

Announcement

All members of the National Societies of Biochemistry and all persons interested in the field are invited to participate in the VIII International Congress of Biochemistry which will be held in Rome from September 3-9, 1970.

The scientific meetings as well as a scientific and a technical exhibition will take place at the "Palazzo dei Congressi" - E.U.R. (Esposizione Universale di Roma).

The scientific program of the Congress will consider the following topics:

Protein Structure

Protein Reactivity

Mechanism of Enzyme Action

Bioenergetics and Biological Oxidation

Nucleic Acids and Protein Synthesis

Biochemical Regulation and Control System

Biochemistry of Cellular Structure and Multienzyme Systems

Biochemistry of Development and Differentiation

Immunochemistry

Special Topics

The program containing all information necessary for those attending the Congress will be sent to all members of the National Societies of Biochemistry and others may secure it from:

Prof. A. Rossi Fanelli
Istituto di Chimica Biologica
Universita di Roma
Rome, Italy
