

This exciting and educational new board game aids in learning about the elements that make up our universe. As players move around the element board, neutron and proton certificates are used to acquire elements and pay fees. A Periodic Table in the center of the board, used to keep track of acquired elements, reinforces knowledge of the Periodic Table. Thirty Element0 cards describe uses for the elements in everyday living.

- Periodic Table
- Atomic Number
- Element Names
- Element Symbols
- Actinide Series
- Lanthanide Series

Element0 is fun for teachers, students, and parents. Makes a great gift! Ages 10 to adult, 2 to 6 players. No previous knowledge of chemistry is required to play.
