

ERRATUM

Biochemical Pharmacology **34**, 4109–4115 (1985)

R. Majumdar and A. S. Balasubramanian. The solubilization of platelet membrane-bound acetylcholinesterase and arylacylamidase by exogenous or endogenous phosphatidylinositol specific phospholipase C.

The publisher regrets that in Figure 5 of the above article the two ends of the gel have been reversed. The first peak of enzyme activity should correspond to the protein band on the gel.
