RECANTATION OF PUBLICATION

Heparin Binding Site, Conformational Change, and Activation of Antithrombin, by Dyfed Ll. Evans,* Craig J. Marshall, Peter B. Christey, and Robin W. Carrell, Volume 31, Number 50, December 22, 1992, pages 12629–12642.

The authors listed above wish to recant this publication because we have been unable to reproduce the circular dichroism data that is central to its conclusions. We apologize to the Journal and its reviewers for the extra work that has resulted from the publication of this paper.

The publishers regret the delay in publication of this retraction which was received in July of 1993.
