BIOCHEMICAL PHARMACOLOGY

SUBJECT INDEX FOR VOLUME 37, 1988

A431 cells	Acetylcholine(contd.)
$oldsymbol{eta}$ -adrenoceptor sequestration and	release from striatal slices, effect
desensitisation 3701	of permanently uncharged analogues
Accordian model	of dopamine 2077
salt-induced condensation of	synthesis inhibitors, protection
chromatin 1813	against soman toxicity 379
Acetaldehyde	Acetylcholinesterase
effect on catalysis by human erythro-	in brain, effect of ketamine on
cyte transketolase 2100	sarin inhibition 969
in liver, effect of malotilate 4341	in scorpion hemolymph 963
role in <u>in vivo</u> ethanol-induced	soman-inhibited, effect of quaternary
lipid peroxidation 3633	compounds on reactavatability 819
Acetaminophen	Acetylcholinesterase inhibitors
binding proteins in liver 4763	induced contraction of bronchial
dissociation of covalent binding from	smooth muscle 4211
oxidative effects 3383	<u>N</u> -Acetylcysteine
glucuronidation in fasted rats 1067	antidotal effectiveness in acetamino-
effect on glycosaminoglycan	phen toxicity 4319
synthesis 3683	induced glutathione biosynthesis,
hepatotoxicity	cystine utilization 881
age-related 4183	N-Acetyldopamine
antidotal effectiveness of	sulphate conjugation in human fetal
N-acetylcysteine 4319	liver cells 4629
inhibition by chlorpromazine 2467	Acetylsalicylic acid
effect of piperonyl butoxide 2097	association with leucocytes 1245
inhibition of Ca2+-ATPase in liver	effect on 7-hydroxy-methotrexate
plasma membrane 2125	binding in human serum 607
metabolism by intestinal microflora	Acetylsecohemicholinium
1445	protection against soman toxicity
3-monoalkyl- and 3,5-dialkyl-	379
substituted derivatives, lipid	N-Acetyltransferase
peroxidation and toxicity 3473	human blood, inter-individual
sulphation and glucuronidation in	variation 3915
human liver 4405	in liver
Acetaminophen radicals	inactivation by N-hydroxy-2-
pulse radiolysis study 2731	acetamidofluorene 427
Acetone	inhibition by N -arylhydroxamic
effect on acetonitrile metabolism to	acids 1225
cyanide 1153	in skin, arylamine metabolism 265
effect on ethanol-inducible hepatic	∝1-Acid glycoprotein
monooxygenase 421	binding of verapamil enantiomers
effect on hepatic accumulation of	4623
phenols 4157	Acid phosphatase
Acetonemia	in pancreatic islets, effect of
drug-induced 229	cyclosporin A 3609
Acetonitrile	Acivicin
microsomal metabolism to cyanide 1153	enzymic targets in bone marrow 875
<u>N</u> -Acetyl-p-benzoquinone imine	effect on methylmercury uptake by
binding in liver 4763	kidney 291
Acetylcholine	Aclacinomycin A
induced changes in action potential,	effect on amino acid uptake by
effect of <u>N</u> -ethylmaleimide 4577	Friend cells 1377
effect on N-methylscopolamine	4'(9-Acridinylamino)-methanesulfon-m-
binding by antrum muscle 1363	anisidide

 ${\tt Adenosine-3',5'-monophosphate}$ 4'-(9-Acridinylamino)-methanesulfon-manisidide in antrum muscle cells, effect of stimulated DNA cleavage in 9-hydroxymuscarinic agents 1363 ellipticine resistant cells 2145 Acrolein alkylation of protein SH-groups 1933 715 menadione-induced alterations 3423 in chicken embryo muscle, effect of parathion or methylparathion 3251 Actinomycin D accumulation and toxicity in DC-3F cells, effect of verapamil 613 chiral discrimination between lefthanded and right-handed DNA supercoils 1869 cytotoxicity after electropermeabilization 4727 Action potential effect of N-ethylmaleimide on cholinergically induced shortening 4577 Acyl-CoA synthetase role in formation of fenoprofen CoA thioesters 3539 effect on adriamycin mitochondrial toxicity 4617 Adenocarcinoma 755 effect of bromovinyldeoxyuridine on antitumour activity of 5-fluorouracil 1609 Adenocarcinoma LoVo 849 doxorubicin resistance 4423 Adenocarcinoma WiDR effect of DUP 785 3256 effect of streptozotocin 3441 Adenosine adenylate cyclase responsiveness in SHR 3017 dimethylsulphate interaction 1851 mast cell responsiveness, effect of pertussis toxin 4019 metabolism in human blood 621 and metabolites, effect on lipolysis stimulation of cyclic AMP accumulation in brain, effect of rolipram 715 stimulated hepatic glycogenolysis and vasoconstriction, effect of phenylarsine oxide 1167 Adenosine deaminase effect on lipolysis 3215 role in 3-deazapurine induced alteration of nucleotide pools 1233 Adenosine diphosphate induced changes in platelets, effect of PCR 4099 2559 of PCR 4099 Adenosine diphosphate reductase inhibition by \underline{N} -hydroxy- \underline{N}' -amino-guanidine derivatives 529 Adenosine diphosphate ribosylation by pertussis toxin, G proteins Adenosine diphosphoribosyltransferase inhibitors protection against \underline{S} -phase acting drugs 2155 Adenosine kinase 4(5H)-oxo-1- β -D-ribofuranosylpyrazolo (3,4,<u>d</u>)pyrimidine-3-thiocarbox-

amide interaction 4697

in brain, effect of rolipram on agonist-stimulated accumulation in heart, effect of denopamine and isoproterenol 679 in hepatocytes effect of A23187 2773 control by vasopressin 3447 isoproterenol stimulated accumulation in A-10 cells 2105 isoproterenol stimulated accumulation in kidney glomeruli and tubules 4513 effect on K+ channels in B lympho-3797 cytes in mast cells, effect of pertussis 4019 toxin modulated salivary amylase secretion, effect of protein kinase C activators 4433 PAF-induced decrease in heart, effect 2659 of PGE in pinealocytes, effect of H7 on adrenergic stimulation of 1015 in pituitary GH3 cells, effect of muscarinic stimulation 2675 in platelets effect of methylxanthines effect of SK&F 94120 2315 role in biotransformation in liver role in regulating R1 cyclic AMPbinding protein in neuroblastoma cells 2005 role in steroid metabolism in hepatocytes 2411 in skeletal muscle, effect of β-adrenoceptor stimulation 4653 Adenosine 3'-phosphate 5'-phosphosulfate in liver, effect of glutathione depletion 4307 Adenosine receptors effect of 7-deaza-9-phenyladenines 3749 differentiation by 5'-deoxy-5'methylthioadenosine 2085 non-xanthine heterocycles as antagonists 655 8-substituted xanthines as antagon-3653 ists Adenosine-thymidine dinucleotides inhibition of thymidylate kinase and ribonucleotide reductase 673 Adenosine triphosphatase in liver mitochondria, effect of piperine 753 Ca²⁺-Adenosine triphosphatase in heart, effect of calcium channel blockers on thyroid hormone and milrinone stimulation in liver, effect of carbon tetrachloride 4584 in skeletal muscle effect of cyclopiazonic acid 978 effect of diflunisal 4035 Ca²⁺,Mg²⁺-Adenosine triphosphatase in erythrocytes calcium antagonist inhibition 917 effect of ouabain 2293

 Ca^{2+} , Mg^{2+} -Adenosine triphosphatase Adipose tissue (contd.) effect of carbenoxolone on glucose in liver, effect of acetaminophen metabolism 1299 2125 effect of TCDD on lipoprotein lipase H+,K+-Adenosine triphosphatase 2247 in gastric mucosa Adrenal gland omeprazole binding 2543 S-adenosylmethionine decarboxylase omeprazole inhibition 843 after piribedil or 2-deoxyglucose administration 3613 effect of SCH 28080 2231 mediated H+ accumulation in parietal adrenoceptor modulation of chromaffin cells, effects of omeprazole, cell secretion 725 SCH 28080 and doxepin 4487 effect of choline on catecholamine Mg²⁺-Adenosine triphosphatase secretion 2747 in liver mitochondria, effect of effect of cytochalasin B on styrene 4439 catecholamine secretion 3357 in smooth muscle, effect of felodipeffect of dopamine on tyrosine ine 1569 hydroxylase in medulla 1391 Na⁺,K⁺-Adenosine triphosphatase in brain, role of lipids in effect H₁-histaminergic activation of catecholamine release 221 of ethanol 601 effect of islet-activating protein in erythrocyte membranes on cultured chromaffin cells 2485 hypertensive rats effect of ouabain 1661 mitochondrial spironolactone metabolism 1591 2293 Adenosine triphosphate effect of morphine on adrenaline biosynthesis 749 dependent calcium uptake in retina, effect of cyclic analogues of taurine 1303 effect of opioid compounds on inositol phosphates in chromaffin cells 395 in L1210 cells, effect of 3-deazapurines 1233 phosphatidylinositol kinase release by chromaffin cells, effect modulation by cations 4149 of adrenergic agonists and antagonists 725 prostaglandins and catecholamine secretion 1725 stimulated hepatic glycogenolysis and spironolactone metabolism, species vasoconstriction, effect of differences 355 phenylarsine oxide 1167 effect of sulfonylureas on catecholsynthesis in mitochondria, inhibition amine secretion and calcium by suramin 2521 uptake in cultured chromaffin S-Adenosylmethionine decarboxylase 983 cells effect of thyrotropin-releasing in adrenal gland, effect of piribedil or 2-deoxyglucose 3613 hormone on tyrosine hydroxylation inhibition by methylglyoxal bis(cyclo-1637 hexylamidinohydrazone) Adrenaline effect on alcohol dehydrogenase in hepatocytes 2993 Adenylate cyclase β -adrenergic receptor — G_1 interactions 4289 biosynthesis in adrenal gland and brain, effect of morphine 74 effect on steroid metabolism in A-adrenergic receptor coupled in kidney 4513 β -adrenergic receptor sequestration hepatocytes 2411 and desensitization 3701 ≪-Adrenergic receptors altered responsiveness in SHR vascular smooth muscle 4055 in cerebellar membranes, effect of 5'-deoxy-5'-methylthioadenosine $imes_1$ -Adrenergic receptor in kidney, role in sodium and 2085 phosphoinositol transport 2121 in cultured myocytes, G protein in parotid cells, mediation of noradrenaline effects on calcium mediated inhibition 4549 in heart, halothane attenuation of 3790 muscarinic inhibition 1219 in hepatocytes, effect of A23187 2773 in hippocampus, effects of pindolol ∢-Adrenergic receptor agonists effect on chromaffin cell secretion and propranolol 3429 ≪-Adrenergic receptor antagonists in lung, modulation by ovalbumin effect on chromaffin cell secretion sensitization 2027 in pheochromocytoma cells, effect of α_2 -Adrenergic receptor — G_i interaction $281\bar{5}$ deazaadenines 3749 temperature effects in pituitary tumour cells, effect of β-Adrenergic receptor phorbol esters and thyroliberin 3133 A431 cells, sequestration and desensitization 3701 in atria, effect of alkylating in striatum, effect of morphine 1039 pindolol 3601 in brain Adipocytes fenoprofen incorporation into triacylglycerols 1919 co-regulation of calcium channels effect of trifluoperazine on 627

effect of desipramine 2035

metabolic effects of insulin 760

```
β-Adrenergic receptors
                                             Aging
                                               androgen insensitivity of hepatic
  in brain(contd.)
                                                   drug metabolizing enzymes 241
     in vivo selectivity of agonists
     and antagonists 1145
                                               cimetidine and aminopyrine interact-
  in heart
                                                   ion 2667
     co-regulation of calcium channels
                                             Ajmaline
     627
                                               effect on hepatic transport of
     effect of desipramine
                                                   cardiac glycosides 2949
                               2035
     genetic regulation 1281
                                             Alanine
  in kidney glomeruli and tubules 4513 in lung, effect of desipramine 2035 in lymphoma cells, interaction with
                                               incorporation into protein in Friend cells, effect of aclacinomycin A
                                                   1377
         4289
  in mammary cell line HBL-100 3035
                                               antioxidant action 569 cefazolin binding 2807
  in rat, guinea pig and human tissues, affinity of atenolol and metoprolol
                                               covalent binding of catechols 1707
     203
                                               deutero-isotopomer induced inhibition
                                                   of caffeine and phenobarbitone
  in skeletal muscle 4653
     mediation of effects of BRL28410
                                                   binding
                                                            1311
                                               hexachlorobiphenyl photobinding 1601
  in submaxillary gland, effect of desipramine 2035
                                                7-hydroxy-methotrexate binding 607
                                               penicillamine binding 737 thioureylene compound binding
  in trachea, effect of alkylating
                                                                                  3127
                                               verapamil enantiomer binding
                3601
     pindolol
β-Adrenergic receptor agonists
                                               warfarin binding site 3905
  effect on chromaffin cell secretion
                                             Alcohol abuse
                                                effect on lipid structural order in
                                                   erythrocyte membranes
β-Adrenergic receptor antagonists
                                                                            3823
  effect on chromaffin cell secretion
                                             Alcohol dehydrogenase
                                                in hepatocytes, effect of adrenaline
                                                   2993
  lysosomotropism of 435
                                               in liver, ethanol-induced lipid peroxidation 3633
  stereoselective delivery and actions
     115
Adrenergic regulation
                                             Alcohol dehydrogenase-negative deermice
  pineal function, role of protein
                                               role of microsomal ethanol-oxidizing
     kinase C 1015
                                                   system in ethanol metabolism
                                             <u>in vivo</u> 2706
Alcohol-preference rats
Adriamycin
  accumulation and toxicity in DC-3F
     cells, effect of verapamil 613
                                               hepatic carbohydrate metabolism
  effect on alanine incorporation into
                                                   2209
     protein in Friend cells
                                 1377
                                             Alcuronium
  cell cycle effects
                        2303
                                                inhibition of histamine N-methyl-
  dependent lipid peroxidation at low pO<sub>2</sub> 2893
                                                   transferase in kidney
                                             Aldehyde dehydrogenase
                                               catalysed oxidation of aldophosphamide
  DNA interaction 2133
  heart-specific activation 2633
                                                   2781
  induced lipid peroxidation 3071 inhibition of flavin metabolism in
                                               cytosolic, inhibition by 4-(diethyl-
                                                   amino)benzaldehyde 1639
                                             Aldehyde dehydrogenase inhibitors
     skeletal muscle 1741
                                                effect on ketone bodies in blood 229
  iron and copper complexes
                                             Aldehyde-hydrazine synergism
  mitochondrial toxicity, effect of
                                                                              4505
     AD20
            4617
                                             Aldophosphamide
  nucleosome interactions 1871
                                                oxidation catalysed by mouse
  protein kinase C inhibition 1541
                                                   aldehyde dehydrogenase 2781
  tissue indicators of oxidative
                                             Aldose reductase
     stress 2189
                                                in diabetic kidney, effect of
Adriamycin aglycone
                                                            3349
                                                   Statil
  effect on calcium release by heart
                                                in human placenta
                                                                     1051
     mitochondria 803
                                             Aldose reductase inhibitors
                                                binding site in placenta 1051
Affinity chromatography
  methotrexate-dihydrofolate reductase
                                             Aldrin epoxide
      interaction 541
                                                in liver microsomes
                                                   effect of chlordimeform, 4-chloro-
Aflatoxin B<sub>1</sub>
  activation by human liver microsomes
                                                   o-toluidine and o-toluidine 2529
                                                   effect of ketoconazole 3975 effect of propiconazole 4177
  modification of ribonucleoprotein
     complexes 1481
                                             Alkaline phosphatase
                                               in human liver, inhibition by bromo-levamisole, cimetidine and derivatives 4263
  hepatic uptake and biliary excretion
     of ouabain in rats
  hepatotoxicity 4183
                                             N-Alkyl colchiceineamides
  propranolol uptake by lung 4029
                                                inhibition of GTP or taxol-induced
                                                   assembly of tubulin 2487

      deermice 2706
                                              Angiotensin-converting enzyme
Amiodarone
                                                in human glomeruli
  effect on hepatic transport of
                                              Angiotensinogen
      cardiac glycosides
                                                 in plasma, inflammation effects 1099
Amitriptyline
                                              Aniline
  effect on 5-HT receptors in brain
                                                hydroxylation catalysed by heme-
      4451
                                                    nonopeptide 4574
  effect on tyrosine and p-hydroxy-
                                                effect on tolbutamide hydroxylation
     phenylglycol in brain 2069
                                                    by human liver microsomes 1137
Amitriptylinoxide
                                              Aniline hydroxylase
  effect on p-hydroxyphenylglycol in brain 2069
                                                in hepatocytes, effect of starvation 4157
Ammonia
                                                in kidney microsomes, effect of
  production by cultured hepatocytes, effect of carnitine on valproate-
                                                    cephaloridine 3781
                                                in liver microsomes
      induced changes
                         2255
                                                    effect of acetone
                                                                         421
Amodiaquine
                                                    effect of carbon disulfide 2363
  formation of protein-arylating
                                                    effect of chlordimeform, 2-chloro-
     intermediates 303
                                                    o-toluidine and o-toluidine 2529
Amodiaquine
                                                    choline-deficient female rats
  inhibition of histamine N-methyl-
                                                    1187
      transferase in kidney 385
                                                    effect of N-(3,5-dichlorophenyl)-
```

A: 1 :	•
Aniline hydroxylase	Aorta
in liver microsomes(contd.)	effect of amiloride on muscle
succinimide 768 hamster, effect of ethanol 1563	contraction 813
hamster, effect of ethanol 1563 effect of imidazoles 415	cyclic AMP phosphodiesterase
effect of monosodium glutamate	inhibition by milrinone 2041
1687	cyclic nucleotide phosphodiesterase isoforms 3671
effect of SU-10'603 1625	hydrolysis of angiotensin I by
Anion transport protein	peptidases in 1131
erythrocyte membrane, effect of	inhibition by lipoxygenase products
hydroxychloroaromatic chemicals	of TXA2-like responses 1275
1667	methylamine deamination 707
Anthracyclines	effect of pentosan polysulphate on
effect on amino acid incorporation	endothelial cell proliferation
into proteins 1377	4281
cyanomorphinyl, facile exchange of	spontaneously hypertensive rats
cyano group 357 DNA interaction 1763, 1819, 2133	adenylate cyclase in 3017
nucleosome interactions 1871	atrial natriuretic factor induced
effect on protein phosphorylation in	cyclic GMP accumulation 2109 Aorta endothelial cells
platelets 3497	effect of minoxidil on arachidonic
toxicity and metabolism in hepato-	acid metabolism 867
cytes 3877	Aphidicolin
Anthracycline resistant cells	effect on DNA repair and cisplatin
membrane alterations 4253	cytotoxicity 4597
effect of monesin and nigericin 3305	Apomorphine
Anthraquinones	competition for spiperone binding
inhibition of amine oxidase in serum	sites in pituitary tumours 2373
4780 interaction with hepatic microsomes	effect on protein kinase C activity 4009
3803	1-β-D-Arabinofuranosylcytosine
Anti-N-aminophenethyl-spiroperidol	effect of benzamides on toxicity
monoclonal antibodies 3204	2155
Antibodies	modulation of metabolism by hydroxy-
effect on pargyline binding to	urea in human leukemic cells 1745
monoamine oxidase 2823	Arachidonic acid
Antidepressant drugs effect on p-hydroxyphenylglycol and	cytochrome P-450 dependent metabolism
tyrosine in brain 2059, 2069	in kidney of SHR 521 FMLP-induced release in alveolar
effect on phospholipid metabolism	macrophages 547
in vivo 2035	induced ear edema, inhibition by
effect on pre- and postsynaptic	AC-5-1 2161
serotonergic transmission in	metabolism in endothelial cells
brain 4451	effect of minoxidil 867
Antihistamines	effect of molsidomine 3911
inhibition of uptake of noradrenaline and 5-HT into synaptosomes 976	
Anti-inflammatory drugs	effect of hydroxylated fatty acids 1275
association with leucocytes 1245	effect of methylxanthines 3229
effect on calcium movements 1327	effect of molsidomine 3911
chiral inversion of 2-arylpropionic	platelet activation
acids 105	effect of ω -3 fatty acids 481
free radical scavenging 4225	effects on protein kinase activity
methotrexate interaction 60/	3079
Antimicrotubule drugs	Archaebacteria
effect on hepatic secretion of proteins 2339	effect of DNA topoisomerase II
Antimycin A	inhibitors 1879
effect on spermidine and methyl-	Arginine-DNA hydration 1839
glyoxal-bis(guanylhydrazone)	Aroclor 1254
uptake by liver mitochondria 957	effect on carboxylesterase isoenzymes
Antioxidants	in liver microsomes 2708
albumin 569	Aromatase
effect on hepatocytes 2201	in placenta
<pre>~1-Antiproteinase effect of antibiotics on inactivation</pre>	civetone interaction 2291
by hypochlorous acid 775	inhibition by l-alkyl analogues of aminoglutethimide 2167
Antralin	Arsenic 2107
purification and characterization	role of thiols in methylation by
339	liver 3149
Antrum muscle cells	Arsenicals
muscarinic receptors in 1363	effect on agonist-induced hepatic
Aorta	vasoconstriction 1167

Artery	Atrial natriuretic peptides
a-adrenoceptors in 4055	degradation by rat kidney 3817
methylamine deamination 707	receptor binding 2757
stimulation of 86Rb effux by	Atropine
cromakalim 4105 Arthritis	effect on <u>N</u> -methylscopolamine binding in antrum muscle cells
PMN induced damage to articular	1363
cartilage 1181	effect on phosphoinositide turnover
Articular chondrocytes	in striatum 2437
effect of interleukin 1 on PGE ₂	Auranofin
synthesis 4171	induced translocation of protein
Artocarpus communis 5-lipoxygenase inhibitor from 2161	kinase C from cytosol to a particulate fraction 1415
Arylamines	effect on protein phosphorylation
<u>N</u> - and <u>O</u> -acetylations by skin 265	in human platelets 366
Arylazido-B-alanyl NADH	Auranofin analogues
interaction with liver dihydro-	induction of 32kD stress protein 4089
pteridine reductase 2869 Aryldiazonium derivatives	Autoxidation
binding to opiate receptor sites	dialuric acid 409
3843	Avarol + AZT
Aryl hydrocarbon hydroxylase	differential modulation of host cell
in intestine villus crypt cells 169	and HIV gene expression 3947
in kidney of hypertensive rats 521 in liver microsomes	Aza-arenes
effect of gossypol 4590	induction of hepatic cytochrome P-450 4565
effect of imidazole antimycotics	Azaheterocycles
3861	<u>N</u> -methylation 1673
monoclonal antibody inhibition 98	Azidoacridines
effect of polychlorinated dibenzo-	photocleavage and photofootprinting
<pre>p-dioxins and dibenzofurans 1535 in placenta, effect of imidazole</pre>	of DNA 1831 4-(2-(4-Azido-benzenesulfonylamino)-
antimycotics 3861	ethyl)phenoxyacetic acid
N-Arylhydroxamic acids	inhibition of TXA2/PGH2 receptor in
inhibition of hepatic N -acetyl-	human platelets 491
transferase 427, 1225	Azidobenzylcarazolol
2-Arylpropionic acids chiral inversion 105	lysosomal accumulation 435
Ascorbic acid	3'-Azido-3'-deoxythymidine + avarol differential modulation of host cell
induced iodocyanopindolol binding	and HIV gene expression 3947
in trachea 1421	3'-Azido-2',3'-dideoxythymidine
effect on PMN function 1089	anti-retrovirus activity 2847
Ascorbic acid-deficient guinea pigs	metabolism and effects in cells
effect of methamphetamine on monoaminergic systems in brain	from different species 897 3'-Azido-2',3'-dideoxythymidine-5'-
3477	triphosphate
Ascorbyl palmitate	5'-phosphonate derivatives, inhibit-
effect on PMN function 1089	ion of reverse transcriptase and
Aspartate compartmentation in brain 4445	anti-retrovirus properties 2395
Aspirin	Azidopine photoaffinity labelling of multi-
cytochrome P-452 induction 1193	drug resistance-associated
2,3-dihydroxybenzoic acid as a	glycoproteins 1417
metabolite in man 271	Aziridines
Asthma effect of onions 4479	glutathione conjugation in hepatocytes
ovalbumin sensitized lung adenylate	1351 (5-Aziridin-1-y1)-2,4-dinitrobenzamide
cyclase 2027	cytotoxic metabolite in Walker
Atenolol	tumour cells 4661, 4671
β-adrenoceptor affinity 203	Aziridinylquinones
stereoselective uptake and metabolism	DNA modifications by 1837
115 Atria	Azoles inhibition of cytochrome P-450 4643
persistent β-adrenoceptor blockade	imibition of cycochiome 1 430 4043
with alkylating pindolol 3601	
Atrial natriuretic factor	Bambuterol
induced cyclic GMP accumulation in A-10 cells 2105	hydrolysis in blood 3867
induced cyclic GMP accumulation in	Band 3 protein erythrocytes, effect of hydroxy-
SHR aorta 2109	chloroaromatic chemicals 1667
effect on renal handling of phosphate	Batrachotoxin
4027	induced hydrolysis of inositol

phospholipid in brain, effect of cocaine 773 Batrachotoxinin A 20-a-benoate binding in brain sodium channels, effect of yohimbine 641 BAY K8644 effect on hepatic glucose production and pancreatic hormone secretion 2933 BAYIN 1099 B	phospholipid in brain, effect of cocaine 773 Batrachotoxinin A 20-4-benoate binding in brain sodium channels, effect of yohimbine 641 BAY K8644 effect on hepatic glucose production and pancreatic hormone secretion 1847m 1999 inhibition of hepatic glycogenolysis 905 BAY0 1249 inhibition of hepatic glycogenolysis 905 Benfluorex effect on carbohydrate and lipid metabolism in rats 695 Benzalactidine landing 184 168 Benzalactidine landing 185 Benzamidines effect on carbohydrate and lipid metabolism in rats 695 Benzaladises effect on carbohydrate and lipid metabolism in rats 695 Benzaladises effect on carbohydrate and lipid metabolism in rats 695 Benzamidines Javenton 4747 Benzamidine Javenton 4747 Benzamidine Javenton 4747 Benzamidine Javenton 4748 Benzamil inhibition of mitochondrial Na*-Ca* exchanger 4399 effect of succession exceptors in hutling in brain, stereospecificity binding in brain, stereospecificity and hibition of purine catabolism in hepatocytes 3561 Benzenderivatives glycothrome protein in brain, amentoflavon affinity for in kidney, lipid interactions 1009 lipophilicity and affinity of protable provided approach 3549 peripheral type, endogenous protein modulator of ligand binding 339 peripheral type, endogenous protein modulator of ligand binding 339 peripheral type, endogenous protein modulator of ligand binding 339 peripheral type, endogenous protein modulator of ligand binding 339 peripheral type, endogenous protein modulator of ligand binding 339 peripheral type, endogenous protein modulator of ligand binding 339 peripheral type, endogenous protein modulator of ligand binding 339 peripheral type, endogenous protein modulator of ligand binding 339 peripheral type, endogenous protein modulator of ligand binding 339 peripheral type, endogenous protein modulator of ligand binding 339 peripheral type, endogenous protein modulator of ligand binding 339 peripheral type, endogenous protein modulator of ligand binding 339 peripheral type, endogenous protein modulator of ligand binding 339 peripheral type,	Pot	D ()

	taurine 2651	inhibition of adenylate cyclase in
Сa	lcium pump	heart, effect of halothane 1219
-	effect of ouabain 2293	Carbenoxolone
٠,	ldesmon kinase	
Ja	affirm of fall-limina 1560	effect on glucose metabolism in
_	effect of felodipine 1569	adipose tissue 1299
	lmidazolium	Carbohydrate
	effect on phosphatidylinositol	metabolism in rats bred for alcohol
	kinase 4149	preference 2209
Са	lmodulin	<pre>\$-Carboline-3-carboxylate</pre>
	effect of CV-159 on function of 3377	<u>in vivo</u> effects in cerebellum 3765
	dependent enzymes in smooth muscle,	β-Carbolines
	effect of felodipine 1569	
		lipophilicity and receptor
	felodipine binding 3723	affinity 3953
	GMCHA interaction 2537	Carbon disulfide
	phenoxybenzamine binding 2739	cytochrome P-448 impairment 2363
	role in DNA repair 3441	Carbon tetrachloride

Carbon tetrachloride	Catecholamines
glutathione adducts of metabolites	release from chromaffin cells(contd.)
in liver 327	effect of sulfonylureas 983
	Catechol O-methyltransferase
calcium transport 4584	in hamster stomach, intestine and
cytoprotective effect of indole-3-	liver, effect of butylated
carbinol 333	hydroxyanisole 3011
suicidal cytochrome P-450 inactivation	
1981	covalent binding to proteins through
8-Carboxylase	sulfhydryl group 1707
in liver microsomes, effect of hetero-	
cyclic thiol compounds in	4157
vitamin K-deficient rats 2091	potency, selectivity and cell cycle
Carboxylesterases	dependence in human tumour cells
in blood cells, T-2 toxin metabolism	1711
3193	Cathepsin B
in bronchi, effect of soman 4211	in pancreatic islets, effect of
in liver microsomes, induction of	cyclosporin A 3609
isoenzymes 2708	Cations
Carboxypeptidase	modulation of phosphatidylinositol
in kidney, angiotensin II formation	kinase 4149
4327	CC-1065
Carcinogens	reaction with DNA 1795
activation by human cytochrome P-450	Cefazolin
459	serum protein binding 2807
Cardiac glycosides	Cefoperazine
effect of basic drugs on hepatic	effect on cefazolin binding to HSA
transport 2949	2807
membrane interactions 2293	Cell cycle
	effects of DNA crosslinking agents
Cardiolipin	2303
adriamycin binding 3663	
Carfentanil	Cephaloridine
binding in brain, PET 51	effect on renal microsomal cytochrome
Carnitine	P-450 and drug metabolizing
in heart, effect of 3-(2,2,2-trimethy)	l- enzymes 3781
hydrazinium)propionate 195	effect on renal microsomal proteins
effect on valproate-induced hyper-	4135
ammonemia and hypoketonemia in	Cephalosporins
cultured hepatocytes 2255	binding proteins in intestinal brush
Carnitine acetyltransferase	border membranes 2427
in liver, effect of hypolipidemic	structure-activity relationships 125
agents 1193	Cerebellum
Carnitine palmitoyltransferase	<u>in vivo</u> effects of benzodiazepine
in liver	ligands 3765
effect of calcium antagonists	CGP 12177
1463	binding in rat, guinea pig and human
effect of hypolipidemic agents	tissues, effect of atenolol and
1193	metoprolol 203
Carprofen	CGP 20712A
chiral inversion 105	inhibition of pindolol binding in
Cartazolate	brain 1145
adenosine receptor antagonist 655	CGS 8316
	<u>in vivo</u> effects in cerebellum 3765
Cartilage	CGS 9896
effect of acetaminophen on glycos-	
aminoglycan synthesis 3683	
Casein kinases	Chang liver cells
flavonoids as inhibitors 2987	hexachlorobiphenyl photobinding 1601
Catalase	Chemiluminescence
in hepatocytes from postnatal and	PMNs, effect of antioxidants 1089
adult mice 4183	Chemokinesis
in lung, effect of bleomycin 1111	PMNs, effect of indomethacin 1693
Catechin	Chemotaxis
interaction with 1,1-diphenyl-2-	effect of felodipine 503
picrylhydrazyl free radical 989	effect of uteroglobulin 389
redox behaviour 2607	Chemotherapy 149
Catecholamines	drug design 4505
covalent binding to proteins 1707	Chick embryo
release from chromaffin cells	effect of estrogens on cytochrome
adrenoceptor modulation 725	P-450 induction in liver 1003
effect of cytochalasin 3357	glucocorticoid receptors and collagen
H ₁ -histaminergic activation 221	synthesis 1451
effect of islet-activating protein	
2485	synthase response to malathion

Chick embryo(contd.)	Chloroquine
4783	effect on erythrocyte and parasite
effect of parathion and methylpara- thion on muscle protein 3251	membranes 2013 inhibition of histamine N-methyl-
xenobiotic inhibition of uroporphyrin-	
ogen decarboxylase in liver 1123	effect on phospholipid metabolism of
Chinese hamster lung cells	Plasmodium-infected erythrocytes
cytotoxicity after electropermeabil-	3139
ization 4727	uptake by malarial parasites 3623
9-hydroxyellipticine resistant	Chloroquinoxaline sulfonamide
DNA topoisomerase II in 2145	effect on Bl6 melanoma cells 4557
effect of verapamil 613 Chinese hamster ovary cells	Chlorotetrolic acid esters 1823
effect of ADP-ribosyltransferase	4-Chloro-o-toluidine effect on xenobiotic transformation
inhibitors on cytotoxicity of	in the rat 2529
S-phase acting drugs 2155	(+)-Chlorpheniramine
toxicity of nitroimidazoles and	effect on noradrenaline and 5-HT
nitrosoimidazoles 2603	uptake by synaptosomes 976
utilization of cystine for glutathione	
biosynthesis 881	effect on acetaminophen hepato-
Chinese hamster V79 cells DNA damage induced by RSU-1060 and	toxicity 2467
RSU-1131 3837	effect on hepatic transport of cardiac glycosides 2949
Chiral amplification 1	effect on phosphatidylinositol kinase
Chiral fields 1	4149
Chiral inversion of profens 105	effect on plasma membrane potential
Chiral synthesis 1	3785
Chirality of cytochrome P-450 103	effect on taurocholate transport in
Chirality of drugs and pesticides 9	hepatocytes 4129
Chlorambucil	Cholate
DNA sequence selective alkylation of guanine-N7 positions 1799	hepatic transport 209 Cholecystokinin
Chloramphenicol	effect on phospholipid metabolism in
<u>in vivo</u> effect on cytochrome P-450-	pancreas 1897
dependent monooxygenases in liver	Choleresis
3046	methimazole induced 583
effect on morphine UDP-glucuronyl-	Cholestasis
transferase in human liver 2839	diethyl maleate induced 1287
effect on pargyline binding to monoamine oxidase 2823	Cholesterol biosynthesis in 3T3 fibroblasts,
Chlorcyclizine	inhibition by \underline{N} -((1,5,9)-trimethy)
effect on noradrenaline and 5-HT	$\frac{1}{4}$ decyl)- 4α ,10-dimethyl-8-aza-trans
uptake by synaptosomes 976	decal-3 β -ol 1955
Chlordimeform	stress and morphine-induced elevat-
effect on xenobiotic transformation	ions in mouse plasma and tissue,
in rat 2529 Chlorhexidine	effect of naltrexone 3777
inhibition of histamine N -methyl-	Cholesterol epoxide hydrolase increase in clofibrate-fed animals
transferase in kidney 385	3169
Chlorimipramine	Cholesterol side chain cleavage enzyme
effect on 5-HT receptors in brain	civetone interaction 2291
4451	inhibition by l-alkyl analogues of
4-Chlorobiphenyl	aminoglutethimide 2167
mitochondrial toxicity 2915 4'-Chlorodiazepam	Cholesteryl esters
binding in kidney, effect of antralin	synthesis in liver, effect of LY 117018 319
339	Choline
\underline{N} -(2-Chloroethyl)- \underline{N} '-(3,17 β -dihydroxy-	as a cholinergic agonist 2747
estra-1,3,5($\overline{10}$)-triene- $\overline{174(\beta)}$ -yl	deficient female rats, hepatic
methyl- <u>N</u> -nitrosourea	cytochrome P-450 in 1187
binding to estrogen receptor in	high-affinity uptake in synaptosomes
uterus 2625 1-(2-Chloroethy1)-3-(2-hydroxyethy1)-	effect of phospholipase A ₂ 4367
1-nitrosourea	Choline acetyltransferase inhibitors protection against soman toxicity
effect on <u>Plasmodium</u> <u>falciparum</u> 855	379
treated erythrocytes, as malarial	Choline phospholipids
parasite hosts 861	muscarinic hydrolysis in heart 4689
\underline{N} -(2-Chloroethyl)- \underline{N} '-2,3-di(p-hydroxy-	Cholinergic receptors
phenyl)-pentanyl- <u>N</u> -nitrosourea	choline as an agonist 2747
binding to estrogen receptor in uterus 2625	Cholinergic system stomach 1363
Chloroethylnitrosoureas	Cholinesterase
carbamoylation by 3987	bambuterol interactions 3867

Chondrocytes	Cisplatin
modulation of collagen metabolism by	cell cycle effects 2303
glucocorticoids 1451	effect on DNA in ovarian cancer
effect of peptide glycosaminoglycans	cells 1835, 4597
1939	inhibition of erythrocyte glutathione
Chromaffin cells	peroxidase 981
adrenoceptor modulation of secretion	interaction with L1210 cells 3467
/25	resistant ovarian carcinoma cells,
cultured, effect of opioid compounds on inositol phosphates in 395	sensitivity to methotrexate and 5-fluorouracil 443
effect of cytochalasin B on	Citrulline
catecholamine secretion 3357	L-hydrazinosuccinate-induced
H ₁ -histaminergic activation of	accumulation in mice 3435
catecholamine release 221	Civetone
effect of islet-activating protein	interaction with liver microsomal
2485	cytochrome P-450 and steroidogenic
1-methyl-4-phenylpyridinium	enzymes 2291
transport 4381	Clara cells
phosphatidylinositol kinase modulat-	paraquat and oligoamine accumulation 1909
ion by cations 4149 prostaglandins and catecholamine	Cl- channel
secretion 1725	GABA receptor-gated 3369
effect of sulfonylureas on catechol-	Clenbuterol
amine secretion and calcium uptake	inhibition of pindolol binding in
983	brain 1145
Chromanol ethanol stearate	Clobuzarit
effect on PMN function 1089	cytochrome P-452 induction 1193
Chromatin	Clofazimine
decondensation process 1815	phagocyte-derived oxidants 4635
interphase, nature of folding 1845	Clofibrate
salt-induced condensation 1813	effect on cefazolin binding to HSA
Chromomycin A3	2807
oligonucleotide interactions 1783 Chronic granulocytic leukemia	effect on cholesterol epoxide hydrolase 3169
prevention of relapse 3207	induction of cytochrome P-452 and
Chrysene	fatty acid β-oxidation 1193,1203
metabolism by liver microsomes,	Clonazepam
stereoselectivity of cytochrome P-450	inhibition of mitochondrial Na ⁺ -Ca ⁺
isoenzymes and epoxide hydrolase	exchanger 4399
61	Clonidine
Cianidanols	effect on chromaffin cell secretion
as inhibitors of rat liver monooxy-	725
genase activities 1971	<u>Clostridium pasteurianum</u> role of hydrogenase l in metronidaz-
Cigarette smoke components interaction with biogenic amines	ole reduction 1525
3729	Clotrimazole
Cimetidine	effect on human monooxygenases 3861
effect on aminopyrine metabolism in	effect on steroid and xenobiotic
rat during aging 2667	hydrolases in liver microsomes
effect on cytochrome P-450 drug	415
oxidations in liver 3049	Clotting factor synthesis
inhibition of human alkaline	vitamin K and warfarin 19
phosphatase and diamine oxidase	Clozapine
4263 effect on theophylline metabolism by	effect on neurotensin in brain nuclei 1547
liver microsomes 1651	Clupein-DNA
effect on tolbutamide hydroxylation	hydration 1839
by human liver microsomes 1137	Cocaine
Cinnarizine	N-hydroxy-norcocaine in brain and
antiperoxidative activity 4197	liver 1169
Cinoxacin	inhibition of inositol phospholipid
inhibition of GABA binding in brain,	hydrolysis induced by batracho-
effect of fenbufen 4408	toxin in brain 773
Ciprofibrate	Cochlear
binding in liver 793	ethacrynic acid toxicity 3743 Coenzyme A thioesters 3539
Ciprofloxacin effect on DNA-gyrase 1855	Colchiceineamides
inhibition of GABA binding in brain,	inhibition of GTP or taxol-induced
effect of fenbufen 4408	assembly of tubulin 2487
Circadian rhythm	Colchicine
dihydropyrimidine dehydrogenase in	effect on azidopine photoaffinity
rat liver 4759	labelling of MDRGs 1417
Cisplatin	effect on catecholamine secretion

Colchicine(contd.)	CV-3988
from chromaffin cells 3357	effect on PAF-stimulated prosta-
effect on secretion of proteins by	glandin release from kidney 2927
liver of immature and adult rats	CY 216 and 222
2339	effect on elastase and «1-proteinase
Colchicine analogue	inhibitor in serum 4257
tubulin interaction 2445	Cyanamide
Collagen	effect on ethanol-induced lipid
induced platelet aggregation, effect	peroxidation 3633
of TXA ₂ /PGH ₂ receptor antagonists	effect on ketone bodies in blood 229
3923	Cyanidin
metabolism in chick embryo cells,	redox behaviour 2607
glucocorticoid modulation 1451	Cyanidol
metabolism in fibroblasts, effect of	scavenging of superoxide anions 837
corticosteroids 2723	∢-Cyano-4-hydroxycinnamate
effect of SK&F 94120 on platelet	inhibition of pyruvate oxidation
responses to 2315	in pancreatic islets 2019
synthesis in chondrocytes, effect of	Cyanomethylamines
peptidic-glycosaminoglycans 1939	formation from amines and cigarette
Colon	smoke constituents 3729
interindividual variation in phase II	Cyanomorpholinyl anthracyclines
detoxification enzymes 4241	facile exchange of cyano group 357
Colon carcinoma cells	Cyclazocine
antagonism of feedback inhibition of	effect on phencyclidine binding in
thymidine kinase 1293	brain 511
5,8-dideazaisofolic acid uptake and	Cyclic nucleotide phosphodiesterase
metabolism 997	comparison of isoforms from rat
doxorubicin resistance 4423	heart and bovine aorta 3671
reduced cytotoxicity of tetracyclines	effect of CV-159
3038	in heart
sodium cyanate uptake 2259	inhibition by calmodulin antagon-
vincristine pharmacokinetics and	ists 1717
arrest of mitosis 3995	effect of sulmazole 213
Colony stimulating factors	in hepatocytes, effect of A23187
role in fighting infection 3057	2773
Compound 48/80	high affinity, tissue distribution
effect on ornithine decarboxylase in	and selective inhibition of
neonatal rat brain 551	subtypes 3267
Copper	in human tissues, milrinone inhibit-
adriamycin complex 3663	ion of 2041
albumin binding 569	involvement in control of hepatic
effect on dialuric acid autoxidation	cyclic AMP by vasopressin 3447
409	in platelets
Cornigerine	inhibition by anagrelide 2866
tubulin interactions 2445	effect of SK&K 94120 2315
Coronary perfusion pressure	in smooth muscle, effect of
effect of PGE ₁ 2659	felodipine 1569
Corticosteroids	Cyclic voltammetry
effect on chemotaxis and collagen	flavonoids 2607
metabolism in skin fibroblasts	Cycloheximide
2723	abrogation of etoposide-mediated
Corticosterone in blood, effect of benfluorex 695	cytotoxicity 1117
Cotinine	Cyclooxygenases
formation from nicotine 4601	dual forms in mouse brain 921
Coumarin antibiotics	Cyclophosphamide aldophosphamide oxidation catalysed
antiviral activity 1885	by aldehyde dehydrogenase 2781
Coumarin 7-hydroxylase	cell cycle effects 2303
in liver microsomes	DNA adduct in rat 2979
induction by pyrazole 4141	enantiomers 145
man, rat and mouse 3889	Cyclopiazonic acid
Coumermycin A ₁	inhibition of Ca ²⁺ -ATPase in skeletal
antiviral activity 1885	muscle sarcoplasmic reticulum 978
C protein 1809	N-Cyclopropylmethyl-norazidomorphine
Cromakalim	effect on morphine-induced analgesia
stimulation of ⁸⁶ Rb-efflux 4105	in frog spinal cord 555
Curdlan arabinose sulfate	Cyclosporin A
effect on HIV 2887	effect on calcium in renal mesangial
Curdlan galactose sulfate	cells 4205
effect on HIV 2887	effect on insulin synthesis and
CV-159	release by pancreatic islets
inhibition of calmodulin function	
IMMIDITION OF CUIMOGGIIM FUNCCION	3609, 3941 effect on proliferation of renal

Cyclosporin A(contd.)	Cytochrome P-450
mesangial cells 1083 Cysteamine	<pre>in liver microsomes(contd.) o-toluidine 2529</pre>
induced glutathione biosynthesis,	choline-deficient female rats 1187
cystine utilization 881	civetone interaction 2291
Cysteinylcatechols protein-bound 1707	coumarin 7-hydroxylation in man, rat and mouse 3889
Cystine	diabetic rats 3505
utilization and glutathione	during regeneration 3515
biosynthesis 881 Cytidine diphosphate reductase	ethanol-inducible isoenzymes 1563 famotidine interaction 3049
inhibition of N -hydroxy- N' -amino-	flavonoid interaction 1971
guanidine derivatives 529	effect of gossypol 4590
Cytidine triphosphate synthase in bone marrow, effect of acivicin	growth hormone-dependent regulat- ion 1687
875	halothane metabolism 2357
Cytochalacin B	human, carcinogen activation 459
effect on catecholamine secretion by chromaffin cells 3357	human fetus 3053, 4735 human, inhibitors of function
Cytochrome <u>b</u> 5	3829
in kidney, effect of cephaloridine	human, midazolam interaction 4389
3781 in liver nuclear extracts 1331	human, theophylline metabolism 1651
role in N -hydroxyamphetamine reduction	
368	1193
Cytochrome <u>c</u> oxidase inactivation by metal ion-adriamycin	imidazole binding 415 induction by aza-arenes 4565
complexes 3663	induction by l-benzylimidazole
Cytochrome P-488	3297
in liver, impairment by carbon disulfide 2363	induction by picloram 1021 induction, rat and hamster 1509
Cytochrome P-448-H	interactions with steroid hormones
role in pyrolysate activation in	7l isoenzyme induction by 1,4-bis(2-
liver 2503 Cytochrome P-450	(3,5-dichloropyridyloxy))benzene,
in adrenal gland, effect of spirono-	pyrazole and phenobarbital 4141
lactone 355, 1591	effect of ketoconazole and fluconazole 401
in brain, inhibition by stiripentol 3619	effect of monosodium glutamate
chirality 103	1687
contribution to steroid hydroxylase	effect of nutritional imbalances
activities in liver microsomes	on isoenzymes 3245 effect of omeprazole 1407
dependent oxidase activity in	effect of propiconazole 4177
reconstituted systems 1383	Stanozolol interaction 766 stereoselectivity in metabolism
direct fluorometric assay 1731 heme-nonapeptide catalysed aniline	of polycyclic aromatic hydro-
hydroxylation 4574	carbons 61
in hepatocytes	SU-10'603 affinity 1625 suicidal inactivation by carbon
effect of estrogens on 3-methyl- cholanthrene induction of 1003	tetrachloride 1981
long-term culture 1371	effect of terpenoid compounds
pyrazole oxidation 1555	2223 tolbutamide hydroxylation 1137
in hepatoma cells 4111 isoenzymes involved in midazolam	in liver nuclear extracts 1331
metabolism 1947	olfactory, metryapome and «-naphtho-
<pre>involvement in epithelium-modulated response to methacholine in</pre>	flavone interaction 558 specificity, DNA recombinant and
trachea 573	monoclonal antibody methods 98
in kidney microsomes	Cytochrome P-450 reductase
arachidonic acid metabolism in SHR 521	in brain, relationship to NADPH- diaphorase 3063
effect of cephaloridine 3781	Cytochrome P-452
in liver microsomes	in liver microsomes, induction by hypolipidemic agents 1193, 1203
effect of acetone 421 antibodies to isoenzymes 3735,	Cytoskeletal proteins
4735	menadione induced alterations 3423
effect of azoles 4643	Cytotoxic/cytostatic cancer therapy 149
cannabidiol complex 4719 effect of carbon disulfide 2363	± T /
effect of chloramphenicol <u>in</u> <u>vivo</u>	DADLE
3046	DADLE binding in brain, effect of ethanol
effect of chlordimeform, 4-chloro-	binding in brain, criede or conduct

· · · · · · · · · · · · · · · · · · ·	
DADLE(contd.)	Delphinidin
2279	redox behaviour 2607
DAGO	Delta opiate receptors
binding in brain, effect of ethanol	rat brain, coupling to G proteins
2279	467
Dansylcadaverine	Demeclocycline
effect on chemotaxis 389	toxicity in LoVo and LoVo/DX cells
Dansyl groups	3038
thymidine modification 1849	4-Demethoxydaunorubicin
Dantrolene	
inhibition of insulin release and	DNA interaction 1819
	Denopamine
Ca efflux 2237	effect on phosphorylation of cardiac
Dark Agouti rat	proteins 679
dextromethorphan metabolism in 3155	2'-Deoxycoformycin
Daunomycin	effect on adenosine metabolism in
effect on alanine incorporation into	human blood 621
protein in Friend cells 1377	Deoxycorticosterone acetate-NaCl
cell cycle effects 2303	hypertensive rats
DNA interaction 2133	Na ⁺ ,K ⁺ -ATPase in erythrocyte
sequence specificity 1785	membranes 1661
DNA intercalation complex, low	
	Deoxycytidine
temperature photochemistry 1817	production in leukemic cells, effect
interaction with alternating poly-	of hydroxyurea 1745
deoxynucleotides 1867	9-Deoxy-doxorubicin
nucleosome interactions 1871	DNA interaction 1819
effect on RNA polymerase catalysed	2-Deoxyglucose
synthesis of oligonucleotides 1833	effect on <u>S</u> -adenosylmethionine
toxicity in relation to DT-diaphorase	decarboxylase in adrenal gland
activity 2451	3613
Daunomycin-low density lipoprotein	5'-Deoxy-5'-methylthioadenosine
uptake and toxicity in lung tumour	adenosine receptor classification
cells 3981	2085
Daunorubicin	
	1-Deoxynojirimycin
accumulation in ovarian cancer cells,	inhibition of hepatic glycogenolysis
monoclonal antibody effects 2389	905
accumulation in resistant Ehrlich	Deoxyribonuclease
ascites tumour cells, effect of	human cytomegalovirus, specific
monensin and nigericin 3305	immune response 1873
DNA interaction 1819	Deoxyribonucleic acid
effect on protein kinase C in	in adenocarcinoma cells, streptozo-
platelets 3497	tocin-induced lesions 3441
toxicity and metabolism in hepato-	anthracycline interaction 1819,2133
cytes 3877	bisaziridinylquinone induced
Dazmegrel	modifications 1927
effect on storoid and vonobiotic	modifications 1837
effect on steroid and xenobiotic	binding of oligo-(a)-deoxynucleotides
hydrolases in liver microsomes	binding of oligo-(<)-deoxynucleotides linked to intercalating agents
hydrolases in liver microsomes 415	binding of oligo-(<)-deoxynucleotides linked to intercalating agents 1797
hydrolases in liver microsomes 415 Dazoxiben	binding of oligo-(<)-deoxynucleotides linked to intercalating agents 1797 chiral discrimination between left-
hydrolases in liver microsomes 415 Dazoxiben effect on steroid and xenobiotic	binding of oligo-(~)-deoxynucleotides linked to intercalating agents 1797 chiral discrimination between left- handed and right-handed supercoils
hydrolases in liver microsomes 415 Dazoxiben	binding of oligo-(~)-deoxynucleotides linked to intercalating agents 1797 chiral discrimination between left- handed and right-handed supercoils by actinomycin D 1869
hydrolases in liver microsomes 415 Dazoxiben effect on steroid and xenobiotic	binding of oligo-(~)-deoxynucleotides linked to intercalating agents 1797 chiral discrimination between left- handed and right-handed supercoils by actinomycin D 1869
hydrolases in liver microsomes 415 Dazoxiben effect on steroid and xenobiotic hydrolases in liver microsomes 415 3-Deazaadenine	binding of oligo-(~)-deoxynucleotides linked to intercalating agents 1797 chiral discrimination between left- handed and right-handed supercoils
hydrolases in liver microsomes 415 Dazoxiben effect on steroid and xenobiotic hydrolases in liver microsomes 415 3-Deazaadenine	binding of oligo-(~)-deoxynucleotides linked to intercalating agents 1797 chiral discrimination between left- handed and right-handed supercoils by actinomycin D 1869 crosslinks and melphalan cytotoxicity 3189
hydrolases in liver microsomes 415 Dazoxiben effect on steroid and xenobiotic hydrolases in liver microsomes 415	binding of oligo-(a)-deoxynucleotides linked to intercalating agents 1797 chiral discrimination between left-handed and right-handed supercoils by actinomycin D 1869 crosslinks and melphalan cytotoxicity 3189 damage induced by nitroimidazole-
hydrolases in liver microsomes 415 Dazoxiben effect on steroid and xenobiotic hydrolases in liver microsomes 415 3-Deazaadenine alteration of nucleotide pools 1233 3-Deazaadenosine	binding of oligo-(a)-deoxynucleotides linked to intercalating agents 1797 chiral discrimination between left- handed and right-handed supercoils by actinomycin D 1869 crosslinks and melphalan cytotoxicity 3189 damage induced by nitroimidazole- aziridines 3837
hydrolases in liver microsomes 415 Dazoxiben effect on steroid and xenobiotic hydrolases in liver microsomes 415 3-Deazaadenine alteration of nucleotide pools 1233 3-Deazaadenosine alteration of nucleotide pools 1233	binding of oligo-(a)-deoxynucleotides linked to intercalating agents 1797 chiral discrimination between left-handed and right-handed supercoils by actinomycin D 1869 crosslinks and melphalan cytotoxicity 3189 damage induced by nitroimidazole-aziridines 3837 daunomycin interaction, sequence

Dexamethasone(contd.)	2 21 21 11 1 11
offore on inflammation considered	3,3'-Dichlorobenzidine
effect on inflammation associated	stimulation of lipid diene
with oxazolone-induced delayed	conjugation 781
hypersensitivity 3511	1,2-Dichloro-4-nitrobenzene
RU 38486 reversal of anti-inflammator	, are meanly amount by
effect of 556 Dexetimide	kidney 291
specificity of binding 37	N-(3,5-Dichlorophenyl)succinimide
Dexoxadrol	enzyme induction in rats 768
effect on phencyclidine binding in	1,4-bis(2-(3,5-Dichloropyridyloxy))-
brain 511	benzene
Dextromethorphan	induction of cytochrome P-450
polymorphic metabolism in rats 3155	isoenzymes in mouse liver 4141
	Dicoumarol
Dextropropoxyphene effect on theophylline metabolism	effect on quinone toxicity 2451
by human liver microsomes 1651	5,8-Dideazafolates
effect on tolbutamide hydroxylation	inhibition of 5-aminoimidazole-4-
by human liver microsomes 1137	carboxamide ribonucleotide
Diabetes	transformylase in chicken liver
use of post-binding agents in study-	449
ing insulin action 1891	uptake and metabolism in human colon carcinoma cells 997
Diabetes, alloxan induced	
effect on pyrolysate activation in	5,10-Dideazatetrahydrofolate
liver 2503	and 10-alkyl derivatives, transport- related resistance in L1210 cells
Diabetes, spontaneous	4775
cytochrome P-450 in liver 3505	2',3'-Dideoxyadenosine analogues
Diabetes, streptozotocin induced	apti-HIV activity 1317 35/3
flavin-containing monooxygenases in	anti-HIV activity 1317, 3543 2',3'-pideoxycytidine
liver 3455	metabolism and effects in cells
menadione toxicity in hepatocytes	
3793	from different species 897 2',3'-Dideoxynucleosides
effect of Statil on kidney 3349	anti-retrovirus activity 2847
Diadenosine 5',5'''-p1,p4-tetra-	interaction with viral DNA synthesis
phosphate 1787	1789
Dialuric acid	Diene conjugation
autioxidation 409	microsomal lipids, stimulation by
4',6-Diamidino-2-phenylindole	3,3'-dichlorobenzidine 781
interaction with nucleosomes 1865	Diet 701
Diamine oxidase	effect on cytochrome P-450 isoenzymes
in human placenta, inhibition by	in liver 3245
bromo-levamisole, cimetidine and	
	3.5-Diethoxycarbonyl-2.4-6-trimethyl-
derivatives 4263	3,5-Diethoxycarbonyl-2,4-6-trimethyl- pyridine
	pyridine
derivatives 4263	pyridine inhibition of uroporphyrinogen
derivatives 4263 (d,1- <u>trans</u> -1,2-Diaminocyclohexane)-	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo
derivatives 4263 (d,1- <u>trans</u> -1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-tri- methoxybenzoate HCl
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-tri- methoxybenzoate HCl
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-tri-
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,NDiethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,D-Diethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,NDiethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,NDiethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate induction of cytochrome P-452 and
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone cytotoxicity 2451	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-trimethoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone cytotoxicity 2451 Diazepam	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate induction of cytochrome P-452 and fatty acid β-oxidation 1193,1203 Diethylmaleate
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone cytotoxicity 2451 Diazepam in vivo effects in cerebellum 3765	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate induction of cytochrome P-452 and fatty acid β-oxidation 1193,1203 Diethylmaleate effect on aminopyrine N-demethylase
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone cytotoxicity 2451 Diazepam in vivo effects in cerebellum 3765 metabolism by hepatocytes, effect of	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate induction of cytochrome P-452 and fatty acid β-oxidation 1193,1203 Diethylmaleate effect on aminopyrine N-demethylase in liver microsomes 1581
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone cytotoxicity 2451 Diazepam in vivo effects in cerebellum 3765 metabolism by hepatocytes, effect of omeprazole 1407	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate induction of cytochrome P-452 and fatty acid β-oxidation 1193,1203 Diethylmaleate effect on aminopyrine N-demethylase in liver microsomes 1581 effect on bromosulfophthalein
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone cytotoxicity 2451 Diazepam in vivo effects in cerebellum 3765 metabolism by hepatocytes, effect of omeprazole 1407 in wheat and potato 3549	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-trimethoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate induction of cytochrome P-452 and fatty acid β-oxidation 1193,1203 Diethylmaleate effect on aminopyrine N-demethylase in liver microsomes 1581 effect on bromosulfophthalein transport and cholestasis 1287
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone cytotoxicity 2451 Diazepam in vivo effects in cerebellum 3765 metabolism by hepatocytes, effect of omeprazole 1407 in wheat and potato 3549 Diaziridinyl benzoquinones	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-trimethoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate induction of cytochrome P-452 and fatty acid β-oxidation 1193,1203 Diethylmaleate effect on aminopyrine N-demethylase in liver microsomes 1581 effect on bromosulfophthalein transport and cholestasis 1287 effect on glutathione synthesis in
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone cytotoxicity 2451 Diazepam in vivo effects in cerebellum 3765 metabolism by hepatocytes, effect of omeprazole 1407 in wheat and potato 3549 Diaziridinyl benzoquinones toxicity and free radical formation	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate induction of cytochrome P-452 and fatty acid β-oxidation 1193,1203 Diethylmaleate effect on aminopyrine N-demethylase in liver microsomes 1581 effect on bromosulfophthalein transport and cholestasis 1287 effect on glutathione synthesis in HepG2 cells 3365
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone cytotoxicity 2451 Diazepam in vivo effects in cerebellum 3765 metabolism by hepatocytes, effect of omeprazole 1407 in wheat and potato 3549 Diaziridinyl benzoquinones toxicity and free radical formation 2023	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate induction of cytochrome P-452 and fatty acid β-oxidation 1193,1203 Diethylmaleate effect on aminopyrine N-demethylase in liver microsomes 1581 effect on bromosulfophthalein transport and cholestasis 1287 effect on glutathione synthesis in HepG2 cells 3365 effect on 2-nitroimidazole reduction
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone cytotoxicity 2451 Diazepam in vivo effects in cerebellum 3765 metabolism by hepatocytes, effect of omeprazole 1407 in wheat and potato 3549 Diaziridinyl benzoquinones toxicity and free radical formation 2023 1,2-Dibromo-3-chloropropane	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate induction of cytochrome P-452 and fatty acid β-oxidation 1193,1203 Diethylmaleate effect on aminopyrine N-demethylase in liver microsomes 1581 effect on bromosulfophthalein transport and cholestasis 1287 effect on glutathione synthesis in HepG2 cells 3365 effect on 2-nitroimidazole reduction 473
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone cytotoxicity 2451 Diazepam in vivo effects in cerebellum 3765 metabolism by hepatocytes, effect of omeprazole 1407 in wheat and potato 3549 Diaziridinyl benzoquinones toxicity and free radical formation 2023 1,2-Dibromo-3-chloropropane metabolites in male rats 3485	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate induction of cytochrome P-452 and fatty acid β-oxidation 1193,1203 Diethylmaleate effect on aminopyrine N-demethylase in liver microsomes 1581 effect on bromosulfophthalein transport and cholestasis 1287 effect on glutathione synthesis in HepG2 cells 3365 effect on 2-nitroimidazole reduction 473 effect on sulfation in rats 4307
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone cytotoxicity 2451 Diazepam in vivo effects in cerebellum 3765 metabolism by hepatocytes, effect of omeprazole 1407 in wheat and potato 3549 Diaziridinyl benzoquinones toxicity and free radical formation 2023 1,2-Dibromo-3-chloropropane metabolites in male rats 3485 N6,Q2-Dibutyryl cyclic AMP	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,D-Diethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate induction of cytochrome P-452 and fatty acid β-oxidation 1193,1203 Diethylmaleate effect on aminopyrine N-demethylase in liver microsomes 1581 effect on bromosulfophthalein transport and cholestasis 1287 effect on glutathione synthesis in HepG2 cells 3365 effect on 2-nitroimidazole reduction 473 effect on sulfation in rats 4307 Diethylstilbestrol
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone cytotoxicity 2451 Diazepam in vivo effects in cerebellum 3765 metabolism by hepatocytes, effect of omeprazole 1407 in wheat and potato 3549 Diaziridinyl benzoquinones toxicity and free radical formation 2023 1,2-Dibromo-3-chloropropane metabolites in male rats 3485 N6,02-Dibutyryl cyclic AMP effect on gluconeogenesis and	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate induction of cytochrome P-452 and fatty acid β-oxidation 1193,1203 Diethylmaleate effect on aminopyrine N-demethylase in liver microsomes 1581 effect on bromosulfophthalein transport and cholestasis 1287 effect on glutathione synthesis in HepG2 cells 3365 effect on 2-nitroimidazole reduction 473 effect on sulfation in rats 4307 Diethylstilbestrol metabolism in hamster liver in vivo
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone cytotoxicity 2451 Diazepam in vivo effects in cerebellum 3765 metabolism by hepatocytes, effect of omeprazole 1407 in wheat and potato 3549 Diaziridinyl benzoquinones toxicity and free radical formation 2023 1,2-Dibromo-3-chloropropane metabolites in male rats 3485 N6,02-Dibutyryl cyclic AMP effect on gluconeogenesis and aminopyrine oxidation in	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-trimethoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate induction of cytochrome P-452 and fatty acid β-oxidation 1193,1203 Diethylmaleate effect on aminopyrine N-demethylase in liver microsomes 1581 effect on bromosulfophthalein transport and cholestasis 1287 effect on glutathione synthesis in HepG2 cells 3365 effect on 2-nitroimidazole reduction 473 effect on sulfation in rats 4307 Diethylstilbestrol metabolism in hamster liver in vivo 3565
derivatives 4263 (d,1-trans-1,2-Diaminocyclohexane)- malonatoplatinum(II) displacement of bidentate malonate ligand 3321 2,6-Diaminopurine 2',3'-dideoxyriboside anti-HIV activity 1317 3,4-Diaminopyridine effect on cytosolic free calcium 4191 Diaphorase in colonic mucosa, interindividual differences 4241 in liver nuclear extracts 1331 NADPH-dependent in rat brain 3063 in 10T1/2 cells, role in quinone cytotoxicity 2451 Diazepam in vivo effects in cerebellum 3765 metabolism by hepatocytes, effect of omeprazole 1407 in wheat and potato 3549 Diaziridinyl benzoquinones toxicity and free radical formation 2023 1,2-Dibromo-3-chloropropane metabolites in male rats 3485 N6,02-Dibutyryl cyclic AMP effect on gluconeogenesis and aminopyrine oxidation in	pyridine inhibition of uroporphyrinogen decarboxylase in chick embryo liver cells 1123 4-(Diethylamino)benzaldehyde inhibition of mouse cytosolic aldehyde dehydrogenase 1639 8,N,N-Diethylamino-octyl-3,4,5-tri- methoxybenzoate HCl effect on fatty acid metabolism in hepatocytes 1463 Diethyl ether effect on muscarinic receptor in brain stem 4041 Di-(2-ethylhexyl)phthalate induction of cytochrome P-452 and fatty acid β-oxidation 1193,1203 Diethylmaleate effect on aminopyrine N-demethylase in liver microsomes 1581 effect on bromosulfophthalein transport and cholestasis 1287 effect on glutathione synthesis in HepG2 cells 3365 effect on 2-nitroimidazole reduction 473 effect on sulfation in rats 4307 Diethylstilbestrol metabolism in hamster liver in vivo

Dipyridamole(contd.)	Drug-protein conjugates
A549 cells 2113 Disopyramide	benzylpenicillin 4121 DSTLE
effect on hepatic transport of cardiac glycosides 2949	binding in brain, effect of ethanol
Disulfiram	Duodenal mucosa
effect on aldehyde dehydrogenase in	cationic environment and secretin
human leucocytes and erythrocytes 3360	secretion 1027
effect on ethanol-induced lipid	DUP 785 growth inhibitory and antipyrimidine
peroxidation 3633	effects 3257
effect on ketone bodies in blood 229	•
5,5-Dithiobis(2-nitro-benzoic acids) protein kinase C inactivation 2704	toxicity in relation to DT-diaphorase activity 2451
Dithranol	Dynorphin
hydroxyl radical formation by 4277	effect on muscarinic receptor
Docosahexanoic acid	function in chromaffin cells 395
platelet protection 481 Dog	
glutathione <u>S</u> -transferases in liver	Ebselen
4713	biotransformation in perfused rat
Domperidone	liver 1103
binding in striatum 4335 Dopa	glutathione peroxidase activity of 2267
accumulation in adrenal, effect of	Ecdysone
thyrotropin-releasing hormone 1637	excretion and metabolism in mice
covalent binding to proteins 1707	1174
toxicity to human tumour cells 1711 Dopamine	<u>Echinoccus</u> <u>multilocularis</u> metacestodes interaction of isatin derivatives
in brain of scorbutic guinea pigs,	with UDP-glucose pyrophosphorylase
effect of methamphetamine 3477	759
interaction with cigarette smoke 3729	
metabolism in nigro-striatal neurons, effect of heterocyclic amines in	effect on steroid and xenobiotic hydrolases in liver microsomes
food 3289	415
release in striatum, role of protein	Ehrlich ascites tumour cells
kinase C 4001, 4009	effects of monensin and nigericin
effect on tyrosine hydroxylase in cultured adrenal medulla 1391	on daunomycin accumulation 3305 Eicosanoid
Dopamine-neurotensin interaction 1547	metabolism in heart, effect of PGE ₁
Dopamine receptor	2659
anti-spiroperidol antibodies 3204 homogeneity 4335	production in blood cells, effect of
interaction with permanently uncharged	fish oil and vitamin E 3415
dopamine analogues 2077	induced changes in fatty acid and
in pituitary tumours 2373	eicosanoid production in blood,
spiperone binding, PET 51 stereoselectivity 37	effect of vitamin E 3415
Doxepin	platelet protection 481 Elastase
effect on H ⁺ ,K ⁺ -ATPase mediated H ⁺	secretion by PMN, effect of
accumulation in parietal cells	antioxidants 1089
4487 Doxorubicin	in serum, effect of heparin fragments 4257
DNA damage in human childhood leukemia	
cells 1863	cytotoxicity of anticancer drugs
DNA damage and repair in P388 leukemia	
cells 1763 DNA interaction 1819	Electroweak interaction l
effects in doxorubicin-resistant	binding in brain 41
L1210 cells, effect of trifluoro-	Ellipticine derivatives
perazine 185	accumulation and toxicity in DC-3F
effect on protein kinase C in platelets 3497	cells, effect of verapamil 613 Endoplasmic reticulum
resistance in colon adenocarcinoma	liver, effect of hematoporphyrin
cells 4423	derivatives 1177
sensitive cells, cyanomorphinyl anthracycline activity against 357	β-Endorphin peripheral specific hinding in vivo
toxicity and metabolism in hepato-	peripheral specific binding in vivo 2273
cytes 3877	Endothelial cells
transport in P388 and P388/ADR cells,	effect of mitomycin on prostacyclin
effect of phorbol esters 2297 Drug metabolism	synthesis in 4753 vascular, effect of pentosan poly-
stereoselectivity 85, 93	sulphate on proliferation 4281

in hepatoma cells 4111	
in liver microsomes	Famotidine
effect of azamarenes 4565	aytachroma P-450 interaction 3040

Famotidine(contd.) effect on histamine N -methyltransferase in skin 2872	Fibroblast growth factor induced proliferation of vascular endothelial cells, effect of
Fast accelerated staging of therapy 149	pentosan polysulphate 4281 Fibroblasts, chick embryo
Fasting	modulation of collagen metabolism
acetaminophen hepatotoxicity 2467	by glucocorticosteroids 1451
hepatic accumulation of phenols	Fibroblasts, IMR-90 and AG 1518
4157	butylphenyl-dGTP inhibition of DNA
Fat cells	replication and repair 1033
effect of adenosine and its metabol- ites on lipolysis 3215	Fibroblasts, lung DC-3F
ites on lipolysis 3215 Fat-storing cells	cytotoxicity after electropermeabil- ization 4727
effect of <u>n</u> -butyrate on synthesis of	Fibroblasts, mouse embryo
sulfated glycosaminoglycans and	DT-diaphorase activity and cyto-
hyaluronate 3771	toxicity of quinones 2451
Fatty acids	Fibroblasts, skin
in blood	effect of corticosteroids on chemo-
effect of benfluorex 695	tactic response and collagen
vitamin E influences on effects of fish oil 3415	metabolism 2723
effect on cefazolin binding in serum	Fibroblasts, synovial effect of interleukin-1 4171
2807	Fibroblasts, 3T3
induced insulin release, effect of	cholesterol synthesis inhibition by
dantrolene 2237	\underline{N} -((1,5,9)-trimethyldecyl)-4 α ,10-
interaction with benzodiazepine	dimethyl-8-aza-trans-decal-3 p -ol
receptor in kidney 1009	1955
<pre>metabolism in heart, effect of 3-(2,2,2-trimethylhydrazinium)</pre>	effect of cycloheximide in etoposidecytotoxicity 1117
propionate 195	N^{10} -propargyl-5,8-dideazafolic acid
metabolism in hepatocytes, effect of	induced DNA damage 1875
calcium antagonists 1463	Fisetin
metabolism in liver	redox behaviour 2607
effect of antiestrogens 319	Flavin
effect of hypolipidemic agents	metabolism in skeletal muscle,
1193, 1203 effect on transport systems in	effect of adriamycin 1741
intestinal brush border membrane	Flavin adenine dinucleotide synthesis in skeletal muscle,
1399	effect of adriamycin 1741
unsaturated, platelet activation 3079	Flavin-containing monooxygenase
ω -3, platelet protection 481	in liver microsomes, streptozotocin-
Fatty acid ethyl esters	diabetic rats 3455
formation during chronic ethanol treatment in mice 3001	Flavonoid-glycosides effect on <u>in vitro</u> cultures of
Fatty liver	Plasmodium falciparum 4269
ethanol induced, effect of malotilate	Flavonoids
4341	as inhibitors of rat liver monooxy-
Felodipine	genase activities 1971
binding to calcium-binding proteins	1,1-diphenyl-2-picrylhydrazyl free
inhibition of calmodulin actions 1569	radical interaction 989 electrochemistry 2607
inhibition of leukocyte function 503	inhibition of tyrosine protein
Fenbufen	kinases and serine/threonine
effect on quinolone-induced inhibition	n protein kinases 2987
of GABA binding in brain 4408	scavenging of superoxide anions 837
Fenoprofen	Flow cytometry
chiral inversion 105 incorporation into hepatocyte and	carbamoylation by chloroethylnitroso- ureas 3987
adipocyte triacylglycerols 1919	Fluazifop-butylester
Fenoprofen coenzyme A thioester	stereoselectivity 9
enantiospecific formation <u>in</u> <u>vitro</u>	Fluconazole
3539	effect on hepatic monooxygenase
Fentanyl isothiocyanate effect on D-Ala ² ,D-Leu ⁵ -enkephalin	activity 401
binding in rat brain 467	Flufenamic acid effect on calcium movements in liver
Ferritin 700	mitochondria 1327
effect on lipid peroxidation 2893	Flunarizine
Fetus, human	antiperoxidative activity 4197
cytochrome P-450s in liver 3053,4735	Ca-displacement from monolayers 1597
sulphate conjugation in liver cells 4629	Flunitrazepam effect on t-butylbicyclopbosphoro-
FG 7142	effect on <u>t</u> -butylbicyclophosphoro- thionate binding in brain
<u>in vivo</u> effects in cerebellum 3765	2195

Fluorescence stopped-flow Fostriecin anthracycline-DNA interaction 1819 inhibition of type II topoisomerase 6-Fluorobenzo(a)pyrene 4063 radical cations in metabolism of Free radicals scavenging activity of ONO-3144 and MK-447 4225 2173, 2183 5-Fluoro-2'-deoxyuridine effect of benzamides on cytotoxicity Free radical scavengers effect on adriamycin mitochondrial 2155 toxicity 4617 3'-Fluoro-2',3'-dideoxythymidine anti-retrovirus activity Friend erythroleukemia cells 3'-Fluoro-2',3'-dideoxyuridine effect of aclacinomycin A on amino anti-retrovirus activity 2847 acid uptake 1377 2-18F and 6-18F-Fluorodopa metabolism <u>in vitro</u> and <u>in vivo</u> in male hooded rat 247 effect of ethylketocyclazocine and N-cyclopropylmethyl-norazidomorph-Fluoropyrimidines ine on morphine-induced analgesia time-modified infusion 4759 in spinal cord 555 5'-p-Fluorosulfonylbenzoyl-adenosine Fructose protein kinase C inactivation 2704 in diabetic kidney, effect of Statil 4-Fluorosulfonyl-1-hydroxy-2-naphthoic 3349 Fructose 2,6-bisphosphate acid in hepatocytes, effect of glipentide effect on muscarinic receptors in brain and heart 3787 3177 Furocoumarins 5-Fluorouracil photoreaction with DNA 1793, 1829 effect of bromovinyldeoxyuridine on antitumour activity 1609 effect on RNA synthesis 1827 resistance in ovarian carcinoma Furosemide age-related hepatotoxicity 4183 A2780 cells 443 Fustin Fluphenazine effect on protein kinase C activity redox behaviour 2607 4009 Fluphenazine sulfoxide D-Galactosamine-endotoxin biosynthesis in man induced hepatitis, role of leuko-Flurbiprofen chiral inversion 105 trienes 2569 Galangin Folate interaction with cisplatin in redox behaviour 2607 mechanism of resistance 443 Gallamine Folate analogues effect on phosphoinositide turnover ornithine-containing, inhibition of folylpolyglutamate synthetase in in striatum 2437 Galleria mellonella glutathione S-transferase inhibition human leukemia cells 3931 Folate-dependent enzymes inhibition by 7-OH-methotrexate by trinitrobenzene 3531 Gallopamil Folylpolyglutamate synthetase antiperoxidative effect 4197 in human leukemia cells, inhibition Gallstones stress, opioids and hypercholesterolemia 3777 by ornithine-containing folate 3931 analogues emia in intestinal epithelial cells 4239 Gangliosides in tumour cells 2879 pteroyl-S-alkylhomocysteine sulfoximes as inhibitors 1997 Gastric mucosa omeprazole binding to $\mathrm{H}^+,\mathrm{K}^+\text{-}\mathrm{ATPase}$ Fonfos stereoselectivity 9 2543 effect of prostaglandin on mucin sulfation 3311 Formaldehyde metabolism in rats in vivo, effect of glutathione depletion 1581 Gastric vesicles Formylglycinamidine ribonucleotide effect of SCH 28080 on ATPase 2231 G₂ block synthase DNA crosslinking agents 2303 in bone marrow, effect of acivicin 875 Genetics regulation of cardiac β -adrenergic N-Formyl-methionyl-leucyl-phenylalanine indomethacin modulation of receptors 1281 stereoselectivity in drug metabolism neutrophil chemokinesis 1693 induced arachidonic acid release from 85, 93, 97 alveolar macrophages 547 Gentamicin inhibition of phosphatidylcholine hydrolysis by lysosomal phosphoinduced exocytosis in PMNs, effect of felodipine 503 5-Formyltetrahydrofolate lipases 591 influx in L1210 cells 4775 inhibition of renal ornithine Forskolin decarboxylase 1679 effect on steroid metabolism in effect on pargyline binding to hepatocytes 2411 monoamine oxidase 2823 Germ-free mice Fostriecin

Germ-free mice paracetamol metabolism 1445	Glucose 6-phosphate dehydrogenase(contd.) effects 4605
Glibenclamide effect on catecholamine secretion	α-Glucosidase inhibitors effect on hepatic glycogenolysis 905
and calcium uptake by cultured chromaffin cells 983	Glucosphingolipids in cancer chemotherapy 2879
insulin secretory action 371	Glucuronidation
Glioma xenografts selective glutathione depletion	acetaminophen effect of fasting 1067
4313 Glipentide	human liver 4405 effect of glutathione depletion 4307
effect on glucose metabolism in	intestinal villus-crypt cells 177
hepatocytes 3177 Glomeruli	in liver, effect of fasting and hypoxia 1207
ramiprilat binding 4679 Glucagon	Glutamate compartmentation in brain 4445
effect on cytochrome P-450 in	oxidation in liver mitochondria,
cultured hepatocytes 1371 stimulation of cyclic AMP accumulation	effect of styrene 4439 nGlutaminase
in hepatocytes, effect of A23187	E.coli, effect of omeprazole and
2773 effect on UDP-glucuronyltransferases	metabolites 843 Glutamine
in liver 3526 Glucocorticoid	compartmentation in brain 4445 Glutamine-utilizing enzymes
effect on cytochrome P-450 in	bone marrow, effect of acivicin 875
cultured hepatocytes 1371 Glucocorticoid receptors	§-Glutamylcysteine synthetase in colonic mucosa, interindividual
collagen synthesis in chick embryo	variation 4241
fibroblasts and chondrocytes 1451 Glucokinase	in <u>Escherichia</u> and <u>Salmonella</u> mutants 577
in pancreatic B-cells 371 Gluconeogenesis	\(\begin{aligned}
in liver	variation 4241
cyclic AMP dependent regulation 849	Glutathione adducts of carbon tetrachloride
inhibition by metformin 4353 in rats bred for alcohol preference	metabolites in liver 327 effect on arsenic methylation by
2209	liver 3149
Glucoregulation thyrotropin-releasing hormone action	biliary efflux, effect of nitro- furazone 1629
4245 Glucose	conjugation of aziridines in
in blood, effect of benfluorex 695	hepatocytes 1351 deficient mutants of <u>Escherichia</u> and
induced insulin release, effect of cyclosporin A 3941	<u>Salmonella</u> 577 effects of depletion on aminopyrine
insulin-stimulated oxidation in	and formaldehyde metabolism 1581
adipocytes, effect of trifluoro- perazine 760	effect of depletion on hepatic bromosulfophthalein transport
metabolism in adipose tissue, effect of carbenoxolone 1299	1287 depletion in human glioma derived
metabolism in hepatocytes, effect of	xenografts 4313
glipentide 3177 production by hepatocytes, effect of	effect of depletion on sulfation in rats 4307
BAY K 8644 2933 recognition in pancreatic B-cells	dissociation of Cu ²⁺ -adriamycin complex 3663
371	in glucose 6-phosphate dehydrogenase
release from hepatocytes, effect of quinacrine on vasopressin-induced	deficient red cells, effect of primaquine 4605
changes 161 stimulated insulin secretion 2019	in hepatocytes diabetic rats, effect of menadione
tolerance in rats, effect of	3793
cyclosporin A 3609 transport in intestine, effect of	effect of naphthalene 2473 effect of nitrofurantoin 3109
fatty acids 1399	in hepatoma cells Hep G2 3365
utilization in diabetic kidney, effec of Statil 3349	t in intestinal villus crypt cells 177 in liver
Glucose/glucose oxidase NAD+ depletion and cytotoxicity 3967	acetaminophen-treated mice, effect of chlorpromazine 2467
Glucose 6-phosphatase	effect of nitrofurazone 1629
in liver microsomes, effect of prochlorperazine 1259	effect of piperonyl butoxide on acetaminophen-induced changes
Glucose 6-phosphate dehydrogenase deficient red cells, primaquine	2097 effect of WR2721 562, 1751
, L	- , - ·

Glutathione(contd.)	Glutathione <u>S</u> -transferase
metabolism in <u>Schistosoma</u> mansoni,	<pre>in liver microsomes(contd.)</pre>
effect of oltipraz 2864	effect of 1,2-epoxycycloalkanes
misonidazole conjugate 361	2717
oxidation in erythrocytes, effect	in lymphocytes, native and cultured
of primaquine metabolites 2683	4586
role in cochlear toxicity of	in stomach, effect of butylated
ethacrynic acid 3743	hydroxyanisole 3011
role in methylmercury transport in	Glutathione-trinitrobenzene
kidney 291	Meisenheimer complex 259
stereoselective conjugation 29	Glycerol
synthesis in CHO cells, cystine	in blood, effect of benfluorex 695
utilization in 881	Glycocholate
effect on tetrahydroaminoacridine	hepatic transport 209
toxicity in hepatocytes 2311	Glycogen
in tissues of adriamycin treated rats 2189	in liver of rats bred for alcohol
Glutathione disulphide	preference 2209 Glycogenolysis
effect of hypoxic perfusion on	effect of 1-deoxynojirimycin 905
hepatic concentration and biliary	effect of phenylarsine oxide 1167
release 967	Glycogen phosphorylase
Glutathione peroxidase	in hepatocytes
activity of ebselen 2267	effect of neomycin 1357
in colonic mucosa, interindividual	effect of quinacrine on vaso-
variation 4241	pressin induced changes 161
in erythrocytes, inhibition by	Glycoproteins
cisplatin 981	hepatic secretion by immature and
in heart, effect of adriamycin 2189	adult rats 2339
in hepatocytes, postnatal and adult	intestinal brush border membranes,
mice 4183	effect of tunicamycin 4081
in lung, effect of bleomycin 1111	multidrug resistance, azidopine
Glutathione reductase	photoaffinity labelling 1417
in hepatocytes, postnatal and adult	Glycosaminoglycans
mice 4183	synthesis in liver fat-storing cells,
in L1210 cells, effect of BCNU 3317	effect of <u>n</u> -butyrate 3771
in lung, effect of bleomycin 1111	synthesis in patellar cartilage,
Glutathione-deficient erythrocytes	inhibition by paracetamol 3683
as hosts of malarial parasites 861	Goat
Glutathione reductase inhibitors	3-methylindole metabolism in liver
antimalarial action 855	and lung 4359
Glutathione <u>S</u> -transferase	Gold analogues
in colonic mucosa, interindividual	induction of 32-kD stress protein
differences 4241	4089
in <u>Galleria mellonella</u> , inhibition	Golgi structure
by trinitrobenzene 259	effect of antimicrotubule drugs
in intestine	2339
effect of hydroxylated hydroxy-	Gossypol
anisole 3011 human, characterization 2288	antiperoxidant effects 3335
human, characterization 2288 villus crypt cells 177	effect on hepatic drug-metabolizing enzymes 4590
isoenzymes in cultured hepatocytes	mitochondrial activity 4217
2482	protein kinase C inhibition 1541
in kidney, effect of cephaloride	toxicity to human tumour cells 1711
3781	Graft-versus-host disease 3207
in liver cytosol	Granulocytes
arylation by bromobenzene	effect of antioxidants on function
metabolites 251	1089
differential induction of iso-	effects of ethanol 3237
enzymes 1077	Grollman hypertensive rats
dog 4713	Na ⁺ ,K ⁺ -ATPase in erythrocytes 1661
effect of eugenol 799	Growth hormone
effect of gossypol 4590	dependent regulation of hepatic
effect of halothane 1903	cytochrome P-450 1687
hamster, effect of butylated	N-(2-Guanidinoethyl)-5-isoquinoline-
hydroxyanisole 3011	sulfonamide hydrochloride
inhibition by S-nitroso-L-	effect on calcitriol-induced
glutathione 3199	differentiation in HL-60 cells
effect of perhexiline maleate 3461	635
effect of thyroid hormone 3201	trans-4-Guanidinomethylcyclohexane-
in liver microsomes	carboxylic acid p-tert-butyl- phenylester
effect of acrolein 1933 effect of chlordimeform, 4-chloro-	effect on platelets and mast cells
o-toluidine and o-toluidine 2529	2537
o cordinatine and o cordinatine 2027	

```
Guanine
                                          Guanosine triphosphate(contd.)
  alkylation in DNA, effect of
                                             role in formation of vincristine-
     neighboring bases 1061
                                                tubulin complex in kidney
  N^2-substituted derivatives, as
                                                         1251
                                                cytosol
     inhibitors of HSV-I thymidine
                                           Guanosine triphosphate-binding protein
             1877
     kinase
                                             role in catecholamine release 2485
Guanine-N7
                                           Guanylate cyclase
                                             in renal glomeruli, stimulation by
  selective alkylation by nitrogen
     mustards 1799
                                                atrial natriuretic peptide 2757
Guanine nucleotide-binding protein
                                           Guinea pig
                                             effect of polychlorinated dibenzo-
  in vascular smooth muscle
                                                furans and dibenzo-p-dioxins
  adrenergic receptor coupling
  β-adrenergic receptor interaction
     4289
                                             effect on p-aminohippurate transport
in renal membrane vesicles 2639
  delta receptor subtypes and coupling
     to 467
  effect of \underline{\mathtt{N}}\text{-ethylmaleimide} on
                                             H^+, K^+-ATPase mediated accumulation
     function of 4577
                                                in parietal cells 4487
                                          Halobacterium effect of DNA topoisomerase II
  mast cell adenosine receptor 4019
  muscarinic receptor interaction
     effect of diethylether 4041
                                                inhibitors 1879
     effect of halothane 1219
                                           Haloperidol
     effect of temperature 1045
                                             effect on neurotensin in brain
                                                nuclei 1547
  role in muscarinic receptor-adenylate
     cyclase coupling 4549
                                             effect on protein kinase C activity
  in striatum, effect of chronic morphine 1039
                                                4009
     morphine
                                           Halothane
Guanine nucleotide-exchange factor
                                             attenuation of muscarinic inhibition
  eIF-2 interaction, effect of ethanol
                                                of adenylate cyclase in heart
     2045
                                                1219
Guanine nucleotides
                                             effect on glutathione S-transferases
  effect on a-adrenoceptor sites in
                                                in liver
                                                          1903
     vascular smooth muscle 4055
                                             reductive metabolism by cytochrome
  effect on \beta-adrenergic receptors in
                                                P-450
                                                       2357
     kidney glomeruli and tubules 4513
                                          Hamster
  effect on agonist binding to
                                             benzo(a)pyrene metabolism in liver
                                                microsomes 1509
     serotonin receptors in brain 3097
  effect on carbamylcholine binding
                                             effect of butylated hydroxyanisole
     in brain 1047
  effect on dopamine receptors in
                                             cutaneous acetyltransferase 265
     pituitary tumours 2373
                                             diethylstilbestrol metabolism in
  effect on iodopindolol binding in
                                                liver
                                                       3565
     heart, genetic influences
                                  1281
                                             ethanol-inducible cytochrome P-450
  regulation of oxotremorine binding
                                                isoenzyme in liver 1563
     in brain, effect of volatile
                                           Harmol
     anaesthetics 4041
                                             elimination in perfused liver,
Guanosine-3',5'-monophosphate
                                                effects of hypoxia and fasting
  in A-10 cells, effect of atrial natriuretic factor 2106
                                                1207
                                             sulfation in rats, effect of glutathione depletion 4307
  in aorta from SHR, effect of atrial
     natriuretic factor 2109
  in cerebellum, effect of benzodiaz-
                                             adenylate cyclase in
                     3765
     epine ligands

```

Hypolipidemic agents(contd.)	Indomethacin(contd.)
peroxisomal proliferation 1193, 1203	effect on inflammation associated
	with oxazolone-induced delayed
tissue binding 793	hypersensitivity 3511
Hypoxanthine offeet on linelysis 2215	inhibition of brain prostaglandin
effect on lipolysis 3215	biosynthesis 921
Hypoxia dependent activation of 3-amino-	modulation of neutrophil chemokinesis
1,2,4-benzotriazine-1,4-dioxide	1693
1487	Indoprofen chiral inversion 105
effect on harmol elimination in	Inflammation
perfused liver 1207	effect of AC-5-1 2161
effect on hepatic and biliary	effect of interleukin 1 4171
glutathione disulfide 967	oxazolone-induced delayed hyper-
Hypoxia-selective cytotoxins 3837	sensitivity 3511
, i	effect on plasma T-kininogen and
	angiotensinogen 1099
Ibotenate	PMN induced damage to articular
stimulated phosphoinositide hydroly-	cartilage 1181
sis, role of protein kinase C	Initiation factor eIF-2
4299	effect of ethanol on recycling 2045
Ibuprofen	Inosine
chiral inversion 105	effect on lipolysis 3215
ICI 118-551	Inosine monophosphate
inhibition of pindolol binding in	in L1210 cells, effect of 3-deaza-
brain 1145	purines 1233
Idarubicin	Inosine monophosphate dehydrogenase
toxicity and metabolism in hepato-	in bone marrow, effect of tiazofurin 875
cytes 3877 Ileum	Inositol
glutathione <u>S</u> -transferases in 2288	accumulation in hepatocytes, effect
muscarinic receptor coupling to	of quinacrine on vasopressin-
inositol phospholipid metabolism	induced changes 161
4461	myo-Inositol
Imidazoles	uptake in cortical slices 911
inhibition of human monooxygenases	Inositol phosphates
3861	accumulation in brain, effects of
inhibition of testosterone hydroxyl-	lithium and desipramine 1991
ation by liver microsomes 4643	in chromaffin cells, effect of
$\underline{\mathtt{N}} ext{-substituted}$, effect on steroid and	opioid compounds 395
xenobiotic hydrolases in liver	in heart, muscarinic mobilization
microsomes 415	4689
Iminium ion	in pancreatic islets, effects of
nicotine 4601	purinergic and cholinergic
Imipramine	activation 1213
binding site in platelets, interaction	
of 5-HT-reuptake inhibitors 3959	muscarinic receptor coupled metabolism 4461
effect on hepatic transport of cardiac glycosides 2949	turnover in striatum, effect of
effect on 5-HT receptors in brain	muscarinic antagonists 2437
4451	Inositol polyphosphates
effect on noradrenaline and 5-HT	in hepatocytes, effect of neomycin
uptake by synaptosomes 976	1357
effect on phosphatidylinositol kinase	Inositol trisphosphate
4149	formation in cultured chromaffin
effect on tyrosine and p-hydroxy-	cells, effect of islet-activating
phenylglycol in brain 2059, 2069	protein 2485
Immunoliposomes	Inacatioidaa
specificity towards erythrocytes	Insecticides
	effect on chick embryo muscle protein
2215	effect on chick embryo muscle protein 3251
Immunosuppression	effect on chick embryo muscle protein 3251 Insulin
Immunosuppression dimethylnitrosamine 2765	effect on chick embryo muscle protein 3251 Insulin effect of BAY K 8644 on release of
Immunosuppression dimethylnitrosamine 2765 Impromidine	effect on chick embryo muscle protein 3251 Insulin effect of BAY K 8644 on release of 2933
Immunosuppression dimethylnitrosamine 2765 Impromidine effect on ornithine decarboxylase in	effect on chick embryo muscle protein 3251 Insulin effect of BAY K 8644 on release of 2933 binding in pulmonary endothelial
Immunosuppression dimethylnitrosamine 2765 Impromidine effect on ornithine decarboxylase in neonatal rat brain 551	effect on chick embryo muscle protein 3251 Insulin effect of BAY K 8644 on release of 2933 binding in pulmonary endothelial cells, effect of nitrogen
Immunosuppression dimethylnitrosamine 2765 Impromidine effect on ornithine decarboxylase in neonatal rat brain 551 Indapamide	effect on chick embryo muscle protein 3251 Insulin effect of BAY K 8644 on release of 2933 binding in pulmonary endothelial cells, effect of nitrogen dioxide 1497
Immunosuppression dimethylnitrosamine 2765 Impromidine effect on ornithine decarboxylase in neonatal rat brain 551 Indapamide binding to serum proteins and	effect on chick embryo muscle protein 3251 Insulin effect of BAY K 8644 on release of 2933 binding in pulmonary endothelial cells, effect of nitrogen
Immunosuppression dimethylnitrosamine 2765 Impromidine effect on ornithine decarboxylase in neonatal rat brain 551 Indapamide	effect on chick embryo muscle protein 3251 Insulin effect of BAY K 8644 on release of 2933 binding in pulmonary endothelial cells, effect of nitrogen dioxide 1497 effect of <-cyano-4-hydroxycinnamate on secretion 2019
Immunosuppression dimethylnitrosamine 2765 Impromidine effect on ornithine decarboxylase in neonatal rat brain 551 Indapamide binding to serum proteins and erythrocytes 2963	effect on chick embryo muscle protein 3251 Insulin effect of BAY K 8644 on release of 2933 binding in pulmonary endothelial cells, effect of nitrogen dioxide 1497 effect of <pre></pre> -cyano-4-hydroxycinnamate
Immunosuppression dimethylnitrosamine 2765 Impromidine effect on ornithine decarboxylase in neonatal rat brain 551 Indapamide binding to serum proteins and erythrocytes 2963 Indole-3-carbinol	effect on chick embryo muscle protein 3251 Insulin effect of BAY K 8644 on release of 2933 binding in pulmonary endothelial cells, effect of nitrogen dioxide 1497 effect of ccyano-4-hydroxycinnamate on secretion 2019 cyclosporin A induced inhibition of release 3609, 3941 effect on cytochrome P-450 in
Immunosuppression dimethylnitrosamine 2765 Impromidine effect on ornithine decarboxylase in neonatal rat brain 551 Indapamide binding to serum proteins and erythrocytes 2963 Indole-3-carbinol inhibition of lipid peroxidation 333	effect on chick embryo muscle protein 3251 Insulin effect of BAY K 8644 on release of 2933 binding in pulmonary endothelial cells, effect of nitrogen dioxide 1497 effect of <pre>4-cyano-4-hydroxycinnamate</pre> on secretion 2019 cyclosporin A induced inhibition of release 3609, 3941

Insulin(contd.) Iphosphamide lack of effect in hepatocytes from enantiomers 145 streptozotocin-diabetic rats 1683 Iprindole mediation of hypoglycemic effect of effect on tyrosine and p-hydroxythyrotropin-releasing hormone 4245 metabolic effects in adipocytes, phenylglycol in brain 2069 effect of trifluoperazine 760 muscarinic receptors in 2575 effect of α,β-methylene ADP and carbachol on secretion 1213 Iron effect on dialuric acid autoxidation effect of pH on secretion 4611 post-binding modulators of action Iron-adriamycin complex 3663 1891 Iron chelates secretory action of glucose and catalysed lipid peroxidation hypoglycemic sulfonylureas Iron chelators in serum, effect of TCDD 2247 synergism with metformin 4353 inhibition of lipid peroxidation Iron(III)-pyrones Insulin receptor taurine binding 3755 intestinal uptake 2051 Intercalating agents
effect on DNA structure 1853 Isatin derivatives interaction with UDP-glucose pyrolinked to oligo- (α) -deoxynucleotides phosphorylase in Echinococcus 1797 <u>multilocularis</u> metacestodes targets for 1803 Ischaemia improvement of brain energy metabol-Interferon-8 ism and function by naftidrofuryl effect on human Namalva cells √ and β-Interleukin 1 2285 arthritogenic activity in vivo 4171 Islet-activating protein effect on cultured chromaffin cells Intestinal microflora paracetamol metabolism 1445 1-Isoamyl-3-isobutylxanthine Intestine binding proteins for $\beta\text{-lactam}$ antibiotics 2427effect on vasopressin inhibition of cyclic AMP accumulation in conjugases along villus-crypt surface hepatocytes 3447 Ĭ77 3-Isobutyl-1-methyl-xanthine effect on steroid metabolism in hepatocytes 2411 fatty acid inhibition of transport systems 1399 folylpolyglutamyl synthetase in 4239 Isocarboxazid hydrolase human, glutathione \underline{S} -transferases in 2288 in liver microsomes, induction 2708 Isomeric ballast Isoprenaline monooxygenases along villus-crypt surface 169 β-adrenergic receptor mediated effect of tunicamycin on brush border responses in skeletal muscle 947 membrane glycoenzymes 4081 effect on skeletal muscle contraction UDP-glucuronyltransferases in and metabolism 4653 uptake of iron(III)-pyrones 2051 Isoproterenol Iodoacetic acid displacement of iodocyanopindolol age-related hepatotoxicity 4183 binding in heart, genetic Iodocyanopindolol influences 1281 ascorbic acid induced binding to induced amylase secretion, effect non-β-adrenergic receptor sites of protein kinase C activators in trachea 1421 4433 induced changes in action potential, binding in atria, effect of BIM binding in brain, effect of nifedipine effect of <u>N</u>-ethylmaleimide 4577 effect on phosphorylation of cardiac proteins 679 stimulated cyclic AMP accumulation binding in heart genetic influences 1281 effect of nifedipine in kidney glomeruli and tubules binding in kidney 5-Iodotubercidin 1(5-Isoquinolinesulfony1)-2-methyleffect on adenosine metabolism in piperazine dihydrochloride human blood 621 effect on calcitriol-induced (E)-5-(2-Iodovinyl)-2'-deoxyuridine differentiation in HL-60 cells interaction with viral DNA synthesis 1789 effect on polyamine transport in Ionophore A23187 induced exocytosis in PMNs, effect of felodipine 503 prostatic cancer cells 2511 protein kinase C binding sites 2704 protein kinase C inhibition 1541 effects in intact hepatocytes 2773 effect on protein kinase C and effect on minoxidil inhibition of cyclic AMP and GMP in pinealo-cytes 1015 prostacyclin production by aorta endothelial cells 867 effect on receptor stimulated phospho platelet activation, effect of inositide hydrolysis 4299 3023 trimetoquinol Isosafrole

Isosafrole Kidney(contd.) effect on benzo(a)pyrene metabolism aminoglycoside inhibition of in liver microsomes, rat and ornithine decarboxylase 1679 hamster 1509 p-aminohippurate transport in Ito cells membrane vesicles 2639 angiotensin II formation from des-leu¹⁰-angiotensin I 4 effect of n-butyrate on synthesis of sulfated glycosaminoglycans and 4327 hyaluronate 3771 effect of atrial natriuretic factor on phosphate handling 4027 atrial natriuretic peptide binding Jejunum 2757 adenosine receptor in 2085 cadmium uptake, effect of estradiol glutathione S-transferases in 3091 effect of cephaloridine on cytochrome P-450 and drug metabolizing K~252a enzymes 3781 effect on PAF-induced protein cephaloridine-induced changes in phosphorylation and 5-HT release microsomal proteins 4135 cyclic AMP phosphodiesterase inhibitin platelets 1161 ion by milrinone 2041 Kadsurenone cyclooxygenases in 921 effect on PAF-stimulated prostaglandin release from kidney 2927 effect of cyclosporin A on calcium in mesangial cells 4205 Kaempferol redox behaviour 2607 cyclosporin A suppresses proliferat-Kallidin of mesangial cells in culture 1083 cytochrome P-450 dependent metabolism microvascular metabolism 2973 of arachidonic acid in SHR 5 diabetic rats, effect of Statil Kanamycin inhibition of renal ornithine decarboxylase 1679 epoxide hydrolases in cytosolic and microsomal fractions 3897 Karmelitter Geist glutathione role in methylmercury uptake 291 amentoflavon action on brain receptors 3285 uptake Keratin histamine N-methyltransferase in, modification by mitoxantrone 3043 structural features of inhibitors Keratinocytes 385 effect of hyperthermia on ornithine thymidine phosphorylase in 353 Ketamine decarboxylase 497 lipid interaction with benzodiazepine effect on inhibition of acetylcholinesterase by sarin 969 1009 receptors mercapturic acid toxicity 4495 Ketanserin binding in brain Na⁺-H⁺ exchange in brush border effect of guanine nucleotides 3097 effect of ritanserin 3277 1699 membranes effect of noradrenaline on phosphoinositol turnover and sodium Ketoconazole effect on hepatic monooxygenase activity 401, 3861, 3975 transport 2121 ochratoxin A enhanced lipid effect on placental monooxygenase peroxidation 4469 effect of PAF-antagonists on activity 3861 effect on progesterone oxidation by prostaglandin release in unilat-3647 rabbit eral urethral obstruction 2927 PGD_2 and 9α , 11β - PGF_2 metabolism 3591 ramiprilat binding in glomeruli 4679 effect on steroid and xenobiotic hydrolases in liver microsomes 415 effect on testosterone hydroxylation testosterone regulation of N-nitroby liver microsomes 4643 sodimethylamine demethylase in 2697 Ketogenesis in hepatocytes, effect of calcium UDP-glucuronyltransferases in antagonists 1463 vincristine-tubulin complex in cytosol, role of GTP 1251 metabolism in cultured hepatocytes, Kidney epithelial cells phenothiazine-induced depolarization effect of carnitine on valproateinduced changes 2255 of plasma membrane 3785 Ketone bodies Kininogen in blood, effect of aldehyde urinary, radioimmunoassay 1965 dehydrogenase inhibitors 229 Kininogenase 6-Keto-prostaglandin F_{1≪} activity of lung mast cell tryptase production by aorta endothelial 1473 cells, effect of minoxidil Kinins 2-Keto-4-thiomethylbutyric acid microvascular metabolism 2973 oxidation in reconstituted systems 1383 Kidnev L-643,441 cytochrome P-450 interaction 3049 β-adrenergic receptors in 4513

L-651,896

adriamycin and oxidative stress 2189

L-651,896	Leukemia cells
effect on inflammation associated	P388(contd.)
with oxazolone-induced delayed	doxorubicin transport 2297
hypersensitivity 3511 Labetalol	P388/ADR membrane alterations using
potencies of stereoisomers 9	fluorescent dyes 4253
β -Lactams	effect of phorbol esters on
binding proteins in intestinal	doxorubicin transport 2297
brush border membranes 2427	Leukotaxis
induced hypothrombinemia in vitamin	inhibition by uteroglobin 389
K-deficient rats 2091 structure-activity relationships 125	Leukotriene B4 in ear in oxazolone-induced delayed
Lactogenesis	hypersensitivity 3511
β-adrenergic receptors in mammary	synthesis in PMNs
cells 3035	effect of antioxidants 1089
Lauric acid	effect of manoalide 2899
hydroxylation in liver, effect of	Leukotriene C4
hypolipidemic agents 1193, 1203 Lead	in ear in oxazolone-induced delayed hypersensitivity 3511
effect on blood-brain barrier in	generation in mast cells, effect of
developing rat 4539	pertussis toxin 4019
Lentinan	PAF-induced release in heart, effect
sulfation and anti-HIV effects 2887	of PGE ₁ 2659
Leucocytes	production by PMNs, effect of
association with anti-inflammatory	manoalide 2899 synthesis in peritoneal cells,
drugs 1245 effect of disulfiram on aldehyde	inhibition by AC-5-1 2161
dehydrogenase 3360	Leukotriene D4
in synovial lining, effect of	mediated liver injury 2569
interleukin 1 4171	PAF-induced release in heart, effect
Leukemia	of PGE ₁ 2659
bone marrow therapy with monoclonal	production by PMNs, effect of
antibodies 3207 Leukemia cells	manoalide 2899 Lexitropsin
CCRF-CEM, folylpolyglutamate synthet-	DNA interaction 1821
ase inhibitors 3931	Limonene
HL-60	effect on cytochrome P-450 in liver
modulation of ara-C metabolism by	2223
hydroxyurea 1745	Linear dichroism
effect of protein kinase inhibitors on calcitriol-induced different-	s (+)-anti-BPDE-poly(dG-dC)complex 1859
iation 635	chromatin condensation 1813
human childhood, doxorubicin-induced	Lipid dienes
DNA damage 1863	conjugation in hepatic microsomes,
human myeloid, thymidylate kinase	stimulation by 3,3'-dichloro-
inhibition by dinucleotides 673	benzidine 781
L1210 aldehyde dehydrogenase inhibition	Lipid membranes praziquantal insertion 1615
by 4-(diethylamino)benzaldehyde	Lipid peroxidation
1639	in heart
cisplatin interaction 3467	effect of adriamycin 2893,3071
effect of cycloheximide on	effect of calcium antagonists
etoposide cytotoxicity 1117	4197
3-deazapurine effects 1233, 3534 effect of 2',3'-dideoxynucleoside	effect of gossypol 3335 in hepatocytes, paracetamol induced
analogues 897	3473
effect of DUP 785 3257	in kidney
N ¹⁰ -propargy1-5,8-dideazafolic	effect of cephaloridine 3781
acid activity 4047	ethanol-induced 3633
ribonucleotide reductase inhibition	n effect of ochratoxin A 4469 in liver
by dinucleotides 673 topoisomerase II inhibition by	effect of acrolein 1933
fostriecin 4063	adriamycin dependence at low pO ₂
transport-related resistance for	2893
5,10-dideazatetrahydrofolate and	adriamycin induced 3071
10-alkyl derivatives 4775	effect of 3,3'-dichlorobenzidine
effect of trifluoperazine in	781
progressively doxorubicin- resistant cells 185	ethanol-induced 3633 inhibition by indole-3-carbinol
P388	333
doxorubicin induced DNA damage	effect of ochratoxin A 4469
and repair in 1763	effect of ONO-3144 and MK-447
effect of phorbol esters on	4225

Lipid peroxidation(contd.) Lung(contd.) role in dimethylhydrazine-induced composition and β-adrenergic tumorigenesis 2967 receptors 2035 β-endorphin binding 2273 epoxide hydrolases in cytosolic and in tissues of adriamycin-treated 2189 Lipids microsomal fractions 3897 kininogenase activity of mast cell tryptase 1473 in blood, effects of fish oil and vitamin E 3415 in erythrocyte membranes, effect of 3-methylindole metabolism 4359 alcohol abuse 3823 effect of nitrogen dioxide on membrane fluidity and insulin receptor binding 1497 interaction with peripheral-type benzodiazepine receptors 1009 oligoamines and paraquat accumulation and localization 1909 in liver, effect of malotilate on ethanol induced changes 4341 in lung cells, effect of nitrogen ovalbumin sensitized adenylate 1497 cyclase 2027 dioxide role in effect of ethanol on PGD_2 and $9 \times 11 \beta - PGF_2$ metabolism 3591 synaptosomal Na+,K+-ATPase 2659 PGE₁ effects Lipolysis effect of piperonyl butoxide on a-naphthylthiourea toxicity effect of adenosine and its metabolites 3215 quinuclidinyl benzilate binding effect of trifluoperazine on insulin small cell cancer 1645 action 760 stabilization of ornithine decarbox-Lipoprotein lipase ylase by methylglyoxal bis(cycloin adipose tissue, effect of TCDD hexylamidino-hydrazone) 4117 2247 $0, \underline{S}, \underline{S}$ -trimethylphosphorodithioate metabolism by microsomes Liposomes flavonoid interaction 989 0,S,S-trimethylphosphorodithioate immunospecific targeting to erythrocytes 2215 metabolism by slices Lung carcinoma cells, A549 3717 Lipoxygenase-1 dipyridamole potentiation of CB 3717 soybean toxicity 2113 Lung tumour cells, L-DAN effect of flavonoids inactivation of 4531 daunomycin-low density lipoprotein uptake and toxicity 3981 5-Lipoxygenase inhibition by manoalide 2899 Luteolin effect of onion extracts 4479 redox behaviour 2607 5-Lipoxygenase inhibitors LY 117018 from Artocarpus communis 2161 effect on hepatic fatty acid Lithium metabolism 319 LY 171555 effect on inositol phosphate accumulation in brain 1991 effect on protein kinase C activity 4009 Liver effect of hyperthermia on ornithine Lymphoblasts decarboxylase 497 effect of cycloheximide on etoposide PGD_2 and $9 \propto 11\beta - PGF_2$ metabolism 3591 toxicity 1117 physiologically based models 2',3'-dideoxynucleoside analogues sex differences in transport effect and metabolism 897 effect of hydroxyurea on ara-C 3119 systems metabolism 1745 Liver regeneration cytochromes P-450 gene expression effect of interferon-& 3271 methotrexate — 6-mercaptopurine synergism 2321 3515 LMTK-1 cells effect of methotrexate on purine and buciclovir metabolism and effects 1925 pyrimidine metabolism 2329 Low density lipoprotein-daunomycin effect of $4(5H)-oxo-1-\beta-D-ribofuran$ osylpyrazolo(3,4,<u>d</u>)pyrimidine-3-thiocarboxamide 4697 uptake and toxicity in lung tumour 3981 cells Lymphocytes 2',3'-dideoxynucleoside analogue Luminol dependent chemiluminescence in PMN, effect of antioxidants 1089 effects and metabolism 897 Lung modulation of voltage-dependent effect of age on propranolol uptake potassium channels 4029 native and cultured, glutathione transferase expression Lymphoma cells, cyc S49 angiotensin I hydrolysis by peptidases in 1131 angiotensin II formation from $des-leu^{10}$ -angiotensin I 4327 β -adrenergic receptors and Gi 4289 Lymphoma cells, U937 effect of bleomycin on protective effects of vitamin D analogue MK 903 enzymes in 1111 cyclic AMP phosphodiesterase inhibition by milrinone 2041 889 Lymphoid cells H9 -deoxythymidin-2'-ene pharmacology effect of desipramine on phospholipid 4419

Lysosomes	Mefloquine(contd.)
liver, effect of gentamicin on	effect on erythrocyte and parasite
phosphatidylcholine hydrolysis	membranes 2013
by phospholipases 591	uptake by malarial parasites 3623
Lysosomotropism	Meisenheimer complex
adrenergic antagonists 435	glutathione and trinitrobenzene 259
	Melanoma cells
W1:3:1::	chloroquinoxaline sulfonamide
Macrolide antibiotics	pharmacology 4557
inducible cytochrome P-450 LM3c, role in midazolam metabolism 1947	DNA crosslinks and melphalan
	toxicity 3189
Macrophages alveolar, FMLP-induced arachidonic	glycolipid changes 2879 gold-induced stress protein 4089
acid release 547	potency and selectivity of catechols
plasminogen activator in, effect of	1711
sarin 2139	N^{10} -propargyl-5,8-dideazafolic acid
Malaria	induced DNA damage 1875
glutathione reductase deficiency 861	Melatonin
Malaria parasites	enhancement of GABA and muscimol
mefloquine uptake 3623	binding in brain 1271
effect of nitrosoureas 855	Melittin
Malathion	effect on polyamine transport in
induced increase in 8-aminolevulinate	prostatic cancer cells 2511
synthase production 4783	Melphalan
Malathion hydrolase	cell cycle effects 2303
in liver microsomes, induction 2708	cytotoxicity after electropermeabil-
Malignant Hyperthermia 2237	ization 4727
Malnutrition effect on ethanol elimination in	toxicity and DNA crosslinks in
rats 4235	melanoma cells 3189 Membrane fluidity
Malonaldehyde	lung, effect of nitrogen dioxide
regional distribution in mouse brain	1497
2287	Menadione
Malonate ligand	cytotoxicity in hepatocytes from
displacement from platinum(II)	streptozotocin-diabetic rats
complexes 3321	3793
Maltol	induced cytoskeletal alterations
effect on iron(III) uptake by small	3423
intestine 2051	NAD+ depletion and cytotoxicity in
Mammary cells	hepatocytes 3967
β-adrenergic receptors in 3035	toxicity in relation to DT-diaphorase
esterase inhibition by chloroethyl-	activity 2451
nitrosoureas 3987	activity 2451 Menadione reductase
nitrosoureas 3987 Mandibular gland	activity 2451 Menadione reductase in liver nuclear extracts 1331
nitrosoureas 3987 Mandibular gland procainamide excretion 1519	activity 2451 Menadione reductase in liver nuclear extracts 1331 Menthol
nitrosoureas 3987 Mandibular gland procainamide excretion 1519 Manganese	activity 2451 Menadione reductase in liver nuclear extracts 1331 Menthol effect on cytochrome P-450 in liver
nitrosoureas 3987 Mandibular gland procainamide excretion 1519 Manganese effect on dialuric acid autoxidation	activity 2451 Menadione reductase in liver nuclear extracts 1331 Menthol effect on cytochrome P-450 in liver 2223
nitrosoureas 3987 Mandibular gland procainamide excretion 1519 Manganese	activity 2451 Menadione reductase in liver nuclear extracts 1331 Menthol effect on cytochrome P-450 in liver 2223 Mephenytoin
nitrosoureas 3987 Mandibular gland procainamide excretion 1519 Manganese effect on dialuric acid autoxidation 409 Manoalide	activity 2451 Menadione reductase in liver nuclear extracts 1331 Menthol effect on cytochrome P-450 in liver 2223 Mephenytoin effect on tolbutamide hydroxylation
nitrosoureas 3987 Mandibular gland procainamide excretion 1519 Manganese effect on dialuric acid autoxidation 409	activity 2451 Menadione reductase in liver nuclear extracts 1331 Menthol effect on cytochrome P-450 in liver 2223 Mephenytoin
nitrosoureas 3987 Mandibular gland procainamide excretion 1519 Manganese effect on dialuric acid autoxidation 409 Manoalide inactivation of phospholipase A2	activity 2451 Menadione reductase in liver nuclear extracts 1331 Menthol effect on cytochrome P-450 in liver 2223 Mephenytoin effect on tolbutamide hydroxylation by human liver microsomes 1137
nitrosoureas 3987 Mandibular gland procainamide excretion 1519 Manganese effect on dialuric acid autoxidation 409 Manoalide inactivation of phospholipase A2 3639 5-lipoxygenase inhibition 2899 Marcellomycin	activity 2451 Menadione reductase in liver nuclear extracts 1331 Menthol effect on cytochrome P-450 in liver 2223 Mephenytoin effect on tolbutamide hydroxylation by human liver microsomes 1137 Mepyramine effect on noradrenaline and 5-HT uptake by synaptosomes 976
nitrosoureas 3987 Mandibular gland procainamide excretion 1519 Manganese effect on dialuric acid autoxidation 409 Manoalide inactivation of phospholipase A2 3639 5-lipoxygenase inhibition 2899	activity 2451 Menadione reductase in liver nuclear extracts 1331 Menthol effect on cytochrome P-450 in liver 2223 Mephenytoin effect on tolbutamide hydroxylation by human liver microsomes 1137 Mepyramine effect on noradrenaline and 5-HT
nitrosoureas 3987 Mandibular gland procainamide excretion 1519 Manganese effect on dialuric acid autoxidation 409 Manoalide inactivation of phospholipase A2 3639 5-lipoxygenase inhibition 2899 Marcellomycin effect on alanine incorporation into protein in Friend cells 1377	activity 2451 Menadione reductase in liver nuclear extracts 1331 Menthol effect on cytochrome P-450 in liver 2223 Mephenytoin effect on tolbutamide hydroxylation by human liver microsomes 1137 Mepyramine effect on noradrenaline and 5-HT uptake by synaptosomes 976 N-2-Mercaptoethyl-1,3-diamino-propane disulphide
nitrosoureas 3987 Mandibular gland procainamide excretion 1519 Manganese effect on dialuric acid autoxidation 409 Manoalide inactivation of phospholipase A2 3639 5-lipoxygenase inhibition 2899 Marcellomycin effect on alanine incorporation into protein in Friend cells 1377 Mast cells	activity 2451 Menadione reductase in liver nuclear extracts 1331 Menthol effect on cytochrome P-450 in liver 2223 Mephenytoin effect on tolbutamide hydroxylation by human liver microsomes 1137 Mepyramine effect on noradrenaline and 5-HT uptake by synaptosomes 976 N-2-Mercaptoethyl-1,3-diamino-propane disulphide role in WR2721 toxicity 1751

Met-enk-Arg-Gly-Leu(contd.) 4-Methylcatechol chromaffin cells 395 covalent binding to proteins 1707 Met-enk-Arg-Phe 3-Methylcholanthrene effect on muscarinic receptor in effect on benzo(a)pyrene metabolism chromaffin cells in liver microsomes 1509 Metformin glutathione \underline{S} -transferase induction inhibition of hepatic gluconeogenesis 1077 4353 induced DT-diaphorase, association with quinone toxicity 2451 inducible phenol UDP-glucuronyltrans-Methacholine epithelium-modulated response to in trachea, role of cytochrome ferase in liver 1439 P-450 573 induction of cytochrome P-450 in chick embryo hepatocytes, effect of estrogens 1003 Methaemoglobin in glucose 6-phosphate dehydrogenase deficient red cells, effect of induction of cytochrome P-450 in primaquine 4605 liver microsomes, impairment by carbon disulfide 2363 effect of primaquine metabolites on formation of 2683 induction of intestinal conjugases Methamphetamine 177 aromatic hydroxylation in liver induction of intestinal monooxygenmicrosomes 1433 ases 169 effect on monoaminergic systems in induction of nuclear xenobiotic ascorbate-deficient guinea pigs metabolizing enzymes 1331 Methyl 6,7-dimethoxy-4-ethyl- β -carboline Methimazole in vivo effects in cerebellum 3765 effect on bile flow and bile acid **∢,β-**Methylene ADP secretion 583 effect on insulin release and Methotrexate phosphoinositide hydrolysis in anti-inflammatory drug interaction pancreatic islets 1213 607 Methylenedioxy-benzopyran analogues of podophyllotoxin high dose therapy 2713 inhibition of tubulin polymerization induced cell synchronization, etoposide-induced topoisomerase II-2595 mediated DNA breaks 1883 N-Methylformamide 1875 induced DNA damage combination chemotherapy 149 influx in L1210 cells, effect of folate compounds 4775 Methylglyoxal bis(guanylhydrazone) inhibition of <u>S</u>-adenosylmethionine inhibition of dihydrofolate reductase decarboxylase and spermidine synthase 365 535, 541 6-mercaptopurine synergism in human protective action on mitochondrial malignant lymphoblasts 2312 membrane 3395 effect on purine and pyrimidine stabilization of ornithine decarboxylase in liver and lung 4117 uptake by liver mitochondria 957 metabolism in human malignant 2329 lymphoblasts resistance in ovarian carcinoma A2780 cells 443 2N-Methyl-9-hydroxy-ellipticinium accumulation and toxicity in DC-3F Methotrexate metabolites cells, effect of verapamil 613 inhibition of folate-dependent cytotoxicity after electropermeabil-ization 4727 3531 enzymes Methoxycoumarin O-demethylase 3-Methylindole in liver microsomes, effect of ketoconazole and fluconazole metabolism by PGH synthase and mixed function oxidases in goat olfactory, inhibition by metyrapone lung and liver microsomes 4359 l-Methyl-3-isobutyl-8-methoxymethyland ≪-naphthoflavone 8-Methoxypsoralen xanthine photoreaction with DNA 1829 effect on vasopressin inhibition of effect on RNA synthesis in vitro cyclic AMP accumulation in 1827 hepatocytes 3447 9-Methyladenines 1-Methyl-3-isobutylxanthine as adenosine antagonists 655 effect on vasopressin inhibition of 1-Methyladenosine cyclic AMP in hepatocytes Raman spectra 1851 Methylisocyanate $\underline{\underline{\text{in}}} \ \underline{\underline{\text{vivo}}} \ \underline{\text{binding to tissue proteins}}$ Methylamine deamination by semicarbazidesensitive amine oxidase in blood Methylmercury vessels 707 uptake by kidney, role of glutathione N-Methyl-D-aspartate 291 effect on glutamate-glutamine Methyl methanesulfonate toxicity in hepatocytes 1-Methyl-2-nitrosoimidazole system in brain 4445 3183 Methylating agents preparation and toxicity 2585 N-Methyl-N-nitro-N-nitrosoguanidine hepatotoxicity 3183 12-Methylbenz(a)anthracene metabolism by liver microsomes 61 toxicity in hepatocytes 3183

<u>N</u> -Methyl- <u>N</u> -nitrosourea	Miconazole(contd.)
toxicity in hepatocytes 3183	effect on testosterone hydroxylation
Methylparathion	by liver microsomes 4643
effect on chick embryo muscle	Microtubule inhibitors
protein 3251	methylenedioxy-benzopyran analogues
1-Methyl-4-phenylpyridinium effect on mouse heart noradrenaline	of podophyllotoxin 2595
3343	Microvessels cerebral
transport by chromaffin granules	angiotensin metabolism by
4381	aminopeptidase A 155
1-Methyl-4-phenyl-tetrahydropyridine	kinin metabolism 2973
free radicals formation in brain	Midazolam
4573	metabolism by human liver 4389
inhibition of monoamine oxidase A	metabolism by rabbit liver 1947
763	Milrinone
effect on mouse heart noradrenaline 3343	inhibition of cyclic AMP phospho- diesterase in human tissues 2041
reactive metabolite 4163	stimulated Ca ²⁺ -ATPase in heart,
4-Methylpyrazole	effect of calcium channel
effect on ethanol-induced lipid	blockers 2619
peroxidation 3633	Minoxidil
inhibition of \underline{N} -butyl- \underline{N} -(4-hydroxy-	inhibition of prostacyclin production
butyl)-nitrosamine oxidation by	867
liver cytosol 1642	prostacyclin synthase interaction
N-Methyl-scopolamine	3363 Misonidazole
binding in antrum muscle cells 1363 binding in brain, effect of	generation of nitro radical anions
carbachol 4461	by hepatocytes 2907
binding in brain stem, effect of	glutathione conjugate 361
diethyl ether 4041	role of thiols in reduction of 473
binding in ileal smooth muscle,	Mitochondria
effect of carbachol 4461	adrenal gland, spironolactone
binding in iris 2575	metabolism 1591
binding in parotid gland, effect of	heart
carbachol 4461 4-Methylumbelliferone	effect of AD 20 on adriamycin toxicity 4617
glucuronidation in human liver	effect of adriamycin aglycone on
microsomes 665	Ca ²⁺ release 803
effect on morphine UDP-glucuronyl-	inhibition of Na ⁺ -Ca ²⁺ exchanger
transferase in human liver	by benzodiazepines 4399
microsomes 2839	effect of palmitoyl carnitine on
Methylxanthines	calcium efflux 3103
effect on arachidonic acid metabolism	effect of pethidine analogues on
in platelets 3229 metabolism by cultured hepatocytes	NADH:quinone reductase 2551 effect of trimetazidine and
3691	monocrotaline 4685
Metoprolol	liver
β-adrenoceptor affinity 203	effect of aliphatic benzene
stereoselectivity of oxidation 115	derivatives 4439
Metorphamide	4-chlorobiphenyl toxicity 2915
effect on muscarinic receptor	effect of flufenamic acid on
function in chromaffin cells 395 Metronidazole	calcium movements 1327
role of <u>Clostridium</u> pasteurianum	effect of perfluorotributylamine perfusion 2479
hydrogenase 1 in reduction of	effect of piperine on function
1525	753
Metyrapone	protective action of methylglyoxal
inhibition of hepatic microsomal	bis(guanylhydrazone) 3395
drug metabolism 1625	role of calcium in phenformin
inhibition of PGE ₂ catabolism in	toxicity 281
hepatocytes 1343 interaction with olfactory cyto-	spermidine and methylglyoxal bis(guanylhydrazone) uptake 957
chrome P-450 558	bis(guanylhydrazone) uptake 957 effect of suramin on ATP
Mianserin	synthesis 2521
effect on p-hydroxyphenylglycol and	yeast, effect of gossypol 4217
tyrosine in brain 2069	Mitochondrial myopathy
effect on 5-HT receptors in brain	diphenyleneiodonium adminidtration
4451 Micanagala	to rats 687
Miconazole	Mitomycin
effect on human monooxygenases 3861 effect on steroid and xenobiotic	cell cycle effects 2303 effect on prostacyclin synthesis by
hydrolases in liver microsomes	human endothelial cells 4753
415	Mitoxantrone

Mitoxantrone	Morphine
cell cycle effects 2303	analgesia in frog spinal cord,
interaction with hepatic microsomes 3803	effect of ethylketocyclazocine
keratin modification 3043	and \underline{N} -cyclopropylmethyl-norazido-morphine 555
Mitozolomide 5045	3-glucuronidation in human liver
cell cycle effects 2303	microsomes 2839
Mixed function oxidase	hepatocyte toxicity 2862
in hepatoma cells 4111	induced hypercholesterolemia, effect
lung, effect of 3-methylindole 4359	of naltrexone 3777
MK-447	effect on opiate-dependent adenylate
antioxidant activity 4225	cyclase in striatum, role of
Models	G protein 1039 MRK-16
hepatic pharmacology 1425 Molecular dissymmetry 1	effect on drug accumulation in
Molony murine sarcoma virus	ovarian cancer cells 2389
effects of 3'-azido-2',3'-dideoxy-	Mu C 1809
thymidine derivatives 2395	Mucus glycoprotein
effects of 2',3'-dideoxynucleoside	sulfation in gastric mucosa, effect
analogues 897, 2847	of prostaglandin 3311
Molsidomine	Multidrug resistance 2297, 4423
effect on arachidonic acid metabolism during platelet-endothelial cell	monoclonal antibody effects 2389
interactions 3911	reduced cytotoxicity of tetra- cyclines 3038
Monensin	effect of verapamil on 9-hydroxy-
effect on daunorubicin resistant	ellipticine-resistant cells 613
cells 3305	Multidrug resistance glycoproteins
Monoamine oxidase	azidopine photoaffinity labelling
in brain, effect of heterocyclic	1417
amines in food 3289	Muscarine
in liver, microsomal and mitochondrial	
kinetic and molecular properties 3407	metabolism in chromaffin cells, effect of opioid compounds 395
pargyline binding, effect of	Muscarinic antagonists
antibiotics 2823	inhibition of phosphoinositide
Monoamine oxidase type A	turnover in striatum 2437
in brain and liver, inhibition by	Muscarinic receptors
phenylpiperidines and phenyl-	in atrium, choline as an agonist
pyridines 763	2747
Monoamines in brain, effect of methamphetamine	in antrum muscle cells 1363 in bladder, choline as an agonist
in ascorbic acid-deficient	2747
guinea pigs 3477	in brain
Monoclonal antibodies	choline as an agonist 2747
anti-spiroperidol 3204	coupling to inositol phospholipid
bone marrow therapy 3207	metabolism 4461
cytochrome P-450 specificity 98	G-protein interactions, effect of
detection of cytochrome P-450 in human fetal liver 4735	temperature 1045
M-35, effect on muscarinic receptor	effect of tyrosine-directed alkylating reagents 3787
and cyclic AMP in antrum muscle	in brain stem, effect of diethyl
cells 1363	ether 4041
MRK-16, effect on daunorubicin and	in heart
vincristine accumulation in	choline phospholipid hydrolysis
ovarian cancer cells 2389	4689
UDP-glucuronyltransferase isoenzymes	G-protein interactions, effect
564 Monocrotaline	of halothane 1219
impaired cardiac mitochondrial	effect of tyrosine-directed alkylating reagents 3787
function, effect of trimetazidine	in ileal smooth muscle, coupling to
4685	inositol phospholipid metabolism
Mono-(2-ethylhexyl)phthalate	4461
cytochrome P-452 induction 1193	in iris 2575
Monosodium glutamate	in lung, quinuclidinyl benzilate
neonatal treatment, effect on	binding 973
hepatic drug metabolism 1687 Morin	in myocytes, G-proteins and adenylate cyclase inhibition 4549
interaction with 1,1-diphenyl-2-	in parotid gland, coupling to
picrylhydrazyl free radical 989	inositol phospholipid metabolism
redox behaviour 2607	4461
Morphine	in pituitary GH3 cells 2675
effect on adrenalin biosynthesis in	stereospecificity 37

Muscimol	NAD(P)H dehydrogenase(quinone)
binding in brain, effect of melatonin	
1271 Mugala	NADPH-diaphorase
Muscle chick embryo, effect of parathion	in rat brain 3063
and methylparathion on protein	Nafenopin binding in liver 793
3251	cytochrome P-452 induction 1193
skeletal	effect on epoxide hydrolase in
β-adrenoceptors 947, 4653	mouse organs 3897
adriamycin inhibition of flavin	Naftidrofuryl
metabolism 1741	effect on brain energy metabolism
Ca ²⁺ -ATPase in sarcoplasmic	and function affected by ischaemia
reticulum vesicles, effect of	2285 N-1:4:-:
cyclopiazonic acid 978 smooth	Nalidixic acid
effect of acetylcholinesterase	antiviral activity 1885 DNA binding and unwinding 1881
inhibition on tonus 4211	inhibition of GABA binding in brain,
choline as a cholinergic receptor	effect of fenbufen 4408
agonist 2747	Naltrexone
muscarinic receptors in 1363	binding in brain, effect of ethanol
muscarinic receptor coupling to	2279
inositol phospholipid metabolism	effect on stress- and morphine-
4461 vascular smooth	induced hypercholesterolemia 3777 Namalva cells
	effects of interferon-8 3271
effect of amiloride on contraction	
813	glutathione depletion in vivo 2473
effect of felodipine 1569	Naphthalene sulphonamides
inhibition by lipoxygenase prod-	specificity as calmodulin antagonists
ucts of TXA ₂ -like responses 1275	1717
vasopressin V ₁ receptors and	d-Naphthoflavone
inter-receptor regulation 2105 Myeloblasts	inhibition of PGE2 catabolism in
histamine incorporation 4523	hepatocytes 1343 interaction with olfactory
Myeloperoxidase 4525	cytochrome P-450 558
in bone marrow, inactivation by	effect on theophylline metabolism
propylthiouracil 2151	by human liver microsomes 1651
Myocytes	l-Naphthol
G-proteins and adenylate cyclase	glucuronidation in human liver
inhibition 4549	microsomes 665
Myosin light chain kinase effect of amiloride 813	effect on morphine UDP-glucuronyl-
effect of felodipine 1569	transferase in human liver 2839 1,2-Naphthoquinone
inhibition by CV-159 3377	toxicity in relation to DT-diaphorase
inhibition by flavonoids 2987	activity 2451
Myrcene	2-β-Naphthylaziridines
effect on cytochrome P-450 in liver	glutathione conjugation in hepato-
2223 Manuai a a bi a	cytes 1351
Myricetin inhibition of protein kinases 2987	a-Naphthylthiourea toxicity in lung, effect of piperonyl
interaction with 1,1-dipheny1-2-	butoxide 771
picrylhydrazyl free radical 989	Naproxen
redox behaviour 2607	chiral inversion 105
scavenging of superoxide anions 837	effect on 7-hydroxy-methotrexate
	binding in human serum 607
NAD+	Neomycin
NAD [†]	effect on Ca^{2+} fluxes and inositol
depletion and cytotoxicity in hepatocytes 3967	polyphosphate formation in
NADH-oxidoreductase	hepatocytes 1357 inhibition of renal ornithine
in heart mitochondria, adriamycin	decarboxylase 1679
activation 2633	effect on phosphatidylinositol kinase
NADH photolabile analogue	4149
interaction with liver dihydropterid-	
ine reductase 2869	formation in blood 3193
NADH:ubiquinone reductase	Netilmicin
in heart mitochondria, effect of pethidine analogues 2551	inhibition of renal ornithine
NADPH	decarboxylase 1679 Netropsin
oxidation in reconstituted systems	cytotoxicity after electropermeabil-
1383	ization 4727
NADPH-cytochrome P-450 reductase	Neuroblastoma cells
in liver nuclear extracts 1331	adenosine receptors in 2085

Neuroblastoma cells(contd.) Nitrendipine binding in brain, effect of desensitization of neurotensin receptor-mediated cyclic GMP nifedipine 627 formation 2833 binding in heart differentiation and R₁ cyclic AMP-binding protein 2005 effect of antralin 339 effect of nifedipine 627 binding protein Neuroendocrine cells Nitric acid 1645 lung endothelium-derived 2495 Nitrilotriacetic acid
effect on iron(III)uptake by small Neurokinins A and B binding in brain 41 Neuropathy target esterase intestine 2051 p-Nitroanisol demethylase in hen brain, substrates and in hepatocytes in long-term culture 1371 inhibitors 4095 organ distribution in man 3041 p-Nitrobenzenesulfonyl fluoride Neurotensin in brain nuclei, effect of antieffect on muscarinic receptors in 1547 psychotic drugs brain and heart 3787 37 Neurotensin acceptor Nitrobenzylthioinosine effect on adenosine metabolism in Neurotensin receptors in neuroblastoma cells, desensitizhuman blood 621 5-Nitro-2-furaldehyde — semi-carbazide synergism 4505 2833 ation Neurotransmitter amino acids 5-Nitrofurans compartmentation in brain 4445 generation of nitro radical anions Neutral endopeptidase 24.11 in kidney, degradation of atrial by hepatocytes natriuretic peptides 3817 Nitrofurantoin Neutrophil progenitors induced hepatocyte cytotoxicity 3109 histamine uptake 4523 Nitrofurazone kinetics and oxidative stress in perfused liver 1629 Neutrophils clofazimine interaction 4635 indomethacin modulation of chemo-Nitrogen dioxide kinesis 1693 effect on membrane fluidity and lysosomotropism of adrenergic insulin receptor binding in antagonists 435 lung cells effects of protein kinase C 951 Nitrogen mustard Nicardipine cell cycle effects 2303 effect on myosin light chain kinase DNA sequence selective alkylation of and phosphodiesterases guanine-N7 positions 1799 resistant Burkitt lymphoma cells, Nicotinamide effect on theophylline seizures in novobiocin sensitivity 1173 Nitroimidazole-aziridines rats Nicotine induced DNA damage 3837 induced ATP release from chromaffin
 cells, effect of adrenergic 2-Nitroimidazoles chemistry and toxicity of reduction products 2585 agonists and antagonists stimulation of catecholamine release generation of nitro radical anions by chromaffin cells 22 Nicotine- $\Delta^{1'(5')}$ -iminium ion 221 by hepatocytes 2907 role of thiols in reduction of 473 binding to liver microsomes and p-Nitrophenol sulfhydryl-containing polyamino glucuronidation in hepatocytes, acids 4601 effect of cyclic AMP 849 Nicotinic receptors 4-Nitrophenol choline as an agonist 2747 effect on morphine UDP-glucuronyl-Nifedipine transferase in human liver effect on Ca²⁺-ATPase in heart 2619 p-Nitrophenol hydroxylase in hepatocytes, effect of starvation 4157 effect on calmodulin stimulated red cell Ca²⁺,Mg²⁺-ATPase 917 effect on hepatic transport of in liver microsomes cardiac glycosides 2949 inhibition of uroporphyrinogen effect of acetone 421 hamster, effect of ethanol 1563 p-Nitrophenol UDP-glucuronyltransferase decarboxylase in chick embryo in liver, effect of gastrointestinal liver cells 1123 plasma kinetics in man 3526 hormones regulation of calcium channel and p-Nitrophenylacetate hydrolase β-adrenergic receptors 627 in liver microsomes, induction of effect on tolbutamide hydroxylation 2708 by human liver microsomes Nitroreductase in Walker carcinoma cells, CB1954 Nigerians stereoselective 4-hydroxylation of reduction 4661, 4671 debrisoquine 97 Nitrosamines induction of epoxide hydrolase in Nigericin effect on daunorubicin resistant liver microsomes cells 3305 Nitrosodiethylamine

```
Nucleoside transport inhibitors(contd.)
Nitrosodiethylamine
  induction of epoxide hydrolase in
                                                 human blood 621
liver microsomes 297
N-Nitrosodiethylamine — hyperoxia
                                           Nucleosomes
                                              anthracycline antibiotic interaction
     tumour model 1645
                                                 1871
N-Nitrosodimethylamine
                                              4',6-diamidino-2-phenylindole
  toxicity in hepatocytes
                             3183
                                                 interactions 1865
N-Nitrosodimethylamine demethylase
                                           Nucleotides
  in kidney, regulation by testosterone
                                              in L1210 cells, effect of 3-deaza-
     2697
                                                 purines 1233
S-Nitroso-L-glutathione
  inhibition of glutathione S-trans-
      ferases in liver 3199
                                           Ochratoxin A
Nitrosoimidazoles
                                              enhanced lipid peroxidation 4469
  toxicity and mutagenicity 2603
                                           Ofloxacin
Nitrosourea-estrogen conjugates
                                              DNA binding? 1887
                                              inhibition of GABA binding in brain,
  interaction with estrogen receptor
     in uterus
                2625
                                                 effect of fenbufen
                                                                      4408
Nitrosoureas
                                           Oleate
                                              metabolism in hepatocytes, effect of calcium antagonists 1463
effect on Plasmodium falciparum 855 NMR, ^{1}\mathrm{H}^{-13}\mathrm{C}
  cell cycle effects
                       2303
                                                 of calcium antagonists
                                           Oleic acid
                                              inhibition of intestinal transport
  1,2-bromo-3-chloropropane metabolism
                                                          1399
     in rats 3485
                                                 systems
                                              metabolism by liver, effect of
Nocadazole
                                                 antiestrogen 319
  effect on secretion of liver protein
     2339
                                           Oligo-(∝)-deoxynucleotides — intercal-
                                                 ator conjugates
Noradrenaline
  effect on calcium in parotid cells,
                                              DNA and RNA binding
                                                                    1797
     mediation by &1-adrenergic receptors 3790
                                           Oligonucleotides
                                              chromomycin interaction 1783
  in heart, effect of 1-methyl-4-
                                              effect of daunomycin on RNA polymer-
     phenyl-tetrahydropyridine and
                                                 ase-catalysed synthesis 1833
     l-methyl-4-phenylpyridinium 3343
                                           Oltipraz
  histamine-induced release from brain
                                              effect on glutathione metabolism in
                                                 Schistosoma mansoni
     slices
             2799
                                                                       2864
  inositol phosphate response in brain, Omeprazole effect of lithium and desipramine effect of
                                              effect on H+,K+-ATPase mediated
     1991
                                                    accumulation in parietal
  stimulated calcium mobilization,
                                                 cells 4487
     effect of cyclosporin A 4205
                                              glutaminase inhibition 843
  stimulation of cyclic AMP and cyclic
                                              interaction with liver cytochrome
     GMP in pinealocytes, effect of H7 1015
                                                 P-450 1407
                                              labelling of gastric H+,K+-ATPase
  stimulation of sodium transport and
                                                 2543
     phosphatidylinositol metabolism
                                           Onions
     in kidney
                 2121
                                              anti-asthmatic effects 4479
  synaptosomal uptake, effect of
                                            ONO-3144
     Hl-antihistamines 976
                                              antioxidant activity 4225
                                    1711
  toxicity to human tumour cells
                                            ONO 3708
                                              effect on U46619 binding to
Nordihydroguaiaretic acid
  inactivation of soybean lipoxygenase
                                                 platelets 3923
     4531
                                           ONO 11120
                                              effect on U46619 binding to
Norfloxacin
  antiviral activity
                        1885
                                                 platelets 3923
                1887
                                            Opiate receptors
  DNA binding?
  inhibition of GABA binding in brain,
                                              brain
                                                 effect of ethanol on ligand
binding 2279
role of G protein and effects of
morphine 1039

Panaraga (aantd)	Dark-william 1
Pancreas(contd.) 2019	Perhexiline maleate
	effect on biliary excretion of BSP
pH modulation of Ca and Rb flux 4611	and glutathione <u>S</u> -transferase
purinergic and cholinergic effect on	activity in liver 3461
inositol phosphates 1213	Peripheral blood mononuclear cells
signal recognition by B-cells 371	anti-HIV activity of 2',3'-deoxy-
Parietal cells	pyrimidine and purine nucleosides
effect of omeprazole, SCH 28080 and	3543
doxepin on H+,K+-ATPase mediated	Peroxidases
H ⁺ accumulation 4487	bone marrow, inactivation by
Parotid cells	propylthiouracil 2151
mediation of noradrenaline effects	Peroxisome proliferator receptor 793
on calcium by ≪l-adrenergic	Peroxisomes
receptors 3790	induction of fatty acid β -oxidation
muscarinic receptor coupling to	by hypolipidemic agents 1193,
inositol phospholipid metabolism	1203
4461	MEDICA 16 induced proliferation 3571
effect of protein kinase C activators	
on isoproterenol-induced amylase	effect on adenylate cyclase in
secretion 4433	S49 lymphoma cells 4289
Paraquat	effect on D-Ala ² , D-Leu ⁵ -enkephalin
accumulation and localization in	binding in rat brain 467
lung <u>in vitro</u> and <u>in vivo</u> 1909	alteration of mast cell responsive-
Parathion	ness to adenosine 4019
effect on chicken embryo muscle	sensitivity of G-proteins to
protein 3251	ADP-ribosylation 4549
Pargyline	Pesticide stereoselectivity 9
binding to monoamine oxidase, effect	Pethidine analogues
of antibiotics 2823	inhibition of NADH:quinone reductase
effect on ketone bodies in blood 229	2551
Parkinson's disease	P-glycoprotein
dopamine receptors in brain 51	monoclonal antibody, effect on drug
pB48 DNA 1807	accumulation in ovarian cancer
PCR 4099	cells 2389
effect on ADP-induced phospholipase	pH
C and calcium mobilization in	modulation of Ca and Rb flux in
	pancreatic islets 4611
platelets 2559	
Penbutolol	Phagocytes
stereoselectivity of metabolism 115	clofazimine interaction 4635
D-Penicillamine	inhibition of chemotaxis by utero-
disposition in rat, relationship to	globin 389
immunogenicity 737	Phenacetin
Penicillin	inhibition of metabolism by
effect on pargyline binding to	l-aminobenzotriazole 2515
monoamine oxidase 2823	Phencyclidine
photoaffinity labelling of binding	induced head-twitch, effect of
proteins with benzylpenicillin	ritanserin 3277
2427	Phencyclidine receptor
Penicillin G	rat brain 511
effect on inactivation of ∝l-anti-	Phenformin
proteinase by hypochlorous acid	role of calcium in toxicity 281
775	Phenobarbital
Penicillins	effect on benzo(a)pyrene metabolism
structure-activity relationships 125	in liver microsomes, rat and
Pentosan polysulphate	hamster 1509
effect on vascular endothelial cell	effect on cytochrome P-450 in
proliferation 4281	cultured hepatocytes 1371
Pentoxifylline	effect on cytochrome P-450 isoenzyme
effect on arachidonic acid metabolism	in mouse liver 4141
	glutathione \underline{S} -transferase induction
in platelets 3229	
Peptichemo	1077
cell cycle effects 2303	hepatic metabolism and excretion,
Peptidases	effect of perfluorodecalin 3761
hydrolysis of angiotensin I 1131	induction of intestinal monooxygen-
Peptide-chain initiation	ases 169
effect of ethanol 2045	induction of nuclear xenobiotic
Peptidic-glycosaminoglycans	metabolizing enzymes 1331
effect on human chondrocytes 1939	inhibition of uroporphyrinogen
Perfluorodecalin	decarboxylase in chick embryo
effect on phenobarbital metabolism	liver cells 1123
and excretion 3761	Phenobarnbitone
Perfluorotributylamine emulsions	deutero-isotopomer-induced inhibition
effect on mitochondrial function 2479	of binding to HSA 1311

Phenols	Phorbol esters(contd.)
hepatic accumulation in starvation	auranofin 1415
4157	binding to protein kinase C, effect
Phenolsulphotransferase	of inhibitors 1541
in human fetal liver cells 4629 Phenothiazines	effect on doxorubicin transport systems 2297
induced depolarization of plasma	effect on isoproterenol-induced
membrane 3785	amylase secretion 4433
metabolism in man 1773	effect on prolactin secretion and
Phenotypic diversification	activation of adenylate cyclase
generation of tumour cell hetero-	3133
geneity 149 Phenoxybenzamine	effect on receptor stimulated phosphoinositide hydrolysis 4299
calmodulin binding 2739	phosphoinositide hydrolysis 4299 Phorone
L-Phenylalanine mustard	effect on aminopyrine N -demethylase
DNA sequence selective alkylation of	in liver microsomes 1581
guanine-N7 positions 1799	effect on sulfation in rats 4307
Phenylarsine oxide	Phosphate
effect on agonist-induced hepatic vasoconstriction and glycogenol-	effect on adenosine metabolism in human blood 621
ysis 1167	effect of atrial natriuretic factor
N-Phenylbenzohydroxamyl benzylcarbamate	on renal handling 4027
inhibition of neuropathy target	Phosphatidylcholine
esterase 4095	effect of aminoglycosides on
Phenylbutazone	hydrolysis by lysosomal phospho-
effect on cefazolin binding to HSA 2807	lipases 591 muscarinic hydrolysis in heart 4689
effect on tolbutamide hydroxylation	synthesis in <u>Plasmodium</u> -infected
by human liver microsomes 1137	erythrocytes, effect of chloro-
Phenylephrine	quine 3139
stimulated hepatic glycogenolysis	Phosphatidylinositol kinase
and vasoconstriction, effect of	in adrenal chromaffin granules,
phenylarsine oxide 1167	modulation by cations 4149
Phenylethanolamine \underline{N} -methyltransferase in adrenal gland	Phosphatidylserine monolayers Ca-displacement by flunarizine 1597
effect of morphine 749	Phosphinates
SKF 64139 action in vivo 313	inhibition of neuropathy target
in brain	esterase 4095
effect of morphine 749	3'-Phosphoadenosine 5'-phosphosulphate
SKF 64139 action in vivo 313	generation in human fetal liver cells
β-Phenylethylamine interaction with cigarette smoke	4629 Phosphocreatine
3729	in skeletal muscle, effect of
β-Phenylethylhydrazine	β-adrenoceptor stimulation 4653
penetration into rat brain, effect	Phosphoinositide
of deuterium substitution 2703	batrachotoxin induced hydrolysis
N ⁶ Phenylisopropyladenosine	in brain, effect of cocaine 773
binding in brain effect of deazaadenines 3749	excitatory amino acid receptor coupled hydrolysis in brain 4299
effect of non-xanthine hetero-	hydrolysis in pancreatic islets,
cycles 655	effects of purinergic and
Phenylpiperidines	cholinergic activation 1213
inhibition of monoamine oxidase	metabolism in hepatocytes, effect of
type A in brain and liver 763 Phenylpyridines	quinacrine on vasopressin-induced changes 161
inhibition of monoamine oxidase	muscarinic receptor-induced hydrolysi
type A in brain and liver 763	4461
Pheochromocytoma cells	role in responses of renal sodium
adenosine receptors, non-xanthine	transport to noradrenaline 2121
heterocycles as antagonists 655	turnover in hepatocytes, ethanol
Phloretin	stimulation 2461
interaction with l,l-diphenyl-2- picrylhydrazyl free radical 989	turnover in pituitary GH3 cells, effect of muscarinic stimulation
picrylhydrazyl free radical 989 Phloridzin	2675
interaction with 1,1-diphenyl-2-	turnover in striatum and muscarinic
picrylhydrazyl free radical 989	receptor occupancy 2437
Phlorizin derivatives	Phospholipase A2
effect on in vitro cultures of	antralin 339
Phorbal asters falciparum 4269	inactivation by manoalide 3639
Phorbol esters binding in brain, effect of	involvement in hemicholinium-3 binding in brain 4367
bryostatin 1 4069	role in clofazimine interaction with
binding in CLL cells, effect of	phagocytes 4635

Phospholipase C	Pilocarpine(contd.)
in platelets	binding by antrum muscle cells
effect of PCR 4099 2559	1363
effect of sin 1 1263	Pindolol
Phospholipase D	antagonism of 5-HT _{1A} binding sites
in heart 4689	and adenylate cyclase in
Phospholipases in liver, effect of gentamicin 591	hippocampus 3429
in liver, effect of gentamicin 591 Phospholipids	binding in brain, inhibition by ICI 1180551 and CGP 20712A 1145
in blood cells, effect of fish oil	binding in rat, guinea pig and
and vitamin E 3415	human tissues, effect of atenolol
in Chang liver cells, hexachloro-	and metoprolol 203
biphenyl photobinding 1601	persistent $\hat{m{eta}}$ -adrenoceptor blockade
composition in rat organs after	3601
desipramine treatment 2035	Pinealocytes
FMLP-induced arachidonic acid release	H7 effect on cyclic AMP and cyclic
in alveolar macrophages 547	GMP 1015
in heart effect of gossypol on peroxidation	Pinene effect on cytochrome P-450 in liver
3335	2223
protection against oxidative injury	
by calcium antagonists 4197	inhibition of GABA binding in brain,
interaction with benzodiazepine	effect of fenbufen 4408
receptor in kidney 1009	Piperine
in lung cells, effect of nitrogen	effect on mitochondrial function 753
dioxide 1497	Piperonyl butoxide
metabolism in pancreas, effect of	effect on acetaminophen hepato-
insulin 1897	toxicity 2097
metabolism in <u>Plasmodium</u> -infected erythrocytes, effect of chloro-	potentiation of ≪-naphthylthiourea toxicity in isolated lung 771
quine 3139	Pirenzepine
Phospholipid methyltransferase	binding in iris 2575
in adipocytes, effect of trifluo-	effect on <u>N</u> -methylscopolamine
perazine on insulin action 760	binding in antrum muscle cells
Phosphonates	1363
inhibition of neuropathy target	effect on phosphoinositide hydrolysis
esterase 4095	4461
Phosphoramidates	effect on phosphoinositide turnover
inhibition of neuropathy target	in striatum 2437
esterase 4095 Phosphoramide mustard	effect on radioligand binding to pituitary GH3 cells 2675
DNA sequence selective alkylation of	Piribedil
guanine-N7 positions 1799	effect on <u>S</u> -adenosylmethionine
Phosphoribosylamino-imidazolecarboxam-	decarboxylase in adrenal gland
ide transformylase	3613
	Pituitary hormones
5-Phosphoribosyl-1-pyrophosphate	interaction with hepatic cytochrome
in lymphoblasts, effects of metho-	P-450 71
trexate and 6-mercaptopurine 2321	Pituitary tumour cells
Phosphorylase a in liver of acetaminophen-treated	dopamine receptors on 2373 muscarinic receptor on 2675
mice, effect of chlorpromazine	effect of phorbol esters and thyro-
2467	liberin on prolactin secretion
Photoactivatable ligands	and adenylate cyclase 3133
transport and intracellular distrib-	PIVKA II
ution 1601	in plasma and liver, effect of
Photoaffinity ligand	heterocyclic thiol compounds 209
inhibition of TXA2/PGH2 receptor of	PK 11195
human platelets 491	binding in kidney membranes, effect
Photochemical hole burning 1817 Photonucleases 1831	of lipids 1009 Placenta
Phylloquinone epoxide reductase	human, aldose reductase in 1051
inhibition by BHT quinone methide,	effect of imidazole antimycotics on
salicylic acid and ≪-tocopherol-	monooxygenases 3861
quinone 2857	Plasminogen activator
Picloram	in cultured macrophages, effect of
effect on hepatic cytochrome P-450	sarin 2139
isoenzymes 1021	Plasmodium chabaudi
Picrotoxin	mefloquine and chloroquine uptake
effect on protein kinase C activity 4009	3623 Plasmodium falcinarum
Pilocarpine	<u>Plasmodium</u> <u>falciparum</u> bioflavonoid effects on <u>in</u> <u>vitro</u>
effect on N -methylscopolamine	cultures 4269
- · ·	

Plasmodium falciparum(contd.) Poly(ADP-ribose)polymerase glutathione reductase-deficient activation and NAD+ depletion 3967 erythrocytes as hosts Polyamines effect of nitrosoureas 855 effect of quinoline-containing effect of aminoalkyl-aminoanthraquinones on oxidation of 4780 antimalarials 2013 in human leukemic cells, effect of Plasmodium knowlesi infected erythrocytes, effect of methylglyoxal bis(cyclohexylamid-inohydrazone) 364 chloroquine on phospholipid metabolism 3139 effect on phosphatidylinositol 4149 kinase transport in prostatic cancer cells, effect of calmodulin antagonists Platelet-activating factor action in heart, effect of PGE1 2659 induced bronchial obstruction, effect 2511 Polyamino acids nicotine-Δ1'(5')-iminium ion binding of onion extracts 4479 induced protein phosphorylation, effect of K-252a 1161 stimulated hepatic glycogenolysis Polychlorinated dibenzo-p-dioxins effects in guinea pigs 1535 and vasoconstriction, effect of phenylarsine oxide 1167 Polychlorinated dibenzofurans Platelet-activating factor antagonists effects in guinea pigs 1535 effect on prostaglandin release 2927 Polycyclic aromatic hydrocarbons Platelet-endothelial cell interactions stereoselectivity of cytochrome effect of molsidomine on arachidonic P-450 isoenzymes and epoxide acid metabolism 3911 hydrolase in metabolism of 61 Platelets Polycyclic aza-aromatic hydrocarbons activation by unsaturated fatty acids induction of hepatic mixed-function 3079 oxidases 4565 Poly(dG-dC) adenosine receptors, non-xanthine heterocycles as antagonists 655 (+)-anti-benzo(a)pyrene diol epoxide ~2-adrenergic agonist and antagonist complex 1859 binding, temperature effects 2815 Polydeoxynucleotides effect of anthracyclines on protein daunomycin interaction 1867 Poly(dT)-5'-transferrin conjugates phosphorylation 3497 effect of auranofin on protein 2405 phosphorylation 366 binding sites for 5-HT reuptake Polyglutamates CB3717 metabolites in L1210 cells 3959 inhibitors 4047 cyclic AMP phosphodiesterase inhibit- Polymixin B ion by anagrelide 2866 effect on ornithine decarboxylase cyclic AMP phosphodiesterase inhibitin neonatal rat brain 551 ion by milrinone 2041 effect of endothelium-derived Polymorphic oxidation stereoselectivity 85, 93, 97 relaxing factor on function 2495 effect of fish oil and vitamin E on Polymorphism acetylcholinesterase in hamster skin phospholipids in 3415 265 effect of GMCHA on secretion and Ca²⁺,calmodulin-dependent protein Polymorphonuclear leucocytes effect of antioxidants on function phosphorylation 2537 1089 inhibition by lipoxygenase products association with anti-inflammatory of TXA2-like responses effects of K-252a 1161 drugs 1245 erythromycin association with 3231 effect of methylxanthines on arachid-onic acid metabolism 3229 effect of ethanol 3237 felodipine inhibition of function effect of PCR 4099 on calcium movements 2559 effect of fish oil and vitamin E on phospholipids in 3415 phosphodiesterase type II inhibition by SK&F 94120 2315 protection by ω-3 fatty acids indomethacin modulation of chemokinesis 1693 effect of sin 1 on calcium induced damage to articular cartilage movements 1263 in immunologic arthritis 1181 thrombin receptor agonists and leukotriene synthesis in effect of manoalide 2899 effect of onion extracts 4479 antagonists 2417 thromboxane $A_2/\text{prostaglandin } H_2$ receptors 491, 647, 3923 Polymyxin B U-46619-mediated activation, inhibitpost-binding modulator of insulin ion by trimetoquinol isomers Ĭ891 3023 action Platinum(IĬ)compounds Polynucleotides displacement of bidentate malonate spermine binding 1857 ligand 3321 Polypeptides effect on phosphatidylinositol Podophyllotoxin antimitotic analogues 4149 kinase effect on secretion of liver protein Polysaccharides 2339 sulfation and anti-HIV effects 2887

N¹⁰-Propargyl-5,8-dideazafolic acid Poor metabolizer phenotype 3829 Porphyrin (contd.) DNA interactions 1861 induced DNA damage 1875 xenobiotic induced accumulation in Propentofylline chick embryo liver cells effect on arachidonic acid metabolism Positron emission tomography in platelets 3229 assessment of regional stereo-specificity of drugs 51 Propiconazole effect on hepatic xenobiotic Post-binding agents biotransformation 4177 use in studying insulin action and experimental diabetes 1891 Propoxycoumarin Q-depropylation in liver microsomes, effect of monosodium glutamate Potassium effect on secretin secretion by 1687 duodenal mucosa 1027 Propranolol antagonism of 5-HT $_{1A}$ binding sites and adenylate cyclase in hippocampus 3429 Potassium channel brain, phencyclidine binding 3797 B lymphocytes, modulation of Potato effect on chromaffin cell secretion benzodiazepines in 3549 725 protein-mediated brain uptake 2957 Practolol inhibition of pindolol binding in effect on skeletal muscle contraction brain 1145 and metabolism 4653 Praziquantel stereoselective delivery and actions insertion into lipid membranes 1615 115 stereoselectivity in metabolism 85 binding in vascular smooth muscle effect on theophylline metabolism by human liver microsomes 1651 uptake by lung, effect of age 4029 4055 Prednicarbate effect on chemotaxis and collagen 6-n-Propyl-2-thiouracil metabolism in fibroblasts 2723 binding to HSA inactivation of bone marrow Pregnenolone-16x-carbonitrile induced cytochrome P-450 in human peroxidases 2151 fetal liver 4735 Prostacyclin Prenylamine formation in platelets, effect of molsidomine 3911 antiperoxidative effect 4197 production by aorta endothelial Primaquine cells, effect of minoxidil 867 synthesis by human endothelial cells, effect of mitomycin 4753 effect on glucose 6-phosphate dehydrogenase deficient red cells 4605 Prostacyclin synthase oxidation to a free radical intermediate 2791 minoxidil interaction 3363 Primaquine metabolites Prostaglandin D2 effect on oxidation in erythrocytes effect on catecholamine secretion 2683 1725 Principal component analysis 827 metabolism in rat, rabbit and guinea pig tissues Prostaglandin El Probenecid effect on purine catabolism in hepatocytes cardiopulmonary actions 2659 Procainamide Prostaglandin E2 catabolism in hepatocytes, effect of inhibitors of oxidative metabolism salivary excretion 1519 Procaine effect on histamine N-methyltrans-1343 ferase in skin $2\overline{872}$ effect on catecholamine secretion Prochlorperazine 1725 membrane effects 1259 in ear in oxazolone-induced delayed Progesterone hypersensitivity 3511 production in brain microsomes oxidation by liver, effect of release from kidney, effect of PAF-antagonists 2927 ketoconazole 3647 PAF-antagonists Prolactin secretion in pituitary tumour cells, effect of phorbol esters and thyroliberin 3133 stimulated hepatic glycogenolysis and vasoconstriction, effect of phenylarsine oxide 1167 synthesis in articular chondrocytes Promethazine effect on histamine \underline{N} -methyltransferase in skin 2872exposed to interleukin 1 4171 Prostaglandin E2, 16,16-dimethyl effect on gastric mucin sulfation effect on noradrenaline and 5-HT uptake by synaptosomes 976 3311 effect on plasma membrane potential Prostaglandin E2-9-ketoreductase 3785 in rat, rabbit and guinea pig 3591 Promyelocytes tissues histamine incorporation 4523 Prostaglandin F2∝ N¹⁰-Propargyl-5,8-dideazafolic acid effect on catecholamine secretion activity in L1210 cells 4047 1725

Prostaglandin F2 (contd.)	Protein kinase C(contd.)
metabolism in rat, rabbit and guinea	role in platelet activation by
pig tissues 3591 production in brain microsomes 921	unsaturated fatty acid 3079
Prostaglandin H synthase	role in regulating excitatory amino acid stimulated phosphoinositide
benzo(a)pyrene metabolism 2183	hydrolysis in brain 4299
3-methylindole metabolism in goat	spleen, inhibition by calmodulin
lung and liver 4359	antagonists 1717
Prostatic cancer cells	vascular smooth muscle, effect of
calmodulin antagonist inhibition of	amiloride 813
polyamine transport 2511 Prostatic tumour cells	Protein kinase C activators
estramustine metabolism 3161	enhancement of cyclic AMP modulated salicary amylase 4433
Protein	Protein kinase, calcium/calmodulin
chicken embryo muscle, effect of	dependent
parathion and methylparathion 3251	in mouse brain 2381
Friend cells, effect of aclacino-	Protein kinase inhibitors
mycin A on amino acid incorporation	
1377 heart, effect of denopamine on	differentiation in HL-60 cells 635
phosphorylation 679	Protein-mediated transport
hepatic secretion by immature and	propranolol uptake in brain 2957
adult rats 2339	Proteoglycan
kidney, effect of cephaloridine 4135	in articular cartilage, effect of
modification of synthetic components	interleukin 1 4171
by aflatoxin Bl 1481	synthesis in chondrocytes, effect
phosphorylation in platelets effect of auranofin 366	of peptidic-glycosaminoglycans 1939
effects of doxorubicin and	Prothrombin time
daunorubicin 3497	effect of heterocyclic thiol compound
effect of GMCHA 2537	2091
effect of K-252a 1161	Providencia stuartii
phosphorylation in retina, effect of	norfloxacin resistance 1855
cyclic analogues of taurine 1303	Psoralens DNA crosslinking 1791
stress, effect of gold compounds 4089	DNA crosslinking 1791 DNA photobinding 1793, 1829
synthesis in bone in tissue culture,	effect on RNA synthesis 1827
effect of zinc 4075	Pteroyl- <u>S</u> -alkylhomocysteine sulfoximes
synthesis in reticulocyte lysates,	as inhibitors of folylpolyglutamate
effect of ethanol 2045	synthetase 1997
synthesis in tumour cells, effect of	Pulse radiolysis 4225
sodium cyanate 2259 verapamil binding 4623	Purine catabolism in hepatocytes, inhibition
al Proteinase inhibitor	by benzbromarone 3561
in serum, effect of heparin fragments	de novo synthesis in lymphoblasts
4257	effect of methotrexate 2329
Protein-DNA	methotrexate and 6-mercaptopurine
hydration 1839	synergism 2321
Protein-drug conjugates	Purine nucleosides
amodiaquine 303 Protein deficiency	anti-HIV activity 3543 Purinergic receptor P2
effect on ethanol elimination in rats	pancreas, role in insulin secretion
4235	1213
Protein kinase C	Purine salvage enzymes
in A-10 cells, effects of vasopressin	bone marrow, effects of acivicin and
2105	tiazofurin 875
auranofin induced translocation from cytosol to a particulate fraction	Putrescine accumulation and localization in
1415	lung in vitro and in vivo 1909
brain, H7 binding sites 2704	transport in prostatic cancer cells,
comparison of functional assays,	effect of calmodulin antagonists
mechanisms of inhibitor action	2511
1541	Pyrazole
flavonoids as inhibitors 2987	induction of cytochrome P-450
neutrophils, inhibition by defensins 951	isoenzymes in mouse liver 4141 inhibition of \underline{N} -butyl- \underline{N} -(4-hydroxy-
pinealocytes, effect of H7 1015	butyl)nitrosamine oxidation by
platelets	liver cytosol 1642
effect of auranofin on phosphoryl-	oxidation by hepatocytes 1555
ation of substrates 366	Pyrazolopyridines
effects of doxorubicin and	adenosine receptor antagonists 655
daunorubicin 3497	Pyridines N-methylation by amine N-methyl-
TOTE IN GODANITHE (ELEASE 4001 - 4007	N-methylation by amine N-methyl-

D111 / /	
Pyridines(contd.)	Quinolones(contd.)
transferase in liver 1673	DNA binding? 1887
Pyrimidines	inhibition of GABA binding in brain,
	effect of fenbufen 4408
catabolism in rat liver, circadian	
rhythm 4759	resistance in <u>Providencia</u> <u>stuartii</u>
dihydroorotate dehydrogenase inhibit-	1855
ors 3807	effect on theophylline metabolism
metabolism in lymphoblasts, effect	in hepatocytes 2565
of methotrexate 2329	Quinone reductase
Pyrimidine nucleosides	in Walker tumour cells 4671
anti-HIV activity 3543	Quinones
Pyrimidine nucleotides	covalent binding to serum albumin
synthesis in tumour cells, effect of	1707
DUP 785 3257	formation from benzo(a)pyrene and
Pyrimidine salvage enzymes	
	6-fluorobenzo(a)pyrene, radical
bone marrow, effects of acivicin	cations as precursors 2173, 2183
and tiazofurin 875	toxicity and DT-diaphorase activity
Pyrocatechol	2451
covalent binding to proteins 1707	Quinuclidine analogues
Pyrolysate carcinogens	protection against soman toxicity
offect of disheter on metabolic	379
effect of diabetes on metabolic	
activation of 2503	Quinuclidinyl benzilate
Pyrromycin	binding in brain
effect on alanine incorporation into	effect of choline 2747
protein in Friend cells 1377	inhibition by muscarinic agents
Pyruvate	2437
	effect of tyrosine-directed
oxidation by pancreatic islets,	
inhibition by ∢-cyano-4-hydroxy-	alkylating reagents 3787
cinnamate 2019	binding in human lung 973
Pyruvate dehydrogenase	binding in iris 2575
brain, inhibition by thiamine	effect on <u>N</u> -methylscopolamine
analogues 4375	binding in antrum muscle cells
4114105465 7373	1363
Output to the Characterist Astistic Dalatic	
Quantitative Structure-Activity Relation	
ships 9	Racemic drugs 85, 93
Quaternary amines	Radical cations
formation by N -methylation of	in benzo(a)pyrene and 6-fluoro-
azaheterocycles 1673	
azaheterocycles 1673	benzo(a)pyrene metabolism 2173
Quaternary ammonium	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)-
Quaternary ammonium l-methyl-4-phenylpyridinium transport	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183
Quaternary ammonium 1-methyl-4-phenylpyridinium transport by chromaffin granules 4381	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721
Quaternary ammonium 1-methyl-4-phenylpyridinium transport by chromaffin granules 4381	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183
Quaternary ammonium 1-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562
Quaternary ammonium 1-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells
Quaternary ammonium 1-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in
Quaternary ammonium 1-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with 1,1-diphenyl-2-	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411
Quaternary ammonium 1-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with 1,1-diphenyl-2- picrylhydrazyl free radical 989	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411 effect of 2',3'-dideoxynucleoside
Quaternary ammonium 1-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with 1,1-diphenyl-2-	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411 effect of 2',3'-dideoxynucleoside analogues 897
Quaternary ammonium 1-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with 1,1-diphenyl-2- picrylhydrazyl free radical 989	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411 effect of 2',3'-dideoxynucleoside analogues 897 novobiocin sensitivity 4411
Quaternary ammonium 1-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with 1,1-diphenyl-2- picrylhydrazyl free radical 989 protein kinase inhibition 1541 redox behaviour 2607	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411 effect of 2',3'-dideoxynucleoside analogues 897 novobiocin sensitivity 4411
Quaternary ammonium l-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with l,l-diphenyl-2- picrylhydrazyl free radical 989 protein kinase inhibition 1541 redox behaviour 2607 scavenging of superoxide anions 837	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411 effect of 2',3'-dideoxynucleoside analogues 897 novobiocin sensitivity 4411 Raman spectra
Quaternary ammonium l-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with l,l-diphenyl-2- picrylhydrazyl free radical 989 protein kinase inhibition 1541 redox behaviour 2607 scavenging of superoxide anions 837 Quercetrin	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411 effect of 2',3'-dideoxynucleoside analogues 897 novobiocin sensitivity 4411 Raman spectra 1-methyladenosine 1851
Quaternary ammonium l-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with l,l-diphenyl-2- picrylhydrazyl free radical 989 protein kinase inhibition 1541 redox behaviour 2607 scavenging of superoxide anions 837 Quercetrin interaction with l,l-diphenyl-2-	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411 effect of 2',3'-dideoxynucleoside analogues 897 novobiocin sensitivity 4411 Raman spectra l-methyladenosine 1851 Ramiprilat
Quaternary ammonium 1-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with 1,1-diphenyl-2- picrylhydrazyl free radical 989 protein kinase inhibition 1541 redox behaviour 2607 scavenging of superoxide anions 837 Quercetrin interaction with 1,1-diphenyl-2- picrylhydrazyl free radical 989	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411 effect of 2',3'-dideoxynucleoside analogues 897 novobiocin sensitivity 4411 Raman spectra l-methyladenosine 1851 Ramiprilat binding on human glomeruli 4679
Quaternary ammonium l-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with l,l-diphenyl-2- picrylhydrazyl free radical 989 protein kinase inhibition 1541 redox behaviour 2607 scavenging of superoxide anions 837 Quercetrin interaction with l,l-diphenyl-2-	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411 effect of 2',3'-dideoxynucleoside analogues 897 novobiocin sensitivity 4411 Raman spectra 1-methyladenosine 1851 Ramiprilat binding on human glomeruli 4679 Ranitidine
Quaternary ammonium l-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with l,l-diphenyl-2- picrylhydrazyl free radical 989 protein kinase inhibition 1541 redox behaviour 2607 scavenging of superoxide anions 837 Quercetrin interaction with l,l-diphenyl-2- picrylhydrazyl free radical 989 scavenging of superoxide anions 837 Quinacrine	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411 effect of 2',3'-dideoxynucleoside analogues 897 novobiocin sensitivity 4411 Raman spectra 1-methyladenosine 1851 Ramiprilat binding on human glomeruli 4679 Ranitidine effect on ornithine decarboxylase
Quaternary ammonium l-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with l,l-diphenyl-2- picrylhydrazyl free radical 989 protein kinase inhibition 1541 redox behaviour 2607 scavenging of superoxide anions 837 Quercetrin interaction with l,l-diphenyl-2- picrylhydrazyl free radical 989 scavenging of superoxide anions 837 Quinacrine	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411 effect of 2',3'-dideoxynucleoside analogues 897 novobiocin sensitivity 4411 Raman spectra 1-methyladenosine 1851 Ramiprilat binding on human glomeruli 4679 Ranitidine
Quaternary ammonium l-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with l,l-diphenyl-2- picrylhydrazyl free radical 989 protein kinase inhibition 1541 redox behaviour 2607 scavenging of superoxide anions 837 Quercetrin interaction with l,l-diphenyl-2- picrylhydrazyl free radical 989 scavenging of superoxide anions 837 Quinacrine inhibition of histamine N-methyl-	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411 effect of 2',3'-dideoxynucleoside analogues 897 novobiocin sensitivity 4411 Raman spectra 1-methyladenosine 1851 Ramiprilat binding on human glomeruli 4679 Ranitidine effect on ornithine decarboxylase
Quaternary ammonium 1-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with 1,1-diphenyl-2- picrylhydrazyl free radical 989 protein kinase inhibition 1541 redox behaviour 2607 scavenging of superoxide anions 837 Quercetrin interaction with 1,1-diphenyl-2- picrylhydrazyl free radical 989 scavenging of superoxide anions 837 Quinacrine inhibition of histamine N-methyl- transferase in kidney 385	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411 effect of 2',3'-dideoxynucleoside analogues 897 novobiocin sensitivity 4411 Raman spectra 1-methyladenosine 1851 Ramiprilat binding on human glomeruli 4679 Ranitidine effect on ornithine decarboxylase in neonatal rat brain 551 Rawolscine
Quaternary ammonium 1-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with 1,1-diphenyl-2- picrylhydrazyl free radical 989 protein kinase inhibition 1541 redox behaviour 2607 scavenging of superoxide anions 837 Quercetrin interaction with 1,1-diphenyl-2- picrylhydrazyl free radical 989 scavenging of superoxide anions 837 Quinacrine inhibition of histamine N-methyl- transferase in kidney 385 effect on vasopressin action on	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411 effect of 2',3'-dideoxynucleoside analogues 897 novobiocin sensitivity 4411 Raman spectra l-methyladenosine 1851 Ramiprilat binding on human glomeruli 4679 Ranitidine effect on ornithine decarboxylase in neonatal rat brain 551 Rawolscine binding in vascular smooth muscle
Quaternary ammonium 1-methyl-4-phenylpyridinium transport by chromaffin granules 4381 Quercetagetin redox behaviour 2607 Quercetin interaction with 1,1-diphenyl-2- picrylhydrazyl free radical 989 protein kinase inhibition 1541 redox behaviour 2607 scavenging of superoxide anions 837 Quercetrin interaction with 1,1-diphenyl-2- picrylhydrazyl free radical 989 scavenging of superoxide anions 837 Quinacrine inhibition of histamine N-methyl- transferase in kidney 385 effect on vasopressin action on hepatocytes 161	benzo(a)pyrene metabolism 2173 one-electron oxidation of benzo(a)- pyrene and binding to DNA 2183 Radioprotective agent WR2721 glutathione depletion 562 Raji-HN2 cells altered topoisometase II gene in 4411 effect of 2',3'-dideoxynucleoside analogues 897 novobiocin sensitivity 4411 Raman spectra l-methyladenosine 1851 Ramiprilat binding on human glomeruli 4679 Ranitidine effect on ornithine decarboxylase in neonatal rat brain 551 Rawolscine binding in vascular smooth muscle 4055

Spironolactone	civetone interaction 2291
effect on adrenal cytochromes P-450, species differences 355	Steroids metabolism in hepatocytes, role of
adrenal mitochondrial metabolism 1591	cyclic AMP 2411
Spiroperidol	trans-Stilbene oxide
antibodies to 3204	effect on carboxylesterase isoenzymes
Spleen	in liver microsomes 2708
effect of hyperthermia on ornithine	trans-Stilbene oxide hydrolase
decarboxylase 497	in mouse organs, effect of nafenopin
Splenocyte-hepatocyte culture metabolism and immunosuppressive	3897 Stiripentol
effects of dimethylnitrosamine	inhibition of brain cytochrome P-450
2765	3619
Spontaneously hypertensive rats	Stomach
adenylate cyclase in 3017	antralin purification 339
Na+,K+-ATPase in erythrocyte membranes	
1661	on glutathione S-transferase and
cyclic AMP accumulation in aorta in response to atrial natriuretic	catechol <u>O</u> -methyltransferase 3011 choline as a cholinergic receptor
factor 2109	agonist 2747
renal cytochrome P-450 dependent	muscarinic receptors in antrum
metabolism of arachidonic acid 521	muscle cells 1363
SQ29548	omeprazole binding to H ⁺ ,K ⁺ -ATPase
effect on U46619 binding to platelets	2543
3923 Squamous lung tumour cells	effect of prostaglandin on mucin sulfation 3311
daunomycin-low density lipoprotein	effect of SCH 28080 on H ⁺ ,K ⁺ -ATPase
uptake and toxicity 3981	2231
Stanozolol	Streptomycin
cytochrome P-450 interaction 766	effect on pargyline binding to
Starvation	monoamine oxidase 2823
hepatic accumulation of phenols and catechols 4157	Streptozotocin effect on adenocarcinoma cells 3441
Staurosporine	Streptozotocin-diabetic rats
protein kinase C inhibition 1541	lack of effect of insulin in
effect on receptor stimulated phospho-	hepatocytes 1683
inositide hydrolysis 4299	liver microsomal flavin-containing
Stereoselectivity 9	monooxygenases in 3455
P-adrenergic receptor antagonists 115 2-arylpropionic acid action 105	menadione toxicity in hepatocytes 3793
binding studies 37	effect of Statil on kidney 3349
cytochrome P-450 — steroid hormone	Stress
interactions 71	opioids and hypercholesterolemia
drug metabolism in man 93	3777
glutathione conjugation 29	Stress protein 32kD
4-hydroxylation of debrisoquine in	induction by gold analogues 4089
Nigerians 97 monooxygenase-mediated drug metabolism	Striatum effect of heterocyclic amines in
85	dopamine metabolism 3289
polycyclic aromatic hydrocarbon	effect of morphine on adenylate
metabolism 61	cyclase and G protein 1039
positron emission tomography in	muscarinic receptor occupancy and
assessment of drugs 51	phosphoinositide turnover 2437
warfarin 19 Steroid-chelator adduct	protein kinase C and dopamine release 4001, 4009
inhibition of lipid peroxidation 3853	
Steroid hormone	effect on oxidation of FAD- and NAD-
interactions with hepatic cytochrome	linked substrates in liver 4439
P-450 71	Styrene oxide hydrolase
Steroid 7~-hydroxylase	in mouse organs, effect of nafenopin
in liver microsomes	3897 SU-10'603
choline-deficient female rats 1187 effect of imidazoles 415	inhibition of hepatic microsomal
Steroid 15~-hydroxylase	drug metabolism 1625
in liver microsomes, cytochrome	Submaxillary gland
P-450 ₁₅ 4778	effect of desipramine on phospho-
Steroid 164-hydroxylase	lipid composition and β-adrenergic
in liver microsomes	receptors 2035 Substance P
cytochrome P-450 _{16≪} 4778	bubblance r

Substance P	Superoxide(contd.)
binding in brain 41	of trimetazidine 4685
Succinate	Superoxide anions
oxidation in liver, effect of	flavonoid scavenging of 837
styrene 4439	Superoxide dismutase
Sudan III	in hepatocytes, postnatal and adult
induced DT-diaphorase, association	mice 4183
with quinone toxicity 2451	Superoxide radical
Sufentanil	xanthine oxidase-catalysed production
binding to filter adsorbed brain	effect of oxypurinol 349
membranes 3843	Suramin
Suicide inhibitors	inhibition of mitochondrial ATP
hepatic N-acetyltransferase inhibition	n synthesis 2521
by <u>N</u> -arylhydroxamic acids 1225	Suriclone
Sulfamethoxazole	<u>in vivo</u> effects in cerebellum 3765
effect on cefazolin binding to HSA	Suxamethonium
2807	effect on reactivatability of
Sulfaquinoxaline	soman-inhibited acetylcholinester-
effect on B16 melanoma cells 4557	ase 819
Sulfate	Synaptosomal membranes
conjugation in human fetal liver	role of lipids in effect of ethanol om Na ,K+-ATPase 601
cells 4629	om Na ⁺ ,K ⁺ -ATPase 601
paracetamol-induced depletion in	Synaptosomes
serum 3683	noradrenaline and 5-HT uptake, effect
Sulfated proteoglycans	of Hl-antihistamines 976
synthesis in liver fat-storing cells,	
effect of <u>n</u> -butyrate 3771	
Sulfation	Tachykinins
effect of glutathione depletion 4307	binding site interactions 41
Sulfobromophthalein	Tamifolin
biliary excretion, effect of	interaction with 1,1-diphenyl-2-
perhexiline maleate 3461	picrylhydrazyl free radical 989
Sulfobromophthalein-glutathione	Tamoxifen
sex differences in hepatic transport	protein kinase C inhibition 1541
3119	Target-selective synergism 4505
Sulfonylureas	Taurine
effect on catecholamine secretion and	binding to insulin receptor 3755
calcium uptake in cultured	effect on calcium paradox-related
chromaffin cells 983	damage in heart 2651
effect on glucose metabolism in	Taurine cyclic analogues
hepatocytes 3177	effect on calcium uptake and protein
Sulfotransferase	phosphorylation in retina 1303
in human liver, paracetamol metabolism	nTaurocholate
4405	hepatic transport 209
in skin, 5-hydroxymethylchrysene	effect of chlorpromazine 4129
activation 970	Tauroursodeoxycholate
Sulmazole	hepatic transport 209
cardiotonic action 213	Taxifolin
Sulotroban derivative	redox behaviour 2607
inhibition of TXA ₂ /PGH ₂ receptor of	Taxol
human platelets 49I	effect on azidopine photoaffinity
Sulphamethazine	labelling of MDRGs 1417
inter-individual variation in	induced tubulin assembly, effect of
acetylation by human blood 3915	<u>N</u> -alkyl colchiceineamides 2487
Sulphamethizole	T cells
effect on 7-hydroxy-methotrexate	bone marrow therapy with monoclonal
binding in human serum 607	antibodies 3207
Sulphaphenazole	Terbutaline
effect on tolbutamide hydroxylation	formation from bambuterol in blood
by human liver microsomes 1137	3867
Sulphinpyrazone	Terpenoid compounds
effect on tolbutamide hydroxylation	effect on cytochrome P-450 in liver
by human liver microsomes 1137	2223
Sulpiride	Testis
effect on protein kinase C activity	epoxide hydrolases in cytosolic and
4009 Superavida	microsomal fractions 3897
Superoxide approximation by neutrophile officer of	effect of hyperthermia on ornithine
generation by neutrophils, effect of	decarboxylase 497
clofazimine 4635 Superoxide	Testosterone
	catabolism and excretion in TCDD
production by alveolar macrophages, effect of ethanol 3528	treated rats 560
production by cardiac muscle, effect	effect on hepatic drug-metabolizing enzymes in senescent mice 241

Testosterone(contd.)	ml- : - 1
hydroxylation by cytochrome P-450	Thiols
isoenzymes 71, 4778	role in arsenic methylation by liver 3149
hydroxylation by liver microsomes	role in 2-nitroimidazole reduction
effect of azoles 4643	473
effects of ketoconazole and	Thiophosphorylation
fluconazole 401	protein kinase and dopamine release
effect of monosodium glutamate	4001
1687	Thiosulfinates
regulation of renal N-nitrosodimethyl-	- anti-asthmatic effects 4479
amine demethylase 2697	2-Thiouracil
Tetrabutylammonium	binding to HSA 3127
effect on phencyclidine binding in	Thioureylene compounds
brain 511	binding to HSA 3127
Tetracaine	Thrombin
effect on phosphoinositide hydrolysis	platelet activation
induced by batrachotoxin in brain 773	effect of anthracyclines 3497 effect of methylxanthines 3229
2,3,7,8-Tetrachlorodibenzo-p-dioxin	effect of methylxanthines 3229 effect of sin l 1263
effect on adipose tissue lipoprotein	stimulated prostacyclin synthesis in
lipase 2247	endothelial cells, effect of
effect on androgen catabolism and	mitomycin 4753
excretion in rats 560	Thrombin receptor
effect on benzo(a)pyrene metabolism	agonists and antagonists 2417
in liver microsomes, rat and	Thrombosis
hamster 1509	anticoagulation by salicylate 4743
_ effects in guinea pig 1535	Thromboxane A2
Tetracycline	induced vasoconstriction in aorta,
scavenging of hypochlorous acid 775	effect of hydroxylated fatty acids
toxicity to a multi-drug resistant	1275
human cell line 3038	Thromboxane A2/prostaglandin H2 receptor
12- <u>O</u> -Tetradecanoylphorbol 13-acetate platelet activation, effect of	in platelets 3923
trimetoquinol 3023	inhibition by a photoaffinity ligand 491
effect on prolactin secretion and	subcellular localization 647
activation of adenylate cyclase	Thromboxane B2
3133	formation in platelets
Tetrafluoroethylene mercapturic acid	effect of $\dot{\omega}$ -3 fatty acids 481
nephrotoxicity 4495	effect of molsidomine 3911
1,2,3,4-Tetrahydro-5-aminoacridine	effect of onion extracts 4479
effect on cytosolic free calcium	PAF-induced release in heart,
4191	effect of PGE1 2659
toxicity in hepatocytes 2311	release from kidney, effect of
Tetrahydrofolate analogues transport-related resistance in	PAF-antagonists 2927
L1210 cells 4775	Thromboxane receptors in platelets and aorta 1275
Tetramer/octamer model 1781	Thymidine
Tetramethylammonium	selective modification by dansyl
effect on reactivatability of soman-	groups 1849
inhibited acetylcholinesterase	Thymidine kinase
819	colon carcinoma cells, antagonism
Theophylline	of feedback inhibition 1293
induced seizures, effect of nicotin-	HSV-1
amide 1173	effect of dansyl derivatives 1849
metabolism in hepatocytes	N^2 -substituted guanine derivatives
human newborn and adult 3691	as inhibitors 1877
effect of quinolone antibiotics	Thymidine phosphorylase
2565	in human epidermal keratinocytes 353
metabolism by human liver microsomes 1651	Thymidylate kinase
Thiamine thiazolone	human leukemic, inhibition by dinucleotides 673
effect on pyruvate dehydrogenase	Thymidylate synthase
in brain 4375	activity of polyglutamate metabolites
Thiamine thiazolone pyrophosphate	of CB3717 4047
effect on pyruvate dehydrogenase in	inhibition by 7-OH-methotrexate 3531
brain 4375	Thymidylate synthase inhibitor CB3717
Thiobenzamide	dipyridamole potentiation of
S-oxidation by liver microsomes from	toxicity in A549 cells 2113
diabetic rats 3455	Thyroid hormones
6-Thioguanine	effect on Na ⁺ -H ⁺ exchange in renal
effect of benzamides on cytotoxicity	brush border membranes 1699
2155 Thiols	Thyroliberin effect on prolactin secretion and
	TITUE OF PIOTACCIN DECICEION AND

	Trazodone
activation of adenylate cyclase	effect on p-hydroxyphenylglycol in
3133	brain $\overline{2}069$
Thyrotropin-releasing hormone	Triacylglycerols
insulin-like action on glucoregulation	
4245	in hepatocytes and adipocytes,
effect on tyrosine hydroxylation in	fenoprofen incorporation 1919
adrenal gland 1637	secretion from liver, effect of
Thyroxine	LY 117018 319
	Triadimefon 9
in liver 3201	Triazolam
stimulated Ca2+-ATPase in heart,	effect on PAF-stimulated prostaglan-
effect of calcium channel blockers	din release from kidney 2927
2619	1,2,4-Triazoles
Tiazofurin	inhibition of testosterone hydrox-
enzymic targets in bone marrow 875	ylation by liver microsomes 4643
Tioconazole	Trichothecene T-2 toxin
effect on testosterone hydroxylation	metabolism by blood cells 3193
by liver microsomes 4643	Trifluoperazine
T-kininogen	effect on histamine N -methyltrans-
in plasma, inflammation effects 1099	ferase in skin 2872
Toad	effect on metabolic effects of
effect of angiotensin II on skin 3005	insulin in adipocytes 760
<pre>a-Tocopherol</pre>	effect on plasma membrane potential
effect on PMN function 1089	3785
<-Tocopherolquinone	effect on phosphatidylinositol
inhibition of phylloquine epoxide	kinase in chromaffin granules
reductase 2857	4149
Tolbutamide	effect on polyamine transport in
effect on catecholamine secretion	prostatic cancer cells 2511
and calcium uptake by cultured	effects in progressively doxorubicin
chromaffin cells 983	resistant L1210 cells 185
effect on glucose metabolism in	protein kinase C inhibition 1541
hepatocytes 3177	Triglycerides
hydroxylation by human liver	in liver, effect of malotilate on
microsomes 1137	ethanol induced changes 4341
insulin secretory action 371	Trihexylphenidyl
Toluene	effect on phosphoinositide turnover
effect on liver mitochondria 4439	in striatum 2437
o-Toluidine	Triiodothyronine
effect on xenobiotic transformation	effect on glutathione S-transferases
in rat 2529	in liver 3201
Topoisomerase II	hepatic sulphate conjugation 2859
inhibition by fostriecin 4063	Trimetazidine
in Raji-HN2 cells, effect of	effect on cardiac mitochondrial
nonobiocin 4411	function impaired by monocrotaline
Topoisomerase II gene	4685
altered expression and transcription	Trimethylammonium diphenylhexatriene
in nitrogen mustard-resistant	accumulation in P388 and P388/ADR
human cells 4411	leukemia cells 4253
	\underline{N} -((1,5,9-Trimethyldecyl)-4 \checkmark ,10-
adenosine receptor antagonist 655	dimethyl-8-aza-trans-decal-3β-ol
Trachea	inhibition of cholesterol biosynthe-
ascorbic acid induced binding of	sis in 3T3 fibroblasts 1955
iodocyanopindolol 1421	3-(2,2,2-Trimethylhydrazinium)propion-
choline as a cholinergic receptor	ate
agonist 2747	cardioprotective effect 195
	O,S,S-Trimethyl phosphorodithioate
with alkylating pindolol 3601	metabolism by lung and liver
role of cytochrome P-450 in epithelium	
modulated response to methacholine	metabolism by lung and liver slices
573	3717
Transferrin	Trimetoquinol
secretion by liver of immature and	U46619 antagonism 3023
adult rats, effect of anti-	Trimipramine
microtubule agents 2339	effect on p-hydroxyphenylglycol in
Transferrin-DNA complexes 2405	brain 2069
Transglutaminase	Trinitrobenzene-glutathione
in liver, inhibition by calmodulin	Meisenheimer complex 259
antagonists 1717	Triprolidine
Transketolase	effect on noradrenaline and 5-HT
in erythrocytes, effect of	uptake by synaptosomes 976
acetaldehyde 2100	Troponin C

m	
Troponin C	U46619(contd.)
felodipine binding 3723	TXA2/PGH2 receptor antagonists
Troxerutin	3923
scavenging of superoxide anions 837	stimulated hepatic glycogenolysis
Tryptamine	and vasoconstriction, effect of
_ interaction with cigarette smoke 3729	phenylarsine oxide 1167
Tryptase	U74500A
in lung mast cells, kininogenase	inhibition of lipid peroxidation
activity of 1473	3853
Tryptophan hydroxylase	UK 14,304
in brain of scorbutic guinea pigs,	binding to platelet membranes,
effects of methamphetamine 3477	temperature effects 2815
T-2 toxin	Umbilical artery
metabolism by blood carboxylesterases	methylamine deamination 707
3193	Uracil mustard
Tubulin	DNA sequence selective alkylation
effect of <u>N</u> -alkyl colchiceineamides	1799
on GTP or taxol-induced assembly	Uric acid
2487	effect on lipolysis 3215
in chick embryo muscle, effect of	Uridine diphosphate-glucose dehydrogen-
parathion and methylparathion	ase
3251	in liver, effect of eugenol 799
cornigerine interactions 2445	Uridine diphosphate-glucose pyro-
inhibition of polymerization by	phosphorylase
1 1 1	Echinococcus multilocularis meta-
vinblastine binding 2691	cestodes, effect of isatin
vincristine complex in kidney	derivatives 759
cytosol 1251	Uridine diphosphate-glucuronyltrans-
Tumorigenesis	ferase
hamster 3565	in hepatoma cells 4111
Tumours	in intestine
sequential cytotoxic and cytostatic	human, immunocharacterization
therapy 149	of isoenzymes 564
Tunicamycin	villus crypt cells 177
<u>in vivo</u> effect on intestinal brush	in kidney, human, immunocharacteriz-
border membrane glycoenzymes 4081	ation of isoenzymes 564
H-Tyr-D-Ala-Gly-N-Me-Phe-Gly-ol	in liver microsomes
effect on muscarinic receptor function	
in chromaffin cells 395	effect of eugenol 799
p-Tyramine	effects of glucagon, vasointest-
interaction with cigarette smoke 3729	inal peptide and secretin 3526
H-Tyr-D-Ser-Gly-Phe-Leu-Thr-OH	effect of gossypol 4590
effect on muscarinic receptor	human, immunocharacterization of
function in chromaffin cells 395	isoenzymes 564
Tyrosine	human, morphine glucuronidation
in brain and plasma, effect of	2839
antidepressants 2069	human, paracetamol metabolism 4405
hydroxylation in striatum, effect of	human, substrate specificity 665
heterocyclic amines 3289	3-methylcholanthrene inducible
role in imipramine induced lowering	1439
of p-hydroxyphenylglycol in brain	effect of prochlorperazine 1259
2059	senescent mice 241
Tyrosine-directed alkylating agents	Uroporphyrinogen decarboxylase
effect on muscarinic cholinergic	in chick embryo liver cells, xeno-
receptors in brain and heart 3787	biotic inhibition of 1123
Tyrosine hydroxylase	Ursodeoxycholate
in adrenal	hepatic transport 209
effect of dopamine 1391	Uteroglobin
effect of thyrotropin-releasing	inhibition of phagocyte chemotaxis
hormone 1637	389
Tyrosine protein kinases	Uterus
flavonoids as inhibitors 2987	β-adrenergic receptor affinity of
LIGVOROLGS GS IMILOTEOLS 2707	atenolol and metoprolol 203
	estrogen-nitrosourea conjugate
U44069	
	interaction with estrogen
effect of SK&F 94120 on platelet	receptor 2625
responses to 2315	
U46619	Valamata
activated platelets	Valproate
antagonism by trimetoquinol 3023	effect on cefazolin binding to
effect of azido-BSP 491	HSA 2807
effect of fatty acids 481, 1275	induced hyperammonemia and hypoketo-
binding in platelets, effect of	nemia in cultured hepatocytes,

Valproate(contd.) protective effect of carnitine	Vero cells HSV-l infected, buciclovir metabolism
2255 inhibition of 4-hydroxyandrostene- dione glucuronide formation 4581	and effects 1925 Villus crypt surface conjugases 177
effect on neurotransmitter amino acids in brain 4445	monooxygenases 169 Vinblastine
Vanadium post-binding modulator of insulin	effect on azidopine photoaffinity labeling of MDRGs 1417
action 1891	binding to tubulin 2691
Vancomycin antibiotics	effect on catecholamine secretion
molecular basis of activity 133	from chromaffin cells 3357
Vascular endothelial cells	effect on secretion of liver
effect of pentosan polysulphate on	protein 2339
proliferation 4281 Vascular smooth muscle	Vincristine accumulation in ovarian cancer cells
a-adrenoceptor sites 4055	monoclonal antibody effects 2389
effect of amiloride on contraction	pharmacokinetics and arrest of
813	mitosis in tumours 3995
atrial natriuretic factor induced	tubulin complex in kidney cytosol,
cyclic GMP accumulation 2105,2109 effect of felodipine 1569	role of GTP 1251 Vinylidene chloride
inhibition by lipoxygenase products	effect on sulfation in rats 4307
of TXA2-like responses 1275	Virus
vasopressin V ₁ receptors and inter-	effect of DNA gyrase inhibitors 1885
receptor regulation 2105	interaction of antiviral agents
Vascular tone role of endothelium-derived relaxing	with DNA synthesis 1789 Virus-encoded proteins 3947
factor 2495	Vitamin D analogue MC 903
Vasoactive intestinal peptide	effect on cell differentiation and
effect on UDP-glucuronyltransferases	proliferation <u>in</u> <u>vitro</u> and on
in liver 3526	calcium metabolism <u>in vivo</u> 889
Vasoconstriction evoked calcium mobilization, effect	Vitamin E effect on action of fish oil on
of cyclosporin A 4205	fatty acid and eicosanoid
hepatic, effect of phenylarsine	production in blood 3415
oxide 1167	effect on tetrahydroaminoacridine
Vasodilators	toxicity in hepatocytes 2311
effect of PGE _l on effects of 2659 Vasopressin	Vitamin K warfarin metabolism and action 19
action on hepatocytes, effect of	Vitamin K deficiency
quinacrine 161	heterocyclic thiol compounds-
control of hepatic cyclic AMP 3447	induced hypothrombinemia 2091
induced Ca ²⁺ release in hepatocytes,	Vitamin K epoxide reductase tissue distribution and warfarin
effect of neomycin 1357 stimulated glycogenolysis, effect	sensitivity 929
of phenylarsine oxide 1167	Vitamin K reductases
(Arg ⁸)Vasopressin	in liver of normal and warfarin-
induced calcium mobilization, effect	resistant rats 2876
of cyclosporin A 4205 Vasopressin Vl receptors	
in vascular smooth muscle 2105	W-7
Verapamil	effect on streptozotocin-induced
antiperoxidative effect 4197	DNA damage 3441
effect on Ca ²⁺ -ATPase in heart 2619 effect on calmodulin stimulated red	Walker tumour cells
cell Ca ²⁺ , Mg ²⁺ -ATPase 917	CB 1954 cytotoxic metabolite in 4661, 4671
effect on cardiac glycoside	Warfarin
transport in liver 2949	binding site in HSA 3905
effect on drug toxicity in 9-hydroxy-	metabolism by liver, stereoselectiv-
ellipticine-resistant cells 613 effect on fatty acid metabolism in	ity 85 metabolism and mode of action 19
hepatocytes 1463	plus salicylate, anticoagulation
stereoselective protein binding 4623	effects 4743
effect on tetracycline cytotoxicity	sensitivity of vitamin K epoxide
3038	reductase in rat tissues 929
effect on theophylline metabolism by human liver microsomes 1651	effect on vitamin K-dependent enzymes in liver 2876
effect on tolbutamide hydroxylation	enzymes in liver 2876 Warfarin hydroxylase
by human liver microsomes 1137	in liver microsomes, effect of
Veratridine	chloramphenicol <u>in</u> <u>vivo</u> 3046
effect on histamine release and	Wheat
calcium uptake in mast cells 3523	benzodiazepines in 3549
