

ANNOUNCEMENT

INTERNATIONAL CONFERENCE ON "THE OCCUPATIONAL AND ENVIRONMENTAL SIGNIFICANCE OF CHEMICAL CARCINOGENS"

Bologna, Italy, 8-10 October 1985

The Collegium Ramazzini will hold an International Conference on "The Occupational and Environmental Significance of Chemical Carcinogens", in Bologna, Italy, 8-10 October 1985. The Conference will address the myriad of problems that must be confronted in dealing with this vital subject. Experts from all over the world, working in diverse fields of research pertinent to the topic, will participate in the Conference. Sessions will cover chemical carcinogens and the problems they represent, including mechanisms of carcinogenesis, methods used to identify hazards to the environment, and the means with which society, science, and technology can undertake solutions. The topics covered should greatly enhance our understanding of current environmental and occupational problems and the availability of information necessary for dealing with them. This subject is crucial not only scientifically but also in terms of its impact on human safety and its social and regulatory ramifications.

This Conference is co-sponsored by the National Institute of Environmental Health Sciences (NIEHS), National Cancer Institute (NCI), National Institute of Health, Italy; National Institute of Occupational Safety and Prevention, Italy; National Workers Compensation Board, Italy; and the Italian League for the Fight Against Cancer, Italy.

Attendance is open to all interested individuals. For additional information contact:
