, contribution to lauric acid and arachidonic acid metabolism 3221

- D600
effect on calmodulin activity 3391
- Daunomycin
ethylene production from methional 977
free radical damage to deoxyribose 4099
promoted lipid peroxidation, effect of etoposide VP-16 2036
- Daunorubicin
effect on heart cells from neonatal rats 989
superoxide reaction 481
transport by passive diffusion 593
uptake by myocytes 1957
- Daunorubicin-DNA complex
dissociation kinetics 733
- Dazoxiben
effect on platelet activation by arachidonic acid 1151
prostaglandins and platelet aggregation 307
- Debrisoquin
effect on amine metabolite excretion 2911
effect on bufuralol hydroxylation 65
4-hydroxylation in liver microsomes, relationship with other cytochrome P-450 reactions 2593
phenotyping in epileptic patients treated with phenytoin and carbamazepine 447
- Debrisoquine hydroxylase
in human liver
desmethylinipramine hydroxylation inhibition test 2501
inhibition by bufuralol isomers 65
- Debrisoquine/mephenytoin-phenotyped depressive patients
maprotiline N-methylation 409
- Decamethonium
antiplasmodial activity 4068
- Decyltrimethylammonium
antiplasmodial activity 4068
- Demeclocycline
effect on calmodulin activity 3391
- Dental pulp
effect of MK-447 on prostaglandin biosynthesis, modification by lipid peroxidation 933
- 2'-Deoxyadenosine
incorporation into human peripheral lymphocytes 3353
metabolism in T and B cells 3561
- Deoxyadenosine triphosphate
accumulation in B lymphocytes and thymocytes in conditions simulating adenosine deaminase deficiency 3561
- 2'-Deoxycoformycin
effect on dATP accumulation by B-lymphocytes and thymocytes 3651
effect on 2'-deoxyadenosine incorporation by lymphocytes 3353
- Deoxycorticosterone acetate
effect on renal kallikrein activity and urinary kallikrein excretion 4013
- Deoxycytidine
metabolism in L1210 cells, effect of 5'-deoxyinosine 1717
- 4'-Deoxyepivincristine
antitumour activity and metabolism 1975
- 2-Deoxy-glucose
transport in adipocytes, effect of anaesthetic alcohols 1079
- 5'-Deoxy-5-fluorouridine
metabolism in man 429
- 5'-Deoxyinosine, dialdehyde derivative
effect on pyrimidine metabolism in L1210 cells 1717
- 5'-Deoxyinosine (contd.)
cells 1717
- 5'-Deoxy-5'-methylthioadenosine phosphorylase
role in action of 5'-halogenated adenosines 361
- Deoxynucleotide
metabolism in human lymphocytes 3061
- Deoxyribose
free radical damage to 4099
- Deoxyribonucleic acid
action of camptothecin and its derivatives 1225
clastogenic activity of diethylstilbestrol 3251
daunorubicin binding in heart cells 989
gold compounds and replication 3243
induction of single- and double-strand breaks by diethylstilbestrol in L5178Y lymphoblasts 771
interaction with ametantrone and mitoxantrone 4203
interaction with 2-chloroethylnitrosourea 1015
- L1210 cells
mitonafide induced damage 3845
synthesis inhibition and strand scission by anthrapyrazoles 3499
- liver
benzo(a)pyrene binding 385
isotherma for actinomycin D binding 1854
lung, effect of Aryl hydrocarbon hydroxylase induction on binding of aromatic hydrocarbons 545
- MDBK cells, effect of vanadium 2465
- methylation by dimethylnitrosamine
metabolites, effect of methionine-cysteine deficiency 3627
- methylation by methylnitrosourea in copper- or silver-preloaded liver nuclei 4071
- misonidazole-induced damage in mouse tissues 3275
- sanguinarine binding 321
- strand breaks induced by quinone antitumour agents 2629
- strand breaks induced by RSU-1069 3537
- synthesis in Ehrlich ascites tumour cells, effect of 4-hydroxynonenal 3803
- synthesis by J774 macrophages, inhibition by T-2 toxin 2809
- synthesis in liver nuclei, effect of benzo(a)pyrene 755
- synthesis in murine metaphyseal bone, effect of ACTH 1-17 1191
- Trypanosoma cruzi, damage by nitroheterocyclic drugs 1331, 1457
- X-ray-induced single strand breaks, effect of ara-C and hydroxyurea on repair 2557
- Deoxyribonucleic acid - actinomycin D
interactions in cultured fibroblasts 2741
isotherms, liver 1854
- Deoxyribonucleic acid - anthracycline complex
dissociation kinetics 733
- Deoxyribonucleic acid - anthraquinone complex
dissociation kinetics 733
- Deoxyribonucleic acid polymerases
effect of benzo(a)pyrene 755
effect of gold compounds 3243
inhibition by dopamine and related compounds 353
- Deoxyribonucleic acid topoisomerases
mediated cleavage and epipodophyllotoxin toxicity 2483

- Deoxyribonucleic acid topoisomerases(contd.)
targets for cancer therapy 4191
- 5-Deoxyuridine
metabolism in L1210 cells, effect of
5'-deoxyinosine 1717
- Deprenyl
enantiomers, inhibition of monoamine oxidase
isoenzymes 4105
measurement of monoamine oxidase in brain
using positron emission tomography 3207
- Depressive patients
debrisoquine/mephenytoin-phenotyped,
maprotiline N-methylation 409
- $\Delta 6$ and $\Delta 9$ -Desaturases
in kidney, effect of diabetes 4305
- Desferrioxamine
effect on paraquat toxicity in mice 1841
pharmacology in cultured hepatocytes in
relation to iron mobilization 1175
probe for iron-dependent formation of
hydroxyl radicals 229
- Desipramine
inhibition of auramine O binding to
 α_1 -acid glycoprotein 821
effect on liposomal membranes 705
- Desmethylchlorimipramine
inhibition of K^+ -stimulation of Ca^{2+} uptake
by synaptosomes 902
- Desmethylinipramine
inhibition of 2-hydroxylation in human
liver microsomes 2501
inhibition of K^+ -stimulation of Ca^{2+} uptake
by synaptosomes 902
plus electroconvulsive shock, effect on
brain and platelet neurotransmitter
recognition sites 679
- Desmethylnortriptyline
inhibition of dihydrofolate reductase in
liver 2212
- Development
 α_1 -adrenoceptor-phosphoinositide coupling
2705
6-aminonicotinamide effects on brain
ornithine decarboxylase 3281
chick embryo heart, muscarinic stimulation
of phosphoinositide turnover 1321
hepatic mixed function oxidase system in
Macaca nemestrina 2983
effect of perinatal methadone on hepatic
mixed function oxidase system 1582
effect of thyroid state on histamine H_1
receptors in brain 4131
- Dexamethasone
inhibition of PGE_2 synthesis in phenazine
methosulfate treated cells 4137
effect on verapamil action on calcium
absorption in embryonic chick duodenum
1971
- Dextran T-40
production of monoclonal antibody - mitomycin
C conjugate 289
- Diabetes
alloxan induced
protection by butylated hydroxyanisole
3601
effect on renal fatty acid activation
and desaturation 4305
streptozotocin induced
BRL 26830 action 1279
hepatic drug metabolism 287, 449
hormone sensitivity of adenylate cyclase
2013
- Diacridines
membrane-related reactions and antitumour
activity 2123
- Diacylglycerol
accumulation in iris, effect of (1,6-di(O-
carbamoyl)cyclohexane oxime)hexane 539
- Dialkylnitrosamines
biotransformation in intestine 445
- Diamide
effect on Ca^{2+} sequestration by liver
microsomes 3717
inhibition of hydroxymethylglutaryl-CoA
reductase in liver 3293
- 2,4-Diaminoquinazolines
effect on L1210 leukemia cells 2163
- Diazepam
albumin interaction, effect of oleic acid
3299
effect on indole metabolism in pineal
gland 3198
metabolism by liver microsomes, effect of
diabetes mellitus 287
- Diazepam binding inhibitor
benzodiazepine recognition sites 3399
- Diazinon
effect on nucleotides and amino acids in
chick embryos 1937
- Diaziqunone free radicals
effect of ascorbic acid 2394
- 2,5-Diaziridinyl-3,6-bis(carbethoxyamino)-1,4-
benzoquinone
cellular activation to its free radical
species 1449
- 1,2-Dibromoethane
effect on glutathione metabolism in liver
and kidney 2827
mutagenic activity in Salmonella 2151
- Dibromosulfonphthalein
association with binding proteins 2439
- Dibucaine
model membrane interaction 4025
- Dibutylrlyl cyclic AMP
effect on DOPA formation in striatal
slices 2637
effect on heme oxygenase induction in chick
embryo hepatocytes 2937
(1,6-Di(O-carbamoyl)cyclohexanone oxime)hexane
effect on arachidonic acid metabolism in
iris 539
- Dichlorisone
hydrogen bond structure in receptor
complex 2040
cis and trans-Dichlorodiammine platinum II
renal fractional clearance 1423
- Dichlorodifluoromethane
effect on glyceraldehyde-phosphate
dehydrogenase and pectin methylesterase
2839
- Dichloro diphenyl trichloroethane
effect on acrylamide neurotoxicity 1099
- 1,1-Dichloroethylene
distribution and covalent binding in mice
4051
- 2,6-Dichloro-4-nitrophenol
inhibition of brain phenolsulfotransferase
45
- Diclofenac
binding to albumin and lipoproteins in
human serum 1695
inhibition of neutrophil chemokinesis 3433
- Diet
effect on cytochrome P-450 in liver 383
- 8-(Diethylamino)octyl 3,4,5-trimethoxy

- 8-(Diethylamino)octyl 3,4,5-trimethoxy benzoate
effect on calcium in neutrophils 3123
stimulation of renin secretion 1523
- Diethyldithiocarbamate
potentiation of oxazaphosphorine cytotoxicity 3465
- Diethyldithiocarbamate-copper complex 2989
- Diethyl ether
effect on glucuronidation in isolated hepatocytes 4179
- Diethylmaleate
effect on free radical production induced by 3-methylindole 1117
effect on gluconeogenesis 453
- Diethylnitrosamine
susceptibility and resistance of liver tissue to oxidative damage during carcinogenesis 443
- Diethylstilbestrol
DNA clastogenic activity 3251
induction of DNA strand breaks in L5178Y lymphoblasts 771
localization of metabolites in mouse genital tract 710
metabolism in hepatic, renal and uterine microsomes, effect of inducers 3107
- α -Difluoromethylornithine
enhancement of aziridinyl putrescine cytotoxicity 2409
ornithine decarboxylase inhibition and trypanosomiasis 1773
effect on polyamine biosynthesis and tyrosine hydroxylase induction in adrenal gland 1315
potentiation of 3,4-dihydroxybenzylamine melanolytic activity 1887
- Digoxin
binding to cardiac myocytes 1957
- Dihydroalprenolol
binding in brain
effect of desmethylimipramine and electroconvulsive shock 679
effect of isoproterenol 1585
binding and displacement in heart 2883
binding in erythrocytes, effect of isoproterenol/*N*-ethylmaleimide 1611
binding in lung, effect of isoproterenol/*N*-ethylmaleimide 1611
binding in mammary gland 2034
- Dihydroergocristine
effect on cerebral energy metabolism in posthypoglycemic recovery 1477
- Dihydrofolate reductase
in L1210 cells, effect of 2,4-diaminoquinazolines 2163
liver, inhibition by tricyclic antidepressant drugs 2212
transposon-mediated trimethoprim-resistant, *E. coli* 4334
- Dihydrofuranocoumarins
inhibition of platelet aggregation 2137
- Dihydromorphine
binding in rabbit brain 925
- Dihydropyranocoumarins
inhibition of platelet aggregation 2137
- Dihydropyridines
effect on brain muscarinic and α -adrenergic receptors 175
inhibition of tumour cell-platelet-endothelial cell interactions *in vitro* and metastasis *in vivo* 235
effect on nitrendipine binding in brain 2187
- Dihydropyridines (contd.)
stimulation of canine cardiac sarcoplasmic reticular Ca^{2+} uptake 195
- Dihydrosafrole
inhibition of nasal cytochrome P-450 631
*N*¹,*N*⁶-bis(Dihydroxybenzoyl)-1,6-diaminohexane
inhibition of trypanosomatid superoxide dismutase 3147
- 3,4-Dihydroxybenzylamine
inhibition of ribonucleotide reductase in L1210 cells 353
potentiation of melanolytic activity by α -difluoromethylornithine 1887
- Dihydroxyphenylacetic acid
relationship with monoaminergic neuronal activity 1127
in striatum, effect of amfonelic acid plus neuroleptics 39
urinary excretion following 6-hydroxy-dopamine administration 1255
- 3,4-Dihydroxyphenethanol
urinary excretion
effect of debrisoquin 2911
effect of 6-hydroxydopamine 1255
- 9(1,3-Dihydroxy-2-propoxymethyl)guanine
metabolism in herpes virus infected cells 1049
- 1,25-Dihydroxyvitamin D3
mediated calcium absorption in embryonic chick duodenum, effect of verapamil and dexamethasone 1971
- Diisopropyl phosphorofluoridate hydrolysing enzyme
inhibition by mipafox 2069
- Dilazep
role of adenosine in antiplatelet action 3965
- Diltiazem
effect on calmodulin activity 3391
inhibition of hepatic microsomal drug metabolism 2549
- Dimethylaminoantipyrine *N*-demethylase
in liver microsomes, effect of 1,4-bis-(2-(3,5-dichloropyridyloxy))benzene and analogues 3485
- N,N*-Dimethyl-4-aminoazobenzene and derivatives
azoreduction by liver microsomes 3259
- Dimethylaminopropionitrile
acetylcholinesterase inhibition 3185
- 7,12-Dimethylbenz(a)anthracene
induced mammary carcinoma, effect of aromatase inhibitors 3213
- 3,3-Dimethylbutanol
effect on choline metabolism in mice 3117
- Dimethylhydrazine
fatty acid stimulation of *N*-demethylation by colonic mucosa 3101
- Dimethylnitrosamine
bioactivation to mutagens 441
N-demethylation in liver microsomes, hamster, effect of ethanol 3881
DNA methylation in mice, effect of methionine-cysteine deficiency 3627
- 5,5-Dimethyl-1-pyrroline-*N*-oxide
hydroxy radical formation in adriamycin-treated heart sarcosomes 669
- Dimethyl sulfoxide
effect on bleomycin-induced pulmonary fibrosis 2386
prevention of loss of 11 β -hydroxylase in adrenocortical cells 865
- 2,4-Dinitrophenol
effect on leukotriene production in

- 2,4-Dinitrophenol (contd.)
 leukocytes 3095
 Dinitrophenyl hapten - albumin conjugate
 metabolic fate in rats 1763
- 2,4-Dinitrotoluene
 metabolism in strain A mice 969
- Dioclea grandiflora* (Mart.) lectin
 induced exocytosis in mouse mast cells 4169
- Dipalmitoylphosphatidylcholine liposomes
 cysteamine interaction 3071
 vinblastine sulphate interaction 3081
- Dipeptidylamino peptidase IV 1347
 intestine
 separation and inhibition by arphamenine
 A 3179
 substance P inactivation 4019
- Dipeptidyl carboxypeptidase
 intestine, separation and inhibition by
 arphamenine A 3179
- 1,6-Diphenyl-1,3,5-hexatriene
 tricyclic antidepressant drug effects on
 liposomal membranes 705
- Diphenylhydantoin
 effect on indole metabolism in pineal
 gland 3198
 inhibition of chick muscle aldose reductase
 2961
- Diprenorphine
 binding in NG108-15 cells, effects of
 cycloheximide and tunicamycin 9
- Dipropylacetate
 effect on glycine cleavage enzyme system
 and glycine levels 2877
 induced quasi-morphine abstinence behaviour,
 effect of GABA transaminase inhibitors
 3789
- Dipropylnitrosamine
 bioactivation to mutagens 441
- Dipyridamole
 effect on low K_m cyclic AMP phosphodiesterase
 in adipocytes 2891
 role of adenosine in antiplatelet action
 3965
- Disulfiram
 effect on acetaldehyde in blood 3979
 effect on benzaldehyde and acetaldehyde
 oxidation in liver 1529
 bis-(diethyldithiocarbamate)copper complex
 formation in blood 2989
 effect on glutathione, glutathione S-trans-
 ferase and nitrosamine dealkylases in
 liver, kidney and esophagus 387
 potentiation of oxazaphosphorine cytotoxicity
 3465
- Dithiothreitol
 effect on microsomal azoreduction 3259
- Diuretic drugs
 inhibition of glutathione S-transferase
 isoenzymes 2157
- Diurnal rhythm
 glutathione in mouse organs 1029
- DL-040
 induction of fatty acid β -oxidation and
 peroxisome proliferation in rhesus
 monkey 3473
- Dog
 hepatic microsomal drug metabolizing
 enzymes 3137
- DOPA
 formation in striatal slices, effect of W-7
 2637
 in melanoma cells, effect of 4-tertiary-
 butylcatechol 3517
- DOPA (contd.)
 production in clonal cell lines 941
 toxicity in human tumour cells 1801
- Dopamine
 in brain, effects of α -methyl-p-tyrosine in
 long sleep and short sleep mice 3811
 ceruloplasmin catalysed oxidation, effect
 of phenothiazines 2605
 conjugation in human brain, effect of
 phosphatase inhibition 3853
 effect on GABA and 5-HT release from
 nigral slices 2655
 mediated increase in nigral substance P
 like immunoreactivity 3161
 metabolism in prefrontal cortex, effect of
 beta-carboline FG 7142 1595
 metabolites and neuronal activity 1127
 microinjection in nucleus accumbens,
 correlation between metabolism and
 behaviour 284
 new assay for phenol sulfotransferase 1649
 related drugs, inhibition of ribonucleotide
 reductase in L1210 cells 353
 release from PC-12 cells 941
 in striatum
 effect of amfonelic acid and neuroleptics
 39
 effect of pentylenetetrazol on carbaryl-
 induced changes 553
 sulfation in brain, inhibition by
 dichloronitrophenol 45
 synthesis in brain, effect of α 2-adrenergic
 antagonists 1093
 synthesis in synaptosomes, activation by
 anaerobiosis 2975
 uptake inhibition and nomifensine binding
 to striatal membranes 1137
 urinary excretion of metabolites
 effect of debrisoquin 2911
 effect of 6-hydroxydopa 1255
- Dopamine agonists
 effect on GABA and 5-HT release from
 nigral slices 2655
- Dopamine receptor
 caudate nucleus, role in ATPase activity
 3591
- Dopamine receptor D-1
 conversion from high to low affinity for
 dopamine 151
 SCH 23390 and motor behaviour 1665
- Dopamine receptor D-2
 anterior pituitary, high-low conversion
 by temperature and sodium 2459
 anti-haloperidol antibodies 3959
 effects of clopazine and haloperidol 2755
 dissociation constant for spiperone 4065
 effect of heavy metals and sulphhydryl
 reagents 3405
 raclopride affinity for 2251
- Doxepin
 inhibition of K^+ -stimulation of Ca^{2+}
 uptake by synaptosomes 902
- Doxorubicin
 effect on calcium uptake by myocardial
 cells 1115
 effect on lipid metabolism of cultured
 myocardial cells 1781
- Doxorubicin-DNA complex
 dissociation kinetics 733
- Doxycycline
 effect on polysomes in liver 3689
- Drug-binding protein
 skeletal muscle 2555

- Drug-cell interaction
 - protein effects 747
- Drug interactions
 - critical care therapy 413
- Drug-protein conjugates 1763
- Drug-resistant tumour cell lines
 - efficacy of PTT.19 2347
- DT-diaphorase
 - in heart cells, induction with daunorubicin 989
- Duodenum
 - chick embryo, calcium transport 1971
 - effect of (S)- α -fluoromethylhistidine on ulceration in 4327
 - glucuronidation capacity 3527
- Dynorphin
 - in brain and pituitary, effect of ginseng saponin 2044
- Ebselen
 - inhibition of rat peritoneal neutrophil lipoyxygenase 2691
- Eburnamonine
 - effect on cerebral energy metabolism in posthypoglycaemic recovery 1477
- Ecteola cellulose
 - assay for phenol sulfotransferase 1647
- Ehrlich ascites tumour cells
 - effects of 4-hydroxynonenal 3803
 - effect of probenecid on methotrexate transport 747
- Eicosanoids
 - carbon tetrachloride-induced synthesis in leucocytes 1515
 - vasodilator action 1867
- Eicosatetraynoic acid
 - effect on human neutrophil degranulation 1485
- 8-*cis*-12-*trans*-14-*cis*-Eicosatrienoic acid
 - 2-methyl analogue, *in vivo* inhibition of prostaglandin synthetase 2103
- Elastase
 - fatty acid peptides as inhibitors 3315
- Electroconvulsive shock
 - plus desmethylinipramine, effect on brain and platelet neurotransmitter recognition sites 679
- Electron spin resonance
 - carbon tetrachloride induced changes in microsomal membranes 57
 - free radical production from adriamycin-treated cardiac sarcosomes 669
 - tempocholine entrapping in human erythrocytes 31
- Electron transport
 - mitochondria, effect of guanethidine 2507
- Ellipticine derivatives
 - interaction with muscarinic receptors 1701
- Embryo, rat
 - acetylaminofluorene teratogenicity 2953
 - ethanol metabolite effects *in vitro* 529
- Enalapril
 - peptidase inhibition 1347
- Endobiotic metabolism
 - monoclonal antibodies 2225
- Endocoids
 - benzodiazepine recognition sites 3399
- Endocrine lung 155
- Endocytosis
 - receptor-mediated in hepatocytes, effect of ATP 1639
- Endometrial cancer
 - aromatase inhibitors 3213
- Endopeptidase-24.11 1347
 - intestine, substance P inactivation 4019
- β -Endorphin
 - binding in rabbit cerebellum and brain membranes 925
 - in brain and pituitary, effect of ginseng saponin 2044
- Endothelial cell growth factors
 - heparin binding 905
- Endothelial cells
 - retinoids and tumours 1599
- Endothelium-dependent vasodilation 1867
- Endrin
 - binding to Cl⁻ channel in *Torpedo* electric organ 2579
- Energy metabolism
 - in brain during posthypoglycaemic recovery, effect of age 1477
 - cardiac cell cultures during oxygen deprivation 145
 - ischaemic heart, effect of tolbutamide 803
- Enflurane
 - effect on ion binding to liposome surfaces 708
- English sole
 - benzo(a)pyrene metabolism and DNA adduct formation by liver microsomes 263
- Enkephalin
 - dimeric analogues, receptor binding and biological activity 25
- D-Ala²,D-Leu⁵-Enkephalin
 - binding in rabbit brain 925
- Leu-Enkephalin
 - inhibition of striatal adenylate cyclase, effect of alcohol 4329
- Enkephalinase 1347
- Enkephalin-degrading enzymes, separation and inhibition by arphamenine A 3179
- Enpiprazole
 - 1-aryl piperazine metabolite 393
- Enzyme-linked immunosorbant assay
 - captopril-protein conjugates 4005
 - effect of xenobiotics on microsomal epoxide hydrolase 1795
- Epidermal cells
 - drug metabolism in 3571
- Epilepsy
 - cyclic AMP responsiveness in colliculus inferior of audiogenic seizure-prone rats 2042
 - debrisoquine phenotyping during phenytoin and carbamazepine therapy 447
- 2,3-Epiminosqualene
 - inhibition of 2,3-oxidosqualene-sterol cyclase 2765
- Epipodophyllotoxin
 - topoisomerase-mediated DNA cleavage 2483
- Epirubicin
 - free radical damage to deoxyribose 4099
- Epoxide hydrolase
 - in head kidney of Northern pike, subcellular distribution 789
 - induction in cultured hepatocytes and hepatoma cell lines 1537
 - in liver microsomes
 - marker for hepatocarcinogenesis 1795
 - trout, induction of 3309
 - in mouse tissues, effect of dietary clofibrate 1827
- Epoxides
 - metabolism by vitamin K epoxide reductase

Epoxides (contd.)

2617

Erythrocytes

 β -adrenergic activity of guanabenz 491 β -adrenergic receptor conformational changes 1611 β -adrenergic receptors, effect of plasma 3767

asparaginase encapsulation 257

2-chloroadenosine transport 3237

citral induced depletion of glutathione 4117

drug-induced shape changes 3329

entrapping of spin label tempocholine 31

fluorescence labeling of membrane ghosts by mAMSA 3265

effect of hydroxypyruvaldehyde on

oxidative metabolism 1157

interconversion of aflatoxin B₁ and

aflatoxicol 2566

lipid peroxidation in membranes 1339

malaria-infected, chloroquine uptake 3019

membrane degradation by phenylhydrazine 4283

effect of nitrofurantoin 1963

tetracaine inhibition of acetylcholinesterase 2599

Escherichia coli

tetracycline photoaffinity labeling 1065

Esophagus

effect of disulfiram on glutathione, glutathione S-transferase and nitrosamine dealkylases in 387

Essential fatty acids

effects of ethanol on platelet prostanoid synthesis 1343

Estradiol

effect on 15-hydroxyprostaglandin dehydrogenase in kidney and lung 2073

modulation of thyroid hormone action on hepatic drug metabolism 582

Estrogen

inhibition of secretion by aromatase inhibitors 3213

Estrogen receptor

tamoxifen and MER-25 binding 2795

trifluoperazine binding 2221

Ethacrynic acid

inhibition of glutathione S-transferase isoenzymes 2157

sensitive Mg²⁺-ATPase in brain microsomes 1705

Ethanol

acetaldehyde and glutathione metabolism after intake 3781

action on muscle proteins *in vitro* 203

+ aldehyde dehydrogenase inhibitors, effect on acetaldehyde in blood 3979

effect on Q-dealkylase and cytochrome B₅ in hamster liver microsomes 4263

elimination in fasted rats, role of hepatic redox state 3577

effect on folate polyglutamate biosynthesis in rat 1913

effect on glutathione turnover in rat 1559

effect on hepatotoxin-induced alterations of glutathione S-transferases 4239

induced hepatic lipid peroxidation, silymarin protection against 2209

induced reduction of testosterone, role of acetaldehyde 685

inhibition of forskolin-stimulated adenylate cyclase in NIE-115 cells 3655

Ethanol (contd.)

effect on inhibition of striatal adenylate cyclase activity 4329

effect on liver microsomal drug metabolism 3427

hamsters 3881

liver mixed-function oxidase activity after withdrawal 1211

effect on liver plasma membrane-bound enzymes 2685

metabolic tolerance, effect of propylthiouracil 2377

metabolism in liver, effect of triiodo-thyronine 2291

effect on 3-methoxy 4-hydroxyphenylethylene glycol sulfate in brain 1311

 α -methyl-p-tyrosine effects in long sleep and short sleep mice 3811

oxidation in hepatocytes, contribution of non-alcohol dehydrogenase pathways 655

effect on platelet prostanoid synthesis 1343

role of alcohol dehydrogenase in swift increase of metabolism 3523

sex differences in effect on hepatic phase I drug metabolism 3533

effect on turpentine-induced acute phase response in rats 525

Ethanol metabolites

embryotoxicity 529

Ethanolamine

incorporation into phospholipids in Krebs II ascites cells, effect of hemicholinium-3 3987

Ethanolamine-O-sulfate

effect on hole-board exploration and temperature 3789

Ethene

formation during reduction of bleomycin-Fe complex by NADPH-cytochrome P-450 reductase 3091

Ethidium bromide

inhibition of epipodophyllotoxin-induced DNA cleavage by DNA topoisomerase II 2483

Ethinylestradiol

metabolism in liver, effects of mefloquine and primaquine 567

Ethionine

effect on S-adenosylmethionine and S-adenosylethionine in rat tissues 373

effect on cytochrome P-450 in liver microsomes of fasted rats 3661

effect on epoxide hydrolase in liver microsomes 1795

Ethosuximide

effect on indole metabolism in pineal gland 3198

Ethoxybenzamide

metabolism in intestine, *in vitro* - *in vivo* correlations 391

7-Ethoxycoumarin

Q-deethylation catalysed by two forms of cytochrome P-450, effect of cyanide 1133

metabolism in epidermal cells 3571

metabolism in intestine, *in vitro* - *in vivo* correlations 391

uptake and binding to cytochrome P-450 in isolated trout liver cells 1407

7-Ethoxycoumarin deethylase

activity of cytochrome P-450 purified by monoclonal antibodies 2051

distribution in elutriated hepatocytes 1463

- Ethoxycoumarin *O*-deethylase (contd.)
 in hepatocyte primary cultures 463
 in liver microsomes
 age and sex differences 1861
 dog 3137
 ethanol withdrawal 1211
 effects of glucagon and insulin 449
 hamster, effect of ethanol 3881
 inhibition by cimetidine *in vitro* and *in vivo* 2141
 effect of neonatal 3-methylcholanthrene 2569
 phenobarbital imprinting 1007
 effect of pyrazole 1507
- Ethoxyresorufin *O*-deethylase
 in liver microsomes
 dog 3137
 hamster, effect of ethanol 4263
 effect of primaquine isomers and metabolites 311
 trout, induction of 3309
- Ethoxyphenoxazones
 selectivity for cytochrome P-450 isoenzymes 3337
- Ethrane
 effect on glyceraldehyde phosphate dehydrogenase and pectin methylesterase 2839
- Ethylcholine mustard aziridinium
 effect on choline metabolism in mice 3117
- Ethylene
 production from 2-keto-4-methylthiobutyrate *in vivo* 3231
 production from ethional by iron chelates and heme proteins 977
- Ethylketocyclazocine
 binding in rabbit cerebellum and brain membranes 925
- N*-Ethylmaleimide/isoproterenol
 inactivation of β -adrenergic receptors 1611
- $\alpha(\beta)$ -Ethyl- $\alpha(\beta)$ -methyl γ -butyrolactones
 binding to picrotoxin/t-butylbicyclophosphorothionate receptor 4187
- Ethyl methylphosphoryl-acetylcholinesterase reactivation of 3606
- N*-Ethyl-17(*R,S*)-methyl-(6*aR*,10*aR*)- Δ^8 -tetrahydrocannabinol-18-oicamide
 brain pharmacokinetics in mice 3983
- Ethylmorphine *O*-deethylase
 in liver microsomes
 effect of dioxygen, carbon monoxide and inhibitors 4215
- Ethylmorphine *N*-demethylase
 in liver microsomes
 chick embryo, effect of 2-acetylaminofluorene 2669
 effect of dietary fat 3747
 effect of dioxygen, carbon monoxide and inhibitors 4215
 effect of ethanol consumption 3427
 gonadal hormone modulation of thyroid hormone action 582
 effect of neonatal 3-methylcholanthrene 2569
 nutritional influences 383
- N*-Ethyl-*N'*-nitro-*N*-nitrosoguanidine
 mutagenic activity in *Salmonella* 2151
- N*-Ethyl-*N*-nitrosoourea
 mutagenic activity in *Salmonella* 2151
- Etomidate
 effect on t-butylbicyclophosphorothionate binding in brain 3633
- Etooperidone
 1-aryl piperazine metabolite 393
- Etoposide
 cytotoxicity and topoisomerase-mediated DNA cleavage 2483
- Etoposide VP-16,213
 microsomal interactions and inhibition of lipid peroxidation 2036
- Etorphine
 inhibition of cyclic AMP production in NG108-15 cells, effects of tunicamycin and cycloheximide 9
- Eugenol
 disposition in the rat 465
- Exocytosis
 induced by *Dioclea grandiflora* (Mart.) lectin in mouse mast cells 4169
- FAD-containing monooxygenase
 pig liver, metabolism of phosphorus-containing compounds 1145
- Fasting
 effect on cytochrome P-450 in liver, sex differences 3661
- Fat
 dietary, requirements for induction of mixed function oxidase 3747
- Fat cells
 isoproterenol and forskolin stimulated lipolysis 843
- Fatty acid-binding protein
 liver, long-term effects of clofibrilic acid 325
- Fatty acid peptides
 elastase inhibitors 3315
- Fatty acids
 activation and desaturation in kidney of diabetic rats 4305
 DL-040 induced β -oxidation in liver of rhesus monkey 3473
 induced heterogeneity of human serum albumin 3299
 in liver, effect of dietary selenium 2287
 in phospholipids in heart muscle and non-muscle cells following ischaemia 2560
 in serum, effects of fructose and fenfluramine 1265
 stimulation of *N*-demethylation of dimethylhydrazine and tetramethylhydrazine in colonic mucosa 3101
 synthesis and oxidation in hepatocytes, effect of POCA 2651
- Fatty acyl-CoA oxidizing system
 in liver, effect of valproic acid 1357
- Feedback regulation of neurotransmitter release by autoreceptors 4085
- Felodipine
 effect on Ca^{2+} uptake by canine cardiac sarcoplasmic reticulum 195
 effect on cardiac calcium pumping ATPase and brain cyclic AMP phosphodiesterase 3837
 effect on muscarinic and α -adrenergic receptors in brain 175
 effect on tumour metastasis 235
- D-Fenfluramine
 chronic administration, body weight set-point and stress metabolism 12655
- Fenocitamine
 inhibition of gastric $\text{H}^+ + \text{K}^+$ -ATPase 2331
- Fenoterol
 intestinal glucuronidation 421

- Ferredoxin reductase
free radical damage to deoxyribose by
antitumour antibiotics 4099
- Fetal Alcohol Syndrome 529
- Fibrinogen
synthesis in plasma, ethanol inhibition of
turpentine induction 525
- Fibroblasts
actinomycin D - DNA interactions 2741
anti-inflammatory drug inhibition of
cystine and glutamate transport 1852
effect of azelic acid 1653
- Fibrosarcoma tumours
misonidazole induced DNA damage 3275
- Fibrosis
histamine in liver 2007
pulmonary, attenuation by aminophylline
4269
pulmonary, effect of dimethyl sulfoxide
2386
- Filipin
inhibition of hexose transport in adipocytes
1079
- Fire Master BP-6
effect on glutathione transferase and
peroxidase in liver 3735
- Fish
Northern pike, subcellular fractions from
head kidney 789
Pleuronectes platessa, conjugation of
organic compounds in isolated hepatocytes
3933
rainbow trout, xenobiotic metabolism
1407, 3309
- Flavin
metabolism in liver and brain, inhibition
by chlorpromazine of thyroxine modulation
93
- Flavin monooxygenase
in liver microsomes, cimetidine and
ranitidine interaction 2398
- Flavonoids
effect on prostaglandin biosynthesis and
inactivation 2477
- Flavoprotein enzymes
role in azoreduction in microsomes 337
- Flubendazole
inhibition of tubulin polymerization 1073
- Flufenamate
effect on calcium in neutrophils 3123
- Flunitrazepam
photolabeling of benzodiazepine recognition
site 2821
- Fluorescein isothiocyanate isomer I
biliary excretion of metabolites 1399
- Fluorescence quenching
interaction of local anaesthetics with
cytochrome oxidase 663
- Fluorescent probe
detection of drug-binding protein in
muscle 2555
- Fluoride
adenylate cyclase sensitivity and diabetes
2013
- Fluorinated arylalkylsulphonamides
protonophoric properties 2945
- Fluorine-19 NMR spectrometry
5'-deoxy-5-fluorouridine metabolism in
man 429
- Fluoroacetate
role in 2-fluoroethylnitrosourea toxicity
3323
- 5-Fluoro-2'-deoxyuridine
inhibition of thymidylate synthase in
L1210 cells 2319
modulation of 5-iodo-2'-deoxyuridine
metabolism and cytotoxicity in human
bladder cancer cells 3925
resistance of CCRF-CEM cloned sublines
associated with enhanced phosphatase
activities 125
- 4'-Fluoro-4-dimethylaminoazobenzene
effect on epoxide hydrolase in liver
microsomes 1795
- 2-Fluoroethylnitrosoureas
role of fluoroacetate in toxicity 3323
- D,L-4-Fluoroglutamic acid
effect on glutamylation of methotrexate
by hepatic cells 2995
- (S)- α -Fluoromethylhistidine
effect on histamine formation in trans-
planted tumour and ulceration in
duodenum 4327
inhibition of human histidine decarboxylase
3509
effect on mast cell histamine 1205
- 4-Fluoro-3-nitrophenyl azide
photoaffinity labelling of type B monoamine
oxidase 781
- 5-Fluorouracil
inhibition of degradation by (E)-5-(2-
bromovinyl)uracil *in vivo* 403
modulation of 5-iodo-2'-deoxyuridine
metabolism and cytotoxicity in human
bladder cancer cells 3925
role of uridine phosphorylase in anabolism
3585
- Flupenthixol
binding to dopamine receptors in striatum
151
interaction with amfonelic acid 39
- Fluperlapine
interaction with amfonelic acid 39
- Fluphenazine
amfonelic acid interaction 39
antiproliferative and anticarcinogenic
effects in L1210 cells 3973
ceruloplasmin interaction 2605
- Flurbiprofen
effect on calcium in neutrophils 3123
- F-Met-Leu-Phe
induced neutrophil degradation 1485
- Folate
metabolism, enterohepatic circulation,
effects of alcohol 1
- Folate polyglutamate
effect of ethanol on biosynthesis in rat
1913
- Folic acid
2,4-diaminoquinazoline analogues, effect
on L1210 cells 2163
- Fonfos analogues
metabolism by pig liver FAD-containing
monooxygenase 1145
- Formylglycinamide ribonucleotide synthetase
in rat hepatoma, inactivation by acivicin
243
- N-Formyl-methionyl-leucyl-phenylalanine
induced neutrophil locomotion, effect of
diclofenac sodium 3433
- Forskolin
activation of 5-HT stimulated adenylyl
cyclase in liver fluke 1683
adenylyl cyclase sensitivity and diabetes
2013

- Forskolin(contd.)
 effect on arachidonic acid metabolism in
 aortic endothelial cells 119
 stimulated adenylate cyclase in NIE-115
 cells, effect of ethanol 3655
 stimulated lipolysis, rate-limiting steps
 843
- Foscarnet
 inhibition of human T lymphotropic
 retrovirus replication 4075
- FPL 55712
 inhibition of leukotriene C4 binding in
 lung 2831
- Free radicals
 acidosis and calcium transport by masseter
 muscle 961
 damage to deoxyribose by antitumour
 antibiotics 4099
 produced by 3-methylindole, effects of
 vitamin E and glutathione 1117
 in quinone-containing antitumour agents
 1449
- Free radical scavengers
 protection against alloxan-induced diabetes
 3601
- Fructose
 effect on ethanol oxidation in hepatocytes
 655
 effect of fenfluramine on metabolism after
 acute feeding 1265
- Fundic mucosa
 inhibition of microsomal H^+K^+ -ATPase by
 fenoctimine 2331
 muscarinic receptors in 2269
- Furosemide
 binding protein in muscle 2555
 inhibition of glutathione S-transferase
 isoenzymes 2157
- 4 β -Galactosyltransferase
 in salivary gland 4229
- Gallamine
 interaction with muscarinic receptors from
 brain 2214
- Gallic acid
 inhibition of glutamate decarboxylase in
 brain 4145
- Gastric carcinoid
 effect of (S)- α -fluoromethylhistidine on
 histamine formation 4327
- Gastric fundic mucosa
 inhibition of microsomal H^+K^+ -ATPase by
 fenoctimine 2331
 muscarinic receptors in 2269
 effect of omeprazole on H^+K^+ -ATPase 2967
- Gastric glands
 effect of omeprazole on pepsinogen
 synthesis and secretion 3693
- Genetic polymorphism
 bufuralol and debrisoquine metabolism in
 human liver 65
- Genital tract
 diethylstilbestrol metabolites in 710
- Gentamicin
 distribution in renal cortex subcellular
 fractions 1779
 inhibition of phosphatidylinositol
 phosphodiesterase in skeletal muscle 2471
 effect on lipid peroxidation in renal cortex
 3895
 model membrane interactions 4025
- Germ-free rats
 biliary elimination of xenobiotics 857
- Ginseng saponin
 effect on β -endorphin and dynorphin in
 brain and pituitary 2044
- Glandular kallikrein
 in rat plasma 51
- Glial cells
 glutamate transport following glutamine
 synthetase inhibition 73
- Glioblastoma cells
 U18666A inhibition of cholesterol
 esterification 1305
- Glucagon
 effect on heme oxygenase induction in
 chick embryo hepatocytes 2937
 effect on mixed function oxidase system 449
- Glucocorticoids
 effect on renal kallikrein activity and
 urinary kallikrein excretion 4013
- Glucocorticoid agonist-receptor complex
 hydrogen bond structure 2040
- Gluconeogenesis
 effect of glutathione depletion 453
- Glucose
 in blood
 effect of adrenaline in methyl palmoxir-
 ate treated rats 2217
 effect of BRL 26830 1279
 in brain during posthypoglycaemic recovery,
 effect of age 1477
 induced insulin release, effect of
 N-p-tosylglycine 2495
 metabolism in *Schistosoma mansoni*, effect
 of 5-thiogluucose 3369
 oxidation by red blood cells, effect of
 hydroxypyruvaldehyde 1157
 in serum, effects of fructose and
 fenfluramine 1265
 tolerance and turnover in Zucker fa/fa rats,
 effects of BRL 26830 2425
 transport in adipocytes, effect of
 isoprenaline 649
 utilization by ischaemic heart, effect of
 tolbutamide 803
- Glucuronidation
 of acetaminophen in hepatocytes 2573
 of carcinogenic arylamine metabolites by
 liver microsomes 837
 in intestinal wall 421, 3527
 of 4-methylumbelliferone *in vivo* 1325
 of 1-naphthol by isolated cells from liver,
 intestine and kidney 697
 in plaice hepatocytes 3933
- Glucuronides
 acyl, fate in rat 451
- Glucuronyl transferase
 in liver microsomes, phenobarbital imprinting
 1007
- Glutamate
 in brain in posthypoglycaemic recovery,
 effect of aging 1477
 conformationally restricted analogues,
 inhibition of glutamate decarboxylase
 4145
 release from striatal slices 1217
 release from synaptosomes, effect of
 verapamil 1953
 transport in fibroblasts, effect of
 anti-inflammatory drugs 1852
 transport following glutamine synthetase
 inhibition 73

- Glutamate decarboxylase
 in brain
 conformationally restricted substrate analogues as inhibitors 4145
 effect of GABA-transaminase inhibitors 3789
- Glutamine
 protection against acivicin inactivation of formylglycinamidine ribonucleotide synthetase 243
 release from skeletal muscle, effect of 3-aminopicolinate 2032
- Glutamine synthetase
 inhibition and glutamate transport 73
- L- γ -Glutamyl-(*Q*-carboxy)-phenylhydrazide
 effect on renal acetaldehyde levels 3781
- γ -Glutamylcysteine
 substrate for glutathione *S*-transferases 3643
- γ -Glutamyltransferase
 in liver, effect of ethanol 1559
- γ -Glutamyltransferase
 cerebrovascular, regulation by adrenergic and cholinergic agonists 4177
- Glutathione
 biliary efflux due to aminopyrine metabolism 955
 buthionine sulfoximine mediated depletion in ovarian carcinoma cells, augmentation of adriamycin, melphalan and cisplatin cytotoxicity 2583
 butylated hydroxytoluene conjugation by rat liver microsomes 2109
 dependent effect of PZ51 in hepatocytes 1185
 depletion of and nitroaromatic compound cytotoxicity 2175
 effects of depletion on hepatic gluconeogenesis 453
 in erythrocytes, effect of nitrofurantoin 1963
 in esophagus, effect of disulfiram 387
 fate during *p*-phenetidine oxidation 343
 effect on free radical production induced by 3-methylindole 1117
 in heart, effect of adriamycin 4033
 hepatocyte susceptibility to paracetamol injury after depletion of 4341
 in kidney
 effect of disulfiram 387
 effect of gentamicin 3895
 in liver
 effect of 1-chloro-2,4-dinitrobenzene 1588
 effect of disulfiram 387
 effect of hymenoxon 3383
 role in biliary secretion of methylmercury 301
 effect of silymarin on ethanol induced changes 2209
 in MDBK cells, effect of vanadium 2465
 in melanoma cells, effect of 4-tertiary-butylcatechol 3517
 effect on mercury distribution in rats 2030
 metabolism in liver and kidney, effect of 1,2-dibromoethane 2827
 effect on methotrexate transport and accumulation in hepatocytes 1627, 1635
 effect on microsomal azoreduction 3259
 in mouse organs, diurnal fluctuations 1029
 in neutrophils, effect of hydrogen peroxide 2083
 role in acetaldehyde clearance after ethanol intake 3781
- Glutathione (contd.)
 role in acetaminophen toxicity 3915
 role in citral induced hemolysis 4117
 role in detoxification or activation of mutagens inside bacterial cells 2151
 turnover in rat, effect of ethanol 1559
- Glutathione peroxidase
 in liver
 effect of dietary selenium 2287
 effect of ethanol 1559
 effect of hymenoxon 3383
 regulation of 3735
- Glutathione reductase
 in liver, effect of hymenoxon 3383
- Glutathione transferase
 assay using 4,5-dihydro-epoxybenzo(a)pyrene as substrate 703
 in head kidney of Northern pike, subcellular distribution 789
 in hepatocyte culture, male and female rats 3029
 in intestine, effect of *t*-butyl-4-hydroxy-anisole analogues 3909
 in liver
 age-associated alterations 3891
 effect of *t*-butyl-4-hydroxyanisole analogues 3909
 effect of chloroform 249
 effect of dietary clofibrate 1827
 γ -glutamylcysteine as substrate 3643
 hepatotoxin-induced alteration 4239
 effect of hymenoxon 3383
 inhibition of isoenzymes by diuretic drugs 2157
 inhibition by sulfasalazine 2695
 lung tumour-bearing rats 3190
 regulation of 3735
 effect of streptozotocin 811
 trout, induction of 3309
- Glutethimide
 uptake by adipose tissue 3683
- Glyceraldehyde phosphate dehydrogenase
 effect of anaesthetics and dichlorodifluoromethane 2839
- Glycerol
 incorporation into myocardial cell lipids, effect of doxorubicin 1741
 release from fat cells, effects of isoproterenol and forskolin 843
 in serum, effects of fructose and fenfluramine 1265
 metabolism in lymphoma cells sensitive or resistant to L-asparaginase 559
- Glycine cleavage enzyme system
 in brain, effects of dipropylacetate 2877
- Glycodeoxycholate
 effect on hepatic depletion of bilirubin 507
- Glycogenolysis
 ischaemic heart, effect of tolbutamide 803
- Glycolysis
 Schistosoma mansoni, effect of 5-thiogluucose 3369
- Glycoproteins
 synthesis in salivary gland 4229
- Glycoprotein P-180
 phosphorylation of and resistance to adriamycin 1471
- Glyoxylate
 glycine formation in lymphoma cells sensitive or resistant to L-asparaginase 559
- Goat

- Goat
 effect of vitamin E and glutathione on free radical production by 3-methylindole 1117
- Gold compounds
 effect on DNA replication 3243
- Guanabenz
 β -adrenergic activity and conformation of 491
- Guanethidine
 effect on heart, brain and liver mitochondria 2507
- Guanine
 methylation in liver, effect of methionine-cysteine deficiency 3627
- Guanosine-3',5'-monophosphate
 in lung, effect of histamine H-1 receptor stimulation 3285
 metabolism in heart, effect of β -adrenoceptor antagonists 1659
 role in cyclic AMP regulation in thyroid 1429
 role in vasodilation 1867
- Guanosine-3',5'-monophosphate phosphodiesterase
 tracheal smooth muscle, role in relaxation 1875
- Guanosine triphosphate
 effect on β -adrenergic receptor binding in heart 2917
 binding to tubulin, effect of rifampicin 3415
- Guanylate cyclase
 in heart, effect of β -adrenoceptor antagonists 1659
- Guanylate pools
 in tumour cells, depletion by tiazofurin and selenazofurin 1109
- 5'-Guanylyl imidodiphosphate
 regulation of α_2 -adrenoreceptors in ileal mucosa 3867
 effect on sulpiride binding in striatal membranes 2905
- Hagedorn oximes
 stereospecific reactivation of soman-inhibited acetylcholinesterases 142
- Hair follicles
 aryl hydrocarbon hydroxylase in 433
 drug metabolism in 3571
- Haloethylene
 induced acetoneamia 1981
- 2-Haloethylnitrosoureas
 action on DNA 1015
- 5'-Halogenated adenosines
 as substrates for 5'-deoxy-5'-methylthioadenosine phosphorylase 361
- Haloperidol
 antisera against 3959
 effect on DOPA production in clonal cell lines 941
 interaction with amfonelic acid 39
 reduction by rat and guinea pig liver microsomes 2923
 effect on striatal D-2 receptor function 2755
 effect on tempocholine entrapping in erythrocytes 31
- Haloethane
 effect on glyceraldehyde phosphate dehydrogenase and pectin methylesterase 2839
 effect on ion binding to liposome surfaces
- Haloethane (contd.)
 708
- Harmol sulfate
 secretion from liver into blood 2129
- Hamster
 effect of ethanol on liver microsomal drug metabolism 3881, 4263
- Heart
 β_1 -adrenoceptor affinity and selectivity 2883
 effect of β -adrenoceptor antagonists on cyclic nucleotide metabolism 1659
 β -adrenergic receptor masking by noradrenaline 2917
 adriamycin myopathy 4033
 Na⁺,K⁺-ATPase temperature dependence, species differences 2343
 effect of calcium channel blockers on calcium pumping ATPase 3837
 chick embryo, muscarinic stimulation of phosphoinositide turnover 1321
 effect of daunorubicin on isolated and cultured cells 989
 diabetes and hormone sensitivity of adenylate cyclase 2013
 digoxin binding and daunorubicin uptake by myocytes 1957
 effect of dihydropyridine Ca²⁺ antagonists on calcium uptake by sarcoplasmic reticulum 195
 effect of doxorubicin and verapamil on calcium uptake by cultured cells 1115
 energy metabolism in oxygen deprived cell cultures 145
 free radical production from normal and adriamycin-treated cardiac sarcosomes 669
 effect of guanethidine on mitochondria 2507
 muscarinic receptor subclassification 588
 effect of NCO-700 on degradation of myofibrillar proteins 3875
 effect of nocardipine on Na⁺ - Ca²⁺ exchange in sarcolemma 2303
 nitroglycerin stimulation of sarcolemmal Ca²⁺-ATPase 1857
 ouabain receptors in myocardium and purkinje fibres 3701
 phospholipid composition of muscle and non-muscle cells following ischaemia 2560
 effect of propranolol on mitochondrial function 911
 protective effects of taurine on hypoxia 2611
 effect of tolbutamide on energy metabolism during ischaemia 803
 semisynthetic cardenolide action compared with natural glycosides 2541
- Heavy metals
 effect on striatal D2 dopamine receptor 3405
- HeLa cells
 effects of actinomycin D analogues on nucleolar phosphoprotein B23 4059
 bleomycin control of transplasma membrane redox activity 617
 modification of DOPA toxicity 1801
- Hematopoietic stem cells(CFU-S)
 sensitivity to oxazaphosphorines 3465
- Hematoporphyrin
 interaction with chloroquine 141
- Heme
 translocation in hepatocytes 719

- Heme-II-iron
role in red cell membrane lipid peroxidation 1339
- Heme oxygenase
induction in avian hepatocyte culture, hormonal regulation 2937
in liver, effect of organotin 997
- Heme proteins
ethylene production from methional 977
- Hemicholinium-3
antiplasmodial activity 4068
effect on phospholipid metabolism in KrebsII ascites cells 3987
- Hemoglobin
induction of synthesis in K562 leukemia cells 2077
- Hemolysis 32
citral induced 4117
- HEp-2 cells
effects of 2-azahypoxanthine and 2-azaadenosine 1293
- Hepa-1 cells
induction of aryl hydrocarbon hydroxylase and acetanilide 4-hydroxylase by polycyclic aromatic compounds 2721
- Heparin
low molecular weight fraction, antithrombotic and bleeding effects 3305
regulation of angiogenesis 905
- Hepatectomy
effect on renal cytochrome P-450 311
- Hepatic fibrosis
histamine content 2007
- Hepatocytes
acetaminophen glucuronidation and sulfation rates 2573
effect of aflatoxin B1 on translocation 4184
chick embryo, hormonal regulation of heme oxygenase induction 2937
cultured
biotransformation enzymes in male and female rats 3029
effect of cimetidine and ranitidine on paracetamol conjugation 1407
conjugation reactions in 463
desferrioxamine B effects 1175
epoxide hydrolase induction 1537
D,L-4-fluoroglutamic acid effects on methotrexate glutamylation 2995
human, maintenance of cytochrome P-450 2405, 2991
iron chelation by pyridoxal isonicotinoyl hydrazone and analogues 3011
paracetamol injury 4341
cytochrome P-450 activity following cryopreservation and monolayer culture 3389
effect of diethyl ether anaesthesia on glucuronidation in 4179
diurnal variation of methotrexate transport and accumulation 1635
elutriated
heterogeneous distribution of drug metabolism 1463
taurocholate uptake 4257
ethanol oxidation, contribution of non-alcohol dehydrogenase pathways 655
effect of glutathione depletion on methotrexate transport and accumulation 1627, 1635
heme distribution in 719
heterogeneity for bile secretion after
- Hepatocytes (contd.)
acinar zone 3 damage induced by bromobenzene 507
effect of hypolipidemic compounds on enzyme release 379
isoniazid and iproniazid metabolism 381
paracetamol injury, protection by calcium EDTA 19
plaice, conjugation of organic compounds 3933
effect of POCA on fatty acid synthesis and oxidation 2651
effect of PZ51 on ADP-Fe-induced lipid peroxidation 1185
receptor-mediated endocytosis of asialo-glycoproteins, effect of ATP 1639
trout, substrate - cytochrome P-450 interaction 1407
- Hepatoma
susceptibility and resistance of liver tissue to oxidative damage during diethylnitrosamine carcinogenesis 443
- Hepatoma cells H35
effect of D,L-4-fluoroglutamic acid on methotrexate glutamylation 2995
- Hepatoma cells 3924A
in vivo inactivation of formylglycinamide ribonucleotide synthetase by acivicin 243
- Hepatoma cells McA-RH-7777, H4-II-E
epoxide hydrolase induction 1537
- Herpes simplex virus-infected cells
9(1,3-dihydroxy-2-propoxymethyl)guanine metabolism in 1049
- Herpes simplex virus type II
role of ribonucleotide reductase in infection 777
- Hexachlorobenzene
depression of hepatic uroporphyrinogen 1817
fate in C57BL/10 mice with iron overload 4157
induced porphyria
iron and lipid peroxidation involvement 161
role of pentachlorophenol in mitochondrial derangement 1171
- Hexachlorobiphenyl
effect on glutathione transferase and peroxidase in liver 3735
uptake by adipose tissue 3683
- Hexachlorobutadiene
excretion pattern and metabolism in rats 499
- Hexamethylamine
iminium ion formation from 2055
- Hexamethylmelamine
metabolism in intestine, *in vitro-in vivo* correlations 391
- Hexamethylphosphoramide N-demethylase
in nasal and liver microsomes, inhibition by methylene dioxyphenyl compounds 631
- Hexobarbital hydroxylase
in liver microsomes, age and sex differences 579, 1861
- Hexose monophosphate shunt
in neutrophils, effect of hydrogen peroxide 2083
- Hexose transport
adipocytes, effect of alcohols 1079
- HGG-21,-42,-52
stereospecific reactivation of soman-inhibited acetylcholinesterase 142

- HI-6
 acceleration of acetylcholinesterase decarbamylation 4337
 binding with regional brain muscarinic receptors 2815
 reactivation of ethyl methylphosphonyl-acetylcholinesterase 3606
 stereospecific reactivation of soman-inhibited acetylcholinesterase 142
- Hippocampus
 HI-6 and 2-PAM binding with muscarinic receptors 2815
- Histamine
 effect on cyclic nucleotides in lung 3285
 differential release by mast cells 1389
 formation in mast cells, effect of α -fluoromethylhistidine 1205
 formation in transplanted gastric carcinoid, effect of (S)- α -fluoromethylhistidine 4327
 in hepatic fibrosis 2007
 release in response to intrapleural injection of anti-IgE 3901
- Histamine H-1 receptors
 in developing brain, effect of thyroid state 4131
 in human peripheral lung 3285
- Histidine
 in chick embryo, effect of diazinon 1937
- Histidine decarboxylase
 human peripheral blood leukocytes, inhibition by (S)- α -fluoromethylhistidine 3509
 microassay 3711
- Histidylproline diketopiperazine
 effect on acetylcholine and choline release from brain 1341
- Histocompatibility complex
 mitomycin conjugate 289
 effect on transmembrane methylation 3421
- Histronicotoxins
 interaction with nicotinic receptor-ion complex of *Torpedo* electroplax 3037
- Hole-board exploration
 effect of GABA transaminase inhibitors 3789
- Homocysteine
 effect on cyclic AMP response in brain 1435
- Homocysteine - pyridoxal 5'-phosphate
 effect on muscimol binding to GABA receptor in brain 3553
- Homovanillic acid
 relationship with monoaminergic neuronal activity 1127
 in striatum
 effect of amfonelic acid + neuroleptics 39
 effect of pentylenetetrazol on carbaryl-induced changes 553
 urinary excretion
 effect of debrisoquine 2911
 effect of 6-hydroxydopamine 1255
- Hormones
 produced by pulmonary endocrine cells 155
- Horse
 phenylbutazone disposition 459
- Horseradish peroxidase
 p-phenetidine oxidation 343
- HS-6
 acceleration of acetylcholinesterase decarbamylation 4337
- Human colon carcinoma
 inactivation by acivicin of carbamoyl-phosphate synthetase II 97
- Human T lymphotropic retrovirus
 Human T lymphotropic retrovirus
 inhibition of replication by foscarnet 4075
- Hyaluronidase
 testicular, fate in the rat 2199
- Hybridomas 2225
- Hydralazine
 aldehyde oxidase inhibition 4251
- Hydrazones
 inactivation of microsomal cytochrome P-450 431
- Hydrocortisone
 effect on calcium in neutrophils 3123
 effect on heme oxygenase induction in chick embryo hepatocytes 2937
- Hydrocortisone esters
 hydrolysis by hepatic carboxylesterases 1881
- Hydrogen peroxide
 inhibition of neutrophil function 2083
 peroxisomal β -oxidation and valproate 2147
 production by erythrocytes, effect of nitrofurantoin 1963
- 4-Hydroperoxycyclophosphamide
 hematopoietic stem cell sensitivity to 3465
- 3'-Hydroxyacetanilide
 2-acetamido-p-benzoquinone as a metabolite 2871
 effect on 2-acetylaminofluorene-mediated loss of liver N-hydroxy-2-acetylaminofluorene sulfotransferase activity 3380
- N-Hydroxy-2-acetylaminofluorene
 induction of epoxide hydrolase in cultured hepatocytes and hepatoma cells 1537
- 7-Hydroxy-acetylaminofluorene
 teratogenicity 2953
- N-Hydroxy-2-acetylaminofluorene sulfotransferase
 in liver, effect of sulfotransferase inhibitors on 2-acetylaminofluorene mediated loss 3380
- N-Hydroxy-N'-aminoguanidine derivatives
 inhibition of ribonucleotide reductase and L1210 cell growth 2645
- (RS)-1-((2-Hydroxy-1-(aminomethyl)ethoxy)methyl)-5-benzyluracil
 inhibition of uridine phosphorylase 1121
- 4-Hydroxyandrostene-3,17-dione
 aromatase inhibition 3213
- Hydroxybenzylpindolol
 inhibition of propranolol binding in human serum 2812
- γ -Hydroxybutyric acid
 formation from 1,4-butanediol in brain and liver 1849
- trans- γ -Hydroxycrotonic acid
 in brain 2401
- 7-Hydroxycoumarin
 conjugation in isolated trout liver cells 1407
 production in epidermal cells 3571
 sulfation in kidney tubule fragments 1363
- 8-Hydroxy-2-(N,N-dipropyl)aminotetralin
 binding in brain, inhibition by 8-methoxy-2'-chloro-PAT 883
- 6-Hydroxydopamine
 effect on amine metabolites in brain and urine 1255
- Hydroxyeicosatetraenoic acids
 inhibition of platelet and neutrophil phosphorylase A2 1571
- 1-Hydroxyethylidene-1,1-bisphosphonate
 effect on proteinase release 4043

- 1-((2-Hydroxy-1-(hydroxy-methyl)ethoxy)methyl)-5-benzyl uracil
inhibition of uridine phosphorylase 1121
- 5-Hydroxyindole acetic acid
formation in pineal gland, effect of anticonvulsant drugs 3198
relationship with monoaminergic neuronal activity 1127
in striatum, effect of benzene and pyridine 3774
- 11 β -Hydroxylase
in adrenocortical cells, prevention of loss by phenols 865
- Hydroxylation
in vitro model, *Mucor hiemalis* 401
- Hydroxyl radicals
iron-dependent formation 229
production from normal and adriamycin-treated rat cardiac sarcosomes 669
role in succinonitrile metabolism 4081
- Hydroxyl radical scavenging agents
oxidation by rat liver microsomes 2929
- 3-Hydroxy-3-methylglutaryl-coenzyme A reductase
in liver microsomes
inhibition by thiol group reagents 3293
effect of KCD-232 3361
- 7-Hydroxymethyl-12methylbenz(a)anthracene
covalent binding to DNA via a sulphate ester 3002
- 4-Hydroxynonenal
effect on Ehrlich ascites tumour cells 3803
(125I)cis-7-(2-p-Hydroxyphenylethanolamino-cyclopentyl)-heptanoic acid 1165
- p-Hydroxyphenylglycol
urinary excretion
effect of debrisoquin 2911
effect of 6-hydroxydopamine 1255
- 3-(3-Hydroxyphenyl)-N-n-propylpiperidine
catechol-O-methyltransferase involvement in metabolism of 3599
- 15-Hydroxyprostaglandin dehydrogenase
in kidney, effect of estradiol 2073
in lung
effect of estradiol 2073
inactivation by acrolein 4275
- Hydroxypyruvaldehyde
effect on red blood cell oxidative metabolism 1157
- 3 α -Hydroxysteroid dehydrogenase
in rat tissues, indomethacin-sensitive 831
- 5-Hydroxytryptamine
binding sites in brain, irreversible blockade by 8-methoxy-2'-chloro-PAT 883
differential release by mast cells 1389
relationship with monoaminergic neuronal activity 1127
release from nigral slices, effects of dopamine and dopamine agonists 2655
in striatum, effects of benzene and pyridine 3774
synthesis in brain, effect of α 2-adrenergic antagonists 1093
uptake in brain, effect of N-n-alkylbenzylamine and N-n-alkylphenylethylamine derivatives 4173
- 5-Hydroxytryptamine receptors
in brain, effect of β -adrenergic receptor stimulation 1585
- 5-Hydroxytryptophol
formation in pineal gland, effect of anticonvulsant drugs 3198
- Hydroxyurea
inhibition of ribonucleotide reductase in Hydroxyurea (contd.)
L1210 cells 353
- Hydroxyurea + 1- β -D-arabinofuranosylcytosine
effect on repair of X-ray induced DNA single-strand breaks 2557
- 1 α -Hydroxyvitamin D3
induced hypercalcemia, effect of aspirin 1901
- Hymenoxon
biologic and toxic effects 3383
- Hypercalcaemia
inhibition by aspirin 1901
- Hypertension
 β -adrenergic activity of guanabenz 491
- Hypoglycemia
effect of age on cerebral energy metabolism in recovery 1477
- Hypolaetin-8-glucoside
effect on prostaglandin biosynthesis and inactivation 2477
- Hypolipidaemic agents
induction of cytochrome P-452 3221
effect on release of enzymes from hepatocytes 379
- Hypoxia
effect on DOPA toxicity in human tumour cells 1801
effect on omeprazole metabolism by isolated perfused liver 1239
protective effects of taurine in heart 2611
- Hypoxic tumour cells
misonidazole-induced DNA damage 3275
- ICI 118-551
inhibition of iodocyanopindolol binding in kidney 3951
- IgE antiserum
inflammatory response to intrapleural injection of 3901
- Ileum
 α 2-adrenergic receptors in mucosa 3867
enkephalin analogue binding 25
glucuronidation capacity 3527
- Imidazole
effect on platelet activation by arachidonic acid 1151
- Imidazoles
inhibition of steroid aromatase 1087
- Imidazotetrazines
mitozolomide uptake and decomposition in TLX5 lymphoma cells 217
- Imidotetrazinones
induction of hemoglobin synthesis in K562 leukemia cells 2077
- Iminium ions
generation from metabolism of N-alkyl compounds 2055
- Imipramine
binding in brain and platelets, effect of desmethylimipramine and electroconvulsive shock 679
inhibition of aumaine O binding to α 1-acid glycoprotein 821
inhibition of dihydrofolate reductase in liver 2212
inhibition of K⁺-stimulated-Ca²⁺ uptake by synaptosomes 902
effect on liposomal membranes 705
metabolism by liver microsomes, effect of diabetes mellitus 287
metabolism by liver microsomes, sex differences 898, 3533

- Imipramine(contd.)
 uptake by adipose tissue 3683
- Imipramine *N*-demethylase
 in liver microsomes, age and sex differences 1861
- Immunogenicity of captopril-protein conjugates 4005
- Immuno-reactive insulin
 release from isolated islets, effect of adrenaline and noradrenaline 985
- Indacrynic acid
 inhibition of glutathione transferase isoenzymes 2157
- Indocyanine green
 association with binding proteins 2439
 biliary elimination, germ-free rats 857
- Indole
 metabolism in pineal gland, effect of anticonvulsant drugs 3198
 protein binding inhibitors 2431
- Indole-3-acetaldehyde
 role in pigment formation from tryptamine 2663
- Indomethacin
 effect on arachidonic acid induced changes in calcium transport by masseter muscle 961
 binding to HSA 1999
 effect on calcium in neutrophils 3123
 effect on erythrocyte morphology 3329
 effect on human neutrophil degranulation 1485
 inhibition of chicken muscle aldose reductase 2961
 inhibition of cystine and glutamate transport in fibroblasts 1852
 inhibition of PGE₂ synthesis in phenazine methosulfate treated cells 4137
 sensitive 3 α -hydroxysteroid dehydrogenase in rat tissues 831
- Inflammation
 induced by anti-IgE, role of histamine 3901
 leukotriene B₄ metabolism during carrageenan-induced pleurisy 3495
- Inosine
 dialdehyde derivative, effect on pyrimidine metabolism in L1210 cells 1717
- Inositol lipid hydrolysis
 in guinea pig visceral longitudinal smooth muscle 2297
- Inositol phospholipids
 role in neutrophil activation 1931
- Insulin
 facilitation of release by *N*-*p*-tosylglycine 2495
 effect on heme oxygenase induction in chick embryo hepatocytes 2937
 effect on mixed-function oxidase system 449
 in plasma, effect of BRL 26830 1279
 response in adipocytes, effect of isoprenaline 649
 secretion from isolated islets of Langerhans, effect of adrenaline and noradrenaline 985
 sensitivity in Zucker fa/fa rats, effect of BRL 26830 2425
 sparteine stimulated release 2355
- Interstitial cells
 cadmium uptake 2513
- Intestine
 absorption of 1-nitropyrene metabolites 2325
 α 2-adrenergic receptors in ileal mucosa 3867
- Intestine(contd.)
 cefadroxil transport across brush border membrane 81
 cytochrome P-450 isoenzymes, effect of dietary iron and selenium 599
 dialkyl nitrosamine metabolism 445
 2,4-dinitrotoluene metabolism 969
 embryonic chick duodenum, calcium transport 1971
 enzyme induction by *t*-butyl-4-hydroxy-anisole analogues 3909
 glucuronidation in 421, 3527
 inositol lipid hydrolysis and contractility in longitudinal smooth muscle 2297
 microvillar peptidases 1347
 muscarinic receptor subclassification 588
 1-naphthol conjugation in isolated cells 697
 oxidative drug metabolism, in vitro-in vivo correlations 391
 proteolytic inactivation of substance P in epithelial layer 4019
 role in in vivo clearance of 4-methyl-umbelliferone 1325
 separation of enkephalin-degrading enzymes from longitudinal muscle layer 3179
- Iodide
 organification of thyroid cells, effect of tetradecanoyl phorbol 13-acetate 3795
- Iodocyanopindolol
 binding to β -adrenergic receptors in liver, effect of sucrose feeding 623
 binding to kidney membranes 3951
- 5-Iodo-2'-deoxyuridine
 interaction with fluoropyrimidines 3925
- 16 α -Iodo-testosterone
 synthesis and radiopharmaceutical potential 3173
- 5-Iodouracil
 inhibition of degradation by (E)-5-(2-bromovinyl)uracil in vivo 403
- Ionophore A23187
 induced neutrophil degradation 1485
- Iproniazid
 free radical intermediates during metabolism by hepatocytes 381
- Iproplatin
 renal fractional clearance 1423
- Iris
 effect of (1,6-di(*O*-carbamoyl)cyclohexanone oxime)hexane on arachidonic acid metabolism 539
- Iron
 chelation by pyridoxal isonicotinoyl hydrazole and analogues 3011
 dependent formation of hydroxyl radicals 229
 effect on fate of hexachlorobenzene in C57BL/10 mice 4157
 effect on intestinal cytochrome P-450 isoenzymes 599
 involvement in hexachlorobenzene induced porphyria 161
 mobilization by desferrioxamine B in cultured hepatocytes 1175
 effect on paraquat toxicity in mice 1841
 requirement for antitumour antibiotic damage to deoxyribose 4099
 effect on striatal D₂ dopamine receptors 3405
- Iron-ascorbate
 taurine protection of lymphoblastoid cells 2205

- Iron chelates
ethylene production from methional 977
- Iron-cysteine
induced lipid peroxidation in liver
microsomes, effect of α -tocopherol and
water-soluble analogues 437
- Iron-superoxide dismutase
Crithidia, inhibition by N' , N^6 -bis(dihydroxy
benzoyl)-1,6-diaminohexane 3147
- Ischaemia
effect of NCO-700 on degradation of cardiac
myofibrillar proteins 3875
effect on phospholipid fatty acids in heart
muscle and non-muscle cells 2560
effect of tolbutamide on myocardial energy
metabolism 803
- Islets of Langerhans
effects of adrenaline and noradrenaline on
insulin secretion 985
- Isobutylalcohol
effect on brain decarboxylase activity 1381
- 3-Isobutyl-1-methylxanthine
effect on arachidonic acid metabolism in
aortic endothelial cells 119
effect on bradykinin-mediated PGE₂ and cyclic
AMP synthesis in renal papillary
collecting tubule cells 1565
- Isoflavonoids
inhibition of microsomal lipid peroxidation
1367
- Isoniazid
free radical intermediates during
metabolism by hepatocytes 381
- Isoprenaline
dihydroalprenolol displacement in heart
2883
- Isoprenoids
synthesis by J774 macrophages, inhibition
by T-2 toxin 2809
- Isoproterenol
effect on density of 5-HT₂ receptors in
brain 1585
inhibition of propranolol binding in
human serum 2812
effect on protein synthesis in salivary
gland 4229
stimulated lipolysis, rate-limiting steps
843
stimulated ornithine decarboxylase in
developing cerebellum, effects of
6-aminonicotinamide 3281
stimulation of adenylate cyclase, effect
of sucrose diet 623
stimulation of cerebrovascular
 λ -glutamyltranspeptidase 4177
- Isoproterenol/N-ethylmaleimide
inactivation of β -adrenergic receptors 1611
- Isosafrole
effect on glutathione transferase and
peroxidase in liver 3735
induction of α -dealkylation of ethoxyphen-
azone homologues 3337
inhibition of nasal cytochrome P-450 631
sex differences in effect on hepatic
phase I drug metabolism 3533
- Isoscutellarein
effect on prostaglandin synthesis and
degradation 2477
- Jejunum
glucuronidation capacity 3527
- Juxtaglomerular cell
calcium levels and renin release 1523
- Kaempferol
effect on prostaglandin synthesis and
degradation 2477
- Kainic acid
effect on aspartate release from striatal
slices 1217
- Kallidin
metabolism by vascular aminopeptidase M
2309
- Kallikrein
glandular, in rat plasma 51
renal activity and urinary excretion, effect
of tetracosactide and adrenal steroids
4013
- KB cells
effect of gold compounds on DNA replication
3243
- Kelatorphan 1347
- Ketoconazole
inhibition of steroid aromatase 1087
- Ketogenesis
effects of POCA 2645
- 2-Keto-4-methylthiobutyrate
ethylene production from in vivo 3231
- Ketone bodies
haloethylene-induced excretion 1981
- 6-KetoPGF_{1 α}
carbon tetrachloride induced synthesis in
leucocytes 1515
- α -Ketoethiohydroximates
reactivation of ethyl methylphosphonylated
eel acetylcholinesterase in vitro 3606
- Kidney
 β -adrenoceptor subtypes in 3951
age-dependent changes in prostanoid
metabolism 223
amelioration of cyclosporin toxicity 573
ATPases in basolateral plasma membranes of
young and old rats 2275, 4197
clofibrate induction of epoxide hydrolase
1827
cisplatin-induced alteration of copper and
zinc content 2575
cisplatin toxicity, effect of chloride
salts 2363
coumarin 7-hydroxylase in 1987
cytochrome P-450 in, effect of liver
malfunction 311
degradation of myelin basic protein
peptide 43-88 by alkaline proteolytic
activity in 1231
 Δ^6 - and Δ^9 -desaturases in, effect of
diabetes 4305
effect of 1,2-dibromoethane on glutathione
metabolism 2827
dichloroethylene binding 4051
diethylstilbestrol metabolism by
microsomes 3107
effect of disulfiram on glutathione,
glutathione transferase and nitrosamine
dealkylases in 387
diurnal variation in glutathione 1029
effect of estradiol on 15-hydroxyprosta-
glandin dehydrogenase 2073
fractional clearance of platinum
antitumour compounds 1423
gentamicin distribution in subcellular
fractions of cortex 1779
effect of gentamicin on lipid peroxidation

Kidney (contd.)

- 3895
- effect of γ -glutamyltranspeptidase inhibitor and reduced glutathione on acetaldehyde levels 3781
- lead transport 1439
- effect of methionine-cysteine deficiency on DNA alkylation 3627
- N^2 -methyl-9-hydroxyellipticinium acetate metabolism in isolated cells 427
- microvillar peptidases 1347
- 1-naphthol conjugation in isolated cells 697
- Northern pike, subcellular fractions from 789
- phosphodiesterase inhibition of prostaglandin in papillary collecting tubule cells 1565
- effect of selenium on mercury accumulation 2713
- stimulation of renin secretion by TMB-8 1523
- sulfation in tubule fragments 1363
- effect of tetracosactide and adrenal steroids on kallikrein activity 4013
- thiopurine methyltransferase in 3823
- trimethoprim uptake by cortex 3483
- Kidney cells MDBK
- vanadium toxicity 2465
- Krebs II ascites cells
- effect of hemicholinium-3 on phospholipid metabolism 3987

L643,717

- displacement by dihydroalprenolol in heart 2883

Labetalol

- effect on cyclic nucleotide metabolism in heart 1659
- inhibition of phospholipase A1 521

Lactate dehydrogenase

- release from hepatocytes, effect of hypolipidemic compounds 379

Lanthanum

- effect on brain acetylcholinesterase 533

Lauric acid

- contribution of hypolipidaemic-induced cytochrome P-452 to metabolism of 3221

Lead

- inhibition of monoamine oxidase in brain 2563
- inhibition of phosphatidylinositol phosphodiesterase in skeletal muscle 2471
- transport in kidney mitochondria and slices 1439
- effect on uroporphyrin in bone marrow, liver, kidney and erythrocytes 4345

Lecithin

- uptake by lipophilic model compounds 3683

Lectin

- Dioclea grandiflora* (Mart.), induced exocytosis in mouse mast cells 4169

Leishmanial drug WR 6026.2HCl

- metabolism in rat liver microsomes 181

Leishmania mexicana mexicana promastigotes

- effect of SF 86-327 on growth and sterol synthesis 3785

Leucocytes

- carbon tetrachloride induced eicosanoid synthesis and enzyme release 1515
- cystinotic, cystine depletion by WR-1065 2179

Leucovorin

- effect on methotrexate poly- γ -glutamate

Leucovorin (contd.)

- synthesis in MCF-7 cells 2897
- Leucyl-2-naphthylamide
- hydrolysis by vascular aminopeptidase M 2309
- Leukemia cells CCRF-CEM
- 2'-deoxyadenosine incorporation 3353
- 5-fluorodeoxyuridine associated with enhanced phosphatase activities 125
- Leukemia cells HL-60
- 5'-deoxy-5'-methylthioadenosine phosphorylase activity towards 5'-halogenated adenosines 361
- diaziquone reduction to its free radical 1449
- Leukemia cells K562
- effect of azelaic acid 1653
- diaziquone reduction to its free radical 1449
- differentiation of 2077
- Leukemia cells L1210
- adriamycin and membrane functions 1501
- effect of 6-aminonicotinamide on cell growth and nucleotide metabolism 3999
- effect of anthrapyrazoles 3499
- benzimidazole carbamate activity against, correlation with *in vitro* tubulin polymerization assay 3603
- 5'-deoxyinosine inhibition of pyrimidine metabolism 1717
- effect of 2,4-diaminoquinazolines 2163
- diaziquone reduction to its free radical 1449
- epipodophyllotoxin cytotoxicity and topoisomerase-mediated DNA cleavage 2483
- effect of N -hydroxy- N' -aminoguanidine derivatives 2645
- merbarone action 3395
- mitonafide induced DNA strand breaks 3845
- effect of phenothiazines 3973
- L-phenylalanine mustard resistant, efficacy of PTT.19 2347
- 5(N -phenylcarboxamido)-2-thiobarbituric acid activity 2047
- quinones and ribonucleotide reductase 353
- thymidylate synthase assay and inhibition 2319
- tiazofurin and selenazofurin effects 1109
- Leukemia cells P-388
- effect of diacridines on permeability 2123
- L-phenylalanine mustard resistant, efficacy of PTT.19 2347
- 5(N -phenylcarboxamido)-2-thiobarbituric acid activity 2047
- tiazofurin and selenazofurin activity 1109
- Leukemic blasts
- human, effect of ara-C and hydroxyurea on repair of DNA single-strand breaks 2557
- Leukocytes
- elastase inhibition by fatty acid peptides 3315
- histidine decarboxylase inhibition by (S)- α -fluoromethylhistidine 3509
- leukotriene production and energy metabolism 3095
- tenoxicam metabolism by peroxidases 1337
- Leukotriene A4:glutathione S -transferase inhibition by sulfasalazine 2695
- Leukotriene B4
- carbon tetrachloride induced synthesis in leucocytes 1515
- formation in neutrophils
- effect of ebselen 2691

- Leukotriene B₄**
 formation in neutrophils(contd.)
 effect of inhibitors of arachidonic acid metabolism 1485
 metabolism during carrageenan-induced pleurisy 3495
 nafazatrom inhibition of formation 1891
 production in peritoneal leukocytes requires intact energy metabolism 3095
- Leukotriene C₄**
 specific binding sites in human lung 2831
- Leukotriene D₄ receptors**
 in adult and fetal human lung 4311
- Leukotrienes, sulfidipeptide**
 formation in basophil leukemia cells, inhibition by sulfasalazine 2695
- Levodopa**
 related compounds, inhibition of ribonucleotide reductase in L1210 cells 353
- Levomepromazine**
 ceruloplasmin interaction 2605
- Lidocaine**
 binding to human α_1 -acid glycoprotein 4279
 iminium ion formation from 2055
 inhibition of auramine O binding to α_1 -acid glycoprotein 821
 interaction with cytochrome oxidase 663, 3187
- Lidocaine N-deethylase**
 in liver microsomes, age and sex differences 1861
- Ligand binding to serum albumin** 1999
- Ligandin**
 role in biliary secretion of methylmercury 301
- Lignocaine**
 metabolism by liver microsomes
 effect of diabetes mellitus 287
 sex dependence of effects of enzyme inducers 3533
- Lindane**
 binding to Cl⁻ channel in Torpedo electric organ 2579
- Linoleic acid**
 incorporation into myocardial cell lipids, effect of doxorubicin 1741
- Lipid**
 composition of liver microsomes during aging 2983
 metabolism in cultured myocardial cells, effect of doxorubicin 1741
 metabolism in liver, effect of valproic acid 1357
 3-phenoxybenzoic acid incorporation by monoacylglycerol acyltransferase 3009
- Lipid layers**
 interaction with streptomycin derivatives 1035
- Lipid membranes**
 effect of Ara-C and other agents 4025
- Lipid peroxidation**
 effect of antioxidants *in vivo* 397
 formation of ultimate carcinogen of benzo(a)pyrene 4066
 in hepatocytes
 ADP-Fe-induced, effect of PZ 51 1185
 calcium EDTA protection against paracetamol injury 19
 induction by carbon tetrachloride, effect of copper(II) (3,5-diisopropylsalicylate) 2 3915
 involvement in hexachlorobenzene induced porphyria 161
- Lipid peroxidation(contd.)**
 kidney, effect of gentamicin 3895
 liver
 effect of adriamycin 847
 diethylnitrosamine carcinogenesis 443
 ethanol induced, silymarin protection 2209
 effect of etoposide VP-16,213 2036
 effect of hymenoxon 3383
 inhibition by isoflavonoids 1367
 effect of α -tocopherol and water-soluble analogues 437
 modification of effect of phenolic anti-inflammatory drugs on prostaglandin biosynthesis 933
 in red blood cells 1339
 role in 3-methylindole toxicosis 1117
- Lipolysis**
 effect of chronic treatment with D-fenfluramine 1265
 in fat cells, isoproterenol and forskolin stimulation 843
 tolerance to nicotinic acid in rats 269
 tolerance to nicotinic acid in rat adipocytes 275
- Lipophilic model compounds**
 uptake into adipose tissue preparations 3683
- Lipopolysaccharide**
 reduction of pyrogenicity by polymyxin B 3995
- Lipoprotein lipase**
 post-heparin plasma, effect of cyclophosphamide 3597
- Lipoproteins**
 diclofenac binding 1695
- Lipoproteins - prostacyclin interactions** 2451
- Liposomes**
 cardiolipin containing, Ca²⁺ interaction, effect of adriamycin 4291
 cysteamine interaction 3071
 streptomycin derivative binding 1035
 tricyclic antidepressant drug effects on membranes 705
 effect of uncharged anaesthetics on ion binding 708
 effect of veratridine activation of Na⁺ uptake in synaptosomes 2865
 vinblastine sulphate interaction 3081
- Lipoxygenase**
 involvement in N-demethylation of dimethylhydrazine and tetramethylhydrazine in colonic mucosa 3101
 in PMNs 3943
 inhibition by ebselen 2691
 soybean, effect of anti-inflammatory drugs 148
- Liver blood flow**
 lack of effect of barbiturates 3776
- Liver fluke (*Fasciola hepatica*)**
 forskolin activation of 5-HT stimulated adenylate cyclase 1683
- Liver regeneration**
 after carbon tetrachloride intoxication 586
- LK 204-545**
 inhibition of iodocyanopindolol binding in kidney 3951
- Locus coeruleus**
 monoamine oxidase in single nerve cell bodies 1025
- Lung**
 β -adrenergic receptor conformational changes 1611

- Lung(contd.)
 effect of aryl hydrocarbon hydroxylase
 induction on aromatic hydrocarbon
 binding to DNA 545
 attenuation of fibrosis by aminophylline
 4269
 butylated hydroxytoluene induced damage,
 collagen metabolism following prednisolone
 2519
 captopril removal in vivo 2371
 clofibrate induction of epoxide hydrolase
 1827
 coumarin 7-hydroxylase in 1987
 dichloroethylene binding 4051
 effect of dimethyl sulfoxide on bleomycin-
 induced fibrosis 2386
 diurnal variation in glutathione content
 1029
 endocrine, small cell cancer 155
 histamine H-1 receptors 3285
 human adult and fetal, leukotriene D4
 receptors in 4311
 inactivation of NAD⁺-dependent 15-hydroxy-
 prostaglandin dehydrogenase by acrolein
 4275
 indomethacin-sensitive 3 α -hydroxysteroid
 dehydrogenase in 831
 leukotriene C4 binding sites 2831
 effect of methionine-cysteine deficiency on
 DNA alkylation 3627
 methylglyoxal-bis(guanyldihydrazone)
 accumulation 1809
 3-methylindole toxicosis 1117
 noradrenaline metabolism in experimental
 obstructive jaundice 3049
 PGE2 pharmacokinetics, effect of oedema
 4325
 Lung carcinoma cell line NCI H69
n-butyrate enhancement of PGD2 effects 3771
 Lung colony formation
 effect of dihydropyridine calcium
 antagonists 235
 Lung tumour-bearing rats
 hepatic drug metabolizing enzymes 3190
 Lymphoblastoid cells
 taurine protection from iron-ascorbate
 induced damage 2205
 Lymphoblasts L5178Y
 action of quinone antitumour agents 2629
 DNA strand breaks induced by diethyl-
 stilbestrol 771
 glycine metabolism in 559
 role of uridine phosphorylase in 5-fluoro-
 uracil anabolism 3585
 Lymphoblasts WIL2
 tiazofurin and selanazofurin activity 1109
 Lymphocytes
 dATP accumulation 3561
 effects of azelaic acid 1653
 differential 2'-deoxyadenosine incorporation
 3353
 nucleotidase activities 3061
 sensitivity to nitrogen mustards 3459
 Lymphoma 6C3HED
 effect of asparaginase encapsulated in
 erythrocytes 257
 Lymphoma TLX5
 mitozolomide uptake and decomposition 217
 role of fluoroacetate in 2-fluoroethyl-
 nitrosourea toxicity 3323
 Lymphoma-derived cell lines
 effects of azelaic acid 1653
 Lysosomes
 Lysosomes
 proteolysis in vivo, biliary excretion of
 FITC metabolites 1399
 Macrophage cell line J774
 inhibition by T-2 toxin of protein, DNA and
 isoprenoid synthesis 2809
 Malondialdehyde
 in kidney, effect of gentamicin 3895
 Mammary gland
 β -adrenergic receptors 2034
 Mammary tumour
 effect of aromatase inhibitors 3213
 PTT.19 effects 2347
 Man
 aflatoxin B1 metabolism by liver 3193
 cytochrome P-450 in hepatocyte culture 2405
 histamine H-1 receptors on peripheral
 lung 3285
 inhibition of desmethylinipramine hydroxyl-
 ation in liver microsomes 2501
 Mandelonitrile
 metabolism in rat 2207
 Manganese
 hepatic subcellular distribution in
 manganese-bilirubin induced cholestasis
 3857
 induced tolerance to cadmium 1371
 effect on striatal D2 dopamine receptors
 3405
 Maprotiline
N-methylation in debrisoquine/mephenytoin-
 phenotyped depressive patients 409
 Mast cells
 angiogenesis 905
 differential release of mediators 1389
 α -fluoromethylhistidine inhibition of
 histamine formation 1205
 lectin induced exocytosis, energy
 dependence 4169
Mastomys natalensis
 effect of (S)- α -fluoromethylhistidine on
 histamine formation in gastric carcinoid
 and ulceration in duodenum 4327
 MDL 20828
 inhibition of peptidyl transferase in
Trypanosoma brucei brucei 3055
 Mefenamic acid
 inhibition of cystine and glutamate
 transport in fibroblasts 1852
 Mefloquine
 effect on hepatic drug metabolism in rat
 567
 Melanoma B16
n-butyrate enhancement of PGD2 effects 3771
 5(N-phenylcarboxamido)-2-thiobarbituric
 acid activity 2047
 potentiation of 3,4-dihydroxybenzylamine
 by α -difluoromethylornithine 1887
 stimulation of pheomelanogenesis by
 4-tertiary-butylcatechol 3517
 Melanoma MM96
 modification of DOPA toxicity 1801
 Melatonin
 formation in pineal gland, effect of
 anticonvulsant drugs 3198
 stimulation of specific monoamine oxidase A
 inhibition, effect of superior cervical
 ganglionectomy 3393
 Melittin
 inhibition of Na⁺,K⁺-ATPase in synaptic
 membrane 2335

- Melphalan**
 antagonism by tamoxifen in human breast cancer cells 763
 hematopoietic stem cell sensitivity 3465
 lymphocyte sensitivity 3459
 toxicity in human ovarian carcinoma cells, effect of glutathione depletion 2583
- Membrane lipids**
 adipocytes, effect of alcohols on hexose transport 1079
- Membrane lipid microviscosity**
 brain, effects of age and a plant oil mixture 1120
- Membrane modulating lipid**
 effect on cholesterol and phospholipid levels in brain 1120
- Membranes**
 erythrocytes, entrapping of spin label 31
 leukemic cells, effect of adriamycin 1501
 microsomes, ESR changes induced by carbon tetrachloride 57
 model, AraC interaction 4025
- Menadione bisulfite**
 inhibition of chicken muscle aldose reductase 2961
- Mepacrine**
 inhibition of PGE₂ synthesis in phenazine methosulfate treated cells 4137
- Meptazinol**
 inhibition of cholinesterases 1579
- Mepyramine**
 binding in adult and developing rat brain, effect of thyroid state 4131
- MER-25**
 antiyterotropic effect 2795
- Merbarone**
 mechanism of action 3395
- 6-Mercaptopurine**
 action on Chinese hamster ovary cells 3677
- Mercury**
 distribution in rats following combined administration of thiol compounds and methylmercury chloride 2030
 metabolism in mice, effect of selenium 2713
 effect on striatal D₂ dopamine receptors 3405
- Mersalyl**
 inhibition of hydroxymethylglutaryl-CoA reductase in liver 3293
- Mesoridazine**
 ceruloplasmin interaction 2605
- Metamizol**
 metabolism during critical care therapy 413
- Metastasis**
 effect of dihydropyridine calcium antagonists 235
- Methacetin**
¹⁴CO₂ exhalation 461
- Methadone**
 effect of perinatal exposure on development of hepatic mixed function oxidase system 1582
 uptake by adipose tissue 3683
- Methamphetamine**
 effect on nigral substance P-like immunoreactivity 3161
- Methemoglobin**
 production by erythrocytes, effect of nitrofurantoin 1963
- Methimazole**
 oxygenation by liver microsomes, effect of cimetidine and ranitidine 2398
- Methiocarb**
 sulfoxidation by soybean 389
- Methional**
 ethylene production by iron chelates and heme proteins 977
- Methionine-cysteine deficiency**
 effect on DNA alkylation by dimethylnitrosamine metabolites 3627
- Methionine sulfoximine**
 inhibition of glutamine synthetase, effect on glutamate transport 73
- Methohexitol**
 effect on adenosine uptake and release from synaptosomes 1619
- Methotrexate**
 inhibition of thymidylate synthase in L1210 cells 2319
 transport and accumulation in hepatocytes, diurnal variation 1635
 effect of glutathione depletion 1627
 transport in Ehrlich ascites tumour cells, effect of probenecid 747
 transport in L1210 cells
 effect of 2,4-diaminoquinazolines 2163
 effect of probenecid 1725
- Methotrexate polyglutamates**
 formation by hepatic cells, effect of D,L-4-fluoroglutamic acid 2995
 synthesis in breast cancer cells
 effect of cell proliferation 3087
 effect of leucovorin 2897
- 8-Methoxy-2-(N-2'-chloropropyl, N-propyl) aminotetralin**
 irreversible blockade of central 5-HT binding sites 883
- Methoxyflurane**
 metabolism by liver microsomes, cytochrome b₅ requirement 1907
- 3-Methoxy-4-hydroxyphenethanol**
 urinary excretion
 effect of debrisoquin 2911
 effect of 6-hydroxydopamine 1255
- 3-Methoxy-4-hydroxyphenethylene glycol**
 urinary excretion
 effect of debrisoquin 2911
 effect of 6-hydroxydopamine 1255
- 3-Methoxy-4-hydroxyphenylethylene glycol sulphate**
 in brain, effect of acute ethanol 1311
- Methoxyphenamine**
 effects in salivary gland 4229
- 3-Methoxytyramine**
 relationship with monoaminergic neuronal activity 1127
- N⁶-Methyladenosine**
 regulation of tyrosine hydroxylase in cultured adrenal medulla 2621
- N-Methyl-4-aminoazobenzene**
 azoreduction by liver microsomes 3259
 metabolism by cytochromes P-448-H and P-448-L 3375
- N-Methylamphetamine**
 enantiomers, inhibition of monoamine oxidase isoenzymes 4105
- Methyl butyrate**
 hydrolysis by carboxylesterase, radio-chemical method 2779
- 3-Methylcholanthrene**
 effect on covalent binding of dichloroethylene in mice 4051
 effect on glutathione transferase and peroxidase in liver 3735
 induction of conjugate formation by plaice

- 3-Methylcholanthrene (contd.)
 hepatocytes 3933
 induction of cytochrome P-450, effect of
 organotin 997
 induction of O-dealkylation of ethoxyphenox-
 azone homologues 3337
 effect on monooxygenase activities in
 chick embryo liver 2669
 effect of neonatal treatment on hepatic
 monooxygenase system 2569
N-nitrosamine metabolism by treated liver
 microsomes 919
 effect on UDP glucuronosyltransferases in
 liver microsomes 737
 effect on valproic acid metabolism in male
 rats 133
- Methylcholanthrene P-448₁ and 2
 7-ethoxycoumarin O-deethylation, effect of
 cyanide 1131
- 3'-Methyl-4-dimethylamineazobenzene
 effect on epoxide hydrolase in liver
 microsomes 1795
- N-Methyldiphenylamine
 metabolism by *Mucor hiemalis* 401
- α -Methyldopamine
 formation from carbidopa 3623
- 2-Methyl-8-cis-12-trans-14-cis-eicosatrienoic
 acid
in vivo inhibition of prostaglandin s
 synthetase 2103
- Methylenedioxyphenyl compounds
 inhibition of nasal cytochrome P-450
 dependent hexamethylphosphoramide
N-demethylase 631
- Methylenedinitrosamine
 bioactivation to mutagens 441
- Methylglyoxal-bis(guanylhydrazone)
 pulmonary accumulation 1809
- 2-Methyl histamine
 effect on cyclic GMP in lung 3285
- N²-Methyl-9-hydroxyellipticinium acetate
 metabolism in kidney cells 427
- 3-Methylindole
 effect of vitamin E and glutathione on
 free radical production by 1117
- 1-Methyl-3-isobutylxanthine
 effect on low K_m cyclic AMP phosphodiesterase
 in adipocytes 2891
 phosphodiesterase inhibition and tracheal
 smooth muscle relaxation 1875
- Methylmercury
 dependence of biliary secretion on liver
 glutathione and ligandin 301
- Methyl methane sulphonate
 mutagenic activity in *Salmonella* 2151
- N-Methyl-N'-nitro-N-nitrosoguanidine
 mutagenic activity in *Salmonella* 2151
- Methylnitrosourea
 DNA methylation in copper- or silver-
 preloaded liver nuclei 4071
- α -Methylnorepinephrine
 formation from carbidopa 3623
- 3-Methyl-2-oxobutanoate
 metabolism in liver and muscle, effect of
 clofibrate 2169
- 4-Methyl-2-oxopentanoate
 metabolism in liver and muscle, effect of
 clofibrate 2169
- 6-Methyl-5-oxothiopholinyl-3-carbonyl
 histidylproline amide
 effect on acetylcholine and choline release
 from brain 1341
- Methyl palmoxirate
 effect on adrenaline-induced hyperglycemia
 in rat 2217
- 5-Methylpyrazole-3-carboxylic acid
 tolerance in rats 269
 tolerance by rat adipocytes 275
- N-Methylscopolamine
 binding in brain
 effect of gallamine 2214
 intact cell aggregates 4299
 binding to gastric fundic mucosal cells
 2269
- Methyltransferases
 hepatocyte membrane, effects of H-2
 3421
N-methylation of nicotine in guinea pig
 tissues 281
- α -Methyl-p-tyrosine
 effect on DOPA production in clonal cell
 lines 941
 effect in long-sleep and short-sleep mice
 3811
- 4-Methylumbelliferone
 glucuronidation in hepatocytes primary
 cultures 463
 role of liver and intestine in in vivo
 clearance 1325
- Methylxanthines
 effect on low K_m cyclic AMP phosphodiesterase
 in adipocytes 2891
 phosphodiesterase inhibition and tracheal
 smooth muscle relaxation 1875
- Metiamide
 influence of species and drug pretreatment
 on metabolic oxidation 2028
- Metoclopramide
 interaction with amfonelic acid 39
- Metoprolol
 inhibition of desmethylinipramine
 hydroxylation in human liver microsomes
 2501
 inhibition of iodocyanopindolol binding in
 kidney 3951
 inhibition of phospholipase A1 521
- Metronidazole
 toxicity in thiol-depleted cells 2175
- Metyrapone
 effect on N-nitrosamine metabolism by
 liver microsomes 919
 prevention of loss of 11 β -hydroxylase in
 adrenocortical cells 865
- Mevalonic acid
 incorporation into sterols in *L. mexicana*
 effect of SF 86-327 3785
- Mianserin
 effect on monoamine synthesis in brain
 1093
- Miconazole
 inhibition of steroid aromatase 1087
- Microgasometer
 monoamine oxidase single nerve cell bodies
 1025
- Micromycetes *Mucor hiemalis*
 model for in vitro hydroxylation 401
- Microtubules
 effect of rifampicin on assembly of 3415
- Millipertine
 1-aryl piperazine metabolite 393
- Mineralocorticoids
 effect on renal kallikrein activity and
 urinary kallikrein excretion 4013
- Mineralocorticoid antagonists
 inhibition of aldosterone synthesis 189

- Mipafox**
inhibition of soman and DFP-detoxifying enzyme 2069
- Misonidazole**
induced DNA damage in mouse tissues 3275
toxicity in thiol-depleted cells 2175
unreduced and radiation reduced, DNA binding 3537
- Mithramycin**
free radical damage to deoxyribose 4099
- Mitochondria**
brain, effect of guanethidine 2507
heart
effect of guanethidine 2507
effect of propranolol 911
kidney, lead uptake 1439
liver
effect of adriamycin on lipid peroxidation 847
effect of 1-chloro-2,4-dinitrobenzene 1588
effect of guanethidine 2507
effect of pentachlorophenol 1171
effect of perfluidone 2945
salicylate-induced loose coupling 900
effect of *Stevia rebaudiana* products 873
- Mitomycin C**
ethylene production from methional 977
free radical damage to deoxyribose 4099
- Mitomycin C - monoclonal antibody conjugate** 289
- Mitonafide**
metabolism and mechanism of action 3845
- Mitoxantrone**
inhibition of platelet aggregation and PGE₂ production *in vitro* 3609
interaction with DNA 4203
- Mitozolomide**
uptake and decomposition in TLX5 mouse lymphoma cells 217
- Mixed-function oxidases**
in liver after ethanol withdrawal 1211
- MK-447**
effect on prostaglandin synthesis in dental pulp, modification by lipid peroxidation 933
- Molecular volume** 2413
- Molindone**
interaction with amfonelic acid 39
- Molybdenum hydroxylases**
liver, effect of hydralazine 4251
- Monkey (*Macaca mulatta*)**
DL-040induction of fatty acid β -oxidation and peroxisome proliferation 3473
- Monkey (*Macaca nemestrina*)**
hepatic mixed function oxidase system during aging 2983
- Monoacylglycerol acyltransferase**
3-phenoxybenzoic acid incorporation into neutral lipids 3009
- Monoamine metabolites**
relationship with neuronal activity 1127
urinary excretion following 6-hydroxy-dopamine administration 1255
- Monoamine oxidase**
brain
inhibition by lead 2563
measurement using positron emission tomography 3207
role in pigment formation from tryptamine 2663
in single nerve cell bodies 1025
- Monoamine oxidase type A**
pineal gland, effect of superior cervical ganglionectomy on melatonin stimulation of inhibition 3393
- Monoamine oxidase type B**
photoaffinity labelling 781
- Monoamine oxidase inhibitors**
stereoselectivity and isoenzyme selectivity 4105
- Monoamines**
synthesis in brain, effect of α 2-adrenergic antagonists 1093
- Monoclonal antibodies**
cytochrome P488 1671
cytochrome P-450 2051, 2225, 3547
- Monomethyltriazenes**
induction of hemoglobin synthesis in K562 leukemia cells 2077
- Mononuclear cell factor**
mediated proteinase release by chondrocytes and synovial cells, effect of bisphosphonates 4043
- Monooxygenase system**
liver
phenobarbital imprinting 1007
effect of pyrazole 1507
- Monoterpenoid alcohols**
UDP glucuronyltransferase activity towards 2235
- Morphine**
effect on 5-HT metabolism in CNS 1127
inhibition of striatal adenylate cyclase, effect of ethanol 4329
intestinal glucuronidation 421, 3527
quasi withdrawal induced by dipropylacetate, effect of GABA-transaminase inhibitors 3789
uptake by adipose tissue 3683
- Motor behaviour**
D-1 receptors, SCH 23390 1665
- MR 869, 889, 764**
inhibition of hydroxymethylglutaryl-CoA reductase in liver 3293
- Mucosal cells**
intestine, glucuronidation capacity 3527
- Muscarinic agonists**
stimulation of phosphoinositide hydrolysis and inhibition of cyclic AMP formation in developing chick heart 1321
- Muscarinic receptors**
brain
effect of atropine, aprophen and benactyzine 1577
effect of dihydropyridine drugs 175
ellipticine interaction 1701
gallamine interaction 2214
HI-6 and 2-PAM binding 2815
intact cells 4299
gastric fundic mucosal cells 2269
heart, effect of atropine, aprophen and benactyzine 1577
ileum, effect of atropine, aprophen and benactyzine 1577
pancreas, caerulein modulation 1057
presynaptic heteroreceptors 467
trihexylphenidyl and subclassification 588
- Muscimol**
effect on *t*-butylbicyclopophosphorothionate binding in brain 3633
labelling of GABA receptor 2821, 3553
- Muscle**
chicken, inhibition of aldose reductase 2961

Muscle(contd.)

- heart, effect of vanadate on adenylate cyclase and sodium pump 1543
- masseter, acidosis, free radicals and prostaglandins in 961
- myotubes, effect of phencyclidine and analogue drugs on acetylcholine receptors 949
- skeletal
 - effect of ADP and ethanol on proteins in vitro 203
 - effect of 3-aminopicolinate on amino acid release 2032
 - effect of clofibrate on branched-chain amino acid metabolism 2169
 - compound effects of bisulphite ion 637
 - detection of drug-binding protein 2555
 - effect of phenothiazines on Ca^{2+} transport by sarcoplasmic reticulum 4245
 - phosphatidylinositol phosphodiesterase inhibition 2471
- smooth intestinal
 - enkephalin analogue binding and activity 25
 - inositol lipid hydrolysis and contractility 2297
- smooth, trachea, cyclic GMP phosphodiesterase and relaxation 1875
- smooth vascular
 - calcium accumulation by microsomes 2417
 - endothelium-dependent relaxation 1867
 - prostaglandins and cholesterol metabolism 295
 - thromboxane A2 blocking activity of prostanoid acid analogues 641
- smooth, vas deferens, enkephalin analogue binding and activity 25
- Muscular dystrophy
 - inhibition of chicken muscle aldose reductase 2961
- Mycotoxicosis 425
- Myelin basic protein peptide 43-88
 - degradation by alkaline proteolytic activity in kidney 1231
- Myelinoid progenitor cells(CFV-GM)
 - sensitivity to oxazaphosphorines 3465
- Myocardial cells
 - effect of doxorubicin and verapamil on calcium uptake 1115
 - doxorubicin induced alteration in lipid metabolism 1741
 - energy metabolism in oxygen deprived cultures 145
- Myocardium
 - ouabain receptors in 3701
- Myocytes
 - digoxin binding and daunorubicin uptake 1957
 - neonatal rat, 42K^{+} , 201Tl^{+} and $(^{99\text{m}}\text{Tc}(\text{dmpc})_2\text{Cl}_2)^{+}$ transport 3377
 - effect of vanadate on adenylate cyclase and sodium pump 1543
- Myofibrillar proteins
 - effect of NCO-700 on degradation of 3875
- Myosin light chain 1 and 2
 - effect of NCO-700 on ischaemia-induced degradation 3875
- Myotubes
 - effect of phencyclidine and analogue drugs on acetylcholine receptors 949
- $\text{NAD}^{+}:\text{NADH}$
 - in liver, role in ethanol elimination in fasted rats 3577
- NADH
 - dependent dealkylating systems in liver microsomes 4215, 4263
- NADH-cytochrome c(P-450)reductase
 - flavin reduction and azo reduction mediated by 337
 - in liver microsomes, age-associated changes in male and female rats 579
- NADH-ferricyanide reductase
 - in head kidney of Northern pike, subcellular distribution 789
- NADPH cytochrome c reductase
 - in head kidney of Northern pike, subcellular distribution 789
 - in liver microsomes
 - effect of ethanol 3427
 - gonadal hormone modulation of thyroid hormone action 582
 - lung tumour-bearing rats 3190
 - Macaca nemestrina during aging 2983
 - effect of neonatal phenobarbital 1007
 - effect of 2,2'-pyridylisatogen tosylate 2847
- Nafazatrom
 - inhibition of leukotriene B4 formation in human neutrophils 1891
- Nafoxidine
 - effect on protein kinase C 3649
- Naloxone
 - binding in brain, inhibition by anti-idiotypic antibodies 2853
- Naphthalene
 - oxidation by brain microsomes 435
- α -Naphthoflavone
 - effect on N-nitrosamine metabolism by liver microsomes 919
- β -Naphthoflavone
 - effect on glutathione transferase and peroxidase in liver 3735
 - effect on hepatic microsomal drug metabolizing enzymes in male beagle 3137
 - induction of cytochrome P-450, effect of organotin 997
 - induction of O-dealkylation of ethoxy-phenoxazone homologues 3337
 - induction of microsomal enzymes in trout liver 3309
 - effect on substrate-cytochrome P-450 interaction in isolated trout liver cells 1407
 - effect on valproic acid metabolism in male rats 133
- 1-Naphthol
 - conjugation in isolated cells 697
 - conjugation by plaice hepatocytes 3933
 - intestinal glucuronidation 421, 3527
 - metabolic activation to naphthoquinones 2261
 - metabolism in intestine, in vitro-in vivo correlation 391
 - metabolism by tyrosinase 3167
- Naphthoquinones
 - formation from 1-naphthol 2261
- 1-Naphthylisothiocyanate
 - induction of epoxide hydrolase in liver microsomes 1795
- α -Naphthylthiourea
 - effect on PGE2 pharmacokinetics in lung 4325
- NCO-700

- NCO-700
effect on cardiac myofibrils during ischaemia 3875
- Neomycin
inhibition of phosphatidylinositol phosphodiesterase in skeletal muscle 2471
- Naplanocin A
action in Chinese hamster ovary cells 2749
- Neural tube defects
2-acetylaminofluorene and metabolites 2953
- Neuroblastoma clone NIE-115
DOPA production 941
ethanol inhibition of forskolin-stimulated adenylate cyclase 3655
- Neuroblastoma x glioma NG108-15 hybrid cells
opiate receptor function 9
- Neuroleptics
discrimination by interaction with amfonelic acid 39
- Neuromuscular transmission blocking drugs
inhibition of phosphatidylinositol phosphodiesterase in skeletal muscle 2471
- Neuronal activity
monoamine metabolites 1127
- Neurons
glutamate transport following glutamine synthetase inhibition 73
presynaptic heteroreceptors 467
- Neuropathy target esterase
in brain, inhibition by soman isomers 1945
- Neuropeptide-specific peptidases 1347
- Neurotransmitters
feedback regulation of release by autoreceptors 4085
monoamine metabolites 1127
- Neurotransmission
presynaptic heteroreceptors in regulation of 467
- Neutrophils
activation and inositol phospholipids 1931
effect of allopurinol on superoxide production, chemotaxis or degradation 3673
diclofenac inhibition of chemokinesis 3433
inhibition of function by hydrogen peroxide 2083
effect of NSAIDs on calcium in 3123
- Niaprazine
1-arylpiperazine metabolite 393
- Nicardipine
effect on muscarinic and α -adrenergic receptors in brain 175
effect on Na^+ - Ca^{2+} exchange in cardiac sarcolemma 2303
effect on tempocholine entrapping in erythrocytes 31
- Nickel
penicillamine binding 675
- Nicotinamide
effect on nucleotides and amino acids in chick embryos 1937
- Nicotine
cytochrome P-450-dependent oxidation by liver microsomes 2281
metabolism to cotinine 2055
N-methylation in guinea pig tissues 281
effect on synaptosomal ATPase activity 3445
- Nicotinic acid
tolerance in rats 269
tolerance by rat adipocytes 275
- Nicotinic receptors
frog skeletal muscle, effect of bisulphite ion 637
- Nicotinic receptor (contd.)
Torpedo electroplax, histrionicotoxin interaction 3037
- Nifedipine
effect on BAY-K-8644 induced arterial contraction 3131
effect on calcium in neutrophils 3123
effect on calmodulin activity 3391
effect on cardiac calcium pumping ATPase and brain cyclic AMP phosphodiesterase 3837
effect on muscarinic and α -adrenergic receptors in brain 175
effect on tumour metastasis 235
- Nifurtimox
effect on macromolecules in Trypanosoma cruzi 1331, 1457
- Nimodipine
effect on muscarinic and α -adrenergic receptors in brain 175
effect on tumour metastasis 235
- Nimorazole
toxicity in thiol-depleted cells 2175
- Nisoldipine
effect on muscarinic and α -adrenergic receptors in brain 175
- Nitrazepam
biliary elimination, germ-free rats 857
- Nitrendipine
binding in brain, effect of phenytoin, phenobarbital or pentobarbital 2187
effect on Ca^{2+} uptake by canine cardiac sarcoplasmic reticulum 195
effect on muscarinic and α -adrenergic receptors in brain 175
- p-Nitroanisole
O-demethylation in perfused liver, effect of oleate 609
- p-Nitroanisole O-demethylase
in liver microsomes
age and sex differences 579, 1861
chick embryo, effect of 2-acetylaminofluorene 2669
effect of glucagon and insulin 449
hamster, effect of ethanol 4263
inhibition by hydrazones 431
- Nitroaromatic compounds
toxicity in thiol-depleted cells 2175
- Nitrobenzyl alcohols
metabolism by rat hepatic enzymes 4163
- Nitrobenzylthioinosine 2821
role of adenosine in antiplatelet action 3965
- Nitrobenzylthioinosine 5'-monophosphate - tubercidin
Schistosoma japonicum therapy 3921
- Nitrofurantoin
effect on human erythrocytes 1963
toxicity in thiol-depleted cells 2175
- Nitrogen mustards
lymphocyte sensitivity 3459
- Nitroglycerin
stimulation of sarcolemmal Ca^{2+} -ATPase in coronary smooth muscle 1857
- Nitroheterocyclic drugs
damage to trypanosoma cruzi DNA 1457
- p-Nitrophenetole O-deethylase
in liver microsomes, effects of dioxygen, carbon monoxide and inhibitors 4215
- 4-Nitrophenyl organophosphinates
inhibition by carboxylester hydrolase in liver 1789
- p-Nitrophenylphosphatase

- p-Nitrophenylphosphatase
in Acholeplasma laidlawii, effect of positively charged local anaesthetics 1917
in heart, effect of vanadate 1543
- p-Nitrophenyl phosphate
effect on dopamine conjugation in human brain 3853
- 1-Nitropyrene
biliary excretion and enterohepatic circulation of metabolites 2325
binding to mouse lung DNA, effect of aryl hydrocarbon hydroxylase induction 545
- Nitrosamine dealkylases
in liver, kidney and esophagus, effect of disulfiram 387
- N-Nitrosamines
hepatic microsomal metabolism and cytochrome P-450 species 919
metabolic activation to mutagens by various species 441
- Nitroschloramphenicol
formation and disposition in rat liver 3755
- Nitroso compounds
effect on glutathione S-transferases in liver 811
- N-Nitrosodimethylamine
effect on glutathione S-transferases in liver and serum 4239
oxidative denitrosation and activation 411
- N-Nitrosodimethylamine N-demethylase
in liver microsomes
effect of dietary fat 3747
effect of pyrazole 1507
- Nitrosopiperidine
bioactivation to mutagens 441
- Nitrosopyrrolidine
bioactivation to mutagens 411
- Nitrosoureas
disulphide-linked, action on DNA 1015
- Nitrovinylidihydroxybenzene
inhibition of phenolsulfotransferase in brain 45
- NK cells 1599
- Nomifensine
binding to striatal membranes 1137
and metabolites, passage through blood-cerebrospinal barrier in dogs 417
effect on nigral substance P-like immunoreactivity 3161
- Non-ketonic hyperglycemia 2877
- Noradrenaline
in brain, effect of α -methyl-p-tyrosine in long-sleep and short-sleep mice 3P11
ceruloplasmin catalysed oxidation, effect of phenothiazines 2605
inhibition of propranolol binding in human serum 2812
effect on insulin secretion 985
masking of β -adrenergic receptors in heart 2917
metabolites in urine following 6-hydroxy-dopamine administration 1255
modulation of 5-HT₂ receptors in brain 1585
effect on phosphoinositide hydrolysis in brain 2705
pulmonary metabolism in experimental obstructive jaundice 3049
secretion by adrenal, effect of acetylcholine 1497
in striatum, effect of pentylenetetrazol on carbaryl-induced changes 553
synthesis in brain, effect of α ₂-adrenergic
- Noradrenaline (contd.)
antagonists 1093
urinary excretion of metabolites, effect of debrisoquin 2911
effect of yohimbine on stimulation-induced efflux in brain slices 4085
- Nordihydroguaiaretic acid
effect on human neutrophil degradation 1485
- Northern pike (Esox lucius)
subcellular fractions from head kidney 789
- Nortriptyline
inhibition of desmethylimipramine hydroxylation in human liver microsomes 2501
inhibition of dihydrofolate reductase in liver 2212
inhibition of K⁺-stimulation of Ca²⁺ uptake by synaptosomes 902
effect on liposomal membranes 705
- Nuclei
liver
effect of benzo(a)pyrene on DNA synthesis 755
copper- or silver-loaded, DNA methylation by methyl nitrosourea 4071
- Nucleolar phosphoprotein 23
in HeLa cells, effect of actinomycin D analogues 4059
- Nucleoside salvage 101
- 5'-Nucleotidase
in liver, effect of ethanol 2685
- Nucleotidases
human lymphocytes 3061
- Nucleotides
in chick embryo, effect of diazinon 1937
metabolism in L1210 cells, effect of 6-aminonicotinamide 3999
- Nucleus accumbens
dopamine microinjection, correlation between metabolism and behaviour 284
- Obesity
BRL 26830 1279
fenfluramine 1265
- Obstructive jaundice
modification of pulmonary metabolism of noradrenaline 3049
- Ochratoxin A
effect on liver drug metabolizing enzymes 425
- Octo-deca neuropeptide
benzodiazepine recognition sites 3399
- Octopamine
urinary excretion of metabolites
effect of debrisoquin 2911
effect of 6-hydroxydopamine 1255
- Octyl-Sepharose CL-4B
cytochrome P-450 separation 85
- Oleate
induced heterogeneity of human serum albumin 3299
inhibition of p-nitroanisole O-demethylation in perfused rat liver 609
- Oleoyl CoA 609
- Oleoyl peptide derivatives
elastase inhibition 3315
- Oligamines
uptake by lung 1809
- Olivomycin
free radical damage to deoxyribose 4099
- Omeprazole

- Omeprazole
 mechanism of action 2967
 metabolism by isolated perfused liver,
 effect of hypoxia 1239
 effect on pepsinogen synthesis and secretion
 in rabbit gastric glands 3693
- Opiate receptor
 anti-morphine anti-idiotypic antibody
 binding 2853
 axonal flow 467
 binding profile in rabbit cerebellum and
 brain membranes 925
 neuroblastoma x glioma NG108-15 hybrid
 cells, effects of cycloheximide and
 tunicamycin 9
- Orciprenaline
 intestinal glucuronidation 421
- Organic solvents
 effect on brain decarboxylase activity 1381
- Organophosphinates
 inhibition of carboxylester hydrolase 1789
- Organophosphorus-insecticide
 effect on nucleotides and amino acids in
 chick embryo 1937
- Organotin
 altered induction of cytochrome P-450 in
 liver 997
- Ornithine analogues
 ornithine decarboxylase inhibition and
 trypanosomiasis 1773
- Ornithine decarboxylase
 in adrenal gland, effect of α -difluoro-
 methylornithineron induction of 1315
 in brain, effect of neonatal 6-amino-
 nicotinamide 3281
 in Trypanosoma brucei brucei, inhibition by
 substrate and product analogues 1773
- Osteoblastic cells
 effect of chlorpromazine 2389
 effect of phenothiazine derivatives 3885
- Ouabain
 binding of kidney basolateral plasma
 membranes of young and old rats 2275
 inhibition of Na^+ , K^+ -ATPase in heart,
 species difference and temperature
 dependence 2343
 inhibition of Na^+ , K^+ -ATPase in synaptic
 membrane 2335
 effect on renal renin release 1523
- Ouabain receptors
 sheep myocardium and purkinje fibres 3701
- Ovarian cell lines
 human, augmentation of adriamycin, melphalan
 and cisplatin toxicity by glutathione
 depletion 2583
- Ovary
 aromatase inhibition 3213
- Oxaprazin glucuronide
 fate in the rat 451
- Oxazaphosphorines
 sensitivity of murine hematopoietic stem
 cells 3465
- Oxazepam
 and glucuronide conjugates, binding to HSA
 2115
- β -Oxidation
 in liver, effect of valproic acid 1357, 2147
- Oxidative phosphorylation
 heart mitochondria, effect of propranolol 911
 liver mitochondria
 effect of perfluidone 2945
 salicylate-induced loose coupling 900
 effect of stevioside 873
- Oxidative phosphorylation uncouplers
 effect on leukotriene production in
 leukocytes 3095
- 2,3-Oxidosqualene-sterol cyclases
 inhibition of 2765
- Oximes
 binding by muscarinic receptor in brain
 regions 2815
- 6-Oxo-prostaglandin E_1
 age-dependent synthesis and catabolism by
 rat kidney 223
- 6-Oxo-prostaglandin $\text{F}_{1\alpha}$
 effect of compound 48/80 and peptide-401
 on 2391
- Oxygen
 consumption in adrenal medulla, effect of
 acetylcholine 211
 consumption of ischaemic heart, effect of
 tolbutamide 803
 deprived cardiac cell cultures, energy
 metabolism in 145
- Oxygen-free radicals
 effect on formation of lipid derived
 mediators in renomedullary interstitial
 cells 4137
- Oxypertine
 1-aryl piperazine metabolite 393
- Oxyphenbutazone
 albumin interaction, effect of oleic acid
 3299
- Oxy radicals
 dormation during redox cycling of
 bleomycin-iron(III) complex by NADPH-
 cytochrome P-450 reductase 3091
 protection against reperfusion injury by
 aprotinin 1757
- Pancreas
 caerulein modulation of muscarinic
 receptors 1057
 effect of caerulein-related peptides on
 cholecystokinin receptor binding 1103
- Pancreatic acini
 inhibition by acetaldehyde of cholecysto-
 kinin-induced amylase secretion 2859
- Pancreatic B-cell
 effect of sparteine on function of 2355
- Pancreatic islets
 cholinergic stimulation of ion fluxes 3451
 effect of N-p-tosylglycine on insulin
 release 2495
- Papaverine
 effect on low K_m cyclic AMP phosphodiester-
 ase in adipocytes 2891
- Paracetamol
 conjugation in cultured hepatocytes,
 effect of cimetidine and ranitidine 1407
 hepatocyte injury, protection by calcium
 EDTA 19
 susceptibility of cultured hepatocytes 4341
- Paraquat
 effects of iron and dedferrioxamine on
 toxicity in mice 1841
 pulmonary accumulation 1809
- Parathyroid hormone
 induced hypercalcemia, effect of aspirin
 1901
- Parenchymal cells
 copper excretion 1713
- Parethoxycaine
 interaction with cytochrome oxidase
 663, 3187

- Pargyline
metabolism in liver microsomes 1993
- Parotid gland
protein synthesis in 4229
- Pectin methylesterase
effects of anaesthetics and dichlorofluoro-
methane 2839
- D-Penicillamine
circular dichroism of copper and nickel
binding 675
mutagenicity, enantiomeric selectivity 3725
- Pentachlorophenol
effect on 2-acetylaminofluorene-mediated
loss of liver N-hydroxy-2-acetylami-
nofluorene sulfotransferase activity 3380
role in mitochondrial dreangement in
hexachlorobenzene induced porphyria 1171
- Pentachlorophenol glucuronide
formation in rat and human liver microsomes
893
- Pentamethylmelamine
metabolism in intestine, in vitro-in vivo
correlations 391
- Pentobarbital
effect on adenosine uptake and release
from synaptosomes 1619
effect on bile secretion 1731
binding to Cl⁻ channel in Torpedo electric
organ 2579
effect on nitrendipine binding in brain
2187
plasma clearance during critical care
therapy 413
sleeping time, effect of diltiazem and
verapamil 2549
uptake by adipose tissue 3683
- Pentoxyphenexaxones
selectivity for cytochrome P-450 isoenzymes
3337
- Pentylene-tetrazol
effect on carbaryl-induced changes in
striatal catecholamines 553
cyclic AMP responsiveness in colliculus
inferior of audiogenic seizure-prone
rats 2043
- Pepsinogen
synthesis and secretion in rabbit gastric
glands, effect of omeprazole 3693
- Peptides
neuropeptide-specific? 1347
- Peptide-401
effect on prostaglandin biosynthesis 2391
- Peptidyl dipeptidase A 1347
- Peptidyl transferase
in Trypanosoma brucei brucei, inhibition by
sparsomycin analogues 3055
- Perfluidone
effect on liver mitochondria 2945
- Perhydrohistrionicotoxin
binding to nicotinic receptor-ion channel
complex of Torpedo electroplax 3037
- Permethrin
calmodulin inhibition 1689
- Peroxidase
effect on DOPA toxicity in human tumour
cells 1801
leukocyte, tenoxicam metabolism by 1337
- Peroxisomal β -oxidation
long-term effects of clofibrilic acid 325
effect of sodium valproate 1357, 2147
- Peroxisomes
DL-040-induced proliferation in liver of
rhesus monkey 3473
- Perphenazine
interaction with amfonelic acid 39
- p-F-Phe-m-bis-(2-chloroethyl)amino-L-Phe-Met
ethoxy HCl 2347
- Phenacetin
inhibition of chicken muscle aldose reductase
2961
metabolism in intestine, in vitro-in vivo
correlations 391
- Phenanthridone
binding to mouse lung DNA, effect of
aryl hydrocarbon hydroxylase induction
545
- Phenazine methosulfate
effect on formation of lipid derived
mediators in renomedullary interstitial
cells 4237
- Phenazone
uptake by adipose tissue 3683
- Phencyclidine
and analogues, effect on acetylcholine
receptors in myotubes 949
binding to nicotinic receptor-ion complex
of Torpedo electroplax; inhibition by
histrionicotoxins 3037
iminium ion formation from 2055
- p-Phenetidine
oxidation by horseradish peroxidase and
prostaglandin synthase 343
- Pheneturide
effect on indole metabolism in pineal
gland 3198
- Phenobarbital
effect on acrylamide neurotoxicity 1099
effect on adenosine uptake and release from
synaptosomes 1619
effect on covalent binding of dichloro-
ethylene in mice 4051
cytochrome P-450 dependent nicotine
oxidation 2281
effect on cytochrome P-450 in elutriated
hepatocytes 1463
effect on cytochrome P-450 in kidney 311
effect on diethylstilbestrol metabolism by
liver and kidney microsomes 3107
effect on glutathione transferase and
peroxidase in liver 3735
effect on hepatotoxin-induced alteration
of glutathione S-transferases 4239
imprinting of hepatic monooxygenase
system 1007
induction of cytochrome P-450 2489
effect of organotin 997
induction of epoxide hydrolase in cultured
hepatocytes and hepatoma cells 1538
induction of epoxide hydrolase in liver
microsomes 1795
induction of mixed-function oxidase enzymes
in liver, effect of dietary fat 3747
induction of UDP glucuronosyltransferase
in liver microsomes 737, 2235
inhibition of chicken muscle aldose reductase
2961
effect on monooxygenase activities in
chick embryo liver 2669
effect on nitrendipine binding in brain 2187
N-nitrosamine metabolism by treated liver
microsomes 919
effect on taurocholate uptake by hepatocytes
4257
effect on valproic acid metabolism in
male rats 133
- Phenobarbitone

- Phenobarbitone
 effect on cyclosporin nephrotoxicity 573
 effect on hepatic microsomal drug
 metabolizing enzymes of male beagle 3137
 effect on indole metabolism in pineal
 gland 3198
 induced hepatic microsomal protein patterns
 85
 induction of O -dealkylation of ethoxyphenox-
 azone homologues 3337
 sex differences in effects on hepatic phase
 I drug metabolism 3533
- Phenolphthalein
 conjugation by plaice hepatocytes 3933
- Phenols
 prevention of loss of 11β -hydroxylase in
 adrenocortical cells 865
- Phenolsulfotransferase
 in brain, inhibition by dichloronitrophenol
 45
- Phenol transferase
 modified Ecteola cellulose assay for 1649
- Phenothiazines
 antiproliferative effects 3973
 effect on bone *in vivo* and osteoblastic
 cells *in vitro* 3885
 effect on Ca^{2+} transport by sarcoplasmic
 reticulum 4245
 interaction with ceruloplasmin 2605
- Phenotyping
 cytochromes P-450 2225
- Phenoxazones
 selectivity for cytochrome P-450 isoenzymes
 3337
- 3-Phenoxybenzoic acid-containing lipids
 synthesis via the monoacylglycerol
 pathway 3009
- Phenyl acids
 protein binding inhibitors 2431
- Phenylalanine
 decarboxylation, effect of organic solvents
 1381
- L-Phenylalanine mustard
 resistant tumour cell lines, efficacy of
 PTT.19 2347
- Phenylbutazone
 binding protein in muscle 2555
 effect on calcium in neutrophils 3123
 disposition in the horse 459
 effect on human neutrophil degranulation
 1485
 inhibition of cystine and glutamate
 transport in fibroblasts 1852
 uptake by adipose tissue 3683
- 5-(*N*-Phenylcarboxamido)-2-thiobarbituric acid
 antitumour activity 2047
- Phenylephrine
 inhibition of propranolol binding in
 human serum 2812
 effect on phosphoinositide hydrolysis in
 brain 2705
- β -Phenylethylamine
 in brain, effect of organic solvents 1381
 formation from β -phenylethylhydrazine 1925
- Phenylethylhydrazine
 β -phenethylamine formation from 1925
 spectrin degradation in intact red blood
 cells 4283
- Phenylhydrazones
 inactivation of microsomal cytochrome P-450
 431
- Phenytoin
 debrisoquin phenotyping in epileptic
- Phenytoin(contd.)
 patients 447
 effect on nitrendipine binding in brain
 2187
- Pheochromocytoma clone PC-12
 DOPA production in 941
- Pheomelanogenesis
 B16 melanoma cells, stimulation by
 4-tertiary-butylcatechol 3517
- Phorbol ester
 antiproliferative properties 2587
- Phorone
 effect on gluconeogenesis 453
- Phosphatase
 in *Acholeplasma laidlawii*, effect of
 positively charged local anaesthetics
 1917
 in CCRF-CEM cells, 5-fluorodeoxyuridine
 resistance associated with 125
 K^{+} -dependent in MDBK cells, effect of
 vanadium 2465
- Phosphatase inhibition
 effect on 3'-phosphoadenosine-5'-phospho-
 sulfate catabolism and dopamine
 conjugation in human brain 3853
- Phosphatidylcholine
 protection of Na^{+} , K^{+} -ATPase from
 inhibitory action of melittin 2335
- Phosphatidylcholine vesicles
 cardiolipin-containing, Ca^{2+} interaction
 4291
- Phosphatidylinositol
 specific phospholipase C, solubilization
 of platelet acetylcholinesterase and
 aryl acylamidase 4109
- Phosphatidylinositol 4,5-bisphosphate
 breakdown and neutrophil activation 1931
- Phosphatidylinositol phosphodiesterase
 in skeletal muscle, inhibition by metal
 ions and neuromuscular transmission
 blocking drugs 2471
- 3'-Phosphoadenosine-5'-phosphosulphate
 catabolism in brain, effect of
 phosphonoacetic acid 3853
- Phosphodiesterase inhibitors
 effect on bradykinin-mediated PGE_2 and
 cyclic AMP synthesis in renal papillary
 collecting tubule cells 1565
- Phosphoinositide
 hydrolysis in cerebral cortex, effect of
 adrenergic stimulation 2705
 muscarinic stimulation of turnover in
 developing chick heart 1321
- Phosphoinositol
 in adrenal, effect of angiotensin II on
 arachidonate incorporation 3439
- Phospholipase A_1
 inhibition by β -adrenoceptor blockers 521
- Phospholipase A_2
 action on bilayer substrate, effect of
 AraC and other agents 4025
 in leucocytes, effect of carbon
 tetrachloride 1515
 in platelets and neutrophils, inhibition
 by HETES 1571
 role in effects of angiotensin II in
 adrenal glomerulosa cells 3439
 role in PGE_2 synthesis induced by phenazine
 methosulfate in renomedullary interstitial
 cells 4137
- Phospholipase C
 phosphatidylinositol specific, solubilization
 of platelet acetylcholinesterase and

- Phospholipase C(contd.)
 aryl acylamidase 4109
- Phospholipid
 in brain, effect of age and a plant oil mixture 1120
 fatty acid composition in heart muscle and non-muscle cells following ischaemia 2560
 interaction with streptomycin derivatives 1035
 in kidney, effect of gentamicin 3895
 in liver microsomes of Macaca nemestrina during aging 2983
 metabolism in cultured myocardial cells, effect of doxorubicin 1741
 metabolism in Krebs II ascites cells, effect of hemicholinium-3 3987
 metabolism in liver membranes, effect of antimicrotubule agents 3153
 turnover in cultured thyroid cells, effect of tetradecanoyl phorbol-13-acetate 3795
- Phospholipid membranes
 cysteamine interaction 3071
 vinblastine interaction 3081
- Phospholipid methyltransferases
 effects of H-2 3421
- Phosphonoacetic acid
 effect on dopamine sulfation and 3'-phospho-adenosine-5'-phosphosulfate metabolism in human brain 3853
- Phosphoramidate mustard
 hematopoietic stem cell sensitivity 3465
- Phosphoramidon
 inhibition of enkephalin-degrading enzymes 3179
 peptidase inhibition 1347
- Phosphorus-containing compounds
 oxidation by FAD-containing monooxygenase in pig liver 1145
- Photoaffinity labelling of receptors
 chemical mechanisms 2821
- Picrotoxin
 binding to Cl^- channel in Torpedo electric organ 2579
- Picrotoxin/t-butylbicyclophosphorothionate receptor
 γ -butyrolactone binding 4187
- Piflutixol
 binding in striatum, effects of clopazine and haloperidol 2755
- Pigment
 formation from tryptamine 2663
- Pimozide
 interaction with amfonelic acid 39
- Pindolol
 binding in heart, effect of GTP and noradrenaline 2917
 effect on cyclic nucleotide metabolism in heart 1659
 inhibition of iodocyanopindolol binding in kidney 3951
- Pineal gland
 effect of anticonvulsant drugs on indole metabolism in organ culture 3198
 clorgyline-induced increase in melatonin, effect of ganglionectomy 3393
- Pipamperone
 interaction with amfonelic acid 39
- Piperonal
 inhibition of nasal cytochrome P-450 631
- Piperonyl butoxide
 effect on covalent binding of dichloro-ethylene in mice 4051
- Piperonyl butoxide(contd.)
 inhibition of nasal cytochrome P-450 631
- Piracetam
 effect on cerebral energy metabolism in posthypoglycemic recovery 1477
- Pirenzepine
 binding to gastric fundic mucosal cells 2269
- Piribedil
 l-aryl piperazine metabolite 393
- Piroxicam
 effect on calcium in neutrophils 3123
 inhibition of cystine and glutamate transport in fibroblasts 1852
- Pituitary
 anterior, dopamine receptor conversion by temperature and sodium 2459
- (3H)PK 11195
 binding sites in adrenal 167
- Placenta
 aromatase inhibition 1087, 3213
- Plasmodium berghei
 infected erythrocytes, chloroquine uptake 3019
- Plasmodium falciparum
 effect of choline transport inhibitors on growth of 4068
- Platelets
 activation by arachidonic acid, effect of thromboxane synthase inhibition 1151
 effect of desmethylinipramine and electroconvulsive shock on neurotransmitter recognition sites 679
 ethanol effects on prostanoid synthesis 1343
 inhibition of aggregation by cyclic AMP phosphodiesterase inhibitors 2137
 inhibition of aggregation and PGE_2 production by mitoxantrone and bisantrene 3609
 inhibition of thromboxane generation by aspirin 1839
 effect of lipoproteins on aggregation 2451
 phospholipase A2 inhibition by HETES 1571
 platelet activating factor binding, effect of CV-3988 1491
 prostaglandins and aggregation 307
 role of adenosine uptake and metabolism in effect of diprydamole, dilaazep and nitrobenzylthioinosine 3965
 solubilization of acetylcholinesterase and aryl acylamidase 4109
 thromboxane A2 blocking activity of prostanoid acid analogues 641
 thromboxane A2 and prostaglandin H2 receptors using ^{125}I -labeled ligand 1165
 tumour cell induced aggregation, effect of dihydropyridine calcium antagonists 235
 effect of vascular damage on function of 2097
- Platelet activating factor
 binding to platelets, inhibition by CV-3988 1491
 endothelium-dependent vasodilation 1867
- Platinum
 renal transport, effect of sodium chloride 2363
- cis-Platinum
 hematopoietic stem cell sensitivity 3465
- Platinum antitumour compounds
 renal fractional clearance 1423
- Podophyllotoxin
 effect on lipid peroxidation in liver 2036
- Poly(ADP-ribose)
 synthesis in L1210 cells, effect of

- Poly(ADP-ribose) (contd.)
6-aminonicotinamide 3999
- Polyamine
biosynthesis in adrenal, effect of
 α -difluoromethylornithine 1315
depletion by α -difluoromethylornithine,
enhancement of cytotoxic activity of
 aziridinyl putrescine 2409
- Polychlorinated biphenyls
effect on aromatic hydrocarbon binding to
 mouse lung DNA 545
- Polyglutamates, methotrexate
effect of D,L-4-fluoroglutamic acid in
 hepatic cells 2995
synthesis in breast cancer cells 2897,3087
- Polymorphic oxidation
 β -adrenergic blocking agents 399
sparteine metabolism in liver microsomes
 439
- Polymorphism
debrisoquin phenotyping in epileptic patients
 treated with phenytoin and carbamazepine
 447
- Polymorphonuclear neutrophils
effect of compound 48/80 and peptide-401
 on prostaglandin release 2391
effect of diclofenac sodium on locomotion
 3433
effect of ebselen on lipoxygenase in 2691
histidine decarboxylase inhibition by
 (S)- α -fluoromethylhistidine 3509
effect of inhibitors of arachidonic acid
 metabolism on degranulation 1485
5-lipoxygenase localization 3943
nafazatrom inhibition of leukotriene B4
 formation 1891
protection against reperfusion injury by
 aprotinin 1757
- Polymyxin B
reduction of lipopolysaccharide pyrogenicity
 3995
- Polypeptide hormones
production by lung tumours 155
- Polysomes
in hepatocytes, effect of aflatoxin B1 4184
profile of mouse liver, effects of tetra-
 cycline and doxycycline 3689
- Porphyria
hexachlorobenzene induced
 iron and lipid peroxidation involvement
 161
role of pentachlorophenol in mitochondrial
 derangement 1171
- Porphyryns
interaction with chloroquine 141
- Positron emission tomography
measurement of monoamine oxidase activity
 in brain 3207
- Post-microsomal supernatant
microsomal epoxide hydrolase in 1795
- Potassium
permeability of pancreatic B-cell membrane,
 effect of sparteine 2355
transport by neonatal myocyte cultures 3377
- Practolol
inhibition of phospholipase A1 521
- Pramocaine
interaction with cytochrome oxidase
 663, 3187
- Prazosin
binding in brain, adrenergic stimulation of
 phosphoinositide hydrolysis 2705
inhibition of propranolol binding in serum
- Prazosin(contd.)
2812
- Prednisolone
effect on collagen metabolism in
 damaged lung tissue 2519
- Pregnancy
binding inhibitors in 2733
- Pregnenolone-16 α -carbonitrile
effect on glutathione transferase and
 peroxidase in liver 3735
- Prenylamine
effect on Ca²⁺ uptake by canine cardiac
 sarcoplasmic reticulum 195
- Prenylamine
effect on cardiac calcium pumping ATPase
 and brain cyclic AMP phosphodiesterase
 3837
- Presynaptic heteroreceptors 467
- Presynaptic receptor theory 4085
- Prilocaine
interaction with cytochrome oxidase
 663, 3187
- Primaquine
effect on hepatic drug metabolism in rat
 567
stereoisomers and metabolites, effects on
 drug metabolism in rat liver 331
- Primidone
effect on indole metabolism in pineal
 gland 3198
- Probenecid
effect on captopril disposition in rat 3347
effect on methotrexate transport in
 Ehrlich ascites tumour cells 747
effect on methotrexate transport in
 L1210 cells 1725
- Procaine
interaction with cytochrome oxidase
 663, 3187
- Prochlorperazine
ceruloplasmin interaction 2605
- Prolidases
inhibition by captopril 1287
- Promazine
ceruloplasmin interaction 2605
- Promethazine
effect on carbon tetrachloride intoxication
 in vivo 397
ceruloplasmin interaction 2605
- Propafenone
binding to human α 1-acid glycoprotein 4279
- Propane
effect on glyceraldehyde-phosphate
 dehydrogenase and pectin methylesterase
 2839
- Propranolol
binding in erythrocytes, effect of plasma
 3767
binding to α 1-acid glycoprotein 1591,
 4279, 4331
effect on cyclic nucleotide metabolism in
 heart 1659
dihydroalprenolol displacement in heart
 2883
inhibition of auramine O binding to
 α 1-acid glycoprotein 821
inhibition of iodocyanopindolol binding
 in kidney 3951
inhibition of mitochondrial Mg²⁺-ATPase
 911
inhibition of phospholipase A1 521
reduced hepatic uptake in acute renal
 failure 2679

- Propranolol (contd.)
 serum binding, effect of adrenergic ligands 2812
 6-*n*-Propyl-2-thiouracil
 effect on histamine H₁ receptors in developing brain 4131
 inhibition of metabolic tolerance to ethanol 2377
 Prorenone
 inhibition of aldosterone biosynthesis 189
 Prostacyclin
 effect on arterial cholesterol metabolism 295
 effect of flavonoids on release of 2477
 metabolism in kidney, age-dependent changes 223
 synthesis in aortic endothelial cells, effect of cyclic AMP 119
 effect on thromboxane formation in carbon tetrachloride stimulated leucocytes 1515
 effect of vascular damage on production of 2097
 Prostacyclin-lipoprotein interaction 2451
 Prostaglandins
 effect on arterial cholesterol metabolism 295
 biosynthesis in iris, effect of (1,6-di(*O*-carbamoyl)cyclohexane oxime)hexane 539
 effect of flavonoids and hypolaetin-8-glucoside on synthesis and inactivation 2477
 involvement in *N*-demethylation of dimethylhydrazine and tetramethylhydrazine in colonic mucosa 3101
 effect on release of mast cell secretory products 1389
 synthesis in dental pulp, effect of lipid peroxidation on MK-447 action 933
 synthesis in renal papillary collecting tubule cells, effect of phosphodiesterase inhibitors 1565
 synthesis in platelets, effect of ethanol 1343
 Prostaglandin B₂
 calcium ionophoresis 3831
 Prostaglandin D₂
 n-butyrate enhancement of antitumour efficacy 3771
 human platelet aggregation 307
 Prostaglandin E₂
 calcium ionophoresis 3831
 Cannflavin inhibition of production by synovial cells 2019
 carbon tetrachloride induced synthesis in leucocytes 1515
 + chloroadenosine, stimulation of bone resorption 937
 effect of compound 48/80 and peptide-401 on release from PMNs 2391
 human platelet aggregation 307
 metabolism in kidney, age-dependent changes 223
 pharmacokinetics in lung, effect of oedema 4325
 production in platelets, effects of mitoxantrone and bisahtrone 3609
 synthesis in renomedullary interstitial cells, effect of oxygen-free radicals 4137
 Prostaglandin F₁
 effect of compound 48/80 and peptide-401 on release from PMNs 2391
 Prostaglandin F_{2α}
 calcium ionophoresis 3831
 human platelet aggregation 307
 metabolism in kidney, age-dependent changes 223
 Prostaglandin G₂
 acidosis and calcium transport by masseter muscle 961
 Prostaglandin H₂ receptors
 125I-labeled ligand 1165
 Prostaglandin synthase
 p-phenetidine oxidation 343
 Prostaglandin synthetase
 inhibition *in vivo* by 2-methyl-8-*cis*-12-*trans*-14-*cis*-eicosatrienoic acid 2103
 Prostanoid acid analogues
 thromboxane A₂ blocking activity 641
 Prostate
 16α-iodo-testosterone metabolism 3173
 Prostate tumour line PC-3
 aziridinyl putrescine activity enhanced by polyamine depletion with α-difluoromethylornithine 2409
 Prostatic carcinoma DU 145
 activity of 2-chloroethylnitrosoureas 1015
 Protease inhibitor NCO-700
 effect on cardiac myofibrils 3875
 Protein
 effect on drug-cell interaction 747
 phosphorylation in membranes of Chinese hamster lung cells resistant to adriamycin 4180
 secretion from liver, inhibition by cadmium 4171
 synthesis in hepatocytes, calcium EDTA protection against paracetamol injury 19
 synthesis in J774 macrophages, inhibition by T-2 toxin 2809
 synthesis in salivary gland 4229
 synthesis in *trypanosoma cruzi*, effect of nitroheterocyclic drugs 1331
 Protein B23
 localization in HeLa cells after treatment with actinomycin D analogues 4059
 Proteinases
 release from chondrocytes and synovial cells 4043
 Protein binding inhibitors
 uremic plasma, aromatic amino acid metabolites 2431
 Protein kinase
 effect of antiestrogens 3649
 conversion of hepatic microsomal cytochrome P-450 to P-420 1835
 in fat cells, effect of isoproterenol and forskolin 843
 Proteoglycan-degrading proteinases
 release from chondrocytes and synovial cells, effect of bisphosphonates 4043
 Proteolysis
 lysosomal, biliary excretion of FITC metabolites 1399
 Proton
 excretion by HeLa cells, effect of bleomycin 617
 Protonmotive force
 salicylate-induced loose coupling 900
 Protriptyline
 inhibition of dihydrofolate reductase in liver 2212
 inhibition of K⁺-stimulation of Ca²⁺ uptake by synaptosomes 902
 effect on liposomal membranes 705

- PTT.10 2347
- Pulmonary endocrine cells 155
- Pulmonary fibrosis
attenuation by aminophylline 4269
effect of dimethyl sulfoxide 2386
- Pulmonary oedema
effect on PGE₂ pharmacokinetics in lung 4325
- Purkinje fibres
ouabain receptors in 3701
- Putrescine
monoaziridinyl analogue, activity against prostate tumour line PC-3 2409
pulmonary accumulation 1809
- Putrescine analogues
ornithine decarboxylase inhibition and trypanosomiasis 1773
- Pyrazole
effect on acetaldehyde in blood 3979
metabolism in mice 1273
effect on microsomal monooxygenase enzymes 1507
effect on N-nitrosamine metabolism by liver microsomes 919
- β -Pyrazol-1-ylalanine
metabolism in mice 1273
- Pyrethroids
interaction with calmodulin 1689
- Pyridine
effect on brain decarboxylase activity 1381
effect on striatal tryptamine and 5-HT 3774
- Pyridine-2-aldoxime methyl iodide
acceleration of acetylcholinesterase decarbamylation 4337
binding with regional brain muscarinic receptors 2815
reactivation of ethyl methylphosphonyl-acetylcholinesterase 3606
- 2,6-Pyridine dicarboxylic acid
inhibition of glutamate decarboxylase in brain 4145
- Pyridine nucleotides
in chick embryo, effect of diazinon 1937
- Pyridinium oximes
acceleration of acetylcholinesterase decarbamylation 4337
binding by muscarinic receptor in brain regions 2815
reactivation of ethyl methylphosphonyl-acetylcholinesterase 3606
- Pyridoxal isonicotinoyl hydrazone and analogues
iron chelation in hepatocytes 3011
- 2,2'-Pyridylisatogen tosylate
inhibition of NADPH-linked enzyme activities 2847
- Pyridyl-3-tetrazole
tolerance in rats 269
tolerance by rat adipocytes 275
- Pyrilamine
binding in human lung 3285
- Pyrimethamine
disposition in isolated perfused liver 2193
- Pyrimidine
metabolism in L1210 cells, effect of 5'-deoxyinosine 1717
- Pyrimidine nucleoside salvage 101
- Pyrogens
effect of polymyxin B on effect of lipopolysaccharides 3995
- PZ 51
effect on ADP-Fe induced lipid peroxidation in hepatocytes 1185
- Quasi-morphine abstinence behaviour
effect of GABA transaminase inhibitors 3789
- Quaternary ammonium compounds
effect on growth of *Plasmodium falciparum* 4068
- Quercetin
effect on prostaglandin synthesis and degradation 2477
- Quin 2
effect of NSAIDs on calcium in neutrophils 3123
- Quinidine
inhibition of auramine O binding to α_1 -acid glycoprotein 821
inhibition of desmethylimipramine hydroxylation in human liver microsomes 2501
- Quinine
inhibition of desmethylimipramine hydroxylation in human liver microsomes 2501
inhibition of phosphatidylinositol phosphodiesterase in skeletal muscle 2471
- Quinisocaine
interaction with cytochrome oxidase 663, 3187
- Quinolines
protein binding inhibitors 2431
- Quinone antitumour agents
activation to free radicals 1449
mechanism of action 2629
- Quinone reductase
in liver and intestine, effect of *t*-butyl-4-hydroxyanisole analogues 3909
- Quinones
ethylene production from methional 977
inhibition of ribonucleotide reductase in L1210 cells 353
- Quinuclidinyl benzilate
binding in brain
effect of dihydropyridine drugs 175
effect of ellipticine derivatives 1701
effect of gallamine 2214
effect of 2-PAM and HI-6 2815
binding in rat tissues, methylscopolamine and trihexyphenidyl displacement 588
- Raclopride
specific in vitro and in vivo binding 2251
- Radiation inactivation
t-butylbicyclophosphorothionate binding sites in brain 3633
molecular size of WB-4101 binding sites in brain 3617
- Radiation-reduced RSU-1069
DNA binding 3537
- Radioprotective agents
cysteamine-dipalmitoylphosphatidylcholine liposome interaction 3071
- Rainbow trout
xenobiotic metabolism in isolated liver cells 1407
xenobiotic metabolism in liver microsomes, differential induction 3309
- Ranitidine
interaction with FAD monooxygenase in pig liver microsomes 2398
effect on paracetamol conjugation in hepatocytes 1407
- Raubasine
effect on cerebral energy metabolism in posthypoglycemic recovery 1477
- Rauwolfscine
effect on monoamine synthesis in brain 1093

- 86Rb
 flux in pancreatic cells
 effect of carbamylcholine 3451
 effect of sparteine 2355
 influx in myocytes, effect of vanadate 1543
 Reaction phenotyping 2225
 Receptor desensitization 9
 Receptor down-regulation 9
 Receptors
 chemical mechanisms of photoaffinity
 labelling 2821
 Redox state
 liver, role in ethanol elimination in fasted
 rats 3577
 Regenerating liver
 uroporphyrinogen decarboxylase activity 1817
 Renin
 release in kidney, role of β -adrenoceptors
 3951
 stimulation of secretion by TMB-8 1523
 Renomedullary interstitial cells
 formation of lipid derived mediators in 4137
 Reperfusion injury
 mechanism of protection by aprotinin 1757
 Reserpine
 effect on DOPA production in clonal cell
 lines 941
 Retina
 taurine and temperature effects on calcium
 uptake 3741
 Retinoids
 effects on tumours 1599
 Reye Syndrome
 salicylate-induced loose coupling 900
 Rhabdomyosarcoma HxRh12
 vinepidine activity against 1975
 2- β -D-Ribofuranosyl-4-selenazolecarboxamide
 biochemical and antitumour activity 1109
 Ribonucleic acid
 L1210 cells, synthesis inhibition by
 anthrapyrazoles 3499
 synthesis and degradation in *Trypanosoma*
 cruzi, effect of nitroheterocyclic drugs
 1331
 mRibonucleic acid
 mediation of cytochrome P-450 induction by
 phenobarbital 2489
 Ribonucleoprotein complex
 in hepatocytes, effect of aflatoxin B1 4184
 Ribonucleotide reductase
 in L1210 cells
 effect of N-hydroxy-N'-aminoguanidine
 derivatives 2645
 inhibition by levodopa and dopamine
 related antitumour agents 353
 role in HSV-2 infection 777
 Ribosomes
 E. coli, tetracycline photoaffinity labeling
 1065
 liver, effect of tetracycline and doxycycline
 on aggregational state 3689
 Ridgeway osteogenic sarcoma
 tiazofurin and selenofurin activity 1109
 Rifampicin
 effect on tubulin activity 3415
 Ritodrine
 intestinal glucuronidation 421
 Ro 03-8799
 reversible N-oxidation 3939
 Rolipram
 selective inhibition of one cyclic AMP
 phosphodiesterase in brain 2997
 Rotenone
 effect on asialo-glycoprotein uptake by
 hepatocytes 1639
 RSU-1069
 induction of DNA strand breaks 3537
 Rutin
 effect on prostaglandin synthesis and
 degradation 2477
 RX 781094
 effect on monoamine synthesis in brain 1093
 SAD-128
 acceleration of acetylcholinesterase
 decarbamylation 4337
 Safrole
 inhibition of basal cytochrome P-450 631
 Salazosulfapyridine
 effect on soybean lipoxygenase 148
 Salbutamol
 intestinal glucuronidation 421
 Salicylate
 effect on calcium in neutrophils 3123
 effect on erythrocyte morphology 3329
 induced loose coupling, protonmotive force
 measurements 900
 serum protein binding 1999
 effect of aromatic amino acid
 metabolites 2431
 pregnant rats 2733
 Salivary glands
 protein synthesis in 4229
Salmonella typhimurium
 mutagenic activity of various chemicals 2151
 mutagenicity of cysteine and penicillamine
 3725
 Sanguinarine
 binding to DNA of differing base
 composition 321
 Sarcoma cells MES-SA
 n-butyrate enhancement of PGD₂ effects 3771
 Sarcoplasmic reticulum
 maseter muscle, acidosis, free radicals
 and prostaglandins 961
 effect of phenothiazines on Ca²⁺ transport
 4245
 Sarcosomes
 heart, effect of adriamycin on free radical
 production 669
 Sarin
 enzymatic synthesis 1843
 Scandium
 effect on brain acetylcholinesterase 533
 SCH 23390
 binding to dopamine receptors in striatum
 151
 effect on dopamine-mediated motor
 behaviour 1665
Schistosoma japonicum
 tubercidin-nitrobenzylthioinosane
 5'-monophosphate therapy 3921
Schistosoma mansoni
 effect of 5-thiogluucose on energy
 metabolism 3369
 Selenazofurin
 biochemical and antitumour activity 1109
 Selenium
 ebselen inhibition of neutrophil
 lipoxygenase 2691
 hepatic enzyme modulation 2287
 effect on hepatic glutathione transferase
 and peroxidase regulation 3735
 effect on intestinal cytochrome P-450 599

- Selenium(contd.)
 effect on mercuric chloride metabolism in mice 2713
- Selenoorganic compound PZ51
 effect on ADP-Fe induced lipid peroxidation in hepatocytes 1185
- Seminal vesicles
 effect of flavonoids on prostaglandin biosynthesis 2477
- Serine hydroxymethyltransferase
 in lymphoma cells sensitive or resistant to L-asparaginase 559
- Seromucoids
 synthesis in plasma, ethanol inhibition of turpentine induction 525
- Sex differences
 age-associated changes in rat liver drug metabolism 579
 alcohol dehydrogenase in liver 2385
 biotransformation enzymes in cultured hepatocytes 3029
 cytochrome P-450 species in rat liver microsomes 1861
 diethylstilbestrol metabolism in vitro 3107
 effect of fasting on cytochrome P-450 in liver microsomes 3661
 imipramine metabolism in rat liver 898
 effects of microsomal enzyme inducers 3533
 phenobarbital imprinting of hepatic monooxygenase system 1007
- SF 86-327
 effect on growth and sterol synthesis of Leishmania mexicana mexicana promastigotes 3785
- SH-compounds
 effect on inhibition of neutrophil function by hydrogen peroxide 2083
- Sheep
 ouabain receptors in heart 3701
- Silver
 preloaded liver nuclei, DNA methylation by methylnitrosourea 4071
- Silymarin
 protection against ethanol induced hepatic lipid peroxidation 2209
- Sister chromatid exchanges
 effect of BCNU + 6-thioguanine 515
- SKF 525-A
 affinity for liver antiestrogen binding sites 2807
 effect on covalent binding of dichloroethylene in mice 4051
 induction of O-dealkylation of ethoxyphenoxazone homologues 3337
 effect on N-nitrosamine metabolism by liver microsomes 919
- SKF 101675
 effect on DNA polymerase 3243
- SKF 102229
 probe for α 2-adrenoceptors 3667
- Skin
 drug metabolism in 3571
- Small cell cancer of the lung
 endocrine lung 155
- Smoking
 small cell cancer of the lung 155
- Sodium
 fluxes in brain, effect of dihydropyridines 2187
 synaptosomal uptake, effect of liposomes on veratridine activation 2865
- Sodium-calcium exchange
 in cardiac sarcolemma, effect of nicardipine
- Sodium-calcium exchange(contd.)
 2303
- Sodium channels
 verapamil action 1953
- Sodium pump
 ventricular muscle, effect of vanadate 1543
- Soman
 enzymatic synthesis 1843
 inhibited acetylcholinesterase, aging and stereospecific reactivation 142
 interaction of isomers with neuropathy target esterase in hen brain 1945
in vitro degradation of four isomers in human serum 1895
- Soman detoxifying enzyme
 inhibition by mipafox 2069
- Sorbinil
 inhibition of chicken muscle aldose reductase 2961
- Soybean
 sulfoxidation of methiocarb 389
- Sparsomycin analogues
 inhibition of Trypanosoma brucei brucei peptidyl transferase 3055
- Sparteine
 metabolism in liver microsomes 439
 effect on pancreatic B-cell function 2355
- Spectrin
 degradation in red blood cells by phenylhydrazine 4283
- Spermidine
 pulmonary accumulation 1809
- Piperone
 binding in cerebral cortex, effect of isoproterenol 1585
 binding in pituitary, effect of temperature and sodium 2459
 binding in striatum
 effect of cholecystokinin octapeptide 2675
 effect of heavy metals and sulfhydryl reagents 3405
 effects of haloperidol and clopazine 2755
 dissociation constant at D2 receptor 4065
 interaction with amfonelic acid 39
- Spironolactones
 inhibition of aldosterone biosynthesis in vitro 189
- Spontaneously hypertensive rats
 effect of propylthiouracil on metabolic tolerance to ethanol 2377
- SQ 20,009
 effect on t-butylbicyclophosphorothionate binding in brain 3633
- Starvation
 effect on cytochrome P-450 in liver, sex differences 3661
- Steroidaromatase
 placental microsomes, inhibition by imidazole antimycotics 1087
- Steroid esterases
 in liver 1881
- Steroidogenesis
 adrenal, inhibition by cyproterone acetate 2091
- Steroid-receptor complex
 hydrogen bond structure 2040
- Steroids
 dehydrogenation in rat tissues, inhibition by indomethacin 831
 effect on lung collagen metabolism 2519

- Sterol
 synthesis by Leishmania mexicana mexicana,
 effect of SF 86-327 3785
 synthesis in rats, effect of KCD-232 3361
- Stevia rebaudiana products
 effect on liver mitochondria 873
- cis-Stilbene oxide
 hydration in mouse tissues, effect of
 dietary clofibrate 1827
- trans-Stilbene oxide
 effect on acrylamide neurotoxicity 1099
 effect on biliary secretion of methyl
 mercury 301
 effect on glutathione transferase and
 peroxidase in liver 3735
 hydration in mouse tissues, effect of
 dietary clofibrate 1827
 induction of epoxide hydrolase in cultured
 hepatocytes and hepatoma cells 1537
- Stomach
 inhibition of prostaglandin dehydrogenase
 by aglycone flavonoids 2477
 effect of omeprazole on H⁺,K⁺-ATPase 2967
- Stopped-flow spectrophotometry
 dissociation kinetics of DNA-anthracycline
 and DNA-anthraquinone complexes 733
- Streptomycin derivatives
 phospholipid interaction 1035
- Streptonigrin
 free radical damage to deoxyribose 4099
- Streptozotocin
 effect on glutathione S-transferases in
 liver cytosol 811
 induced diabetes
 effect on hepatic drug metabolism 287,449
 hormone sensitivity of adenylate cyclase
 2013
- Stress
 effect of α -difluoromethylornithine on
 ornithine decarboxylase and tyrosine
 hydroxylase induction in adrenal 1315
- Stress metabolism
 effect of D-fenfluramine 1265
- Striatum
 aspartic acid release from slices 1217
 effects of benzene and pyridine on tryptamine
 and 5-HT in 3774
 effect of choleystokinin octapeptide on
 spiperone binding 2675
 dopamine D2 receptor, effect of heavy
 metals and sulphydryl reagents 3405
 effects of haloperidol and clopazine on
 D2 receptor function 2755
 HI-6 and 2-PAM binding with muscarinic
 receptors 2815
 nomifensine binding to membranes 1137
 effect of pentylenetetrazol on carbaryl-
 induced changes in catecholamines 553
 regulation of tyrosine hydroxylase 2637
 sulpiride binding in membranes 2905
- K-Strophanthins, semisynthetic
 activity compared with natural glycosides
 2541
- Styrene-7,8-oxide
 mutagenic activity in Salmonella 2151
- Styrene-7,8-oxide hydrolase
 in hepatocytes and hepatoma cells 1537
- Submandibular gland
 protein synthesis in 4229
- Substance P
 proteolytic inactivation in intestine 4019
- Substance P-degrading enzyme 1347
- Substance P hepta(5-11)
 metabolism by vascular aminopeptidase M
 2309
- Substance P-like immunoreactivity
 dopamine-mediated increase in
 striatum 3161
- Substantia nigra
 effect of dopamine and its agonists on
 GABA and 5-HT release 2655
- Succinate dehydrogenase
 in MDBK cells, effect of vanadium 2465
- Succinonitrile
 role of hydroxy radicals in metabolism
 4081
- Sucrose
 inhibition of β -receptor coupling to
 adenylate cyclase in liver 623
- Sulfasalazine
 inhibition of LTC synthetase and
 glutathione S-transferases 2695
- Sulfate conjugates
 formation in plaice hepatocytes 3933
- Sulfation
 acetaminophen in hepatocytes 2573
 by brain phenolsulfotransferase, inhibition
 by dichloronitrophenol 45
 in kidney tubule fragments 1363
 4-methylumbelliferone in vivo 1325
 1-naphthol by isolated cells from liver,
 intestine and kidney 697
- Sulphydryl reagents
 effect on striatal D2 dopamine receptor
 3405
- Sulfotransferase
 in hepatocyte primary cultures 463
 in liver, nitrobenzyl alcohol metabolism
 4163
- Sulfotransferase inhibitors
 effect on 2-acetylaminofluorene-mediated
 loss of liver N-hydroxy-2-acetylami-
 nofluorene sulfotransferase activity 3380
- Sulfur dioxide anion free radical
 formation by cytochrome P-450 3005
- Sulpiride
 binding in striatal membranes 2905
 interaction with amfonelic acid 39
- Sulthiame
 effect on indole metabolism in pineal
 gland 3198
- Superior cervical ganglionectomy
 effect on melatonin stimulation of
 specific monoamine oxidase-A inhibition
 3393
- Superoxide
 production by neutrophils, effect of
 allopurinol 3673
- Superoxide anion
 neutrophil activation and phospholipids
 1931
- Superoxide dismutase
 effect on calcium transport by masseter
 muscle 961
- Criethidia, inhibition by N¹N⁶-bis(dihydroxy-
 benzoyl)-1,6-diaminohexane 3147
- effect on DOPA toxicity in human tumour
 cells 1801
- in kidney, effect of gentamicin 3895
- effect on PGE₂ synthesis in phenazine
 methosulfate treated cells 4137
- Superoxide radical
 reaction with anthracycline antibiotics
 481
- reaction with desferrioxamine 229

- Swift increase in alcohol metabolism
role of alcohol dehydrogenase 3523
- Synaptic membranes
muscimol binding to GABA receptor in 3553
- Synaptosomes
adenosine uptake and release, effect of
barbiturates 1619
effect of ATP γ S 1247
calcium uptake, effect of adenosine 713
GABA levels, discrete brain areas 1747
glutamate transport following glutamine
synthetase inhibition 73
effect of nicotine on ATPase activity 3445
tetracaine inhibition of acetylcholinesterase
2599
tricyclic antidepressant inhibition of
K⁺-stimulated Ca²⁺ uptake 902
tyrosine hydroxylase activation by
anaerobiosis 2975
veratridine activation of Na⁺ uptake,
effect of liposomes 2865
- Synovial fluid
effect of bisphosphonates on proteinase
release 4043
- Tallysomyacin
inhibition of transplasma membrane redox
in HeLa cells 617
- Tamoxifen
antagonism of melphalan in human breast
cancer cells 763
binding in liver 2221, 2807
binding in uterus 2221
effect on protein kinase C 3649
uterotropic activity 2787
effect of MER-25 2795
- Taurine
protection of lymphoblastoid cells from
iron-ascorbate induced damage 2205
protective effects on hypoxia and
reoxygenation in heart 2611
effect on transition temperature of calcium
uptake in retinal membranes 3741
- Taurocholate
uptake by elutriated hepatocytes 4257
(^{99m}Tc (dmpe)₂.Cl₂)⁺
transport by neonatal myocyte cultures 3377
- Temperature
effect of GABA transaminase inhibitors 3789
- Tempocholine
entrapping into human erythrocytes 31
- Teniposide
cytotoxicity and topoisomerase-mediated
DNA cleavage 2483
- Temoxicam
metabolism by leukocyte peroxidases 1337
- Teratogen
2-acetylaminofluorene 2953
diazinon, effect on nucleotides and amino
acids in chick embryo 1937
- Terbium
effect on brain acetylcholinesterase 533
- Terbutaline
intestinal glucuronidation 421
effect on protein synthesis in salivary
gland 4229
- Testis
cadmium uptake by interstitial cells 2513
clobibrate induction of epoxide hydrolase
1827
indomethacin-sensitive Δ^4 -hydroxysteroid
dehydrogenase in 831
- Testis(contd.)
in vivo effect of ethanol on testosterone
685
- Testosterone
ethanol induced reduction, role of
acetaldehyde 685
hydroxylation in liver microsomes, effect
of perinatal methadone 1582
modulation of thyroid hormone action on
hepatic drug metabolism 582
- Tetracaine
effect on erythrocyte morphology 3329
effect on membrane-bound acetylcholinesterase
2599
- 3,3',4,4'-Tetrachlorobiphenyl
effect on glutathione transferase and
peroxidase in liver 3735
- 2,3,7,8-Tetrachlorodibenzo-p-dioxin
depression of hepatic uroporphyrinogen
decarboxylase 1817
induction of aryl hydrocarbon hydroxylase
and acetanilide-4-hydroxylase in human
and mouse cell lines 2721
- Tetracosactide
effect on renal kallikrein activity and
urinary kallikrein excretion 4013
- Tetracycline
binding site in *E.coli*, photoaffinity
labelling 1065
effect on calmodulin activity 3391
effect on polysomes in liver 3689
- 12-O-Tetradecanoylphorbol-13-acetate
antiproliferative properties 2587
effect on responsiveness of cultured
thyroid cells to thyrotropin 3795
- Δ^9 -Tetrahydrocannabinol
N-ethyl-17(R,S)-methyl(6aR,10aR)- Δ^8 -tetra-
hydrocannabinil-18-oic acid amide as
affinity ligand 3983
- Tetrahydropyranyladiamycin
ethylene production from methional 977
- Tetramethylhydrazine
fatty acid stimulation of N-demethylation
by colonic mucosa 3101
- Theophylline
effect on heme oxygenase induction in
chick embryo hepatocytes 2937
effect on low K_m cyclic AMP phosphodiesterase
in adipocytes 2891
phosphodiesterase inhibition and tracheal
smooth muscle relaxation 1875
effect on protein synthesis in salivary
gland 4229
- Thioacetamide
effect on epoxide hydrolase in liver 1795
role of cytochrome P-450 dependent and FAD-
containing monooxygenases in
bioactivation 395
- Thiobenzamide
role of cytochrome P-450 dependent and FAD-
containing monooxygenases in
bioactivation 395
- 5-Thiogluucose
effect on energy metabolism in *Schistosoma*
mansonii in vitro 3369
- 6-Thioguanine
action on Chinese hamster ovary cells 3677
potentiation of BCNU cytotoxicity 515
- Thiol compounds
inhibition of hydroxymethylglutaryl-CoA
reductase in liver 3293
effect on mercury distribution in rats
2030

- Thiol groups
 role in inhibition of microsomal Ca^{2+} sequestration 3717
- Thiopental
 uptake by adipose tissue 3683
- Thiorphan
 peptidase inhibition 1347
- Thiopurine methyltransferase
 in mouse kidney and liver, assay conditions, properties and strain variations 3823
- Thioridazine
 ceruloplasmin interaction 2605
 inhibition of desmethylinipramine hydroxylation in human liver microsomes 2501
- Threonine
 in chick embryo, effect of diazinon 1937
- Thromboxane
 synthesis in platelets, effect of ethanol 1343
- Thromboxane A2
 aspirin inhibition of generation of 1839
 biosynthesis in dental pulp, effect of lipid peroxidation on MK-447 action 933
 blocking activity of prostanoid acid analogues 641
- Thromboxane A2 receptors
 ^{125}I -labeled ligand 1165
- Thromboxane antagonist ^{125}I labeled
 eicosanoid receptors 1165
- Thromboxane B2
 carbon tetrachloride-induced synthesis in leucocytes 1515
 release from neutrophils, effect of compound 48/80 and peptide-401 2391
 synthesis in neutrophils, effect of inhibitors of arachidonic acid metabolism 1485
- Thromboxane synthase
 effect of inhibition on platelet activation 1151
 prostaglandins and human platelet aggregation 307
- Thymidine
 inhibition of degradation by (E)-5-(2-bromovinyl)uracil in vivo 403
- Thymidine kinase
 in liver, recovery after carbon tetrachloride intoxication 586
- Thymidylate synthase
 intact cell assay 2319
 in liver, recovery after carbon tetrachloride intoxication 586
- Thymocytes
 dATP accumulation 3561
- Thymol blue
 association with binding proteins 2439
- Thyroid cells
 effect of tetradecanoyl phorbol-13-acetate on responsiveness to thyrotropin 3795
- Thyroid gland
 cyclic AMP regulation in 1429
- Thyroid state
 effect on histamine H1 receptors in adult and developing rat brain 4131
- Thyrolibrin
 effect on acetylcholine and choline release from brain 1341
- Thyrotropin
 thyroid cell response to, effect of tetradecanoyl phorbol-13-acetate 3795
- Thyroxine
 effect on hepatic drug metabolism, modulation by estradiol and testosterone 582
- Thyroxine(contd.)
 effect on histamine H1 receptors in developing brain 4131
 modulation of flavin metabolism in liver and brain, inhibition by chlorpromazine 93
 3'-substituted derivatives, thyromimetic activity as a function of molecular volume 2413
- 201Tl^{+}
 transport by neonatal myocyte cultures 3377
- Tiazofurin
 biochemical and antitumour activity 1109
- Tienilic acid
 inhibition of glutathione S-transferase isoenzymes 2157
- Timolol
 inhibition of phospholipase A1 521
- Tinidazole
 structure of metabolite 3 457
- T lymphocytes
 effect of retinoids 1599
- TMMP-EE
 effect on tumours 1599
- α -Tocopherol
 effect on carbon tetrachloride intoxication in vivo 397
 and water-soluble analogues, effect on liver microsomal lipid peroxidation 437
- Tolbutamide
 effect on energy metabolism in ischaemic heart 803
 metabolism in liver, effects of mefloquine and primaquine 567
- Toluene
 effect on brain decarboxylase activity 1381
- Topoisomerase-mediated DNA cleavage
 epidodophyllotoxin cytotoxicity 2483
- Topoisomerases
 targets for cancer therapy 4191
- Torpedo
 binding of GABA receptor channel drugs to chloride channel in electric organ 2579
 histrioticotoxin interaction with nicotinic receptor-ion complex of electroplax 3037
- N-p-Tosylglycine
 facilitation of insulin release 2495
- Trachea
 cyclic GMP phosphodiesterase and relaxation 1875
- Transferrin
 iron chelation by pyridoxal isonicotinoyl hydrazone in hepatocytes 3011
- Transglutaminase
 role in pancreatic islet function 2495
- Transmembrane methylation
 effect of H-2 3421
- Transplasma membrane redox
 HeLa cells, bleomycin and tallsomycin inhibition of 617
- Transponon-mediated trimethoprim-resistant dihydrofolate reductase 4334
- Triacetyloleandomycin
 induction of cytochrome P-450 LM₃ 2445
- Triacylglycerol
 in serum, effects of fructose and fenfluramine 1265
- 1,1,1-Trichloro-2,2-bis(p-chlorophenyl)ethane
 interaction with calmodulin 1689
- tricyclic antidepressants
 inhibition of depolarization-induced uptake of calcium by synaptosomes 902
 inhibition of dihydrofolate reductase in

- Tricyclic antidepressant drugs (contd.)
 liver 2212
 effect on liposomal membranes 705
- Tricyclohexyltin
 altered induction of cytochrome P-450 in
 liver 997
- Trifluoperazine
 effect on adriamycin resistance 1471
 amfonelic acid interaction 39
 antiestrogenic effect in mice 2221
 antiproliferative and anticardiolipin effects
 in L1210 cells 3973
 effect on bone 3885
 effect on Ca^{2+} transport by sarcoplasmic
 reticulum 195, 4245
 effect on DOPA formation in striatal
 slices 2637
 effect on tempocholine entrapping in
 erythrocytes 31
- p-Trifluoromethylaniline
 metabolism in rat and dog 2025
- Triflupromazine
 ceruloplasmin interaction 2605
- Triglycerides
 uptake of lipophilic model compounds 3683
- Trihexylphenidyl
 muscarinic receptor subclassification 588
- Triiodothyronine
 effect on ethanol metabolism in liver 2291
 effect on ethanol oxidation in hepatocytes
 655
 effect on heme oxygenase induction in
 chick embryo hepatocytes 2937
- Trimethoprim
 resistant dihydrofolate reductase, E. coli,
 transposon-mediated 4334
 uptake by renal cortex 3483
- Trimethylene-bis(4-formylpyridinium bromide)
 dioxime
 acceleration of acetylcholine
 decarbamylation 4337
 reactivation of 4-nitrophenyl organo-
 phosphinate inhibited carbonyl ester
 hydrolase 1789
- Triphenylmethylphosphonium bromide
 membrane potential of L1210 cells, effect
 of adriamycin 1501
- Trivalent cations
 interaction with brain acetylcholinesterase
 533
- Troponin
 Ca^{2+} binding, effects of ADP and ethanol
 203
 effect of NCO-700 on ischaemia induced
 degradation 3875
- Tropomyosin
 effect of NCO-700 on ischaemia induced
 degradation 3875
- Trypanosoma brucei brucei
 effect of 3-aminobenzamide on antigenic
 variation 4151
 ornithine decarboxylase inhibition and
 trypanosomiasis 1773
 peptidyl transferase inhibition by
 sparsomycin analogues 3055
- Trypanosoma cruzi
 effect of nitroheterocyclic drugs 1331,
 1457
- Tryptamine
 pigment formation from 2663
 in striatum, effects of benzene and pyridine
 3774
- Tryptophan
 binding in plasma, effect of aromatic
 amino acid metabolites 2431
 in chick embryo, effect of diazinon 1937
 effect of organic solvents on decarboxylation
 3774
- Tryptophan hydroxylase
 in brain stem, effect of clonidine 1549
- T-2 toxin
 inhibition of protein, DNA and isoprenoid
 synthesis in J774 macrophage cells 2809
- Tubercidin - nitrobenzylthioinosine 5'-
 monophosphate
Schistosoma japonicum therapy 3921
- Tubulin
 benzimidazole carbamates as inhibitors 1073
 benzimidazole carbamate effects on
 polymerization, correlation with
 activity against L1210 cells 3603
 effect of rifampicin on activity of 3415
- Tumour metastasis
 effect of dihydropyridine calcium
 antagonists 235
- Tumours
 PTT-19 efficacy 2347
 effect of retinoids 1599
- Tunicamycin
 effect on opiate receptor function 9
- Turpentine
 induced acute phase response in rats,
 effect of ethanol 525
- Tyramine
 in brain, effect of organic solvents 1381
- Tyrosinase
 1-naphthol metabolism 3167
- Tyrosine
 effect of organic solvents on decarboxylation
 1381
 release from skeletal muscle, effect of
 3-aminopicolinate 2032
- Tyrosine hydroxylase
 in adrenal gland
 effect of α -difluoromethylornithine on
 induction 1315
 effect of N^6 -methyladenosine 2621
 regulation in striatal slices, involvement
 of Ca^{2+} -calmodulin and cyclic AMP 2637
 in synaptosomes, activation by anaerobiosis
 2975
- U18666A
 inhibition of cholesterol esterification in
 glioblastoma cells 1305
 inhibition of 2,3-oxidosqualene-sterol
 cyclase 2765
- U46619
 mediated contractions of aorta, effect of
 prostanoid acid analogues 641
- Ulceration
 duodenum, effect of (S)- α -fluoromethyl-
 histidine 4327
- Uracil
 5-substituted analogues, inhibition of
 degradation by (E)-5-(2-bromovinyl)
 uracil in vivo 403
- Urate oxidase
 in liver, effect of valproic acid 1357
- Uremic plasma
 aromatic amino acid metabolites as
 protein binding inhibitors 2431
- Urethane
 effect on glucuronidation in isolated

- Urethane (contd.)
 hepatocytes 4179
- Uridine
 salvage in mice 101
- Uridine diphosphate glucuronosyltransferase
 in hepatocyte culture 463, 3029
 in intestine 421
 longitudinal distribution 3527
 in liver microsomes
 chromatofocusing 737
 heterogeneity 2235
 lung tumour-bearing rats 3190
 nitrobenzyl alcohol metabolism 4163
 trout, induction 3309
- Uridine phosphorylase
 inhibition of uridine salvage 101
 in intestinal mucosa, inhibition by
 5-substituted-2,2'-anhydro-uridines 1737
 role in 5-fluorouracil anabolism 3585
- Uridine phosphorylase inhibitors 1121
- Uroporphyrin
 accumulation in bone marrow of rats exposed
 to lead 4345
 interaction with chloroquine 141
- Uroporphyrinogen decarboxylase
 in liver, depression of 1817
- Uterus
 antiestrogenic effect of trifluoperazine
 2221
 diethylstilbestrol metabolism 710, 3107
 effect of tamoxifen 2787, 2795
- Vagina
 diethylstilbestrol metabolites in 710
- Valinomycin
 effect on leukotriene production in
 leukocytes 3095
- Valproate
 glucuronidase-resistant glucuronides,
 consequences of enterohepatic recirculation 407
 effect on indole metabolism in pineal
 gland 3198
 induction of metabolizing enzymes in rat
 133
 inhibition of chicken muscle aldose
 reductase 2961
 effect on peroxisomal β -oxidation 1357,
 2147
 effect on synaptosomal GABA levels in
 discrete brain areas 1747
- Vanadate
 in vitro toxicity 2465
 effect on ventricular muscle adenylate
 cyclase and sodium pump activities 1543
- Vanillylmandelic acid
 urinary excretion, effect of debrisoquin
 2911
- Variable surface glycoprotein gene 4151
- Vascular damage
 effect on platelet function 2097
- Vascular smooth muscle
 calcium accumulation by microsomes 2417
 endothelium-dependent relaxation 1867
 thromboxane A₂ blocking activity of
 prostanoid acid analogues 641
- Vas deferens
 enkephalin analogue binding and biological
 activity 25
- Vasoactive intestinal polypeptide
 action on bile secretion and bile acid
 output 3765
- Vasoactive peptides
 hydrolysis by vascular aminopeptidase M
 2309
- Vasodilation
 endothelium-dependent 1867
- Venom peptides
 inhibition of membrane peptidases 1347
- Verapamil
 effect on BAY-K-8644 induced arterial
 contraction 3131
 binding to human α 1-acid glycoprotein 4279
 effect on Ca^{2+} uptake by canine cardiac
 sarcoplasmic reticulum 195
 effect on Ca^{2+} uptake by myocardial cells
 1115
 effect on calmodulin activity 3391
 effect on 1,25-dihydroxyvitamin D₃-
 mediated calcium absorption in embryonic
 chick duodenum 1971
 inhibition of hepatic microsomal drug
 metabolism 2549
 specificity as a calcium channel-blocker
 1953
- Veratridine
 activation of Na^{+} uptake by synaptosomes,
 effect of liposomes 2865
 effect on aspartate release from striatal
 slices 1217
 induced Ca^{2+} uptake, effect of verapamil
 1953
- Vinblastine
 interaction with dipalmitoylphosphatidyl-
 choline liposomes 3081
 effect on phospholipid metabolism in liver
 membranes 3153
- Vinepidine
 antitumour activity and metabolism 1975
- Vinyl chloride
 induced acetoneamia 1981
- γ -Vinyl GABA
 effect on hole-board exploration and
 temperature 3789
- Vinylidene fluoride
 induced acetoneamia 1981
- Virus, HTLV-III/LAV
 inhibition by foscarnet 4075
- Vitamin E
 effect on free radical production induced
 by 3-methylindole 1117
- Vitamin K₃
 ethylene production from methional 977
- Vitamin K epoxide reductase
 substrate specificity 2617
- VP-16
 model membrane interaction 4025
- Warfarin
 binding to HSA
 effect of aromatic amino acid
 metabolites 2431
 model 1999
 effect of oleic acid 3299
 induction of liver cytochrome P-450 85
- W-7
 effect on tyrosine hydroxylase in
 striatal slices 2637
- WB4101
 binding in brain, effect of dihydro-
 pyridine drugs 175
 molecular size of binding sites in brain
 3617
- WR-1065
 cystine depletion in cystinotic cells

- WR-1065
 - cystine depletion in cystinotic cells 2179
- WR 6026.2HCl
 - metabolism in rat liver microsomes 181
- WY-14,643
 - induction of cytochrome P-452 3221
- WY-18,251 glucuronide
 - fate in the rat 451
- WY 26703
 - effect on monoamine synthesis in brain 1093
- WY-41,770
 - fate in the rat 451

- Xanthine oxidase
 - in neutrophils, effect of allopurinol 3673
- Xanthurenic acid
 - inhibition of warfarin binding in plasma 2431
- Xenobiotic imprinting
 - phenobarbital 1007
- X-ray
 - induced DNA single-strand breaks, effect of ara-C and hydroxyurea on repair 2557
- Xylitol
 - effect on ethanol oxidation in hepatocytes 655

- Yohimbine
 - effect on monoamine synthesis in brain 1093
 - effect on stimulation-induced noradrenaline release from brain cortex slices 4085
- Yttrium
 - effect on brain acetylcholinesterase 533

- Zetidoline
 - interaction with amfonelic acid 39
- Zinc
 - inhibition of phosphatidylinositol phosphodiesterase in skeletal muscle 2471
 - in kidney, effect of cisplatin 2575
 - effect on striatal D2 dopamine receptors 3405
- Zinterol
 - inhibition of iodocyanopindolol binding in kidney 3951
- ZK 93423
 - effect on *t*-butylbicyclophosphorothionate binding in brsin 3633
- Zucker fa/fa rats
 - effect of BRL 26830 2425
