

ERRATUM

Volume 80, Number 3, February 14, 1978

In "LH Biosynthesis and Secretion in Rat Anterior Pituitary Cell Cultures: Stimulation of LH Glycosylation and Secretion by GNRH and an Agonistic Analogue and Blockade by an Antagonistic Analogue" by Salman Azhar, J. R. Reel, Ca. A. Pastushok, and K. M. J. Menon, pp. 659-666, on page 661, the section entitled "Peptides" should read:

The GnRH and the three analogs employed in this study were synthesized and provided to us by Warner Lambert/Parke-Davis chemists. These synthetic peptides were as follows: GnRH, P-Glu-His-Trp-Ser-Tyr-Gly-Leu-Arg-Pro-GlyNH₂ (acetate-hydrate; M.W. 1329); Agonist, [des-GlyNH₂¹⁰]-GnRH ethylamide (acetate-hydrate, M.W. 1363); Antagonist, [D-Phe², D-Phe⁶]-GnRH (hydrochloride; M.W. 1382); and inactive analogue, p-Glu-His-Trp-Ser-Tyr-Gly-Leu-ArgNH₂ (acetate-hydrate; M.W. 1139).
