

## ERRATUM

Volume 48, Number 6, September 26, 1972

In "Prevention by Cycloheximide of Petite Mutation in Yeast," by Peter A. Whittaker and Maureen Wright, pp. 1455-1459:

On page 1457, the legend of Fig. 1 should read as follows.

Fig. 1. Effects of cycloheximide on ethidium bromide and 5-fluorouracil induced petite mutation in yeast. Saccharomyces cerevisiae (N.Y.C. 239) inoculated at  $10^4$  cells/ml into 100 ml glucose liquid medium in a 250 ml flask. (a) Ethidium bromide additions: O-O 20  $\mu\text{g/ml}$ ; ●-● 4  $\mu\text{g/ml}$ . (b) 5-Fluorouracil additions: ●-● 50  $\mu\text{g/ml}$ ; O-O 15  $\mu\text{g/ml}$ ; ■-■ 5  $\mu\text{g/ml}$ . Cycloheximide additions as indicated. Percentage petite mutants was assayed after ten generations of growth.
