

Announcement

A Colloquium on Bioenergetics will be held in Pugnochiuso, near Bari, Italy, on September 11-14, 1970, immediately following the 8th International Congress of Biochemistry (Switzerland, September 3-9, 1970). The purpose of the Colloquium will be to discuss specific aspects of bioenergetics more intensively and extensively than it would be possible (or desirable) to do at an International Congress designed for a wider audience. The organizers of the Colloquium on Bioenergetics will coordinate their efforts very closely with those of the organizers of the International Congress. The program will be announced later. There will be a number of invited speakers. In addition, limited participation by application will be possible. If there is sufficient interest, a charter flight from Switzerland to southern Italy could be arranged on September 10.

The Executive Committee responsible for the organization of the Colloquium on Bioenergetics consists of: G. F. Azzone (Italy); E. Carafoli (Italy); L. Ernster (Sweden); S. Papa (Italy); E. Quagliariello (Italy); C. S. Rossi (Italy); N. Siliprandi (Italy); E. C. Slater (The Netherlands); J. M. Tager (The Netherlands); and O. Wiss (Switzerland).

All requests for information should be directed to the Secretariat: Istituto di Chimica Biologica, Università degli Studi di Bari, Via Amendola 165/A, Bari, Italy.
