

ANNOUNCEMENT

THE U.K. ASSOCIATION OF PHARMACEUTICAL SCIENTISTS ANNUAL CONFERENCE

University of Exeter, U.K., 5–8 April 1993

The second 3-day scientific meeting of the UKaps will revolve around six main scientific themes each of which will be addressed by an internationally renowned invited speaker:

- Drug design/medicinal chemistry.
- Metabolism/pharmacokinetics.
- Material science/pharmaceutical technology.
- Drug delivery/drug targeting.
- Membrane transport.
- Biochemical pharmacology.

Contributions are invited, from all those working within the broad area of the pharmaceutical sciences, as both oral presentations and posters. There will also be Poster Discussion sessions at which all authors will be invited to contribute a brief oral synopsis of their poster presentation for discussion.
