

ERRATA

Volume 196, Number 1, October 15, 1993

In the article "Purification and Characterization of a 38-kDa Protein, sp38, with Zona Pellucida-Binding Property from Porcine Epididymal Sperm," by Etsuko Mori, Tadashi Baba, Akihiro Iwamatsu, and Tsuneatsu Mori, pages 196-202:

On page 198, Fig. 1 was inadvertently omitted. For the reader's convenience, Fig. 1 is printed below.

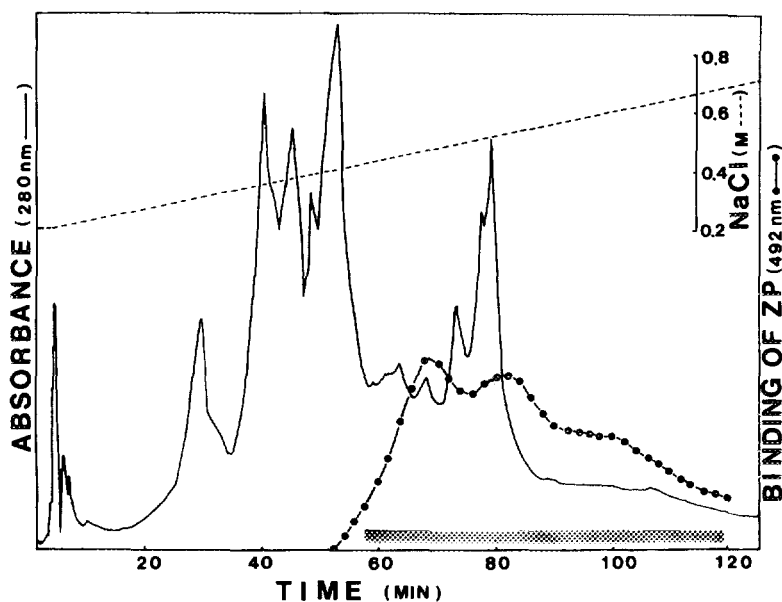

Fig.1. Cation exchange HPLC of ZP-binding proteins. ZP-binding proteins were subjected to a TSK gel SP-5PW and eluted by a gradient elution of 0.2-1M NaCl. The effluents were examined for ZP-binding by the solid-phase binding assay.
