Crystal Structure Determination and Refinement at 2.3-Å Resolution of the Lentil Lectin, by Remy Loris,* Jan Steyaert, Dominique Maes, John Lisgarten, Richard Pickersgill, and Lode Wyns, Volume 32, Number 34, August 31, 1993, pages 8772–8781.

Page 8776. An error is present in the aligned sequences in Figure 4. The corrected figure is shown below. The sequence now agrees with the submitted X-ray coordinates and the description in the rest of the paper.

Page 8776. The legend to Figure 5 is incorrect. It should read as follows:

Figure 5: Electron density map around Argβ159 in monomer A. The arginine side chain is well-defined as well as the covalent link between Glyβ157 and Gluβ158. The map was calculated using phases derived from the final structure after removal of residues Leuβ154A to Gluβ161A.
