

Corrigendum to “Stimulation of neuropeptide Y-mediated calcium responses in human SMS-KAN neuroblastoma cells endogenously expressing Y2 receptors by co-expression of chimeric G proteins”
[Biochemical Pharmacology 69 (10) (2005) 1493–1499]

Frank M. Dautzenberg*

Axovan Ltd., Gewerbestrasse 16, 4123 Basel, Switzerland

The author regrets that in the above article information regarding the location of the synthesis was printed incorrectly. It is now reproduced correctly below.

The Y2 specific antagonist BIIE0246 was synthesized at F. Hoffmann-La Roche AG, Basel, Switzerland and not provided by Dr. Annette Beck-Sickinger. The author apologizes for this oversight.
