

SUBJECT INDEX

- A_{2B} receptors
 - pharmacological characterization of, 627
- Acetaminophen
 - hepatotoxicity, alcohol effects on increases in, 1557
 - olfactory toxicity, in *Cyp1a2* mouse, 1819
- Acetone
 - effects, cytochrome P450 isozyme content and monooxygenase activity in kidney, 123
- 3-Acetylaconitine
 - effects, [³H]noradrenaline uptake in hippocampus, 883
- Acetylation
 - in cancer cells, in response to ROS, 1119
- Acetyl-L-carnitine
 - effects in hyperammonemic mice, 1853
- Acetylcholine receptor
 - nicotinic, amino acids involved in nicotine binding, 341
- Acetylcholinesterase
 - inhibited, organophosphorus hydrolase and oxime effects on reactivation rates of, 159
- N-Acetyltransferase
 - arylamine, genotyping of, 361
 - cell distribution of, in rat small intestines, 1475
- Acinar cells
 - pancreatic
 - FGF effects on amylase release and calcium increase in, 903
 - vanadate effects on amylase release from, 677
 - parotid, benzodiazepine receptor characterization in salivary gland and, rat, 209
- Aconitum alkaloids
 - effects, in hippocampus, 883
- Actinomycin D
 - leptin release, in rat adipocytes, 1309
- Activan
 - cellular and system function regulation role, 953
- Acyl-CoA synthetase
 - medium chain, molecular specificity for substrates/inhibitors, 1769
- N-Acylethanolamine
 - formation of, 719
- N-Acyl-phosphatidylethanolamine
 - formation of, 719
- Adaptive response
 - to DNA-damaging agents, mechanisms of, 941
- Adenosine
 - effects, energy metabolism and biosynthesis in central neurons, 141
- Adenosine A_{2B} receptors
 - desensitization of, 873
 - pharmacological characterization of, 627
- Adenosine binding protein
 - heterogeneous forms of, 455
- Adenosine 3',5'-cyclic monophosphate
 - adenosine A_{2B} receptors, pharmacological characterization of, 627
- Adenosine 3',5'-cyclic monophosphate (cAMP)
 - co-expression, with opposite effects, 239
- Adenosine 3',5'-cyclic monophosphate (cAMP) (cont.)
 - ethanol effects during pregnancy and, 45
- Adenosine 5'-triphosphate
 - P2 receptors in lung and, 687
- Adenosine receptors
 - co-expression and desensitization of, in NG108–15 cells, 595
- s-Adenosyl methionine
 - regulation in SH-SY5Y neuroblastoma cells, 567
- Adenotin
 - heterogeneous forms of, 455
- Adenylyl cyclase
 - co-expression and desensitization, in NG108–15 cells, 595
 - ethanol effects during pregnancy, 45
 - prostaglandin receptor co-expression and, 239
- Adhesion proteins
 - monocytes, endothelial cells and, curcumin effects on, 775
- Adipocytes
 - actinomycin D stimulation of leptin release in, 1309
- Adipose tissue
 - C/EBP α and β effects by TCDD in, mouse, 1647
 - weight of, TCDD effects on, 1077
- Adrenergic receptor
 - ligand efficacy and potency at, 1035
- β -Adrenergic receptor kinase
 - in neuroblastoma x rat glioma NG108–15 hybrid cells, 65
- β_1 -Adrenergic receptors
 - activation by retinoic acid in teratocarcinoma cells, 215
- α_2 -Adrenergic receptors
 - ligand efficacy and potency at, 1035
- Aging
 - antioxidant effects against oxidative stress and, 785
- Ah receptor
 - depletion after 2,3,7,8-tetrachlorodibenzo-*p*-dioxin treatment, 489
 - fluoranthene inhibition of CYP1A1 activity and, 831
 - phospholipase A₂ activation in oxidatively stress 14CoS/14CoS hepatocyte cell line and, 193
- Ahr-null mouse
 - phenobarbital effects on hepatic CYP1A1 and CYP1A2 in, 235
- Ahyrium niponicum
 - sulfolipids as inhibitors of DNA polymerase in, 537
- Albumin
 - anthracycline cytostatic binding to, 27
- Alcohol
 - acetaminophen hepatotoxicity and, 1557
- Alcoholism
 - mitochondrial aldehyde dehydrogenase inhibition by disulfiram metabolites and, 1099
 - nitric oxide release in alveolar macrophages and, 21
- Aldehyde dehydrogenase
 - aryl hydrocarbon receptor genes in rat liver and, 413
 - inhibition of, in tumor resistance, 465

- Aldehyde dehydrogenase (cont.)
 liver, inhibition by DETC-MeSO and DETC-MeSO₂, 749
 mitochondrial, inhibition by disulfiram metabolites, 1099
 nitroxyl inhibition of, 2007
- Aldophosphamide
 aldehyde dehydrogenase role in tumor resistance to, 465
- Allergic reactions
 cromolyn-induced phosphorylation inhibition by phorbol esters in peritoneal mast cells and, 585
 spirulina effects on, rats, 1071
- Alligator mississippiensis*
 liver microsomes of, CYP time course by phenobarbital and 3-methylcholanthrene pretreatment, 1513
- Alloxan
 dehydroascorbate and, similarities in metabolism of, 1301
- All-*trans* retinoic acid (ATRA)
 apoptosis induction by, 177
- Alveolar macrophages
 nitric oxide release and, in iron overload and alcoholism, 21
- Alzheimer's disease
 cholinesterase-associated aryl acylamidase activity inhibition by anticholinesterase agents and, 1733
 methionine adenosyltransferase and mRNA regulation in neuroblastoma cells and, 567
- Amino acids
 nicotinic acetylcholine receptors, involved in nicotine binding, 341
- Aminocarboxymuconate-semialdehyde decarboxylase
 hepatic, after clofibrate or pyrazinamide diet, rats, 367
- Aminoguanidine
 with pyridoxal phosphate, formation of Schiff base of, 1667
- 3'-Amino-3'-deoxythymidine
 metabolism of AZT to, cytochrome P450 and b₅ role in, 757
- Aminosalicylate
 phosphatidic acid formation inhibition and, 1489
- Aminosteroid
 antioxidant action against lipid peroxidation, 785
- Aminothiols
 leukemia cell proliferation effects, 793
- Amylase release
 from pancreatic acini, vanadate effects on, 677
- Amylase secretion
 FGF effects on, in rat pancreatic acinar cells, 903
- Analgesia
 opioid, blockade by orphanin Fq/nociceptin, 1537
- Anandamide
 formation of, 719
- Androgen receptors
 estramustine phosphate antagonistic effects on, 1427
- Angiogenesis
 thalidomide inhibition of, 1827
- Angioplasty
 vasospasm induced by, fantofarone effects on, in atherosclerosis, 2047
- Angiotensin II
 Ca²⁺ effects, in cardiomyocytes, 481
 receptors, Ca²⁺ mobilization in cardiomyocytes by, 1413
- Annexin I
 dexamethasone suppression of iNOS and, 279
- Anoxia
 organotellurium antioxidative properties and, 573
- Anthracycline
 blockade of T antigen helicase action, 1025
- Antibiotic agents
 tautomycin, effects, protein phosphatase and apoptosis in leukemia Jurkat cells, 995
- Anticholinesterase agents
 aryl acylamidase inhibition by, 1733
- Antiestrogens
 clomiphene analogs, breast cancer effects, 841
- Antihyperglycemic drugs
 metformin, role, stimulation of insulin receptor in diabetes, 533
- Anti-inflammatory drugs
 Δ6/Δ5 fatty acid desaturase inhibitor as, 1045
 nonsteroidal: see Nonsteroidal anti-inflammatory drugs
- Antimalarial agents
 camptothecin effects, 709
 mechanism for hematin polymerization inhibition, 727
- Antineoplastic agents
 bleomycin and asparaginase, allergic and inflammatory responses of, 447
- Antioxidant effects
 of catechol derivatives, 2001
 of mibefradil, 1843
- Antioxidants
 21-aminosteroid U74006F as, against lipid peroxidation, 785
 myricetin, phenoxyl radicals and, 1399
 organotellurium, in cell systems, 573
 resveratrol interaction with plasma lipoproteins and, 811
 thiol, redox signaling and, 1747
- Antioxidant synergism
 low density lipoprotein oxidation by ferrylmyoglobin and, 333
- Antiproliferative activity
 triphenylethylenes and, 841
- Antisense mechanisms
 of oligonucleotides, 9
- Antisense oligonucleotides
 pharmacologic effects of, 9
 plasma membrane protein interaction with oligodeoxynucleotides and, 1221
- Antitumor activity
 capecitabine role, delivery of 5-fluorouracil in cancer xenografts, 1091
- Antitumor agents
 compound D609, DNA synthesis stimulation by, 915

- Antitumor agents (cont.)
 effects, estrogen and progesterone receptors, 273
 EO9, pharmacological and biological determinants of, 253
 hexahydrocolupulone, 505
 2-imidazolyl disulfides, thioredoxin growth factor inhibition by, 987
 N-propionyl-4-*S*-cysteaminylphenol, 2023
 vinflunine, antimitotic and tubulin-interacting properties of, 635
- Antiviral agents
 compound D609, DNA synthesis stimulation by, 915
 deoxyhypusyl hydroxylase inhibitors, 1807
- Aorta
 inducible nitric oxide synthase expression in, 279
 smooth muscle cells in, iNOS gene promoter cloning and analysis in, 1873
- Apoptosis
 aspirin effects on, in colon adenocarcinoma cells, 53
 cisplatin resistance effects, 1247
 etoposide-induced, protein tyrosine phosphorylation role in, 185
 in glioblastoma cells, by inhibition of PKC, 1711
 hepatocellular carcinoma and, tamoxifen and doxorubicin efficacy in, 523
 induction
 by all-*trans* retinoic acid, 177
 by tautomycin, 995
- Arachidonic acid
 $\Delta 6/\Delta 5$ fatty acid desaturase inhibitor as anti-inflammatory agent and
 metabolism, estradiol effects on, 101
 release, oxidatively stressed 14CoS/14CoS liver cell line, 193
 surfactin suppression of inflammatory responses and, 975
 TNCB effects on 5-lipoxygenase activity and leukotriene synthesis and, 863
- 2-Arachidonoylglycerol
 NAPE and NAE formation in brain and, 719
- Arginase
 inhibition of, by α -difluoromethylornithine in colon cancer cells, 1241
- Aromatic compounds
 protein phosphatase 2A modulation by aromatic compounds and, 1105
- Arrhythmias
 HERG K⁺ channels and, 1741
- Articular cartilage
 tetracycline effects on, 93
- Aryl acylamidase
 inhibition by anticholinesterase agents, 1733
- Arylamine
 N-acetyltransferase, genotyping of, 361
- Aryl hydrocarbon hydroxylase
 in rat liver myofibroblasts, 703
- Aryl hydrocarbon receptor
 drug-metabolizing enzyme induction in, 1155
- Aryl hydrocarbon receptor genes
 in rat liver, 413
- Ascorbate
 oxidation of, ubiquinone effects on, 85
- Ascorbic acid
 peroxidase and, cytoprotection by, 1497
- Asparaginase
 leukotriene production modulation, 447
- Aspirin
 anti-inflammatory properties of, 543
 colorectal tumorigenesis and, 53
- Astemizole
 Ca²⁺ stores and influx effects, rat basophilic leukemia cells, 1255
- Astrocytoma
 peripheral-type benzodiazepine binding site inhibition of, 397
- Atherosclerosis
 estrogens and, 101
- ATPase activity
 in retina, taurine effects on, 557
- ATRA: *see* All-*trans* retinoic acid
- Atria
 histamine-induced chronotropic action in, IT-066 interaction with, 151
- Atrial natriuretic peptides
 receptors in chromaffin cells, 1
- Auranofin metabolites
 erythrocyte selenium-glutathione peroxidase inhibition by, 1291
- Autophosphorylation
 platelet-derived growth factor receptor, indolocarbazole role in measuring, 261
- Azidothymidine (AZT)
 HIV-1 and, 3TC and quinoxaline HBY 097 replication, 617
 liver P450s and cytochrome *b*₅ role in metabolism of, 757
- AZT: *see* Azidothymidine
- Baculovirus system
 expression of CB2 cannabinoid receptor, 1893
- BAPTA: *see* 1,2-Bis(2-Aminophenoxy)Ethane *N,N,N',N'*-tetraacetic acid
- Benzoate hydroxylation
 peroxynitrite-mediated oxidation and, diaryl telluride protection against, 817
- Benzodiazepine binding site
 peripheral-type, glioma and astrocytoma inhibition by, 397
- Benzodiazepine receptors
 characterization in salivary glands, 209
- O⁶-Benzylguanine derivatives
 ester prodrugs of and rate of hydrolysis, 1701
- Bidentate iron(III) chelators
 radical scavenging ability of, 1327
- Biochemical Pharmacology
 subject index for volume 54, 920

- Bioflavonoids
 transport across Caco-2 cells, 1721
- Bioreductive enzymes
 indoloquinone EO9 and, antitumor activity of, 253
- Biotransformation
 cell-mediated, from S-nitrosoglutathione, 657
 glucoronidation by renal UDP-glucuronosyltransferases, 1005
- 1,2-Bis(2-Aminophenoxy)Ethane *N,N,N',N'*-tetraacetic acid (BAPTA)
 iron binding and inhibition in oxidative cell injury, 287
- Bis(glutathionato)gold(I)
 erythrocyte selenium-glutathione peroxidase inhibition and, 1291
- Bistratene A
 stimulation of melanogenesis in melanoma cell line, 1691
- Bleomycin
 leukotriene production modulation, 447
- Body weight
 TCDD effects on, 1077
- Bone morphogenetic proteins
 encrypted morphogens of skeletogenesis and, 373
- Bone resorption
 genistein effects on, 71
- Bowel disease, inflammatory: *see* Inflammatory bowel disease
- BQ-78
 electrophysiology of, in ventricular cardiomyocytes, 897
- BQ-123
 electrophysiology of, in ventricular cardiomyocytes, 897
- Bradykinin
 host defense in inflammation and, 105
- Brain
 cortical membranes, G proteins and cholecystokinin receptors in, 423
 cytochrome P450 mRNA distribution in, 825
 neuroblastoma cells, methionine adenosyltransferase and mRNA regulation in neuroblastoma cells and, 567
- Brain ischemia
 NAPE and NAE formation in brain and, 719
- Breast cancer
 clomiphene analogs effects in vitro and in vivo, 841
 oxazaphosphorines and, aldehyde dehydrogenase role in tumor resistance to, 465
- Bronchia
 prostaglandin receptor co-expression, with opposite effects and, 239
- Buthionine sulfoxime
 treosulfant toxicity and, in malignant glioma, 349
- Butyrylcholinesterase
 inhibition of, by anticholinesterase agents, 1733
- Ca²⁺
 angiotensin II effects on, in cardiomyocytes, 481
 ethanol exposure effects, arachidonic acid specific phospholipase A₂, 515
- Ca²⁺ (cont.)
 nitric oxide role in homeostasis, 713
- Caco-2 cells
 quercetin and glucosides transport across, 1721
- Caffeic acid
 low density lipoprotein oxidation by ferrylmyoglobin and, 333
- Caffeine hydroxylation
 in Wistar and Dark Agouti rats, 1405
- Caffeine N3-demethylation
 flavonoid inhibition of, 1369
- Ca²⁺ flux
 astemizole effects on, in rat basophilic leukemia cells, 1255
- Calbindin-D28kDa
 cyclosporine A-induced decrease in, rat kidney, 2043
 protein, cyclosporine A-induced decrease in, rats, 1131
- Calcium
 FGF effects on, in rat pancreatic acinar cells, 903
 neutrophil migration and, thimerosal effects on, 305
 oxidant-mediated cell injury and, 287
 Src involvement in vitamin D signaling in keratinocytes and, 499
- Calcium-binding protein calbindin-D28kDa
 cyclosporine A-induced decrease in, rats, 1131
- Calcium channel blockers
 synergy, chloroquine resistance in *Plasmodium falciparum* and, 433
- Calcium ionophore A23187
 phospholipase A₂ activation in oxidatively stress 14CoS/14CoS hepatocyte cell line and, 193
- Calcium uptake
 chelerythrine inhibition of, taurine effects, in rat retina, 557
- Caloric intake
 imidazoline receptors and, 649
- cAMP: *see* Adenosine 3',5'-cyclic monophosphate
- cAMP cascade
 inhibition by cannabinalol, 1013
- cAMP production
 desensitization of adenosine A_{2B} receptors and, 873
- Camptothecin
 DNA damage and synthesis and c-myc suppression by, in MCF-7 breast tumor cells, 1263
 effects, *Plasmodium falciparum*, 709
 spectroscopic and biochemical characterization of self-aggregates of, 1163
- Cancer
 antioxidant effects against oxidative stress and, 785
- Cancer therapy
 antisense oligonucleotides and, 9
 buthionine sulfoxime, treosulfan toxicity in malignant glioma, 349
 EO9, pharmacological and biological determinants of, 253
 hexahydrocolupulone, role, inhibition of tumor cell growth, 505

- Cancer therapy (cont.)
 novel therapeutic strategies for, 247
- Cannabinoid
 NAPE and NAE formation in brain and, 719
- Cannabinoid receptor
 baculovirus system expression of, 1893
- Cannabinol
 cAMP cascade inhibition by, 1013
- Capecitabine
 role, delivery of 5-fluorouracil in cancer xenografts, 1091
- Carbamoylation
 glutathione, with DETC-MeSO and DETC-MeSO₂, 749
- Carboxylesterase inhibitors
 prevention of tolerance to paraoxon, 1419
- Carcinoma: *see* specific types
- Cardiomyocytes
 angiotensin II effects on Ca²⁺ in, 481
 Ca²⁺ mobilization in, by angiotensin II receptors, 1413
 ventricular, BQ-123 electrophysiology and, 897
- Cardiovascular system
 prostaglandin receptor co-expression, with opposite effects and, 239
- Carnitine transporter deficiency
 gene-dose effects in embryonic fibroblasts, JVS mice, 1729
- Carrageenin pleurisy
 nitric oxide and prostaglandin relationship in, 1113
- Catalase
 regulation of cyclooxygenase gene expression in smooth muscle cells, 1621
- Catechol derivatives
 antioxidant activity of, 2001
- CD11b expression
 neutrophil migration and, thimerosal effects on, 305
- cDNA expression
 diazepam conversion to temazepam and, 889
- Cell culture
 chemical inducer effects on microsomal epoxide hydroxylase, in primary hepatocytes, 1059
- Cell cycle modifications
 adaptive response to DNA-damaging agents and, 941
- Cell proliferation
 peripheral-type benzodiazepine binding site and, 397
- Cellular function
 regulation by activin, 953
- Cellular homeostasis
 regulation by activin, 953
- Cellular protection
 by O-Trensox, 1797
- Central nervous system
 adenosine effects on energy metabolism and biosynthesis in, 141
- Ceramide antagonists
 protein phosphatase 2A modulation by aromatic compounds and, 1105
- Cerebellum
 adenotin-1 levels in, 455
- Chelerythrine
 calcium uptake inhibition in retina, taurine effects on, 557
- Chemotaxis
 neutrophil migration and, thimerosal effects on, 305
- Chemotherapy
 antimalarial, camptothecin and, 709
 apoptosis induction by all-*trans* retinoic acid and, 177
 hepatocellular carcinoma, tamoxifen and doxorubicin efficacy in, 523
 novel therapeutic strategies for, 247
 P-glycoprotein and, cytochrome P450 3A effects on, 387
 treosulfan toxicity by buthionine sulfoxime, in malignant glioma, 349
 vinflunine, antimitotic and tubulin-interacting properties of, 635
- Chlamydia trachomatis*
 nitric oxide role in cytochrome P450 inhibition in liver, 1835
- 2-Chloro-1,3-dinitrobenzene
 NF- κ B inhibition and, 965
- Chloroquine
 hematin polymerization and, promotion and in vitro initiation of, 737
 resistance, *Plasmodium falciparum* and, verapamil and fantofarone synergy in, 433
- 1-Chloro-2,4,6-Trinitrobenzene
 effects, 5-lipoxygenase activity and leukotriene synthesis, 863
- Cholecalciferols
 Src involvement in vitamin D signaling in keratinocytes and, 499
- Cholecystokinin
 amylase release and, FGF effects on, in pancreatic acinar cells, 903
 receptors, G proteins and, in rat cortical membranes, 423
- Chordin
 bone morphogenetic proteins and, 373
- Chromaffin cells
 adrenal, natriuretic peptides in, 1
- Chromatography
 high-performance liquid, diazepam conversion to temazepam and, 889
- Cisplatin resistance
 drug accumulation and DNA damage in tumor cells with, 1247
- c-jun* Gene expression
 after doxorubicin exposure, 1963
- 8-Cl-cyclic AMP
 effects, estrogen and progesterone receptors, 273
- Clofibrate
 hepatic pyridine nucleotide levels after, 367
- Clomiphene analogs
 breast cancer effects, 841
- Clonidine
 imidazoline receptor proteins and, 649

- c-myc Gene expression
after doxorubicin exposure, 1963
- Colon
adenocarcinoma cells, aspirin effects on, 53
cancer cells
arginase activity inhibition by α -difluoromethylornithine in, 1241
ornithine decarboxylase inhibition by nitric oxide in, 1235
- Colorectal cancer
5-fluorouracil and CPT-11 interactions in, 667
- Colupulone
role, inhibition of tumor cell growth, 505
- Compound D609
DNA synthesis stimulation by, 915
- Connexin43
expression by thyroid hormones and, 475
- Contraception
population overgrowth and, 383
- Copper chelation
resveratrol and, 811
- Copper oxidation
thyronine and derivatives effects on, 1591
- Cortical membranes
G proteins and cholecystokinin receptors in, 423
- 14CoS/14CoS hepatocyte cell line
phospholipase A₂ activation in, 193
- p-Coumaric acid
low density lipoprotein oxidation by ferrylmyoglobin and, 333
- CPT-11
5-fluorouracil and, interaction, in colorectal cancer, 667
- CREB binding protein
cell cycle regulation of, 1947
- Curcumin
inhibition of NF- κ B, 775
inhibition of proliferation effects, 1333
monocyte adhesion to endothelial cells and, 775
NF- κ B inhibition and, 965
NOS gene expression inhibition by, 1955
- Cyanide
detoxification of, by cysteine, 1983
- Cyclic ADP ribose
nitric oxide role in Ca²⁺ homeostasis and, 713
- Cyclic AMP
prostaglandin receptor co-expression and, 239
- Cyclic GMP
nitric oxide role in Ca²⁺ homeostasis, 713
- Cyclooxygenase
gene expression, regulation by catalase in smooth muscle cells, 1621
host defense in inflammation and, 105
- Cyclooxygenase-1
NSAIDs as inhibitors of, biochemical pharmacology of, 543
- Cyclooxygenase-2
NSAIDs as inhibitors of, biochemical pharmacology of, 543
phospholipase A₂ activation in oxidatively stress 14CoS/14CoS hepatocyte cell line and, 193
- Cyclophosphamide
aldehyde dehydrogenase role in tumor resistance to, 465
- Cyclosporine
calbindin-D28kDa decrease and, rats, 1131
calbindin-D 28kDA decrease due to, rat kidney, 2043
- CYP: see Cytochrome P450
- CYP2C18
CYP2C19 and, linkage alleles of, 2039
- Cysteamine
leukemia cell proliferation effects, 793
- Cysteine
cyanide detoxification by, 1983
endogenous nucleophile elevation in lung and, rats, 1573
- Cytochrome b₅
liver, role, metabolism of AZT to 3'-amino-3'-deoxythymidine, 757
- Cytochrome c oxidase
restoration with acetyl-L-carnitine, hyperammonemic mice, 1853
- Cytochrome P450
caffeine hydroxylation and, in Wistar and Dark Agouti rats, 14057
diazepam conversion to temazepam and, 889
in *Escherichia coli*, catalytic activity of, 1315
induction time course, in *Alligator mississippiensis*, 1513
isozyme content and monooxygenase activity in kidney, 123
liver, role, metabolism of AZT to 3'-amino-3'-deoxythymidine, 757
liver enzymes, growth hormone overexpression in, 1481
mRNA, distribution in brain, 825
nitric oxide role in inhibition of, in *Chlamydia trachomatis*-infected liver, 1835
reductase, indoloquinone EO9 and, antitumor activity of, 253
in vivo drug interactions and, 113
- Cytochrome P450 1A1
cytokine-mediated down-regulation of, 1791
hepatic, phenobarbital effects on, *Ahr*-null mouse, 235
inhibition by fluoranthene, 831
- Cytochrome P450 1A2
hepatic, phenobarbital effects on, *Ahr*-null mouse, 235
- Cytochrome P450 3A
induction by zolazepam, 201
induction of, 1881
p-glycoprotein expression modulation in rat liver, 387
- Cytochrome P450 3A4
prosubstrates of, 1861
- Cytochrome P450 2B
fluvastatin-inducible, dexamethasone regulation of, 1435
induction by zolazepam, 201

- Cytochrome P450 2B6
inhibitory/immunoblotting monoclonal antibody to, 1633
- Cytochrome P450 2E1
vinyl chloride metabolism by liver microsomes and, 1445
- Cytokines
cytochrome P450 1A1 down-regulation and, 1791
host defense in inflammation and, 105
islet β -cell destruction and insulin-dependent diabetes mellitus and, 1139
receptor modulation by leflunomide, 1523
- Cytoprotection
by ascorbic acid-peroxidase interactions, 1497
of mibefradil, 1843
- Cytostatic agents
adaptive response to DNA-damaging agents and, 941
- Cytotoxicity
cell-mediated, P-glycoprotein expression in NK cells, 1385
of hydroxylamine metabolites of sulfamethoxazole and dapsone, 803
of parabens, rat hepatocytes, 1907
ubiquinone, effects on neuroblastoma cells, 85
vincristine, in leukemia cells, 1229
in vitro, vinflunine, 635
- Dapsone
sulfamethoxazole and, hydroxylamine metabolite toxicity in, 803
trimethoprim-sulfamethoxazole and, adverse drug reactions between, 803
- Daunomycin resistance
drug membrane permeability in, 131
- Daunorubicin
T antigen helicase blockade and, 1025
- Deferiprone
antiretroviral effects of, 1807
- Dehydroascorbate
alloxan and, similarities in metabolism of, 1301
- Dehydroepiandrosterone
pancreatic islet and RINm5F cell responses to, 1453
- Deoxyhypusyl hydroxylase inhibitors
antiretroviral effects of, 1807
- 1,(2'-Deoxy-2'-fluoro- β -L-arabinofuranosyl)-5-methyluracil 5'-triphosphate
inhibitory effects, Epstein-Barr virus, 1181
- Deoxyribonucleoside triphosphate
depletion of, ribonucleotide reductase effects on, 1353
pool size determination, in ribonucleotide reductase cDNA KB cells, 1657
- Dermatitis
leukotriene B₄ involvement in, 297
- N-Desacetylappaconitine
effects, [³H]noradrenaline uptake in hippocampus, 883
- $\Delta 5$ Desaturase
fatty acid inhibitor, role, anti-inflammatory agent, 1045
- $\Delta 6$ Desaturase
fatty acid inhibitor, role, anti-inflammatory agent, 1045
- Desensitization
of adenosine A_{2B} receptors, 873
of adenosine receptors, in NG108-15 cells, 595
- DETC-MeSO: *see* S-Methyl N,N-diethylthiolcarbamate sulfoxide
- DETC-MeSO₂: *see* S-Methyl N,N-diethylthiolcarbamate sulfone
- Detoxification
organophosphate and oxime effects on reactivation rate of acetylcholinesterase and, 159

 α_2 isoform of Na⁺/K⁺-ATPase in, 1531
- Vasospasm
 angioplasty-induced, fantofarone effects on, in atherosclerosis, 2047
- Verapamil
 effects, chloroquine resistance in *Plasmodium falciparum* and, synergy with fantofarone, 433
- multidrug resistance, in nasopharyngeal carcinoma, 1199
- Vinca alkaloids
 antimitotic and tubulin-interacting properties of, 635
- Vincristine
 cytotoxic activity in leukemia, 1229
- Vinflunine
 antimitotic and tubulin-interacting properties of, 635
- Vinyl chloride metabolism
 by liver microsomes, 1445
- Viral infections
 antisense oligonucleotides and, 9
- Vitamin A
 β_1 -adrenergic receptor gene activation, in teratocarcinoma cells, 215
- Vitamin D
 signaling in keratinocytes, Src involvement in, 499
- Vitamin D receptor
 1,25-dihydroxyvitamin D₃ inhibition of increase, 767
 retinoid X receptor and, binding, 1,25-dihydroxyvitamin D₃ inhibition and, 767
- Vitamin E
 antioxidants against oxidative stress and, 785
- Vitamin K₁ oxide reductase
 warfarin-sensitive, epoxide hydrolase and, 169
- VP-16
 apoptosis, tyrosine phosphorylation role in, 185
 multidrug resistance, in nasopharyngeal carcinoma, 1199
- 3744W
 PDGF receptor autophosphorylation and, 261
- Western blot
 desensitization of adenosine A_{2B} receptors and, 873
- Western blotting
 adenotin-1 characterization by, 455
- Wine polyphenols
 interaction with plasma lipoproteins, 811
- Wortmannin
 effects, HGF-induced changes in glomerular mesangial cells, 227
- Xenobiotic
 glucuronidation by renal UDP-glucuronosyltransferases and, 1005
- Xenografts
 indoloquinone EO9 and, antitumor activity of, 253
- Zolazepam
 cytochrome P450 isozyme induction by, 201
