

Volume 158, Number 3, February 15, 1989

In the article "Zero-Field Mössbauer Studies of Diferric Human Transferrin," by Ferenc Kilár, Agneta Gustavsson Seidel, and Lennart Häggström, pages 755-761:

The amounts of the ^{57}Fe under Materials and Methods should be expressed in μg instead of mg. On page 761, Reference [16] should read Kilár, F., and Hjertén, S. (1989) Electrophoresis 10, 23-29.
