

SUBJECT INDEX

- A₁-Adenosine receptor
 - nucleoside efflux stimulation and inhibition of adenosine kinase by, 477
- N-Acetylcysteine
 - NF- κ B inhibition by, 427
- Aclarubicin
 - inhibitory effects on nitric oxide in vascular smooth muscle cells, 719
- Acridone carboxamide
 - DACA metabolism to, aldehyde oxidase and, 161
- Adenosine A₁ receptor
 - renal, expression in renal failure, 727
- Adenosine efflux
 - stimulation by A₁-adenosine receptor, 477
- Adenovirus
 - transvascular drug delivery and, 105
- Adipogenesis
 - vitamin A₁ acid stimulation by indinavir and, 1063
- Adrenal medullar cells
 - leptin receptor characterization and functional role in, bovine, 1141
- [Ah] gene battery
 - oxidative stress and, 65
- Aldehyde oxidase
 - DACA metabolism and inhibition by, 161
- Aldose reductase
 - noncovalent inhibitor complex, 329
- Amidohydrolase
 - fatty acid, pharmacologic properties of, using palmitoylethanolamide as substrate, 647
- Amino acid
 - brain levels of, changes after phenelzine administration, 1253
- 4 β -Amino-4'-O-demethylepipodophyllotoxin
 - biochemical, cytotoxic, and antitumor activity of, 497
- Amiphiphilic amines
 - active transport in small intestines, anesthetics comparison study, 907
- Amlodipine
 - catecholamine storage vesicles and, 123
- Anesthetics
 - local, active transport of amphiphilic amines in small intestines, 907
- Angiogenesis
 - hypoxia-inducible factor 1 and, 47
- Angiotensin receptor antagonists
 - Chinese hamster ovary cells expression angiotensin II type 1 receptors and, 927
- Angiotensin II type 1 receptor
 - CHO cells expression, angiotensin receptor antagonists and, 927
- Annexin V
 - phosphatidylserine effects on CD95-induced apoptosis regulation and, 855
- Antibiotic agents
 - granulysin, identification and description, 317
- Anticancer agents
 - lactosaminated poly-L-lysine coupling effects on liver micrometastases, 301
- Antileukemic agents
 - cordycepin, mechanism of action of, 273
- Antioxidant gene
 - redox-sensing transcription factors for regulation of expression of, 1
- Antioxidant response element
 - metallothionein expression regulation and, 95
- Antioxidants
 - UGT1A6 induction in Caco-2 cells, 467
- Antisense oligonucleotides
 - c-fos effects on cisplatin sensitivity and, 337
- Antitumor agents
 - 4 β -amino-4'-O-demethylepipodophyllotoxin and camptothecin, 497
 - chloroethylnitrosourea vs. 1,2-bis(sulfonyl)hydrazine, lesion comparison, 283
 - F 11782, topoisomerase I and II inhibition and, 807
 - triapine, 983
- Antioxidant activity
 - carvedilol, lipid peroxidation and, 1069
- Antioxidant defense systems
 - cyclosporine A and, 1091
- Aorta
 - vascular relaxation of, calcitonin gene-related peptide-dependent, 1593
- Apigenin
 - pharmacologic profile of, 1387
- Apoptosis
 - Bcr1-induced, Gadd45 mediation of, 43
 - CD95-induced, phosphatidylserine exposure regulation of, 855
 - cisplatin-induced nephrotoxicity and, 195
 - colon cancer, retinoic acid effects, 485
 - Gadd45 role in, 43
 - hydroxymethylacylfulvene, in tumor cells, 1217
 - hypersensitivity of mitomycin C and, 1101
 - hypoxia/reoxygenation-induced, inhibition by antisense oligonucleotide targeted to JNK1, 1033
 - [Ah] gene battery role in, 65
 - neutrophil, nitric oxide donors and, 305
 - NF- κ B activation by IL-1 β and, reactive oxygen species role, 7
 - okadaic acid induced, L-deprenyl protective effects, 1579
 - osteoclast, curcumin effects on, 1539
 - p53 tumor suppressor protein and, 25
 - 1- β -D-arabinofuranosylcytosine-induced, c-Jun N-terminal kinase/p38 stress signaling role in, 407
 - 1- β -D-Arabinofuranosylcytosine
 - apoptosis induced by, c-Jun N-terminal kinase/p38 stress signaling role in, 407
- Arachidonic acid
 - resveratrol, prostaglandin production and reactive oxygen species effects, 865

- Arachidonic acid metabolism
 - hepoxilin A₃ biological actions on neutrophils and, 435
- Arginine vasopressin
 - stimulation of ribosomal protein S6 kinase by, in rat cardiomyocyte, 1163
- Artemisinin
 - inactivation by thalassemic erythrocytes, 1337
- Asialoglycoprotein receptor
 - lactosaminated poly-L-lysine coupling effects on liver micrometastases, 301
- Asthma
 - immunopharmacology of, advances in, 1323
- Atrial natriuretic factor
 - cGMP stimulation by, inactivation in MR-106 cells, 1133
 - expression and secretion by renal proximal tubule, 783
- Aziridine
 - corticosteroid-binding globulin effects, 167
- Bepredil
 - Ca²⁺-release and influx in Madin-Darby canine kidney cells and, 639
- BGP-15
 - ischemia-reperfusion injury in heart effects, 937
- Bile acid
 - effects on β -adrenoceptors, fluidity, and lipid peroxidation in cardiac membranes, 1613
- Bile secretion
 - salt, silymarin effects on, rat, 1015
- Binding affinity
 - inositol 1,4,5-trisphosphate receptor, 131
- Biotransformation
 - drug treatment of Parkinson's disease and, 1023
- bis-Pyridinium
 - permeability transition in isolated mitochondria, 261
- 1,2-bis(sulfonyl)hydrazines
 - DNA lesions produced by, 283
- Bone formation
 - daidzein stimulatory effects on osteoblastic MC3T3-E1 cells and, 471
- Brain
 - amidohydrolase fatty acid, pharmacologic properties of, using palmitoylethanolamide as substrate, 647
 - flerobutanol effects on serotonin synthesis, rat, 673
 - mitochondria, cytochrome P450 forms and monooxygenase activity in, 573
- N-Butyldeoxygalactonojirimycin
 - glycosphingolipid biosynthesis, comparison with N-butyldeoxynojirimycin, 821
- Butyrylcholinesterase
 - isolation and characterization of cDNA encoding, horse liver, 773
- Caco-2 cells
 - sodium deoxycholate and sodium caprate effects on epirubicin transport, 665
 - UGT1A6 induction in, 467
- Cadmium
 - cytotoxicity in fibroblasts lacking *c-fos*, 1569
 - metallothionein expression regulation and, 95
 - p53 pathway control and, 25
- Calcium
 - selectivity of diacylglycerol inhibitors, 763
- Calcium antagonist
 - catecholamine storage vesicles and, 123
- Calcium release channel
 - membrane environment effects on ligand-binding affinity and, 131
- Ca²⁺-mobilization
 - ketoconazole-induced, in MDCK cells, mechanisms of, 947
- cAMP
 - transport in perfused liver, rat, 1187
- cAMP pathway
 - protein-mediated pertussis toxin-resistant attenuation of G_s coupling to, 1521
- Camptothecin
 - biochemical, cytotoxic, and antitumor activity of, 497
- Cancer
 - hypoxia-inducible factor 1 and, 47
 - redox signalling and transition metals role in p53 pathway control and, 25
- Cancer cells
 - daunorubicin resistance, carbonyl reduction effect, 293
- Caprate
 - sodium, sodium deoxycholate and, epirubicin transport effects, in epithelial Caco-2 cells, 665
- Capsaicin
 - dichlorofluorescein oxidation stimulation by, vanilloid receptor involvement, 563
 - substance P release from dorsal root ganglion and, 1403
- Carbonyl reduction
 - daunorubicin resistance development in cancer cells and, 293
- Cardiomyocytes
 - stimulation of ribosomal protein S6 kinase by lysophosphatidic acid and arginine vasopressin, 1163
- Ca²⁺-release
 - influx and, by bepredil, in Madin-Darby canine kidney cells and, 639
- Carvedilol
 - antioxidant activity against lipid peroxidation and, 1069
 - nitric oxide generation in phagocytes and superoxide ion production, 1007
- Catecholamine storage vesicles
 - calcium antagonists effects on, 123
- CC chemokine receptor 1
 - selective binding of chemokine CK β 8 to, 591
- CD44
 - leukocyte-endothelial cell adhesion in inflammation and, 455

- CD95
apoptosis induced by, phosphatidylserine effects on, 855
- Cell adhesion
leukocyte-endothelial cells, inflammation and, sulfation and CD44 role in, 455
- Cell cycle control
[Ah] gene battery role in, 65
- Cell damage
BGP-15 effects on ischemia-reperfusion injury in heart and, 937
- Cell growth
Gadd45 role in, 43
mildronate effects on, 1351
- Cell proliferation
NF- κ B activation by IL-1 β and, reactive oxygen species role, 7
- Cell signaling
hepoxilin A₃ biological actions on neutrophils and, 435
- Cell transport
mildronate effects on, 1351
- Cellular activities
redox regulation and, 1
- C-fos
cisplatin sensitivity and, 337
- Chemistry
combinatorial
antimycobacterial drug development and, 221
matrix-assisted laser desorption ionization mass spectrometry and electrospray ionization and, 891
- Chemokine CK β 8
selective binding to CC chemokine receptor 1, 591
- Chemotaxis
hepoxilin A₃ biological actions on neutrophils and, 435
neutrophil, IL-8-activated, inhibition by thapsigargin, 369
- Chemotherapy
c-fos effects on cisplatin sensitivity and, 337
liver micrometastases, lactosaminated poly-L-lysine coupling effects, 301
megazol, uptake by African trypanosomes, 615
methotrexate, dihydrofolate reductase inhibition and, 141
- Chlormethiazole
effects on cytochrome P450 of rat nasal mucosa, 1425
- 2-Chloroadenine
metabolism and cytotoxic effects of, 1237
- Chloroethylnitrosoureas
DNA lesions produced by, 283
- Cilostamide
nucleotide phosphodiesterase isozyme activity and, 347
- Ciprofibrate
NF- κ B activation in hepatoma cells, 427
- Cirrhosis
thioacetamide-induced, collagen fiber decrease in liver by hepatocyte growth factor after, 681
- Cisplatin
c-fos influence on sensitivity of, 337
nephrotoxicity induced by, apoptosis role in, 195
- Clavilactones
mechanisms of action and pharmacology of, 1529
- Clinical trials
medicinal herbs and, 211
- Clofibric acid
isoprenoid lipid synthesis changes, rat hepatocytes, 1203
- Colon cancer
retinoic acid effects on growth and apoptosis in, retinoic acid receptor β association with, 485
- Cordycepin
antileukemic activity and mechanism of action of, 273
- Corpus cavernosum
nitric oxide-sensitive guanylyl cyclase expression in, 713
- Corticosteroid-binding globulin
aziridine influence on, 167
- Curcumin
effects on osteoclast apoptosis, 1539
- Cyclic AMP
cilostamide effects on nucleotide phosphodiesterase isozyme activity and, 347
- Cyclooxygenase-2
regulation by IL-1 β and TNF- α , 187
resveratrol, prostaglandin production and reactive oxygen species effects, 865
- Cyclopentenone
heat shock response and, 55
- Cyclophosphamide
N-dechloroethylaton of, cytochrome P450 3A4 role in, 961
- Cyclospine A
proliferation of pulmonary artery smooth muscle cells, verapamil and octreotide effects, 1459
- Cyclosporine A
antioxidant defence systems and, 1091
vitamin D activation pathway effects, 267
- Cytochrome c reductase
indolequinone EO9 sensitivity in tumor cells, 993
- Cytochrome P450
depression by staphylococcal enterotoxin B, 1295
forms and monooxygenase activity in brain mitochondria, 573
oxidative metabolism of Ecstasy and, 1559
starvation and chlormethiazole effects on rat nasal mucosa, 1425
trichloroethylene metabolism and cytotoxicity and, 531
- Cytochrome P450 1A
gestational and lactational exposure of 2,3,7,8-tetrachlorodibenzo-*p*-dioxin effects on, rats, 1147
- Cytochrome P450 3A2
growth hormone regulation and developmental expression of, 1277
- Cytochrome P450 3A4
role in N-dechloroethylation of cyclophosphamide and ifosfamide, 961

- Cytochrome P450 3A9
growth hormone regulation and developmental expression of, 1277
- Cytochrome P450 3A18
growth hormone regulation and developmental expression of, 1277
- Cytochrome P450 2B1
nicotine-metabolizing, regional and cellular induction in brain by nicotine treatment, 1509
- Cytochrome P450 2C7
growth hormone-regulated periportal expression in liver, 583
- Cytochrome P450 2C11
gene expression, transcription suppression by 3-methylcholanthrene, 1417
- Cytotoxicity
cadmium, in fibroblasts lacking *c-fos*, 1569
2-chloroadenine and, 1237
hydroxymethylacylfulvene, in tumor cells, 1217
paracetamol, in pneumocytes and alveolar macrophages, 1467
- DACA: *see* N-[(2'-Dimethylamino)ethyl]acridine-4-carboxamide
- Daidzein
stimulatory effects on osteoblastic MC3T3-E1 cells, 471
- Daunorubicin
resistance development, in cancer cells, carbonyl reduction effects, 293
- Dehydroepiandrosterone
anti-stress effects of, 753
- Deoxycholate
sodium, sodium caprate and, epirubicin transport effects, in epithelial Caco-2 cells, 665
- 2'-Deoxyribonucleoside
antitumor, thymidine phosphorylase inhibitors effects on, 1227
- L-Deprenyl
protective effects against apoptosis by okadaic acid in neuronal cells, 1579
- Dermatan sulfate
transvascular drug delivery and, 105
- Dexamethasone
lipopolysaccharide-induced lung injury and, rats, 1155
- Diabetes
aldose reductase-nucleotide-inhibitor complex and, 329
- Diacylglycerol
selectivity of, 763
- Diastereoisomers
2-methyl-1 α ,25-dihydroxyvitamin D₃ and 2-methyl-20-epi-1 α ,25-dihydroxyvitamin D₃ effects, in leukemia cells, 691
- Dichlorofluorescein oxidation
capsaicin stimulation of, vanilloid receptor involvement, 563
- Dietary Supplement Health and Education Act
medicinal herbs and, 211
- Dietary supplements
medicinal herb classification and, 211
- Dihydropyrimidine dehydrogenase
 α -fluoro- β -alanine effects on antitumor activity and toxicity of 5-fluorouracil, 953
- N[(2'-Dimethylamino)ethyl]acridine-4-carboxamide
aldehyde oxidase and, 161
- Dipyridamole
drug-resistant dihydrofolate reductase and, 141
- Doxorubicine
resistance, quinoline reversal of, 1245
- Drug delivery
biomimetic transport and, 105
- Drug development
antimycobacterial, genomics and combinatorial chemistry in, 221
medicinal herbs and, 211
- Drug interactions
DACA and, 161
- Drug metabolism
iron regulatory protein and, 115
isolation and characterization of cDNA encoding a butyrylcholinesterase, 773
- Drug resistance
dihydrofolate reductase, methotrexate and, 141
- Drug uptake
megazol, uptake by African trypanosomes, 615
- DT-diaphorase
RH1 pharmacologic properties, 831
- Dyslipidemia
vitamin A₁ acid stimulation by indinavir and, 1063
- Ebselen
as peroxynitrite scavenger, 153
- Ecstasy
cytochromes P450 identification in oxidative metabolism of, 1559
- Edema
inflammatory, piratoxin-I induction of, 1289
- Embryonic development
NF- κ B and oxidative stress, 13
- Endoplasmic reticulum
 β -glucuronidase latency in murine hepatocytes and, 801
- Endothelium
vascular, transvascular drug delivery and, 105
- Energy metabolism
lymphocyte, high-dose glucocorticoids and, 597
- Eniluracil
 α -fluoro- β -alanine effects on antitumor activity and toxicity of 5-fluorouracil, 953
- Enterotoxin B
staphylococcal, cytochrome P450 depression by, 1295
- Epirubicin
transport, sodium deoxycholate and sodium caprate effects on, in epithelial Caco-2 cells, 665

- Erectile dysfunction
 nitric oxide-sensitive guanylyl cyclase expression in corpus cavernosum and, 713
- Erythrocytes
 nitric oxide effects of nitric oxide donors in, 557
- Erythropoietin
 oxidative damage effects by hydroxyl radical, 419
- Escherichia coli*
 thymidine kinase expression in, 1593
- 17 β -Estradiol
 daidzein stimulatory effects on osteoblastic MC3T3-E1 cells and, 471
- Estrogen receptor- α
 human, tamoxifen agonistic and synergistic activity and, 177
- Ethanol
 acetaminophen hepatotoxicity and, 445
 serotonin metabolism and, interaction between, studies using ethanol and 4-methylpyrazole, 385
- Eukaryotic cells
 redox regulation and, 1
- Extracellular matrix genes
 hepatocyte growth factor effects on, in mesangial cells, 847
- F 11782
 topoisomerase I and II inhibition and, 807
- Ferritin
 genetic variation of, oxidative stress modulation and, 115
- Ferritin
 iron-responsive elements and, 87
- Flerobutanol
 effects on serotonin synthesis in rat brain, 673
- α -fluoro- β -alanine
 antitumor activity and toxicity of 5-fluorouracil, 953
- 2'-Fluoro-Methyl-dNTP
 polymerization by polymerase α , γ , and primase, 1045
- 5-Fluorouracil
 toxicity, α -fluoro- β -alanine effects on, 953
- Free radicals
 p53 pathway and, 25
- Gadd45
 apoptosis and, 43
- G₁ cell cycle arrest
 induction by panaxydol, 1109
- Gemfibrozil
 isoprenoid lipid synthesis changes, rat hepatocytes, 1203
- Gene expression
 metallothionein, regulation by oxidative stress and metal ions, 95
 NF- κ B activation by IL-1 β and, reactive oxygen species role, 7
- Gene transcription
 aclerubicin inhibitory effects on nitric oxide in vascular smooth muscle cells, 719
- Genistein
 daidzein stimulatory effects on osteoblastic MC3T3-E1 cells and, 471
- Genomics
 Mycobacterium tuberculosis and, 221
- Genotoxic exposure
 p53 tumor suppressor protein and, 25
- Glucocorticoid receptor
 dehydroepiandrosterone anti-stress effects and, 753
- Glucocorticoids
 high-dose, lymphocyte energy metabolism and, 597
- Glucose
 intestinal absorption, metformin effects, in rat intestine, 887
- β -glucuronidase latency
 murine hepatocytes and, 801
- γ -Glutamylcysteine synthase
 heavy subunit gene, antioxidant response element-mediated expression and induction of, 1433
- Glutathione
 depletion, cell death induced by, in CC531 colon cancer, 1552
 phosphono analogs of, inhibition of glutathione transferase, metabolic stability, and uptake of, 973
 role in biliary excretion of trimelarsan and melarsoprol, 1375
- Glutathione S-transferase
 drug treatment of Parkinson's disease and, 1023
- Glutathione S-transferase α
 trichloroethylene metabolism and cytotoxicity and, 531
- Glycolysis
 nitric oxide effects of nitric oxide donors on energy metabolism in erythrocytes, 557
- Glycosphingolipid biosynthesis
 N-butyldeoxygalactonojirimycin and, 821
- G proteins
 mu opioid receptor binding relation to activation of, 1395
 δ -opioid subtypes in neuroblastoma cell line, molecular entities in, 915
- Granulysin
 identification and description, 317
- Growth hormone
 regulation by CYP3A2, 3A9, and 3A18, 1277
- Growth hormone regulation
 cytochrome P450 2C7 and, 583
- Guanine nucleotide synthesis
 inhibition, effects on insulin secretion, 545
- Guanylyl cyclase
 nitric oxide-sensitive, expression in corpus cavernosum, 713
- Halothane
 hepatotoxicity induced by, hemin pretreatment effects, 871
- Ha-ras*
 hexitol nucleic acids biologic activity and, 655

- Heart perfusion
 - BGP-15 effects on ischemia-reperfusion injury in heart and, 937
- Heat shock protein
 - heat shock response and, 55
- Heat shock response
 - heat shock factors and, 55
- Hemin
 - halothane-induced hepatotoxicity effects, 871
- Hepatocyte growth factor
 - collagen fiber decrease in liver by, after thioacetamide-induced cirrhosis, 681
- Hepatocyte growth factor
 - extracellular matrix genes effects, in mesangial cells, 847
- Hepatocytes
 - murine, β -glucuronidase latency in, 801
- Hepatotoxicity
 - acetaminophen, ethanol and isopentanol effects on, 445
 - halothane-induced, hemin pretreatment effects, 871
- Hepoxilin A₃
 - biologic actions on neutrophils, 435
- Heptahelical receptors
 - purinergic and pyrimidinergic receptors and, 1173
- Herb
 - medicinal, classification as drug vs. dietary supplement, 211
- Hexitol nucleic acids
 - biologic activity at *Ha-ras* and ICAM-1 mRNA, 655
- Hinesol
 - H⁺K⁺-ATPase inhibition by, 881
- H⁺K⁺-ATPase
 - inhibition by hinesol, 881
- Hydrazone
 - erythrocytes protection against oxidative damage by, 1365
- Hydrogen peroxide
 - resveratrol, prostaglandin production and reactive oxygen species effects, 865
- Hydroxymethylacetylfulvene
 - cytotoxicity and apoptosis induction in tumor cells, 1217
- 5-hydroxytryptamine
 - ethanol and serotonin metabolism and, 385
- Hypertension
 - pulmonary, hypoxia-inducible factor 1 and, 47
 - renal glutathione synthesis down-regulation by nitric oxide synthesis and, 441
- Hypoxia-inducible factor 1
 - expression of, 47
- Ibuprofen
 - amidohydrolase pharmacologic properties, using palmitoylethanolamide as substrate, 647
- Ifosfamide
 - N*-dechloroethylaton of, cytochrome P450 3A4 role in, 961
- Immobilization stress
 - dehydroepiandrosterone effects, 753
- Immunopharmacology
 - asthma, advances in, 1323
- Immunoprecipitation
 - inositol 1,4,5-trisphosphate receptor ligand-binding affinity and, 131
- Immunosuppression
 - cyclosporine A effects on vitamin D activation pathway and, 267
- Indinavir
 - vitamin A₁ acid stimulation by, 1063
- Indolequinone EO9
 - tumor cells sensitivity, cytochrome c reductase role in, 993
- Inflammation
 - heat shock factors and, 55
 - NF- κ B activation by IL-1 β and, reactive oxygen species role, 7
- Injury
 - heat shock factors and, 55
- Inositol 1,4,5-trisphosphate receptor
 - membrane environment effects on ligand-binding affinity of, 131
- Insulin secretion
 - guanine nucleotide synthesis inhibition and, 545
- Interferon- γ
 - anterior, inducible nitric oxide synthase in P11 cells, 509
- Interleukin-1 β
 - cyclooxygenase-2 regulation by, 187
 - NF- κ B activation by, reactive oxygen species role, 7
- Interleukin-8
 - neutrophil chemotaxis, thapsigargin inhibition of, 369
 - production, attenuation by NF- κ B, using decoy oligonucleotides, 605
- Intestine
 - metformin effects on glucose intestinal absorption, rat, 887
- Iron
 - mRNA targeting for regulation of, 87
- Iron regulatory protein
 - genetic variation of, oxidative stress modulation and, 115
- Iron-responsive elements
 - ferritin regulation and, 87
- Iron status
 - basal, genetic variation of, oxidative stress modulation and, 115
- Ischemia
 - hypoxia-inducible factor 1 and, 47
- Ischemia-reperfusion injury
 - heart, BGP-15 effects on, 937
 - picroliv preventive effects, 1315
- Isopentanol
 - acetaminophen hepatotoxicity and, 445
- Isoproterenol
 - plrotein dephosphorylation in myocytes after withdrawal of, 1501

- Jurkat cells
phosphatidylserine effects on CD95-induced apoptosis regulation and, 855
- Ketanserin binding site
induction by carboxy-terminal intracellular portion modulation, 1117
- Ketotifen
stereoselective reduction of, in liver, 249
- KH1060
activity and mechanism of action, vitamin D receptor effects, 621
- Kidney
nitric oxide effects on lipopolysaccharide-induced oxidative stress and, 203
renal glutathione synthesis down-regulation by nitric oxide synthesis, hypertensive rats, 441
- Leptin receptor
characterization and functional role in adrenal medullary cells, bovine, 1141
- Leukemia
camptothecin-stabilized topoisomerase I-DNA complexes in, TARDIS assay visualization and quantification, 629
cordycepin effects in, 273
2-methyl-1 α ,25-dihydroxyvitamin D₃ and 2-methyl-20-epi-1 α ,25-dihydroxyvitamin D₃ effects, 691
- Ligand binding
selective binding to of chemokine CK β 8 to CC chemokine receptor 1, 591
- Lipid peroxidation
carvedilol antioxidant activity against, 1069
dehydroepiandrosterone anti-stress effects and, 753
- Lipid synthesis
isoprenoid, clofibrilic acid and gemfibrozil changes by, rat hepatocytes, 1203
- Lipofection
hexitol nucleic acids biologic activity at *Ha-ras* and, 655
- Lipopolysaccharide
oxidative stress induced by, nitric oxide role, rat kidney, 203
- Lipoprotein
low-density, plasma clearance and liver uptake of oligodeoxynucleotides by, 1407
- Liver
cAMP transport in, 1187
micrometastases, lactosaminated poly-L-lysine coupling effects, 301
- Liver gene zonation
growth hormone-regulated periportal expression of cytochrome P450 2C7, 583
- Lung injury
lipopolysaccharide-induced, prophylaxes against by dexamethasone, 1155
- Lymphocytes
energy metabolism, high-dose glucocorticoid effects on, 597
- Lysophosphatidic acid
Cl⁻ currents induced by, in *Xenopus* oocytes, 241
stimulation of ribosomal protein S6 kinase by, in rat cardiocytes, 1163
- Lysosomal storage disease
glycosphingolipid, *N*-butyldeoxygalactonojirimycin and, 821
- Macrophage
human primary, cyclooxygenase-2 regulation by IL-1 β and TNF- α and, 187
- Madin-Darby canine kidney cells
bepredil induction of Ca²⁺-release and influx in, 639
ketoconazole-induced Ca²⁺-mobilization in, mechanisms of, 947
sevoflurane effects on Ca²⁺-mobilization in, 393
- Malagashanine
reversal activity in *Plasmodium* malaria, 1053
- Malaria
Plasmodium, malagashanine reversal activity in, 1053
- MAP kinase
Gadd45 role in apoptosis and, 43
- Mass spectrometry
matrix-assisted laser desorption ionization, electrospray ionization and, 891
- Matricaria chamomilla*
pharmacologic profile of apigenin from, 1387
- Megazol
uptake by African trypanosomes, 615
- Melanoma
retinoid effects on growth and differentiation pathways in, 1265
- Melarsoprol
glutathione role in biliary excretion of, 1375
- Mesangial cells
hepatocyte growth factor effects on extracellular matrix genes in, 847
- Metallothionein
oxidative stress and metal ion regulation of, 95
- Metformin
intestinal glucose absorption effects, in rat intestine, 887
- Methotrexate
drug-resistant dihydrofolate reductase and, 141
- 3-Methylcholanthrene
cytochrome P450 2C11 gene expression transcription expression by, 1417
- 4-Methylpyrazole
ethanol and serotonin metabolism and, 385
- Mibefradil
catecholamine storage vesicles and, 123
- Mildronate
transport and cell growth inhibition effects, 1351
- Mitochondria
bis-pyridinium permeability transition in, 261

- Mitochondrial aconitase
iron-responsive elements and, 87
- Mitomycin C
apoptosis involvement in hypersensitivity of, 1101
- Monoamine oxidase activity
changes after phenelzine administration, 1253
- Monoamine oxidase inhibitor
phentermine characterization as, 1601
- Monocytes
selective binding to of chemokine CK β 8 to CC chemokine receptor 1, 591
- Mononuclear phagocytes
PK 11195 inhibitory action on, 1305
- Monoxygenase activity
cytochrome P450 forms and, in brain mitochondria, 573
- Multidrug resistance
actinomycin D-resistant *Plasmodium falciparum* and, 1123
- Mycobacterium tuberculosis*
genomics and, 221
- Mycophenolic acid
guanine nucleotide synthesis inhibition effects on insulin secretion and, 545
- Natural killer cells
granulysin and, 317
- Nephrotoxicity
cisplatin-induced, apoptosis role in, 195
- Neuroprotection
in Parkinson's disease, 1023
- Neutrophils
hepoxilin A₃ biological actions on, 435
- NF- κ B: see Nuclear factor- κ B
activation by IL-1 β , reactive oxygen species role, 7
activation by 2,3,7,8-tetrachlorodibenzo-*p*-dioxin, 997
ciprofibrate activation of, 427
heat shock response and, 55
lipopolysaccharide-induced, suppression by theoflavin-3,3'-digallate and, 357
oxidative stress and, 13
translocation by decoy oligonucleotides, IL-8 production and, 605
- Nicotine
binding in olfactory bulb and trigeminal ganglion, rats, 233
nicotine-metabolizing cytochrome P450 2B1 induction by, 1509
- Nitrendipine
catecholamine storage vesicles and, 123
- Nitric oxide
aclaurbicin inhibitory effects on, in aortic smooth muscle cells and macrophages, 719
guanylyl cyclase and, expression in corpus cavernosum, 713
lipopolysaccharide-induced oxidative stress and, rat kidney, 203
- Nitric oxide donors
energy metabolism in erythrocytes and, 557
neutrophil apoptosis and, 305
- Nitric oxide generation
in phagocytes, carvedilol effects on, 1007
- Nitric oxide synthase
inducible
LPS-induced, oroxylin A inhibition of, NF- κ B suppression of activation and, 1445
in P11 cells, 509
theoflavin-3,3'-digallate suppression of LPS-induced NF- κ B, 357
renal glutathione synthesis down-regulation by, hypertensive rats, 441
- S-Nitrosocysteine
noradrenaline release induced by, 839
- Noradrenaline
release induced by S-nitrosocysteine, Hg²⁺-sensitive sulfhydryl groups and, 839
- Nortriptyline
stereoselective reduction of, in liver, 249
- Octreotide
cyclospine A induced proliferation of pulmonary artery smooth muscle cells and, 1459
- Olfactory bulb
nicotine binding to nicotinic acetylcholine receptors in, 233
- Oligodeoxynucleotides
plasma clearance and liver uptake of, low-density lipoprotein and, 1407
- Oligonucleotides
IL-8 production attenuation by NF- κ B, 605
- 2'-O-Methyl-dNTP
polymerization by polymerase α , γ , and primase, 1045
- Oncogenesis
mRNA targeting for regulation of, 87
- Osteoclast
apoptosis of, curcumin effects on, 1539
- Ovarian carcinoma
c-fos effects on cisplatin sensitivity and, 337
- Oxidative damage
erythrocyte protection against, hydrazone and, 1365
erythropoietin protective effects by hydroxyl radical, 419
- Oxidative phosphorylation
bis-pyridinium permeability transition in isolated mitochondria and, 261
- Oxidative stress
basal iron status and, 115
ferritin and, 115
iron regulatory protein and, 115
lipopolysaccharide-induced, nitric oxide role, rat kidney, 203
[Ah] gene battery role in, 65
metallothionein expression regulation by, 95
newborn mouse liver *vs.* simian virus 40 hepatocyte cell lines, 703
NF- κ B activation by 2,3,7,8-tetrachlorodibenzo-*p*-dioxin and, 997

- NF- κ B and, 13
 vitamin A deficiency effects on, 377
- Oxygen
 mRNA targeting for regulation of, 87
- Oxygen homeostasis
 hypoxia-inducible factor 1 and, 47
- P53
 Gadd45 role in apoptosis and, 43
- Palmitoyltransferase
 serine, inhibitors of, sphingolipid biosynthesis and, 1211
- Panaxydol
 G₁ cell cycle arrest induction and p27^{KIP1} increase by, 1109
- Paracetamol
 cytotoxicity in pneumocytes and alveolar macrophages, 1467
- Parkinson's disease
 drug treatment of, 1023
- P11 cells
 inducible nitric oxide synthase in, 509
- PDGF: *see* Platelet-derived growth factor
- PDGF receptor
 redox regulation of signal transduction in mammalian cells and, 35
- Peroxynitrite
 ebselen effects on, 153
- Pharmacokinetics
 RH1, 831
- Pharmacology
 medicinal herbs and, 211
- Phenelzine
 amino acid levels and monoamine oxidase activity in brain and, 1253
- Phentermine
 characterization as monoamine oxidase inhibitors, 1601
- Phosphatidylserine
 CD95-induced apoptosis regulation and, 855
- Phosphodiesterase
 nucleotide isozyme activity, cilostamide effects, 347
- Phosphonic acid
 inhibitor of glutathione transferase, metabolic stability, and uptake of glutathione, 973
- Phosphorothioates
 hexitol nucleic acids biologic activity at *Ha-ras* and, 655
- Phosphotransferase
 selectivity of diacylglycerol inhibitors, 763
- Photoangioplasty
 texaphyrins and, 733
- Photodynamic therapy
 texaphyrins, 733
- Picroliv
 renal ischemia-reperfusion injury preventive effects, 1315
- Piratoxin-I
 inflammatory edema induced by, 1289
- Pituitary
 anterior, inducible nitric oxide synthase in P11 cells, 509
- PK 11195
 inhibitory action on mononuclear phagocyte function, 1305
- Plasmin
 platelet aggregation induced by, mechanisms of, 1345
- Plasmodium*
 malaria, malagashanine reversal activity in, 1053
- Plasmodium falciparum*
 actinomycin D-resistant, pleiotropic resistance to diverse antimalarials in, 1123
- Platelet aggregation
 plasmin-induced, mechanisms of, 1345
- Pleiotropic resistance
 actinomycin D-resistant *Plasmodium falciparum* and, 1123
- Progesterone
 aziridine effects on, 167
- Prostacyclin
 vasorelaxation, ebselen effects on peroxynitrite and, 153
- Prostaglandin production
 resveratrol effects on, 865
- Prostaglandins
 heat shock response and, 55
- Prostate cancer
 zinc modulation of telomerase activity, 401
- Protein dephosphorylation
 in myocytes, after isoproterenol withdrawal, 1501
- Protein kinase
 nuclear, 2,3,7,8-tetrachlorodibenzo-*p*-dioxin and, 741
- Protein kinase A
 lysophosphatidic acid-induced Cl⁻ currents in *Xenopus* oocytes and, 241
- Protein kinase C
 lysophosphatidic acid-induced Cl⁻ currents in *Xenopus* oocytes and, 241
- Proteomics
 matrix-assisted laser desorption ionization mass spectrometry and electrospray ionization, 891
- Proximal tubule
 atrial natriuretic factor expression and secretion by, 783
 brain natriuretic peptide expression and secretion by, 783
- P53 tumor suppressor protein
 redox signaling and transition metals in, 25
- Purinergic receptor
 adenosine diphosphate recognition and, 791
- Purinergic receptors
 as drug target, 1173
- P2Y₁ receptor
 adenosine diphosphate and triphosphates and, 791
- Pyrimidinergic receptor
 as drug target, 1173
- Quinoline
 reversal of doxorubicin resistance, 1245

- Quinone
drug treatment of Parkinson's disease and, 1023
- Radiation therapy
texaphyrins, 733
- Radioligand binding
1-benzyl substituted trimetoquinol, biochemical and functional characterization of, 517
- Radiopharmaceuticals
transvascular drug delivery and, 105
- Reactive oxygen species
BGP-15 effects on ischemia-reperfusion injury in heart, 937
NF- κ B activation by IL-1 β and, 7
redox-sensing transcription factors and, 1
resveratrol effects on, 865
- Redox regulation
signal transduction in mammalian cells and, 35
- Redox signalling
p53 tumor suppressor protein and, 25
- Redox signals
transcription factors, reactive oxygen species detection and, 1
- Renal cell carcinoma
zinc modulation of telomerase activity, 401
- Renal failure
renal adenosine A₁ receptor expression induced by, 727
- Resveratrol
prostaglandin production and reactive oxygen species effects, 865
- Retinoic acid
colon cancer growth and apoptosis, retinoic acid receptor β association with, 485
vitamin A₁ acid stimulation by indinavir and, 1063
- RH1
pharmacologic properties of, 831
- Ribonucleotide reductase
inhibition by triapine, 983
- ROS: *see* Reactive oxygen species
p53 pathway and, 25
- RT-PCR
TaqMan, cyclosporine A effects on vitamin D activation pathway and, 267
- Saccharomyces cerevisiae*
tamoxifen agonistic and synergistic activity and, 177
- Salt output
bile, silymarin effects on, rat, 1015
- Serotonin synthesis
flerobuterol effects, rat brain, 673
- Sevoflurane
Ca²⁺-mobilization and, in Madin-Darby canine kidney cells, 393
- Signal transduction
redox regulation and, 35
- Silymarin
biliary bile salt secretion effects, 1015
- Sphingolipid biosynthesis
serine palmitoyltransferase inhibitors and, 1211
- Steroids
free, aziridine influence on corticosteroid-binding globulin and, 167
- Substance P
capsaicin-stimulated release from dorsal root ganglion, 1403
- Sulfation
leukocyte-endothelial cell adhesion in inflammation and, 455
- Sulphydryl reagent
noradrenaline release induced by S-nitrosocysteine and, 839
- Superoxide ions
production of, carvedilol modulation of, 1007
- Tamoxifen
agonistic and synergistic activity of, 177
- TARDIS assay
camptothecin-stabilized topoisomerase I-DNA complexes in leukemia, visualization and quantification, 629
- Telomerase
zinc modulation of activity of, in prostatic and renal cancer cells, 401
- Teratogenesis
thalidomide, mechanism of action in, 1489
- Terminal deoxynucleotidyl transferase
cordycepin mechanism of action and antileukemic effects, 273
- 2,3,7,8-Tetrachlorodibenzo-*p*-dioxin
gestational and lactational exposure, effects on catalytic activities of CYP1A, rats, 1147
inhibition by hypoxic agents, 1545
NF- κ B activation by, 997
nuclear protein kinase activity changes induced by, 741
- Tetrahydroisoquinolines
biochemical and functional characterization of, 517
- Texaphyrins
radiation and photodynamic therapy applications, 733
- Thalassemic erythrocytes
artemisinin inactivation by, 1337
- Thalidomide teratogenesis
mechanism of action in, 1489
- Thapsigargin
IL-8-activated neutrophil chemotaxis inhibition by, 369
- Theoflavin-3,3'-digallate
lipopolysaccharide-induced NF- κ B suppression and, 357
- Thioacetamide
cirrhosis induced by, collagen fiber decrease in liver by hepatocyte growth factor after, 681
- Thymidine kinase
expression in *Escherichia coli*, 1593
- Thymidine phosphorylase
inhibitors, effects on antitumor 2'-deoxyribonucleoside and, 1227

- Thymidylate synthase
 α -fluoro- β -alanine effects on antitumor activity and toxicity of 5-fluorouracil, 953
- T lymphocyte
 cytotoxic, granulysin and, 317
- TNF- α
 cyclooxygenase-2 regulation by, 187
- α -Tocopherol
 modulation in coronary smooth muscle cells, 1477
- γ -Tocopherol
 modulation in coronary smooth muscle cells, 1477
- Topoisomerase I and II
 inhibition by F 11782, 807
- Topoisomerase
 isolation and characterization of cDNA encoding a butyrylcholinesterase, 773
- Transcription
 NF- κ B activation by 2,3,7,8-tetrachlorodibenzo-*p*-dioxin and, 997
- Transport
 active, transvascular drug delivery and, 105
 β -glucuronidase latency in murine hepatocytes and, 801
- Triapine
 ribonucleotide reductase activity inhibition and antitumor activity, 983
- Tributyltin
 redox regulation of signal transduction in mammalian cells and, 35
- Trichloroethylene
 metabolism and cytotoxicity, cytochrome P450 and glutathione S-transferase α role in, kidney, 531
- Trigeminal ganglion
 nicotine binding to nicotinic acetylcholine receptors in, 233
- Trimelarsan
 glutathione role in biliary excretion of, 1375
- Trimetoquinol
 1-benzyl substituted, biochemical and functional characterization of, 517
- Triphosphates
 adenosine, P2Y₁ receptor and, 791
- Trypanosomiasis
 megazol uptake by African trypanosomes, 615
- Tuberculosis
 antimycobacterial drug development, genomics and combinatorial chemistry in, 221
- Tyrosine kinase
 receptor, ultraviolet-light-induced activation of, 35
- Tyrosine kinase inhibitors
 clavilactones, mechanisms of action and pharmacology of, 1529
- Tyrosine kinase pathway
 vanadate activation of, in gallbladder smooth muscle, 1077
- UGT1A6
 expression in brain, hybridization studies of, rat, 1441
 induction in Caco-2 cells, 467
- Ultraviolet light
 receptor tyrosine kinase activation and, 35
- Upstream stimulatory factor
 metallothionein expression regulation and, 95
- Vanadate
 tyrosine kinase pathway activation in gallbladder smooth muscle, 1077
- Vanilloid receptor
 dichlorofluorescein oxidation stimulation by capsaicin and, 563
- Vascular smooth muscle cells
 aclerubicin inhibitory effects on nitric oxide in, 719
- Verapamil
 catecholamine storage vesicles and, 123
 cyclospine A induced proliferation of pulmonary artery smooth muscle cells and, 1459
- Viruses
 NF- κ B and oxidative stress, 13
- Vitamin A₁ acid
 stimulation by indinavir, 1063
- Vitamin A deficiency
 xenobiotic-metabolizing enzymes and oxidative stress effects, 377
- Vitamin D
 activation pathway, cyclosporine A effects on, 267
- Vitamin D receptor
 KH1060 activity and mechanism of action, 621
- Vitamin D receptor agonist
 metabolic stability, 1587
- Vitamin E
 NF- κ B inhibition by, 427
- Xenobiotic-metabolizing enzymes
 vitamin A deficiency effects on, 377
- Xenopus* oocytes
 protein kinase A and C regulation of lysophosphatidic acid-induced Cl⁻ currents, 241
- Zinc
 metallothionein expression regulation and, 95
 p53 pathway control and, 25
 telomerase activity modulation by, in prostatic and renal cancer cells, 401
