

ANNOUNCEMENT

GORDON RESEARCH CONFERENCE ON THE BARRIER PROPERTIES OF MAMMALIAN SKIN

Plymouth State College, Plymouth, NH, U.S.A., 16–20 August 1993

Main sessions. Biophysics of stratum corneum lipids. Physiologic maintenance of epidermal barrier. Biological factors of barrier function. Immunological aspects of barrier function. Electrical properties of epidermal barrier. Electrochemical properties of barrier. New concepts in skin transport. Do liposomes and particles penetrate the stratum corneum? Epidermal barrier function.
