

SUBJECT INDEX

- A20
 - NF- κ B-dependent gene expression and apoptosis inhibition and, 1143
- A₁ Adenosine receptor
 - serine and alanine mutagenesis of cysteine residues of, 1647
- A_{2A} Adenosine receptor
 - allosteric modulation by amiloride analogues and sodium ions, 669
 - antiinflammatory interactions of CGS 21680, cyclopentyladenosine and IB-MECA with neutrophils, 993
 - mutagenesis studies of, 661
- Acetylcholinesterase
 - DNA sequence determination, in cat plasma, 479
 - inhibition, tolserine and, 561
- Acidification
 - extracellular, cyanoguanidine stimulation of, comparison with *m*-iodobenzylguanidine, 839
- Acitretin
 - metabolism by liver microsomes, 507
- Activator protein-1
 - regulation by tumor necrosis factor- α and dexamethasone in alveolar epithelial cells, 1041
- Adenocarcinoma
 - 5-fluorouracil lability during tumor excision and freeze-clamping, 963
- Adenosine 3'-5'-cyclic monophosphate
 - elevation in natural killer cells, phosphodiesterase III inhibition in, 499
 - histamine H₂ receptors mediation in U937 cell line and, 159
- Adenyl carbocyclic nucleoside
 - nuclear factor- κ B inhibition and, 717
- Adenylyl cyclase
 - SR141716A and CP-272871 inverse agonist properties for cannabinoid receptor, 1315
- Adrenal chromaffin cells
 - catecholamine secretion from, magnolia bark effects on, 433
- β -Adrenergic signal transduction
 - maturation and aging effects on, rat kidney and liver, 1787
- Adriamycin
 - creatine kinase inactivation, horseradish peroxidase interaction and, 95
 - glutathione conjugation to, in breast cancer cells, 1915
- Alanine
 - A₁ adenosine receptor mutagenesis and, 1647
- Aldehyde dehydrogenase
 - liver mitochondrial, disulfiram inhibition of, 947
- Aldehyde dehydrogenase isozyme 3
 - aldophosphamide inactivation by, 325
- Aldophosphamide
 - inactivation by aldehyde dehydrogenase isozyme 3, 325
- Allosteric modulation
 - A_{2A} adenosine receptors, by amiloride analogues and sodium ions, 669
- All-*trans*-retinoic acid
 - hydroxylation of, CYP450 isoforms contributing to, 517
- Alternative medicine
 - echinacea use in, 155
- Alveolar epithelial cells
 - nuclear factor- κ B, activator protein-1 and glutathione levels in, 1041
- Alzheimer's disease
 - acetylcholinesterase inhibition of tolserine, 561
 - advanced glycated end-product role in, aminoguanidine effects, 55
 - lazabemide as inhibitor of oxidative stress and, 709
- Amiloride analogues
 - A_{2A} adenosine receptors allosteric modulation by, 669
- p*-Aminobenzoic acid
 - arylamine *N*-acetyltransferase inactivation by, 1829
- Aminoguanidine
 - insulin secretion effects, diabetic rats, 263
 - kinetics and mechanism of, 55
 - nitric oxide synthase role in nephrotic syndrome and, 137
- δ -Aminolevulinate synthase
 - gene expression in multiple organ dysfunction syndrome, 275
- Angiogenesis
 - DNA and RNA enzymes and, 1023
 - MAP kinase and hypoxia role in control of, 1171
- Angiotensin II type 1 receptor antagonists, 1557
- Antabuse: see Disulfiram
- Anthracycline
 - Bcl-2 phosphorylation in breast cancer and, 77
 - cardiotoxicity of, 1435
- Anthracycline drugs
 - creatine kinase inactivation by Adriamycin and, during interaction with horseradish peroxidase, 95
- Anthralin
 - inhibitory effects on ribonuclease P activity, 91
- Antiatherogenesis
 - dietary soy-derived isoflavones effects, 1
- Antibiotics
 - drug efflux pumps and, 457
- Anticarcinogenic agents
 - glucosinolates, leukemia inhibitory role, 221
- Antihypertensive agents
 - clonidine, nitric oxide synthase inhibition by, 539
- Antioxidants
 - coelenterazine, after *tert*-butyl hydroperoxide-induced oxidative stress, 471
 - dehydroepiandrosterone, oxidative damage in hyperglycemia effects, 389
 - diabetic erythrocytes and, 1409
 - lazabemide, oxidative stress inhibition activity, 709
- Antisense oligonucleotides
 - intracellular delivery of, 83
- Antithrombotic agents
 - NQ12, mode of action, 1001

- Antitumor activity
 mitomycin C activation by neuronal nitric oxide synthase and, 571
- Antitumor agents
 ascididemin, apoptosis induction in leukemia cells and, 527
 Bcl-2 phosphorylation in breast cancer and, 77
 dehydrofolate reductase efficacy, 41
 DNA adducts and, 1761
 etoposide, Ehrlich ascites tumor cell resistance to, 353
 5-fluoro-2'-deoxyuridine, efficacy, 5-(phenylselenenyl)-*α*-cylouridine administration effects on, 687
 green tea polyphenols, mechanism of action, 643
Hibiscus protocatechuic acid, leukemia apoptosis induction and, 307
 mitoxantrone, Ehrlich ascites tumor cell resistance to, 363
 RAS signal transduction inhibitors as, 1165
 topoisomerase II, cleavable complex formation in DNA loop domains, 101
- Apoptosis
 Bcl-2 phosphorylation in breast cancer and, 77
 dibucaine-induced, in promyelocytic leukemia cells, 905
 dietary isothiocyanate-induced, 221
 ginseng saponin induction of, via caspase-3 protease activation, 677
 HBDDE-induced neuronal, protein kinase C α/γ inhibition, 809
Hibiscus protocatechuic acid role, in leukemia cells, 307
 imexon induction of, 749
 1-methyl-4-phenylpyridinium ion induction of, in GH3 cells, 111
 mitosis-mediated, induction in HeLa S3 cells, 771
 neuronal, c-Jun and transcriptional control of, 1015
 NF- κ B-dependent, A20 and A20-binding proteins as inhibitors of, 1143
 nitrogen mustard-induced, prevention in lymphocytes by ebselen, 1565
 nuclear factor- κ B and, 1033
 Pt₂(2-mercaptopyrimidine)₄Cl₂ induced by, 371
 retinoic acid-induced P19, 127
 1- β -D-arabinofuranosylcytosine-mediated, leukemia cells overexpressing Bcl-2, 1445
 Se-allylselenocysteine and Se-propylselenocysteine effects, 1467
- AP-1 transcription
 protein recruitment systems for analysis of protein-protein interaction and, 1009
- 1- β -D-Arabinofuranosylcytosine triphosphate
 DNA polymerase inhibition by, 403
- Ara-CTP: see 1- β -D-Arabinofuranosylcytosine triphosphate
- Arrhythmia
 potassium channel effectors and, lipid metabolism as target for, 607
- Arsenite
 mitosis-mediated apoptosis induction in HeLa S3 cells, 771
- Aryl hydrazone
 lymphoproliferation inhibition and, 581
- Aryl hydrocarbon receptor
 TCDD-mediated transformation, LY294002 and, 635
- Ascididemin
 topoisomerase inhibition by, 527
- Ascorbic acid
 erythrocyte protection against oxidant stress caused by diazobenzene sulfonate, 47
- Asialoglycoprotein receptor
 hyperphosphorylation in hepatocytes after ethanol administration, 345
- Aspirin
 acetylation of hemoglobin, 917
- Astrocytoma
 protein kinase C role in proliferation of, 1457
- Atherogenesis
 benzo[α]pyrene effects on vascular smooth muscle cells and, 1285
- Atherosclerosis
 peroxisome proliferator-activated receptor role in, 1245
 smooth muscles cells proliferation and, 381
- Atria
 menadione toxicity in, DT-diaphorase protective actions in, 601
- Azidothymidine
 renal secretion of, organic cation transporters role, 215
- Baculovirus
 butyrylcholinesterase gene expression in *Bombys mori* and, 121
- Basophils
 IgE-mediated desensitization of, 1717
- Batimastat
 neutralization of local tissue damage by BaP1, 269
- B-cell proliferation
 fluoxetine effects on, 1279
- Bcl-2
Hibiscus protocatechuic acid role in apoptosis of leukemia cells, 307
 phosphorylation in breast cancer xenograft, 77
- BCRP/MXR/ABCP
 expression in topotecan-resistant breast cancer, 831
- Benzodiazepine receptor
 expression in Leydig cells, TNF- α effects, 1639
- Benzodiazepine receptors
 expression in breast cancer cell lines, cell proliferation relation to, 397
- Betaine aldehyde
 levels during ethanol metabolism, 1629
- Binding affinity
 microsomal cytochrome P450, 293
- Bioreductive drugs
 N-oxides of DNA intercalators as, 971
- Bisindolylmaleimide I
 effects on bone resorption, comparison with staurosporine, 923

- Bombys mori*
butyrylcholinesterase gene expression in, 121
- Bone marrow
granulocytes, protein kinase C- α and, 1837
- Bone resorption
staurosporine and bisindolylmaleimide I effects on, 923
- Bothrops asper*
BaP1 isolation from, batimastat neutralization of local tissue damage by, 269
- Brain
ischemia, inhibition of neuronal NOS by DY-9760e and, 693
- Breast cancer
Bcl-2 phosphorylation and, 77
cell proliferation relation to peripheral benzodiazepine receptor expression in, 397
estrogen receptor activation by 3,3'-diindolylmethane in, 167
isoflavone phytoestrogens effects, 1
mitomycin C activation by neuronal nitric oxide synthase and, 571
topotecan-resistant, BCRP/MXR/ABCP expression in, 831
- 3-*m*-Bromoacetyl amino benzoic acid ethyl ester
mechanisms of, 1693
- Bronchitis
echinacea effects in, 155
- BRU59-21
cytochrome P450 reductase role in accumulation and metabolism of, 625
- Butyrylcholinesterase
DNA sequence determination in cat plasma, 479
- Butyrylcholinesterase gene
expression in *Bombys mori*, 121
- Bystander effect
herpes simplex virus thymidine kinase/ganciclovir gene therapy system, pharmacological modulation of, 241
- Ca²⁺
agonist-induced influx, platelet activation inhibition by nucleoside 5'-alkylphosphates and, 197
- Ca²⁺-activated K² channels
in GH₃ cells, epoxyeicosatrienoic acid actions on, 251
- Cadmium chloride
apoptosis induction, 1875
- Calcein acetoxymethyl ester
apoptosis induced by, in histiocytic lymphoma cell line U937 GTB, 1751
- Calcineurin
retinoids effects on activity of, 803
- Calcipotriol
inhibitory effects on ribonuclease P activity, 91
- Calcium influx
calmidazolium effects in HL-60 cells, 317
- Calmidazolium
calcium influx in HL-60 cells and, 317
- Calmodulin antagonist
inhibition of neuronal NOS by DY-9760e and, 693
- cAMP: see Adenosine 3'-5'-cyclic monophosphate
- Cancer
gene therapy for, p53 regulation and, 1153
promyelocytic nuclear compartmentalization and, 1197
- Cancer therapy
ara-CTP, DNA polymerase inhibition and, 403
glucosinolates, leukemia inhibitory role, 221
metastasis, IGF-I receptor expression inhibition and, 1101
p53 regulation and, 1153
solamargine, evaluation of, 1865
- Candesartan
angiotensin II type 1 receptor antagonists and, 1557
- Cannabinoid receptor
SR141716A and CP-272871 inverse agonist properties for, 1315
- Cannabinoids
effects on glioma cell viability, 1807
tetrahydrocannabinol, cytochrome P450 and, 955
- Cap binding protein
phosphorylation by MAPK-activated protein kinase Mnk1, 1237
- Carcinogenicity
NAD(P)H:quinone oxidoreductase 1 role in quinone toxicity protection and, 207
- Cardiotoxicity
of daunorubicin, 1435
- C5a receptor antagonist
C5A-induced neutrophil chemotaxis inhibition by, 729
- Caspase-8
activation in paclitaxel-induced apoptosis in colon cancer cells, 1579
- Caspase-3 protease
ginseng saponin induction of apoptosis via activation of, 677
- Caspases
apoptosis and nuclear factor- κ B and, 1033
- Cataract
advanced glycated end-product role in, aminoguanidine effects, 55
- Catecholamine secretion
magnolia bark effects on, 433
- Cathepsin K
fluorescence assay in CHO cells, 759
- Cationic amphiphilic drugs
stimulatory effects on platelets, after thrombin, 1267
- Cation transporters
organic, role, renal secretion of nucleosides, 215
- CDP-choline
oral, effects on plasma choline and uridine levels, 989
- Cell adhesion
integrin-mediated, integrin-linked kinase and, 1115
- Cell signaling
molecular targets for prostate cancer prevention by dietary agents, 1051

- CEM cells
4'-thio- β -D-arabinofuranosylcytokine metabolism in, 1925
- Central nervous system
magnolia bark depressant effects, 433
- Cerebral metabolism
etomidate, ketamine, propofol inhibition of glucose transport and, 651
- Ceruloplasmin
physiopathological significance of, 1735
- CGS 21680
antiinflammatory interactions with neutrophils, A_{2A} adenosine receptor and, 993
- Chemopreventive agents
glucosinolates, leukemia inhibitory role, 221
- Chemotaxis
C5A-induced neutrophil, inhibition by C5a receptor antagonist, 729
- Chemotherapy
antibiotic efflux pumps and, 457
antitrypanosomal activity of, peptidyl α -aminoalkyl phosphonate diphenyl esters and, 1497
5-fluoro-2'-deoxyuridine, efficacy, 5-(phenylselenenyl)acylouridine administration effects on, 687
5-phenylthioacylouridine, uridine phosphorylase inhibition and, 851
2'-3'-5'-Tri-O-acetyluridine, protective effects against 5-fluorouracil toxicity, 427
- CHO cells
angiotensin II type 1 receptor antagonists and, 1557
fluorescence assay, cathepsin K, 759
- Choline
levels during ethanol metabolism, 1629
oral CDP-choline effects on, 989
- Cisplatin
Bcl-2 phosphorylation in breast cancer and, 77
ovarian cancer resistant to, nucleotide excision repair in, 1305
 $Pt_2(2\text{-mercaptopyrimidine})_4Cl_2$ role, apoptosis induction and, 371
- Cisplatinum
renal toxicity induced by, 1729
- L-Citrulline assay
neuronal nitric oxide synthase localization in gastrointestinal tract, 145
- C-Jun
transcriptional control of neuronal apoptosis and, 1015
- Clinical trials
Echinacea use in medicine, 155
- Clonidine
nitric oxide synthase inhibition by, 539
- Cocaine
mitochondrial respiration and ROS generation, 615
- Coelenterazine
tert-butyl hydroperoxide-induced oxidative stress and, 471
- Cold, common
echinacea effects in, 155
- Colon
cancer cells, 5-fluoro-2'-deoxyuridine antitumor efficacy, 5-(phenylselenenyl)acylouridine administration effects on, 687
- Colon cancer
isoflavone phytoestrogens effects, 1
paclitaxel-induced apoptosis in, caspase-8 activation in, 1579
- Colorectal cancer
mitomycin C activation by neuronal nitric oxide synthase and, 571
- Contrast medium
x-ray, liposome-encapsulated iodixanol cellular distribution in liver, 553
- Coronary heart disease
isoflavone phytoestrogens effects, 1
- Creatine kinase
inactivation by Adriamycin, horseradish peroxidase interaction and, 95
- Cyanoguanidine
acidification rate stimulation, comparison with *m*-iodobenzylguanidine, 839
- Cyclin A2
transcriptional regulation, 1179
- Cyclooxygenase
stereoselective sulfoxidation of sulindac and, 7
- Cyclopentyladeneosine
antiinflammatory interactions with neutrophils, A_{2A} adenosine receptor and, 993
- CYP: see Cytochrome P450
- Cysteine
levels in human plasma, 19
- Cytidylyl diphosphocholine
oral, effects on plasma choline and uridine levels, 989
- Cytochrome c
caspase-3 protease activation, ginseng saponin-induced apoptosis and, 677
- Cytochrome P450
all-*trans*-retinoic acid 4-hydroxylation and, 517
hydroxyeicosatetraenoic acid in polymorphonuclear leukocytes and, 447
microsomal, substrate specificity and metabolism, 293
tetrahydrocannabinol effects, 955
- Cytochrome P450 1A1
anticarcinogenic properties of flavonoids and, 189
- Cytochrome P450 1A2
anticarcinogenic properties of flavonoids and, 189
expression in pancreas, mouse, 857
- Cytochrome P450 2B1/2
phenobarbital effects on expression in rat liver, 285
- Cytochrome P450 2C
tetrahydrocannabinol effects, 955
- Cytochrome P450 3A
enterocytic and hepatic, ontogeny of, comparison study, 1601

- tetrahydrocannabinol effects, 955
- uroporphyrin accumulation and excretion in prophyria cutanea tarda and, 1325
- Cytochrome P450 3A1
 - induction by dexamethasone, 1509
- Cytochrome P450 reductase
 - accumulation and metabolism of BRU59–21, 625
- Cytokines
 - oxidative stress interference with nuclear factor- κ B activation pathways and, 1075
- Cytotoxicity
 - cyanoguanidine stimulation of acidification, comparison with *m*-iodobenzylguanidine, 839
 - Pt₂(2-mercaptopyrimidine)₄Cl₂ role, apoptosis induction, 371
- Daunorubicin
 - cardiotoxicity of, 1435
 - Ehrlich ascites tumor cell resistance to, 353
- Dehydroepiandrosterone
 - oxidative damage in hyperglycemia and, 389
- Denervation
 - Na⁺/K⁺-ATPase α_2 isoform downregulation in vas deferens, 741
- Deoxycytidine kinase
 - (*S,S*)-isodideoxyadenosine phosphorylation by, 1505
- 3-Deoxyglucosone
 - aminoguanidine kinetics and, 55
- Desensitization
 - deficient, formyl peptide receptors in HL-60 cells, 179
- Dexamethasone
 - cytochrome P450 3A1 induction, 1509
 - mitogen-activated protein kinases and, 545
- Diabetes mellitus
 - aminoguanidine effects on insulin secretion, rats, 263
 - complications, aminoguanidine and, 55
 - methemoglobin generation, antioxidant status in erythrocytes and, 1409
 - non-insulin-dependent, troglitazone and, 67
 - potassium channel effectors and, lipid metabolism as target for, 607
 - protein tyrosine phosphatase-1B in, 877
- Diadzein
 - dietary, heart disease and cancer effects, 1
- Diazobenzene sulfonate
 - oxidant stress caused by, ascorbic acid role in erythrocyte protection against, 47
- Dibucaine
 - apoptosis induced by, in promyelocytic leukemia cells, 905
- Dietary supplements
 - echinacea and, 155
 - prostate cancer prevention, 1051
- Dehydrofolate reductase
 - aminopterin-resistant tumors and, 41
 - methotrexate-resistant tumors and, 41
- Dihydroorotate dehydrogenase
 - bacterial, thiadiazolidinediones inhibition of, 339
- 1,24-Dihydroxyvitamin D₂
 - hypercalciuria and hypercalcemia effects, comparison with 1,25-dihydroxyvitamin D₃, 701
- 1,25-Dihydroxyvitamin D₃
 - hypercalciuria and hypercalcemia effects, comparison with 1,24-dihydroxyvitamin D₂, 701
- Diltiazem
 - nucleoside triphosphate diphosphohydrolase and, 1959
- Dioxin
 - hepatoma HepG2 cells transcriptional response to, 1129
- Disulfides
 - levels in human plasma, 19
- Disulfiram
 - interaction with aldehyde dehydrogenase, 947
- DNA enzyme
 - abnormal gene expression and, 1023
- DNA polymerase
 - inhibition by ara-CTP, 403
- DNA replication
 - topoisomerase II, cleavable complex formation in DNA loop domains, 101
- Dopaminergic neurotoxin
 - 1-methyl-4-phenylpyridinium, apoptosis induction by, 111
- Doxorubicin
 - mitochondria and, 1847
- Drug affinity
 - thermodynamic measurement of receptor binding and, 1549
- Drug delivery
 - antisense oligonucleotides, 83
- Drug metabolism
 - stereoselective sulfoxidation of sulindac by flavin-containing monooxygenase, 7
- Drug resistance
 - cisplatin-resistant ovarian cancer, nucleotide excision repair in, 1305
 - etoposide, Ehrlich ascites tumor cell resistance to, 353
- DT-diaphorase
 - protection against menadione toxicity in atria, 601
- DY-9760e
 - neuronal NOS inhibition, 693
- Ebselen
 - nitrogen mustard-induced apoptosis and, 1565
- Echinacea
 - use in medicine, 155
- Efflux pumps
 - antibiotic transport and, 457
- Ehrlich ascites tumor cell
 - resistance to mitoxantrone, 363
- Eleutherin
 - topoisomerase II inhibition mechanisms and, 1367

- Endocytosis
protein trafficking in hepatocytes, ethanol administration effects, 345
- Enterococcus faecalis*
thiadiazolidinediones inhibition of bacterial dihydroorotate dehydrogenase and, 339
- Enzyme inhibition
aldehyde dehydrogenase, disulfiram interaction with, 947
- Epidermal growth factor
inhibition in GH3 cells, 111
- Epidermal growth factor receptor
alteration in function of, 1217
- Epigallocatechin gallate
glutathione S-transferase induction by, 643
inhibition of NADH oxidase, 937
prostate cancer prevention by dietary agents, 1051
- Epirubicin
transport in intestinal epithelial cell layers, 1381
- Epoxyeicosatrienoic acid
Ca²⁺-activated K² channels in GH₃ cells and, 251
- Erythrocyte
ascorbic acid protective role, oxidant stress caused by diazobenzene sulfonate, 47
- Estrogenicity
obstacles to predictions of, 1519
- Estrogen receptor
dietary soy-derived isoflavones and, 1
3,3'-diindolylmethane activation of, in breast cancer cells, 167
- Estrogen replacement
dietary soy-derived isoflavones effects, 1
- Estrone hydroxylation
CYP1A2 expression in pancreas and, mouse, 857
- Ethanol
dosage effects on liver and muscle protein metabolism, 1773
exposure, [³H]ethanolamine incorporation into plasmalogen and, 1703
grape polyphenols and, role, inhibition of inducible nitric oxide synthase, 1539
hepatic glutathione S-transferase expression and, 1491
metabolism, betaine aldehyde, betaine, and choline levels in rat liver during, 1629
promitogenic effects in insulin-treated fibroblasts, 1391
protein trafficking in hepatocytes and, 345
- Ethanolamine
promitogenic effects in insulin-treated fibroblasts, 1391
- Etomidate
glucose transport inhibition and GLUT-1 interactions, 651
- Etoposide
apoptosis induced by, prevention in leukemia cells, 823
Ehrlich ascites tumor cell resistance to, 353
- EXP3174
angiotensin II type 1 receptor antagonists and, 1557
- Feline Genome Project
DNA sequence determination of acetylcholinesterase and butyrylcholinesterase in cat plasma, 479
- Fibroblasts
insulin-treated, ethanol, methanol, and ethanolamine promitogenic effects in, 1391
- Flavonoids
anticarcinogenic properties, P450 enzyme activities and, 189
uncoupling efficiency and affinity for vesicles, 1593
- 5-Fluoro-2'-deoxyuridine
antitumor efficacy, 5-(phenylselenenyl)acylouridine administration effects on, 687
- 5-Fluorouracil
lability during tumor excision and freeze-clamping, 963
toxicity, 2'-3'-5'-tri-O-acetyluridine protective effects, 427
- Fluoxetine
B-cell proliferation effects, biochemical pathways and, 1279
- Formyl peptide
deficient desensitization of, in HL-60 cells, 179
- Free radicals
cardiotoxicity of daunorubicin and, 1435
- Fura 2
platelet activation inhibition by nucleoside 5'-alkylphosphates and, 197
- Gastrointestinal tract
neuronal nitric oxide synthase localization in, 145
- Gene expression
butyrylcholinesterase gene expression in *Bombys mori*, 121
epigallocatechin gallate effects on glutathione S-transferase expression in liver, 643
NF- κ B-dependent, A20 and A20-binding proteins as inhibitors of, 1143
nuclear receptors effects on, 127
regulation by integrin-linked kinase, 1115
tamoxifen biliary excretion rate association with previous tamoxifen exposure and, 233
- Gene regulation
heme oxygenase-1 and, 1121
- Gene therapy
cancer, p53 regulation and, 1153
- Genetic studies
Feline Genome Project, acetylcholinesterase DNA sequence determination, 479
- Genistein
dietary, heart disease and cancer effects, 1
prostate cancer prevention by dietary agents, 1051
- Genotoxicity
benzo[α]pyrene, 3'-methoxy-4'-nitroflavone effects on, 189
- Geranylgeranyl
inhibition of prenylation of Ras and G-proteins and, 1051

- GH3 cells
epidermal growth factor inhibition in, 111
pituitary, epoxyeicosatrienoic acid actions on Ca^{2+} -activated K^2 channels in, 251
- Ginseng saponin
apoptosis induction via caspase-3 protease activation, 677
- Glioma
selenoprotein biosynthesis regulation and, 489
- Glioma cells
protein with vitamin D sensitivity in, 1361
- Glucose transport
etomidate, ketamine, propofol inhibition of, 651
- Glucosinolates
leukemia inhibitory role, 221
- GLUT-1
etomidate, ketamine, propofol interactions with, 651
- Glutamate
accumulation in astrocytes after glutathione depletion, 979
- Glutamic acid
 $\text{A}_{2\text{A}}$ adenosine receptors mutagenesis studies and, 661
- Glutathione
levels in human plasma, 19
regulation by tumor necrosis factor- α and dexamethasone in alveolar epithelial cells, 1041
- Glutathione depletion
nitric oxide, hydrogen peroxide, and glutamate accumulation in astrocytes after, 979
- Glutathione peroxidase
selenoprotein biosynthesis regulation in glioma and, 489
- Glutathione S-transferase
hepatic, ethanol effects on expression, 1491
induction by epigallocatechin gallate, 643
- Glycation
aminoguanidine kinetics and, 55
- Glyoxal
aminoguanidine kinetics and, 55
- GMP kinase isoenzymes
guanine phosphonmethoxyalkyl interaction with, 1907
- G-proteins
cholecystokinin receptor activation of phospholipase C activation in hormone-secreting pancreatic cells and, 865
- Grape polyphenols
ethanol and, role, inhibition of inducible nitric oxide synthase, 1539
- Grb2
antitumor activity, 1165
- GTP-binding regulatory protein
histamine H_2 receptors mediation of cAMP in U937 cell line and, 159
- Guanine phosphonmethoxyalkyl
interaction with GMP kinase isoenzymes, 1907
- Helicobacter pylori*
nuclear factor- κB activation and immune response in, 1109
- Hematological disorders
 γ -globin genes therapeutic effects in, 31
- Heme oxygenase-1
gene expression in multiple organ dysfunction syndrome, 275
gene regulation of, 1121
- Hemoglobin
aspirin acetylation of, 917
fetal, sickle cell disease and, 31
- Hepatocyte growth factor
okadaic acid effects on production in fibroblasts and, 1531
- Hepatoma HepG2 cells
transcriptional response to dioxin, 1129
- Hepatotoxicity
cocaine effects on mitochondrial respiration and ROS generation, 615
- Herbal medicine
echinacea use in, 155
- Hibiscus* protocathechuic acid
leukemia apoptosis induction and, 307
- Histamine H_2 receptors
cAMP response mediation by, in U937 cell line, 159
- Histidine
 $\text{A}_{2\text{A}}$ adenosine receptors mutagenesis studies and, 661
- HIV-1 protease
inhibition by boron-modified polypeptide, 927
- HIV reverse transcriptase
non-nucleoside inhibitors of, 1251
- HL-60 cells
calmidazolium effects on calcium influx in, 317
formyl peptide receptor deficient desensitization in, 179
- Homeostasis
thiols and disulfides role in, 19
- Homocysteine
levels in human plasma, 19
- Horseradish peroxidase
