

ANNOUNCEMENTS

E.S.B.P. 14th EUROPEAN DRUG METABOLISM WORKSHOP

Paris, France, 3–8 July 1994

Main sessions. Novel aspects in phase I and phase II enzymes. Variability in expression of drug metabolizing enzymes. Which tools for which applications? Drug metabolism and drug toxicity. Xenobiotic or endobiotic metabolizing enzymes? Extrahepatic drug metabolism. Implications of drug metabolism in clinic and in drug development.

Keynote lectures. New trends in human cytochromes P450. Induction, fundamental and practical implications. Diversity of reactions catalysed by drug metabolizing enzymes.

Educational and practical sessions. Molecular biology applied to drug metabolism. Analytical tools for drug metabolism. Which (iso)enzyme produces which metabolite? Covalent binding, toxicology and immunotoxicology. Molecular modeling and drug metabolism.

WORKSHOP ON THE SUPERFAMILY OF RECEPTORS FOR GROWTH HORMONE, PROLACTIN, ERYTHROPOIETIN AND CYTOKINES

Haifa, Israel, 7–11 November 1993

The Workshop is aimed at reviewing comparative results on the various hormones in this superfamily of receptors, in the fields of molecular biology, signal transduction, physiology, model systems, assay methods, pharmacology and clinical applications.

Communications related to the workshop theme are welcome from basic and clinical investigators.

Deadline for submission of abstracts is 1 August 1993.

Travel Grants will be awarded to young investigators whose abstracts will be accepted for the poster sessions.
