## Publisher's Note

## Announcing new Editor-in-Chief

As announced in the Special Tribute Section: *Honoring William J. Lennarz, BBRC Editor-in-Chief (1985 to 2012)*, Volume 425, Issue 3 (2012), Professor W.J. Lennarz (Bill) has recently retired as Editor-in-Chief of BBRC.

I am pleased to announce that Ernesto Carafoli has accepted the Editor-in-Chief position. Ernesto Carafoli has been on the Editorial Board of BBRC for many years and has always been intensively involved with the journal. His agreement to assume the leadership of the journal for the coming years will guarantee a smooth transition.

On behalf of the Editorial Board I would like to thank Bill for his leadership and dedication to the journal. We are looking forward to working with Ernesto and to continue improving BBRC, the fastest journal for new and significant advances in molecular life science.

Dr. Dolors Alsina

*Executive Publisher Biochemistry*
