The author regrets the misspelling of the second author's name. The author line is correct as it appears above.

In line 5 of the Abstract, “free-body cells” should read “synovial cells”.

In Table 1, the reverse primers sequences of BMP-2, -4, -6, -7, Runx2, and Ocn were represented reversely, and the sequences of Col2a1 and Col10a1 were incorrectly represented. Table 1 is correct as it appears below:
