

## ANNOUNCEMENT

### CALCIUM ANTAGONISTS

Sheraton Centre Hotel, New York City  
10–13 February 1987

Sponsored by The New York Academy of Sciences and Fondazione Giovanni Lorenzini

This meeting will examine present research trends in the field of pharmacological control of calcium ion metabolism. The properties of calcium channels, the biochemical correlates of calcium entry and activation of cells in various tissues will be considered. Calcium antagonist pharmacology will receive special emphasis, both in view of new therapeutic applications and their use as pharmacological tools for the understanding of basic cellular mechanisms controlling calcium homeostasis.

*Chairs:* Paul M. Vanhoutte, M.D., Ph.D., The Mayo Clinic, Rochester, MN, and Rudolfo Paoletti, M.D., University of Milan, Italy.
