

Any significance of the subtle structural features of luciferin to its biochemical properties cannot be resolved without further study.

ACKNOWLEDGEMENTS

This work was supported by National Institutes of Health Grants GM-01728 and NS-09178.

Erratum

Volume 41, No. 2 (1970), in the Communication, "Cytokinin Activity in tRNA^{Phe}," by S. M. Hecht, R. M. Bock, N. J. Leonard, R. Y. Schmitz, and F. Scoog, pages 435-440, Page 437 - RESULTS AND DISCUSSION - the first sentence should read:

"The fluorescent base of tRNA (2.0 g) derived^{4,5} from wheat germ was used to record a time-averaged 100 MNz nmr spectrum in CDCl₃ at - 20 °".
