Conformational Dynamics of Partially Denatured Myoglobin Studied by Time-Resolved Electrospray Mass Spectrometry with Online Hydrogen–Deuterium Exchange, by Douglas A. Simmons, Stanley D. Dunn, and Lars Konermann*, Volume 42, Number 19, May 20, 2003, pages 5896–5905.

Page 5901. Equation 6 should read as follows:

$$I_L/(I_L + I_H^{\text{corr}}) = 0.55 \exp(-3.6t) + 0.43 \exp(-0.31t)$$
