

## ANNOUNCEMENT

### SYMPOSIUM

#### PLASMA BINDING OF DRUGS AND ITS CONSEQUENCES

27–28 September 1990  
Ghent, Belgium

*Organizers:*

F. M. Belpaire, M. G. Bogaert, J. P. Tillement and R. Verbeeck

*Main topics:*

Types and Mechanisms of Drug Binding (thermodynamic aspects, dissociation rates, covalent binding, stereoselectivity)  
Variability in Drug Binding (pharmacogenetics, species differences, renal failure, aging, enzyme induction)  
Pharmacokinetic, Pharmacodynamic and Clinical Consequences of Drug Binding

The Symposium will be open to all those interested in protein binding problems. They can present their findings during a poster session.

*For further information:*

Dr F. Belpaire
